ANNEXURE IV

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have pleasure in presenting the management discussion and analysis report for the year ended on March 31, 2018.

Indian Economy

India's GDP growth bottomed out in the middle of 2017 after slowing for five consecutive quarters, and post that it continued to improve significantly throughout FY 2018. As per the data released by the Central Statistics Organisation (CSO), India's GDP registered a growth of 7.7% in Q4 of FY 2018. At the sectoral level, services sector growth is estimated at 7.7% during the same period. Post the disruption of demonetization, and aftershocks of Goods and Services Tax (GST) implementation, growth for FY 2018 was aided by the spillover of latent demand, pick up in private consumption, gradual revival in investments and a host of Government initiatives like Indian Bankruptcy Code (IBC), recapitalization of public sector banks, investments in national highways and railways, 100% electrification across all villages, and direct benefit transfer to citizens etc. There was also a significant rise in Consumer Confidence Index, industrial growth and ease in inflation, which further helped economic growth.

Industry Overview

Facility Management (FM)

The Indian Facilities Management (FM) industry is in the midst of rapid developments in end-user industries, which has led to the considerable growth of commercial activities in metropolitan areas such as Delhi /NCR, Mumbai, Hyderabad, Pune, Chennai and Bengaluru . According to a Technavio report, analysts forecast a CAGR of 17.19% for the Indian FM industry, over the next three years. In effect, FM services are steadily gaining popularity among commercial as well as residential clients, driven by modernization and urban development. The southern, western and northern regions pose as potential growth areas due to their ability to attract more real estate investments.

2. OPPORTUNITIES

The growth in real estate will be paired with a preference towards safe, clean and secure environment, especially in the residential sector. Beyond the Tier 1 metros, demand is also expected to rise from the tier II and tier III cities due to

increased business activities. Untapped areas of potential include Kolkata , Chennai, the upcoming capital of Andhra Pradesh (Amravati), and UP. Industry wise, IT/ ITES/ BFSI sectors constitute more than 21% of revenue generated, followed by demand leaders in other sectors such as retail, healthcare, infrastructure, and manufacturing. By 2025, around 38% of India 's population is predicted to live in urban regions, and cities will account for 80% of India's GDP. The government's ambitious plan to develop 100 smart cities, (attracting an investment of \$216 Billion into infrastructure), will result in a surge in infrastructure creation, driven by sustained population growth. This will create a sustained need for professional, holistic facilities maintenance services.

3. THREATS

The biggest challenge faced by the industry is to transform the perception of FM services beyond traditional housekeeping services. Building maintenance is inarguably the core of FM services, but today also spans sophisticated requirements spanning Integrated Facilities Management, Industrial Facilities Management, Specialised Engineering Services, and Soft Services. In comparison with the global industry, the Indian FM lags in areas such as market maturity and appreciation for high standards of service delivery. There is a strong case to be made for raising awareness about the benefits of quality FM services, in terms of business continuity, operations costs rationalisation, long term real estate asset value optimisation, and green standards compliance. The dearth of skilled and non-technical manpower and the lack of infrastructure to train manpower with technical expertise serve as other key challenges. The FM industry suffers from severe fragmentation and is dominated largely by the unorganised sector, primarily through local service providers. The low cost unorganized service providers often undercut the organised sector, as they have the capacity to absorb razor thin margins, due to their non-existent statutory compliance overheads. While attractive from a price perspective, there is a hidden cost and risk involved, as local players are unable to provide FM services on par with global standards and best practices.

4. OUTLOOK

Your Company continues to explore the possibilities of expansion into new markets. The main vision for the company is to foray into the segment of design, interior and fitting out of IT/ITES and commercial space on turnkey basis. In essence bare shell floor in a commercial complex can be transformed into fully functional plug and play office in shorter time. There is a large gap in qualified turnkey vendors exist in the market and your company has devised marketing strategy to make this gap as an opportunity where the company can grow in multifold in short period of time. Your Company has already secured its first turnkey project with an order value of 3.25 crores is nearing completion.

5. RISK & CONCERNS

The Company has a robust Risk Management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business objectives and enhance the Company's competitive advantage. The business risk framework defines the risk management approach across the enterprise at various levels including documentation and reporting. The framework has different risk models which help in identifying risks trend, exposure and potential impact analysis at a Company level as also separately for business segments. The Company has identified various risks and also has mitigation plans for each risk identified

6. INTERNAL CONTROL SYSTEMS & THEIR ADEQUEACY

The Company's operating and business control procedures ensure efficient use of resources and comply with the procedures and regulatory requirements. There are adequate internal controls to safeguard the assets and protect them against losses from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly. The Audit Committee periodically reviews the internal controls systems and reports their observations to the Board of Directors. The Directors have appointed M/s. Suresh V & Associates, Chartered Accountants as the Internal Auditors of the Company for the FY 2018-19.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of RITHWIK BUILDING SERVICES PRIVATE LIMITED as on 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over

financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate

because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
