Item No.6 & 7

The Board of Directors recommends the Special Resolution set out at Item No.6 & 7 of the Notice for approval by the members.

1. The Company is facing liquidity issues and challenges in debt servicing due to inter alia slower recovery than the envisaged recovery in the economy and infrastructure sector, Lower margins in steel, non-off take of surplus power by State Utilities, increased interest cost for the Company due to increase in the working capital requirement and slow-realization of receivables. This has resulted in a gap of cash flow timing mismatch between earnings, realizations earnings and debt servicing. With this cascading effect the Company is facing challenges in the manufacturing activity, marketing and also in servicing of its debt.
2. Accordingly, in order to bridge the aforementioned cash flow timing mismatch, the Lenders deliberated various solutions to address the aforementioned liquidity issues and recommended the Scheme for Sustainable Structuring of Stressed Assets ("S4A Scheme") introduced by the Reserve Bank of India ("RBI") pursuant to its circulars dated June 13, 2016 and as amended further on November 10, 2016 ("S4A Circulars").
3. The Lenders in their various Joint Lender's Forum ("JLF") meetings deliberated on the various options and agreed to explore the recommendation of the Monitoring Committee for invoking the S4A Scheme for the Company and decided to invoke the S4A Scheme with the Reference Date as 28.12.2016. The Lenders have deliberated and agreed to convert part of their entire debt exposure ("Part B Debt of SEIL S4A Scheme") to Optionally Convertible Debentures (OCDs) pursuant to implementation of the S4A Scheme in accordance with and as specified in the financing documents entered/to be entered by the Company with, inter alia, the Lenders for the purpose of implementation of the S4A Scheme (hereinafter referred to as the "S4A Agreements/ S4A Documents"), aggregating the outstanding loan/ debt as more specifically set out in the Special Resolution at Item No.6 & 7 of this Notice.
4. Pursuant to the implementation of the S4A Scheme which has been invoked on 28.12.2016, (Reference Date) and approved by Overseeing Committee (OC) of the RBI as communicated by the Lenders vide their letters dated 10th August 2017 (SEIL S4A Scheme") and in terms of the S4A Agreements, it is proposed to consider the offer and issue of OCDs on Preferential Basis as per applicable laws and extant regulations in the manner set out in the Resolution at Item No.7, by way of conversion of existing part B debts as per the SEIL S4A Scheme, to be allotted to the Individual Lenders, based on the respective Lender's outstanding debt for the Securities of the Company.
5. As per the SEIL S4A scheme, promoters have volunteered to transfer the already pledged equity shares in favour of Lenders upto 1,18,34,715 shares of Rs. 10/- each to comply with the SEIL S4A scheme resulting in the change of promoters shareholding to that extent. The Promoters will also transfer upto 59,71,637 additional equity shares of Rs.10/- each in favour of the Lenders as per the agreement with the Lenders. Though the conversion of debt into equity was available in the S4A scheme of RBI, the Promoters volunteered and agreed to dilute their stakes alone as mentioned above in the interest of the Company and the other stake holders as a whole.
6. As per Section 42 and 71 and other applicable provisions of the Companies Act, 2013 and Rules made thereunder, in order to enable the Lenders to convert the outstanding loans or any other financial assistance already availed from the Lenders or as may be availed from the Lenders, from time to time, by the Company, at their option, into OCDs of the Company, requires approval by way of special resolution passed by the shareholders of the Company.

7. Further, as per Sections 42 and 71 of the Act, the issue of debentures with option to convert such debentures into shares, wholly or partly, requires to be approved by a special resolution passed at a general meeting.
8. The special resolution, if passed, will have the effect of allowing the Board/Committee to issue and allot Securities to the above mentioned proposed allottees / Lenders, on a preferential basis, who may or may not be the existing members of the Company.
9. Since the proposed Special Resolution at Item No. 7 would result in issue of Securities of the Company to proposed allottees/ Lenders on a preferential basis, who may or may not be the members of the Company, in the manner laid down under Section 62, 42, 71 of the Companies Act, 2013, the consent of the shareholders is being sought pursuant to the provisions of Section 62, 42, 71 and all other applicable provisions of the Act, SEBI ICDR Regulations, the Listing Agreement and the SEBI LODR Regulations. Accordingly, the Board recommends the resolution as set out in Item Nos. 6 and 7, to enable the Lenders, in terms of the lending arrangements, entered/to be entered, and as may be specified under the financing documents already executed or to be executed in respect of the Financial Assistance availed/to be availed, at their option, to convert the whole or part of their respective outstanding Financial Assistances into OCDs of the Company, and to permit the Company to issue the said Securities to the members of the Company in the manner and upon such terms and conditions as may be deemed appropriate by the Board.
10. OCD's may or may not be listed subject to SEBI/Stock Exchange Regulations. However, Equity Shares to be issued and allotted arising from conversion of OCDs, would be listed on BSE and NSE, subject to obtaining necessary regulatory approvals, if any.
11. In terms of the provisions of the Act read with Rule 13 of the Companies (Share Capital and Debentures) Rules, 2014, SEBI ICDR Regulations and other applicable provisions of the law, relevant disclosures/details are given below:

