Management Discussion and Analysis Report

The year under review was a challenging year for Spare parts distribution. With a negative growth in the first quarter, we were fortunate to eliminate the negative growth and achieve a 3.26% growth in sales for the year. In spite of the low growth in sales, strict control on expenses, especially on manpower, enabled the Company to marginally increase profit before tax for the year ending 31st March 2014 to Rs 42.56 crores from previous year figure of Rs 41.50 crores.

INDIA MOTOR PARTS & ACCESSORIES LIMITED

The Indian economy has grown only by 4.7% for the year under review. The Medium and Heavy Commercial Vehicles industry had a difficult year and their sales declined at 20% on top of 30% decline in the previous year. In the small Commercial Vehicles segment, the drop was as severe as 30%. Passenger car sales dropped by 6% for the first time in ten years.

Business Outlook

Parliamentary elections have brought a new government with a majority. It is expected that the new government at the centre will implement needed investment plans for infrastructure expeditiously, giving a fillip to growth in the industrial segment. Agricultural production has been maintained in the last financial year. Subject to normal monsoon, momentum in agricultural production is expected to be maintained. Growth in sales of spare parts distribution is to a large extent dependent on performance of road transport industry. We have seen in the last few years, improvements in design and new technology that have improved the performance of driveline components, thereby reducing demand for spare parts. However, we are vigorously pursuing to establish efficient channels for distribution of parts to the transport industry to maintain our growth.
