Our Company has not issued any Equity Shares for consideration other than cash during the last 1 (One) year immediately preceding the date of filing this Draft Letter of Offer.

SECTION II – RISK FACTORS

An investment in equity shares involves a high degree of risk. Prospective Investors should carefully consider all the information disclosed in this Letter of Offer, including the risks and uncertainties described below and the “Financial Statements” on page 67 before making an investment in the Equity Shares. The risks described below are not the only risks relevant to us or the Equity Shares or the industries in which we currently operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may also impair our business, cash flows, prospects, results of operations and financial condition. In order to obtain a complete understanding about us, investors should read this section in conjunction with “Our Business”, “Industry Overview” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 57, 53 and 97, respectively, as well as the other financial information included in this Letter of Offer. If any of the risks described below, or other risks that are not currently known or are currently deemed immaterial actually occur, our business, cash flows, prospects, results of operations and financial condition could be adversely affected, the trading price of the Equity Shares could decline, and investors may lose all or part of the value of their investment. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below.

However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this Issue. The following factors have been considered for determining the materiality: (1) some events may not be material individually but may be found material collectively; (2) some events may have material impact qualitatively instead of quantitatively; and (3) some events may not be material at present but may have material impact in future.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer. Any potential investor in, and purchaser of, the Equity Shares should pay particular attention to the fact that our Company is an Indian company and is subject to a legal and regulatory environment which, in some respects, may be different from that which prevails in other countries. For further information, see “Forward Looking Statements” on page 17.

Unless otherwise indicated or the context requires otherwise, the financial information included herein is based on our Audited Financial Statements included in this Letter of Offer. For further information, see “Financial Statements” on page 69. In this section, unless the context otherwise requires, a reference to “our Company” on a standalone basis.

INTERNAL RISK FACTORS

1. Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.

Our business operations require us to obtain and renew from time to time, certain approvals, licenses, registrations and permits, some of which may expire and for which we may have to make an application for obtaining the approval or its renewal. We will be applying for certain approvals relating to our business. If we fail to maintain such registrations and licenses or comply with applicable conditions, or a regulatory authority claims we have not complied, with these conditions, our certificate of registration for carrying on a particular activity may be suspended and/or cancelled and we will not then be able to carry on such activity. This could materially and adversely affect our business, financial condition, and results of operations. We cannot assure you that we will be able to obtain approvals in respect of such applications or any application made by us in the future.

2. We have not entered into any long-term contracts with any of our clients.

We do not have any long-term contracts with our clients and any change in the business pattern of our existing clients could adversely affect the business of our Company. As a result, our customers can terminate their relationships with us due to a change in preference or any other reason on immediate basis, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products. Our Company's customers have no obligation to place order with us and may either cancel, reduce, or delay orders. The orders placed by our Company's customers are dependent on factors such as the customer satisfaction with the level of service that our Company provides, fluctuation in demand for our Company's products, customer's inventory management, amongst others. Although we have satisfactory business relations with our clients and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

3. We have referred to the data derived from internal Company reports and industry and government publications, publicly available information, and sources.

Unless stated otherwise, industry and market data used throughout this Draft letter of offer has been obtained or derived from internal Company reports and industry and government publications, publicly available information, and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft letter of offer is reliable, it has not been independently verified. Further, the extent to which the industry and market data presented in this Draft Letter of Offer is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

4. Our business is geographically located in one area, Mumbai. Any loss or shutdown of operations at any of our facilities in Mumbai may have an adverse effect on our business and results of operations

Majority of our business is based Mumbai. As a result, if there is any localized social unrest, natural disaster or breakdown of services and utilities in this area, it may affect our business adversely. Further our manufacturing activities are subject to operating risks, such as breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, strikes, continued availability of services of our external contractors, earthquakes and other natural disasters, industrial accidents etc. We have not experienced any of these operating risks in the past. We cannot assure we will be adequately able to mitigate all of our operating risks.

5. Our success depends largely upon the services of our Promoters, Managing Directors and other key managerial personnel and our ability to attract and retain them..

