- 5. *Due to Inadvertence, the Company took new Permanent Account Number (PAN) AAGCG9686L even though the Company was holding its original PAN - AAACG5585F. The Company has processed for surrender of duplicate PAN - AAGCG9686L.***

Our Company originally incorporated in the name and style of “Pirnmatic Engineering Private Limited” on 25TH March, 1983 and thereafter its name changed to Kunal Fabricators Private Limited. It is to be noted that thereafter again name of the Company changed to Kunal Fabricators Private Limited and also changed its registered office multiple times during 2006 and 2023 and hence the original PAN Card of the Company misplaced. In the FY 2017-18, the Company planned to apply for issue of duplicate PAN CARD from Income Tax Department, but, inadvertently applied for new PAN in place of application of duplicate PAN Card and accordingly a new PAN AAGCG9689L was allotted to the Company in FY 2017-18 in it's present name. The Company was regularly filling all it's Income Tax Returns and other applicable filing with IT in old PAN i.e. AAACG5585F and also getting all it's Assessment Orders in that PAN only. This matter came to notice of company about holding of two (2) different PAN and hence immediately started the process of surrender of PAN AAGCG9586L, which till date, the Company has not used in Income Tax fillings. The cancellation of PAN AAGCG9586L may take some time with Income Tax authority and our Company may receive any show cause notice form IT Authority of such duplication and presently we can not anticipate the financial and/or other implication of any action form IT Authority. Our Company may like to clarify that such an error was inadvertent with no mala fide intention.

- 6. *The Silver Conducive Ink, the product in which our Company trades is an imported material and hence the Import Policy of Government of India will affect the business of our Company.***

Our Company commenced the trading business of Silver Conducive Ink during the current Financial Year 2023-24 and the 100% purchase of the Company is from Hong Kong and hence it falls under imported material. Presently there is no restriction on value and or/quantity of Import by a single party, but, if the Government of India changes any policy relating to Import of Silver Conducive Ink in India may affect the business of the Company in terms of volume and/or profit.

- 7. *A decrease in the availability or an increase in the price of inks may make it difficult for us to procure enough silver inks at competitive prices to supply our customers.***

Timely procurement of materials such as Silver –Conducive Ink, as well as the quality and the price at which they are procured, play an important role in the successful operation of our business. A sudden fall in the market price of Silver –Conducive Ink, may affect our ability to recover our procurement costs. Conversely, an increase in the price of Silver –Conducive Ink could lead to a decrease in demand for a particular item and/or a decrease in our profit margins. The prices and supply of these and other materials depend on factors beyond our control, including general economic conditions, competition, production levels and regulatory factors such as import duties. We cannot assure you that we will be able to procure quality materials at competitive prices or at all. Further, any rise in prices of product used by us may cause customers to delay their purchases, thereby adversely affecting our business, operations and financial condition.

- 8. *Our Company is dependent on third party transportation providers for the delivery of our goods and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.***

Our Company uses third party transportation providers for delivery of our goods. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in

delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road and water infrastructure, or other events could impair ability to procure silver ink on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

Looking to the size and future expectation of business, the present business pattern of Our Company dealing with single supplier and also sourcing from one country may cause disruption and or affect consistency in this business, if our terms and/or other business conditions with our single supplier get effected negatively or they find good buyer in India. Our Company is looking to increase its supplier base of Silver Conductive Ink and any success in sourcing new supplier will give chance of better consistency in this business.

Further, if we are required to relocate our registered office as a result of any termination or non-renewal of our leases, we may incur additional cost as a result of such relocation. If we are unable to renew the agreements pursuant to which we occupy the premises on terms and conditions acceptable to us, or at all, we may have to relocate to other places.

Any failure or difficulty faced by us in renewing leases, or disputes or other problems that we or our business partners may face in the future with lessees may affect our business and prospects. We cannot assure you that market conditions and other factors will permit future financings on terms acceptable to us. Our ability to arrange financing and the costs of such financing are dependent on numerous factors, including general economic and

capital market conditions, credit availability from financial institutions, the amount and terms of our existing indebtedness, investor confidence, etc. Our attempts to consummate future financings may not be successful or be on terms favourable to us. In addition, our ability to raise funds, either through equity or debt, may be limited by certain restrictions imposed under Indian law or judicial order.

17. We are required to obtain various licenses and permits for our business in future.

Our business is subject to applicable government regulations and legislations and we require certain statutory and regulatory approvals, licenses, registrations and permissions for operating our business. These permits, licenses and approvals may also be tied to numerous conditions and terms, obtaining some of which may be time consuming and may incur high cost. We cannot assure you that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, which may lead to cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals. There is no assurance in the future that the permits, licenses, registrations and approvals applied for or held by us will be issued, approved or renewed in a prompt manner, or at all, under applicable laws. Further, applications for approvals, licenses, registrations and permissions for operating our business need to be made within certain timeframes and are often subject to the discretion of relevant authorities. If we are unable to make applications or renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all or in the event we fail to comply with the terms and conditions therein, it could materially and adversely affect our financial condition and results of operations, including cancellation, revocation or suspension of relevant permits, licenses, registrations and approvals and the imposition of penalties by relevant authorities.

18. Our Company had negative cash flow during recent fiscal years; details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

(Amount in ₹ Lakhs)				
Particulars	Sep 2023	2022-23	2021-22	2020-21
Net Cash from (used in) Operating activities	3,192.05	(226.03)	(16.53)	(10.42)
Net Cash from (used in) Investing activities	(1,964.18)	0.00	0.00	0.00
Net Cash from (used in) Financing activities	(94.31)	224.89	19.44	15.19

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations.

For further details please refer to the section titled '*Financial Information*' and '*Management's Discussion and Analysis of Financial Condition and Results of Operations*' beginning on pages 106 and 148 respectively of this Draft Letter of Offer.

19. Our Company presently deals with one buyer only and if we fail to convert existing customers into repeat customers or to acquire new customers, our business, financial condition, and results of operations would be harmed.

