Certain other financial information pertaining to our Group Companies are derived from their respective audited financial statements.

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company's financial data. For details in connection with risks involving differences between Ind AS, U.S. GAAP and IFRS, see "**Risk Factor – We have in this Red Herring Prospectus included certain non-GAAP financial measures and certain other industry measures related to our operations and financial performance. These non-GAAP measures and industry measures may vary from any standard methodology that is applicable across the Indian fish meal industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies**" on page 101 of this Red Herring Prospectus. The degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian accounting policies and practices, the Companies Act, 2013 and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources. Unless the context otherwise indicates, any percentage or amounts (excluding certain operational metrics), with respect to financial information of our Company in "**Risk Factors**", "**Our Business**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" on pages 45, 232 and 418, respectively, and elsewhere in this Red Herring Prospectus have been derived from the Restated Consolidated Financial Statement.

Unless the context otherwise indicates, any percentage amounts, as set forth in "**Risk Factors**", "**Our Business**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" on pages 45, 232 and 418, respectively, of this Red Herring Prospectus and elsewhere in this Red Herring Prospectus have been derived from the Restated Consolidated Financial Statement or non-GAAP financial measures as described below.

Non-GAAP Financial Measures

FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “can”, “could”, “goal”, “expect”, “estimate”, “intend”, “likely to”, “objective”, “plan”, “propose”, “project”, “shall”, “should”, “seek to”, “strive to”, “will”, “will achieve”, “will continue”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. All statements in this Red Herring Prospectus that are not statements of historical fact are ‘forward-looking statements. These forward-looking statements are based on our present plans, estimates and expectations.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, *inter alia*, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion plans, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in the incidence of any natural calamities and/or violence and changes in competition in the industries in which we operate.

For the reasons described below, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Therefore, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- Non-availability of raw material i.e., pelagic fish;
- Risks that Manufacturing Facilities, Blending Facilities and Storage Facilities are generally subject to;
- Production and operations being subject to seasonal fluctuations;
- Inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations;
- Introduction of stricter norms regulating our operation in domestic and overseas market;
- Any loss of any of our significant customers or decline of demand for our products;
- Any adverse outcome of litigations involving our Company, certain of our Subsidiaries, Promoters, Directors and Group;
- Our inability to successfully implement some or all our business strategies in a timely manner or at all; and
- Any general economic slowdown or other adverse economic events in India or globally that may adversely affect.

For further discussion of factors that could cause the actual results to differ from the expectations, see “*Risk Factors*”, “*Our Business*” “*Industry Overview*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 45, 232, 169 and 418 respectively of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to the Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, the Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although, we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the BRLM, the Syndicate nor any of their respective affiliates have any obligation to update or

otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company and the BRLM will ensure that the investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges.

SUMMARY OF THE OFFER DOCUMENT

This section is a general summary of certain disclosures included in this Red Herring Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Red Herring Prospectus, or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Red Herring Prospectus, including the sections titled “Risk Factors”, “The Issue”, “Capital Structure”, “Objects of the Issue”, “Industry Overview” “Our Business”, “Our Promoters and Promoter Group”, “Financial Information”, “Outstanding Litigation and Other Material Developments”, “Issue Structure” and “Issue Procedure” on pages 45, 106, 122, 137, 169, 232, 322, 337, 449, 511 and 515 respectively of this Red Herring Prospectus.

Summary of Primary business of our Company

We manufacture fish meal, fish oil and fish soluble paste, an essential ingredient in the manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food). Further, fish oil also finds its application in pharmaceutical products (additionally, the EPA-DHA extraction is used as an ingredient in nutraceuticals), soap manufacturing, leather tanneries & paint industries (Source: CRISIL Report). We sell our products domestically and also exports them to over 10 countries. Our Company, through our Associate, namely EPPL entered the business of manufacturing and selling of insect meal and insect oil.

Summary of Industry in which our Company operates

Fish meal is predominantly used as a rich source of protein in Compound Feeds. The demand for fish meal and fish oil in India is driven by the aquaculture industry. The production of fish meal and fish oil depends on the natural availability of fishes and prevailing climatic conditions. In value terms the industry is expected to grow at of 5-9% between fiscal 2022 and 2026 reaching ₹ 16-20 billion.

Insect based nutrition is emerging as a new source of protein in the global animal feed industry led by various factors such as high protein content, less water and land requirement, etc. (Source: CRISIL Report)

Financing Arrangements

There have been no financing arrangements whereby our Promoters, members of the Promoter Group, our Directors and their relatives have financed the purchase by any other person of securities of our Company during a period of six months immediately preceding the date of this Red Herring Prospectus.

Weighted average price at which the Equity Shares were acquired by our Promoter in the last preceding the date of this Red Herring Prospectus

There were no Equity Shares of our Company which were acquired by our Promoters in the last 1 (one) year preceding the date of this Red Herring Prospectus.

Average cost of acquisition of Equity Shares of our Promoters

The average cost of acquisition of Equity Shares for our Promoters as on the date of this Red Herring Prospectus, is as set out below:

Name of Promoter	Number of Equity Shares acquired*^	Average cost of acquisition per Equity Share (in ₹)#
Kalandan Mohammed Haris	11,24,51,830	0.98
Kalandan Mohammad Arif	600,16,690**	0.98
Kalandan Mohammed Althaf	600,16,690	0.98

As certified by our Statutory Auditor, Shah & Taparia, by way of their certificate dated February 24, 2024.

#Weighted average price has been arrived at by considering only the cost of shares allotted to the Promoters on account of further issue, bonus issue and transfers, i.e., cost paid by the Promoters for acquisition by way of subscription, bonus issue and acquisition from other shareholder(s) divided by the total number of equity shares acquired by the above transactions.

*While calculating the weighted average price of the shares in the hands of the individual, the cost of shares was considered as the price paid to the transferor against such acquisition of shares. The selling price of the shares transferred by the respective Promoters to others is not netted off while calculating the average cost of acquisition.

^ As adjusted for sub-division of Equity Shares

**For the purpose of acquiring 45,27,190 Equity Shares from Lalitaben Dipak Modh, 35,44,500 Equity Shares from Hinesh Laherchand Modi and 35,44,500 Equity Shares from Bijal Hinesh Modi, Kalandan Mohammad Arif had paid the relevant consideration amounts to them. However, these Equity Shares were inadvertently transferred and credited into the demat account of Kalandan Mohammed Haris, instead of the demat account of Kalandan Mohammad Arif by the aforementioned transferors. To rectify this inadvertence, Kalandan Mohammed Haris has transferred the above Equity Shares to Kalandan Mohammad Arif.

Weighted average cost of all Equity Shares transacted in the three years, eighteen months and one year preceding the date of this Red Herring Prospectus

Period	Weighted average cost of acquisition per Equity Share (in ₹)*	Cap Price is 'x' times the weighted average cost of acquisition^	Range of acquisition price per Equity Share: lowest price – highest price (in ₹)*
Last one year preceding the date of this Red Herring Prospectus	NA [#]	NA [#]	NA [#]
Last eighteen months preceding the date of this Red Herring Prospectus	4.50	[●]	4.50 – 4.50
Last three years preceding the date of this Red Herring Prospectus	1.29	[●]	NIL [§] – 4.50

[§]Acquisition of Equity Shares through bonus issue in the ratio of 3 Equity Shares for every 1 existing Equity Share held undertaken on January 18, 2022, hence the acquisition price is nil.

* As certified by our Statutory Auditors, Shah & Taparia, Chartered Accountants, by way of their certificate dated February 24, 2024.

[^]To be updated in the Prospectus.

[#]There have been no transactions of Equity Shares of the Company in the one year preceding the date of this Red Herring Prospectus.

⁺As certified by our Statutory Auditors, Shah & Taparia, Chartered Accountants, by way of their certificate dated February 24, 2024.

*Our Company sub-divided 5,50,000 equity shares of face value of ₹100 each into 55,00,000 Equity Shares of face value of ₹ 10 each pursuant to its shareholders resolution dated December 29, 2021. Further, our Company sub-divided 2,20,00,000 Equity Shares of face value of ₹ 10 each into 22,00,00,000 Equity Shares of face value of Re. 1 each pursuant to its shareholders resolution dated February 28, 2022. Accordingly,

the shareholding of our shareholders increased to reflect such sub-division. This table does not include details of the split.

** Acquired by way of bonus issuance dated January 18, 2022 by our Company.

^ As adjusted for sub-division of equity shares.

#For the purpose of acquiring 45,27,190 Equity Shares from Lalitaben Dipak Modh, 35,44,500 Equity Shares from Hinesh Laherchand Modi and 35,44,500 Equity Shares from Bijal Hinesh Modi, Kalandan Mohammad Arif had paid the relevant consideration amounts to them. SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment which in some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this Section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or any other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

*The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company and Subsidiaries used in this Section is derived from our Restated Consolidated Financial Statements prepared in accordance with Ind AS and the Companies Act and restated in accordance with the SEBI ICDR Regulations. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. To obtain a better understanding, you should read this Section in conjunction with “**Our Business**” on page 232, “**Industry Overview**” on page 169 and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on page 418 of this Red Herring Prospectus as well as other financial information contained herein. For capitalized terms used but not defined herein, see “**Definitions and Abbreviation**” on page 1 of this Red Herring Prospectus.*

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some risks may not be material individually but may be material when considered collectively;*
- *Some risks may have an impact which is qualitative though not quantitative;*
- *Some risks may not be material at present but may have a material impact in the future.*

*Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment which may differ in certain respects from that of other countries. This Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. For further details, see “**Forward-Looking Statements**” on page 27 of this Red Herring Prospectus.*

Unless otherwise indicated, industry and market data used in this Section has been derived from the (i) CRISIL Report which has been prepared exclusively for the purpose of understanding the industry in connection with the Issue and which has been commissioned and paid for by our Company for an agreed fee; and (ii) RaboResearch Report which is a publicly available report for the use of which BRLM has obtained the consent of Rabobank through email. The information from the Reports included herein with respect to any particular year refers to such information for the relevant calendar year.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this Section. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue including the merits and risks involved. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

In this Red Herring Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

Unless the context otherwise indicates, all references to “the Company” and “our Company”, are references to Mukka Proteins Limited and, unless the context requires otherwise, any reference to “we”, “us” or “our” refers to Mukka Proteins Limited and its Subsidiaries on a consolidated basis.

The risk factors are classified as under for the sake of better clarity and increased understanding:

(15) Other than proceedings involving our Promoters namely Kalandan Mohammed Haris, Kalandan Mohammed Althaf and Kalandan Mohammed Arif who are also our Directors.

There can be no assurance that litigations involving our Company, some of our Subsidiaries, Promoters, Directors and Group Companies will be decided in favour of our Company, Subsidiaries, Promoters, Directors and Group Companies and consequently it may divert the attention of our management and Promoters and consume our corporate resources and we may incur significant expenses in such proceedings and we may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against our Company, Subsidiaries, Promoters, Directors and/or Group Companies, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

Furthermore, we may not be able to quantify all the claims in which we are involved. Failure to successfully defend these or other claims or if our current provisions prove to be inadequate, our business and results of operations could be adversely affected. Even if we are successful in defending such cases, we will be subjected to legal and other costs relating to defending such litigation, and such costs could be substantial. In addition, we cannot assure that similar proceedings will not be initiated in the future. This could adversely affect our business, cash flows, financial condition, and results of operation. For further details, pertaining to material pending outstanding litigations involving our Company, Subsidiary, Promoters, Directors and

Group Companies, see “*Outstanding Litigations and Material Developments*” on page 449 of this Red Herring Prospectus.

2) ***Our Company is party to a legal proceeding concerning an alleged violation of environmental norms by the Company. An adverse outcome of the proceeding could have an impact on our Company’s operations at Mukka Manufacturing Facility I.***

A Writ Petition bearing no. 1729/ 2021 (GM-POL) has been filed, by certain residents of the area where the Mukka Manufacturing Facility I is located, against our Company and other third-party companies having similar activities *inter-alia* alleging various environmental issues caused by the Mukka Manufacturing Facility I and third-parties’ manufacturing facilities. The petitioners have *inter-alia* alleged that the Mukka Manufacturing Facility I along with manufacturing facilities of the other third-parties are in violation of Coastal Regulation Zone Notification, 2011 (CRZ Notification), 2011, which imposes a specific ban on setting up and expansion of fish processing units. The petitioners have sought reliefs to direct the Company to immediately cease operations and permanently shut down its Mukka Manufacturing Facility I. The Company has filed its statement of objections to the said writ petition whereby our Company has denied all the allegations made by the petitioners and has put forth the facts in its defence especially indicating that the provisions of CRZ Notification, is not applicable to the Company and the Mukka Manufacturing Facility I is in existence much before the year 1991 and operation of such fish processing unit is legal. The Hon’ble High Court of Karnataka, Bengaluru, has passed an interim order directing the Jurisdictional Environmental Officer of Karnataka Pollution Control Board and the representative of District Environmental Zone Management Committee to visit the industry/property occupied by the Company and that of the third-parties and submit a detailed report in the context of allegations made. The Karnataka Pollution Control Board has submitted its Inspection Report to the Hon’ble High Court of Karnataka and the matter is presently pending. For further details, see “*Outstanding Litigations and Material Developments*” on page 449 of this Red Herring Prospectus.

Our Manufacturing Facility I and Manufacturing Facility II have contributed to our revenue from operations, based on our Standalone Restated Financial Statements as detailed herein below:

Particulars	For the six months period ended September 30, 2023	For Fiscal		
		2023	2022	2021
Contribution to revenue from operations (₹ in million)				
- Manufacturing Facility I	5,542.73	10,663.98	6,928.87	5,362.47
- Manufacturing Facility II	-	509.53	429.01	530.33
Contribution to production (MT) from Manufacturing Facility I & Manufacturing Facility II				
- Fish Meal	8811.55	19187.27	13665.81	12044.72
- Fish Oil	687.80	2243.48	1078.00	1066.10
- Fish soluble	1200.83	3970.77	3009.81	2475.39

Our Company has unutilised capacity at our Manufacturing Facilities other than Mukka Manufacturing Facility I and Mukka Manufacturing Facility II. For details of our installed and utilised capacity see “*Our Business*” and Risk Factor no. 22 “*Under-utilisation of our manufacturing capacities and an inability to effectively utilise our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.*” on pages 232 and 73 of this Red Herring Prospectus.

Further, as of September, 30, 2023, our Company has entered into contractual arrangement with third-party manufacturing units, situated at Sasihithlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Talaja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), which are strategically located to ensure availability of our key raw material and also to increase our presence across the western coastline of India. With (2) two of the third-party manufacturers located in Udupi (Karnataka) and Ullal (Karnataka), our Company has entered into job work arrangement, where our Company provide them the raw material and receive corresponding output of the products manufactured by them. With respect to the arrangement with

other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Taloja (Maharashtra) and 1 (one) located in Sasihithlu (Karnataka), our Company has entered into arrangement with these third-party manufacturers to procure 100% of their production output.

Any adverse outcome of the above legal proceedings may entail partial or complete closure of the Mukka Manufacturing Facility I of the Company or imposition of monetary penalty on the Company thereby affecting its business, results of operations and financial condition.

We are subject to various national and state laws and regulations concerning environmental protection in India, including laws addressing the discharge of pollutants into the air and water, the management and disposal of any pollutants, wastes and the clean-up of contaminated sites. Environmental laws and regulations in India are becoming more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment, and emissions management and other expenditures to comply with environmental standards. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings being commenced against us, third party claims or the levy of regulatory fines. Further, any violation of the environmental laws and regulations may result in fines, criminal sanctions, revocation of operating permits, or shutdown of our Facilities.

As a consequence of unanticipated regulatory or other developments, future environmental and regulatory related expenditures may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations or financial condition. In addition, we could incur substantial costs, our products could be restricted from entering certain markets, and we could face other sanctions, if we were to violate or become liable under environmental laws or if our products become non-compliant with applicable regulations. The amount and timing of costs under environmental laws are difficult to predict and ascertain.

- 3) ***In past, one of our Promoter Director, Kalandan Mohammed Haris has been subject to seizure of property by Directorate of Enforcement in relation to alleged violation of Foreign Exchange Management Act, 1999 against which our Promoter has filed a Writ Petition against (i) Union of India, (ii) Commissioner of Customs and (iii) Directorate of Enforcement before the Hon'ble High Court of Karnataka, at Bengaluru. An adverse outcome of the proceeding could have an impact on our Company's business, results of operations and financial condition.***

A seizure order bearing no. 02/2022 dated July 12, 2022 was issued under Section 37A of the FEMA, by the Directorate of Enforcement, seizing certain properties held in the name of one of our Promoters, Kalandan Mohammed Haris valued at ₹17,34,49,000 for transactions that were entered into prior to September 09, 2015 (effective date of implementation of Section 37A of the FEMA). The said seizure order bearing no. 02/2022 came to be confirmed by the Commissioner of Customs under Section 37A of the FEMA vide order bearing No. 01/2023 dated January 06, 2023. Our Promoter Director, Kalandan Mohammed Haris has filed a Writ Petition before the Hon'ble High Court of Karnataka at Bengaluru against (i) Union of India, (ii) Commissioner of Customs and (iii) Directorate of Enforcement challenging the aforementioned orders as the said orders (i) are violative of Article 20(1) of the Constitution of India, (ii) the foreign transactions in sanctions were admittedly initiated prior to enactment of Section 37A of the FEMA and that the proceedings under Section 37A of the FEMA culminate into criminal sanctions, (iii) the fundamental rights guaranteed under Article 20(1) were argued to be infringed by the actions of the Respondents. Kalandan Mohammed Haris further also submitted that, even otherwise, the Foreign Exchange Management Act, 1999 does not provide for retrospective application for Section 37A of the FEMA and thus, it was impermissible for Respondents to initiate any proceeding thereunder. Kalandan Mohammed Haris has prayed that the Hon'ble High Court of Karnataka at Bengaluru (i) issue a Writ of Certiorari or such other writ as deemed fit quashing the seizure order bearing no. 02/2022 dated July 12, 2022 as being violative of Article 20(1) of the Constitution of India and hence, illegal; (ii) issue a Writ of Certiorari or such other writ as deemed fit quashing the seizure order No. 01/2023 dated January 06, 2023 as being violative of Article 20(1) of the Constitution of India and hence, illegal; (iii) issue a Writ of Mandamus or such other writ as deemed fit declaring that the actions and conduct of the Respondents in initiating and holding enquiry under Section 37A of the FEMA as illegal, arbitrary, and without any authority; and (iv) to pass such other and further orders/writs as the court deems fit. The Hon'ble High Court of Karnataka at Bengaluru, upon hearing Kalandan Mohammed Haris and prima facie after satisfying itself on the case of Kalandan Mohammed Haris, on January 16, 2023, has granted a status quo order against the Respondents. For further details, see

“**Outstanding Litigations and Material Developments**” on page 449 of this Red Herring Prospectus. Any adverse outcome of such legal proceedings may result in penal consequences for our Promoter, Kalandan Mohammed Haris which would result in diversion of his attention and thereby affecting our business, results of operations and financial condition.

4) **A significant majority of our revenues from operations are derived from a limited number of customers.**

For the six months period ended September 30, 2023 and during the Fiscal 2023, Fiscal 2022 and Fiscal 2021, our top 5 (five) customers contributed ₹3520.73 million and ₹6248.99 million, ₹6,188.26 million and ₹4,619.10 million, respectively comprising of 58.09% and 53.09%, 80.31% and 76.50%, respectively, of our revenue from operations. Further, for the six months period ended September 30, 2023 and during the Fiscal 2023, Fiscal 2022 and Fiscal 2021, our top 2 (two) customers contributed ₹2555.77 million and ₹4344.36 million, ₹4,796.04 million and ₹4,170.28 million, respectively, comprising of 42.17 % and 36.91%, 62.25% and 69.06% respectively, of our revenue from operations. For further details, see “**Our Business**” on page 232 of this Red Herring Prospectus.

The contribution towards revenue from sale of products from our top 2, top 5 and top 10 customers is as follows:

*Partnership firm where our Company has significant capital contribution i.e. 96% partnership interest and the sale excludes revenue other than the sale of fish meal, fish oil and fish soluble paste.

Except, Ullal Fish Meal and Oil Company, the top 10 customers are not directly or indirectly related to our Company/Promoter/Directors/Promoter Group etc.

However, the composition of revenue generated from these customers might change as we continue to add new customers in the normal course of business. Our revenues may be adversely affected if there is an adverse development with such customer, including as a result of a dispute with or our disqualification by such major customers, which may result in significant reduction in our orders from such customers, and thereby decline in our revenue, cash flows and liquidity. Further, if our customers are able to fulfil their requirements through captive or in house manufacturing or any of our existing or new competitors providing products with better quality, or cheaper cost, or any competitor providing alternate source of protein products, we may lose significant portion of our business and revenue.

Additionally, consolidation of any of our customers may also adversely affect our existing relationships and arrangements with such customers, and any of our customers who are acquired may cease to continue the businesses that require products manufactured by us or may resort to our competitors for their supply requirements. Further, in the event our customers face any form of adverse effect due to exigent circumstances, resulting in a sustained decline in the demand for their products, including due to macroeconomic factors affecting the economy in general could prompt them to reduce their production volumes, in turn affecting their demand for our products. For instance, the COVID-19 pandemic has resulted in reduced sale of our products. Our business from our customers is dependent on our continuing relationship with such customers, the quality of our products, competitive pricing and our ability to timely deliver their orders, and there can be no assurance that such customers will continue to do business with us in the future on commercially acceptable terms or at all.

Further, we do not enter into long term purchase agreements with our customers and instead rely on purchase orders to govern the volume and other terms of our sales. While we believe that we have maintained good and long-standing relationships with our customers, for instance, our top 2 (two) customers have been

associated with us for over 5 (five) years, however, there can be no assurance that we will continue to have such long-term relationship with them. Significant dependence on a select and small group of clients may increase the potential volatility of our results of operations. We typically have credit terms of 20 (twenty) to 25 (twenty five) days for our domestic customers and our credit term extends to 30 (thirty) to 45 (forty five) days for our export customers. All our export sales are backed by letter of credit at sight and the exports receivables of our Company are also insured under ECGC policy to an extent of ₹ 1000.00 million, as on September 30, 2023 and as on November 30, 2023 the ECGC policy cover is to an extent of ₹ 1500.00 million. Although, we have not experienced any material bad debts historically, any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. A loss of any of our significant customers, a decrease in the volume of products our customers demand from us may materially and adversely affect our business, operations, financial condition, results of operations and prospects.

5) ***Our Company intends to utilise a portion of the Net Proceeds of the Issue towards the working capital requirements of our Company which are based on certain assumptions and estimates and has not been appraised by any bank or financial institution.***

The objects of the Issue include funding working capital requirements which are based on the management estimates and certain assumptions by our Company in relation to inter alia sales of the products by our Company, receivable days and the cost and holding periods of the inventories of the products of our Company. The funding requirements for funding working capital requirements of our Company have not been appraised by any bank or financial institution.

Our business is working capital intensive and accordingly, the net working capital requirements of our Company for the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022, and Fiscal 2021 was ₹ 3442.68 million, ₹ 2649.93 million, ₹ 1714.95 million and ₹ 1289.42 million and represents 62.13%, 24.85%, 24.75% and 24.05% of our revenue from operations, respectively. We propose to utilise upto ₹ 300.00 million and upto ₹ 900.00 million from the Net Proceeds to fund part of the working capital requirements of our Company in Fiscal 2024 and Fiscal 2025, respectively. For details, see '*Objects of the Issue*' on page 137.

The future working capital requirements and deployment of funds by our Company may be subject to change due to factors beyond the control of our Company including force majeure conditions, an increase in defaults by our customers, unanticipated expenses, economic conditions, availability of funding from banks or financial institutions. Accordingly, such working capital requirements and deployment of proceeds may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

As on September 30, 2023, our Company has utilised 83.06% of its working capital limit including, the limit from TreDS. Our Company's sources of additional financing, required to meet the working capital requirements of our Company may include availing debt or issue of further equity or debt securities or a combination of both. If our Company decides to raise additional funds by availing debt, the interest and debt repayment obligations of our Company will increase and could have a significant effect on our profitability and cash flows. Further, our Company may be subject to additional covenants, which could limit the ability of our Company to access cash flows from operations. Any issuance of further equity, on the other hand, could result in a dilution of your shareholding in our Company. Accordingly, continued increases in the working capital requirements by our Company may have an adverse effect on our business, results of operations, financial condition and cash flows.

6) ***We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which are either received or applied for or are yet to be applied. Many of these approvals are subject to periodical renewal. Any failure to renew the approvals that may expire, or to apply for the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We believe that we have obtained all the material licenses required for running our business and operations. However, in order to comply with various applicable local laws, we are yet to make a few applications for obtaining requisite approvals.

Our Company has taken the Mukka Manufacturing Facility II on rental basis from our Subsidiary, namely Haris Marine Products Private Limited and is carrying on the manufacturing operations since December 1, 2022. While, we have received all the requisite approvals except consent to operate in our Company's name, our Subsidiary namely Haris Marine Products Private Limited had filed an application to renew the consent to operate, which has been refused vide Order dated November 23, 2023. Our Subsidiary namely Haris Marine Products Private Limited has challenged this refusal Order in Writ Petition no. 27433/2023 and an interim order has been passed by the Hon'ble High Court of Karnataka staying the said refusal order. For further details, see "**Outstanding Litigation and Material Development**" beginning on page 449 of this Red Herring Prospectus. Accordingly, our Company is continuing to utilise the Mukka Manufacturing Facility II in accordance with the arrangement with our Subsidiary namely Haris Marine Products Private Limited. For further details, see "**Government and Other Approvals**" on page 484 of this Red Herring Prospectus. There can be no assurance that the relevant authorities will issue or endorse any of such permits or approvals in the time frame or manner as may be anticipated by us or at all. In case, the regulatory authorities delay or denies the transfer of licenses pertaining to Mukka Manufacturing Facility II in our Company's name, we may face manufacturing disruptions at our Mukka Manufacturing Facility II resulting in limitation to production ability or cessation of manufacturing activities until the required approvals are received in our Company's name.

While, we have not had any material instances of failure to obtain, maintain or renew approvals, licenses, and registrations required to conduct our businesses in India and the overseas markets in the past three Fiscals and the six months period ended September 30, 2023, we cannot assure you that approvals, licenses and registrations will be successfully granted or renewed in a timely manner or at all in the future. We also cannot assure you that our approvals and consents will not be suspended or revoked in the future. Failure to obtain, maintain or renew the approvals, licenses and registrations required to operate our business could adversely affect our business, financial condition, cash flows and results of operations.

Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals which may result in the interruption of our operations and may have a material adverse effect on our business, financial condition, cash flows and results of operations.

