MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Indian Economy and developments

The economy of India is a developing mixed economy. It is the world's sixth-largest economy by nominal GDP and the third-largest by purchasing power parity (PPP). The country ranks 139th in per capita GDP (nominal) with \$2,134 and 122nd in per capita GDP (PPP) with \$7,783 as of 2018. After the 1991 economic liberalisation, India achieved 6-7% average GDP growth annually. In FY 2015 and 2018 India's economy became the world's fastest growing major economy, surpassing China.

Call it disruption or structural reform, demonetisation (or note ban) did have dampening effects on the economy. However, even as it's negative impact was fading by the time 2017-18 began, the announcement of another reforms or "disruption" — the goods and services tax, which was to be implemented by July 1, 2017, shock the economy and businesses.

The result of these two reforms was evident as the Gross Domestic Product (GDP) growth came crashing down to a three-year low of 5.7 per cent in the first quarter of 2017-18. It was largely because of pre-GST jitters and lingering effects of demonetisation.

The economy did recover thereafter to 6.5 per cent in the second quarter and to 7.2 per cent in the third quarter.

Industry Overview

We are living in exciting times, witnessing a process of ever-increasing globalization and innovation in the financial markets. This is bringing with it sophistication and thus a need to better understand financial risks and develop tools to manage them. The financial markets and institutions have undergone significant changes keeping pace with the changing needs of market participants. Venture capital funds and hedge funds have added new dimension to the market dynamics.

India has not remained untouched by these developments worldwide. With its growing and increasingly complex market-oriented economy and increasing integration with global trade and finance, India's financial system has also innovated.

Financial Performance:

This year the Company strived to achieve a total income of approx. **Rs. 1,02,32,280** as against approx. **Rs.47,75,520** achieved during the previous year. Expenditure incurred during the year was approx. Rs.33,40,270 vis-à-vis approx. Rs.10,92,840 in the previous year. Opportunities and threats

Being a Trading company, our company is exposed to specific risks that are particular to its business and the environment within which it operates including interest rate volatility, economic cycle, and market risk.

Due to stiff competitions in the finance/trading field where the Company's activities are centered in, the overall margins are always under pressure, but maintainable, with the constant effort and good services rendered by the company.

Investments:

India had been a bright spot in the otherwise struggling global economies. Demonetization, along with effective implementation of Insolvency and Bankruptcy Code and Goods and Services Tax shall have a very positive impact on the overall investment environment in the country. The stable government and progressive policies shall attract more domestic and foreign capital to the Equity Markets of India.

Credit Risk Management:

Customer selection is of paramount importance, and in this the company's business development and credit teams have the necessary expertise to ensure asset quality. Underwriting decisions are based on knowledge about the prospective customer's business as well as assessment of his cash flows and ensuring adequacy of collateral or guarantees.

Interest Rate Risk Management:

The Company's resources can be a blend of fixed, semi-fixed or floating rate loans, while its assets offerings may or may not be fixed rate products.

Any risk arising from this situation is however mitigated by the Company choosing its lenders with care and with aggressive negotiation thereby ensuring the finest rates for itself; thereby keeping a positive Asset- Liability combination.

Human Resources:

While we have all the processes in place, it is important that we have the right people at job to achieve the goals. Our employees are our most important assets. The competency development of our employees continues to be a key area of strategic focus for us.

By creating conducive environment for career growth, company is trying to achieve the maximum utilization of employee's skills in the most possible way.

There is need and the company is focused on retaining and bringing in talent keeping in mind the ambitious plans despite the market and industry scenario.

The need to have a change in the management style of the company is one of the key focus areas this year.

Internal Control Systems:

The Company has adequate system of strong internal controls for business processes, with regard to operations, financial reporting, compliance with applicable laws and regulations, etc. Regular internal audits ensure that responsibilities are executed effectively. The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of internal control systems and suggests improvement for strengthening the existing control system in view of the changing business needs from time to time. The Company has also appointed Internal Auditor pursuant to the provisions of Companies Act, 2013 read with relevant rules made thereunder.