We are dependent on our Promoters, Managing Director and Key Managerial Personnel for setting our strategic direction and managing our businesses. Our Promoter has over past years built relations with suppliers, customers and other persons who are connected with us. Accordingly, our Company's performance is dependent upon the services of our Promoters, our Managing Director, and other key managerial personnel. Our future performance will depend upon the continued services of these persons. Demand for key managerial personnel in the industry is intense and our inability to attract and retain key managerial personnel may affect the operations of our Company..

6. We and our Promoters have no experience in the contracting business or the execution of end to end supply and fitting of aluminium windows along with the glass. If we are not successful in managing our new line of business, our business may be disrupted, and our profitability may be reduced.

We and our Promoters have no experience in the contracting business or the execution of end to end supply and fitting of aluminium windows along with the glass. There may be many unforeseen challenges in the business, and they may pose bigger risk due to our inexperience. Our business and financial position may be adversely affected to the extent we are not able to deal with these business challenges in a timely and effective manner. Although, we plan to continue to expand our scale of operations, we may not grow at a rate comparable to our growth rate in the past or the growth of the industry, either in terms of income or profit.

Our future growth is subject to risks arising from a rapid increase in order volume, and inability to retain and recruit skilled staff. Our future growth may place significant demands on our management and operations and require us to continuously evolve and improve our financial, operational, and other internal controls. In particular, continued expansion may pose challenges in:

- ☐ maintaining high levels of client satisfaction;
- ☐ recruiting, training, and retaining sufficient skilled management and trained personnel;
- ☐ developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, internal control, and other internal systems;
- ☐ making accurate assessments of the resources we will require;
- ☐ adhering to the standards of quality and process execution to meet clients' expectations;
- ☐ operating in business segments where we have limited experience;

- ☐preserving a uniform culture, values, and work environment;
- ☐strengthening internal control and ensuring compliance with legal and contractual obligations;
- ☐managing relationships with clients, suppliers, investors, lenders, and service providers; and

If we are not successful in managing our growth, our business may be disrupted, and profitability may be reduced. Our business, prospects, financial condition, and results of operations may be adversely affected.

7. Our inability to manage growth could disrupt our business and reduce our profitability.

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses, as well as the development of our new products portfolio. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial, and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values, and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition, and adversely affect our results of operations.

8. We have high working capital requirements. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.

Our business requires a high amount of working capital. For further details of our working capital borrowings, please see the section entitled “Financial Information” on page 69. To finance such capital requirements, we have availed certain loan facilities including overdraft facilities, working capital demand loans and bank guarantees. We cannot assure you that we will be able to raise debt to meet our working capital requirements on commercially acceptable terms in a timely manner or at all. If we have to fund our working capital requirements from infusion of equity, it may result in dilution of shareholding of our existing Shareholders. Further, our Company proposes to utilize the Net Proceeds for its working capital requirements. Any delay in the Offer may have an adverse effect on our business, results of operation, cash flows and financial condition. For further details of the proposed objects of the Offer, please see the section entitled “Objects of the Issue” on page 42.

9. The business orders which we undertake may be delayed, modified, cancelled, or not fully paid for by our clients and therefore, could materially affect our business, results of operations and financial condition

The business orders which we undertake may be cancelled or may be subject to changes in scope or schedule. We may also encounter problems executing the orders or executing them on a timely basis. Moreover, factors beyond our control or the control of our clients may postpone an order or cause its cancellation. Such factors could include delays or failures to obtain necessary permits, right-of-way, or receive performance bonds and other types of difficulties or obstructions. Any delay, failure, or execution difficulty with respect to orders in our Order Book could materially affect our business, results of operations and financial condition..

10. Our construction material supply business is subject to seasonal and other fluctuations that may affect our cash flows and business operations..

Our business and operations are affected by seasonal factors and in particular, the monsoon season in the second quarter of each Fiscal Year may restrict our ability to carry on activities related to our supply and trading of construction material and fully utilize our resources. During periods of curtailed activity due to adverse weather conditions, we may continue to incur operating expenses, but our project related activities may be delayed or reduced. Such fluctuations may adversely affect our cash flows and business operations related to the toll roads operated and managed by us.

11. Substantial portion of our revenues has been dependent upon our few clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability.

For the financial year ended March 31, 2023 our top 5 customers contributed of our sales. The loss of our major customers or a decrease in the volume of products sourced from us may adversely affect our revenues and profitability. We cannot assure you that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our operations and profitability.