In addition, the local laws of Oman, where we have our Subsidiary, namely Ocean Aquatic Proteins LLC, impose certain restrictions on the transfer/endorsement of licenses to manufacture Fish Protein products. As a result, certain registration, licenses and supply agreements are obtained from third party entity and benefits, entitlements and permissions thereunder are utilised by Ocean Aquatic Proteins LLC under contractual arrangement for certain consideration. If such counter party defaults in maintaining such approvals or their approvals are otherwise cancelled, suspended or is subject to any regulatory re-consideration or any conditions attached to such approvals are not complied with, then in such event operations of our Oman Manufacturing Facilities may be adversely affected and consequently adversely affecting our business, financial condition, cash flows and results of operations.

Our Company has unutilised capacity at our Manufacturing Facilities other than Mukka Manufacturing Facility I and Mukka Manufacturing Facility II. For details of our installed and utilised capacity see “**Our Business**” and Risk Factor no. 22 “**Under-utilisation of our manufacturing capacities and an inability to effectively utilise our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.**” on pages 232 and 73 of this Red Herring Prospectus.

Further, as of September, 30, 2023, our Company has entered into contractual arrangement with third-party manufacturing units, situated at Sasihithlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Talaja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), which are strategically located to ensure availability of our key raw material and also to increase our presence across the western coastline of India. With (2) two of the third-party manufacturers located in Udupi (Karnataka) and Ullal (Karnataka), our Company has entered into job work arrangement, where our Company provide them the raw material and receive corresponding output of the products manufactured by them. With respect to the arrangement with other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Talaja (Maharashtra) and 1 (one) located in Sasihithlu (Karnataka), our Company has entered into arrangement with these third-party manufacturers to procure 100% of their production output.

If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change, we may incur increased costs, be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations. For further details, see “**Key Industry Regulations and Policies**” and “**Government and Other Approvals**” for permits/licenses required for the business on pages 276 and 484 respectively of this Red Herring Prospectus.

- 7) ***We require certain approvals and licenses for the Mukka Manufacturing Facility II and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business at the Mukka Manufacturing Facility II. Our Company has taken the Mukka Manufacturing Facility II on rental basis from our Subsidiary, namely Haris Marine Products Private Limited and is carrying on the manufacturing operations since December 1, 2022. While, we have received all the requisite approvals except consent to operate in our Company’s name, our Subsidiary namely Haris Marine Products Private Limited had filed an application to renew the consent to operate, which has been refused vide Order dated November 23, 2023. Our Subsidiary namely Haris Marine Products Private Limited has challenged this refusal Order in Writ Petition no. 27433/2023 and an interim order has been passed by the Hon’ble High Court of Karnataka staying the said refusal order. For further details, see “**Outstanding Litigation and Material Development**” beginning on page 449 of this Red Herring Prospectus. Accordingly, our Company is continuing to utilise the Mukka Manufacturing Facility II in accordance with the arrangement with our Subsidiary namely Haris Marine Products Private Limited. For further details, see “**Government and Other Approvals**” on page 484 of this Red Herring Prospectus. There can be no assurance that the relevant authorities will issue or endorse any of such permits or approvals in the time frame or manner as may be anticipated by us or at all. In case, the regulatory authorities delay or denies the transfer of licenses pertaining to Mukka Manufacturing Facility II in our Company’s name, we may face manufacturing disruptions at our Mukka Manufacturing Facility II resulting in limitation to production ability or cessation of manufacturing activities until the required approvals are received in our Company’s name. Failure to obtain, maintain or renew the approvals, licenses and registrations required to operate our business could adversely affect our business, financial condition, cash flows and results of operations.

- 8) ***Our ability to access capital at attractive costs depends on our credit ratings. Non-availability of credit ratings or a poor rating may restrict our access to capital and thereby adversely affect our business and results of operations.***

The cost and availability of capital, amongst other factors, is also dependent on our credit ratings. Our Company has been assigned ICRA BBB+(Stable)/ICRA A2 for long term/short term packing credit, ICRA A2 for short term standby letter of credit, ICRA BBB+(Stable) for long term cash credit and ICRA A2 for short term unallocated limits. Ratings reflect a rating agency's opinion of our Company's financial strength, operating performance, strategic position, and ability to meet our obligations. While our ratings have not been downgraded in the past, any adverse change in credit ratings assigned to our Company or our borrowing limits in the future may impact our ability to raise additional funds and/or the interest cost at which we borrow additional funds and could have an adverse effect on our business and results of operations. Certain additional restrictive covenants may also become applicable on part of our indebtedness in case of downward revision of certain ratings.

- 9) ***In respect of the land on which Mukka Manufacturing Facility II is located, our Licensor's title to the land may be defective on account of failure to obtain necessary written consent of Governor of Karnataka represented by the Director of Ports and Inland Water Transport in Karnataka ("Port Authority") in relation to transfer of licence of the land to Haris Marine Products (now Haris Marine Products Private Limited) or the written consent if at all obtained, is not traceable and the document executed with Marine Enterprises by Haris Marine Products is not duly registered or adequately stamped.***

In terms of Indenture dated October 07, 2009 entered into between the Port Authority and Marine Enterprises (the "Lessee"), the land on which Mukka Manufacturing Facility II is located was given on license basis by Port Authority to Lessee on the terms and conditions as stipulated in the aforementioned Indenture. One of the terms of the Indenture stipulates that the Lessee shall not assign, sublet, transfer or part possession of the said land or any part thereof without the consent in writing of the Port Authority. The Lessee transferred its license to the erstwhile partnership firm Haris Marine Products (now Haris Marine Products Private Limited) and in this regard a Memorandum of Understanding was executed between the Lessee and Haris Marine Products (now Haris Marine Products Private Limited). The Lessee had either not taken prior written consent of the Port Authority before transferring the licence to the erstwhile partnership firm Haris Marine Products (now Haris Marine Products Private Limited) or the said written consent of Port Authority is not traceable. Further, Haris Marine Products Private Limited has thereafter given to us the land on which Mukka Manufacturing Facility II is located on rent basis and in this regard a Rent Agreement was executed between Haris Marine Private Limited and us. Haris Marine Products Private Limited had either not taken prior written consent of the Port Authority before giving the land on which Mukka Manufacturing Facility II is located on rent to us or the said written consent of Port Authority is not traceable. While the Port Authority has not raised any concern regarding failure of obtaining their prior written consent, there can no assurance that the Port Authority will not in future raise the said issue and will not terminate the original Indenture dated October 07, 2009 as a consequence of breach of the terms. Termination of Indenture dated October 07, 2009 would entitle the Port Authority to take possession of the land along with the structures standing thereon. Further, the license agreement between the Lessee and erstwhile partnership firm Haris Marine Products (now Haris Marine Products Private Limited) is not adequately stamped and not duly registered. Unless such agreement is adequately stamped and duly registered, such agreement may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce the said agreement legally, which may result in an adverse effect on the continuance of our operations and business at Manufacturing Facility II.

- 10) ***We have recently ventured into insect protein business and we may be unable to execute our strategy to expand the business or find suitable market for insect proteins, which could have a material adverse effect on our business, financial condition and results of operations.***

Insect-based nutrition is emerging as a whole new category in food and feed systems. It has the potential to bring new value-added propositions based on its nutritional, functional, and environmental benefits. (Source: RaboResearch Report). We ventured in the business of manufacturing and selling of insect meal and insect oil, through our Associate, namely EPPL in Fiscal 2022. The manufacturing of insect protein business is dependent on availability of adequate quantity of BSF eggs and also suitable place for hatching, feeding and harvesting of BSF larvae. EPPL primarily depend on MSW sites for harvesting BSF larvae that can be converted into insect meal and insect oil. Any alternate source of harvesting sites would increase the cost of manufacturing of insect meal and insect oil, thus making it economically less competitive as a substitute for fish protein products.

As of November 30, 2023, of the total 45,045 ton of wet waste and chicken waste (organic solid waste) allocated to EPPL, around 2739 ton of BSF Larvae was harvested and the organic solid waste was converted

into 3495 ton of organic compost. Further, upto September 30, 2023, EPPL harvested 2407 ton of BSF Larvae which was processed into 505 ton of insect meals and 217 ton of insect oil. Further, in order to scale up our Insect Protein production capabilities, we intend to make further investment in EPPL to meet its incremental working capital requirements, by way of equity, debt or a combination thereof from the proceeds of the Issue and thereby emerge as a key player across the full spectrum of Animal Protein constituting of Fish Protein and Insect Protein.

Failure to gain the trust of existing and new customers in the Insect Protein segment could adversely affect our strategy of expanding our insect protein business. Further, the insect protein business in India is in a nascent stage which may be subject to various evolving regulations and regulatory conditionalities. Our limited experience in the Insect Protein business could adversely affect this line of business and this could have a material adverse effect on our business, financial condition and results of operations.

- 11) *Our Company and its Subsidiaries, during the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 had entered into various transactions with our Promoters, some of the members of the Promoter Group and some of the Directors. Our Company and its Subsidiaries have in the past entered into Related Party Transactions and may continue to do so in the future also, which may adversely affect our competitive edge and better bargaining power had these transactions been with non-related parties resulting in relatively more favourable terms and conditions and better margins.*

Our Company and its Subsidiaries have entered into various agreements with the Company's Promoters, some of the members of the Promoter Group and some of the Directors for certain transactions including loan, rent, interest and purchase of goods in compliance with the Companies Act, 2013, SEBI (LODR) Regulations, relevant Accounting Standards and other statutory compliances.

The related party transaction can be summarised broadly under the category such as remuneration to directors and KMPs (₹18.31 million, ₹ 35.77 million, ₹38.00 million, ₹ 34.60 million), sitting fees paid to directors (₹0.52 million, ₹0.89 million, ₹0.18 million and ₹ NIL million), loan given (₹ NIL million, ₹ NIL million, ₹88.87 million, ₹ 47.98 million), loan taken (₹ 1.16 million, ₹ NIL million, ₹28.76 million, ₹ 10.80 million), sale of good (₹ 38.27 million, ₹ 289.17 million, ₹172.61 million, ₹56.47 million) and purchase of goods (₹ 1629.13 million, ₹ 3290.80 million, ₹2001.42 million, ₹1355.00 million), investment (₹ NIL million, ₹ NIL million, ₹58.17 million, ₹ 31.28 million), capital contribution in partnership firms (₹80.00 million, ₹ NIL million, ₹20.17 million, ₹NIL million), professional charges (₹ NIL million, ₹ NIL million, ₹1.33 million, ₹ NIL million), freight expenses (₹ 174.51 million, ₹ 471.56 million, ₹336.22 million, ₹ 271.16 million) for the financial period covered under this Red Herring Prospectus i.e. six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively.

The related party transaction in compliance with the Companies Act, 2013, SEBI (LODR) Regulations, relevant Accounting Standards and other statutory compliances are as per the details below:

The percentage of the arithmetic aggregated absolute total of related party transactions (post inter-company eliminations) to our revenue from operations as at and for the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, is 31.43%, 35.68%, 33.68% and 28.67% respectively.

Our Promoters, some of the members of the Promoter Group and some of the Directors will be deemed to be interested to the extent of these transactions. Our Company and its Subsidiaries entered into such transactions due to easy proximity and quick execution on an arm's length basis. However, there can be no assurance that we could not have obtained better and more favourable terms had our Company and our Subsidiaries not entered into such related party transactions. Our Company and its Subsidiaries may continue enter into such transactions in the future also and we cannot assure that in such event there would be no adverse effect on the results of our operations.

While we have taken care that all such transactions have been entered into on the arm's length basis, and in compliance with Companies Act, 2013 and other applicable laws, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, see **Annexure V- Note 34 Related party disclosures – Restated Consolidated Financial Statement**" on page 373 of this Red Herring Prospectus.

12) Our pursuit of inorganic growth opportunities may not be successful and could result in increased costs.

As part of our growth strategy, we look to evaluate potential opportunities to acquire businesses, processing facilities, establish joint ventures, enter into strategic partnerships with local partners as well as acquisition of brands that would complement our existing business and enable us to have increased access to customers and to consolidate our market position with an extensive sales and distribution network.

The Company has made the following acquisitions in the past:

[^] Our Company sold 10,500 equity shares to our Promoter, namely Kalandan Mohammed Haris on December 9, 2020. As on the date of this Red Herring Prospectus, our Company holds 94,500 equity shares

The constitution of Atlantic Marine Products was converted from partnership firm to a private limited company on November 14, 2019.

* The constitution of Haris Marine Product was converted from partnership firm to a private limited company on October 30, 2019.

The shareholding of our Company was diluted by 50% (due corporate action (rights issue)) with effect from October 19, 2021

\$ MSFI (Bangladesh) Ltd. ceased to be our joint venture on December 20, 2022.

** Our Company resigned as partner from the partnership firm with effect from February 25, 2022

However, we may not be able to identify suitable companies, consummate a transaction on terms that are favourable to us, or achieve expected returns and other benefits as a result of integration challenges. There can be no assurance that we will be able to successfully integrate the acquired businesses into our existing operations. In past, a few of our acquisition has not resulted in the desired result. For instance, our Company resigned as a partner from KGN Marine Products, partnership firm, with effect from February 25, 2022 and our joint venture arrangement with MSFI Bangladesh Ltd. ceased to be our joint venture on December 20, 2022 and is not actively engaged in any business operations since the year 2015. Our acquisition strategy involves various risks and challenges, including the diversion of management's attention from our business operations; the potential loss of key employees and customers of the acquired businesses; uncertainties that may impair our ability to attract, retain and motivate key personnel; potential deficiencies in financial control and statutory compliance in the acquired entities; an increase in our expenses and working capital requirements; a failure to achieve cultural compatibility and other benefits expected from an acquisition; and exposure to unanticipated liabilities of the acquired companies. All of these factors could adversely affect our business, financial condition, results of operations and prospects. In addition, we may require additional financial resources for the successful expansion or reorganization of these recently acquired businesses and integrating their operations into our operations. An inability to raise adequate finances in a timely manner and on commercially acceptable terms for the acquisition, expansion, reorganization or integration of these businesses with our existing operations could materially and adversely affect our business, results of operations and financial condition.

13) *None of the Directors of the Company have experience of being a director of a public listed company.*

The Directors of the Company do not have the experience of having held directorship of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, the Company will require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited quarterly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies.

Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

14) *We generate a majority of our revenue through the sale of fishmeal in India, China, Vietnam and Japan. Any adverse developments or changes in the demand for our products, consumption patterns, government regulations in India or in such countries may have a material adverse effect on our business, financial condition and results of operations.*

We generate a majority of our revenue through the sale of fishmeal in India. Any adverse developments or changes in the demand for our products, consumption patterns, government regulations in India may have a material adverse effect on our business, financial condition and results of operations. The revenue from operations from the sale of fishmeal for the six months period ended September 30, 2023 and Fiscals 2023, 2022 and 2021 accounted for 86.16%, 81.73%, 92.42% and 90.56%, respectively, of our revenue from operations. Any adverse change in demand for our products, consumption patterns, prices or government

regulations including substantial increase in the levy of duties on fishmeal, introduction of trade barriers in other countries may adversely affect our business, financial condition and results of operations.

15) We are susceptible to exchange rate fluctuations.

A substantial portion of our revenue from operations is generated from the export of the products to customers in international markets. Our Company has export revenue for Fiscal 2021, Fiscal 2022, Fiscal 2023 and for the six months period ended September 30, 2023 was approx. ₹ 2,826.96 million, ₹1,389.47 million, ₹5610.32 million and ₹3474.14 million comprising of 52.72%, 20.05% and 52.61% and 62.68%, respectively of the revenue from operations of the Company. We are, therefore, exposed to significant risks relating to exchange rate fluctuations. In addition, because our financial statements are presented in Indian Rupees, we are subject to translation risk, which is the risk that our financial statements for a particular period or as of a certain date depend on the prevailing exchange rates of other currencies, against the Indian Rupee. The exchange rate between the Indian Rupee and other foreign currencies has changed considerably in recent years and may further fluctuate in the future. Such fluctuations in currency exchange rates may impact our results of operations. Based on our overseas business operations, we primarily deal in USD. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the USD, may have a material impact on our results of operations, cash flows and financial condition. Our Company has partly hedged its foreign currency risk and the open forward contract position as on September 30, 2023 is ₹1081.04 million (equivalent to US Dollar 13 million), against total foreign currency receivable of ₹1142.26 million. Our Company has earned foreign exchange fluctuation income to the extent of ₹37.75 million as of September 30, 2023. In the event, we do not continue to hedge our risks, we may, be exposed to risks arising from exchange rate fluctuations and may not be able to pass on all losses on account of foreign currency fluctuations to our customers.

16) Some of our Group Companies have incurred losses in the previous Fiscals.

Sustained financial losses by our Group Companies namely Acaya Exims Private Limited, Ento Proteins Private Limited, Ocean Proteins Private Limited and Shipwaves Online L.L.C., Dubai, and may not be perceived positively by external parties such as customers, bankers, suppliers etc., which may affect our credibility and business operations. - 17) *We have certain contingent liabilities as stated in the Restated Consolidated Financial Statement, and in the event, they materialize it could adversely affect our financial condition.*

The below listed table and notes set forth the principal components of our contingent liabilities as per Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets, as of September 30, 2023:

Particulars	September 30, 2023 (₹ in million)
A) Disputed Tax Liability	
(i) Income Tax Liability	149.64
(ii) GST Liability	-
(iii) EPCG Liability	0.73
B) Corporate Guarantees given*	500.00

Notes: From time to time, we are involved in claims and legal matters arising in the ordinary course of business. Our Management is not currently aware of any matters that will have a material adverse effect on the financial position, results of operations, or cash flows of the Group.

*Our Company has given a corporate guarantee to the lender of our Subsidiary, namely Ocean Aquatic Proteins LLC to an extent of ₹400.58 million and our Associate entity, namely Ocean Proteins Private Limited to an extent of ₹500 million, aggregating to ₹900.58 million, for their respective borrowings. Further, our Subsidiary, Haris Marine Products Private Limited has given Corporate Guarantee towards the borrowings availed by our Company, and thus the same is adjusted on account of inter-company elimination. For further details, see chapter titled 'Financial Indebtedness' on page 412 of the Red Herring Prospectus.

In the event any such contingent liabilities mentioned above were to materialise or if our contingent liabilities were to increase in future, our business, financial condition and result of operations could be adversely affected. For further details, see **Annexure V- Note 29 Contingent Liabilities - Restated Consolidated Financial Statement** and chapter titled "Financial Indebtedness" on pages 370 and 412 of this Red Herring Prospectus.

- 18) *We have experienced negative cash flows from operating activities and may do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.*

As per the Restated Consolidated Financial Statement, we have experienced negative cash flows from operating activities in the past, details of which are provided below:

Particulars	(₹ in million)			
	For the six months period ending September 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Net cash flows from operating activities	(201.19)	(543.95)	48.08	59.49

However, our operating cash flow before working capital changes is positive for all the periods disclosed above. Over the years, cash flows are used in building higher inventory levels, receivables and paying-off creditors in line with the growth of our business. As on September 30, 2023, we have experienced negative cash flows from operating activities due to the effect of the working capital changes. For details, see "Restated Consolidated Financial Statement" on page 337 of this Red Herring Prospectus.

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

- 19) *Certain sections of this Red Herring Prospectus disclose information from (i) the CRISIL Report which has been commissioned and paid for by us exclusively in connection with the Issue; and (ii) RaboResearch Report which is a publicly available report and BRLM has obtained consent of RaboResearch for use of the report, by email dated March 10, 2023 and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.*

Certain sections of this Red Herring Prospectus include information based on, or derived from, the report titled "Assessment of the fish meal and fish oil processing in India", dated May 2023 read with the Addendum dated December 2023 released by CRISIL prepared exclusively for the Issue and commissioned and paid by our Company in connection with the Issue. CRISIL has been appointed pursuant to engagement letter dated February 2, 2023. This Red Herring Prospectus also includes information based on, or derived from, the report titled "No longer crawling: Insect protein to come of age in the 2020s" dated February 2021 prepared by RaboResearch Food & agribusiness, which is a publicly available report and BRLM has obtained consent of RaboResearch for use of the report, by email dated March 10, 2023.

Further, CRISIL Report and the RaboResearch Report are prepared based on information as of specific dates and may no longer be current or reflect current trends. Certain information in this Report is subject to limitations and is also based on estimates, projections, forecasts and assumptions that may prove to be incorrect. Industry sources do not guarantee the accuracy, adequacy or completeness of the data. The CRISIL Report and RaboResearch Report uses certain methodologies for market sizing and forecasting. Furthermore, the CRISIL Report and RaboResearch Report are not a recommendation to invest/ disinvest in any company covered in the CRISIL Report. Accordingly, Investors should not place undue reliance on, or base their investment decision solely on this information.

In view of the foregoing, you may not be able to seek legal recourse for any losses resulting from undertaking any investment in the Issue pursuant to reliance on the information in this Red Herring Prospectus based on, or derived from, the CRISIL Report and RaboResearch Report. You should consult your own advisors and undertake an independent assessment of information in this Red Herring Prospectus based on, or derived from, the CRISIL Report and RaboResearch Report before making any investment decision regarding the Issue. For further details, see “**Industry Overview**” on page 169 of this Red Herring Prospectus.

20) *Failure to procure and/ or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.*

Our significant insurance policies consist of, among others, building (including plinth), plant, machinery, vehicles, furniture, fittings and stocks (including fish meal & fish oil) and export receivables. While we maintain insurance coverage in adequate amounts consistent with the size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. As on March 31, 2021, March 31, 2022, March 31, 2023 and for the six months period ended September 30, 2023, we maintained insurance coverage of ₹1,442.00 million, ₹2,095.30 million, ₹2903.40 million and ₹3635.59 million which is 64.74%, 88.73%, 97.21% and 121.87%, respectively of our total PPE (excluding vehicles), capital work-in-progress and inventories. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed.

In past, we have experienced an occurrence of fire at Storage Facility I which was insured under Standard Fire and Special Perils Policy obtained from National Insurance Company Limited and flood at Storage Facility II which was insured under Standard Fire and Special Perils Policy obtained from United India Insurance Company Limited. The claim made by us were not honoured fully, or on time and thus have filed complaints under appropriate Consumer Disputes Redressal Commission. For further details, see “**Outstanding Litigations and Material Developments**” on page 449 of this Red Herring Prospectus. Any adverse outcome of such legal proceedings may adversely affect our financial conditions.

Further, we do not obtain insurance coverage for our third-parties manufacturers engaged on job work basis and under arrangement for procurement of production outputs. We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect facilities of our third-party manufacturers. Presently, we are not aware if our third-party manufacturers have obtained adequate insurance coverage against their respective facilities or at all. Any damage suffered by our third-party manufacturers in excess of limited coverage amounts, if any, or in respect of uninsured events, not covered by their respective insurance policies may have to be borne by us, which could impact our business, financial condition and results of operations

Further, there are many events that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

21) *A majority of our supplies for our operations are obtained from a limited number of suppliers. Our Company does not have any formal long-term arrangements with the suppliers of our key raw material. Any significant variation in the supply may adversely affect the operations and profitability of our Company.*

We depend on third-party suppliers and manufacturers for the supply of our raw materials. The key raw material that we use for our manufacturing operations is pelagic fish (raw fish), which we source from the vendor, agents and local fish catchers and our raw material suppliers are primarily located in India. Pelagic fish and fish remains are used as our raw material to manufacture fish meal, fish oil and fish soluble paste. We also procure fish meal, fish oil, insect meal and insect oil as our raw material, which we further process and blend as our final product to meet our customer needs.

We procure our raw material based on quality, pricing and market availability. Our suppliers of raw materials include local fish catchers, fish processing units and fish meal suppliers. For the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, our top 5 suppliers contributed 35.05% and 33.28%, 35.41% and 35.10%, respectively of our total purchases. Further, supply from our Associates for the six months period ended September 30, 2023 was 0.36% of our total purchases.

The following table sets forth the number of the raw material suppliers of our Company by category and the amounts paid to our raw material suppliers in absolute terms and as a percentage of our total purchases of raw materials along with contribution of purchases from Related Party Transactions, for the years/periods indicated:

Further, purchase from related party forming part of the top 5 (five) suppliers constitutes 42.67%, 35.57%, 36.74% and 20.92% of the total cost of material consumed for the six months period ending September 30, 2023, for Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively. For more information, see, “**Our Business - Raw Material and Third-Party Manufacturers**” and “**Annexure V- Note 34 Related party disclosures - Restated Consolidated Financial Statement**” on pages 264 and 373 of this Red Herring Prospectus.

We purchase such fish in the open market at prevailing market prices. Though we prefer to deal with a set of suppliers with whom we have a long-standing relationship, we have not entered into any fixed supply agreement or any other arrangement with any of our suppliers. For instance, our purchase from the top 5 suppliers amounted to ₹1707.68 million and ₹3373.17 million, ₹2,300.99 million and ₹1,924.60 million for the six months period ended September 30, 2023 and during Fiscal 2023, Fiscal 2022 and Fiscal 2021,

respectively comprising of 35.05% and 33.28%, 35.41% and 35.10%, respectively of the cost of raw material consumed by us.

These suppliers have accorded their trust and service based on our long operating history in the industry, our credit worthiness and our goodwill. However, in the absence of written agreements, our suppliers are not bound to supply raw fish to us and can withdraw their commitments from us at any time. The volume and amount of raw fish procured by our Company in Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ended September 30, 2023 is as follows:

Period	Volume* (in MT)	Amount (₹ in million)
Six months period ended September 30, 2023	49690	1253.28
Fiscal 2023	131805	2679.98
Fiscal 2022	82,513	1,489.68
Fiscal 2021	41,535	758.32

*Rounded off to the nearest one

Accordingly, we cannot assure that we will be able to procure our raw materials at favourable terms than our competitors. Also, while in the past we have not faced any significant instances wherein there have been any deficiencies in the supply of our raw materials by our suppliers, we cannot assure you that such deficiencies will not arise in the supply of our raw materials.

We also do not have any control over the fishing operations of these fish catchers. While we conduct quality checks on the raw fish purchased by us from such fish catchers, there can be no assurance that such fish catchers have complied or will continue to comply with the quality standards required by us. In addition, there can be no assurance that such fish catchers will continue to maintain requisite licenses and approvals for the conduct of their own operations.

In addition, fish catchers from where we procure our raw fish may be unable to provide us with raw fish of requisite quality at a suitable price for us to meet the demand for our products. This may lead to an increase in our raw material costs, or require us to source raw fish from other suppliers, which we may be unable to do at competitive prices, or at all. Interruption of, or shortage in, or increase in the cost of supply of raw fish may result in our inability to operate our production facilities at optimal capacities or at all, leading to a decline in sales and profits, which could adversely affect our business, results of operations and financial condition. For details of our risk associated with capacity utilisation, see “**Our Business – Capacity and Capacity Utilisation**” on page 251 of this Red Herring Prospectus.

In addition, we also procure our other raw materials such as fish remains, fish meal, fish oil, fish soluble paste, insect meal and insect oil from third party manufacturers, our Subsidiaries, Associates and some of our Promoter Group entities. As on date, we have entered into agreement with some of our suppliers for procurement of other raw materials. We have limited control over the operations and businesses of third-party suppliers and in the event any such supplier treats our competitors’ more favourably than us; we may not be able to procure the output and or the raw material at favourable terms.