Our business continuity and profitability is dependent only on one Buyer and we are trying to add new customers to our customer base. This is mainly dependent on our product offerings, goodwill, quality of products, price point and various other factors. It is imperative for our business to ensure that we have repeat customers and also that we reach out to new customers. Our failure to achieve this will have an impact on our business, profitability and results of operations.

20. The erstwhile promoters of the Company ie. Bhavin Suryakantbhai Parikh HUF, Bhavik Suryakantbhai Parikh HUF, Mrs. Purvi Bhavin Parikh, Mr. Vishal Mukeshkumar Shah and Mr. Mittal Mukeshkumar Shah are reclassified from ‘Promoter and Promoter Group Category’ to ‘Public Category’ and now the Company does not have any identifiable promoter. The requirement of minimum subscription is applicable to the Issue.

Bhavin Suryakantbhai Parikh HUF, Bhavik Suryakantbhai Parikh HUF, Mrs. Purvi Bhavin Parikh, Mr. Vishal Mukeshkumar Shah and Mr. Mittal Mukeshkumar Shah were ‘Promoters’ of the Company at the time of filing of Draft letter of Offer and were holding 2,03,000 equity shares which is 0.37% of the total shareholding of the Company.

The Promoters requested reclassification from promoter and promoter group category to public category vide their request letter dated November 11, 2023, citing the reason that the outgoing promoters are neither engaged in the management or day to day affairs of the Company and also do not have any right either to appoint any Director of the Company or ability to control the management or policy decisions of the Company in any manner whatsoever. None of their acts would influence the decision taken by the Company. In the Board meeting of the Company held on November 13, 2023 the Board considered and approved the requests received, subject to necessary approvals.

The Company received Approval Letter dated January 12, 2024 from BSE Limited for reclassification of Bhavin Suryakantbhai Parikh HUF, Bhavik Suryakantbhai Parikh HUF, Mrs. Purvi Bhavin Parikh, Mr. Vishal Mukeshkumar Shah and Mr. Mittal Mukeshkumar Shah from ‘Promoter and Promoter Group Category’ to ‘Public Category’ and hence now the Company does not have any identifiable promoter.

Since there are no identifiable promoter of the Company, accordingly, in terms of Regulation 86(1) of the SEBI ICDR Regulations, the requirement of minimum subscription is applicable to the current Right Issue.”

For further details, see ‘*Our Promoters and Promoter Group*’ on page 103, respectively.

Our inability to obtain or maintain these registrations may adversely affect our competitive business position. This may affect our brand value and consequently our business.

23. If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.

Recovery of our receivables and timely collection of client balances depends on our ability to complete our commitments and bill and collect our contracted revenues. If we are unable to meet our requirements, we might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

We may be subject to working capital shortages due to delays or defaults in payments by clients. If clients defaults in their payments in due time to which we have devoted significant resources it could have a material adverse effect on our business, financial condition and results of operations and could cause the price of our Equity Shares to decline.

26. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

27. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

28. *Termination of agreements/arrangements with Customers, could negatively impact our revenues and profitability.*

Our customers typically retain us on a non-exclusive basis. Many of our client contracts can be terminated with or without cause by providing notice and without termination-related penalties. Additionally, most of clients carry no commitment to a specific volume of business or future work. Our business is dependent on the decisions and actions of our customers, and there are a number of factors relating to our clients that are outside our control that might result in the termination of an assignment or the loss of a client,

including a demand for price reductions. Therefore our business may be adversely affected if any of our contracts are terminated by our customers.

29. *The price of the Equity Shares may be highly volatile after the Issue.*

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors including volatility in the Indian and global securities market, our operations and performance, performance of our competitors and perception in the market about investments in the our industry, adverse media reports on us or the industry, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies and significant developments in India's fiscal and environmental regulations. Although we maintain insurance coverage in relation to fire and other natural and accidental risks at our facilities, money and fidelity insurance and stock insurance, there are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. A successful enforcement of one or more claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, financial condition, cash flows and results of operations.

32. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

Further, even though we execute orders with our customers, the order could be cancelled or there could be changes in scope and / or scheduled delivery of the products. Accordingly, it is difficult to predict with certainty if, when, and to what extent the delivery of the orders placed will be made. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business.

33. *As the Equity Shares of our Company are listed on the Stock Exchange, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations and comply with other SEBI Regulations. If we do not handle customer complaints effectively, our reputation may suffer, and we may lose our customers’ confidence, which could have a material adverse effect on our business, financial condition and results of operations

ISSUE SPECIFIC RISKS

- 38. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022 streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, please refer the section titled '**Terms of the Issue**' beginning on page 170.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

39. *Our company will not distribute the draft letter of offer, letter of offer and application form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (*the "Offering Materials/ Issue Materials"*) to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e- mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

40. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On-Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

41. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with

its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the Rights to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

42. Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the investor's shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

43. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. It is pertinent to note that pursuant to the Finance Bill, 2017, it has been proposed, that with effect from April 1, 2017, this exemption would only be available if the original acquisition of equity shares was chargeable to STT. The Central Government is expected to, however notify the transactions which would be exempt from the application of this new amendment. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to applicable short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident, subject to the availability of certain documents. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For more details, please refer to '***Statement of Tax Benefits***' beginning on page 70 of this Draft Letter of Offer.

44. There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchanges until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in

obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

45. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

46. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the section titled '***Objects of the Issue***' beginning on page 62. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

47. Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

48. Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer the

section titled '*Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form*' on page 170 of this Draft of Letter of Offer.

49. *The entitlement of Equity Shares to be allotted to investors applying for Allotment in physical form, will be kept in abeyance.*

Investors will not have the option of getting the allotment of Equity Shares in physical form. The Equity Shares Allotted to the Applicants who do not have demat accounts or who have not specified their demat details, will be kept in abeyance till receipt of the details of the demat account of such Applicants. This further means that they will have no voting rights in respect of the Equity Shares. For details, see "*Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form*" on page 170 of this Draft Letter of Offer.

