MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have pleasure in presenting the management discussion and analysis report for the year ended on March 31, 2016.

(A) INDUSTRY STRUCTURE AND DEVELOPMENT

The Global Footwear Market, by geography, is divided into four regions: North America, Europe, Asia Pacific and Rest of the World. In terms of volume, Asia Pacific is the largest contributor to the market, accounting for a market share of approx. 40%. The major reasons are attributed to increasing middle class population and rapid expansions of footwear industry in emerging countries such as China and India among others. Presently, in terms of revenue, global footwear market is valued at approx. USD 210 Billion and is expected to grow at a CAGR of 2.5% from 2015 to 2023. In terms of volume, global footwear market is approx. 10 billion pairs, which may cross 12 billion pairs in 2023 by growing at a CAGR of 2.3%.

India is the second largest producer of footwear in the world, next to China and has an ever growing domestic market. Annually, India produces about 2.1 Billion pairs and it is estimated that production of footwear will exceed 4 billion pairs by 2020. The per capita consumption of footwear in India is set to grow rapidly from its existing level of 1.7 pairs per annum. The global average per capita consumption of footwear is 3 pairs per annum, whereas the same for developed countries in the world is more than 5 pairs per annum.

The footwear industry is an important driver in the economic growth of India and is a significant segment of the leather industry. The Indian footwear market is divided into organized and unorganized segment, where the latter occupies about 65% of the overall market. In the recent past, the organized footwear sector has witnessed a faster growth and is expected to grow at 15% over the next few years.

(B) OPPORTUNITIES, THREATS AND CONCERNS.

While India is the second largest footwear manufacturers of the world, only 10% footwear produced in India are being exported and the remaining 90% of the production are sold within the country for domestic consumption, China continues to be leading country in the world as an exporter. Indian footwear industry is exploring ways to increase exports and the growth in export of footwear will depend on quality and cost competitiveness.

Indian economy is poised to witness a GDP growth at 6.5% - 7.5% and has the potential to become the third largest economy in the world, after USA and China. Riding on this opportunity and considering that the European Union is facing its own challenges to keep at pace with the growth of World economy, the Indian Footwear Industry is expected to record a good growth, going forward. A large middle class population which includes the World's largest population of youth at a median age of below 35 years and availability of raw materials, skilled labour and improved technology shall help the footwear Industry to maintain its growth rate of approx. 15% CAGR in the second half of this decade. A rapid increase in urbanization and organized retailing also provide good opportunities to the Indian Footwear Industry to improve its business performance year-on-year.

However, the overall industrial growth in India remains at a very moderate rate. The ever increasing list of foreign players keeping their foothold in India is also posing a threat to the local players who find it difficult to keep pace of their growth in an acutely competitive environment. High rate of inflation which leads to increase in cost of raw materials, non availability of skilled labour and regulatory environment also considered as challenges for the footwear industry in India. The demand for designer, trendy and comfortable footwear in India is constantly on a rise and the same needs to be made available to them at an affordable price. Catering to the ever-changing need of the Indian customers requires constant improvement of the products on offer.

Your Company will exploit its leadership position in the organized footwear industry and take appropriate steps to overcome the challenges in the footwear industry to achieve its objectives.

(C) OUT LOOK

India is attracting various established fashion brands of the world as well as retailers who are re-orienting their focus on the domestic footwear market, which has led to a significant increase in the number of retail outlets nationwide. Furthermore, growing fashion consciousness and increasing demand for innovation in design and technology of footwear products is increasing competitiveness in the markets.

Sreeleathers has enjoyed a presence in the Indian footwear industry for more than two decades and has established an integrated supply chain and distribution network, Sreeleathers is exploring the possibilities to understand the latest trends in footwear industry and will take appropriate steps to overcome the challenges in the footwear industry to achieve its objectives.

Despite a challenging retail environment and increase in competitive intensity, Sreeleathers continues to deliver steady improvement in its performance. Sreeleathers is taking appropriate steps to leverage its position to achieve good growth in terms of volumes and profitability.

India has a good potential for the footwear industry in view of rapid change in lifestyle, increase in disposable income of middle-class people.

ANNEXURE II TO INDEPENDENT AUDITORS' REPORT

Statement referred to in paragraph 2(f) of the Independent Auditors' Report of even date to the members of Sreeleathers Limited on the standalone financial statements for the year ended March 31, 2016.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Sreeleathers Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal Control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal Financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and Completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