12. We are dependent upon few suppliers for the material requirements of our trading business.

For the financial year ended March 31, 2023 our top 5 suppliers contributed of our purchases. Any problems faced by our supplier resulting in delays or non-adherence to quality requirements could adversely impact our ability to meet our customer's requirements in time and our operations would be affected to the extent we are unable to line up supplies from alternate suppliers.

13. Our Company is dependent on third party transportation providers for the supply of materials and delivery of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations

Our Company uses third party transportation providers for the supply of our materials and delivery of our products to our domestic customers. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on the supplies from our suppliers and deliveries to our customers. These transportation facilities may not be adequate to support our existing and future operations. In addition, the materials, and products maybe lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our products to our customers may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair our ability to supply our products to our customers. Any such disruptions could materially and adversely affect our business, financial condition, and results of operations. We face intense competition in our businesses, which may limit our growth and prospects.

14. We face intense competition in our businesses, which may limit our growth and prospects.

Our Company faces significant competition from other manufacturers and traders. In particular, we compete with other traders operating in the markets in which we are present. Our competitors may have advantages over us, including, but not limited to: • Substantially greater financial resources; • Longer operating history than in certain of our businesses; • Greater brand recognition among consumers; • Larger customer bases in and outside India; or • More diversified operations which allow profits from certain operations to support others with lower profitability. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

15. Our results of operations are likely to vary from year to year and be unpredictable, which could cause the market price of the Equity Shares to be volatile.

Our results of operations in any given year can be influenced by a number of factors, many of which are outside of our control and may be difficult to predict, including:

- ☐our ability to acquire and retain clients for our products & services;
- ☐maintaining high levels of customer satisfaction;
- ☐costs relating to our operations;
- ☐adhering to our high quality and process execution standards;
- ☐pricing policies introduced by our competitors;
- ☐the timing and nature of, and expenses incurred in, our marketing efforts;
- ☐recruiting, training, and retaining sufficient skilled technical and management personnel;
- ☐developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems;

All of these factors, in combination or alone could negatively impact our revenues and may cause significant fluctuations in our results of operations. This variability and unpredictability could materially and adversely affect our results of operations and financial condition.

16. We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

We cannot assure you that we will be able to maintain the terms of such transactions or in the event that we enter future transactions with related parties, that the terms of the transactions will be favorable to us. Additionally, while it is our belief that all our related party transactions have been conducted on an arm's-length basis, we cannot provide assurance that we could have achieved more favorable terms had such transactions been entered with third parties. We may also enter related party transactions in the future, which could involve conflicts of interest, although going forward, all related party transactions that we may enter will be subject to audit committee or board or shareholder approval, as applicable, as under the Companies Act, 2013 and the SEBI (LODR) Regulations. As such, we can provide no assurance that these transactions will not adversely affect our business, results of operation, cash flows and financial condition.

17.As the securities of our Company are listed on Stock Exchanges in India, our Company is subject to certain obligations and reporting requirements under the SEBI Listing Regulations.

Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties. The Equity Shares of our Company are listed on SME Platform of BSE Limited, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI Listing Regulations. [•]

Our Company endeavours to comply with all such obligations/reporting requirements, there may be nondisclosures/delayed/erroneous disclosures and/or any other violations which might have been committed by us, and the same may result into Stock Exchanges and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and Rules and Regulations made there under and applicable SEBI Circulars. Any

such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

18. Our Company has not registered the trademark. Our ability to use the trademark may be impaired if the same is not registered under our name.

We have not registered the trademark and logo of our Company which we use. The registration for the said trademark in our name is important to retain our brand equity. If we do not register our trademark, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. We are unable to assure that the future viability or value of any of our intellectual. Our Company's business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not enjoy the statutory protections accorded to a trademark registered in India and may not prohibit the use of such name and logo by anybody by means of statutory protection until it is registered.

19. Our Company has not taken insurance cover hence we may not be able to protect ourselves from all losses and may in turn adversely affect our financial condition.

Our Company has not taken any insurance cover at present. Hence, we may not be able to protect ourselves from any damage or loss suffered by us. To the extent that we suffer loss or damage, our results of operations or cash flow may be affected.