50. *The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.*

The Equity Shares will be credited to a demat suspense account to be opened by our Company, in case of Allotment in respect of resident Eligible Equity Shareholders holding Equity Shares in physical form and who have not provided the details of their demat account to the Registrar or our Company at least two Working Days prior to the Issue Closing Date. Such Eligible Equity Shareholders are required to send, amongst others, details of their demat accounts to our Company or the Registrar to enable our Company to transfer, after verification of the details of such demat account by the Registrar, the Equity Shares from the demat suspense account to the demat accounts of such Eligible Equity Shareholders. Unless and until such Eligible Equity Shareholders provide details of their demat account and the Equity Shares are transferred from demat suspense account to such demat accounts thereafter, they will have no voting rights in respect of Equity Shares. For details, see '*Terms of the Issue*' on page 170 of this Draft Letter of Offer.

51. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholder") may lapse in case they fail to furnish the details of their demat account to the Registrar.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020 and May 6, 2020, read with SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, SEBI circular SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 and SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see "*Terms of the Issue*" on page 170 of this Draft Letter of Offer. In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

EXTERNAL RISK FACTORS

52. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our

business or their implementation change adversely, we may have to incur costs or may be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

53. Taxes and other levies imposed by the Government of India or other State Governments and any other statutory authorities, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments and any other statutory authorities in India that affect our industry include:

- Custom duties (including anti-dumping duties, etc.) on imports of products;
- Goods and Service Tax
- Direct Taxes

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

54. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

55. Global economic, geo political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and geo political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

56. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

57. *The extent and reliability of Indian Infrastructure could adversely affect the Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt the Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt the Company's business operations, which could have an adverse effect on its results of operations and financial condition.

58. *Natural calamities could have a negative impact on the Indian economy and cause the Company's business to suffer.*

Our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

59. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect the Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

60. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe epidemic caused due to viruses (particularly the Novel Coronavirus) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition, and results of operations. The outbreak of Novel Coronavirus has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding Novel Coronavirus and no government-certified treatment or vaccine is available. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of Novel Coronavirus remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting Novel Coronavirus or any other epidemic disease, this could require us to quarantine some or all these employees or disinfect the facilities used for our operations. In addition, our revenue and

profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general.

The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of Novel Coronavirus will cause an economic slowdown and it is possible that it could cause a global recession. The spread of Novel Coronavirus has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events, and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed.

The extent to which the Novel Coronavirus further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact Novel Coronavirus may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all any impact from the spread of Novel Coronavirus or its consequences, including downturns in business sentiment generally or in our sector. The degree to which Novel Coronavirus impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, loss of life, injuries and impact the wellbeing of our people.

Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

61. An outbreak of other infectious or virulent diseases, if uncontrolled, may have an adverse effect on our operations.

An outbreak of other infectious or virulent diseases, such as severe acute respiratory syndrome, the H1N1 virus, avian influenza (bird flu), the Zika virus or the Ebola virus, if uncontrolled, may have a material adverse effect on the economies of certain countries and our operations. If any of our employees or the employees of our suppliers and/or customers are infected with such diseases or if a significant portion of our workforce refuses to work for fear of contracting an infectious disease, our Company, our suppliers and/or our customers may be required to shut down operations for a period of time, and this could adversely affect our business, results of operations and financial condition.

62. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our

rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

GLOBAL ECONOMIC OUTLOOK

The global conductive ink market size was valued at USD 2756.9 million in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 6.0 % from 2022 to 2030. Growth in the market can be attributed to several critical factors such as strong demand from the end-use industries. Possesses certain inherent advantages such as better electrical conductivity and strong resistance to oxidation. Conductive silver ink products find use in markets such as medical devices, consumer electronics, and alternative energy solutions. The products also find applications in polymer thick-film circuitry, EMI, and RFI shielding of polyimide flexible circuits, membrane switches, and coatings for tantalum capacitors. The inks are used on various substrates such as Mylar, Kapton, Polycarbonate, Glass, Polyester, Polyimide, Teflon and Silicone Surfaces, and ITO-coated Surfaces.

Conductive copper ink is used for photonic curing in consumer electronics, radio-frequency identification, membrane touch switch, and antenna applications. The inks are cost-effective in comparison to conductive silver ink. Conductive polymers are used in spin coatings and slot dies coatings. Carbon nanotube ink is used for inkjet printing. In terms of application, the market for conductive ink has been bifurcated into photovoltaic, membrane switches, displays, automotive, smart packaging, biosensors, printed circuits, and other

applications. Other applications include batteries, electromagnetic interference, and fuel cells. The conductive inks help in conducting electricity in a printed object.

The photovoltaic application has witnessed a positive trend in the recent past and the trend is projected to continue in the near future. Conductive inks are used in photovoltaic cells, which look similar to solar panels and help in producing steam or hot water. Although the changes in government policies in 2016 in the U.S., China, India, and the U.K. for the surplus PV module installation have slowed the photovoltaic growth rate, conductive inks still hold a major share in the market. The regional market has been segmented into North America, Europe, Asia Pacific, Central and South America, and the Middle East and Africa. The Asia Pacific accounted for more than 58% of the total conductive inks market in 2021 in terms of revenue.

The region is expected to witness a similar trend followed by Europe and North America over the next eight years. Countries such as China and Japan accounted for a significant share of the market. Application segments such as batteries, sensors, and automobiles are presumed to record the highest growth over the forecast period in the regional market. Rapid technological advancements in the electronics and automobile sectors in the Asia Pacific region are anticipated to fuel the growth of the market for conductive ink.

The conductive silver ink product segment led the market and accounted for more than 21.0% revenue share in 2021. Major conductive ink products include conductive silver ink, conductive copper ink, conductive polymers, carbon nanotube ink, dielectric inks, and carbon/graphene ink. The conductive silver ink segment is estimated to dominate the market for conductive ink during the forecast period. The segment is estimated to gain market share from more than 22.0% in 2021 to 24.0% by 2030. The increasing prominence of the product in industries such as printed electronics and flexible electronics is likely to act as a key catalyst for segment growth in the coming years.

