MANAGEMENT DISCUSSION AND ANALYSIS REPORT

BACKGROUND

Your company is engaged mainly in the business of investing in shares and offering loans. Yours company is a Non-Systematically Important Non-Deposit taking NBFC i.e. Non-Deposit taking NBFC with assets less than Rs.100 Crores.

MACRO - ECONOMIC SCENARIO

The financial year 2017-18 began against the backdrop of the demonetization programme launched by the Government in November 2016. Following the demonetization reform, the Government showed resolution in terms of introducing the GST in July 2017 which was another bold measure. The Indian economy was not expected to recover strongly this year and with GDP growth slowing down from 8.1% in FY2016 to 7.2% in FY2017, was expected to be below 7% in FY2018 due to these reforms. The growth came in at 6.7% for FY2018. While GST does appear to be a major game changer for the Government in terms of revenue generation as it brings more players under the tax fold, it did lead to considerable realignment for companies which went in for de-stocking in the first quarter of the year and followed up with re-stocking of inventories subsequently. This caused sharp movements in the production cycles, though by the end of the year, these cycles returned to equilibrium under the new regime. The overall performance of the Company needs to be understood against this macroeconomic background.

INDUSTRY OUTLOOK

NBFCs now account for an estimated 15.5% of the total loans in the financial system, up from 9.5% in March 2008 while NBFCs credit intensity, i.e. credit as percent of GDP, has also increased at a steady pace, reaching 8%. The importance of NBFCs can also be gauged from the fact that NBFCs are the largest net borrowers of funds from the financial system with highest funds received from banks (at 40%), followed by mutual funds (at 37%) and insurance companies (at 19%). The sector has reported fairly high RoAs as compared to banking sector though there has been a decline in last few years in tandem with the asset quality deterioration in the financial system. Overall, the sector's health is sound with capital to risk-weighted assets ratio (CRAR) well above the prescribed regulatory level of 15%.

RISK & CONCERNS

The Company's business is very much dependent on Monetary and Financial Policies of the Government and RBI. Any slowdown of the economic growth or volatility in the global as well as domestic financial market could adversely affect the Company's business. The Management has to regularly monitor the changing market conditions. The business strategy needs to be examined and modified properly to meet the transformed situation.

ADEQUACY OF INTERNAL CONTROL

The Company has an adequate internal controls system commensurate with its size and the nature of its business. All the transactions entered into by the Company are duly authorized and recorded correctly. All operating parameters are monitored and controlled. The top management and the Audit Committee of the Board of Directors review the adequacy and effectiveness of internal control systems from time to time.

HUMAN RESOURCE DEVELOPMENT

The survival and prosperity of any industry depends upon the quality of its human resource and finance sector is not an exception to this. There is no material development on the Human Resources front. The Company maintains harmonious relationship with its employees.

3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

BRILLIANT PORTFOLIOS LIMITED

Notes to accounts for the year ended March 31, 2018

NOTE NO - 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1) Basis of Preparation of Financial Statements

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 and guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non Banking Finance Company. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year

2) Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

3) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria are met before revenue is recognized:

(a) Sale of Traded Goods

Sale of Traded Goods Revenue from sale of traded goods is recognized when all the significant risks and rewards of ownership of the traded goods have been passed to the buyer.

(b) Income from Consultancy service

Income from consultancy service are accounted for as and when the relevant services are rendered and revenue is recognized using completed service contract method except where the recovery is uncertain in which case it is accounted for on receipt.

(c) Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Further, in accordance with the guidelines issued by the Reserve Bank of India for Non-Banking Finance Companies, income on business assets classified as Non-performing Assets, is also recognized on receipt basis.

(d) Dividend Income

Dividend income is accounted as and when right to receive dividend is established.

4) Inventories

The inventories held as stock-in-trade under current assets are valued at lower of cost or market value.

BRILLIANT PORTFOLIOS LIMITED

5) Cash and Cash Equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, as per Accounting Standard 3 “Cash Flows”.

6) Property, Plant and Equipments

Property, Plant and Equipments are stated at cost less accumulated depreciation and impairment losses, if any. The cost of Property, Plant and Equipments comprises purchase price and any attributable cost of bringing the asset to it's working condition for it's intended use.

The Company has worked depreciation with reference to the Useful life of Fixed Assets prescribed by the PART C of Schedule II to the Act. The carrying values have been depreciated over the remaining useful life of the Asset using Written Down Value Method and the same is recognized in the Statement of Profit and Loss.

8) Employee Benefits

Provident fund is accounted for on actual basis.

9) Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard 20 – Earning per Share. Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

10) Taxes on Income

Income tax expenses comprises of current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) & the deferred tax charge or benefit (reflecting the tax effect of timing differences between accounting income and taxable income for the period).

The deferred tax charge or benefit and the corresponding deferred tax liabilities and assets are recognized using the tax rates that have been enacted or substantially enacted as at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the asset can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of the assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonable/virtually certain (as the case may be) to be realized.

11) Provisions

The company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amounts of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

12) Contingent Liabilities / Assets

A contingent liabilities is a possible obligation that arise from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the company or

BRILLIANT PORTFOLIOS LIMITED

a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognized in the financial statements. However contingent assets are assessed continually and if it is virtually certain that an economic benefit will rise, asset and related income are recognized in the period in which the change occurs.