The concerns of liquidity issues were discussed with lenders for a suitable debt resolution. The Lenders in their various Joint Lender's Forum ("JLF") meetings deliberated on the various options and agreed the recommendation for invoking the S4A Scheme introduced by the Reserve Bank of India ("RBI") for the Company with the Reference Date (DOR) as 28.12.2016. Though the conversion of debt into equity was available in the S4A scheme of RBI, the Promoters volunteered and agreed to dilute their stakes alone as mentioned above in the interest of the Company and the other stake holders as a whole. The number of OCDs issued will be reduced to the extent of equity shares acquired by the Lenders. MANAGEMENT DISCUSSION AND ANALYSIS

Steel Industry Structure and Developments:

Global Scenario:

The global steel demand growth momentum remains weak, but emerging Asia continues to be the bright spot. In 2016, World Crude Steel production increased marginally by 0.8% to 1630 million tonnes from 1615 million tonnes in 2015. All major steel producing countries U.S., European Union (EU), Japan etc. recorded a decrease except India and China. In 2016, India recorded an increase in crude steel production to 95.5 million tonnes with a growth of 7.5% and China remains as the leading producer of steel contributed 49.5% of the global output at 808.5 million tonnes showing 1.2% growth over previous year.

Indian Steel demand to grow by 6.1% in 2017 and by 7.1% in 2018, while global steel demand has been projected to grow by 1.3% in 2017 and by 0.9% in 2018.

Domestic Scenario

India is currently the 3rd largest producer of crude steel in the world and was the 2nd largest producer of Sponge iron in 2016. Coal based route accounted for 79% (approx.) of total sponge iron production in the country in 2016-17. The demand and availability of steel in India is largely determined by market forces. With the developments in infrastructure and rapid growth in industrial sector and also the availability of raw materials, urbanization and increase in incomes and consumer demand in India, the demand is expected to grow.

Domestic steel prices are influenced by trends in raw material prices, demand-supply conditions in the market, international price trends among others and the gaps in demand -supply are met to some extent through imports.

- India produced around 100.74 million tonnes of total finished steel in 2016-17, which was a 10.7% growth over the previous year 2015-16.
- India has overall positive economic growth due to the reforms and policies by central government, to increase infrastructure and manufacturing output. The Govt. of India allocates funds and encourages private participation through the PPP route to push for infrastructure development.
- Currently, the GST of 18% is applicable on steel and there is no export duty on steel, but Govt. imposed 30% export duty on iron ore except low grade iron ore and Iron ore pellets. Government of India monitors the steel market conditions and adopts fiscal and other policy measures based on its assessment.

Government Initiatives

The Government of India has released the National Steel Policy 2017 which has laid down the broad road map for encouraging long term growth for the Indian Steel Industry by 2030-31, with an objective of nation building and encouraging domestic manufacturers.

The Government of India had raised import duty on most steel items twice by 2.5 % each time by 2.5% and anti-dumping and safeguard duties on host of applicable iron and steel items to control the inflow of cheap steel.

The government has launched the National Mineral Exploration Policy (NMEP), which will help to adopt comprehensive exploration of non-fuel and non-coal mineral resources that would give a major boost to the economy.

Metal Scrap Trade Corporation (MSTC) Limited and the Ministry of Steel have jointly launched an e-platform called 'MSTC Metal Mandi' under the 'Digital India' initiative, which will facilitate sale of finished and semi-finished steel products.

Public sector mining giant National Mineral Development Corporation (NMDC) is setting up a greenfield 3-million tonne per annum steel mill in Karnataka at an estimated investment of Rs 15,525 crore (US\$ 2.8 billion). Further investments have also been planned by NMDC in coming years in view of requirement of Iron Ore for production of 300 MT steel by 2030

SAIL is currently expanding its hot metal capacity from 13 MTPA to 23 MTPA, at an investment of around Rs. 72,000 crore. Government has planned Special Purpose Vehicles (SPVs) with four iron ore rich states i.e., Karnataka, Jharkhand, Orissa, and Chhattisgarh to set up steel plants having capacity between 3 to 6 MTPA.

The total outlay for infrastructure in Budget 2016-17 stands at Rs 221,246 crore (US\$ 32.8 billion), which is expected to generate much needed demand for steel industry.

The Government of India approved the National Steel Policy (NSP) 2017, as it seeks to create a globally competitive steel industry in India. NSP 2017 targets 300 million tonnes (MT) steel-making capacity and 160 kgs per capita steel consumption by 2030.

The policy also envisages to domestically meet the entire demand of high grade automotive steel, electrical steel, special steels and alloys for strategic applications and increase domestic availability of washed coking coal so as to reduce import dependence on coking coal from about 85% to around 65% by 2030-31.