The photovoltaic application segment led the market for conductive ink and accounted for more than 21.0% revenue share in 2021. The market, on the basis of application, is classified into photovoltaic, membrane switches, displays, automotive, smart packaging, biosensors, printed circuit boards, and others. The smart packaging segment dominated the application sector in 2021. The segment is expected to show the fastest growth rate, ascending with a CAGR of 7.0% from 2021 to 2030 and holding a market share of over 7% by 2030.

Conductive inks are used in the fabrication of photovoltaic textiles. The rising prominence of clean energy is likely to push the growth of the photovoltaic segment over the forecast period. The globally rising electrical demand is likely to be the key propellant of solar plants. Countries such as China, India, and the U.S. are projected to generate robust demand for the photovoltaic segment. The solar energy installation in India grew

by nearly 89% from 2019 to 2020. Thus, owing to the demand for clean energy, the market for conductive inks is projected to witness a robust growth rate over the forecast period.

The Asia Pacific led the market for conductive ink and accounted for more than 58.0% of revenue share in 2021. The Asia Pacific dominated the market over recent years ahead of Europe and North America. Market shares of developed markets such as North America and Europe are anticipated to decrease owing to application saturation. Developing markets such as the Asia Pacific, and Middle East & Africa are projected to experience brisk growth in areas such as Photovoltaic, Membrane switches, Displays, Automotive, Smart packaging, Biosensors, Printed circuit boards, Other applications. Robust demand for these applications is projected to fuel the regional market.

INDIAN ECONOMIC OUTLOOK

India, the third-largest economy in the world in Purchasing Power Parity (PPP) terms and the fifth-largest in market exchange rates, has reinforced the country's belief in its economic resilience as it has withstood the internal and external challenges alike such as of mitigating external imbalances caused by the Russian-Ukraine conflict without losing growth momentum in the process. The Indian economy appears to have moved on addressing the challenges posed by the pandemic, staging a full recovery, ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in Financial Year (FY) 2023-24.

India's recovery from the pandemic was relatively quick, and growth in the upcoming year will be supported by solid domestic demand and a pickup in capital investment. Incipient signs of a new private sector capital formation cycle are visible and more importantly, compensating for the private sector's caution in capital expenditure, the government raised capital expenditure substantially.

Apart from gold jewellery, the other type of jewellery which is gaining traction is the studded ornaments segment. The key factor contributing to the growth of this segment is the younger population's preference for diamond studded gold jewellery, typically made with 14 or 18 carat gold rather than heavy 22 carat gold. India is one of the leading cutting and polishing centre for diamonds with support from government policies. India is deemed as hub for this industry because of low cost and availability of highly skilled labour. Due to its potential for growth and value addition, the government considers this segment as a focus area for exports. The industry has become highly sophisticated over the years with the use of hi-technology in different

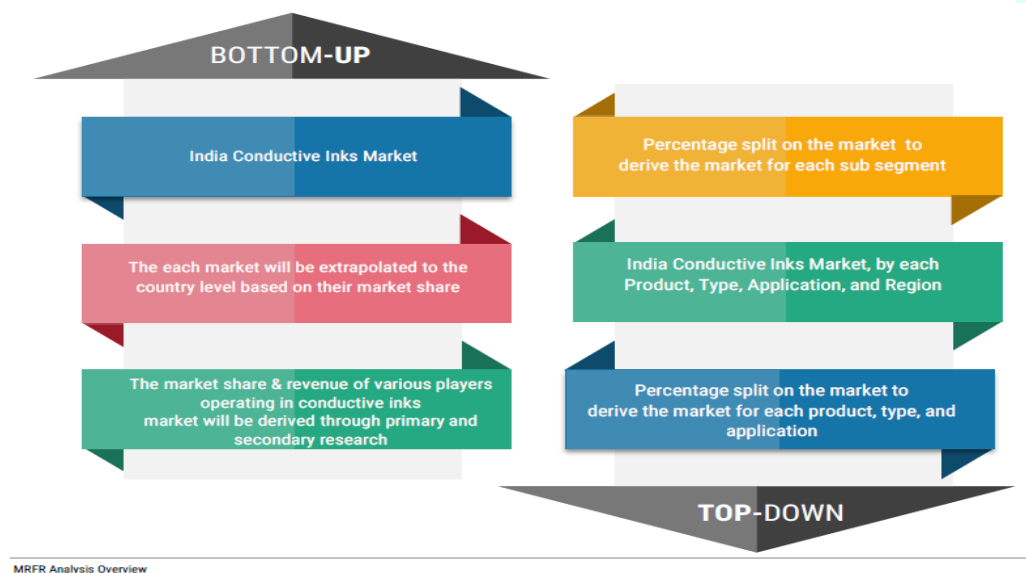

processes, especially, in planning, inclusion plotting, and laser sawing. Grading of polished diamonds, is an established practice – the 4Cs of cut, clarity, colour and carat are being the standard measure for assigning grade.

INDIA CONDUCTIVE INKS MARKET RESEARCH

BOTTOM-UP APPROACH

In the bottom-up approach, the revenue of key companies and their shares in the market are assessed to deduce the market size. More than 15 key players operating in the conductive inks market are studied. The segmental revenue of each player is analyzed and the size for the conductive inks market is extracted from the segmental/product revenue with the help of secondary and primary research. The extracted size for the market is then validated with industry experts and partner consultants. This derived market size contributes to around 65%–70% of the total India market share in terms of revenue for the conductive inks market. Using the data triangulation method, the overall India market size is estimated.

TOP-DOWN APPROACH

The overall market size is then used in the top-down procedure to estimate the size of the other sub-markets with the help of percentage splits of the market segments from secondary and primary research. The demand-side analysis is conducted, in which the expenditure of major industry players in each region is studied.

As a part of the market engineering, the both top-down and bottom-up approaches are utilized along with data triangulation models to derive and verify the market sizes and forecast over the coming years.

