INDUSTRY STRUCTURE AND DEVELOPMENTS

Power is one of the most critical components of infrastructure crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy.

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

India ranks third among 40 countries in EY's Renewable Energy Country Attractiveness Index, on back of strong focus by the government on promoting renewable energy and implementation of projects in a time bound manner.

Indian power sector is undergoing a significant change that has redefined the industry outlook. Sustained economic growth continues to drive electricity demand in India. The Government of India's focus on attaining 'Power for all' has accelerated capacity addition in the country. At the same time, the competitive intensity is increasing at both the market and supply sides (fuel, logistics, finances, and manpower).

Total installed capacity of power stations in India stood at 330,260.53 Megawatt (MW) as on May, 2017.

The Ministry of Power has set a target of 1,229.4 billion units (BU) of electricity to be generated in the financial year 2017-18, which is 50 BU's higher than the target for 2016-17. The annual growth rate in renewable energy generation has been estimated to be 27 per cent and 18 per cent for conventional energy.

The Government has added 10.2 Giga Watts (GW) of conventional energy generation capacity and 12.5 GW of renewable energy capacity in Financial Year 2017

Under the 12th Five Year Plan, the Government has added 93.5 GW of power generation capacity, thereby surpassing its target of 88.5 GW during the period.

India has become an associate member of the International Energy Agency (IEA), which makes the Paris-based body more significant, indicating India's growing prominence in playing an important role in the global energy dialogue, according to the IEA.

The Government of India plans to auction coal blocks for commercial mining by the end of December 2017, which would end the monopoly of state-run firms in coal mining and help in achieving the country's target of producing 1 billion tonnes of coal by 2020.

The Cabinet Committee on Economic Affairs (CCEA) has approved the enhancement of capacity of the Scheme for Development of Solar Parks and Ultra Mega Solar Power Projects from 20,000 megawatt (MW) to 40,000 MW, which will ensure setting up of at least 50 solar parks each with a capacity of 500 MW and above in various parts of the country.

OPERATING RESULTS OF THE COMPANY

The Financial Statements have been prepared in compliance with the requirements of the Companies Act, 2013 and Accounting Standards (AS) notified by the Companies (Accounting Standard) Rules, 2006.

The salient features of the Company's performance are:

OUTLOOK FOR THE COMPANY

With the Central and State Governments promoting Renewable Energy and increased awareness for sustainable energy, the future outlook for the renewable industry is looking very positive. The Company's customers list, which includes well respected big companies and our product acceptability, give us hope to overcome the losses and post a decent top-line and bottom-line in the ensuing year.

HUMAN RESOURCES AND INDUSTRIAL RELATION:

Your Company strongly believes that employees are central to the Company's transformation agenda and that it is important to build capabilities of employees to handle both current and future needs. During the year, the Company worked extensively on identifying the needs of employees across all categories and level. The Company has built a young and vibrant team of qualified and competent professionals to meet the emerging business challenges and market competition.

RISK AND CONCERNS

The Company has to mainly depend on foreign suppliers for import of CRGO and CRNGO. Any delay in procurement of the same would impact the financials of the Company. However, the Company has tied up with major players and has developed a strong relationship with these suppliers. Further, increase in the prices of Electrical Steel would also have an impact on the bottom line of the company. However, it is an established pattern of the company that any escalation in the cost is passed on to the customers to ensure that margins are not affected. While this is the broad understanding with the customers, they may not absorb the increase in raw material cost to full extent at all times and it may not be with immediate effect in all situations.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

In the Company, the Board of Directors is responsible for ensuring that internal financial controls have been laid down in the Company and that such controls are adequate and are functioning effectively. Bil Energy Systems Limited has policies, procedures, control frameworks and management systems in place that map into the definition of Internal Financial Controls as detailed in the Companies Act, 2013. These have been established at the entity and process levels and are designed to ensure compliance to internal control requirements, regulatory compliance and appropriate recording of financial and operational information.

Internal Financial Controls that encompass the policies, processes and monitoring systems for assessing and mitigating operational, financial and compliance risks and controls over related party transactions, substantially exist. The senior management reviews and certifies the effectiveness of the internal control mechanism over financial reporting, adherence to the code of conduct and Company's policies for which they are responsible and also the compliance to established procedures relating to financial or commercial transactions, where they have a personal interest or potential conflict of interest, if any.

CAUTIONARY STATEMENT

Statements in the Management's Discussion and Analysis report, describing the Company's objectives, projections and estimates, are forward-looking statements and progressive within the meaning of applicable securities laws and regulations. Actual results may vary from those expressed or implied, depending upon economic conditions, Government Policies and other incidental/related factors.

Annexure B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Bil Energy Systems Limited ('the Company') as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

36 DISCLOSURE PURSUANT TO ADOPTION OF ACCOUNTING STANDARD 15

Gratuity liability for the year is determined on actuarial valuation by The Life insurance company of India with whom the company has taken a policy for settlement of future gratuity liability.

37 In terms of the requirements of the Accounting Standards-28 on "Impairment of Assets" issued by the Institute of Chartered Accountants of India, the amount recoverable against Fixed Assets has been estimated for the period by the management based on present value of estimated future cash flows expected to arise from the continuing use of such assets. The recoverable amount so assessed was found to be adequate to cover the carrying amount of the assets, therefore no provision for impairment in value thereof has been considered necessary, by the management.

38 As per the best estimate of the management, no provision is required to be made as per Accounting Standard (AS) 29 'Provision, Contingent Liabilities & Contingent Assets' as notified by the companies (Accounting Standards) Rules 2006, in respect of any present obligation as a result of a past event that could lead to a probable outflow of resources which would be required to settle the obligation.

39 Consumption of consumable stores is wholly indigenous in the current & previous year.