Our Company has also entered into supply agreements for procurement of fish remains and also third-party manufacturing arrangements for procurement of fish meal, fish oil, insect meal and insect oil. We are subject to various risks associated with the third-party manufacturers such as interruptions to the operations of third-party manufacturers, failure by our third-party manufacturers to comply with applicable law, insufficient quality controls, any inability on our part to renew arrangement with or find replacements for existing third-party manufacturers, etc. Any disruption or inefficiencies in the supply chain network may adversely affect our business and results of operations. Non-availability of our other raw materials at favourable terms may lead to a decline in our production and therefore in sales and profits, which could adversely affect our business, results of operations and financial condition.

In case any of our suppliers discontinue their relationship with us, we may have to procure the raw materials from other suppliers. While we are not significantly dependent on any single supplier, our supply can be volatile due to a number of factors beyond our control. Therefore, we cannot assure you that we will be able to procure adequate supplies of raw fish in the future, as and when we need them on commercially acceptable terms.

We also obtain raw material from our Associates and the partnership firm, where our Company has made substantial capital contribution such as fish remains, fish meal, fish oil, fish soluble paste, insect meal and insect protein. Our purchase of raw material from our Associate and the partnership firm, where our Company has made substantial capital contribution, for six months period ended September 30, 2023 and for the Fiscal 2023, 2022 and 2021 is ₹1233.47 million, ₹2950.60 million, ₹1,879.40 million and ₹1,135.53 million which represents 25.31%, 29.11%, 28.93% and 20.71% respectively of our cost of material consumed.

We do not hold controlling interest in our Associates and we are unable to control the composition of our Associates' board and determine matters requiring shareholder approval or approval of their board. Further, our Company has also made significant capital contribution in some of the partnership firms. Our interests may not align with the interest of the other stakeholders of these entities and the other stakeholders may take or block actions with respect to these entities business. We cannot guarantee that the other stakeholders will act in our interest while exercising their rights in these entities and we could be exposed to the risk of disputes arising with other stakeholders of these entities, which could have a material adverse effect on our business, results of operations and financial condition.

22) *Under-utilisation of our manufacturing capacities and an inability to effectively utilise our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.*

We have 6 (six) existing Manufacturing Facilities and 3 (three) Blending Facilities. Our Manufacturing Facilities are located in Karnataka, Gujarat and Oman. As on the date of this Red Herring Prospectus, we have entered into arrangements with 8 (eight) third-party manufacturing facilities, out of which 2 (two) manufacturing facilities are on job work basis and the balance 6 (six) manufacturing facilities have committed to supply 100% of their production output (i.e. fish meal, fish oil and fish soluble paste) to our Company. Our third-party manufacturing facilities are situated in Karnataka, Maharashtra and Gujarat. For further details, see “*Our Business – Our Facilities*” on page 249 of this Red Herring Prospectus. Our capacity utilisation is affected by the availability of our key raw material i.e., pelagic fish, the availability of which is subject to various climatic and environmental conditions, including seasonal in nature. The inherent risk related to availability of our raw material have resulted in less than 50% utilisation of our Manufacturing Facilities and Blending Facilities.

In the six months period ended September 30, 2023 and for the Fiscals 2023, 2022 and 2021, the overall capacity utilisation of our Manufacturing Facilities in India was 24.02%, 29.31%, 20.71% and 17.36%, respectively and that of our Manufacturing Facility in Oman was 16.06%, 15.96%, 26.73% and 36.73%, respectively for the same period. For further details, see “*Our Business - Capacity and Capacity Utilisation*” on page 251 of this Red Herring Prospectus. For the Fiscal 2020 and Fiscal 2021, our capacity utilisation was also impacted due to limited availability of raw material during the COVID-19 pandemic. These figures are not indicative of future capacity utilisation rates, which is dependent on various factors, including availability of raw materials, demand for our products, customer preferences, our ability to manage our inventory and implement our growth strategy of improving operational efficiency. Under-utilisation of our manufacturing capacities over extended periods, or significant underutilisation in the short-term, could materially and adversely impact our business, growth prospects and future financial performance.

As set out below is the capacity utilisation for the Fiscal 2023, Fiscal 2022, Fiscal 2021 and the six months period September 30, 2023.

*Started operation from March 1, 2022

We maintain our manufacturing operations at multiple locations and strategically across the coastline for easy access to raw fish and for operational convenience when the raw fish is available. In the event that we are unable to achieve desired capacity utilisation of our current manufacturing facilities or unable to operate our Manufacturing Facilities at all, the same could have a material adverse effect on our business, financial condition, future prospects, and future financial performance.

Further, we have made certain strategic investments for the expansion of our manufacturing capacities and are continuing to undertake such additional investments. The success of any capacity expansion and expected return on investment on capital invested is subject to, among other factors, the ability to procure requisite regulatory approvals in a timely manner and the availability of our key raw material. Where we are not able to source adequate quantity of our key raw material, we may not be able to utilise our expanded capacity effectively and efficiently.

Our manufacturing operations also require an adequate supply of electricity, other fuel and water, the shortage or non-availability of which may adversely affect our operations. While we source most of our electricity requirements from local utilities and our own diesel generator sets, we also require a significant supply of wood, briquette and gas for our boilers. Inadequate electricity, diesel for our generators or gas supply for our boilers could result in interruption or suspension of our manufacturing operations. However, there can be no assurance that such supply will not be adversely impacted in the future. Any failure on our part to obtain alternate sources of electricity, fuel or water, in a timely manner, and at an acceptable cost, may cause a slowdown or interruption to our manufacturing process and have an adverse effect on our business, financial condition and results of operations.

23) Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have provided security in respect of loans / facilities availed by us from banks and financial institutions by creating a charge over our movable and immovable properties. The total amount outstanding and payable by us as secured loans based on our Restated Consolidated Financial Statement was ₹2634.02 million, as on September 30, 2023. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our assets may be subject to forfeiture by lenders, which in turn could have significant adverse effect on our business, financial condition or results of operations. For further details of the secured loans availed by us, see “**Financial Indebtedness**” on page 412 of this Red Herring Prospectus.

24) We have availed unsecured loans which are repayable on demand. Any demand for repayment of such unsecured loans, may adversely affect our cash flows.

As on September 30, 2023, we have unsecured loans amounting to ₹543.25 million as per our Restated Consolidated Financial Statements of which ₹536.01 million are from the TReDs bill discounting platform and unsecured loans aggregating to ₹2.55 million from our Directors, which are repayable on demand to the relevant lender. Further, these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, see “**Restated Consolidated Financial Statements**” on page 337 of this Red Herring Prospectus

25) We are subject to restrictive covenants under our financing agreements that could limit our flexibility in managing our business or to use cash or other assets. Any defaults could lead to acceleration of our repayment obligations, cross defaults under other financing agreements, termination of one or more of our financing agreements or force us to sell our assets, which may adversely affect our cash flows, business, results of operations and financial condition.

We have entered into agreements for secured short term and long-term borrowings with certain lenders. As on September 30, 2023, an aggregate of ₹2634.02 million towards secured loans, on a consolidated basis, was outstanding towards loans availed from banks. The credit facilities availed by us are secured by way of mortgage of fixed assets, hypothecation of current assets (both present and future), and personal guarantees given by our Promoters. In case we are not able to pay our dues in time, the same may amount to a default under the loan documentation and all the penal and termination provisions therein would get triggered and the loans granted to us may be recalled with penal interest. This could severely affect our operations and financial condition. Our financing agreements include certain covenants that require us to obtain lender consents prior to carrying out certain corporate activities and entering into certain transactions, such as, incurring any additional borrowings, undertaking capital expenditure, diversifying business, advance or repay loans, effect any dividend pay-out in case of delays in debt servicing, effect any change in shareholding pattern and management control of the Company (which would include issuance of equity shares pursuant to this Issue) amongst others. In addition, any breach of financial or non-financial covenant may qualify as an event of default under financing agreements.

We cannot assure you that the lenders will not seek to enforce their rights in respect of any breach by us under our financing agreements. Any failure to comply with any condition or covenant under our financing agreements that is not waived by the lenders or is not otherwise cured by us, may lead to a termination of our credit facilities and/or acceleration of all amounts due under the relevant credit facility. Further, such breach and relevant actions by the lenders could also trigger enforcement action by other lenders pursuant to cross-default provisions under certain of our financing agreements. Further, if the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under the financing documents, thereby reducing the availability of cash for our operations. In addition, the lenders may enforce their security interest in certain of our assets. Moreover, during the period in which we are in default, we may face difficulties in raising further loans. Any future inability to comply with the covenants under our financing agreements or to obtain the necessary consents required thereunder may lead to termination of our credit facilities, levy of penal interest, acceleration of all amounts due under such financing agreements and enforcement of any security provided. Any of these circumstances would have an adverse effect on our business, results of operation and financial condition. Further, the said credit facilities can be renewed/enhanced/cancelled/suspended/reduced and the terms and conditions of the same can be altered by the lending banks, at their discretion. In the event, the lenders refuse to renew / enhance the credit facilities and/or cancel / suspend / reduce the said credit facilities and/or alter the terms and conditions to the derogation of our Company, then our existing operations as well as our future business prospects and financial condition may be severely affected.

26) *Introduction of stricter norms regulating our operation in domestic and overseas market could result in loss due to our inability to meet customer requirement and production schedules, which could materially affect our business, results of operations and financial condition.*

We operate in a highly regulated industry and our operations, are subject to extensive laws and regulations in India and other countries where we carry our business. If we fail to comply with the applicable regulations, we may be subject to penalties, incur increased costs, have our approvals and permits revoked or suffer a disruption in our operations. For details of regulations and policies applicable to our business in India, see “**Key Industry Regulations and Policies**” on page 276 of this Red Herring Prospectus.

Since, our key raw material i.e., pelagic fish is a natural resource, which is subject to environmental changes, the regulatory requirements are evolving in many markets and are consequently subject to change. Changes in the laws and regulations applicable to us, may lead to uncertainty in our operations, increase our compliance costs, which may adversely affect our business, financial condition, cash flows and results of operations. For instance, Marine Products Export Development Authority (“**MPEDA**”) which is the authority for development and regulation of marine product industry, through its notification dated September 30, 2019, in its efforts toward sustainable development and to curb over-exploitation of fish resources, declared a moratorium on the registration of new fish meal and fish oil units and on enhancement of production capacity by existing fish meal units, for export purposes, with effect from January 1, 2020 till further notice. Such regulatory restriction may result to delay our expansion and/or modernisation plan and thus adversely affect our business, prospects, revenues and profitability.

We are also required to comply with the regulations and quality standards stipulated by regulators in other jurisdictions, where we market and sell our products from time to time and have ongoing obligations to regulatory authorities in such markets, for instance export of our products by our Company is subject to various tests prescribed by EIA.

Further, the export of fish meal and fish oil by our Company is subject to quantity limit prescribed by MPEDA. The details of limit set forth by MPEDA for export by our Company is as below:

Particulars	For the six months period ending September 30, 2023 [#]	Fiscal 2023 ^{**}	Fiscal 2022 [#]	Fiscal 2021 [#]
Approved quantity*	48,900 MT	97,800 MT	91,304 MT	69,404 MT
Quantity exported	26,500 MT	45,224 MT	15,200 MT	34,433 MT

*Inclusive of approved quantity of Atlantic Marine Products Private Limited, Progress Frozen and Fish Sterilization and Mangalore Fish Meal and Oil Company, endorsed in favour of our Company by MPEDA.

**Annualised

[#]Not annualized and considered only from the date of endorsement and for the part period.

Further, we obtain our raw material, pelagic fish, from the local fish catchers and availability of our raw material is subject to fish landings. The activity of fishing may also be subject to various restrictions and conditions imposed by regulatory agencies from time to time. For instance, several States in India, such as Tamil Nadu, Maharashtra, etc. have imposed certain ban on purse seine fishing and pair trawling methods of fishing. Further, in Kerala, regulatory agencies have implemented Minimum Fishing Size Regulation since 2015 for managing fishing and addressing the concern of juvenile fishing (*Source: CRISIL Report*). Any unfavorable condition or restriction imposed in the States from where we and our third-party manufacturer source pelagic fish could adversely affect our business, financial condition, cash flows and results of operations.

Moreover, we are subject to additional risks related to complying with a wide variety of local laws, where we carry our business activities, including licensing, registration or membership requirements for sourcing of raw material and exports of our products. Further, considering the impact of fishing activity has over the environment, the regulatory requirements are still evolving in many markets and are subject to change and as a result may, at times, be unclear or inconsistent. If any of the foregoing risks occur, our business, financial condition, cash flows and results of operations could be adversely affected.

The management of the Company has decided to acquire the said Property, since the same is in continuous use by the Company as its warehouse (Storage Facility IV). The total amount payable for the acquisition of the said property is ₹4,70,00,000/-. The Company has paid a sum of ₹2,97,15,180/- and the balance amount of ₹1,72,84,820/- is payable by the Company at the time of registration of the Deed of Sale. The Vendor has handed over the possession of the said Property to the Company at the time of execution of the said Agreement. As per the terms of the Agreement, the Company was obliged to complete the sale within 60 (sixty) days from the date of the Agreement i.e. on or before February 7, 2024. However, at the request of the Vendor, the aforesaid period has been extended by an additional 60 days i.e. up to April 6, 2024. In the event, the Company fails to complete the sale, the Vendor may terminate the Agreement in which case the Company may have to vacate the said Property and hand over the possession of the said Property to the Vendor. The Vendor may also initiate appropriate proceedings for specific performance of the Agreement, which may subject the Company to the legal proceedings and the orders that may be passed by the relevant Court, which inter alia may include payment of interest on the balance amount payable to the Vendor. In case any adverse orders not favourable to the Company are passed against the Company, the same may have adverse effect on the operations and financial condition of the Company.

- 28) *We majorly supply our products to aqua feed, poultry feed and pet food industry and outbreaks of any livestock diseases in general, and shrimp and poultry disease in particular, can significantly restrict our ability to conduct our operations.*

We majorly supply our products to aqua feed, poultry feed and pet food industry and outbreaks of any livestock diseases in general, and shrimp and poultry disease in particular, can significantly restrict our ability to conduct our operations. Any contagious disease such as, avian influenza, H5N1 to poultry or similar diseases in aquaculture or pet food may adversely affect our customers engaged in business of poultry and animal feed business and thereby resulting in the decline in demand for our products.

- 29) *We do not own some of the business premises where our Manufacturing Facilities, Blending Facilities and Storage Facilities are located.*

Our Registered Office and Mukka Manufacturing Facility I is owned by the Company. However, most of the premises used by our Company for our business purposes are taken on lease/rent for shorter term. For more details on properties taken on lease by our Company, see **“Our Business – Our Properties”** on page 268 of this Red Herring Prospectus. With respect to Storage Facility IV, the Company has entered into an Agreement for Sale with Possession dated December 7, 2023 for which the Company has made a part payment of ₹2,97,15,180/- and was obligated to pay the balance amount at the time of the registration of the Deed of Sale i.e. within 60 days from the date of the Agreement for Sale. However, at the request of the Mac Aromatic Chemicals (“Vendor”), the aforesaid period has been extended by an additional 60 days i.e. up to April 6, 2024. For further details, see Risk Factor No. 27 **“Our Company has entered into Agreement for Sale with Possession dated December 7, 2023 (“the Agreement”) with Mac Aromatic Chemicals (“Vendor”) to purchase land admeasuring 14717.00 Sq. Mts. out of 17734.00 Sq. Mts. Non-Agricultural Survey No.84 paiki 1 Paiki and land admeasuring 61.00 Sq. Mts. Out of 3140.00 Sq. Mts. Of Non Agricultural Survey No.100 paiki 1 Paiki total admeasuring 14778.00 Sq. Mts. Together with industrial construction admeasuring 4110.51 Sq. Mts. (Gin, Press, Oil Mill, Cotton Seed Storage, Cake + Seed Godown, Utility Building, Gin House, Security Cabin) situated at village Kadiyali, Taluka Rajula, District Amreli, Gujarat (“the said Property”) and has paid a sum of ₹2,97,15,180/- and is obligated to complete the transaction within 60 days from the date of the Agreement. However, at the request of the Vendor, the aforesaid period has been extended by an additional 60 days i.e. up to April 6, 2024. If the Company fails to do so, the Vendor may terminate the Agreement, which may have adverse effect on the operations and financial condition of the Company.”** on page 78 of this Red Herring Prospectus. If any such lease/rent agreements under which we occupy the premises are not renewed on terms and conditions that are favourable to us, or at all, we may suffer a disruption in our operations which could have a material adverse effect on our business, financial condition and results of operations. If we do not comply with certain conditions of the lease, the lessor may terminate the lease, which could have an adverse effect on our operations. There can be no assurance that renewal of lease/rent agreements with the owner will be entered into. In the event of non-renewal of lease/rent arrangements, we may be required to shift our business premises to a new location and there can be no assurance that the arrangement we enter into in respect of new premises would be on such terms and conditions as the present one. Further, the lease agreements entered by our Company may be inadequately stamped or not duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on the continuance of our operations and business. As such there is no conflict of interest between the Company, its Subsidiaries and its Group Companies and its Promoters, Directors and promoter group members in respect of any property leased or taken on rent by such companies from them. For more details on properties taken on lease by our Company, see **“Our Business – Our Properties”** on page 268 of this Red Herring Prospectus.

- 30) *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.*

The funding requirement and deployment of the Net Proceeds mentioned as a part of the Objects of the Issue are based on current circumstances of our business, prevailing market conditions estimates received from the third-party agencies, and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy, as discussed further below. The estimates for the proposed expenditure are based on several variables, a significant variation in any one or a combination of which could have an adverse effect. Furthermore, the deployment of funds has not been appraised by any bank or financial institution.

We operate in a highly competitive and dynamic industry and we may have to revise our funding requirements and deployment from time to time on account of various factors beyond our control, such as availability of raw material, customer confidence, inflation, employment levels, demographic trends, technological changes, changing customer preferences, increasing regulations or changes in government policies, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our business, results of operations, financial condition and access to capital such as credit availability and interest rate levels. Further, our utilisation of Net Proceeds towards investment in our Associate, EPPL may modify on account of non-receipt of necessary approval from municipality and other authorities to set-up their poly houses at the municipal solid waste management sites and also subject consent of HEPL, the 50% shareholder of EPPL. Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Furthermore, pending utilization of Net Proceeds towards the Objects of the Issue, our Company will have the flexibility to deploy the Net Proceeds and to deposit the Net Proceeds temporarily in deposits with one or more scheduled commercial banks included in Second Schedule of Reserve Bank of India Act, 1939, as may be approved by our Board or IPO Committee. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Net Proceeds and there can be no assurance that we will earn significant interest income on, or that we will not suffer unanticipated diminution in the value of, such temporary deposits. Furthermore, various risks and uncertainties, such as economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital and including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business

31) *We operate in an environmentally sensitive industry and are subject to disruptions due to unpredictable or unseasonal weather and man-made factors affecting the pelagic fish populations adversely affecting our business, financial condition and results of operations.*

The fish meal and fish oil industry are seasonal in nature as the production during a period is majorly dependent upon the fish landings (fish availability). Our business operations are sensitive to weather conditions, including conditions such as cyclonic storms and unpredictable rainfall. There is growing concern that carbon dioxide and other greenhouse gases in the atmosphere may have an adverse impact on global temperatures, weather patterns and the frequency and severity of extreme weather and natural disasters. Changes in the weather due to severe, unpredictable or unseasonal changes can have an adverse impact on our operations across our value chain including but not limited to the procurement of raw material and processing activities. We may be subjected to decreased availability of pelagic fish, which is the primary raw material for our products, on account of severe and unexpected rainfall. Particularly, El Niño effect which is warming of the ocean surface or above-average sea surface temperatures, could have an effect on the distribution of fish species resulting in migration and may lead to a decline in fish population. The landings of Indian oil sardines (IOS) - the major raw material used in production of fish meal and fish oil - has seen a fluctuation over the years. These fluctuations in landings that bring in seasonality in the industry is majorly influenced by various factors which include environmental factors such as sea surface temperature, salinity, rainfall, upwelling, food availability; environmental events such as El Niño with a reduced rainfall and high temperature along with excessive fishing on the stock beyond the maximum sustainable yield, and excessive capture of juveniles. According to CMFRI, IOS is known for its capricious nature, with seasonal, annual, inter-annual and decadal peaks and slumps in availability. The resilience of a fish population to exploitation is largely dependent on the reproductive traits. Thus, while IOS species is volatile in availability, is also known to replenish fast after a decline, on account of its natural characteristics of rapid growth, early maturity, high fertility, and protracted spawning period. The landings of IOS have declines drastically from 0.5 Mn tonnes in 2014 to below 0.15 Mn tonnes in 2019 and further down to 0.08 Mn tonnes in 2021. However, in 2022 the landings of IOS have seen a drastic increase from the levels of 2021 – reaching to the levels of 0.3 million which is further reflected in exports during the period (*Source: CRISIL Report*).

According to Indian Council of Agricultural Research (ICAR)-CMFRI report on Indian oil sardine (IOS), availability of the fish in the ocean water is affected by factors that could be classified as: i) environmental, such as -El Niño and erratic rainfall; ii) biological, such as – spawning failure, competition from other species of fish, and lack of food; and iii) anthropogenic, such as - overfishing. A living natural resource such as fish has limitations in replenishment and is severely affected by climatic and environmental changes. Any change in climatic conditions affects the growth and breeding of fish and thus impacts the adult population during a particular season in the coastal waters. Overfishing and fishing of juvenile species also affect the fish population over the long run (*Source: CRISIL Report*).

The early weather forecasts for calendar year 2023 suggest return of El Niño (the degree or grade of which is yet not determined) and if El Niño returns, it may lead to decline of fish population. The recovery of IOS is fairly quick on account of its medium to high resilience to exploitation on account of its inherent qualities such as high fecundity (fertility), rapid growth, short generation turnover time and protracted spawning period. Over the previous years, IOS landing peaked in fiscal 2013 post which it declined due to onset of El Niño. With the weakening of El Niño since fiscal 2017, normal spawning activity resumed and a marginal improvement in IOS landings was recorded in fiscal 2018. According to the ICAR-CMFRI report, the species have medium to high resilience due to which, along the southwest coast of India, the species is expected to revive in a span of 2-3 years post any decline, as supported by historical fishery trends. (Source: CRISIL Report).

In India, the peak season for fishing is August-December and the slack season is January-May. Fishing is not allowed in Indian waters during June-July, as it is the monsoon season. Fish meal and fish oil production follows the same season as fishing. The output is stocked to cater to the demand of domestic and exports market (Source: CRISIL Report). The procurement for the 12 months period for Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ending September 30, 2023, is set out as below;

*Details upto September 30, 2023

In the entire process of production of fish meal and fish oil, availability of raw material is a key monitorable. The population and availability of pelagic fish, which serves as our key raw material, may be affected by

various man-made factors such as unsustainable, unregulated and illegal methods of fishing, widespread contamination of sea such as oil spills, discharge of pollutants, etc. could contaminate the pelagic fish population and the same may have an adverse impact on the supply of pelagic fish. Any such contamination event in India or in the region where we and our suppliers operate could adversely affect supply of our raw material, our production capacity, the demand for our products and may adversely affect our business, results of operation and financial conditions. The shortage in the availability of raw material results in increase in prices of our raw materials which we may not be able to pass on to our customers or reduction or closure of in the operations of our Company during such period and therefore, can have a material adverse effect on our business, financial condition and results of operations.

Our raw materials subject to seasonal fluctuations, may results in an increase in the prices of our raw materials. which we may not be able to pass on to our customers or reduction or closure of the operations of our Company during such period and therefore, may have a material adverse effect on our business, financial condition and results of operations.

Further, our raw material are essential ingredients for manufacturing of aqua feed, which is also highly subject to climatic and environmental changes, accordingly our end customers may also be adversely affected due to unpredictable or unseasonal weather conditions. Any shortage in demand of our products may have a material adverse effect on our business, financial condition and results of operations.

32) *There may have been certain instances of non-compliances and alleged non-compliances with respect to certain regulatory filings for corporate actions taken by our Company in the past. Consequently, we may be subject to regulatory actions and penalties.*

There were certain instances of secretarial non-compliances in our Company, such as delays in filings of (i) e-form MGT-14 with respect to filing of resolution passed by the Board and Shareholders, for granting of loan and making investments in certain related party entities availing certain credit facilities by the Company and approving terms of appointment and remuneration of Executive Directors during the year 2014, 2018, 2019, 2020, 2021 and 2022 (ii) e-forms CHG-1 for creation and modification of certain secured borrowings availed by the Company, during the years 2017, 2018, 2019 and 2021; (iii) e-form ADT-1 for appointment of Auditors during the years 2014 and 2019; (iv) e-form DPT-3 in year 2019; (v) e-form INC 22-A in year 2019; and (vi) e-form AOC-4 for Fiscal 2019-2020. However, our Company has made all the requisite filings with payment of additional fees to the RoC, as applicable.

In past, there has been certain instances of non-compliances under Companies Act, such as delay in appointment of Independent Directors on the Board of our Company and consequent composition of committees of the Board and certain typographical errors in the minutes of the Board meeting. Rule 4 of Companies (Appointment and Qualification of Directors) Rules, 2014 read with Rule 6 of Companies (Meeting of Board and its Power) Rules, 2014, requires every unlisted public company having turnover of more than Rs. 1,000,000,000 (one hundred crores), to appoint at least 2 (two) Independent Directors on its Board and also constitute an Audit Committee and Nomination and Remuneration Committee as per the provisions detailed therein. Our Company was converted in a public limited company on December 02, 2019 and at the time of conversion, had a turnover of more than Rs. 1,000,000,000 (one hundred crores) and therefore in the light of Rule 4 of Companies (Appointment and Qualification of Directors) Rules, 2014 read with Rule 6 of Companies (Meeting of Board and its Power) Rules, 2014, and thus was required to appoint at least 2 (two) independent directors on its Board and also constitute an Audit Committee and Nomination and Remuneration Committee. However, the independent directors were appointed on January 15, 2022 and consequently there was delay in constitution of Audit Committee and Nomination and Remuneration Committee. The delay in appointment of Independent Directors was due to time taking process of identifying independent directors with requisite qualifications and for cross verifying their independence and eligibility.

In past there were a few instances of delayed reporting of financial commitments in respect our overseas investments under FEMA for which we have made the requisite filings along with late submission fees. Additionally, our erstwhile joint venture, namely MSFI (Bangladesh) Ltd. in which our Company had made investments under relevant FEMA Regulations has been non-operational since fiscal 2015 to till date. Our Company had filed 4 (four) Adjudication applications before the Registrar of Companies, Karnataka for adjudicating the penalties for the aforesaid non-compliances under the Companies Act, 2013 vide 4 (four) adjudication orders all dated November 23, 2023. The Registrar of Companies, Karnataka has adjudicated the penalties for the aforesaid violations to the tune of Rs. 3,865,000 for the Company and its officers in default. Aggrieved by the said adjudication orders, the Company has preferred 4 (four) appeals before the Regional Director (South East region), Hyderabad, which appeals are presently pending. Except this, as on

date, Company has not taken any suo-moto steps to rectify the other non-compliances. While we have not been subject to any penalties by regulatory authorities, there can be no assurance that we would not be subject to such penalties or fines in the future. Further, there can be no assurance that there will be no delays or non-compliances with the filing of certain documents in the future.

