Global Economy Overview

During the year, major economies across geographies remained largely subdued. Global growth declined from 3.4% in 2014 to 3.1% in 2015 driven mainly by fall in commodity prices, considerable tightening in world trade, and choppy financial markets. In the US, growth remained flat at 2.4% with a modest uptake expected in 2017.

The European Central Bank lowered its projections for inflation and economic growth, predicting 1.4% growth for the Euro Area in 2016. The deceleration in large emerging market economies such as China, Russia, and Brazil in 2016 had a rub-on impact on the rest of the world.

INDIAN ECONOMY OVERVIEW

India remains a bright spot amid the global uncertainty, with its growth rate outpacing the emerging as well as developed markets. At 7.6% GDP growth in the financial year ended March 31, 2016 (FY2015-16), India is one of the fastest growing major economies in the world. During the year, the economy crossed the US\$2 trillion mark and is expected to continue the trajectory in FY2016-17. Furthermore, inflation, fiscal deficit, and current account balance have exhibited distinct signs of improvement. India's trade deficit reduced to a five-year low of US\$5.1 billion in March 2016, which came on the back of a sharp 21.6% fall in imports. Trade deficit stood at US\$118.5 billion in FY 2015-16, 14% lower than in the previous year. Consumer price inflation fell to a six-month low of 4.8% in March 2016. In the coming year, a normal monsoon will further boost growth prospects.

Financial Services Industry

India's diversified financial sector comprises commercial banks, non-banking financial companies, co-operatives, pension funds, insurance companies, mutual funds and others. During FY2015-16, the Government took several measures to strengthen the financial services sector, which include Jan Dhan campaign for financial inclusion, licensing of payment banks and small finance banks, the new bankruptcy law, liberalization of foreign direct investment and portfolio investment, universal social security schemes in insurance and pension, and gold monetisation scheme.

Growth Drivers for Financial Services Industry

Strong economic growth and demographic advantage

India's economic growth is expected to rise above 8% over FY2016-20 from around 7% in FY2012-15, helping expand the financial services sector. The economic progress will be supported by a large workforce. According to CRISIL, India is set to become the largest contributor to the global workforce. Its working age population (15-59 years) is likely to swell from 749 million in 2010 to 962 million in FY 2029-30. A large productively employed young population will spur consumption demand and increase in the number of customers in the financial services space.

Key Initiatives

The Government has announced many initiatives to make financial services accessible and affordable to the public. Some of them include:

- **New banking license** - Reserve Bank of India (RBI) has been active in pushing the agenda of financial inclusion across the country. As a part of this vision, RBI has granted in-principle banking licenses to two players, which have become operational in FY 2015-16. This is in line with RBI's directive to set up universal and niche banks in the country, catering to diverse sectors of the economy, with special focus on financial inclusion and micro-credit.
- **Small and payments banks** - The primary objective of setting up small and payments banks is to extend financial inclusion across the country. The small finance banks are expected to offer credit to the society's under-banked sections through high technology and low cost operations. Payments banks are allowed to leverage other players' network, besides their own to help in providing a large number of access points, particularly in remote areas.
- **Jan Dhan Yojana** - The Honorable Prime Minister unveiled the Jan Dhan Yojana, one of the biggest financial

inclusion programmes in the world. The government's long-term mission is to have a full-fledged brick and mortar network for all villages with population above 2,000. Moreover, each bank must have at least one fixed-point banking outlet for every 1,000 to 1,500 households.

- **Benefits to large NBFCs** - NBFCs with asset size of over ₹ 5,000 million would be eligible as a financial institution under SARFAESI Act, which would significantly enable their ability to enforce collateral towards recovery dues from defaulting borrowers. Also, from FY2016-17, NBFCs are eligible for deduction to the extent of 5% of their income in respect of provision of bad and doubtful debts (NPAs) under the Income Tax Act.
- **FDI norms** - FDI will be allowed beyond 18 specified NBFC activities in the automatic route in other activities, which are overseen by financial sector regulators.
- **Affordable housing** - The government has taken several initiatives to encourage development of the housing sector. The Union Budget FY2016-17 has been able to present 360-degree

Opportunity

Changing consumer behavior - The young generation is rapidly adopting technology to interact and transact with the world. The number of internet users in India has tripled to 485 million in the past three years (Source: Euro monitor). New technologies such as cloud and analytics are gaining importance. This would provide a huge opportunity to nimble and innovative players in the financial sector to use technology to strengthen their business. Technology can be used to reach customers in a cost effective manner and enhance customer experience through faster turnaround time, wider product offerings and better risk control and pricing.

