I. INTERNAL RISK FACTORS

- 1. *Our Promoters are in receipt of a show cause notice from the Adjudicating Officer, SEBI for alleged violation of SAST Regulations, 1997. Any adverse decision in such proceedings may render them liable to penalties which may in turn adversely affect our reputation and business.***

Our Promoters, Mr. Sanjay Aggarwal and Mr. Ram Swaroop Aggarwal are in receipt of show cause notice dated November 13, 2019 from the Adjudicating Officer, SEBI to show cause as to why penalty under Section 15H(ii) of the SEBI Act, 1992 should not be imposed for alleged delay of 2,600 days in making public announcement under SAST Regulations, 1997 to the shareholders of the Company, which presently is pending before the Adjudication Officer, SEBI. As per the SEBI Act, 1992, penalty for violation Section 15H(ii) shall not be less than ten lakh rupees but which may extend to twenty-five crore rupees or three times the amount of profits made out of such failure, whichever is higher. We cannot assure you that this legal proceeding will be decided in favour of our Promoters or that no other proceedings will be initiated by SEBI against them for the alleged violation. Any adverse decision in this proceeding may render our Promoters liable to monetary penalty which in turn may have a material adverse effect on our reputation and business.

For further details pertaining to outstanding litigations, kindly refer to the chapter titled “*Outstanding Litigations and Material Developments*” beginning on page 81 of this Draft Letter of Offer.

- 2. *As an NBFC, we have to adhere to several regulatory norms prescribed by RBI from time to time. Any non-compliance with such norms or any adverse change in the norms could negatively affect our Company’s operations, business, financial condition and the trading price of Equity Shares.***

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain approvals, licenses, registrations and permissions for operating our business. Such approvals, licenses, registrations and permissions must be maintained / renewed over time and we may have to comply with certain conditions in relation to these approvals. Moreover, the applicable requirements

may change and we may not be aware of or may comply with all requirements all of the time. We are required to obtain and maintain a certificate of registration for carrying on business as an NBFC. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. RBI has the authority to change these norms/criteria as and when required. Inability to meet the prescribed norms/criteria, can adversely affect the operations and profitability of our Company.

3. ***The objects of the Issue are based on the internal estimates of our management and have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue Proceeds could adversely affect our financial results.***

The funds raised under this Issue will be used to augment our capital base and provide for our fund requirements for increasing our operational scale with respect to our NBFC activities. The objects of the Issue are based on management estimates and have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financial results. Utilization of Issue proceeds would be disclosed to our Company's shareholders in the manner required under the SEBI LODR Regulations. For further details, please refer to the section titled "Objects of the Issue" on page no. 35 of this Draft Letter of Offer.

4. ***We provide unsecured loans to our borrowers. If our customers default in their repayment obligations, our business, results of operations, financial condition and cash flows may be adversely affected***

Our Company mainly provides unsecured loans i.e., loans without any security. Hence, we run the risk of recovery by defaulters. Further, any deterioration in the quality of our borrowers in terms of their financial worth may also expose us to difficulties in timely recovery of interest and principal amount from such borrowers. In the event of such deterioration in our Company's asset portfolio, there could be an adverse impact on our business and our future financial performance. Further, any default in repayment by our borrowers, will result in losses to our Company. While we have been very selective and conservative in our lending policies and are generally satisfying ourselves with credit worthiness and repayment capacities of our borrowers, there can be no assurance that we will be able to timely recover the interest and / or principal of loans advanced by us.

5. ***Our Company has experienced negative cash flows. Any negative cash flow in future could affect our results of operations.***

Our Company has experienced negative cash flows, the details of which are summarized below:

(₹ in lakhs)

Particulars (Consolidated)	For the period ended September 30, 2019	FY ended March 31, 2019	FY ended March 31, 2018	FY ended March 31, 2017
Net Cash from operating activities	(360.39)	(494.14)	7.51	(48.31)
Net cash used in investing activities	(18.68)	(6.69)	(9.25)	(92.28)

Any negative cash flows, if any in future could adversely affect our Company's results of operation and financial condition. For further details please see the section titled "Financial Information" on page no 41 of this Draft Letter of Offer.