- 33) *There have been past instances of delays by the Company in filing of certain GST returns and making payments under the Employees Provident Fund and Miscellaneous Provisions Act, 1952. Any future instances of such delays may result in levy of penalties on the Company.***

There were certain instances of delays in filing of GSTR3B returns and making of payments under the Employees Provident Fund and Miscellaneous Provisions Act, 1952. However, our Company has made the requisite filings with payment of additional fees to the with the GST authorities and also made the requisite EPF payments.

In most of the instances, the delays in filing the GST returns had occurred as the Company was not able to get 100% claim of Input credit on or before due date of filing of returns and therefore the Company had to wait for its vendors to complete their filing so that Company can get inputs in its account, on account of technical issues with GST portal on various occasions, due to administrative difficulties and due to the difficulties during the COVID 19 pandemic. To address such delays, the Company has taken corrective steps to mitigate the delays and a separate software is taken for auto reconciliation.

Further, delays in making EPF payments had occurred due to technical issues with EPF portal on various occasions, administrative difficulties and difficulties during the COVID 19 pandemic. To address such delays, the Company has taken corrective steps to mitigate the delays including appointment of professionals.

While we have not been subject to any penalties by regulatory authorities, there can be no assurance that we would not be subject to such penalties or fines in the future. Further, there can be no assurance that there will be no delays or non-compliances with the filing of certain documents in the future.

- 34) *The products that we manufacture or process is subject to risks such as contamination, adulteration and product tampering during their production, transportation or storage and any failure to provide the specified quality of fish meal, fish oil and fish soluble paste could have a negative impact on our business.***

The products that we manufacture or process are subject to risks such as contamination, adulteration and product tampering during their production, transportation or storage. As part of our fish meal and fish oil processing business, pelagic fish, our primary raw material, are required to be handled and transported at specific temperatures in insulated trucks with sufficient ice. These pelagic fish may be subject to contamination by bacteria or pathogens. While our manufacturing process involves the cooking method which will enable elimination of pathogens, any use of contaminated fish may affect the eventual quality of our products. We may face the risk of legal proceedings and product liability claims from end-consumers and government agencies for various reasons including for low quality products sold. Further, our customers demand a specific quality of fish meal, fish oil and fish soluble paste. We manufacture different grades of fish meal. These grades require certain specific levels of protein, sand/silica, moisture, fat, ash, salt, TVN and histamine (max) to be maintained in the fish meal. Therefore, we are required to conduct quality checks at all times on our products to ensure that such levels are maintained for which we have engaged EIA certified staff. However, if we consistently, or frequently, fail to maintain the prescribed and / or requisite quality, we may be unable to retain our customers which will have an adverse impact on our business, growth prospects and our financial results. Fish meal is predominantly used as a rich source of protein in compound feeds. Compound feed is animal feed made from a combination and mixture of various raw materials and additives. Fish meal carries large quantities of energy per unit weight and is an excellent source of proteins, lipids, minerals and vitamins and contains very less carbohydrates. It is easily digestible and considered a high-quality ingredient in aquaculture, poultry and animal feed industry (*Source: CRISIL Report*). Fish oil is inter-alia used in aquaculture feed, cattle feed and leather industry and fish soluble paste is used in aquaculture feed, swine culture and cattle culture. In the event, the correct composition of the above parameters is not maintained in our products, then the same may adversely affect the eventual consumers of the above products. If the products delivered by us do not meet the requirements specified by our customers, then our customers may raise debit note for quality variations and adjusted such amounts from payments due to us.

In the event that we fail to maintain the prescribed and / or requisite quality standards, we could be in breach of our commitment to our customers which could lead, amongst others, to monetary damages. In addition, given that a majority of the products handled by us are ultimately used for feed, we face potential liabilities

which may not be addressed by the insurance coverage obtained by us. Any product recall, product liability claims or adverse regulatory action may adversely affect our reputation and brand image, as well as entail significant costs in excess of available insurance coverage, which could adversely affect our reputation, business, results of operations and financial condition.

35) We procure raw material from our Associates and the partnership firm, wherein though our Company has made substantial capital contribution, our Company do not control such entities and therefore our interests may not align with the interests of the other stakeholders of such entities.

We obtain raw material from our Associates and the partnership firm, where our Company has made substantial capital contribution such as fish remains, fish meal, fish oil, fish soluble paste, insect meal and insect protein. Our purchase of raw material from our Associate and the partnership firm, where our Company has made substantial capital contribution, for six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 is ₹1233.47 million, ₹2950.60 million, ₹1,879.40 million and ₹1,135.53 million which represents 25.31%, 29.11%, 28.93% and 20.71% respectively of our cost of material consumed. The detail of purchase of raw material from our Associate and the partnership firm for six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 is as stated herein below:

* Not Annualised

We do not hold controlling interest in our Associate and we are unable to control the composition of our Associate's board and determine matters requiring shareholder approval or approval of its board. Further, our Company has also made significant capital contribution in some of the partnership firms. Our interests may not align with the interest of the other stakeholders of these entities and the other stakeholders may take or block actions with respect to these entities business. We cannot guarantee that the other stakeholders will act in our interest while exercising their rights in these entities and we could be exposed to the risk of disputes arising with other stakeholders of these entities, which could have a material adverse effect on our business, results of operations and financial condition.

36) *The gross margin for our products could decline and we cannot assure you that we can maintain our gross margin at the same level in the future.*

The operating profit margin for our business was 19.48%, 19.40%, 17.62% and 14.92% for the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively. We cannot assure you that we can maintain our gross margin for our fish protein business at the same level in the future, as this is dependent on many factors not within our control. Such factors include the availability of raw materials, weather conditions, competition and our ability to capture market share in our line of business.

37) *We are subject to the legal and regulatory framework of the international markets where we export our products and may not always be able to comply with applicable rules and regulations or may be adversely affected in the event of introduction of international trade barriers.*

Our business operations are subject to the legal and regulatory framework of the various international markets where we export our products. An inability to comply with applicable rules and regulations or maintain requisite licenses or certifications with respect to our processing facilities, procurement and processing operations, and raw material and product quality, or an inability to otherwise comply with applicable laws, may result in the prohibition on sale of, our products in such markets. For instance, as on date of this Red Herring Prospectus, our Company is not exporting its products to the United States of America and therefore, is not required to be in compliance with US National Oceanic and Atmospheric Administration ("NOAA"). However, in past, our Company has exported our products to the United States of America. Further, as on September 30, 2023, our Foreign Subsidiary has exported fish paste to the United States of America. Accordingly, we cannot assure you that we may not be subjected to any action due to non-compliance with the requirement under the NOAA, for any past exports made by us to the United States of America. If any of the foregoing risks occur, our business, financial condition, cash flows and results of operations could be adversely affected. Any prohibition on sale of our products resulting from any such regulatory non-compliance may materially and adversely affect our business prospects, results of operations and financial condition.

In addition, we supply our products to various international markets outside our host country i.e., India, based on purchase orders executed by our customers. The country of supply along with the revenue from sale of fish meal, fish oil and fish soluble paste for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ended September 30, 2023 is as follows:

Any disputes arising from the sale of our products in pursuance of the purchase orders may be governed by the laws of the jurisdiction in which either such customer or importing entity is incorporated or established, or the relevant jurisdiction to which our product is being exported. It may be prohibitively expensive or otherwise impracticable for us to pursue, enforce or effectively defend, any claims in legal proceedings initiated in such courts or other applicable judicial or regulatory forum in such international jurisdictions.

The supply of our products from India to international markets may be adversely affected in the event of introduction of international trade barriers. Our existing or potential international markets may become inaccessible or less accessible to us resulting from import restrictions or trade barriers that may be introduced. In the event that our key export markets implement any regulatory or policy measures prohibiting or limiting the import of fish meal or fish oil products, or introduce measures that result in an increase in the cost of the fish meal and fish oil products imported from India, our ability to export products to such markets may be adversely affected, consequently materially and adversely affecting our business prospects, results of operations and financial condition.

38) An inability to comply with applicable health and hygiene standards or quality standards in our operations and ensure quality of our products may materially and adversely our business and reputation.

Our business operations, processing facilities and products are subject to regular inspections to ensure compliance with applicable health and hygiene standards and product quality requirements under applicable regulations or as stipulated by our customers. These inspections are carried out from time to time by various governmental and non-governmental agencies, including the Marine Products Exports Development Authority. Further, the quality of our products is inspected by the Export Inspection Agency from time to

time. In addition, our processing facilities and operations have received various certifications and accreditations required by our customers, such as accreditations from independent third-party agencies such as Certificate of ISO 22000:2018, Certificate of ISO 9001:2015, IFFO membership, GMP+ and Halal. These certifications are renewed from time to time on completion of various inspections carried out by such agencies. These inspections involve quality standards and process protocols relating to the manufacture of steam sterilized fish meal, fish oil and soluble paste. Compliance with all applicable regulatory and customer specified quality standards is critical to our business, as any actual or perceived non-compliance with process protocols or any quality of our products may result in cancellation of customer orders or discontinuation of future orders from customers. In addition, if we fail to meet the required health and hygiene standards for products set by authorities and certification agencies, we may be required to take remedial measures to ensure compliance with such standards.

There can also be no assurance that the licenses or accreditations received by us will not be cancelled or revoked by such agencies in the event we are unable to comply with such standards, or effectively remedy any such non-compliance in a timely manner. Any failure to meet the requisite standards of hygiene may also affect our ability to export products and meet customer delivery timelines. In addition, Indian and foreign regulatory authorities may impose additional quality standard requirements, which may result in increased compliance costs for our operations or result in restrictions on the ability to export our products, which could materially and adversely affect our business, results of operations and financial condition.

- 39) ***Intellectual property rights are important to our business. We may be unable to protect them from being infringed by others, including our current and / or future competitors/employees which may adversely affect our business value, financial condition and results of operations.***

Our Company has obtained registration of the trademark “” and its corporate name “Mukka Proteins Limited”, from the Trademarks Registry. For further details, see “***Government and Other Approvals***” on page 484 of this Red Herring Prospectus. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may also lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations.

Further, if we do not maintain our brand name and identity, which is a principal factor that differentiates us from our competitors, we may not be able to maintain our competitive edge in India and abroad. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand name is subject to risks, including general litigation risks. Furthermore, we cannot assure you that such brand name will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source in India and abroad. Any damage to our brand name, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position in India and abroad.

Further, while we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty that we are not infringing any existing third-party intellectual property rights and we may also be susceptible to claims from third parties asserting infringement and other related claims in India and abroad. For further details pertaining to our intellectual property, see “***Our Business***” on page 232 of this Red Herring Prospectus.

- 40) ***We are dependent on our Promoters/Directors for the functioning of our business and the loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.***

Our performance depends largely on the efforts and abilities of our Promoters/Directors. For details, see “***Our Management***” and “***Our Promoters and Promoter Group***” on pages 299 and 322, respectively of this Red Herring Prospectus. We believe that the inputs and experience of our Promoters/Directors are valuable for the growth and development of business and operations and the strategic directions taken by our Company. Our business and operations are led by our Promoters/ Directors, who possess vast experience in the fish meal industry, the loss of whose services may adversely affect our business operations.

41) Any inability on our part to collect amounts owed to us or to pay amounts owed by us could result in the reduction of our profits.

We provide our customers with credit periods as part of our standard payment terms (with applicable interest rates). For information on the ageing of our trade receivables, see **Annexure V- Note 7 Trade Receivables - Restated Consolidated Financial Statement**” on page 362 of this Red Herring Prospectus. The below sets forth our trade receivables and debtor turnover ratio for the last three Fiscals and the six months ended September 30, 2023:

Particular	As at/ for the six months ended September 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Trade receivables (₹ in million)	1,484.91	1,132.71	613.31	478.86
Debtor turnover ratio (in days outstanding)	44	35	29	29
Provisions made/Write-off (₹ in million)	NIL	NIL	NIL	NIL

Our business depends on our ability to successfully obtain payments from our customers for services provided. We typically raise our invoice and maintain provisions against receivables and unbilled services. Actual losses on customer balances could differ from those that we currently anticipate and as a result we may need to adjust our provisions. Financial difficulties including insolvency or bankruptcy experienced by our customers could cause delays in payments to us, and customers could default on their payment obligations to us or request modifications to their payment arrangements that could increase our receivables or affect our working capital requirements.

We secure our export sales through necessary insurance cover and also effecting sales against sight LC issued by prime lending banks. As on September 30, 2023, our Company has availed insurance from ECGC for commercial and country risk of our export receivables to the extent of ₹ 1000.00 million and export receivables secured by LC at sight is of ₹1107.58 million. As a risk mitigation strategy, our Company has also entered into alternative means of supply chain financing through banks, financial institutions and lending platform such as TReDS for invoice discounting, vendor financing, etc. Further, any delay or non-payment of our customers under the supply chain financing arrangement would have recourse on us and would result in payment of such obligations with or without interest. We also cannot assure you that we will be able to collect the whole or any part of any overdue payments.

We cannot assure you that we would be able to accurately assess the creditworthiness of our customers. Further, macroeconomic conditions, which are beyond our control, could also result in financial difficulties for our customers, including limited access to the credit markets, insolvency or bankruptcy. Our customers may delay payment, request modifications to their payment terms, or default on their payment obligations to us, all of which could increase our trade receivables and/or write-offs of trade receivables. While we have not experienced any significant write-off of our receivables in the past, we cannot assure you that we may face default of our receivables. If we are unable to meet our contractual requirements, we may experience delays in collection of and/ or be unable to collect our payments altogether on account of termination of such contracts. An increase in bad debts or in defaults by clients may compel us to utilize greater amounts of our operating working capital and result in increased interest costs, thereby adversely affecting our results of operations and cash flows

42) Our senior management team and other key managerial personnel in our business units are critical to our continued success and we may be unable to attract and retain such personnel in the future.

Our future success substantially depends on the continued service and performance of the members of our senior management team and other key managerial personnel in our business for the management and running of our daily operations and the planning and execution of our business strategy. There is intense competition for experienced senior management and other key managerial personnel with technical and industry expertise in the port business and, if we lose the services of any of our senior management and other key managerial personnel or other key individuals and are unable to find suitable replacements in a timely manner, our ability to realize our strategic objectives could be impaired. The loss of key members of our senior management or other key team members, particularly to competitors, could have an adverse effect on our business, cash flows, and results of operations.

- 43) ***We are currently entitled to certain Export incentives. Any decrease in or discontinuation of such Export incentives or export promotion schemes may adversely affect our results of operations and financial performance.***

The Government of India, Ministry of Commerce and Industry announces Export Import Policy every five years as per the Foreign Trade Policy (FTP) and may notify amendments in the applicable policies and rates from time to time. As our Company also exports its products and avails various benefits as notified by the Government in the form of Remissions of Duties and Taxes on Exported Products (RoDTEP) and duty draw back, any decrease in or discontinuation of such export incentives or export promotion schemes may adversely affect our results of operations and financial performance.

Also, as on September 30, 2023, our Company has Export Obligation (EO) of US\$ 0.05 million (equivalent to ₹4.37 million) pending on account of duty saved under EPCG Scheme as per the details mentioned below. The objective of the EPCG Scheme is to facilitate import of capital goods for producing quality goods and services and enhancing India's manufacturing competitiveness. EPCG Scheme facilitates import of capital goods for producing quality goods and services at zero customs duty. Import under EPCG Scheme shall be subject to a specific export obligation equivalent to 6 (six) times of duties, taxes and cess saved on capital goods, to be fulfilled in 6 years reckoned from date of issue of authorization. The details of our export obligations as of September 30, 2023 are as follows:

Total FOB Value of Export Obligation		Export Obligation Completed		Pending Export Obligation	
(₹ in million)	(US\$ in million)	(₹ in million)	(US\$ in million)	(₹ in million)	(US\$ in million)
23.88	0.29	19.50	0.23	4.37	0.05

As certified by our Statutory Auditors, Shah & Taparia, Chartered Accountants, by way of their certificate dated January 3, 2024

We have to meet our export obligation on or before October 28, 2026. While we have completed part of our obligation due in during the first block period, there is no assurance that we would be able to meet our pending obligation on or before October 28, 2026. Any non-fulfilment of export obligation within specified period of time may adversely affect our result of operation and financial performance.

- 44) ***We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures could have a material adverse effect on our business growth and prospects, financial condition and results of operations.***

The fish meal industry is highly competitive, both in India and overseas. We expect that competition will continue to intensify both through the entry of new players and consolidation of existing players. Our competitors, especially overseas competitors, may have greater financial resources, better distribution network, technical and marketing resources and generate greater revenues, and therefore may be able to respond better to market changes than we can. Although, the industry in which we operate are not easy to break-into due to high entry barriers such as stringent regulatory and customer's approval process. We cannot assure you that our current or potential competitors will not provide products comparable or superior to those we provide or adapt more quickly than we do to changing consumer preferences and market requirements, at prices equal to or lower than those of our products. Increased competition may result in our inability to differentiate our products from those of our competitors, which may lead to a loss of market share. Our ability to compete also depends on a number of factors beyond our control, including the ability of our competitors to attract, train, motivate and retain highly skilled technical employees, the price at which our competitors offer comparable products and the extent of our competitor's responsiveness to customer needs. Our inability to adequately address competitive pressures may have a material adverse effect on our business, prospects, financial condition and results of operations.

- 45) ***An inability to effectively manage our growth and expansion may have a material adverse effect on our business prospects and future financial performance.***

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth depends, amongst other factors, on establishing new processing facilities and expanding our existing processing capacity. Our ability to achieve growth will be subject to a range of factors, including, regulatory hurdles, ability to identify trends and demands in the industry, competing with existing companies in our markets, continuing to exercise effective quality control, hiring and training qualified personnel. For instance, the MPEDA has put a moratorium on registration of new fish meal and oil

units and on the endorsement on enhancement of production capacity of the existing fish meal and oil units for export purposes.

Many of these factors are beyond our control and there is no assurance that we will succeed in implementing our strategies. Our future growth also depends on expanding our sales network to enter new markets in new geographies, through different sales channels. We face increased risks when we enter new markets, in both India and abroad. We may find it more difficult to hire, train and retain qualified employees particularly technicians certified by the Export Inspection Agency. In addition, we may have difficulty finding reliable suppliers with adequate supplies of raw fish meeting our quality standards. As a result, the products we introduce in new markets may be more expensive to produce and/or distribute and may take longer to reach expected sales and profit levels than in our existing markets, which could affect the viability of these operations or our overall profitability.

Our expansion plans and business growth could strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems and internal controls on a timely basis and to expand, train, motivate and manage our workforce which may place significant demands on our management, financial and other resources. We cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. There can be no assurance that we will be able to achieve our business strategy, on time and within our estimated budget, or that our expansion and development plans will increase our profitability. Our inability to manage our business and implement our growth strategy could have a material adverse effect on our business, financial condition and profitability.

46) *Our Company is dependent on third parties for transportation and export of our finished products and any disruption in their operations or a decrease in the quality of their services could have an adverse impact on our business, financial condition, cash flows and results of operations.*

Our ability to manufacture, transport, and sell our products is critical to our success. Any disputes with our transporters, including disputes regarding pricing or performance, could adversely affect our ability to supply products to our customers on timely basis and could materially and adversely affect our product sales, financial condition, and results of operations. As of March 31, 2021, March 31, 2022, March 31, 2023 and for the six months period ended September 30, 2023, the expenses incurred by our Company on freight outward was ₹91.63 million, ₹225.18 million, ₹227.36 million and ₹82.44 million comprising of 1.70%, 3.35%, 2.23% and 1.58%, respectively, of the total expenses incurred by our Company and expenses incurred by our Company towards freight charges for export of our products was, ₹162.70 million, ₹114.65 million, ₹347.41 million and ₹149.08 million comprising of 3.02%, 1.70%, 3.41% and 2.86%, respectively, of the total expenses incurred by our Company. While the freight inward and import expense of our Company was ₹89.67 million, ₹54.95 million, ₹57.30 million and ₹14.00 million comprising of 1.66%, 0.82%, 0.56% and 0.27%, respectively of the total expenses of our Company, as of March 31, 2021, March 31, 2022, March 31, 2023 and for the six months period ended September 30, 2023, respectively.

Further, freight charges (including freight outward, freight charges for export and freight inward expenses) payable to our group company, namely Shipwaves Online Limited and the said expense as at March 31, 2021, March 31, 2022, March 31, 2023 and for the six months period ended September 30, 2023 are ₹252.23 million, ₹309.21 million, ₹471.56 million and ₹174.51 million comprising of 73.32%, 78.32%, 74.61% and 71.08%, respectively, of the total transportation expenses, being freight inward, import expense, freight outward and export expenses incurred by our Company.

During lock-down imposed under the COVID-19 pandemic, our Company encountered challenges in availability of trucks and containers for supply of its products to its customers which resulted in increase of our inventory day for Fiscal 2021. Accordingly, any disruption to our third-party transportation services availed by us, due to weather, natural disaster, fire or explosion, terrorism, pandemics, strikes, government action, or other reasons beyond our control or the control of our transporters, could impair our ability to manufacture or sell our products. Failure to take adequate steps to mitigate the likelihood or potential impact of such events or to effectively manage such events if they occur could adversely affect our business. The occurrence of any of these factors could result in a significant decrease in the sales volume of our products and therefore adversely affect our financial condition, cash flows and results of operations.

- 47) ***We may be affected by competition law, the adverse application or interpretation of which could adversely affect our business.***

The Competition Act, 2002 (“**Competition Act**”) seeks to prevent business practices that have an Appreciable Adverse Effect on Competition (“**AAEC**”) in the relevant market in India. Under the Competition Act, any arrangement, understanding or action in concert between enterprises, whether formal or informal, which causes or is likely to cause an AAEC in India is void and attracts substantial monetary penalties. The Competition Act also prohibits abuse of a dominant position by any enterprise. Our Company contributes 45% -50% of total market share in revenue of fish meal and fish oil industry (*Source: CRISIL Report*). The combination regulation (merger control) provisions under the Competition Act require that the acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by CCI. However, the applicability or impact of the provisions of the Competition Act on any future acquisition or arrangement entered into by us cannot be predicted with certainty at this stage.

- 48) ***Any significant interruption in continuing operations of our manufacturing or storage facilities could have a material adverse effect on our business, results of operations, cash flows and financial condition.***

As on the date of this Red Herring Prospectus, we have 4 (four) strategically located manufacturing facilities, 3 (three) blending facilities and 5 (five) storage facilities along the western coastline of India. Further, we have 2 (two) manufacturing facilities in Oman which is located in the close proximity to the coastline of Oman. For details of our Facilities, see “**Our Business**” on page 232 of this Red Herring Prospectus. These facilities are subject to the normal risks of industrial production, including equipment breakdowns, labour stoppages or disputes, shortage of skilled labour, natural disasters, directives from government agencies, water shortages, power interruptions, performance below expected levels of output or efficiency, obsolescence, severe weather, industrial accidents, our inability to respond to technological advances and emerging industry standards and practices in the industry. In past, we have experienced an occurrence of fire and flood at our Storage Facility – I and in year 2022, there was an incident of fire at our Storage Facility V, which caused damage to our products stored therein. Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair the malfunctioning machinery in a timely manner or at all, our operations may need to be suspended until we procure machinery to replace the same.

Our fish oil is required to be maintained in tanks with FFA value and consequently, any malfunction of the storage facility may affect the stored products, resulting in loss of the products and slowing down our operations, which may adversely affect our business and prospects. Although we have not experienced any significant disruptions at our processing facilities in the past, we cannot assure you that there will not be any significant disruptions in our operations in the future. Our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or the under-utilization of our manufacturing facilities, which in turn may have an adverse effect on our business, results of operations, cash flows and financial condition.

- 49) ***In addition to our Manufacturing Facilities, we enter into arrangement with third-party manufacturers including on job work basis and therefore, we are subject to risks associated with the third-party manufacturing processes.***

As of September 30, 2023, we have entered into contractual arrangement with third-party manufacturing units, situated at Sasihithlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Taloja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), which are strategically located to ensure availability of our key raw material and also to increase our presence across the western coastline of India. With 2 (two) of our third-party manufacturers located in Udupi (Karnataka) and Ullal (Karnataka), we have entered into job work arrangement, where we provide them the raw material and receive corresponding output of the products manufactured by them. With respect to our arrangement with other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Taloja (Maharashtra) and 1 (one) located in Sasihithlu (Karnataka), we have entered into arrangement with these third-party manufacturers to procure 100% of their production output. We typically enter into third-party manufacturing agreements for shorter period (i.e. 1 to 3 years) and is therefore subject to expiry and renewal on mutually acceptable terms. For instance, in past 3 (three) years, there has been one instance wherein our third-party manufacturing arrangement was not renewed as parties did not agree upon mutually acceptable terms.

The detail of purchase of fish meal, fish oil and fish soluble paste from third-party manufacturers including, job-work basis is detailed as herein below:

Notes:

1. Purchase on job-work basis includes cost of materials supplied to third-party job workers

2. Includes purchase of Fish Meal, Fish Oil and Fish soluble paste

3. As per Restated Consolidated Financial Statement

In addition to our third-party arrangements our Company also purchases fish meal, fish oil and fish soluble paste from partnership firms where our Company has made significant capital contribution. The details of sales made by these partnership firms, other than to our Company is as herein below:

Notes:

1 Excludes sales made to the Company i.e. Mukka Proteins Limited and its Subsidiaries

2 As per Restated Consolidated Financial Statement

However, we cannot assure that these arrangements will be renewed on the terms favourable to the Company or at all. Further, we are subject to various risks associated with third-party manufacturing processes such as;

- Interruptions to the operations of third-party manufacturers due to strikes, lockouts, work stoppages or other forms of labour unrest, breakdown or failure of equipment as well as accidents;
- failure by our third-party manufacturers to maintain requisite licenses and approvals as also, to comply with applicable law and the directives of relevant governmental authorities;
- insufficient quality controls or failures in the quality controls of our third-party manufacturers;
- significant adverse changes in the financial or business conditions of our third-party manufacturers;
- performance by our third-party manufacturers below expected levels of output or efficiency;

- the possibility that our competitors will engage our third-party manufacturers, directly or indirectly, and thereby reduce the manufacturing capacity available to us;
- any inability on our part to renew arrangement with or find replacements for existing third-party manufacturers; and
- sub-standard products impacting our production schedules or adversely impacting our relationships with key customers.

