MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A) INDUSTRY STRUCTURE AND DEVELOPMENT:

The growth in the mining sector has always benefited private industries in relatively backward states that have low per capita income than national averages such as Jharkhand, Rajasthan, Odisha, Chhattisgarh and Madhya Pradesh, which constituted about 54% of India's mining sector's GDP and about 37% of sectoral employment.

As per Government of India Ministry of Mines survey report published in October 2011 of 12th Five Year Plan, for every 1% increase in economic growth, the mining sector creates 13 times more employment than agriculture and six times more than manufacturing.

OVERVIEW:

Max Alert Systems Ltd is a natural resource-based building materials company. The Company supplies aggregates (crushed stone, sand and gravel) through quarries / mines and distribution yards to its customers in Jharkhand. Company also provides cement and downstream products, namely, pavers, Hollow Bricks in vertically-integrated structured markets where as the Company has a leading position in aggregates. The Company's heavy-side building materials are used in infrastructure, non-residential and residential construction projects. Aggregates are also used in Building construction and infrastructure projects and as railroad ballast. The aggregates, paver tiles and Holo bricks and paving product lines are reported collectively as the "Building Materials" business.

OPERATIONS:

The Building Materials business is significantly affected by weather patterns and seasonal changes. Production and shipment levels for aggregates, and paving materials correlate with general construction activity, most of which occur in the spring, summer. Thus, production and shipment levels vary by quarter. Excessive rainfall, and conversely excessive drought, can also jeopardize production, shipments and profitability in all markets served by the Company. Due to the potentially significant impact of weather on the Company's operations, current period and year-to-date results are not indicative of expected performance for other interim periods or the full year.

B) PERFORMANCE:

During the Financial year ended on 31st March, 2019 the Total Revenue of the Company stood at Rs. 190,852,984.00/- as compared to previous financial year ended on 31st March, 2018 of Rs. 138,953,388.00/-

In the following table, please find brief of Financials of the Company:

PARTICULARS	FINANCIAL YEAR ENDED 31st MARCH 2019	FINANCIAL YEAR ENDED 31st MARCH 2018

C) OPPORTUNITIES & THREATS

The country has potential for Industrial and minor mineral over large area. Stone crushing and mining industry is an important industrial sector, Leased area engaged in producing crushed stone of various sizes depending upon the requirement which acts as raw material for various construction activities such as construction of Roads, Highways, Bridges, Buildings, and Canals etc. Over the last 10 years, the Construction sector has been registering strong growth rates in the range of 7-8%. Housing and construction is one of the major drivers of growth in more than 40 allied industries including Stone Crushing. In addition, for the building of roads, flyovers and bypasses, there is a mass and consistent need of crushed stone across the country.

Further, Max Alert systems Ltd plans to have 25 crushers operational across India in the coming years in Jharkhand, Madhya Pradesh, Chhattisgarh, Tamil Nadu & Kerala. Of these, 15 crushers are planned in the state of Jharkhand.

India has the required raw materials in abundance, the lack of exploration, non-simplified policies and delayed approvals have resulted in decline in extraction of minerals and this has led to the sluggish growth in mining. Even the sustenance of some of the sectors that are dependent on raw material from mining is being threatened. Still the mining sector alone has the potential particularly in the rural sector.

However, the said business is prone to various external and internal threats i.e. Government policies, State Policies, Pollution Laws, Market for Infrastructure Development, Labour Acts etc.

D) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

An appropriate and adequate system of internal control exists in your company to ensure that all assets are safeguarded and protected against loss or from misuse or disposition, and that the transactions are authorized, recorded and reported suitably. Internal control systems are ensuring effectiveness of operations, accuracy and promptness of financial reporting and observance with laws & regulations.

The internal control is supplemented on an ongoing basis, by an extensive program of internal audit being implemented throughout the period. The internal audit reports along with management comments thereon are review by the Audit Committee of the Board comprising of independent and non-executive Directors, on a regular basis. Implementations of the suggestions are also monitored by the Audit Committee. The internal control is designed to ensure that the financial and other records of the company are reliable for preparing financial statements and other data, and for maintaining accountability of assets.

E) HUMAN RESOURCES POLICIES:

Mining is a labor-intensive industry and has a huge potential for employment generation particularly in the hinterland and backward areas, which have limited potential for other economic activities. In addition, it acts as a significant variable towards achieving a sustainable and inclusive growth.

The private sector must play, and has always played, a significant role towards enhancing skill development programmes for the youth to encourage self-employment. The mining sector alone has the potential to absorb such trained manpower, particularly from the rural sector.

India would need significantly higher contribution by the mining sector in the GDP if the country wants to become a \$5-trillion economy and achieve 8% GDP growth. Economic development generates employment opportunities; thus, all the sectors that have the potential to contribute immensely to economic development must be provided equal opportunities for growth and be assessed eventually.

It is your company's belief that people are at the heart of corporate & constitute the primary source of sustainable competitive advantage. The trust of your company's human resource development efforts therefore is to create a responsive and market driven organization. Your company continues its focus on strengthening competitiveness in all its business. Your directors look forward to the future with confidence. The company has followed a conscious policy of providing training to Management Staff through in-house and external programmes, for upgrading personal and technical skills in relevant areas of functional disciplines.

F) RISK MANAGEMENT:

Although the company has long been following the principle of risk minimization as is the norm in every industry, it has formally adopted steps for framing, implementing and monitoring the risk management plan for the company through Audit Committee.

The main objective of this plan is to ensure sustainable business growth with stability and to promote a pro-active approach in reporting, evaluating and resolving risks associated with the business. In order to achieve the key objective, the policy establishes a structured and disciplined approach to Risk Management, in order to guide decisions on risk related issues.

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks inter alia are Regulations, Competition, Business risk, Technology obsolescence, Investments, Retention of talent and Expansion of facilities.

Business Risk, inter alia, further include financial risk, political risk, fidelity risk, legal risk. As a matter of policy, these risks are assessed and steps are taken to mitigate the same.

“Annexure – B” to the Independent Auditor’s Report

[As referred to in paragraph 2(f) of our Report of even date to the members of **Max Alert Systems Limited** for the year ended 31st March 2019]

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Max Alert Systems Limited (“the Company”) as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