India is expected to become the second largest steel producer in the world by 2018, based on increased capacity addition in anticipation of upcoming demand, and the new steel policy, is expected to boost India's steel production.

It is expected that consumption per capita would increase supported by rapid growth in the industrial sector, and rising infra expenditure projects in railways, roads & highways, etc.

The steel sector in India contributes nearly two per cent of the country's gross domestic product (GDP) and employs over 6,00,000 people.

(Source: World Steel Association Reports; ibef.org; steel.gov.in etc.)

Opportunities:

India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2030-31 by creating a capital investment of about Rs. 10 lakh crore by 2030-31.

India is a developing economy with a large population and forces of economic growth will require continued investments in new infrastructure, new and larger cities, machinery and production.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors. Finished goods per capita consumption is projected to increase about 160kgs by 2030-31 as against the current consumption of 60kgs.

Threats:

- Indian Steel Industry may continue with low profitability during this year due to sluggish demand and low prices and steel imports.
- Increase in iron ore, coal prices etc. may affect the steel industry resulting in lower profitability.
- Though the government is pushing for use of domestic steel for government projects which are long term driven, it may have long-term gain but may not be seen in short and medium term gains.
- China with over loaded raw materials for steel production, the decrease in its steel capacity may not be seen in near future.
- Iron and Steel is a highly capital intensive and requires upgrading of facilities to maintain quality of products, which demands more capital investments.
- Production cost reduction while improving the quality is essential to maintain margins in the competitive current market trends.

Your company is taking all possible steps to protect from internal and external threats in the industry. However, the manufacturing cost in India remains high and the high borrowing cost and debt servicing is still to be managed by continuing its efforts for cost reduction and quality improvement. The Company is implementing the S4A Scheme with the approval of the Lenders to overcome the debt servicing cost. The company plans to increase the usage of plant capacity for more production during the years ahead.

**"Annexure B" to the Independent Auditor's Report of even date on the Standalone Financial Statements of
STEEL EXCHANGE INDIA LIMITED****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of STEEL EXCHANGE INDIA LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance

Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion

or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

ix) Inventories:

Inventories are valued at the lower of cost and net realizable value. Cost of inventories comprises all cost of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined by First In First Out (FIFO) method.

The liability towards excise duty on finished goods lying in excise godown is provided in the books and therefore the stock is valued inclusive of excise duty payable thereon in accordance with the provisions of AS-2 "Valuation of Inventories". However this has no impact on the profit of the year.

x) Investments:

Long-term investments are carried at cost less provision for diminution other than temporary, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

xi) Income Tax:

Income taxes are accrued in the same period that the related revenue and expenses arise. A provision is made for income tax, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the Balance Sheet.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

xii) Retirement and other Employee Benefits:

- Defined Contribution Plan:** Fixed contributions to Provident Fund are recognized in the accounts at actual cost to the Company.
- Defined Benefit Plan:** The Company makes contribution to a scheme administered by the insurer to discharge gratuity liabilities to the employees. The Company records its gratuity liability based on independent actuarial valuation as at the Balance Sheet date.
- Other Employee Benefits:** Other employee benefits are estimated and accounted as per the company's policy and the terms of the employment contract.

xiii) Foreign Currency Transactions:

Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction. Monetary foreign currency assets and liabilities are reported at the exchange rate prevailing on the balance sheet date. Exchange differences relating to long term monetary items, arising during the year, as so far as they relate to the acquisition of the depreciable capital asset are added to/deducted from the cost of the asset and depreciated over the balance life

NOTES to Financial Statements for the year ended 31st March, 2017

of the asset after the commencement of actual production.

xiv) Cash flow statement:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Cash and cash equivalents presented in the cash flow statement consist of cash on hand and unencumbered highly liquid cash bank balances.

xv) Provisions:

A provision is recognized when the Company has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

xvi) Earnings Per Share:

The company reports basic Earnings per share (EPS) in accordance with Accounting Standard 20 on "Earnings per share". Basic EPS is computed by dividing the net Profit or Loss for the year attributable to equity share holders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xvii) Segmenting Reporting:

The Company is primarily engaged in the business of manufacture and sale of iron and steel products and generation and sale of power. The primary segment of the company is steel which in the context of Accounting Standard 17 on "Segment Reporting" constitutes reportable segment. However the company has captive power generation for manufacture of steel products. The unutilized power is sold to power traders and the revenue so generated is included in the sales.

xviii) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

xix) Prior period items

All items of income/expenditure pertaining to prior period, which are material, are accounted through "prior period adjustments".

xx) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases.

Where the Company is the lessee

Operating lease payments are recognized as an expense in the Statement of profit and loss on straight-line basis over the lease term.

Where the Company is the Lessor

Assets subject to operating Leases are included in fixed assets. Lease income is recognized in the Statement of profit and loss. Costs including depreciation are recognized as an expense in the Statement of profit and loss.

xxi) Contingent Liabilities

A contingent Liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize contingent liability but discloses its existence in the financial statements.
