MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE & DEVELOPMENT

The fundamental strength of Indian Textile Industry flows from its strong production base of wide range of fibres/yarns - from natural fibres like cotton, jute, silk and wool to synthetic/man-made fibres like polyester, viscose, nylon and acrylic. The Indian textile industry is likely to continue its strong growth, buoyed by both strong domestic consumption as well as export demand. It is currently estimated at around USD 108 billion and is expected to grow at a CAGR of 8.7 percent to reach USD 223 billion by 2021. The industry is the second largest employer after agriculture, providing employment to over 45 million people directly and 60 million people indirectly. The Indian Textile Industry contributes approximately 5 percent to India's gross domestic product (GDP) and 14 percent to overall Index of Industrial Production (IIP). India accounts for 63 percent of global market share of textiles and garments. India accounts for about 14 percent of world's production of textile fibres and yarns.

OUTLOOK

The Indian textile industry has the potential to double itself in size over the next 6-7 years. Government has been overall supportive in encouraging textile industry in India. Textiles and garment industry has been included in list of 25 sectors of 'Make in India' initiative of the Government of India. With the right Government policies, we believe that the Indian Textile Industry is well poised to benefit from the large opportunity offered in the domestic and export market. Under the 'Make in India' initiative, investment opportunities for foreign companies and entrepreneurs are available across the entire value chain of synthetics, value-added and specialty fabrics, fabric processing set-ups for all kinds of natural and synthetic textiles, technical textiles, garments, and retail brands.

COMPETITION

The industry in which we operate is highly competitive and fragmented. Competition emerges from small as well as big players in the textile industry. The organized players in the industry compete with each other by providing high quality-time bound products and value added services. We have a number of competitors offering services similar to us. We believe the principal elements of competition in textile industry are price, fabric quality, timely delivery and reliability. We compete against our competitors by establishing ourselves as a knowledge-based processing unit with industry expertise in Dying and Printing which enables us to provide our clients with innovative designs suitable to current fashion and market requirements.

OPPORTUNITIES AND THREATS

The Company is engaged in manufacturing of textile products. The Company's future relies on the Textile industry growth. China, the leader in global textiles and apparel trade is witnessing an erosion of its cost competitiveness due to increasing labour and power costs, its upward currency valuation and need to service local demand. This is opening out space for other countries like India to provide a value proposition for global sourcing and increase its share of business. Our Company is taking all steps to leverage this opportunity. We are in fact a living and breathing personification of the Make In India campaign launched by our Honourable Prime Minister. But, lack of economies of scale is a major issue in Indian textile. Countries like China and Bangladesh have developed large production set-ups, whereas smaller units, which lack economies of scale and have a low level of technology, dominate the Indian textile sector. Due to lack of large manufacturing capacities Indian manufacturers are unable to cater to large orders and become globally competitive. The threats to the textiles industry are in the form of lack of enough skilled workforce and urgent need for labour reforms in this sector. There is a need for attracting more investments in the industry. The technology up gradation of the textile mills is another area of serious concern.

The Environmental Policy of your company is maintaining clean and green environment and eco friendly atmosphere. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information. ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF VISHAL FABRICS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Vishal Fabrics Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my /our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