6. ***Our business is vulnerable to interest rate risk and volatility in interest rates which could adversely affect our income from our operations and adversely affect our financial performance and profitability.***

Our business is dependent on interest income from the loans disbursed. Accordingly, we are affected by volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors. Due

to these factors, interest rates in India have historically experienced a relatively high degree of volatility.

If interest rates rise, we may have greater difficulty in maintaining a low effective cost of funds compared to our competitors who may have access to low-cost deposit funds. This could have a material adverse effect on our Company's results of operations and financial condition.

- 7. *The small and medium scale enterprises to which we provide loans may not perform and we may not be able to control the non-performance of such companies. Further, the segment to which we cater are more likely to be affected by declining economic conditions than larger corporate borrowers***

A significant majority of our customer base belongs to the small and medium enterprises sector. We do not manage, operate or control such companies and have no control over their functions or operations. The repayment of the loans extended to such companies will depend to a significant extent on the specific management team of the relevant debtor company. Failure to maintain sufficient credit assessment policies, particularly for small and medium enterprise borrowers, could adversely affect our credit portfolio, which could have a material and adverse effect on its results of operations and/or financial condition.

- 8. *We through our subsidiary act as Direct Selling Agent (DSA) for various Banks and NBFC's. Cancellation of same would adversely affect our financial performance and profitability.***

We through our subsidiary company are associated with several banks and NBFCs as a Direct Selling Agent. Commission earned from the said business is one of our major contributions to our consolidated revenue.

To obtain the bank codes for specific loan products, detailed process is required to be followed. Further, the business targets set by the banks / NBFC's is to be achieved consistently. Any delay in the above-mentioned activities would lead to cancellation/termination of our subsidiary's DSA Agreement, which in turn would adversely affect our financial performance and profitability.

- 9. *Our Company has not complied with certain applicable provisions of securities law.***

Being a listed entity, our Company is required to comply with the provisions of securities laws *inter alia* SEBI LODR Regulations. Our Company has, on certain occasions in the past, failed to make requisite disclosures (other than those required to be filed periodically in the last three years) or has made the same with delay(s) under SEBI LODR Regulations. There can be no assurance that no action will be taken by any regulatory authority in relation to such delayed / non-compliances or any other non-compliances under these regulations. In case of action by any regulatory authority in relation to the aforementioned delayed / non-compliances, the same may have an adverse effect on the reputation, business and financials of our Company.

- 10. *There have been some instances of non-filing/ delayed filings/ incorrect filings and certain other non-compliance under the Companies Act which may attract penalties.***

Our Company is required to make filings from time to time with RoC in compliance with the provisions of the Companies Act, some of which may either have not been done or have been done with certain discrepancies, inaccuracies, clerical mistakes and/ or delays. Further, there have been instances of non-compliance with some of the other provisions of the Companies Act such as non-adoption of certain mandatory policies at the relevant time.

Although, there have been no penalty levied on the Company for such non-compliances/ defaults till date, however, there can be no assurance that even in future no action or penalty shall be levied. If the concerned authorities impose monetary penalties on us or take certain punitive actions against our Company or its directors / officers in relation to the same, our business, financial condition and results of operations could be adversely affected.

11. *We do not own our Registered cum Corporate Office.*

We do not own the premises on which our Registered cum Corporate Office is situated. We have taken our Registered cum Corporate Office on rental/ leave & license basis from Mr. Sanjay Aggarwal, Promoter of our Company for a period of 11 months from September 01, 2019 which can be renewed from time to time. We cannot be sure of continuity of the said premises after expiry of the current rental period and if such agreement is not renewed, there may be temporary disruption in our operations due to relocation of our office. Further, the terms and conditions on which the said premises may be renewed on rental basis may not be favourable to us.

12. *Certain agreements may be inadequately stamped or may not have been registered or may not have necessary disclosure as a result of which our operations may be adversely affected.*

Some of our agreements such as those relating to immovable properties, may not be adequately stamped or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration of documents that are required to be registered, is that such document will not have any effect on the property or be eligible to be received as evidence in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

13. *Our success depends upon our management team and skilled personnel and our ability to attract and retain such persons.*

Our future performance will be affected by the continued service of our management team and skilled personnel. We face a continuing challenge to recruit and retain a sufficient number of suitably skilled personnel, particularly as we continue to grow. There is significant competition for management and other skilled personnel in the various segments of the financial services industry in which we operate, and it may be difficult to attract and retain the personnel we need in the future. The loss of key personnel may have a material and adverse effect on our business, future financial performance, results of operations and ability to grow in line with our strategy and future plans.