KEY CHALLENGES FOR JEWELLERY IN INDIA

- **Shortage of skilled labor:**

One of the key challenges for the industry to scale up their operations is the scarcity of trained people. To have access to a large talent pool, the supply of craftsmen/artisans that come through generations must be supplemented by new talents who have been professionally taught. Moreover, the industry's on-the-job training strategy results in lengthier training times and gaps in the availability of skilled labour and standardization, particularly in the fragmented sector. This is compounded by infrastructural deficiencies, lower need for institution-trained personnel in the fragmented sector, and the industry's limited appeal to the younger generation of workers.

- **Short lived fashion and design preferences:**

Exporters do not have enough design development centres or the resources to constantly innovate new designs to keep up with the changing trends among international purchasers. In an era of high diamond, gold, and silver prices, global marketing necessitates changing fashion in the gems and jewellery segment. According to the market demand, manufacturers can produce specific types of gems and jewellery products. However, as a result of the changing trend, demand for certain types of products begin to decline and eventually ceases. The manufacturer's money is blocked in the older designs and this results in a pile-up of unsold stock.

- **Dependency on imports for raw materials:**

The availability of raw materials is crucial to the gems and jewellery business. In India, a large percentage of raw materials are imported, as the domestic supply is limited. The raw material is converted into finished goods that are sold in the domestic and international market.

India is a net importer of raw gold and meets over 90% of its gold requirement through imports. The total gold imported (in value terms) by India was Rs. 3,441 billion in FY22 and Rs. 2,258 billion in 9M FY23.

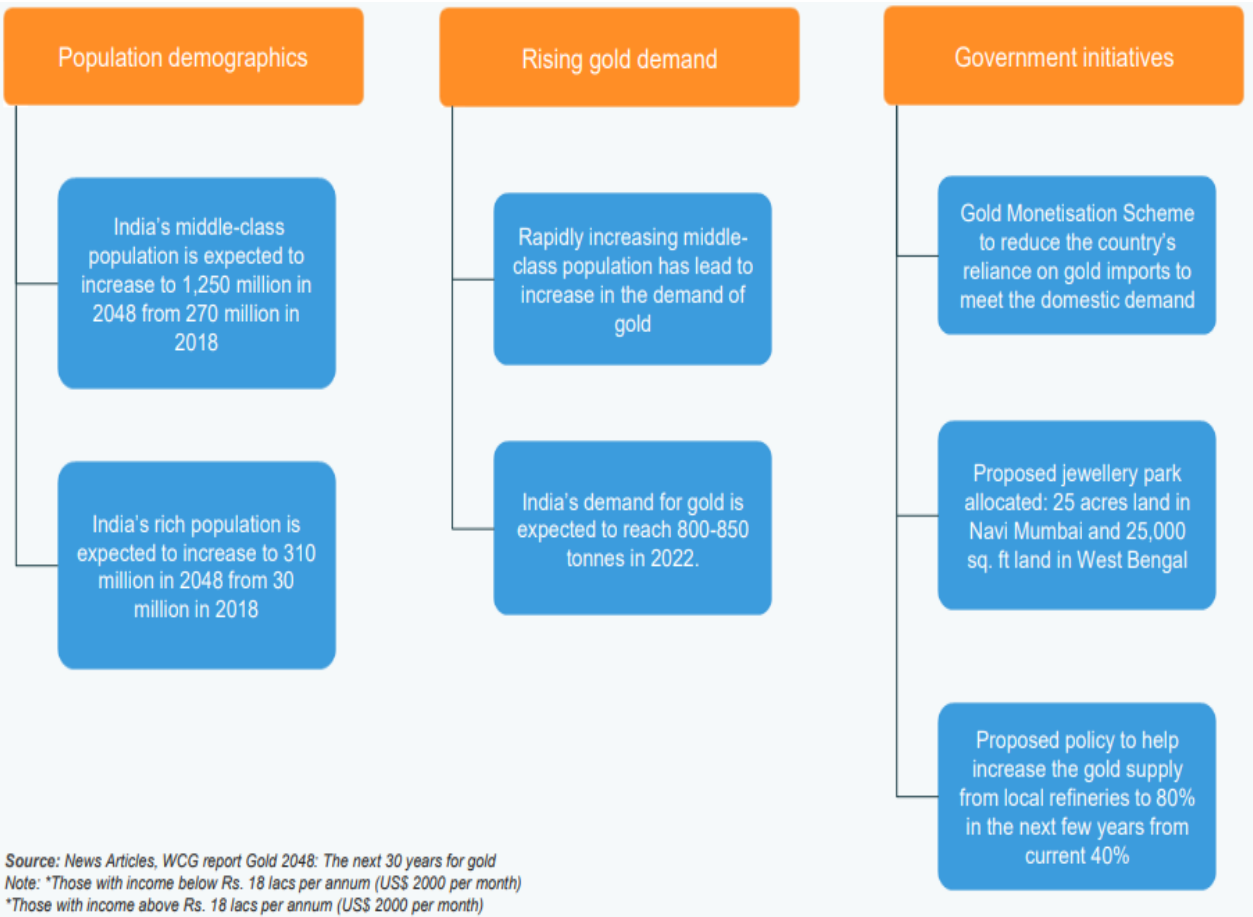

Gold is imported from Switzerland, South Africa, the United Arab Emirates, and Australia, among other countries. Raw pearls, precious and semi-precious stones, and other items are imported from Belgium, the United Kingdom, and Hong Kong.

Rough diamonds account for more than half of all G&J imports (66%). The total rough diamond imports i– April 2022 - January 2023 stands at Rs 1,118 billion in value terms and 1064.82 lakhs carats in volume terms. India imports rough diamonds primarily from Belgium, the United Kingdom, Israel, and the United Arab Emirates.