Outlook:

The presence of a stable government at the center will be a major catalyst in taking major decisions which would push forward the pace of reforms and thereby directly improving the macro-economic environment. It is now being forecasted that in the near future, the Indian economy will become the fastest growing emerging market.

The Government is looking at easing investment conditions in India and focusing on project clearances. Also, 2019 is expected to see a rush of foreign direct investments (FDI) coming into India supported by FII inflows, thanks to liberalising the defence, insurance and construction sectors.

Cautionary Statement:

Statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking' within the meaning of applicable laws and regulations. Actual results might differ materially from those expressed or implied.

“Annexure 2” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Darjeeling Ropeway Co Limited, the Company as of 31st March, 2018 in conjunction with our audit of the financial statement of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Board of Director’s is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES

Note 1: Notes forming part of the financial statements

Corporate Overview

Darjeeling Ropeway Co Limited, incorporated on 16/10/1936, having its registered office at Office no. GF17, Ground floor, HDIL Harmony Mall, 1A/58, New Link Road, Goregaon-west, Mumbai- 400104.

Note 2: Significant accounting policies

Basis of Preparation of Financial Statements

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with generally accepted accounting principles ["GAAP"] in India. GAAP comprises mandatory accounting standards as prescribed under section 133 of Companies Act, 2013 (the Act) read with Rule 7 of Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

Revenue Recognitions

Revenue in respect of income is recognized when a reasonable certainty as to its realization exists.

Employee Benefits

All Employees benefits falling due wholly within twelve month of rendering the services are classified as short term employee benefits which include benefits like salary, wages, short term compensated, absences and performance incentives and are recognized as expense in the period in which the employee renders the related services.

Material events after balance sheet date

Events which are of material nature after the balance sheet date are accounted for in the accounts.

Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

Cash and Cash equivalents

Cash and Cash equivalents comprise cash and cash on deposit with banks and corporations. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Cash Flow Statements

Cash Flow Statement has been prepared in accordance with Accounting Standard 3 issued by Institute of Chartered of India.

Note: 3

Explanation of Transition to Ind AS

The transition as at April 1, 2017 to Ind AS was carried out from the previous GAAP. The exemptions and exceptions applied by the Company in accordance with Ind AS 101 – First Time Adoption of Indian Accounting Standards.

Financial Instruments

(a) Financial Assets

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value. In case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset. Financial assets are subsequently classified and measured at

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

(b) Financial Liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Explanation to treatment of Change in Fair Value of Investments

As per previously applied GAAP, the Quoted securities were valued as Cost or Net Realisable Value whichever is lower.

As per Ind AS, the Investments can be valued as per Fair Value through Profit & Loss (FVTPL) or Fair Value through Other Comprehensive Income (FVTOCI) or Ammortised Cost.

We have treated the investments at FVTPL, so both the realized/ unrealized profit/ loss will be shown in the profit & loss account. It is to note that the current tax implication will only be on the realized Profit/ Loss and not on unrealized Profit/Loss whereas deferred tax will be created for the unrealized portion.

The other income of the current year includes Rs 651,486/- on account of unrealized profit due to the change in Fair Value of Investments. Deferred Tax adjustment against the same is done.

Alternatively, the investments could be passed through OCI, where the unrealized profit/loss would have been reflected as below the line item and the realized profit/loss as above the line item.

The PBT as per FVTPL is Rs. 68,92,011/- whereas if the investment would have been considered though OCI the PBT would have been Rs. 62,76,525/- The difference is Rs. 651,486/- which is on account of Change in Fair value of Investment, due to unrealized profit on account of change in fair value of investment passed though Profit and Loss Account. The PAT remains same under both the methods.

The reconciliation of equity and total comprehensive income in accordance with Previous GAAP to Ind AS are explained below.
