MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Development - Overview:

Global economic activity and trade picked up modestly from the later part of 2017. In India, The previous years were marked by major events namely demonetization of specified bank notes, conclusion of passage of Goods and Services tax (GST) bill by the parliament. The decline in cash in circulation had led to increase in bank deposits with a resultant decline in interest rates on deposits, loans and government securities as well as a decline in real-estate prices, increase in savings, digitalization, income disclosure with a resultant increase in collections by tax and other local authorities. The immediate effect of demonetization was on the daily wages/ earnings of the contract and unskilled labourers employed in highly labour intensive, unorganized sector, construction, transportation sectors etc. These sectors were more dependent on cash for working capital requirements. There was a temporary decline in demand due to shortage of cash. This had caused layoff of contract workers, disruption in production activities due to manpower loss, etc. The impact of demonetisation is dissipating with entry of replacement notes in circulation.

Indian Economy

Turning to the domestic economy, GDP growth in 2017-18 at 6.6 per cent was lower than 7.1 per cent in 2016-17 and the deceleration was broad-based. Private consumption growth – whose contribution to GDP growth in 2017-18 was 68 per cent – moderated in the second half. Goods and services tax (GST) implementation had an adverse, even if transient, effect on urban consumption through loss of output and employment in the labour-intensive unorganised sector.

India has been declared the sixth largest economy in the world with a GDP of 2.6 trillion in 2017, as per the recently released report by Indian Monetary Fund (IMF). Growth in India is projected to increase to 7.4% in 2018 and 7.8% in 2019, lifted by strong private consumption as well as fading transitory effects of Demonetization and implementation of GST. Over the medium term, growth is expected to gradually rise with continued implementation of structural reforms that raise productivity and incentivise private investment

ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF ACME RESOURCES LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Acme Resources Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding company and "the group", which are companies incorporated in india, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the holding company considering the essential components of internal control stated in the Guidance note on audit of internal Financial controls over Financial reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the holding company, insofar as it relates to the Group, which are companies incorporated in india, is based on the corresponding reports of the auditors of such subsidiary companies incorporated in india.

ACME Resources Limited
For the year ended 31st March'2018

1 SIGNIFICANT ACCOUNTING POLICIES ON CONSOLIDATED FINANCIAL STATEMENTS OF ACME RESOURCES LIMITED FORMING PART OF ANNUAL ACCOUNTS FOR THE YEAR 2017-2018 AND ITS SUBSIDIARIES.

1.1 Basis of Preparation

The consolidated financial statements relates to M/s. Acme Resources Limited (the Company) and its subsidiary companies. The Company, its two subsidiary companies and one associate constitute the Group. The financial statements have been prepared in conformity with generally accepted accounting principles to comply in all material respects with the notified Accounting Standards ('AS') under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and the guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non-Banking Financial Company ('NBFC'). The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Group and are consistent with those used in the previous year except for the change in accounting policies explained below. The complete financial statements have been prepared along with all disclosures.

1.1 Principles of consolidation:

i) Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continues to be consolidated until the date that such control ceases. Subsidiaries have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses after eliminating all significant intra-group balances & intra-group transactions. The unrealized profits resulting from intra-group transactions that are included in the carrying amount of assets are eliminated in full. Unrealized losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless cost cannot be recovered.

ii) The excess of the cost to the Company of its investment in subsidiaries over the Company's portion of equity on the acquisition date is recognized in the consolidated financial statements as goodwill and is tested for impairment annually. When there is excess of Company's portion of equity of the Subsidiary over the cost of the investment then it is treated as Capital Reserve.

iii) Minority interests represent the portion of profit or loss and net assets not held by the company and are presented separately in the income statement and within equity in the consolidated balance sheet, separately from parent shareholders' equity. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the Parent Company.

iv) The financial statements of the subsidiaries are prepared for the same reporting year as the parent company i.e. for the year ended March 31, 2018, using consistent accounting policies. As far as possible, the consolidated financial statements have been prepared using uniform accounting policies, consistent with the Company's stand-alone financial statements for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's standalone financial statements.

1.2 Accounting Convention

The Consolidated financial statements of the company has been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these Consolidated financial statements to comply in all material respects with accounting standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Consolidated financial statements have been prepared on an accrual basis and under historical cost convention.

1.3 Use of Estimates

The preparation of Consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of the Consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known /materialised.

1.4 Inventories

- (i) In the case of quoted shares, inventories have been valued at lower of cost and Net Realizable Value. Unquoted shares have been valued at lower of cost and breakup value.
- (ii) In the case of plots and lands, inventories have been valued at lower of cost and market value.

1.5 Fixed Assets

1.6 Depreciation

- (ii) Depreciation is provided on pro-rata basis from the date of additions.

1.7 Income Recognition

- (i) The company has followed the directives of the Reserve Bank of India on Prudential Norms of Income recognition, Provision for bad and doubtful debts etc. issued from time to time. Accordingly the Company has recognized Income on Performing Assets on accrual basis in respect of Loans and has made provision in respect of the said assets in accordance with these Guidelines.

Benefits such as salaries, allowances, short-term compensated absences and the expected cost of other benefits is recognized in the period in which the employee renders the related services.

1.10 Earning per Share

In determining basic earning per share, the company considers the net profit attributable to equity shareholders. The number of shares used in computing basic earning per share is the weighted average number of shares outstanding during the period. In determining diluted earnings per share, the net profit attributable to equity shareholders and weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

1.11 Taxes on Income

- (i) Current tax is determined as the amount of tax payable (if any) in respect of taxable income for the period based on applicable tax rates and law.
- (ii) Deferred Tax is recognized subject to consideration of prudence in respect of deferred tax assets, on timing difference, being the difference between taxable income and accounting income that originates in one period and are capable of reversal in one or more subsequent periods and measured using tax rate and law that have been enacted or substantially enacted by the Balance Sheet date. Deferred tax assets are reviewed at the each Balance Sheet date to re - assess realization.

1.12 Provisions

Provision is recognised when an enterprise has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance date and adjusted to reflect the current management estimates.

1.13 Impairment of Assets

At each balance sheet date, the Company reviews the carrying amounts of its fixed assets to determine whether there is any indication that those assets suffered impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The impairment loss as determined above is expensed off. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.
