MANAGEMENT DISCUSSION AND ANALYSIS (MD&A):

Overall Review

The demand situation in both the Indian Market as well as in the Global Market has been uninspiring. Demonetisation led to further decline in demand in the domestic market during the second half of FY2018. The GDP growth estimate was lowered at 7.1%. In India consumer sentiments remained quite subdued. However the positive moves by the Central Government may bring back the cheers in the market in times to come.

Industry Structure and Development

The global economic conditions remained subdued during the previous year. There was volatile movement of prices in the commodity market. Even in India there were high inflation, higher interest rate and uncertain commodity market as well as agriculture-commodity market. However the new Government at Centre is doing reasonably well to bring back the economy back on path of progress. The fruits of steps taken by the Government will be shown in the coming year. The introduction of GST will transform the market place in India. Doing away with entry permits for sales within the country is a dire need. Forex volatility is something that Industry has to be geared to face, using the tool of hedging most judiciously and conservatively for both export and import.

Opportunities and Threats

Introduction of GST from next fiscal may prove to be a boon for Indian market. As regards threat it could be from ill effects of demonetization. Also forex volatility could be a major threat.

Segment-wise/Product-wise Performance

Your Company has only one reporting segment. The revenue for the year was Rs. 97.84 lakhs.

Outlook

The markets presently are subdued and how sooner it will revive is not easy to predict. However, with the industry's increasing preparedness, the evolving opportunities can be better harvested.

Risk and Concern

In recent months inflation has shown an upward trend, which could pose a risk, should it not be tamed quickly. The entry permit regime for trade within country should end immediately.

The Government should continue its initiative of Ease of Doing Business. During the year your Company under its well planned and defined risk management policy gave attention to all the risk areas. The Board of Directors is apprised of the development in risk management in periodical meetings where the quarterly results are approved.

Internal Control System

Your Company has a planned internal control system through internal checks and reviews it periodically to strengthen it and safeguard Company's assets. Management Information System is given upmost importance.

Financial Performance w.r.t. Operational Performance

During the year under review, the Company has earned Total Revenue of Rs. 97.84 lakhs in comparison to Rs. 30.47 lakhs during the previous year. The Company has incurred net loss of Rs. 32.61 lakhs in comparison to Rs. 19.25 lakhs during the previous year. The profitability was adversely affected due to lower revenue. Your Company started trading in commodities during the year.

Safety, Health and Environment

Your Company as a matter of policy gives greater importance to safety, health and environment and also ensures compliance with applicable legislative requirements.

Human Resources

Your Company recognizes the importance of Human Resource in achieving its objectives and strategies as human resource plays an important role in the success and growth of Company. Your company gives priority in honing and utilizing their skills through in house training programs.

Cautionary Statement

The report contains forward looking statements describing expectations, estimates, plans or words with similar meaning. Your Company's actual result may differ from those projected depending on various factor. Your Company cannot guarantee that the assumptions and estimates in the forward looking statements are accurate or will be realized.

NEXUS COMMODITIES AND TECHNOLOGIES LIMITED ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our Report to the members of Nexus Commodities and Technologies Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Nexus Commodities and Technologies Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The company recognizes financial assets & financial liabilities when it becomes a party to the contractual provision of the instruments. All financial assets & liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction cost that are directly attributable to the acquisition or issue of financial assets & liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for a trade date.

Subsequent measurement

Financial assets at amortized cost: Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortized cost using the effective interest method less any impairment losses

1.7 Employee Benefits

The Company follows the policy of accounting for the same only on crystallization of the liability.

1.8 Earnings Per Share

Basic Earnings per share is computed by dividing the net profit attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

1.9 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.