We cannot assure you that such incidents will not occur in the future or that we will be successful in continuing to receive uninterrupted supply of intermediate products from our third-party manufacturer at prices acceptable to us, or at all. Any disruption or inefficiencies in the supply chain network may adversely affect our business and results of operations.

- 50) *Our business is dependent on the delivery of adequate and uninterrupted supply of electrical power and water at a reasonable cost and any shortage, disruption or non-availability of power and water may adversely affect our entire processing requirements and have an adverse impact on our business, results of operations and financial condition.***

We face certain risks with regard to the operation of our processing facilities. Adequate and cost-effective supply of electrical power and water is critical to our operations. We rely on the power grid for regular supply of electricity for our Facilities. There may be power cuts in the supply provided by the electricity board from time to time. Although we have diesel generators to meet the exigencies at Mukka Manufacturing Facility I, Mukka Manufacturing Facility II and also at our Oman Manufacturing Facility I and Oman Manufacturing Facility II, we cannot assure you that our facilities will be operational during longer power failures. An interruption in or limited supply of electricity may result in suspension of our operations. A prolonged suspension in production could materially and adversely affect our business, financial condition or results of operations. Further, if the per unit cost of electricity is increased by state electricity boards, our power costs will increase. It may not be possible to pass on any increase in our power costs to our customers, which may adversely affect our profit margins.

Our operations and facilities are especially dependent on a steady and stable supply of water, and irregular or interrupted supply of water, or government intervention are factors that could adversely affect our daily operations. If there is an insufficient supply of water to satisfy our requirements or a significant increase in prices, we may need to limit or delay our production, which could adversely affect our business, financial condition and results of operations. We cannot assure you that we will always have access to sufficient supply of power and water in the future to accommodate our requirements and planned growth. Accordingly, any increase in power costs and water costs could adversely affect our profitability.

- 51) *Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at any of our facilities may adversely affect our production schedules, costs, revenue and ability to meet customer demand.***

Our business involves manufacturing processes that can be dangerous to our employees. We have faced past instances of accidents suffered by our employee, at our Mukka Manufacturing facility I, while discharging his duties. An accident may result in injuries, loss of life, destruction of property or equipment, manufacturing or delivery delays, or may lead to suspension of our operations and/or imposition of liabilities. In the past three Fiscals and for the six months period ending September 30, 2023, there have been no major accidents suffered to our employees at our Manufacturing Facilities. As of September 30, 2023, our Company has obtained workman compensation insurance policy taken for employees in India which provides protection against loss of life as per the provisions of Workmen's Compensation Act, 1923 and its subsequent amendments. Such indemnification is generally dependent upon various factors, including, salary/wage of employee, designation of the employee and residual service of the employee. We have also availed group mediclaim policy for our employees.

While we believe that we maintain adequate insurance, interruptions in production as a result of an accident may also increase our costs and reduce our revenue and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we or our senior management may become involved in as a result, which may negatively affect our profitability, business, financial condition, results of operations and future prospects. Any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations and future prospects.

- 52) *We rely on contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired***

default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition.

In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract labour in Manufacturing Facility I. Although we do not engage these labourers directly, we, in the capacity of principal employer may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us.

53) *Changes in technology may affect our business by making our processing facilities or equipment less competitive or obsolete.*

Our future success will depend in part on our ability to respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. Modernization and technology upgradation is essential to reduce costs and increase the output. Our technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. The development and implementation of such technology and machinery entails technical and business risks. Further, the costs in upgrading our technology and modernizing the plant and machineries may be significant which could substantially affect our finances and operations. We cannot assure you that we will be able to successfully implement new technologies or adapt our processing systems to customer requirements or emerging industry standards. Changes in technology and high fuel costs may make newer plants or equipment more competitive than ours or may require us to make additional capital expenditures to upgrade our facility. If we are unable, for technical, financial or other reasons, to adapt in a timely manner to changing market conditions, customer requirements or technological changes, our business and results of operations could be adversely affected.

54) *We may be unable to attract and retain employees with the requisite skills, expertise and experience, which would adversely affect our operations, business growth and financial results.*

We rely on the skills, expertise and experience of our employees to provide continuous and quality products to our clients. For instance, we require experienced and EIA certified technologists to carry out quality checks and inspections at all stages of the manufacturing process of our products. The quality assurance team carries out frequent checks on the process and product specifications as per our quality assurance plans, prepared and issued by the technical team to ensure that the same meets industry standards. Our employees may terminate their employment with us prematurely and we may not be able to retain them. Experienced and EIA certified technologists in our industry are highly sought after, and competition for talent is intense. Further, we also require labour for the manufacturing process. The details of attrition amongst the employees of the Company are as under:

Period	Attrition rate
Fiscal 2021	7.54%
Fiscal 2022	6.38%
Fiscal 2023	5.96%
As on September 30, 2023	5.07%

If we experience any failure to attract and retain competent personnel or any material increase in labour costs as a result of the shortage of skilled labour, our competitiveness and business would be damaged, thereby adversely affecting our financial condition and operating results. Further, if we fail to identify suitable replacements of our departed staff, our business and operation could be adversely affected and our future growth and expansions may be inhibited.

55) *Our operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees.*

We are dependent on labour force for carrying out our operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any disruptions in our business operations due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

56) *Failure or disruption of our information and technology ("IT") and/ or enterprise resources planning systems may adversely affect our business, financial condition, results of operations and future prospects.*

We have implemented various information technology ("IT") and/or enterprise resource planning ("ERP") solutions to cover key areas of our operations, procurement, dispatch and accounting. We also use modern software such as Tally Prime 3.01 for our accounting and invoicing purpose. These systems are potentially vulnerable to damage or interruption from a variety of sources which could result from (among other causes) cyber-attacks on or failures of such infrastructure or compromises to its physical security, as well as from damaging weather or other acts of nature. A significant or large-scale malfunction or interruption of one or more of our IT systems, ERP systems or manufacturing automation systems could adversely affect our ability to keep our operations running efficiently and affect product availability, particularly in the country, region or functional area in which the malfunction occurs, and wider or sustained disruption to our business cannot be excluded. In addition, it is possible that a malfunction of our data system security measures could enable unauthorized persons to access sensitive business data, including information relating to our intellectual property or business strategy or those of our customers. Such malfunction or disruptions could cause economic losses for which we could be held liable or cause damage to our reputation. Any of these developments, alone or in combination, could have a material adverse effect on our business, financial condition and results of operations.

57) *We may be held liable for the non-payment of wages to the contract labour we engage in our business.*

In order to retain flexibility and ensure timely availability of a pool of skilled and non-skilled workers, we engage contract labour at Mukka Manufacturing Facility I and have obtained registration in the capacity of principal employer under the Contract Labour (Regulation & Abolition) Act, 1970. Although, we do not employ such contract labour directly, we may be held responsible for any wage payments to be made to such contract labour in the event of default by the third-party agencies, who employ them. If we are required to pay the wages of the independent contract labour, our results of operations and financial condition could be adversely affected. Further, we could be held liable for the acts committed by, or omission on the part of, personnel engaged by us on a contract basis.

58) *Our management will have broad discretion in how we apply the Net Proceeds, including interim use of the Net Proceeds, and there is no assurance that the objects of the Issue will be achieved within the time frame expected or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment.*

We intend to use Net Proceeds from the Issue towards (a) to meet working capital requirements; (b) investment in Ento Proteins Private Limited, for funding its working capital requirement; and (c) general corporate purposes. For details of the objects of the Issue, see "*Objects of the Issue*" on page 137 of this Red Herring Prospectus. Our management will have broad discretion to use the Net Proceeds, and investors will be relying on the judgment of our management regarding the application of the Net Proceeds. Moreover, we cannot undertake any material deviation in the utilisation of the Net Proceeds as disclosed in this Prospectus without obtaining the approval of shareholders of our Company through a special resolution. Our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in its business.

Further, we will appoint a monitoring agency for monitoring the utilisation of Net Proceeds in accordance with Regulation 41 of the SEBI ICDR Regulations and the monitoring agency will submit its report to us on a quarterly basis in accordance with the SEBI ICDR Regulations. Further, the application of the Net Proceeds

in our business may not lead to an increase in the value of your investment. Various risks and uncertainties, including those set forth in this section “**Risk Factors**”, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business.

59) Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.

We intend to use Net Proceeds from the Issue towards (a) to meet working capital requirements; (b) investment in Ento Proteins Private Limited, for funding its working capital requirement; and (c) general corporate purposes. For further details of the proposed objects of the Issue, see “**Objects of the Issue**” on page 137 of this Red Herring Prospectus. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Section 13 (8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders’ approval by way of a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to the Shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

60) Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters and Promoter Group will collectively own a majority of the Equity Shares of our Company. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AoA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

61) The Board of Directors of our Company is comprised largely of the Promoters and their immediate relatives.

The Board of Directors of our Company consists of; (i) our Promoters, Kalandan Mohammed Haris, Kalandan Mohammed Althaf and Kalandan Mohammad Arif who are serving as Executive Directors; (ii) Kalandan Abdul Razak and Umaiyya Banu, who are parents of our Promoters, serving as Non-Executive Directors on the Board of the Company; and (iii) 3 (three) Non-Executive Independent Directors. Although, Kalandan Abdul Razak and Umaiyya Banu are Non-Executive Directors and are neither involved in day-to-day affairs of the Company nor in the operations of the Company, our Board of Directors of our Company is comprised largely of the Promoters and their parents (“**Promoter Family**”).

In the light of the same, the investors/other stakeholders may have a perception that the Board of Directors is controlled by Promoter Family. The investors/other stakeholders may further believe that the Promoters

and the Promoter Family may take decisions and actions that may not be in the best interest of investors/other stakeholders. Trading price of the Equity Shares of the Company could be adversely affected, if the potential investors are disinclined to invest in the Company on account of their such perception that the business and policy decisions of the Company would largely be decided by the Promoters and the Promoter Family. We cannot assure you that such a perception will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 62) ***Our Promoters and certain members of our Promoter Group have issued personal guarantees in relation to debt facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.***

Our Promoters and certain members of our Promoter Group have provided their personal guarantees in relation to our secured debt facilities availed from our bankers. In the event any of these guarantees are revoked, then the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees satisfactory to the lenders and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition. For further details, see “*Financial Indebtedness*” on page 412 of this Red Herring Prospectus.

- 63) ***Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

- 64) ***Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 336 of this Red Herring Prospectus.

- 65) ***Our Promoters and some of our Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses.***

Some of our Directors are interested in our Company to the extent of their respective shareholding in our Company as well as to the extent of any dividends, bonus or other distributions on such Equity Shares. We cannot assure you that our Directors will exercise their rights as shareholders to the benefit and best interest of our Company. Further, our Promoters holding Equity Shares may take or block actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For further information on the interest of our Promoters and Directors, other than reimbursement of expenses incurred or normal remuneration or benefits, see “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 299 and 322, respectively of this Red Herring Prospectus.

- 66) ***We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.***

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could

subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

- 67) *Bismi Fisheries Private Limited, our Group Company is engaged in activities which is similar to our business. This may be a potential source of conflict of interest for us and which may have an adverse effect on our business, financial condition and results of operations.***

Our Group Company, Bismi Fisheries Private Limited has some objects similar to that of our business and could offer products that are related to our business. As on the date of this Red Herring Prospectus, Bismi Fisheries Private Limited is majorly engaged in activities of fish meal and fish oil.

Our Promoter Director, namely Kalandan Mohammed Haris holds 27.78% of the total paid up equity capital of Bismi Fisheries Private Limited. However, he is neither a director on the Board of Bismi Fisheries Private Limited and nor he takes part in day-to-day affairs of Bismi Fisheries Private Limited. Accordingly, Bismi Fisheries Private Limited may compete with us or our Subsidiaries, like any other third-party competitor. While necessary procedures and practices may be adopted as permitted by law to address any instances of conflict of interest, if and when they may arise, we cannot assure you that these or other conflicts of interest will be resolved in an impartial manner. There can be no assurance that our Promoters or our Group Companies or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition.

Thus, in future conflicts of interests may arise in allocating business opportunities amongst our Company and our Group Company and member of promoter group in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour other companies or ventures in which our Promoters have interest.

- 68) *Our Promoters have interest in entities, which are in businesses similar to ours and this may result in conflict of interest with us.***

Our Promoters have interest in our Subsidiaries, namely Haris Marine Products Private Limited, Atlantic Marine Products Private Limited and Ocean Aquatic Proteins LLC, by virtue of their shareholding which are engaged in the same line of business as ours. As these entities are in similar lines of business to our Company, there can be no assurance that conflicts of interest will not occur between our business and the businesses of such entities, which could have an adverse effect on our business, financial condition and results of operations.

- 69) *Information relating to the installed manufacturing capacity of our Manufacturing Facility included in this Red Herring Prospectus are based on various assumptions and estimates and future production and capacity may vary.***

Information relating to the historical installed capacity and estimated capacity utilization of our Manufacturing Facility included in this Red Herring Prospectus is based on various assumptions and estimates of our management and an independent chartered engineer. Actual production volumes and capacity utilization rates may differ significantly from the estimated production capacities and historical capacity utilization of our Manufacturing Facility. Investors should therefore not place undue reliance on our historical installed capacity information for our existing Manufacturing Facility included in this Red Herring Prospectus.

- 70) *The requirements of being a public listed company may strain our resources and impose additional requirements.***

Our Company has no experience as a public listed company or with the increased scrutiny of its affairs by shareholders, regulators and the public at large that is associated with being a public listed company. As a public company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted public company. Our Company will also be subject to the provisions of the listing related compliances which require us to file unaudited financial results on a quarterly basis. In order to meet our Company's financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public

company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

- 71) ***If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.***

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis so that our operations adhere to our policies, compliance requirements and internal guidelines. We periodically test and update our internal processes and systems and there have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting so that we produce reliable financial reports and prevent financial fraud. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Any lapses in judgment or failures that result from human error can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of our Equity Shares.

Further, our operations are subject to anti-corruption laws and regulations. These laws generally prohibit us and our employees and intermediaries from bribing, being bribed or making other prohibited payments to government officials or other persons to obtain or retain business or gain some other business advantage. We participate in collaborations and relationships with third parties whose actions could potentially subject us to liability under these laws or other local anti-corruption laws. If we are not in compliance with applicable anti-corruption laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition and results of operations. Likewise, any investigation of any potential violations of anti-corruption laws by the relevant authorities could also have an adverse impact on our business and reputation.

ISSUE SPECIFIC RISKS

- 72) ***The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a book-building process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

- 73) ***The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The Issue Price of our Equity Shares will be determined by the book-building method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. For details, see “***Basis for Issue Price***” on page 151 of this Red Herring Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

74) *Any future issuance of Equity Shares, or convertible securities or other equity linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoters or members of our Promoter Group may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. Any sale of our Equity Shares by our Promoters or major shareholders or future equity issuances, by us may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

75) *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

76) *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

77) *QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within 6 (six) Working Days from the Bid/Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

- 78) *We have in this Red Herring Prospectus included certain non-GAAP financial measures and certain other industry measures related to our operations and financial performance. These non-GAAP measures and industry measures may vary from any standard methodology that is applicable across the Indian fish meal industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies.*

Certain non-GAAP financial measures and certain other industry measures relating to our operations and financial performance have been included in this Red Herring Prospectus. We compute and disclose such non-GAAP financial measures and such other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of Indian retailing industry, many of which provide such non-GAAP financial measures and other industry related statistical and operational information. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our audited financial statements as reported under applicable accounting standards disclosed elsewhere in this Red Herring Prospectus. These non-GAAP financial measures and such other industry related statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other companies. For further information, see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures*” on page 418 of this Red Herring Prospectus.

EXTERNAL RISK FACTORS:

- 79) *Significant differences exist between Ind AS and other accounting principles, such as US GAAP and International Financial Reporting Standards (“IFRS”), which investors may be more familiar with and consider material to their assessment of our financial condition.*

Our Restated Consolidated Financial Statements have been prepared in accordance with the Indian Accounting Standards notified under Section 133 of the Companies Act, 2013, read with the Ind AS Rules and restated in accordance with the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019) issued by the ICAI.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Restated Consolidated Financial Statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

- 80) *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in India is evolving and subject to change. Such changes in applicable law and policy in India, including the instances described below, may adversely affect our business, financial condition, results of operations, performance and prospects in India, to the extent that we are not able to suitably respond to and comply with such changes.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For instance, the Government of India announced the Union Budget for Fiscal 2023, pursuant to which the government has announced reduction in import duty on fish meal i.e., from 15% to 5%. With lowering down of import duty on fish meal in the Union Budget for Fiscal 2023, it is expected that the competition in the fish meal industry to intensify as a result of consolidation of existing players (*Source: CRISIL Report*).

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

81) *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

Under the Companies Act, 2013, a company having share capital and incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of our Equity Shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted

82) *Investors may not be able to enforce judgments obtained in foreign courts against us.*

We are a public limited company under the laws of India. All of our directors and officers are Indian nationals and all or a significant portion of the assets of all of the directors and officers and a substantial portion of our assets are located in India. As a result, it may be difficult for investors to effect service of process outside India on us or on such directors or officers or to enforce judgments against them obtained from courts outside India, including judgments predicated on the civil liability provisions of the United States federal securities laws.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the Indian Code of Civil Procedure, 1908 (the “Civil Code”). The Civil Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favour such final judgment is rendered may bring a fresh suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within three years of obtaining such final judgment. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the Reserve Bank of India to repatriate any amount recovered pursuant to the execution of the judgment.

83) *We are a public limited company under the laws of India. Many of our directors and officers are Indian nationals and all or a significant portion of the assets of all of the directors and officers and a substantial portion of our assets are located in India. As a result, it may be difficult for investors to effect service of process outside India on us or on such directors or officers or to enforce judgments against them obtained from courts outside India, including judgments predicated on the civil liability provisions of the United*

States federal securities laws Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the fish meal sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, and our business, prospects, financial condition and results of operations, in particular.

84) *We are subject to regulatory, economic and social and political uncertainties and other factors beyond our control.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Our Equity Shares are proposed to be listed on the BSE and the NSE, subject to the receipt of the final listing and trading approvals from the Stock Exchanges. Consequently, our business, operations, financial performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- political instability, terrorism, military conflict, epidemic or public health issues in India or in countries in the region or globally, including in India's various neighbouring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- Instability in financial markets and volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies;
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.
- changes in India's tax, trade, fiscal or monetary policies; and
- other significant regulatory or economic developments in or affecting India or its logistics sector.

Moreover, a fall in the purchasing power of our customers, for any reason whatsoever, including rising consumer inflation, availability of financing to our customers, changing governmental policies and a slowdown in economic growth may have an adverse effect on our customers' revenues, savings and could in turn negatively affect their demand for our products. In addition, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

85) *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue. India has experienced high inflation relative to developed countries in the recent past. Continued high rates of inflation may increase our expenses related to costs of raw material, rent, salaries or wages payable to our employees or any other expenses. There can be no assurance that we will be able to pass on any additional expenses to our customers or that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

86) *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

87) *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

88) *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

89) *The occurrence of natural or man-made disasters may adversely affect our business, financial condition, results of operations and cash flows.*

The occurrence of natural disasters, including hurricanes, floods, tsunamis, earthquakes, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, may adversely affect our financial condition or results of operations. In addition, any deterioration in relations between India and its neighbouring countries might result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. The potential impact of a natural disaster on our results of operations and financial position is speculative and would depend on numerous factors. In addition, an outbreak of a communicable disease in India or in the particular region in which we have projects would adversely affect our business and financial conditions and the results of operations. We cannot assure prospective investors that such events will not occur in the future or that our business, financial condition, results of operations and cash flows will not be adversely affected.

90) *Our ability to raise foreign capital may be constrained by Indian law.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings

on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

91) *Rights of shareholders under Indian laws may be different from laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as our shareholder than as a shareholder of an entity in another jurisdiction.

- (1) The Issue has been authorised by a resolution by our Board of Directors dated March 8, 2023 and a resolution of our Shareholders dated March 10, 2023.
- (2) Our Company may, in consultation with the BRLM, allocate up to 60% of the QIB portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion shall be accordingly reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion is available for allocation to domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is made to Anchor Investors. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added back to the Net QIB portion. 5% of the Net QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion (excluding Anchor Investor Portion) will be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids having being received at or above the Issue Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, see “**Issue Procedure**” on page 515 of this Red Herring Prospectus.
- (3) Under-subscription, if any, in the QIB Portion would not be allowed to be met with spill-over from other categories or a combination of categories. In the event of under-subscription in the Issue, Equity Shares shall be allocated in the manner specified in “**Terms of the Issue**” on page 504 of this Red Herring Prospectus.
- (4) Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category, except the QIB Category, would be allowed to be met with spill-over from any other category or a combination of categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange subject to applicable law.

- (5) *Allocation to Bidders in all categories, other than Anchor Portion, Retail Individual Portion and Non-Institutional Portion, shall be made on a proportionate basis, subject to valid Bids received at or above the Issue Price. The allocation to each Retail Individual Bidders shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. One-third of the Non-Institutional Portion shall be reserved for applicants with application size of more than ₹0.2 million and up to ₹1.00 million, two-thirds of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than ₹1.00 million and the unsubscribed portion in either of the above subcategories may be allocated to Bidders in the other sub-category of Non-Institutional Bidders. The Allocation to each Non-Institutional Investor shall not be less than the minimum application size viz. ₹0.2 million, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining Equity Shares, if any, shall be allocated on a proportionate basis. Allocation to Anchor Investors shall be on a discretionary basis. For details, see “**Issue Procedure**” on page 515 of this Red Herring Prospectus.*
- (6) *SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹0.5 million, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹0.2 million and up to ₹0.5 million, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.*

Bidders should note that the Issue is also subject to (i) filing of the Prospectus by our Company with the RoC; and; (ii) our Company obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for post-Allotment.

UNDERWRITING AGREEMENT

After the determination of the Issue Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through this Issue. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions specified therein. The Underwriting Agreement is dated [●].

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

(The extent of underwriting obligations and the Bids to be underwritten in the Issue shall be as per the Underwriting Agreement. This portion has been intentionally left blank and will be filled in before the filing of the Prospectus with the RoC.)

Name, address, telephone number and e-mail address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten (₹ in million)
[•]	[•]	[•]

The above mentioned is indicative underwriting and will be finalized after determination of the Issue Price and actual allocation subject to the provisions of the SEBI ICDR Regulations.

In the opinion of our Board (based on a certificate given by the Underwriters), the resources of the abovementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI under Section 12 (1) of the SEBI Act or registered as merchant bankers with SEBI or as brokers with the Stock Exchange(s). Our Board of Directors, at its meeting held on [•], approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Notwithstanding the table above, the BRLM and the Syndicate Members shall be responsible for ensuring payment with respect to the Equity Shares allocated to the Bidders procured by them in accordance with the Underwriting Agreement. The Underwriting Agreement has not been executed as on the date of this Red Herring Prospectus and will be executed after determination of the Issue Price and allocation of Equity Shares, but prior to filing the Prospectus with the RoC. The extent of underwriting obligations and the Bids to be underwritten in the Issue by the BRLM shall be as per the Underwriting Agreement.

The Underwriting Agreement shall list out the role and obligations of each Syndicate Member, and *inter alia* contain a clause stating that margin collected shall be uniform across all categories indicating the percentage to be paid as margin by the Bidders at the time of Bidding. The extent of underwriting obligations and the Bids to be underwritten in the Issue shall be as per the Underwriting Agreement.

The fund requirements, deployment of funds and the intended use of the Net Proceeds as described in this Red Herring Prospectus are based on our current business plan, management estimates, prevailing market conditions and other commercial considerations. However, such fund requirements and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. If the Net Proceeds are not utilized (in full or in part) for the Objects of the Issue during the period stated above due to any factors such as (i) economic and business conditions; (ii) the timing of completion of the Issue; (iii) market conditions outside the control of our Company; and (iv) any other business and commercial considerations, the remaining Net Proceeds shall be utilized (in full or in part) in subsequent Fiscals as may be determined by our Company, in accordance with applicable laws. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable law. For further information on factors that may affect our internal management estimates, see **“Risk Factors - Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds”** on page 79 of this Red Herring Prospectus.

Our Company proposes to deploy the entire Net Proceeds towards the Objects in the manner as specified and as per the schedule provided in the table above. In the event that the estimated utilization is not completed as per the aforementioned schedule, due to the reasons stated above, such funds shall be utilised in the next Fiscals, as may be determined by our Company, in accordance with applicable law. Depending upon such factors, we may have to reduce or extend the utilisation period for any of the stated Objects beyond the estimated time period, at the discretion of our management, in accordance with applicable law. Further, such factors could also require us to advance the utilisation before the scheduled deployment as disclosed above towards any particular or all Objects. Subject to compliance with applicable laws, if the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for funding other existing Objects, if necessary and/or towards general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds in accordance with the SEBI ICDR Regulations.

Expected working capital requirements

We majorly procure our raw material i.e. palegic fish from the local fish catchers. Further, our raw material is perishable, seasonal and highly dependable on the fish catch. As a strategy to meet our supply requirements, we procure the maximum raw material available across our manufacturing and job work location and convert them into fish meal, fish oil and fish soluble paste, as the case maybe. This strategy helps us in maintaining sufficient quantity of finished goods inventory. Further, we export around 60 % of our total production, which also requires us to maintain healthy inventory levels to enable us to service our customer orders on an effective basis.

Further, our Company has export revenue for Fiscal 2021, Fiscal 2022, Fiscal 2023 and for the six months period ended September 30, 2023 of ₹2,826.96 million, ₹1,389.47 million, ₹5610.32 million and ₹3474.14 million comprising 52.72%, 20.05%, 52.61% and 62.69%, respectively of the revenue from operations of the Company. Our payment terms for export is on LC at sight basis. Accordingly, the payment is released by our customers after all necessary documents are delivered to our customer's bank which, generally takes around 40 days to 45 days. While our average receivable days from domestic sale is around 30 days.

Key parameters determining the working capital requirements such as growth in revenue, % of net working capital to revenue are as under:

Particulars	September 30, 2023	March 31, 2023	March 31, 2022	March 31, 2021
Revenue from Operations (₹ in million)	5541.42	10663.98	6,928.87	5,362.47
Net working capital (₹ in million)	3,442.68	2,649.93	1,714.95	1,289.42
Percentage of Net working capital to Revenue	62.13%	24.85%	24.75%	24.05%
Growth in revenue	-	53.91%	29.21%	(1.74%)

Hence, we have significant working capital requirement in the nature of trade receivables and inventory of finished goods, which we fund in the ordinary course of business from our internal accruals/equity and financing facilities from various banks, financial institutions, non-banking financial companies and related parties. The higher working capital requirement (62.13%) for the six months period ended September 30, 2023 would get normalised by year end.