• **Impact of global slow-down**

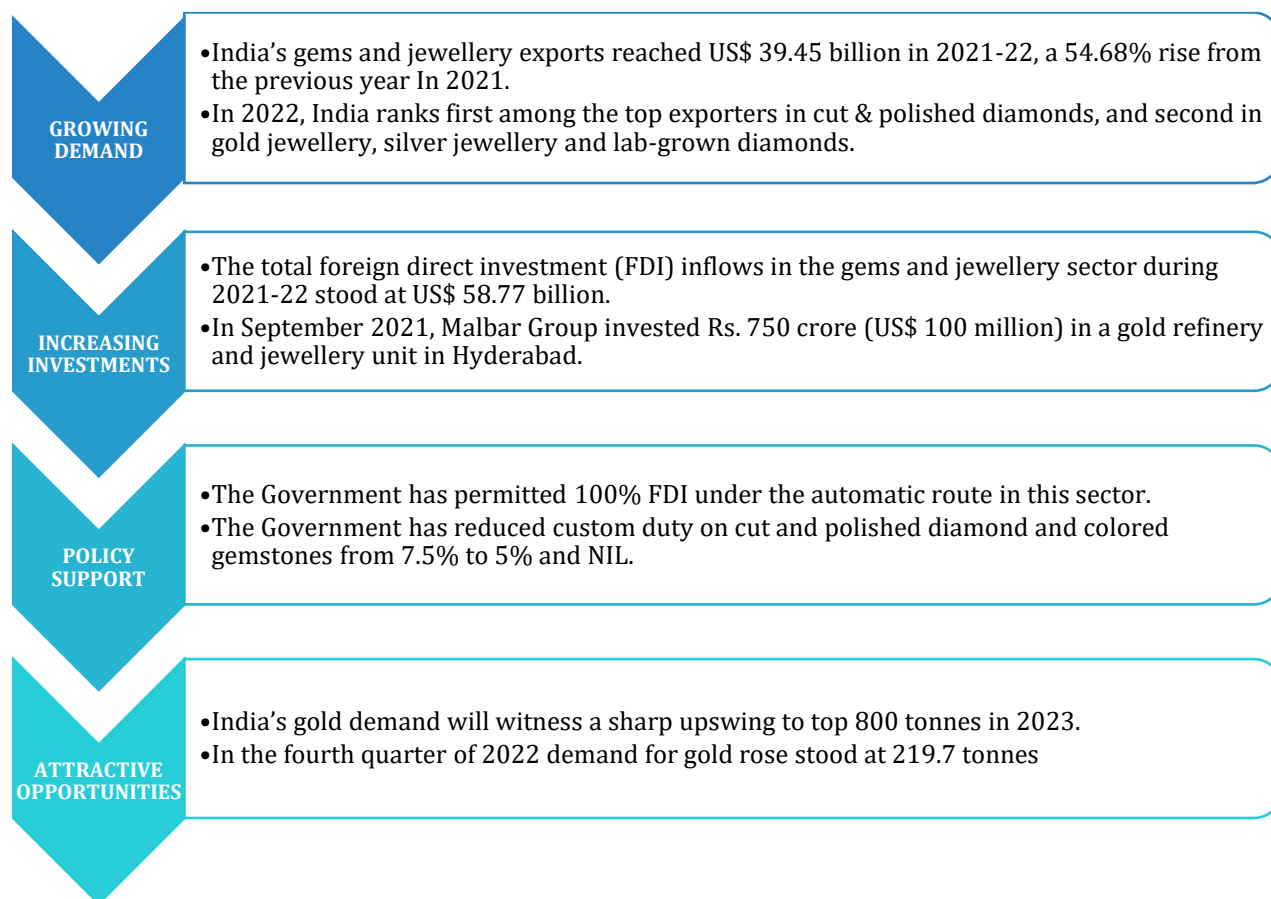

The Unites States, Hong Kong, UAE and Belgium are key export Destinations for Indian G&J industry. The United States accounted for about 37% to total exports of gems and jewellery in FY22. Persistent high inflation rates and slowdown in these economies will have an adverse impact on the gems and jewellery exports from India.

There will be 150 booths having products such as plain gold, gold-studded jewellery, diamond-studded jewellery, silver jewellery, loose diamonds and gemstones.
- In June 2021, Tanishq launched antimicrobial jewellery in certain markets as a pilot project. Currently, the range is available in stores across Chennai and Lucknow, with further launches planned in Kolkata and

Hyderabad followed by other key markets. Antimicrobial jewellery is being offered in categories such as chains and rings, which feature special-coated layers that self-disinfect the surface and impede any further microbial growth.

- In June 2021, the World Gold Council and Gem and Jewellery Export Promotion Council signed an agreement to promote gold jewellery in India. Under the agreement terms, both partners will jointly fund a multi-media marketing campaign that would aim to increase awareness, relevance and adoption of gold jewellery amongst Indian consumers, especially in millennials and Gen Z.
- In April 2021, Malabar Gold & Diamonds announced to invest Rs. 1,600 crore (US\$ 214 million) in FY22 to launch 56 stores, of which 40 would be in India and 16 across global markets. In India, stores will be opened in Tamil Nadu, Telangana, Andhra Pradesh, Karnataka, Maharashtra, Delhi, West Bengal, Uttar Pradesh, Odisha and Kerala. In July 2021, the company announced hiring of >5,000 staff, across its retail operations, brand headquarters and regional offices in the country.
- In March 2021, Joyalukkas collaborated with IBM Global Business Services to design, develop and deploy a new cloud-native e-commerce platform across 11 countries including India, the UAE, the US, the UK, Singapore, Malaysia, Bahrain, Qatar, Saudi Arabia, Kuwait and Oman.
- In February 2021, Reliance expanded its e-commerce arm, Jio Mart, to jewellery with silver coins of 5gm and 10 gm, and gold coins of 1gm, 5gm and 10gm.
- Reliance's in-house jewellery brand, Reliance Jewels, which has 93 flagship showrooms and 110 shop-in-shops in 105 cities in the country, will fulfil the orders for the new segment.