14. *We have in past entered into related party transactions and may continue to do so in future.*

We have, in the course of our business, entered into transactions with related party forming part our Promoter / Promoter Group. There can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Such related party transactions may give rise to potential conflicts of interest with respect to dealings between us and the related parties.

15. *Our Promoters, Directors and Key Managerial Persons may have interest in our Company, other than reimbursement of expenses incurred or remuneration.*

Apart from receipt of remuneration and re-imbursement of expenses incurred by them, our Promoters, Directors and Key Management Personnel may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives or our Group Company, and benefits deriving from their directorship in our Company. Further, our Promoter, Mr. Sanjay Aggarwal, may also be regarded as interested to the extent of rent paid by our Company for leasing out premises on which our Registered cum Corporate office is located. For further details, please refer to the chapters titled “*Our Management*”, beginning on page 39 and the Annexure titled “*Related Party Transactions*” under chapter titled “*Financial Statements*” beginning on page 56 and 57 of this Draft Letter of Offer.

16. *The financing industry is becoming increasingly competitive and our Company’s growth and profitability will inter alia depend on its ability to compete effectively*

Our Company faces increasing competition from public and private sector Indian commercial banks, and from other financial institutions that provide financial products or services. Some of our

Company's competitors have greater resources than our Company does. The competition our Company faces from banks is increasing as more banks are targeting products and services similar to ours. Competition in our industry depends on, among other things, the ongoing evolution of government policies relating to the industry, the entry of new participants in the industry and the extent to which there is consolidation among banks and financial institutions in India.

As our Company enters new markets in the financial services industry, our Company is likely to face additional competition from entities who may be better capitalized, have longer operating histories, a greater retail and brand presence, and more experienced management. If our Company is unable to compete with these entities effectively in these new markets, its operations and/or profitability may be adversely affected.

II. RISKS RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS

17. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements*

Our revenues are dependent on various factors such as future earnings, financial condition, cash flows, working capital requirements and capital expenditures. Our business is capital intensive as we require a large amount of money to pursue our NBFC business and activities. The combination of these factors may result in significant variations in our revenues and profits and thereby may impact our ability to pay dividends.

18. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Capital gains arising from the sale of the equity shares of our Company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the STT (Security Transaction Tax) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are transacted. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and as a result of which no STT has been paid, will be subject to capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to capital gains tax in India. Capital gains arising from the sale of the equity shares of our Company will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gain upon a sale of the Equity Shares.

19. *Volatility in the stock market may have an impact on the market price and trading of our Equity Shares.*

Stock markets have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our Equity Shares. There may be significant volatility in the market price of our Equity Shares.

If we are unable to operate profitably or as profitably as we have in the past, investors could sell our Equity Shares when it becomes apparent that the expectations of the market may not be realized, resulting in a decrease in the market price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue.

- 20. *There are restrictions on daily movements in the price of our Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

We are subject to a daily 'circuit breaker' imposed by the Stock Exchanges, which may not allow transactions beyond specified increases or decreases in the price of our Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of our Equity Shares.

This circuit breaker will limit the upward and downward movements in the price of our Equity Shares during the day. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

- 21. *Any future issuance of Equity Shares may dilute the investor's shareholding and sales of the Equity Shares by any of our significant shareholders may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares by the Company could dilute your shareholding. Any such future issuance of the Equity Shares or future sales of the Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares and impact our ability to raise capital through an offering of our securities. Any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. Additionally, the disposal, pledge or encumbrance of the Equity Shares by any of our significant shareholders, or the perception that such transactions may occur, may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that our significant shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

- 22. *Any trading closure at the BSE may adversely affect the trading price of our Equity Shares.***

The regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in Europe and the U.S. The BSE have in the past experienced problems, including temporary exchange closures, broker defaults, settlements delays and strikes by brokerage firm employees, which, if continuing or recurring, could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares, in both domestic and international markets. A closure of, or trading stoppage on the BSE Platform could adversely affect the trading price of the Equity Shares.