Accordingly, on the basis of the existing and estimated working capital requirement of our Company on a standalone basis, and assumptions for such working capital requirements, our Board pursuant to its resolution dated December 23, 2023, has approved the estimated working capital requirements as set forth below:

Key assumptions for working capital projections made by our Company

The table below sets forth the key assumptions for our working capital projections:

Particulars	Justification
Inventories	<p>Our Company had maintained inventory holding period of 96 days in Fiscal 2021, 74 days in Fiscal 2022, 71 days in Fiscal 2023 and 69 days in September 30, 2023. The holding days for Fiscal 2021 was higher on account of restrictions imposed during Covid-19, which resulted in delayed despatch of finished goods to our customers outside the state of our operations and also due to lower availability of containers and vessels to meet our export sales. In the Fiscal 2022, the supplies have reached to the normal level. Accordingly, the inventory holding period for Fiscal 2023 was maintained at 71 days and was on similar line for the six months period ended September 30, 2023.</p> <p>Considering the nature of our business, we have estimated to maintain similar level of inventory of 70 days for Fiscal 2024 and Fiscal 2025. Thus, the increase in the inventory amount is corresponding to our estimated increase in sale for the Fiscal 2024 and Fiscal 2025.</p>
Trade receivables	<p>The holding levels of trade receivables were at 18 days in Fiscal 2021, 28 days in Fiscal 2022, 37 days in Fiscal 2023 and 44 days in September 30, 2023. The trade receivable days were lower during Fiscal 2021 on account of higher domestic sales. We have expanded our export sales to increase our margin of operation. However, the increased focus on export sales has resulted in increase of trade receivable days from 18 days to around 40 days.</p> <p>We would continue to focus on export sales to improve our operational margin. Accordingly, we have estimated that our receivable days will be around 40 days for Fiscal 2024 and Fiscal 2025.</p>
Other Current Assets including other financial assets (excluding cash and	Other current assets include loan to Associate, balance with statutory authorities, advances to employees, prepaid expenses, advance given to suppliers and security deposits (rentals). Our Company had maintained

Particulars	Justification
cash equivalents)	holding level of other current assets including other financial assets (excluding cash and cash equivalents and loans) at 38 days in Fiscal 2021, 29 days in Fiscal 2022, 27 days in Fiscal 2023 and 24 days in September 30, 2023. We expect the holding level to stay around 30 days for Fiscal 2023 and Fiscal 2024
Trade payables	Our Company had maintained holding level of trade payables at 53 days in Fiscal 2021, 37 days in Fiscal 2022, 40 days in Fiscal 2023 and 32 days in September 30, 2023. Our trade payables mainly comprise of suppliers of pelagic fish and fish meal. We plan to maintain an optimum credit period to take benefit of the supply of raw fish. Accordingly, we would be maintaining trade payable days at 30 days for Fiscal 2024 and Fiscal 2025.
Other financial liabilities, other current liabilities, Provisions and income tax liabilities (excluding current lease liabilities)	It includes payables to employees, statutory liabilities, advances from customers, provision for warranty, provision for gratuity, and current tax liabilities. Our Company had maintained holding level of other financial liabilities, other current liabilities, current tax liabilities (net) and provisions (excluding current lease liabilities) at 12 days in Fiscal 2021, 5 days in Fiscal 2022, 6 days in Fiscal 2023 and 4 days in September 30, 2023. We consider the holding level to reduce gradually from Fiscal 2023 to maintain at around 4 days of our revenue from operations for Fiscal 2024 and Fiscal 2025.

We expect that our working capital requirement will correspondingly increase in line with increase in our revenue from operations and would be around the current percentage of our net working capital to our revenue from operations. Further, our Company has considered that the contribution of export sales as a percentage to our revenue from operations would be higher than the domestic sales. This would require us to maintain higher level of inventory days and will also be subject to higher trade receivable days.

Accordingly, while the net working capital has increased in absolute terms corresponding to the increase in the revenue from operations of our Company, the working capital as days such as inventory days, trade receivable days, fixed deposits towards bank guarantee in days, other current assets in days and trade payable in days is line with the historical trends. The higher trade receivable days (40 days as against 28 days in Fiscal 2022) is due to an estimated increase in export sales as against domestic sales in comparison to previous years.

2. Investment in our Associate, viz. Ento Proteins Private Limited, for funding its working capital requirements

Our Company also operates its businesses through its Subsidiaries and our Associates. Our Company entered the business of Insect Protein through EPPL, our Associate, wherein our Company holds 50% of the total paid-up equity share capital and the balance 50% of the total paid-up equity share capital is held by a third-party entity, namely Holocene Ecosolutions Private Limited. EPPL, was incorporated on March 8, 2021.

EPPL, is engaged in the business of manufacturing of insect meals by processing the larvae of BSF that is hatched, fed, deployed and harvested at the municipal solid waste management sites and on low-value agri-food material. The insect meal and insect oil manufactured by EPPL is purchased by our Company as a raw material for further processing.

EPPL presently operates single MSW site at Pachanady in the city of Mangaluru for harvesting BSF larvae. As our strategy we would expand our presence in the Insect Protein industry, by increasing the hatching and harvesting sites.

Insect-based nutrition is emerging as a whole new category in food and feed systems. The application of insect meal as an ingredient for manufacturing of aqua feed is relatively new and gaining trust of our existing and new customer could take significant time, effort and capital. Further, the process of hatching, harvesting, manufacturing, sale and sales realisation would require significant working capital.

Accordingly, our Company proposes to utilise a portion of the Net Proceeds for making investment in EPPL, in order to meet the working capital requirements therein. The deployment of Net Proceeds shall be on a

need basis in tranches over the course of the Fiscal 2024 and Fiscal 2025, in accordance with the working capital requirements of EPPL. The Company intends to make investment in EPPL in a combination of equity and debt such that up to ₹70 million will be in the form of equity and balance up to ₹ 30 million in the form of debt with an option to convert such debt into equity such that the shareholding ratio between the Company and Holocene Ecosolutions Private Limited shall be in proportion of 76:24 in EPPL. Upon the proposed investment by our Company, EPPL would become a subsidiary of our Company.

The summary of the financials of EPPL is as follows:

Basis of estimation of working capital requirement

We propose to utilise up to ₹ 100.00 million from the Net Proceeds to invest in a combination of equity and debt i.e. investment up to ₹70 million in the form of equity and balance up to ₹ 30 million in the form of debt with an option to convert such debt into equity in EPPL to fund its working capital requirements in the Fiscal 2024 and Fiscal 2025. The balance portion of the working capital requirements, if any will be arranged from existing equity, internal accruals, borrowings from banks, financial institutions, non-banking financial companies and related parties.

The details of the working capital requirement as of September 30, 2023 and Fiscal 2023 Fiscal 2022 and Fiscal 2021, and the source of funding, derived from the financial information of EPPL, as certified by M/s. The above details of holding levels as well as projections have been certified by M/s. Sheikh Abdullah & Co, Chartered Accountants, being the statutory auditor of EPPL, through their certificate dated December 18, 2023.

*EPPL was incorporated on March 8, 2021 and hence Fiscal 2021 was the first year of incorporation

Notes:

1. Holding period (in days) is calculated as respective current asset or current liability divided by revenue from operations multiplied by number of days (see note 2 below). Estimated holding days for Fiscals 2024 and 2025 have been rounded to the nearest number.
2. The holding period has been computed over 365 days for each fiscal year and 180 days for the six months period ended September 30, 2023.

Key assumptions for working capital projections

The table below sets forth the key assumptions for our working capital projections:

Particulars	Justification*
Trade receivables	The holding levels of trade receivables were at NIL days in Fiscal 2022 and 3 days in Fiscal 2023 since, EPPL sells its product to our Company against advance. However, going forward the expected credit term is estimated at 45 days in Fiscal 2024 and Fiscal 2025 which would be in-line with normal credit days that our Company enjoys from its other vendors.
Inventories	EPPL had maintained inventory holding period of NIL days in Fiscal 2021 and Fiscal 2022 and 69 days in March 31, 2023 and for the six months period ended September 30, 2023 is 284 days. In September 30, 2023, high activity period resulted in higher inventory levels which may regularise by year end. It is expected that the holding level to stay around 46 days for Fiscal 2024 and 44 days for Fiscal 2025.
Trade payables	EPPL had maintained holding level of trade payables at 113 days in Fiscal 2022 and 88 days in March 31, 2023 and for the six months period ended September 30, 2023 it was 137 days. We expect to rationalise our trade payable days to 7 days for Fiscal 2024 and Fiscal 2025. A significant portion of the trade payables will be amount payable to our Company towards processing charges and to HEPL, towards purchase of BSF eggs.

*We have not considered holding period calculation for Fiscal 2021 since EPPL was incorporated only on March 8, 2021.

3. General Corporate Purposes

Our Company proposes to deploy the balance of the Net Proceeds aggregating ₹ [●] million towards general corporate purposes and subject to such utilization not exceeding 25% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations. The general corporate purposes for which we propose to utilise the Net Proceeds include expenses towards strategic initiatives, funding growth opportunities, strengthening marketing capabilities and brand building exercises, general corporate contingencies, acquisition affixed assets, capital expenditure, business development initiatives and as approved periodically by our Board or a duly constituted committee thereof from to time, subject to compliance with applicable law, including the necessary provisions of the Companies Act.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board based on the permissible amount actually available under the head 'General Corporate Purposes' and the business requirements of our Company, from time to time. Our Company's management, in accordance with the policies of our Board, shall have flexibility in utilising surplus amounts, if any. In the event our Company is unable to utilise the entire amount that is currently estimated for use out of Net Proceeds in a Fiscal, our Company will utilise such unutilised amount in the next Fiscal.

Bridge Financing

Our Company has not raised any bridge loans from any bank or financial institution as on the date of this Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds.

Means of Finance

The entire requirements of the objects detailed above are intended to be funded from the Net Proceeds and internal accruals. Accordingly, we confirm that there is no need for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue under Regulation 7(1)(e) of the SEBI ICDR Regulations and Paragraph 9(C)(1) of Part A of Schedule VI of the SEBI ICDR Regulations. Subject to applicable laws, in case of a shortfall in the Net Proceeds or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals and/or seeking additional debt from existing and/or other lender.

Issue Related Expenses

The total expenses of the Issue are estimated to be approximately ₹[●] million. The expenses of this Issue include, among others, underwriting and management fees, printing and distribution expense, advertisement expenses, legal fees and listing fees. The estimated Issue expenses are as under:

Expenses*	Estimated expense* (₹ in million)	As a % of the total estimated Issue expenses	As a % of the total Issue Size

*Issue expenses excludes applicable taxes, where applicable. Issue expenses will be incorporated at the time of filing of the Prospectus. Issue expenses are estimates and are subject to change. Issue Expense incurred if any will be recouped from the Issue Proceeds.

(1) Selling commission payable to the SCSBs on the portion for Retail Individual Bidders and Non-Institutional Bidders, which are directly procured by the SCSBs, would be as follows:

Portion for Retail Individual Bidders*	0.15 % of the Amount Allotted (plus applicable taxes)
Portion for Non-Institutional Bidders*	0.10% of the Amount Allotted (plus applicable taxes)

*Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

Selling Commission payable to the SCSBs will be determined on the basis of the bidding terminal id as captured in the Bid Book of BSE or NSE

No processing fees/uploading charges shall be payable by our Company to the SCSBs on the applications directly procured by them.

SCSBs will be entitled to a processing fee for processing the ASBA Form procured by the members of the Syndicate (including their sub-syndicate members), CRTAs or CDPs from Retail Individual Investors and Non-Institutional Bidders and submitted to the SCSBs for blocking as follows:

Portion for Retail Individual Bidders*	₹10 per valid ASBA Forms (plus applicable taxes)
Portion for Non-Institutional Bidders*	₹10 per valid ASBA Forms (plus applicable taxes)

*Based on valid ASBA Forms

Notwithstanding anything contained above, the total processing fee payable under this clause will not exceed ₹ 0.50 million (plus applicable taxes), and if the total processing fees exceeds ₹0.50 million (plus applicable taxes), then the processing fees will be paid on a pro-rata basis

- (2) The processing fees for applications made by UPI Bidders using the UPI Mechanism would be as follows: Sponsor Bank will be entitled to processing fee of ₹5.50 per valid UPI Application Form (plus applicable taxes). The Sponsor Bank shall be responsible for making payments to third parties such as the remitter bank, NPCI and such other parties as required in connection with the performance of its duties under applicable SEBI circulars, amendments, the Syndicate Agreement and other applicable laws.

Members of the Syndicate / RTAs / CDPs (uploading charges): ₹30 per valid Bid cum Application Form (plus applicable taxes).

Notwithstanding anything contained above, the total Bid uploading charges/processing fees for applications made by RIIs (up to ₹200,000), Non-Institutional Bidders (for an amount more than (from ₹200,000 to ₹500,000) using the UPI Mechanism would not exceed ₹1.00 million (plus applicable taxes), and if the total Bid uploading charges/processing fees exceeds ₹1.00 million (plus applicable taxes), then Bid uploading charges/processing fees using UPI Mechanism will be paid on a pro-rata basis except the fee payable to Sponsor Banks (plus applicable taxes).

- (3) Brokerage, selling commission on the portion for UPI Bidders (using the UPI Mechanism), RIIs and NIIs which are procured by the members of the Syndicate (including their sub-syndicate members), CRTAs, CDPs, RTAs or for using 3-in-1 type accounts-linked online trading, demat & bank account provided by some of the brokers which are members of Syndicate (including their sub-syndicate members) would be as follows:

Portion for Retail Individual Bidders*	0.15% of the Amount Allotted (plus applicable taxes)
Portion for Non-Institutional Bidders*	0.10% of the Amount Allotted (plus applicable taxes)

*Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price

The selling commission payable to the Syndicate/ sub-syndicate members will be determined on the basis of the application form number / series, provided that the application is also bid by the respective Syndicate / sub-syndicate member. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate/ sub-syndicate member, is bid by an SCSB, the selling commission will be payable to the SCSB and not the Syndicate/ sub-syndicate member.

Interim Use of Funds

Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Pending utilization of the Issue Proceeds for the Objects of the Issue described above, our Company shall deposit the funds only with one or more Scheduled Commercial Banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilisation of the proceeds of the Issue as described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

Appraising agency

None of the objects of the Issue for which the Net Proceeds will be utilized have been appraised by any bank, financial institution, or any other agency.

Monitoring of utilization of funds

Our Company has appointed ICRA Limited as the monitoring agency in accordance with Regulation 41 of the SEBI ICDR Regulations. Our Board and the monitoring agency will monitor the utilisation of the Net Proceeds, and submit the report required under Regulation 41(2) of the SEBI ICDR Regulations.

Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Net Proceeds. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay.

Our Company will disclose the utilisation of the Net Proceeds, including interim use, under a separate head in our balance sheet for such fiscal periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, clearly specifying the purposes for which the Net Proceeds have been utilised. Our Company will also, in its balance sheet for the applicable fiscal periods, provide details, if any, for any amounts that have not been utilised. Our Company will indicate investments, if any, of unutilised Net Proceeds in the balance sheet of our Company for the relevant Fiscals subsequent to receipt of listing and trading approvals from the Stock Exchanges.

Pursuant to Regulation 18(3) and Regulation 32(3) of the Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Net Proceeds. Further, in terms of Regulation 32(6) of the Listing Regulations, our Company is required to submit to the Stock Exchange for any comments or report received from the Monitoring Agency, within 45 days from the end of each quarter. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in this Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such

time as the Net Proceeds remain unutilised. Such disclosure shall be made only until such time that all the Net Proceeds have been utilised in full. The statement shall be certified by the statutory auditor of our Company. Furthermore, in accordance with Regulation 32(1) of the Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Issue from the objects of the Issue as stated above; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Issue from the objects of the Issue as stated above. The explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

Variation in Objects

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the Objects of the Issue without our Company being authorized to do so by the Shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "**Postal Ballot Notice**") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the Objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other Confirmations

No part of the proceeds of the Issue will be paid by us to the Promoters and Promoter Group, the Directors, Associates, Key Management Personnel, Senior Management Personnel or Group Companies, except in the normal course of business and in compliance with the applicable law. There are no material existing or anticipated transactions in relation to the utilisation of the Net Proceeds entered into or to be entered into by our Company with our Promoters, Promoter Group, Directors, Key Managerial Personnel and/or Senior Management Personnel.

BASIS FOR ISSUE PRICE

The Price Band and the Issue Price will be determined by our Company in consultation with the BRLM, on the basis of assessment of market demand for the Equity Shares issued through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹1 each and the Issue Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band.

Investors should also refer to the “*Risk Factors*”, “*Summary of Financial Information*”, “*Our Business*”, “*Restated Consolidated Financial Statement*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 45, 108, 232, 337 and 418, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the Issue Price are:

1. Our position as a leading manufacturer and exporter of Fish Protein products
2. Established customer base and strong relationships
3. Strategically located processing facilities
4. Entry Barriers
5. Strong and consistent financial performance
6. Focus on Quality, Environment, Health and Safety (QEHS)
7. Experienced Promoter Directors with extensive domain knowledge

For details, see “*Our Business – Our Competitive Strengths*” on page 242 of this Red Herring Prospectus.

Quantitative Factors

Some of the information presented below, relating to us, is derived from the Restated Consolidated Financial Statement. For details, see “*Restated Consolidated Financial Statement*” and “*Other Financial Information*” on pages 337 and 408, respectively of this Red Herring Prospectus.

Some of the quantitative factors which may form the basis for computing the Issue Price are as follows:

1. Basic and Diluted Earnings Per Share (“EPS”):

Year / Period ended	Basic EPS and Diluted EPS**	Weights
March 31, 2023	2.00	3
March 31, 2022	1.10	2
March 31, 2021	0.41	1
Weighted Average	1.44	
For six-months period ended September 30, 2023*	1.47	NA

*Not annualized

**Pursuant to a resolution of our Shareholders dated February 28, 2022, each Equity Share of our Company of ₹10 each was sub-divided into 10 Equity Shares of ₹ 1 each, for all periods presented. The Earnings per Equity Share (basic and diluted) has been calculated after giving effect to such sub-division in accordance with principles of Ind AS 33 - “Earnings per share”.

Further, pursuant to the Shareholders resolution passed at the EGM held on January 15, 2022, our Company has issued bonus shares in the ratio of 3(three) Equity Shares for every 1 (one) existing Equity Share held. Accordingly, the earnings per Equity Share have been adjusted for the aforementioned bonus issue

Notes:

⁽¹⁾ Earnings per Equity Share (Basic & Diluted) = Restated profit for the period/year attributable to the Equity Shareholders / Weighted average number of Equity Shares outstanding during the period/year. The weighted average number of Equity Shares outstanding during the year is adjusted for bonus issue and sub-division of Equity Shares.

- (2) *Weighted Average EPS = Aggregate of Year wise weighted EPS divided by the Aggregate weights i.e. [(EPS *Weights) for each year / Total Weights]*
- (3) *Earnings per share calculations are in accordance with Ind AS - 33 (earnings per share) prescribed by the Companies (Indian Accounting Standards) Rules, 2015*
- (4) *The above statement should be read with significant accounting policies and notes on Restated Consolidated Financial Statement as appearing in the Restated Consolidated Financial Statement.*
- (5) *The face value of the Equity Shares is ₹1 each.*
- (6) *The figures disclosed above are derived from the Restated Consolidated Financial Statement.*

[§]Used as raw material by our Company

1. Revenue from Operations means the revenue from operations as appearing in the Restated Consolidated Financial Statement.
2. Growth in revenue from operations (%) is calculated as a percentage of revenue from operations of the relevant period/year minus revenue from operations of the preceding period/year, divided by revenue from operations of the preceding period/year.
3. Gross Profit is calculated as revenue from operations less cost of materials consumed and changes in inventories of finished goods.
4. Gross Profit Margin refers to the percentage margin derived by dividing Gross Profit by revenue from operations.
5. EBITDA is calculated as restated profit / (loss) for the period / year, plus finance costs, total taxes, and depreciation and amortisation expense.
6. EBITDA Margin (%) is calculated as EBITDA divided by Revenue from Operations.
7. Adjusted EBITDA is calculated as EBITDA less other income and share of Net Profit / (loss) of Associates and Joint Ventures.
8. Adjusted EBITDA Margin is calculated as Adjusted EBITDA divided by the Revenue from Operations.
9. Profit after Tax means restated profit / (loss) for the period/year as appearing in the Restated Consolidated Financial Statement.
10. Profit after Tax Margin refers to the percentage margin derived by dividing Profit after Tax by revenue from operations.
11. Return on Equity (%) refers to restated profit after tax divided by Average Equity for the year/period. Restated profit after tax means restated profit / (loss) for the period/year as appearing in the Restated Consolidated Financial Statement. Average Equity is calculated as average of the total equity at the beginning and ending of the year/period.
12. Return on Capital Employed is calculated as adjusted EBITDA less depreciation and amortisation / Capital Employed. Capital Employed is calculated as total equity plus total borrowings plus total lease liabilities and deferred tax liabilities (net) minus deferred tax assets (net).
13. Net Debt to EBITDA Ratio is a measurement of leverage, calculated as a company's interest-bearing liabilities minus cash or cash equivalents, divided by its EBITDA.
14. Debt Equity ratio is calculated as total borrowings divided net worth available to the equity shareholders of the Company.
15. Revenue from operations divided between sale of products from domestic market and outside India market as appearing in the Restated Consolidated Financial Statement and other operating income.
16. Revenue from Operations as appearing in the Restated Consolidated Financial Statement divided between our Company's key products i.e. fish meal, fish oil and fish soluble paste.
17. Quantity of sales in MT.
18. Working Capital Days refers to total current assets days minus total current liabilities days.
19. Inventory days have been calculated as inventory divided by revenue from operations multiplied by 180 (to annualize) for the six months period ended September 30, 2023 and 365 days for the complete fiscal years.
20. Trade Receivables days have been calculated as Trade Receivables divided by revenue from operations multiplied by 180 (to annualize) for the six months period ended September 30, 2023 and 365 days for the complete fiscal years.
21. Trade Payables days have been calculated as Trade Payables divided by revenue from operations multiplied by 180 (to annualize) for the six months period ended September 30, 2023 and 365 days for the complete fiscal years.

Description on the historic use of the KPIs by us to analyze, track or monitor our operational and/or financial performance

In evaluating our business, we consider and use certain KPIs, as stated above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs is not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Statement. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS. Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business.

Comparison of KPIs with Listed Industry Peers

Our Company is engaged in the business of manufacturing of Fish Protein (i.e. fish meal, fish oil and fish soluble paste) and Insect Protein (i.e. insect meal and insect oil), which is an essential ingredient in the

manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food).

While there are listed companies which are engaged in the business of manufacturing of aqua feed, they are not directly comparable with our Company since they are our consumers and our product is one of ingredients that they use in the manufacturing of aqua feed products. Considering the nature and size of the business of our Company the peers are not strictly comparable. However, such companies are included for broad comparison:

Weighted average cost of acquisition (in Rupees) [(B)/(A)]										4.50

As certified by certified by M/s. Shah & Taparia, Statutory Auditors, by its certificate dated February 24, 2024.

*For the purpose of acquiring 45,27,190 Equity Shares from Lalitaben Dipak Modh, 35,44,500 Equity Shares from Hinesh Laherchand Modi and 35,44,500 Equity Shares from Bijal Hinesh Modi, Kalandan Mohammad Arif had paid the relevant consideration amounts to them. However, these Equity Shares were inadvertently transferred and credited into the demat account of Kalandan Mohammed Haris, instead of the demat account of Kalandan Mohammad Arif by the aforementioned transferors. To rectify this inadvertence, Kalandan Mohammed Haris has transferred the above Equity Shares to Kalandan Mohammad Arif.

The Company sub-divided the equity shares of face value of ₹10 each into Equity Shares of face value of ₹1 each pursuant to the shareholders' resolution dated February 28, 2022.

- (c) Since there is an eligible transaction of our Company reported in (b) above in accordance with paragraph (9)(K)(4)(a) of the SEBI ICDR Regulations, the price per Equity Share of our Company based on the last five primary or secondary transactions in Equity Shares (secondary transactions where the Promoter/Promoter Group entities or Shareholders having the right to nominate director on the Board are a party to the transaction) not older than 3 years prior to the date of filing of this Red Herring Prospectus has not been computed.
- (d) Weighted average cost of acquisition, floor price and cap price

Based on the transaction described in (a), (b) and (c) above, the weighted average cost of acquisition, as compared with the Floor Price and Cap Price is set forth below:

Date of transfer	Weighted average cost of acquisition (₹ per Equity Share)	Floor price (i.e. ₹ [●]) ⁽¹⁾	Cap price (i.e. ₹ [●]) ⁽¹⁾

Dear Sirs,

Re: Proposed initial public issuing of equity shares of face value of ₹1 each (the “Equity Shares”) of Mukka Proteins Limited (the ‘Company’) (the “Issue”)

Sub.: Statement of possible Special Tax Benefits available to the Company and its equity shareholders under the direct and indirect tax laws

We refer to the proposed initial public issuing of equity shares (the “**Issue**”) of the Company. We enclose herewith the statement (the “**Annexure**”) showing the current position of special tax benefits available to the Company, to its shareholders as per the provisions of the Indian direct and indirect tax laws including the Income-tax Act, 1961, (“**Act**”) the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017 (collectively the “**GST Act**”), the Customs Act, 1962 (“**Customs Act**”) and the Customs Tariff Act, 1975 (“**Tariff Act**”) (collectively the “**Taxation Laws**”) including the rules, regulations, circulars and notifications issued in connection with the Taxation Laws, as presently in force and applicable to the assessment year 2024-25 relevant to the financial year 2023-24 for inclusion in the Red Herring Prospectus (“**RHP**”) for the proposed initial public issuing of shares of the Company as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“**ICDR Regulations**”).

Several of these benefits are dependent on the Company or its shareholders or its subsidiaries fulfilling the conditions prescribed under the relevant provisions of the direct and indirect taxation laws including the Income-tax Act 1961. Hence, the ability of the Company or its shareholders or its subsidiaries to derive these direct and indirect tax benefits is dependent upon their fulfilling such conditions.

The benefits discussed in the enclosed Annexure are neither exhaustive nor conclusive. The contents stated in the Annexure are based on the information and explanations obtained from the Company. This statement is only intended to provide general information to guide the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultants, with respect to the specific tax implications arising out of their participation in the Issue particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail. We are neither suggesting nor are we advising the investors to invest or not to invest money based on this statement.

The contents of the enclosed Annexure are based on the representations obtained from the Company and its subsidiaries and on the basis of our understanding of the business activities and operations of the Company and its subsidiaries.

We do not express any opinion or provide any assurance whether:

- The Company or its Shareholders or its subsidiaries will continue to obtain these benefits in future;
- The conditions prescribed for availing the benefits have been/would be met;

- The revenue authorities/courts will concur with the views expressed herein.

This statement is provided solely for the purpose of assisting the Company in discharging its responsibilities under the ICDR Regulations.

