Thank You, Gujarat

Mr. Ramesh Varadan, Director, Yizumi Precision, Machinery (India) Pvt. Ltd. meets Shri Bhupendra Patel, Chief Minister of Gujarat

1,500 Injection Molding Machines Sold

80,000 Square Meters Factory

The Indian Market has Become the Largest Single Market Overseas for Yizumi HPM.

Strengthening development in the Indian market to help achieve Yizumi HPM's global strategic objectives. As an important injection molding machine manufacturer in the industry, Yizumi HPM has made a very wise decision to immerse itself in the Indian market and build a strong business foundation for its marketing, service, and production technology.

In its first year of operation, the value of Yizumi HPM India factory shipment exceeded Rs 400 million. In 2021, despite the severe pandemic situation in India, the sales of Yizumi HPM injection molding machines in the Indian market grow rapidly and are projected to double by end of the year. By January 2022, Yizumi HPM India factory has produced and sold 1,500 injection molding machines. The Indian market has emerged as the largest overseas single market for Yizumi HPM.

To construct a smart digital precision production base: As the business of the Yizumi HPM India factory expanded, the capacity of the leased plant became unable to fulfill the rapid-growing market demand and constrained its development pace in India. Given its firm confidence in the continued development in the Indian market, with its strategic global industrial layout in mind, Yizumi HPM acquired a lot in Gujarat to build its own modern plant. The new plant is located in the GIDC Industrial Park in Gujarat State covering an area of 80,000 plus square meters, current build up is 200,000 square feet in the first phase, which will be extended further, when it is fully completed the annual output is expected to be 10 billion rupees.