20. Our Company has availed certain unsecured loans that are callable by the lenders at any time.

As on March 31, 2023, our Company has availed certain unsecured loans that are callable on demand by our lenders. The total amount of outstanding as on March 31, 2023 is ₹ 196.89 Lakhs. This loan has been provided to us by our Promoter, Ashok A. Shah. For further details of these unsecured loans, refer "Financial Indebtedness". In case of any demand from our lenders for repayment of such unsecured loans, the resultant cash outgo, may adversely affect our business operations and financial position of our Company.

21. Our Company has not registered the trademark. Our ability to use the trademark may be impaired if the same is not registered under our name.

We have not registered the trademark and logo of our Company which we use. The registration for the said trademark in our name is important to retain our brand equity. If we do not register our trademark, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. We are unable to assure that the future viability or value of any of our intellectual. Our Company's business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not enjoy the statutory protections accorded to a trademark registered in India and may not prohibit the use of such name and logo by anybody by means of statutory protection until it is registered.

24. We have experienced negative cash flows in the past. Any such negative cash flows in the future could adversely affect our business, results of operations and prospects.

The following table sets forth our cash flow for the periods indicated:

Particulars	For the Financial year ended March 31, 2023	For the Financial year ended March 31, 2022
Net Cash from Operating Activities	1,12,70,271	(8,41,56,820)
Net cash from Financing Activities	(1,42,32,604)	873,36,091

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. Such negative cash flows lead to a net decrease in cash and cash equivalents. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares.

25. We do not own our Registered Office from which we operate.

We do not own the premises on which our Registered Office is situated. Our Company has taken the registered office on lease & license basis. If the owner of the premises revokes the arrangements under which we occupy the premises or imposes terms and conditions that are unfavorable to us, we may suffer a disruption in our operations or have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

26. Our Company's management will have flexibility in utilizing the Net Proceeds. There is no monitoring agency appointed by our Company and the deployment of funds is at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

As the Issue size is not more than ₹10,000 lakhs, under Regulation 82 of the SEBI (ICDR) Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of

funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue,. For further details, please refer to the section titled 'Objects of the Issue' on page 59 of this Draft Letter of Offer.

ISSUE SPECIFIC FACTORS

1. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

2. *The Rights Entitlement of Physical Shareholders may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13' dated January 22, 2020, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

3. *SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see '**Terms of the Issue**' on page 114 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely being [●]) opened by our Company, for the Eligible Shareholders which would comprise Rights Entitlements relating to:

- (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- (b) Equity Shares held in the account of IEPF authority; or
- (c) The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or

- (d) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
 - (e) Credit of the Rights Entitlements returned/reversed/failed; or
 - (f) The ownership of the Equity Shares currently under dispute, including any court proceedings.
4. ***Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

5. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Right Shares and Rights Entitlement.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian Company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 (Twelve) months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

Further, the Finance Act, 2019, which has been notified with effect from April 01, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, and the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have been notified on December 10, 2019 and have come into effect from July 01, 2020.

The Finance Act, 2020 has also provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

6. ***Investors will be subject to market risks until our Equity Shares credited to the investor's demat account are listed and permitted to trade.***

Investors can start trading our Equity Shares Allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for our Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that our Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in such Equity Shares will commence in a timely manner.

7. ***There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.***

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by BSE until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of

our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

8. ***Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.***

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

9. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

10. ***Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase the Rights Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealised loss as a result. We may complete the Allotment even if such events may limit the Applicant's ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

11. ***Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.***

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

12. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

13. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

Furthermore, prior trading prices may not be indicative of future trading values for the Rights Equity Shares. A stock exchange may halt secondary market trading in our Equity Shares due to market conditions or other reasons. Furthermore, an exchange or market may close or issue trading halts on specific securities, or the ability to buy or sell certain securities or financial instruments may be restricted, all of which may have an adverse impact on our Shareholders' ability to sell their Equity Shares or the price at which Shareholders may be able to sell their Equity Shares at any given time.

EXTERNAL RISK FACTORS

1. Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, cash flows and financial condition.

India is our key market. For Fiscal 2023, entire of our Company's revenue from operations was from India. In addition, an increase in India's trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could increase interest rates and adversely affect liquidity, which could adversely affect the Indian economy and our business, results of operations, cash flows and financial condition.

2. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.

