MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY AND ECONOMY OVERVIEW

The Indian economy has weathered many challenges successfully in recent times. Markets are optimistic, as a result of various economic changes announced or taken by the Government. The major economic changes include Demonitization and introduction of GST.

The two largest denomination notes, Rs 500 and Rs 1000—together comprising 86 per cent of all the cash in circulation—were “demonetised” with immediate effect, ceasing to be legal tender except for a few specified purposes, on November 8, 2016. Demonitization has had short-term costs in the form of slow growth but holds the potential for long-term benefits. Long-term benefits include reduced corruption, greater digitalization of the economy, increased flows of financial savings, and greater formalization of the economy, all of which could eventually lead to higher GDP growth, better tax compliance and greater tax revenues. Whereas, The GST will create a common Indian market, improve tax compliance and governance, and boost investment and growth; it is also a bold new experiment in the governance of India’s cooperative federalism.

The Economic Survey 2016-17 conducted by IBEF, forecasts a growth rate of 6.75 to 7.5 per cent for FY 17-18, as compared to the expected growth rate of 6.5 per cent in FY 16-17. Over the medium run, the implementation of the Goods and Services Tax (GST), follow-up to demonetisation, and enacting other structural reforms should take the economy towards its potential real GDP growth of 8 per cent to 10 per cent.

According to their Report, the Average retail inflation, measured by Consumer Price Index (CPI), in 2016-17 (April – December) seen at 4.9 per cent. RBI’s target of below 5 per cent CPI inflation this year is expected to be assisted by demonetisation. Moreover, The Reserve Bank of India (RBI) has cut the repo rate by 25 basis points each in April 2016 and October 2016 to 6.25 per cent.

OPPORTUNITIES AND CHALLENGES

OPPORTUNITIES

Demonitization and GST have brought several opportunities for Small and Medium size Enterprises (SMEs) which can be taken to an advantage for taking future decisions for faster and stable growth.

Deposit growth is likely to improve with more money coming into the banks, and impacting the savings positively. SMEs can take the bank loans at cheaper rates and can invest it for capacity enhancement, robust systems implementation and diversification of business.

It also drive many SMEs which earlier were using their personal contacts for sourcing, marketing & liaising with government officials to shift to digital mode. As a result, market will become more competitive and SMEs will need to work on internal inefficiencies which can only be overcome by implementation of robust systems so that they can compete against MNCs by reducing costs and improved decision making.

Due to this major change by the Government, new business opportunities also generated and market has become more diversified than earlier. ATM Machines, Swipe Machines, Smart phone demands and Money transaction platforms has boomed within a night and is likely to grow exponentially. Digital transactions also helps in better analysis, improved planning and improved ability to hedge the risk which will lead to use the most important resource of any SME, i.e. the management’s time, more effectively that currently goes into handling the cash accounts and transactions.

Due to introduction of GST, the tax burden on SMEs has reduced a lot. As per the present indirect tax structure, businesses with a turnover of over 5 lakh rupees (10 lakh in some states) need to pay a VAT registration fee. The central government has increased the basic exemption limit to 20 lakhs, which is a 75 percent relaxation in limit for small traders and manufacturers.

In view of the aforesaid initiatives of the Government, your company can also look for growth in current financial year. Your Company being a trading Company seeks opportunities in the stationery and related business.

CHALLENGES

Apart from opportunities brought by Demonitization, there were several challenges that economy was facing immediately after discontinuation of the notes and some enterprises are still facing. India continues to be driven by the use of cash; less than 5% of all payments is done electronically. In the country where more than 90% of transaction takes place in cash in the market, where only 40% people have their own bank accounts, government banned those notes which had 86% of share in

the market which led to great hustle in the market. Though bank accounts have been opened through Jan Dhan Yojana, most of them are laying un operational. Unless people start operating bank accounts cashless economy is not possible. Also many electronic payment platforms charge rent in transferring funds electronically to any bank account. This in turn increases another head in one's expenditure ledger. Regulators will have to take a tough stand against such rent-seeking behavior by such platforms otherwise it would be really difficult to survive in fully cashless economy and when everybody surrounding you are not adopting to cashless or electronic mode of transactions then it in turn makes difficult for us to adopt a fully electronic or cashless mode of transactions.

OUTLOOK

The outlook for the Indian economy and its core sectors was upbeat at the beginning of the current financial year. With the government embarking on large-scale economic reforms and promising to deliver strong economic growth, one can take these reforms as a positive sign for the economy and hopefully beneficial in creating a healthy environment for sustainable economic development. While this positive mood continues, the appearance of several roadblocks on the domestic front and a demand slowdown globally and in emerging markets have forced sectoral players to rethink their short- and long-term strategy.