GOVERNMENT INITIATIVES

- In the Union Budget 2023-24, the government proposed to increase the import duty on silver dore, bars, and articles to 10% to align them with that of gold and platinum.
- India has signed an FTA with the UAE which will further boost exports and is expected to reach the target of US\$ 52 billion.
- The Government has reduced custom duty on cut and polished diamond and colored gemstones from 7.5% to 5% and NIL.
- Revised SEZ Act is also expected to boost exports of gems and jewellery.
- In September 2021, Ms. Anupriya Patel, Minister of State for Commerce and Industry said that reforms such as the revamped gold monetisation scheme, reduction in import duty of gold, hallmarking and others would help the industry grow. The market export target is US\$ 43.75 billion for 2021.
- The government has reduced import duty for Gold & Silver (from 12.5% to 7.5%) and Platinum & Palladium (from 12.5% to 10%) to bring down the prices of precious metals in the local market.
- Indian Government made hallmarking mandatory for Gold Jewellery and Artefacts. A period of one year is provided for implementation i.e. till January 2021..
- In December 2020, All India Gem and Jewellery Domestic Council (GJC) welcomed the decision to make hallmarking compulsory from June 2021 in a phased manner; urged the government to examine the key concerns of the industry for smooth implementation of the initiative.
- Hallmarking of gold jewellery is set to begin from June 15, 2021. In view of the COVID-19 pandemic, the government accepted request of stakeholders to provide jewellers some more time to prepare for implementation and resolve issues. Earlier, the date of implementation was June 01, 2021.

- In December 2020, the Finance Ministry notified that the amendment under Prevention of Money Laundering Act (PMLA), notifying dealers in precious metals and stones, will maintain records of cash transactions worth Rs. 10 lakh (US\$ 13.61 thousand) or more cumulatively with a single customer.

ROAD AHEAD

In the coming years, growth in the gems and jewellery sector would largely be contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1–2% of the fine jewellery segment by 2021–22. Also, the relaxation of restrictions on gold import is likely to provide a fillip to the industry.

The improvement in availability along with the reintroduction of low-cost gold metal loans and likely stabilisation of gold prices at lower levels is also expected to drive volume growth for jewellers over the short to medium term. India has 450 organised jewellery manufacturers, importers & exporters and is the hub for jewellery manufacturing. These players have benefited greatly due to the increasing liberal policies by the government. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry. India's gems and jewellery industry is expected to reach US\$ 100 billion by 2027.

BUSINESS OF THE COMPANY

Silver Conductive Ink

Our Company is engaged in the business of trading of Silver Conductive Ink. Our business in purely depends on the demand and supply of Silver Ink in the markets and we Import it from Hong Kong. Presently, we are dealing with single supplier of this Silver Ink. We generally do not require to maintain stock of our Silver

Conductive Ink and hence presently we are not having our own warehouse facility. We procure our inks from suppliers based in the international market. Our 100% sales in domestic market and in order to compete in the Conductive Ink market, we are in process of creating and maintaining independent sales and distribution network for our products within the domestic market.

The trading of these products is influenced by various factors such as global market trends, and demand and supply.

Specifications and Description of Silver Conductive Ink

There are many types of conductive ink available in the market, but the silver conductive ink is the best in terms of conductivity and printability. This product formulation manufactured from three main components, such as Silver (Ag) nanopowder, adhesive or binder polymer, and solvent. It is also known as Nano-silver printing ink.

It primarily used for flexible substrate printing, where it screen printed on the insulated surface of the plastic, PET, acrylic, and many other plastic components to make a conductive circuit. Since the electronics devices require multiple interconnect and electrode, hence the silver ink is the best solution to fulfill its requirements. The viscosity plays a vital role in inject and screen printing, which can be optimized through the concentration of solvent and patented adhesive.

Our silver conductive ink dried at room temperature with excellent curing time, whereas the flexibility of a substrate does not affect after getting cured. The resistivity of ink is less than 0.003 ohms/sq.cm. The researchers may calculate the resistivity by using the 4 probe method. The used adhesive is itself conductive; hence the silver conductive paste is highly durable and conductive. We also supply the silver ink conductive pen.

The silver used in ink is 99.9% pure nanopowder with uniform particle size. The loading percentage varies as per the application. It majorly used for wearable electronics, touchscreens, smartphones, 3D printing, OLEDs, battery electrodes, membrane circuits, printed circuit boards (PCB), Switchable films, and many more. It also used in inkjet printing technology. Some people used it for their existing printers with slight modifications. In many places, it used for indirect soldering applications where it places as a sandwich between the insulated substrate and copper tape.

Silver Conductive Ink Applications:

- Digital Printing
- Solar cell
- Optoelectronics
- Radio-frequency identification (RFID)
- Photovoltaics
- Bio-sensors
- Printed electronics industry
- Aerospace

3 Significant Accounting Policies

i) Basis of Preparation

a) Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

These financial statements have been prepared and presented under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date.

The financial statements are presented in Indian Rupee (INR), which is entity's functional and presentation currency.

The financial statements are presented in INR except when otherwise stated. All amounts have been rounded-off to the nearest Lacs unless otherwise indicated and amounts less than Rs. 500/- have been presented as "0.00". The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

b) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and differences between the actual results and the estimates are recognised in the periods in which the results are known / materialized.