We hereby give our consent to include this report and the enclosed Annexure regarding the tax benefits available to the Company, its Shareholders and its Subsidiaries in the DRHP for the proposed initial public issue of equity shares which the Company intends to submit to the Securities and Exchange Board of India and the National Stock Exchange of India Limited and BSE Limited (the “**Stock Exchanges**”) where the equity shares of the Company are proposed to be listed, as applicable, provided that the below statement of limitation is included in the RHP and Prospectus.

We also consent to the references to us as “Experts” as defined under Section 2(38) of the Companies Act, 2013, read with Section 26(5) of the Companies Act, 2013 to the extent of the certification provided hereunder and included in the Red Herring Prospectus, Prospectus, the Preliminary International Wrap/issuing Memorandum, the Abridged Prospectus and any other addendum thereto of the Company to be submitted/filed with the Securities and Exchange Board of India (“**SEBI**”), the Registrar of Companies, Bangalore (“**ROC**”) and the stock exchanges, or any other material (including in any corporate or investor presentation made by or on behalf of the Company) to be issued in relation to the Issue (together referred as “**Issue Documents**”) or in any other documents in connection with the Issue

All capitalized terms not defined hereinabove shall have the same meaning as defined in the Issue Documents.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO MUKKA PROTEINS LIMITED (“COMPANY”) THE SHAREHOLDERS OF THE COMPANY (“SHAREHOLDERS”) APPLICABLE TAX LAWS IN INDIA

Outlined below are the special tax benefits available to the Company and its shareholders under the Income Tax Regulations within and outside India. These possible special tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant Acts.

Under the Income Tax Act, 1961 (“the IT Act”)

A. Special tax benefits available to the Company

(i) Concessional corporate tax rates - Section 115BAA of the IT Act

The Taxation Laws (Amendment) Act, 2019 introduced section 115BAA wherein domestic companies are entitled to avail a concessional tax rate of 22% (plus applicable surcharge and cess) on fulfillment of certain conditions. The option to apply this tax rate is available from Financial Year (‘FY’) 2019-20 relevant to Assessment Year (‘AY’) 2020-21 and the option once exercised shall apply to subsequent AYs. The concessional rate is subject to a company not availing any of the following deductions under the provisions of the IT Act:

- Section 10AA: Tax holiday available to units in a Special Economic Zone;
- Section 32(1)(iia): Additional depreciation;
- Section 32AD: Investment allowance;
- Section 33AB/3ABA: Tea coffee rubber development expenses/site restoration expenses;
- Section 35(1)/35(2AA)/ 35(2AB): Expenditure on scientific research;
- Section 35AD: Deduction for capital expenditure incurred on specified businesses;
- Section 35CCC/35CCD: expenditure on agricultural extension /skill development. Chapter VI-A except for the provisions of section 80JJAA and section 80M.

The total income of a company availing the concessional rate of 25.168% (i.e., 22% along with surcharge and health and education cess) is required to be computed without set-off of any carried forward loss and depreciation attributable to any of the aforesaid deductions/incentives. A company can exercise the option to apply for the concessional tax rate in its return of income filed under section 139(1) of the IT Act.

Further, provisions of Minimum Alternate Tax (‘MAT’) under section 115JB of the Income Tax Act, 1961 (“the IT Act”) shall not be applicable to companies availing this reduced tax rate, thus, any carried forward MAT credit also cannot be claimed.

The provisions do not specify any limitation/condition on account of turnover, nature of business or date of incorporation for opting for the concessional tax rate. Accordingly, all existing as well as new domestic companies are eligible to avail this concessional rate of tax.

Note: The Company has already opted for the concessional tax rate benefit for the FY 2019-20 relevant to the AY 2020-21 as mentioned in the Section 115BAA for which declaration in form 10IC has already been filed with the income tax authority.

Company eligible for Section 115BAA deduction:

1. Mukka Proteins Limited

(ii) Deductions in respect of employment of new employees Section 80JJAA of the IT Act

As per section 80JJAA of the IT Act, where a company is subject to tax audit under section 44AB of the IT Act and derives income from business, it shall be allowed to claim a deduction of an amount equal to 30% of additional employee cost incurred in the course of such business in a previous year, for 3 consecutive assessment years including the assessment year relevant to the previous year in which such additional employment cost is incurred.

The eligibility to claim the deduction is subject to fulfillment of prescribed conditions specified in sub-section (2) of section 80JJAA of the IT Act.

Company eligible for Section 80JAA deduction:

1. Mukka Proteins Limited

(iii) Deduction in respect of certain inter-corporate dividends Section 80M of IT Act

As per Sec 80 M of the IT act, where domestic companies that have declared dividend and are also in receipt of the dividend from another domestic company or a foreign company or a business trust, deduction is allowed with respect to the dividend received as long as the same is distributed as dividend one month prior to the due date of furnishing the return of income under sub-section (1) of section 139.

Company eligible for Section 80M deduction:

1. Mukka Proteins Limited

STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO MUKKA PROTEINS LIMITED (THE “COMPANY”) ITS SHAREHOLDERS UNDER THE APPLICABLE INDIRECT TAX LAWS IN INDIA

Outlined below are the special tax benefits available to the Company and its shareholders under the Indirect Tax Regulations within India. These possible special tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the Indirect Tax Regulations.

- (A) Special tax benefits available to the Company under Indirect Tax Regulations in India
- (i) **Benefits under the Central Goods and Services Act, 2017, respective State Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 (read with relevant Rules prescribed thereunder)**

Under the GST regime, all supplies of goods and services which qualify as export of goods or services are zero-rated, that is, these transactions attract a GST rate of zero per cent.

On account of zero rating of supplies, the supplier will be entitled to claim input tax credit in respect of input and input services used for such supplies and can seek refund of accumulated/ unutilized ITC.

There are two mechanisms for claiming refund of accumulated ITC against export. Either person can export under Bond/ LUT as zero-rated supply and claim refund of accumulated input tax credit or person may export on payment of integrated Goods and Services Tax and claim refund thereof as per the provisions of Section 54 of CGST Act, 2017.

Thus, the GST law allows the flexibility to the exporter (which will include the supplier making supplies to SEZ) to claim refund upfront as integrated tax (by making supplies on payment of tax using ITC) or export without payment of tax by executing a Bond/LUT and claim refund of related ITC of taxes paid on input and input services used in making zero rated supplies.

Till December 2020, the company has undertaken export of services with payment of tax. Thereafter, the company is exporting the services without payment of integrated tax under the option of LUT. Further, GST refund of accumulated input tax credit in relation to input and input services will also be available to the company on account of zero-rated supplies.

Company eligible for benefits in GST Laws:

- 1) Mukka Proteins Limited
- (ii) **Benefits of Duty Drawback scheme under Section 75 of the Customs Act, 1962:**
- As per Section 75 of the Customs Act, the Central Government is empowered to allow duty drawback on export of goods, where the imported materials are used in the manufacture of such goods. The Company is eligible to avail duty drawback benefit equal to or less than the duty paid, as applicable, on imported material when it undertakes export of goods.
- (iii) **Benefits of Remissions of Duties and Taxes on Exported Products (RoDTEP):**
- As per RoDTEP Scheme Guidelines issued by the Directorate General of Foreign Trade (DGFT) under the Ministry of Commerce and Industry, Government of India to provide exporters with a refund of various duties and taxes incurred on the export of goods. RoDTEP was implemented with effect from 1st January 2021. The Company is eligible to avail RoDTEP scheme benefits.
- (iv) **Benefits of Custom duty on import of Fish meal under Customs Act, 1962:**
- Benefits of Custom duty on import of Fish meal under chapter-23 namely “Residues and waste from the food industries; prepared animal fodder” is provided under Customs Act, 1962. The company is eligible to avail the custom duty benefits.

(B) Special tax benefits available to the shareholders under the Indirect Tax Regulations

The shareholders of the Company are not required to discharge any GST on transaction in securities of the Company. Securities are excluded from the definition of Goods as defined under section 2(52) of the Central Goods and Services Tax Act, 2017 as well from the definition of Services as defined under section 2(102) of the Central Goods and Services Tax Act, 2017.

Apart from above, the shareholders of the Company are not eligible to special tax benefits under the provisions of the Customs Tariff Act, 1975 and/or Central Goods Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017, respective Union Territory Goods and Services Tax Act, 2017 respective State Goods and Services Tax Act, 2017, Goods and Services Tax (Compensation to States) Act, 2017 read with the relevant Central Goods and Services Tax Rules, 2017, Integrated Goods and Services Tax Rules, 2017, Union Territory Goods and Services Tax Rules, State Goods and Services Tax Rules, 2017 and notifications issued under these Acts and Rules.

Notes:

1. The ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the Company or its shareholders may or may not choose to fulfil.

1. Macroeconomic assessment

a. India’s macroeconomic assessment

India’s GDP logged 5.6% CAGR over fiscals 2012-2023

In 2015, the Ministry of Statistics and Programme Implementation (MoSPI) changed the base year for calculating India’s GDP from fiscal 2005 to fiscal 2012. Based on this, the country’s GDP logged an 11-year CAGR of 5.6%, reaching ~Rs 160 trillion in fiscal 2023 from ~Rs 87 trillion in fiscal 2012.

In fiscal 2023, the Indian GDP has seen a year-on-year growth of 7.0%. Though the GDP has seen a rise above the pre-pandemic levels, the growth is constrained by the global economic slowdown, tight monetary policies, and elevated oil prices.

In fiscal 2022, the economy faced challenges in the last quarter owing to geopolitical pressures, resulting in higher inflation levels. With the resumption of economic activities and healthy trade flow, GDP growth was at a healthy 9.1%, albeit on a low base.

India's GDP to grow 7.0% in fiscal 2023

While recovery continues to gather pace, the economy is facing multiple risks. Global growth is projected to slow as central banks in major economies withdraw easy monetary policies to tackle high inflation. This would imply lower demand for our exports. Together with high commodity prices, especially oil, this may deal a trade shock for the country. High commodity prices, along with depreciating rupee, indicate higher imported inflation.

The second quarter fiscal 2023 data reflected how global slowdown had begun to spill over to the Indian economy. Long-term growth movements suggest that despite diverging now, India's growth cycles have been remarkably synchronised with that of advanced economies since the 2000s. Major developed economies are expected to fall into a shallow recession by next year. S&P Global expects the US GDP to swerve from a growth of 1.8% in 2022 to negative 0.1% in 2023, and the European Union from 3.3% to 0% driven by tight financial conditions induced by rate hikes of US Federal Reserve, and the European energy crisis. This will weaken the export prospects for India, thereby weighing on domestic industrial activity.

India's GDP saw a year-on-year growth of 9.1% in fiscal 2022

As per the first revised estimates released by the National Statistical Office, India's real GDP grew 9.1% in fiscal 2022, higher than 8.9% it had estimated in January 2023. This suggests that the impact of Covid-19 waves (in fiscals 2021 and 2022) was not as severe as thought previously. It is noteworthy that given the large output loss in the past fiscal, GDP is 2.7% above the pre-pandemic (fiscal 2020) level. Over fiscals 2012-2022, GDP clocked 5.5% CAGR.

CRISIL forecasts India's GDP to grow at 6.0% in fiscal 2024

The quarterly growth trends indicate that the slowdown is intensifying and becoming more widespread in the economy. India's export and industrial growth was hit in the second quarter this fiscal by a global demand slowdown (particularly for goods), and this continued into the third quarter. The third quarter reflected waning momentum in domestic consumption. In addition, demand momentum is also expected to slow further, both at the domestic and global levels. Domestically, the transmission of the Reserve Bank of India's rate hikes has picked up since December, and key rates have either surpassed or reached close to the pre-pandemic 5-year average. The transmission is yet to be completed, which is likely to lead to a further rise in borrowing costs.

Further, the advanced economies will inevitably face slower growth in 2023 as their interest rates are already at decadal highs. They account for 45% of India’s exports, which will bear the brunt of weaker demand. Besides the global slowdown, a forecast of El Niño, which disturbs Indian monsoons, is another risk to monitor. The above-mentioned factors are expected to slow India’s GDP growth to 6.0% in fiscal 2024 from 7.0% in fiscal 2023. However, it is projected to improve to 6.9% in fiscal 2025.

PFCE to maintain dominant share in India’s GDP

PFCE at constant prices clocked 5.9% CAGR between fiscals 2012 and 2022, maintaining its dominant share in the GDP pie at ~58% or Rs 87,035 billion. Factors contributing to growth included good monsoons, wage revisions due to the implementation of the Pay Commission’s recommendations, benign interest rates and low inflation. However, it declined in fiscal 2021 to Rs 78,245 billion on account of the pandemic, when consumption demand was impacted on account of strict lockdowns, employment loss, limited discretionary spending and disruption in demand-supply dynamics. In fiscal 2023, it increased 5.4% to Rs 93,421.3 billion, forming 58.5% of GDP.

India's per-capita income jumped over fiscals 2012-2023

India's per capita net national income (NNI), a broad indicator of living standards, rose from Rs 63,462 in fiscal 2012 to Rs 98,118 in fiscal 2023 logging 4.0% CAGR. Growth was led by better job opportunities, propped up by overall GDP growth. Moreover, population growth remained stable at ~1% CAGR. However, in fiscal 2021, the indicator declined 8.9% on-year owing to the impact of Covid-19. With a 6.0% on-year growth seen in fiscal 2023, in absolute terms, it has surpassed pre-pandemic levels.

India's per-capita GDP grows faster than global average

Global per-capita GDP clocked a CAGR of 1.5% between 2012 and 2021, as per the World Bank data. Meanwhile, India's corresponding figure registered a CAGR of 4.3%.

India's population is projected to log 0.8% CAGR between 2020 and 2030

India's population grew to ~1.2 billion according to Census 2011, at a CAGR of 1.9% between 2001 and 2011. As of 2010 census, the country had ~246 million households.

According to the United Nation's (UN) World Urbanization Prospects, 2022 revision, India and China, two of the most populous countries, accounted for nearly 36% of the world's population in 2021. As per United Nations Population Fund's (UNFPA), "State of World Population Report" of 2023, India's population by mid-year of 2023 is estimated to surpass China by around ~2.9 million.

Urbanisation in India likely to reach 40% by 2030

India's urban population has been rising over the years and is expected to continue with rise in economic growth. From ~31% of the total population in 2010, it is projected to rise to nearly 40% by 2030, according to a UN report on urbanisation.

India's urban vs rural population

P: projected

People from rural areas move to cities for better job opportunities, education, and quality of life. The entire family or only a few individuals (generally an earning member or students) may migrate, while the other members continue to live in their rural home.

India's youth to account for ~39% of its population by 2030

As per the UN's 2022 Revision of World Population Prospects, India's youth (0-24 years) accounted for nearly half its population in 2010, significantly higher than that for some of its peers (Brazil at 42.5%, China at 35.1%, and the Russian Federation at 29.7%). The fact that ~31% of the population is aged below 15 indicates that a high proportion of the country's young population is expected to remain so in the coming years.

This share is, in fact, expected to reach ~39% by 2030, and remain significantly higher than that of its peers (Brazil at 31.5%, China at 25.4%, and the Russian Federation at 27.7%). This also indicates higher proportion of population entering the workforce.

Indian population's median age to be 30.9 years by 2030

According to the UN, the global median age rose to ~30 years in 2020 from ~20 years in 1970. This is lower than the median age in developed countries such as the US (37.5 years) and the UK (39.5 years). Interestingly, India's median age is 27.3 years, indicating a favourable demographic dividend. Furthermore, it is the lowest among its BRIC peers: Brazil (32.4 years), Russia (37.4 years), and China 38.6 years.

This trend is expected to continue up to 2030, implying strong potential for an increase in income, and basic and healthcare spending, with a large proportion of the population being employed.

Review of CPI Inflation in India

Consumer Price Index (CPI) inflation jumped sharply in January to 6.52% on-year (from 5.72% in December), driven by a rise in food (cereals, protein-based items) and core (personal care and effects) prices. Headline inflation is now at the upper limit of Reserve Bank of India's (RBI) target range of 2-6%. Both momentum (from on-month price increases) and some low-base effect contributed to pulling up the headline inflation, overwhelming the effect of deflation in vegetables.

Food inflation continues to drive swings in headline inflation: in November and December, sharp seasonal correction in vegetable prices lowered inflation below 6% (the RBI's upper tolerance band). However, in January, acceleration in price rise in cereals, milk, pulses, eggs, meat and fish countered the deflation in vegetable prices. Fuel inflation saw a slight moderation (10.8% on-year in January vs 10.9% in December) arising from sequential decline in PDS kerosene prices and high base effect in coal prices.

Based on an assessment of the current and evolving macroeconomic situation, the Monetary Policy Committee (MPC) at its meeting on February 8, 2023, decided to increase the policy repo rate by 25 basis points (bps) to 6.50%. It also decided to remain focused on withdrawal of accommodation to ensure that inflation remains within the target going forward.

CPI inflation to average around 6.8% in fiscal 2023 and 5% in fiscal 2024

The January CPI print highlights that pressures on headline inflation from food and core items continue, warranting caution. If the CPI print for the remaining months of the last quarter remains as high as in January, average annual CPI inflation could print at 6.7% in fiscal 2023 (above the RBI’s revised forecast of 6.5%). That said, going ahead, food inflation outlook is expected to improve: from both a robust rabi harvest (providing relief for wheat and pulses prices) and improved procurement. Fuel inflation inching down (albeit, only gradually) provides some comfort, though the trajectory of international crude oil prices remains a monitorable amid persistent geopolitical tensions and reopening effect from China.

Core inflation remains the biggest concern with continued passthrough of input costs and domestic demand proving to be resilient.

Taking all factors into account, we maintain our fiscal 2023 CPI inflation forecast of 6.8%. Next fiscal, inflation is expected to trend down to 5%, led by a combination of factors: base effect, lower food inflation as the supply of cereals shores up, lower international commodity prices, and the impact of monetary policy actions (rate hikes and liquidity withdrawal) on core inflation.

India’s GVA continues to record healthy growth

On the supply side, gross value added (GVA), a much better measure of the economic performance, grew 8.8%

(compared with 4.2% de-growth in fiscal 2021). In absolute terms, real GVA was ₹ 138 trillion in fiscal 2022, up from ₹ 126.8 trillion in fiscal 2021, and is expected to reach ₹ 147.1 trillion in fiscal 2023, as per the advance estimates.

India's export of fish and fish products has grown at 13% CAGR from fiscals 2012 to 2022

India has a coastline of 7,516.6 km (including mainland, Lakshadweep and Andaman & Nicobar), which helps India's fishing population. Export of fish and fish products from India has grown at 13% CAGR from ` 166 billion in fiscal 2012 to ` 576 billion in fiscal 2022. Of the total exports in fiscal 2022, frozen shrimp occupied the highest share at 74%, followed by frozen fish at 6%.

Government providing support for the fisheries sector in India

Pradhan Mantri Matsya Sampada Yojana (PMMSY)

As a part of the Aatmanirbhar Bharat Abhiyan, the government approved PMMSY in fiscal 2021 to enhance the country's Blue Revolution by focusing on sustainable and responsible development of the fisheries sector. The major objectives and aims of this scheme include:

- Harnessing of fisheries potential in a sustainable, responsible, inclusive, and equitable manner
- Enhancing fish production and productivity through expansion, intensification, diversification, and productive utilisation of land and water
- Modernising and strengthening of the value chain - post-harvest management and quality improvement
- Doubling fishers and fish farmers' incomes and generation of employment
- Enhancing contribution to agriculture GVA and exports
- Social, physical and economic security for fishers and fish farmers
- Robust fisheries management and regulatory framework

In line with the above-mentioned aims and objectives, the scheme has envisaged achieving the following targets during the period catering to various segments such as productivity, employment generation and value addition in the fisheries sector.

Fish production and productivity	Economic value addition	Enhancing income and employment generation
<ul style="list-style-type: none"> • Increasing fish production to 22 million metric tonne by fiscal 2025 • Improving aquaculture productivity to 5 tonne per hectare • Increasing fish consumption in the country to 12kg per capita 	<ul style="list-style-type: none"> • Increasing contribution of the fisheries sector GVA in agriculture GVA to 9% by fiscal 2025 • Increasing earnings from exports to Rs 1 trillion by fiscal 2025 • Reduction in post-harvest losses from 20-25% to 10% • Encouraging private investments and entrepreneurship in the fisheries sector 	<ul style="list-style-type: none"> • Doubling the incomes of fishers and fish farmers • Generation of employment opportunities directly and indirectly along the value chain

This scheme, with an overall investment of ` 2,005 billion, will be implemented over five years from fiscal 2021 to fiscal 2025 as an umbrella scheme with two components:

- Central sector scheme, wherein the project cost is borne by the central government
- Centrally sponsored scheme, wherein the cost will be shared between states and central government and all the sub-components/ activities will be carried forward by state/ Union territories

Fisheries and Aquaculture Infrastructure Development Fund (FIDF)

The FIDF has been envisaged under Union Budget 2018. With a fund size of ₹ 75.2 billion, this scheme tries to improve the fisheries infrastructure, both marine and inland, and also achieve the target of 15 million tonnes of fish production by 2020, set under the Blue Revolution. In addition, FIDF also tries to achieve sustainable growth of 8-9% to achieve fish production of 20 million tons by fiscal 2023.

The National Fisheries Development Board (NFDB), Hyderabad, acts as the nodal implementing agency. FIDF provides concessional finance to the eligible entities (EEs), which include state governments/Union territories and state entities to develop identified fisheries infrastructure facilities. This concessional finance is provided through nodal loaning entities (NLEs) such as:

- National Bank for Agriculture and Rural Development (NABARD);
- National Cooperatives Development Corporation (NCDC); and
- All scheduled banks.

Blue Revolution

The Blue Revolution, which focuses mainly on increasing fisheries production and productivity from aquaculture and fisheries resources, both inland and marine, was launched in December 2015 as a centrally sponsored scheme. The scheme was launched for 5 years from fiscal 2016 to 2020 with an outlay of ` 300 billion with the following objectives:

- Increase overall fish production in a responsible and sustainable manner for economic prosperity;
- Modernise fisheries with special focus on new technologies;
- Ensure food and nutritional security;
- Generate employment and export earnings;
- Ensure inclusive development and empower fishers and aquaculture farmers

Major targets achieved by the scheme include

Fish production

- Increase in fish production from 10.26 million MT in fiscal 2015 to 13.75 million MT in fiscal 2019

Productivity

- Enhancement in productivity from 2.3 tonne per hectare to 3.3 tonne per hectare

Exports

- Exports increased from Rs 334.4 billion to Rs 465.9 billion in fiscal 2019

Kisan Credit Card (KCC)

During the budget announcement for fiscal 2019, the government extended the Kisan Credit Card (KCC) facility to fish and animal husbandry farmers in India. This scheme was introduced to meet the working capital requirement of fish farmers. The major aim of this scheme is to provide adequate and timely credit to farmers.

KCC facilities can be availed by fishers, fish farmers, self-help groups, women groups, and joint liability groups. Currently, a credit limit of ` 0.3 million is provided to already existing KCC farmers while a credit limit of ` 0.2 million is provided for new KCC farmers for activities related to fisheries and animal husbandry.

For fisheries, the working capital costs that are included under KCC include recurring costs such as:

- Seed
- Feed
- Organic and inorganic fertilisers
- Lime/ other soil conditioners
- Harvesting and marketing charges
- Fuel/electricity charges
- Labour
- Lease rent (if leased water area)

For capture fisheries, these working capital costs may include:

- Fuel charges
- Ice
- Labouring charges
- Mooring/ landing charges, etc.

Till December 9, 2022, 121,450 KCCs had been issued to fishers and fish farmers.

Fisheries sector attracts 38% on-year growth in fiscal 2024 budget allocation

The budgetary allocation for the department of fisheries for fiscal 2024 rose 38%, from ` 16.2 billion (revised estimates) in fiscal 2023 to ` 22.5 billion in fiscal 2024. In addition, allocation for the PMMSY was enhanced 42% to ` 20 billion for fiscal 2024 from ` 14.2 billion (revised estimates) during fiscal 2023.

Key budget proposals for fiscal 2024 for the fisheries sector

In Union Budget 2023-24,

- The government has announced a new sub-scheme, Pradhan Mantri Matsya Kisan Samridhi Sah-Yojana (PM-MKSSY) – under PMMSY. It has a targeted investment of ` 60 billion with the objective to enhance further the earnings and incomes of fishermen, fish vendors and micro and small enterprises engaged in the fisheries sector. It also envisages focussed intervention to bring about formalisation of the fisheries sector. This includes digital inclusion; facilitating access to institutional finance for capital investment and working capital; incentives to bring about system and institutions to reduce risk in aquaculture and fisheries; incentivising microenterprises operating in fisheries and aquaculture sector to work on value-chain efficiencies; incentivising micro and small enterprises to establish supply chains for delivery of safe fish products to consumers, thereby expanding the domestic market; and incentives for creation and maintenance of jobs for women in the sector.
- Further, the government also stressed upon creation of primary cooperative societies, including fisheries cooperatives at the panchayat level, to formalise the sector and empower fishers and fish farmers to carry out fish production and post-harvest activities in an organised manner. ` 9 billion was allocated under Ministry of Cooperation to develop the co-operatives.
- To promote exports, lower the cost of imports and cost of production, the government has announced reduction in import duty on certain products required for shrimp feed - basic customs duty on fish meal from 15% to 5%, on krill meal from 15% to 5%, on algal prime (flour) from 30% to 15%, on fish lipid oil from 30% to 15% and on mineral and vitamin premixes from 15% to 5%.
- The government has increased the credit target for agriculture and allied sector to ` 20 trillion with a focus on animal husbandry, dairy and fisheries. This would further improve inflow of institutional finance for the fisheries sector.
- Digital public infrastructure and the Agricultural Accelerator Fund is expected to further nurture innovations in the fisheries value chain. In addition, the announcement of three Centres of Excellence in India for artificial intelligence is expected to galvanise the AI ecosystem in India and offer great scope for improvement in fish marketing systems and create increased value realisation through accelerated implementation of block-chain-based solution for traceability and quality.