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organization (CSO) and International Monetary Fund (IMF). According to the Economic Survey 2016-17, the Indian economy will continue to grow more than 7 per cent in 2017-18.

Many new initiatives taken by the Government in the form of Make-in-India, Invest India, Start Up India and e-biz Mission Mode Project under the national e-governance plan are facilitating investment and ease of doing business in the country. The improvement in India's economic fundamentals with the combined impact of strong government reforms, the overall economic performance was satisfactory for the year.

According to IMF World Economic Outlook Update, Indian economy is expected to grow at 7-7.75 per cent during FY 2017-18, despite the uncertainties in the global market. The Economic Survey 2016-17 had forecasted that the Indian economy will growing by more than seven per cent for the third successive year 2017-18 and can start growing at eight per cent or more in next two years.

The FTP-2015-20 launched on April 1, 2015 sharpened the measures adopted for trade facilitation by introducing a slew of measures by providing a framework for increasing exports of goods and services, generation of employment and increasing value addition, in keeping with the "Make in India" vision. The Policy consolidates existing export incentive schemes and introduces two new schemes viz a) 'Merchandise Exports from India Scheme' (MEIS) for exports of specified goods to specified markets, and b) 'Services Exports from India Scheme' (SEIS) for increasing exports of notified services. These replace multiple schemes earlier in place. Other features include linking rules, procedures and incentives.

With strengthening of the economy and the country's growth prospectus looking positive, we concern to be optimistic about the Company's opportunities and potential profit avenues in the trading sector. However, the growth curve may not move steadily upwards in the short to medium term, multiple challenges would tamper the speed of growth in various business.

ROAD AHEAD

The India Brand Equity Foundation (IBEF) have forecasted that India will witness a GDP growth rate between 6.75 and 7.50 per cent in 2017-18 due to tough policy reforms. Whereas, the real GDP growth expected at 6.5 per cent in 2016-17

As per the latest Global Economic Prospects (GEP) report by World Bank, India is leading The World Bank's growth chart for major economies. The Bank believes India to become the fastest growing major economy by 2018, growing at 7.5 per cent.

Furthermore, initiatives like Make in India and Digital India will play a vital role in the driving the Indian economy.

The policy on remuneration for KMPs and other employees is as below:-

1. Fixed pay

The remuneration and reward structure for employees comprises two broad components - annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees.

These guidelines are as under:

a) Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Employee is required to determine his/her key result areas for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

b) Long-term rewards

Long-term rewards may be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the Committee.

The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director/ Chief Executive officer

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

C. Remuneration/ Setting Fees / Commission to Non-Executive / Independent Directors

1. Remuneration/ Setting Fees / Commission

The remuneration payable to each Non-Executive Director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made there under.

The remuneration to the Non-executive Directors (including Independent Directors) may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

Non-Executive Directors/ Independent Director shall be paid a Setting Fees / Commission as may be decided by the Board of Directors from time to time subject to the limits specified in Companies Act, 2013 and other applicable laws/ Regulations.

2. Stock options

The Independent Directors shall not be entitled to any stock option of the Company.

Policy review

This policy is framed based on the provisions of the Companies Act, 2013 and rules there under and the requirements of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 with the Stock Exchanges.

In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulations which makes any of the provisions in the policy inconsistent with the Act or regulations, then the provisions of the Act or regulations would prevail over the policy and the provisions in the policy would be modified in due course to make it consistent with law.

SHASHANK TRADERS LIMITED

Annexure B to the Independent Auditor's Report of even date on the Financial Statements of SHASHANK TRADERS LIMITED.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SHASHANK TRADERS LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SHASHANK TRADERS LIMITED**Note 1 – Significant Accounting Policies****i. Corporate information**

SHASHANK TRADERS LIMITED Company incorporated under the provisions of the Companies Act, 1956. The company is engaged in the business as trading of goods.

ii) Basis of preparation

- The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP).
- The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.
- The company follows the Mercantile System of Accounting recognizing Income and Expenditure on accrual basis.
- The directors have certified that there are no outstanding expenses not provided for and nor there are income which have fallen due but not accounted for. The accounts are prepared on historical cost basis and as a going concern.
- The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

iii. Summary of significant accounting policies

From the year ended 31 March 2017, the Schedule III notified under the Companies Act 2013, has become applicable to the company, for preparation and presentation of its financial statements. The adoption of Schedule III does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

- **Use of estimates**

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

- **Fixed Assets**

The company does not have any fixed assets.

- **Investment**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

- **Inventories**

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. Work in progress and finished goods are valued at lower of cost and net realizable value.

- **Revenue Recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

- **Income tax**

- Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years.