Our business is subject to various laws and regulations, which are evolving and subject to change. We are also subject to corporate, taxation and other laws in effect in India, which require continued monitoring and compliance. These laws and regulations and the way in which they are implemented and enforced may change. There can be no assurance that future legislative or regulatory changes will not have any adverse effect on our business, results of operations, cash flows and financial condition.

3. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as , acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India, or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

4. Significant differences exist between Ind AS and Indian GAAP and other accounting principles, such as IFRS and US GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our financial statements for Fiscals 2019, 2018 and 2017 included in this offer documents are prepared and presented inconformity with Indian GAAP and restated in accordance with the requirements the SEBI (ICDR) Regulations and the Guidance Note on "Reports in Company Offer Documents (Revised 2016)" issued by the ICAI. Ind AS differs from Indian GAAP and other accounting principles with which prospective investors may be familiar in other countries, such as IFRS and U.S. GAAP. Accordingly, the degree to which the Financial Statements included in this Offer Documents will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices.

Indian Economy

Source: <https://www.ibef.org/economy/indian-economy-overview>

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Market size

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.
- The private equity-venture capital (PE-VC) sector investments stood at US\$ 2 billion in September 2022.
- Merchandise exports in September 2022 stood at US\$ 32.62 billion.
- PMI Services remained comfortably in the expansionary zone at 56.7 during April-September 2022
- In September 2022, the gross Goods and Services Tax (GST) revenue collection stood at Rs. 147,686 crore (US\$ 17.92 billion).
- Between April 2000-June 2022, cumulative FDI equity inflows to India stood at US\$ 604,996 million.
- In August 2022, the overall IIP (Index of Industrial Production) stood at 131.3. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 99.6, 131.0 and 191.3, respectively, in August 2022.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 7.41% in September 2022.

- In FY 2022-23, (until October 28, 2022), Foreign Portfolio Investment (FPI) outflows stood at Rs. 58,762 crore (US\$ 7.13 billion).

.Road Ahead

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

METALS & MINING INDUSTRY IN INDIA

Source: <https://www.ibef.org/industry/metals-and-mining.aspx>

Introduction

India holds a fair advantage in production and conversion costs in steel and alumina. Its strategic location enables export opportunities to develop as well as fast-developing Asian markets. As of FY22, the number of reporting mines in India were estimated at 1,425, of which reporting mines for metallic minerals were estimated at 525 and non-metallic minerals at 720.

Minerals are precious natural resources that serve as essential raw materials for fundamental industries, so the growth of the mining industry is essential for the overall industrial development of a nation. The vast resources of numerous metallic and non-metallic minerals that India is endowed with serve as a foundation for the expansion and advancement of the nation's mining industry. India is largely self-sufficient in metallic minerals including bauxite, chromites, iron ore, and lignite as well as mineral fuels like coal and lignite. The industry has the potential to significantly impact GDP growth, foreign exchange earnings, and give end-use industries like building, infrastructure, automotive, and electricity, among others, a competitive edge by obtaining essential raw materials at reasonable rates.

Rise in infrastructure development and automotive production are driving growth. Power and cement industries are also aiding growth for the sector. Demand for iron and steel is set to continue given the strong growth expectations for the residential and commercial building industry.

ROAD AHEAD

There is a significant scope for new mining capacities in iron ore, bauxite and coal and considerable opportunities for future discoveries of sub-surface deposits. Infrastructure projects continue to provide lucrative business opportunities for steel, zinc, and aluminium producers. Iron and steel make up a core component for the real estate sector. Demand for these metals is set to continue given strong growth expectations for the residential and commercial building industry.

The Government of India has also helped in the development of the metals and mining sector in India by launching key policy initiatives. The National Mineral Policy, which was approved by the government in February 2019, has ensured improved regulation and enforcement, more transparency, balanced social and economic growth, and sustainable mining techniques. The policy grants industry status to the mining activities and boost private sector funding.

Additionally, it aims to facilitate the merger and acquisition of mining companies, entice private sector involvement in exploration, and permit the transfer of mineral corridors created specifically for metals and mining leases. In the future, both increased domestic demand and exports are projected to play significant roles in driving the industry's expansion and its contribution to GDP growth in a post-covid environment.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the 'automatic route', where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the 'government route', where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 ('**FDI Circular 2020**'), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

Our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