Significant estimates and assumptions are required in particular for:

i) Recognition of deferred tax assets:

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

ii) Recognition and measurement of other provisions:

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

iii) Impairment of Non Financial Asset:

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted future cashflows model. The recoverable amount is sensitive to the discount rate used for the discounted future cashflows model as well as the expected future cash-inflows and the growth rate used.

iv) Impairment of Financial Assets

The impairment provisions for trade receivables are made considering simplified approach based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the company's past history and other factors at the end of each reporting period. In case of other financial assets, the Company applies general approach for recognition of impairment losses wherein the Company uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

v) Fair value measurement of financial instruments:

In estimating the fair value of financial assets and financial liabilities, the Company uses market observable data to the extent available. Where such Level 1 inputs are not available, the Company establishes appropriate valuation techniques and inputs to the model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

vi) Recognition and measurement of Contingent liabilities, provisions and uncertain tax positions:

There are various legal, direct and indirect tax matters and other obligations including local and state levies, availing input tax credits etc., which may impact the Company. Evaluation of uncertain liabilities and contingent liabilities arising out of above matters and recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

Notes forming part of the Restatement Financial Information

c) Current & Non-Current Classification :

Any asset or liability is classified as current if it satisfies any of the following conditions:

- (i) The asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- (ii) The asset is intended for sale or consumption;
- (iii) The asset/liability is held primarily for the purpose of trading;
- (iv) The asset/liability is expected to be realized/settled within twelve months after the reporting period;
- (v) The asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- (vi) In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

II) Summary of Significant Accounting Policies

a) Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is entity's functional and presentation currency.

b) Cash And Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

c) Property, Plant and Equipment

Recognition and Measurement

Property, Plant and Equipments, including Capital Work in Progress, are stated at cost of acquisition or construction less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price (net of tax credits, wherever applicable), import duty and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use. In case of selfconstructed assets, cost includes the costs of all materials used in construction, direct labour and allocation of overheads. Borrowing cost relating to acquisition / construction of Property, Plant and Equipment which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent Measurement

Subsequent expenditure related to an item of Property, Plant and Equipment are included in its carrying amount or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Subsequent costs are depreciated over the residual life of the respective assets. All other expenses on existing Property, Plant and Equipments, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Depreciation

Depreciation is provided using straight-line method as specified in Schedule II to the Companies Act, 2013 or based on technical estimates. Depreciation on assets acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from continued use of the asset. Any gain or loss arising on the disposal or retirement of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the assets and is recognised in Statement of Profit and Loss.

d) Capital Work in Progress

Expenditure related to and incurred during implementation of capital projects to get the assets ready for intended use is included under "Capital Work in Progress". The same is allocated to the respective items of property plant and equipment on completion of construction/ erection of the capital project/ property plant and equipment. The cost of asset not ready for its intended use before the year end & capital inventory are disclosed under capital work in progress.

e) Revenue Recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other incentives, if any, as per contracts with the customers. Revenue also excludes taxes collected from customers.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Notes forming part of the Restatement Financial Information

f) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

A) Financial Assets

Initial Measurement

All financial assets are recognised initially at fair value. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent Measurement

The measurement of financial assets depends on their classification, as described below:

1) At amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met :

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise, on specified dates, to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

2) At Fair Value through Other Comprehensive Income (FVTOCI)

A financial asset is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI) and on derecognition, cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss. For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment.

3) At Fair Value through Profit & Loss (FVTPL)

FVTPL is a residual category for debt instruments and default category for equity instruments. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Derecognition

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Statement of Profit and Loss if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

Impairment of financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure. The Company assesses on a forward looking basis the expected credit losses associated with its receivables based on historical trends and past experience.

The Company follows 'Simplified Approach' for recognition of impairment loss allowance on all trade receivables or contractual receivables. Under the simplified approach the Company does not track changes in credit risk, but it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used.

ECL is the difference between all contracted cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the Statement of Profit and Loss.

B) Financial Liabilities

Financial liabilities are classified, at initial recognition as at amortised cost or fair value through profit or loss. The measurement of financial liabilities depends on their classification, as described below:

Notes forming part of the Restatement Financial Information

1) At amortised cost

This is the category most relevant to the Company. After initial recognition, financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

2) At fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as such. Subsequently, any changes in fair value are recognised in the Statement of Profit and Loss.

Derecognition of Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

g) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

h) Earnings Per Share

The Basic EPS has been computed by dividing the income available to equity shareholders by the weighted average number of equity shares outstanding during the accounting year. The Diluted EPS has been computed using the weighted average number of equity shares and dilutive potential equity shares outstanding at the end of the year.

i) Taxes on Income

Tax expense comprises of current income tax and deferred tax.

II) Current Taxation

In the absence of any taxable income, provision for taxation has not been made in accordance with the income tax laws prevailing for the relevant assessment year.

III) Deferred Taxation

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent it is probable that these assets can be realised in future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset where a legally enforceable right exists to offset current tax assets and liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax includes MAT credit. The Company reviews such tax credit asset at each reporting date to assess its recoverability.

j) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is possible that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are not recognised in the financial statements. The nature of such assets and an estimate of its financial effect are disclosed in notes to the Financial Statements.

Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss related to adverse changes in market prices, including interest rates. In the normal course of business, we are exposed to certain market risks including interest rate risk, Liquidity risk and credit risk.

Interest rate risk

Interest rate risk results from changes in prevailing market interest rates, which can cause a change in the fair value of fixed-rate instruments and changes in the interest payments of the variable-rate instruments. Our operations are funded to a certain extent by borrowings. Our current loan facilities carry interest at variable rates as well as fixed rates. We mitigate risk by structuring our borrowings to achieve a reasonable, competitive cost of funding. There can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks.

Liquidity risk

Adequate and timely cash availability for our operations is the liquidity risk associated with our operations. Our Company's objective is to all time maintain optimum levels of liquidity to meet its cash and collateral requirements. We employee prudent liquidity risk management practices which inter-alia means maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities.

Credit Risk

We are exposed to the risk that our counterparties may not comply with their obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables.

We consider our customers to be creditworthy counterparties, which limits the credit risk, however, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition.

Material Frauds

There are no material frauds committed against our Company in the last three financials year.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “*automatic route*”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “*government route*”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the consolidated FDI Policy Circular of 2020 (***‘FDI Circular 2020’***), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

Our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

Please note that the Rights Equity Shares applied for under this Issue can be allotted only in dematerialised form and to (a) the same depository account/ corresponding pan in which the Equity Shares are held by such Investor on the Record Date, or (b) the depository account, details of which have been provided to our Company or the Registrar at least two working days prior to the Issue Closing Date by the Eligible Equity Shareholder, or (c) demat suspense account where the credit of the Rights Entitlements returned/ reversed /failed.