THREATS

Uncertainty in global markets, owing to a recessionary environment in advanced economies and increased strain in China and other emerging markets can result in volatile capital inflows and currency fluctuations. In India, the slow pace in implementation of economic reforms and important legislations can further delay growth.

B] SIGNIFICANT ACCOUNTING POLICIES :**a) Basis of Preparation of Financial Statements**

- (i) The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India under the historical cost convention on accrual basis. GAAP comprises mandatory accounting standards as prescribed under section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board Of India (SEBI).

Interest income is recognised on its accrual. Revenue from share trading & derivative trading is accounted on its sale. Dividend income is recognised when right to receive income is established.

c) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/materialized.

d) Provisions, Contingent Liabilities & Contingent Assets:

The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." ANNEXURE TO THE AUDITORS' REPORT

(Referred to in paragraph VI (f) of our Report of even date on the Account for the year ended on 31st March 2016 of M/S VIBRANT GLOBAL CAPITAL LTD.)

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (' the Act')

In conjunction with our audit of the Consolidated financial statements of the company as of and for the year ended 31st March 2016, we have audited the internal financial controls over financial reporting of M/S VIBRANT GLOBAL CAPITAL LTD. ('The Holding Company') and its subsidiary companies as of 31 March, 2016. Such audit of its associate companies which are companies incorporated in India as of 31 March, 2016, were conducted by their respective statutory auditors.

Management's Responsibility for Internal Financial Controls

The respective Board of directors of the Holding Company ,its subsidiary companies & associate companies which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether

adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial control over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or frauds may occur and not be detected. Also, projections of any evaluations of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or

P

that the degree of compliance with the policies or procedures may deteriorate.

Opinion

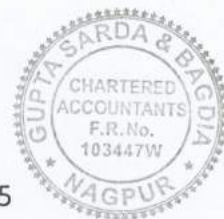

In our opinion, the Holding Company , its subsidiary companies and based on the report on the internal financial control of its associate companies which are companies incorporated in India by their respective statutory auditors, have, in all material respects, an adequate internal financial controls system over financial reporting which were operating effectively as at 31 March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

 - ii) the minorities share of movements in equity since the date the parent subsidiary relationship came in existence.

Dr

II) Significant Accounting Policies:

i) Basis of Preparation of Financial Statements:

The consolidated financial statements have been prepared and presented in accordance with Generally Accepted Accounting Principles (GAAP) in India under the historical cost convention on accrual basis. GAAP comprises mandatory accounting standards as prescribed under section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified).

The Company follows the prudential norms issued by Reserve Bank of India (as amended) for the asset classification, income recognition and provisioning for bad and doubtful debts. The financial statements are presented in Indian Rupees.

ii) Use of Estimates and Judgments:

The preparation of financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Accounting estimates could change from period to period. Actual result could differ from those estimates. Appropriate changes in those estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made & if material, their effects are disclosed in the notes to the Financial Statements.

iii) Revenue Recognition:

a) Interest Income:

Interest income is recognized in the Profit and Loss Account on accrual basis.

b) Dividend Income:

c) Income from Investment:

Profit earned from sale of securities is recognized on trade date basis. The cost of securities is computed based on FIFO basis.

v) Depreciation / Amortization:

One of the subsidiary company has charged depreciation on Straight Line method which is recalculated on the basis of Written down method as followed by other companies in the group. Depreciation on addition / deletions of assets during the year is provided on pro-rata basis.

vi) Investments:

- a) Investments are classified as long term or current based on intention of the management at the time of purchase.
- b) Non- Current Investments are carried at cost less any other-than-temporary diminution in value.
- c) Current Investments are carried at the lower of cost and fair value.
- d) Any reduction in the carrying amount and any reversals of such reduction are charged or credited to the statement of profit and loss.

vii) Stock-in-Trade:

in bringing them to their respective present location and condition. Cost of raw materials, consumables products are determined on FIFO method.

viii) Earnings Per Share:

Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes affected prior to the approval of the financial statements by the board of directors.

ix) Taxation:

a) Current Tax:

b) Minimum Alternate Tax :

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT

P
me

Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

x) Deferred taxation:

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

xi) Provisions, Contingent Liabilities and Contingent Assets:

The Company creates a provision when there is a present obligation as a result of past events and it is probable that there will be outflow of resources and a reliable estimate of the obligation can be made of the amount of the obligation.

Contingent liabilities are not recognized but are disclosed in the notes to the financial statements. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, the asset and related income are recognized in the period in which the change occurs.

xii) Preliminary Expenditure:

xiv) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and item of expenses associated with investing or financing cash flow. The cash flow from operating, investing and financing activities of the company are segregated.

xv) Cash and Cash Equivalents