III. EXTERNAL RISK FACTORS

- 23. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude.

- 24. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive

as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

- 25. *Terrorist attacks, civil unrests and other acts of violence in India and around in the world could adversely affect the financial markets, result in a loss of consumer confidence and adversely affect our business, financial condition and cash flows.***

Terrorist attacks, civil unrests and other acts of violence or war in India and around in the world may adversely affect worldwide financial markets and result in a loss of client's confidence and ultimately adversely affect our business, financial condition and cash flows. India has, from time to time, experienced instances of civil unrest and political tensions and hostilities among neighboring countries. Political tensions could create a perception that an investment in Indian companies involves higher degrees of risk and on our business and price of our Equity Shares.

- 26. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business***

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial performance and our ability to obtain financing to fund our growth on favourable terms or at all.

- 27. *The occurrence of natural calamities or man-made disasters could have a negative effect on the Indian economy and cause our business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods, drought, fires, explosions, tornadoes, pandemic disease and man-made disasters including acts of terrorism and military actions in the past few years. The extent and severity of these natural and man-made disasters determines their effect on the Indian economy. The erratic progress of a monsoon would also adversely affect sowing operations for certain crops. Further prolonged spells of below normal rainfall or other natural calamities in the future could have a negative effect on the Indian economy, adversely affecting our business and the price of our Equity Shares.

Auditor's Responsibility on Consolidated Ind As Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure – “A” to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Emerald Leasing Finance and Investment Co. Limited** (“the Holding Company”) and its subsidiaries as of 31st March, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and the subsidiaries, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiaries, has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

27	Financial Instruments-Accounting classifications and fair value measurements
	The fair value of the assets and liabilities are included at the amount at which the instrument could be exchanged in current transaction between willing parties, other than in force or liquidation sale.
	The following methods and assumptions were used to estimate the fair values:
1.	Fair Value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial instruments approximate their carrying amounts largely due to the short term maturities of these instruments.
2.	Financial Instruments with fixed and variable interest rates are evaluated by the company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to the account for the expected losses of these receivables.
	The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
	Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities
	Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
	Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on

28	Financial Risk Management Objectives and Policies The Company's financial risk management is an integral part of how to plan and execute its business strategies. Market risk Market risk is the risk of loss of future earnings, fair value or future cash flows arising out of change in the price of a financial instrument. These include change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The Board provides oversight and reviews the Risk management policy on a quarterly basis. Interest rate risk The company is not exposed to significant interest rate risk as at the respective reporting dates. Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of account receivables. Individual risk limits are set accordingly. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. The company considers reasonable and supportive forward-looking information. Financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in a repayment plan with the company. The company provides for overdue outstanding for more than 90 days other than institutional customers which are evaluated on a case to case basis. Liquidity Risk Liquidity risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's treasury department is responsible for maintenance of liquidity (including quasi liquidity), continuity of funding as well as timely settlement of debts. In addition, policies related to mitigation of risks are overseen by senior management. Management monitors the Company's net liquidity position on the basis of expected cash flows vis a vis debt service fulfillment obligation. Restrictions on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the Consolidated FDI Policy and FEMA. The government bodies responsible for granting foreign investment approvals are the concerned ministries / departments of the Government of India and the RBI. The Union Cabinet has recently approved phasing out the FIPB, as provided in the press release dated May 24, 2017. Accordingly, pursuant to the office memorandum dated June 5, 2017, issued by the Department of Economic Affairs, Ministry of Finance, approval of foreign investment under the FDI policy has been entrusted to concerned ministries/ departments.

Subsequently, the DIPP issued the Standard Operating Procedure (SOP) for Processing FDI Proposals on June 29, 2017 (the “**SOP**”). The SOP provides a list of the competent authorities for granting approval for foreign investment for sectors/activities requiring Government approval. For sectors or activities that are currently under automatic route but which required Government approval earlier as per the extant policy during the relevant period, the concerned administrative ministry/department shall act as the competent authority (the “Competent Authority”) for the grant of post facto approval of foreign investment. In circumstances where there is a doubt as to which department shall act as the Competent Authority, the DIPP shall identify the Competent Authority.

The GoI has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails. The Consolidated FDI Policy, issued by the DIPP, consolidates the policy framework in place as on August 27, 2017, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.