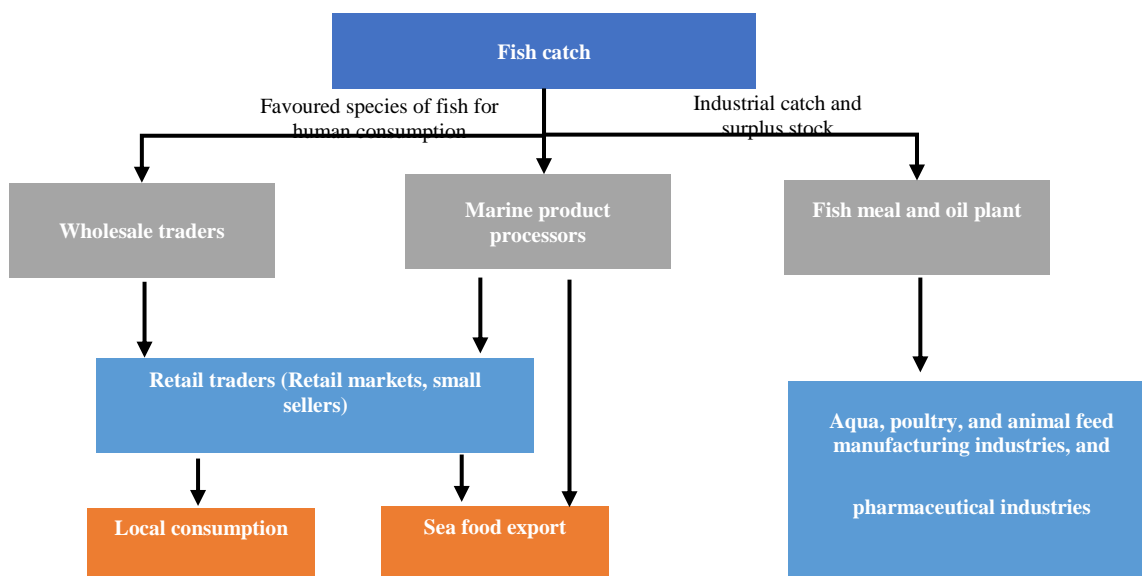

With lowering down of import duty on fish meal in union budget of 2023-24, CRISIL MI&A Research, expects the competition in the fish meal industry to intensify as a result of consolidation of existing players.

2. Overview of fish meal and fish oil industry in India

a. Introduction

Established at the beginning of the 19th century, the fish meal and fish oil industry mainly met the oil requirements of sectors such as leather tanning, production of soap and glycerol, paints, and other non-food products. The dry residue left after extracting the oil – fish meal – was used as fertiliser. By the 21st century, fish meal started finding usage as animal feed such as diets for fish, pigs and poultry which need higher quality protein than other farm stock such as cattle and sheep. Fish oil finds application in pharmaceutical industries and in some dietary supplements due to its high content of omega-3 fatty acids.

Typical consumption pattern of fishery catch

Source: Industry, CRISIL MI&A Research

Note: Animal feed includes feed to animal husbandry industries and pet food industries

Fish meal and fish oil are produced from i) fish considered as industrial catch (those caught specifically for making fish meal and fish oil) and ii) surplus stock from by-catch of fisheries for human consumption. Sometimes offal and trimmings from sea-food processing industries are used along with whole fish, to produce fish meal - the proportion of this mixture varies between large players and small players with large players using smaller proportion of offal and trimmings to produce fish meal when compared to that of small players. Industrial catch are high protein edible species of fish such as sardines, which are the major source of protein in the aqua feed protein chain. While industrial catch comprises edible species of fish, they are not majorly favoured for direct human consumption. On account of the economical price of the raw material (fish), wild species from sea are generally used in the fish meal and fish oil industry rather than aquaculture species. According to the International Fish meal and Fish Oil Organisation (IFFO), now known as IFFO - The Marine Ingredients Organisation, 30-35% of the wild catch goes into the production of fish meal and fish oil.

b. Value chain of the industry

The fish meal and fish oil industry relies on fishing in oceanic waters for procurement of raw materials. Typically, the larger raw material vendors (fishermen) use mechanised and motorised boats while the smaller fishermen use non-motorised boats, along with gears such as seines, trawls, gillnets and bagnet for fishing. According to Central Marine Fisheries Research Institute (CMFRI) data, mechanised and motorised boats accounted for ~98.8% of the total marine landings while non-motorised boats comprised the rest 1.8%, as of 2021.

In India, the peak season for fishing is August-December and the slack season is January-May. Fishing is not allowed in Indian waters during June-July, as it is the monsoon season. Fish meal and fish oil production follows the same season as fishing. The output is stocked to cater to the demand of domestic and exports market.

Availability of raw materials, a key monitorable

In the entire process of production of fish meal and fish oil, availability of raw material is a key monitorable. The industry procures raw material from fishing in the oceans, and thus, is dependent on fish landings in the Indian coastal waters. Large players have diversified their procurement across the Indian coastline so as to minimise their dependence on one particular coastal landing and fish catchments.

Fish landings is an important factor that determines the total quantity available for fishing and further use. Any drop in the fish landings hugely affects the entire sea-food and fish processing industry, which is dependent on wild catch. Also, the quality of fish in terms of nutrient content and growth of adult

population determines the yield and output quality of fish meal and fish oil. Thus, even the prices of the end product are dependent on the quality of fish caught. The dependency of multiple stakeholders (fishers, fish processors, consumers, industrialists and exporters) on fish landings makes it necessary to initiate appropriate management measures for judicious harvesting of the resource.

According to the Indian Council of Agricultural Research (ICAR)-CMFRI report on Indian oil sardine (IOS), availability of the fish in the ocean water is affected by factors that could be classified as: i) environmental, such as El Niño and erratic rainfall; ii) biological, such as spawning failure, competition from other species of fish, and lack of food; and iii) anthropogenic, such as overfishing. A living natural resource such as fish has limitations in replenishment and is severely affected by climatic and environmental changes. Any change in climatic conditions affects the growth and breeding of fish and thus impacts the adult population during a particular season in the coastal waters. Overfishing and fishing of juvenile species also affect the fish population over the long run.

IOS is a key raw material used by Indian fish meal and fish oil industry. The landings of IOS have declines drastically from 0.5 Mn tonnes in 2014 to below 0.15 Mn tonnes in 2019 and further down to 0.08 Mn tonnes in 2021. However, in 2022 the landings of IOS have seen a drastic increase from the levels of 2021 - which is further reflected in exports during the period.

According to CMFRI, IOS is known for its capricious nature, with seasonal, annual, inter-annual and decadal peaks and slumps in availability. The resilience of a fish population to exploitation is largely dependent on the reproductive traits. Thus, while IOS species is volatile in availability, is also known to replenish fast after a decline, on account of its natural characteristics of rapid growth, early maturity, high fertility, and protracted spawning period. According to the ICAR-CMFRI report, the species have medium to high resilience due to which, along the southwest coast of India, the species is expected to revive in a span of 2-3 years post any decline, as supported by historical fishery trends. Decline in fish landings due to unsustainable fishing and changing climatic conditions is a key risk factor for the fish meal and fish oil industry.

Note:

1. Latest data available is as of 2021

2. As per Industry interactions the landings of oil sardines have seen a rise post August 2022 compared to 2021, which further reflects in rise in exports. From January to July of 2022 an average of ~6,688 tonnes of fish meal has been exported while during July to December an average of ~22,000 tonnes of fish meal has been exported indicating a rise of ~3.3 times.

Fish meal, fish oil are products of cooked fish

Fish meal and fish oil, which have a huge demand in aquaculture and animal feed industries, are the most important products made from processing of cooked fish. Fish meal is the solid matter of fish and fish oil the liquid-oil matter. A liquid water-based by-product called fish-soluble, which is high in water content and contains soluble proteins, is obtained during the production of fish meal and fish oil. Various species can be used for fish meal and fish oil production, but oily fish are the main groups of species utilised.

Fish meal is a concentrated source of protein. It is in a powdered form and appears brownish in colour. Fish species with high protein content such as sardines, are cooked and pressed to remove liquid matter. The solid matter is further dried and ground to form crude flour or powdered fish meal.

Fish oil is a clear brownish yellow liquid obtained by pressing the cooked fish. It is generally made from oily species such as sardine, mackerel and tuna. The oil is derived from fish tissues. Oil sardine is the preferred source of fish oil due to its high contents of nutrients and omega-3 fatty acids.

Manufacturing process of fish meal and fish oil

There are several ways of making fish meal from raw fish. The easiest is to let the fish dry in the sun and then grind it. This is the traditional method used in some parts of the world where processing plants are not available. The quality of the product, however, is poor compared with the ones made using modern methods such as steam sterilised plants. Almost all fish meal is made by cooking, pressing, drying and grinding the fish in the machinery designed for the purpose. Although the process is simple in principle, it requires considerable skill and experience, quality control, sustainable technology and R&D to produce high yield, and high quality product and to ensure that plants operates with high efficiency.

Procurement of Raw material: The raw fish viz. Sardine, Mackerel, Anchovy etc. are brought in refrigerated insulated trucks with clearly stacking of fish in crates with sufficient ice and appropriate temperature. The trucks are checked by our staff for temperature, freshness, foreign matter, iced, any other fish mix etc. and thereafter used for processing. The raw fish is also tested for microbiology parameters by our in-house laboratory and is even tested with EIC/EIA approved laboratory where the test reports are maintained.

Cooking: Once the raw fish is checked for quality purpose, it is passed through conveyor for the cooking process. The fish is cooked at 90⁰-95⁰ C in the cooker using steam generated from the broiler. However, the time of cooking is based on the size of the fish. The cooking validation chart is displayed and is recorded frequently. The purpose of cooking is to denature or coagulate the proteins and to rupture the cell walls of tissues of fish so that oil and water present in the fish is separated. The cooking process is fully automated, and the cooker is regularly cleaned.

Pressing: The cooked fish passes through the screw press. The process of pressing separates the cooked material into solid phase (press cake) and liquid phase (press liquor). During the pressing process, the water content may be reduced to about 50% from about 70% and the oil content to about 4% in the press cake.

Drying: The pressed cake from the pressing process is passed through an automated conveyor to the dryer. In the drying process, fluffed press cake is dried at a temperature of 90⁰-95⁰ C along with necessary pressure to achieve the desired moisture content. The dried press cake is then passed through a magnetic separator to remove any steel contaminants. This generates dried fish meal.

Pulveriser: The dried fish meal is then passed through an automated conveyor to the Pulveriser, where it is grinded into powder form. The powdered fish meal will be added with antioxidant to meet customers specification and the details of antioxidant are recorded.

Cooling: The powdered fish meal is passed through the cooler where the water temperature is maintained between 26⁰-30⁰ C.

Sieving: After cooling, the powdered fish meal is passed through the automated conveyor to the siever where extraneous material is separated, if any.

Quality Control: We adhere to the quality control process by conducting sample check from the batches of the finished products. This involves sample check at our in-house labs.

Packing (Fish meal): After the quality analysis report, the fish meal from the sieving process are packed in HDPE, which are pre-printed for batch number, expiry date and the date of manufacturing. The finished product is then weighed and stacked in pellets.

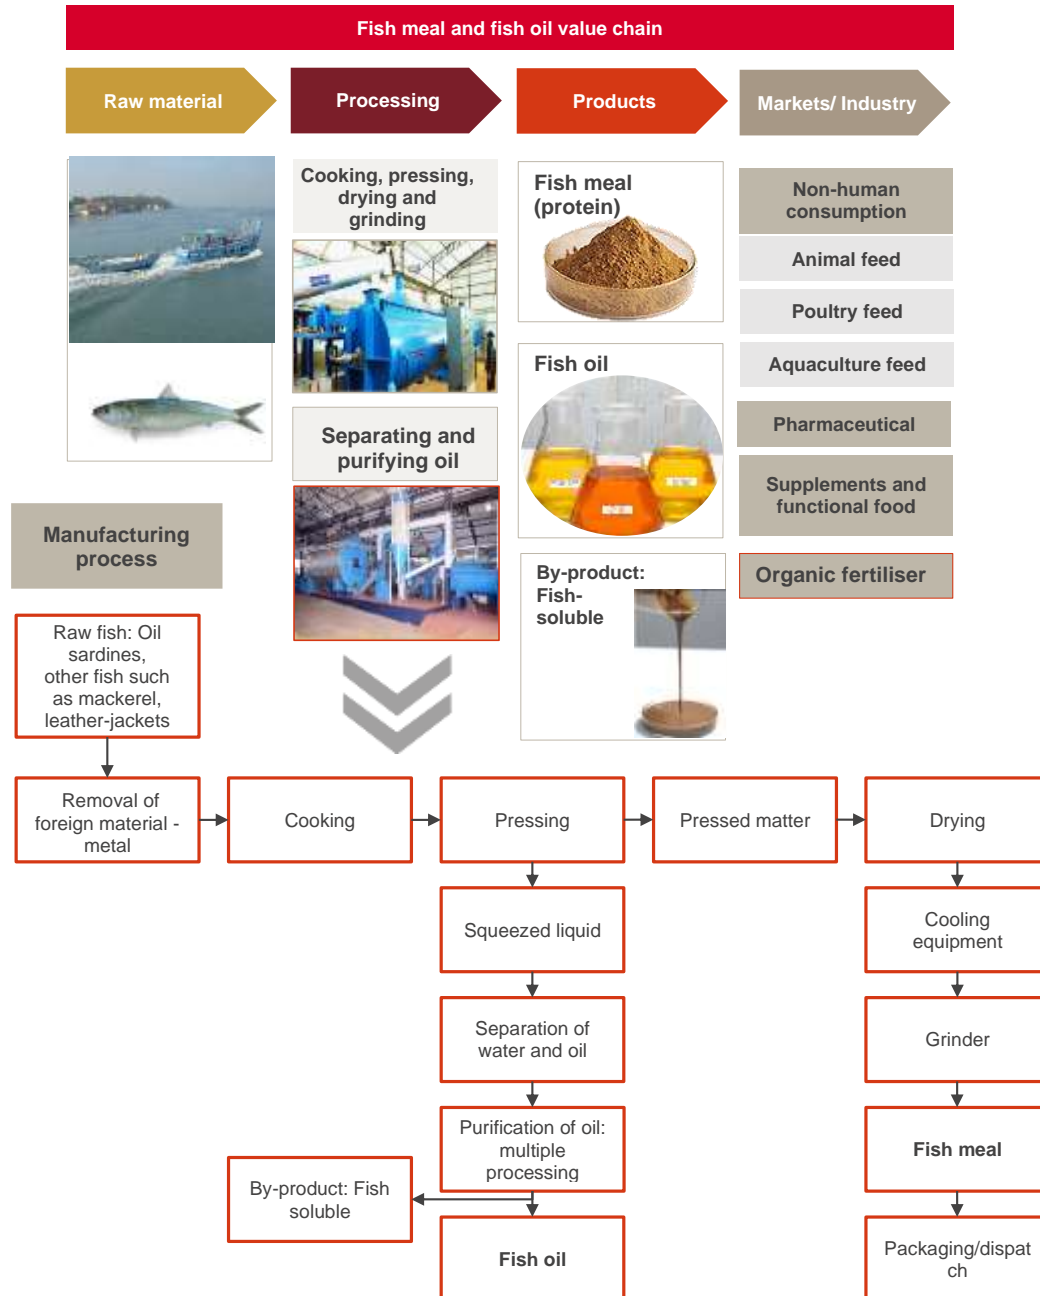

Decanter: The liquid phase (press liquor) from the pressing stage is passed through the decanter wherein the suspended solids are separated and added back to the dryer for further converting into fish meal. The press liquor is passed through a preheated tank to centrifuge.

Centrifuge: In the centrifuge, the oil gets separated from the press liquor. The oil is then stored after checking for moisture and FFA at regular interval.

Evaporator: The remaining protein water after the separation of fish oil in the centrifuge is passed through the process of evaporation with the help of sealing water pump, cooling water supply pump, cooling tower fan, air compressor, drier and vacuum pump. After the evaporation process, the soluble paste which is a brown semi-viscous liquid is produced which is commonly known as fish soluble paste.

Packing and Storage: The finished fish oil and fish soluble paste is then packed in the plastic airtight HDPE barrels or flexi bags, tankers or flex tankers and are dispatched to our storage facilities.

Dispatch: The stored fish meal, fish oil and fish soluble paste is further dispatched as per orders received from our customers.

Fish meal is rich source of protein and essential amino acids

Fish meal is predominantly used as a rich source of protein in compound feeds. Compound feed is animal feed made from a combination and mixture of various raw materials and additives. Non-compound feed

has a single source ingredient.

Fish meal carries large quantities of energy per unit weight and is an excellent source of proteins, lipids, minerals and vitamins and contains very less carbohydrates. It is easily digestible and considered a high-quality ingredient in aquaculture, poultry and animal feed industry. Fish meal and fish oil is usually deemed unsuitable for direct human consumption, but fish protein concentrate (FPC), which is same as fish meal but produced with high-quality inspection, is considered edible.

The protein content of fish meal varies from 50% to 65%, even reaching 70% when prepared from protein rich species. The table below depicts a comparison of protein content of various raw materials used to make animal feeds. Fish meal also provides a balanced composition of essential amino acid, phospholipids and fatty acids, which help optimum development, growth, and reproduction in animals. Fish meal is largely used in aquaculture feeds, followed by pig and poultry sector. Compared with other protein feeds, fish meal has the higher content of easily digestible proteins, minerals, vitamins, and essential amino acids. This makes it an essential ingredient in aqua, poultry and animal feed.

Protein content of fish meal vs other animal feed compounds

Feed raw material	Protein content (% of dry weight of produce)
Roughage	10-15%
Grains & seeds	8-12%
Grain distilling by-products	15-20%
Other oilseed meal	25-35%
Groundnut meal	40-50%
Soybean meal	45-55%
Corn glut meal	55-60%
Fish meal	65-70%
Fish meal and offal	50-65%
Fish soluble	35-45%

Source: CRISIL MI&A Research

Based on protein content, fish meal is classified into various grades. Final fish meal product is rich in protein with 65-70% protein and contains 8-10% of fat, 8-10% of moisture, and traces of ash, salt and sand. The acid value of fish meal and total volatile base nitrogen (TVBN/TVN) are other parameters monitored for grade quality. The lower the TVBN the better, as it is used as a fish spoilage indicator.

Grades of fish meal and protein content

Grade	Protein content
Grade I	60-61%
Grade II	62-63%
Grade III	64-66%
Super prime grade	>67%

Source: CRISIL MI&A Research

Fish meal's nutrient content and, resultantly, its grade, depends on the species used and their nutrient content. Grade is dependent on the raw material; better the species of fish, higher the quality of meal. The same holds true for fish oil.

Oily fish and fish oil are the richest source of two groups of omega-3 acids

Fish oil is the fat or oil that is extracted from fish tissue. It is rich in two specific groups of omega-3 fatty acids: docosahexaenoic acid (DHA) and eicosapentaenoic acid (EPA). Omega-3 fatty acids are known to have various health benefits: they support healthy cardio-vascular function and development of the nervous system/the brain, and boost the immune system.

The World Health Organization (WHO) recommends eating 1-2 portions of fish per week to meet the dietary requirement of fish oil. In the absence of fish intake, a fish oil supplement is recommended. Fish

oil contains 30% omega-3 fatty acids as well as vitamins A and D.

Plant sources of omega-3 acids, such as flaxseed and chia seeds, contain another group known as alpha-linolenic acid (ALA).

Aquaculture feed represents the dominant usage of fish meal and fish oil at 87% and 75%, respectively, for calendar year 2022

According to the International Fish meal and Fish Oil Organisation (IFFO) 2022 report and CRISIL MI&A Research estimates, aquaculture feed represents the dominant use of fish meal globally at ~87% for calendar year 2022. Fish meal is transported from the factory to the compound animal feed manufacturers, where it is mixed with other ingredients to make ideal aquaculture or animal feed. Some of the key players operating in the Indian aquaculture feed manufacturing industry include Avanti Feeds, Godrej Agrovet, Anmol Feeds, CP Foods, Devi Sea Foods, and Grobest Foods.

Fish meal is also used to fortify feed for animals and poultry. According to industry interactions, incorporating less than 5-10% in the feed for farm animals achieves positive effects. Fish meal has served as a protein source for livestock for decades because in addition to the beneficial protein and amino acid composition, it has high digestibility of over 90%.

Fish meal and fish oil contribute indirectly to human consumption as they are used as feed in aquaculture and livestock raising. Application in aquaculture which has been recording high growth rates worldwide due to the limited catch of wild fish, is especially important for fish meal and fish oil as it forms an important diet constituent.

Fish oil is largely used for aquaculture feed to maintain omega-3 diet nutrient

As per the IFFO 2022 report and CRISIL MI&A Research estimates, aquaculture feed sector dominates fish oil consumption with ~75% share worldwide, as of 2022. Aquaculture feed requires fish oil as specific species such as oily or carnivorous fish (salmonids and shrimps), chiefly consumed by humans, need to be fed with feed containing fish oil in order to ensure natural diet and achieve the natural nutrient make-up of fish.

Uses of fish oil (in CY 2022)

Note: Others include cosmetics, animal feed industry, and industrial applications such as paints, leather processing, inks, and lubricants

Source: IFFO, CRISIL MI&A Research

Use of fish oil directly in human foods and capsules is on the rise. The use in nutraceuticals — nutrients plus pharmaceuticals — had been increasing even more rapidly than in aquaculture. Fish oil is also used in traces in some cosmetic products.

Other uses include as a carrier for pesticides, in paints and in the leather industry. Fish oil is refined to reduce free fatty acid content and bleached to reduce the colour to be used for different industrial applications, including resins for paints and polymer, ceramic deflocculants and release agents, rust inhibitors and water repellent. Fish oil oxidises rather quickly and turns rancid and, hence, is avoided in packaged food.

c. **Indian fish meal and fish oil industry size**

In India, Karnataka, Kerala, Maharashtra, Gujarat and Tamil Nadu are home to key fish meal plants. Karnataka has the maximum number of plants, mostly in and around Mangaluru.

Indian fish meal and fish oil industry is estimated to reach ` 16-20 billion by fiscal 2026

CRISIL MI&A Research estimates, the Indian fish meal and fish oil industry de-grew at a CAGR of (4)-(5)% from ` 18.0 – 24.0 billion in fiscal 2018 to ` 13.0 – 17.0 billion in fiscal 2022. While in volume terms, it is estimated to have de-grown at a CAGR of (9)-(13)% from 180,000 – 220,000 tonnes in fiscal 2018 to 100,000-140,000 tonnes in fiscal 2022. This decline can be attributed to the decrease in fish landing (specifically of oil sardine fish) over the years due to change in climatic and natural conditions. In addition, as per our industry interactions, implementation of GST on fish oil (at 12%) and fish meal (at 5%), since 2019, has led to increase in prices, causing end consumers to favour cheaper imports as compared to domestic produce.

However, in fiscal 2023, the industry is estimated to see a huge jump in value as well as volume. It is likely to see an on-year growth of 130-150% in value terms and 90-110% in volume terms. This sudden rise can be majorly attributed to the increase in oil sardine landings (major raw material for fish meal and fish oil) coupled with increased traction in exports led by production shortage in Peru region and higher exchange rates in the global markets.

The fish meal and fish oil industry is seasonal in nature as the production during a period is majorly dependent upon the fish landings (fish availability) during that period. The landings of Indian oil sardines - the major raw material used in production of fish meal and fish oil - has seen a fluctuation over the year. These fluctuations in landings that bring in seasonality in the industry is majorly influenced by various factors which include environmental factors such as sea surface temperature, salinity, rainfall, upwelling, food availability; environmental events such as El Niño with a reduced rainfall and high temperature

along with excessive fishing on the stock beyond the maximum sustainable yield, and excessive capture of juveniles.

In addition, the industry is broadly divided into established players or large players and seasonal players or small players. In case of a period where there are lower landings the established players get access to larger share of landings while the seasonal players get limited access to the landings. However, during the period of high landings both seasonal players and established players get access to fish (raw material) on account of surplus availability.

During fiscal 2023, when the Indian oil sardine landings have seen a sudden rise, both established and seasonal players got access to raw material and contributed to the supply / production. Prior to fiscal 2023, where the industry has seen lower landings, majorly established players contributed to the supply / production while small players operated at lower or zero utilization levels contributing negligibly to the supply / production.

Also, as per industry interactions and from past data on landings it is to be understood that volume of fish landings tend to exhibit moderation post a high landing period. Further, over long term, CRISIL also estimates the landings to moderate because of weather conditions such as El Niño and also due excessive catch of juvenile fish. With such scenario, the small players cease to operate or operate at lower utilization levels causing the overall industry capacities to be lower over the longer term. Hence, going forward, CRISIL estimates the overall industry volume to grow at a CAGR of 3-7% from the base of fiscal 2022 reaching an overall volume of 130,000 – 170,000 tonnes by fiscal 2026.

In value terms the industry is expected to grow at of 5-9% between fiscal 2022 and 2026 reaching Rs 16-20 billion. In fiscal 2023, the value growth is supported by both price and volume. The production shortage in Peru has supported the growth in exports leading to rise in prices for the fiscal which CRISIL expects to see a moderate growth over the longer term.

It is to be noted that, this future growth is majorly dependent on the improvement of fish landings. Alternatively, if the fish landings tend to decline further from the levels of 2022, CRISIL expects the industry remain stagnant or show moderate signs of decline during the aforementioned period when compared to fiscal 2022.

It is also important to note that early weather forecasts for calendar year 2023 suggest return of El Niño. However, the degree or grade of El Niño is yet to be determined.

According to IFFO, aquaculture growth is not limited by availability of fish meal, though it remains an essential feed constituent which is not easy to substitute. Growth of the aquaculture industry will thus provide an opportunity for fish meal and fish oil players.

Though there exists an adequate demand for fish meal and fish oil in India driven by the aquaculture industry, the production of fish meal and oil depends on the natural availability of fishes and prevailing climatic conditions during the period in turn creating a supply constraint. In addition to that, the fish availability also depends on the reduction in unsustainable fishing practices wherein juvenile fishes are being caught and processed resulting in overexploitation of resources leading to reduction in fish stock.

Share of Indian fish meal and fish oil in global production stands at 2.9% in CY 2021

The Indian fish meal and fish oil industry began to flourish and develop only in the past 15-20 years on account of export demand following a reduction in global production of fish meal and fish oil.

India accounts for a very low share in global fish meal and fish oil production but its share has seen a rapid rise over the past two decades. After rising from 0.8% in CY 1990 to 1.6% in CY 2013, the share is estimated to reach 2.9% in CY 2021.

India's share in global capture of fish has increased steadily over the years due to various factors such as development of relevant industries, an increase in the use of modern techniques for fishing, etc. According to OECD-FAO 2022 data, India ranks fourth, after China, Indonesia, and Peru, in terms of country-wise wild fish capture as of 2022. Global capture of fish has been stagnant since the 1990s and the trend is likely to continue or decline slightly due to the emphasis on sustainable fishing and constraints in replenishment of fish population.

India's production rose 7% in the past decade, faster than global production

Indian fish meal and fish oil production has trended upwards over the past decade or so. As per OECD-FAO data, while global production of fish meal and fish oil de-grew at a CAGR of 1.4% between CY 2011 and CY 2021, India's production grew at a CAGR of 7.1%. OECD-FAO expects global fish meal and fish oil production to grow at a moderate pace in the mid-term and long-term on account of limitations in the availability of fish.

Global production of fish meal and fish oil has been volatile

Fish meal and fish oil production is volatile in nature due to variability in raw material availability. According to OECD-FAO Agricultural Outlook 2022-31, global fish meal and fish oil production has been volatile during the past two decades as seen in the production charts below from CY 1990 to CY 2021. It has been declining slowly due to limited supply of fish and concerns over sustainability. According to OECD-FAO, global fish meal supply

is likely to remain tight but stable in the future, except during El Niño years.

d. India's fish meal and fish oil (FMFO) export trend

The Indian fish meal and fish oil industry caters to both export and domestic markets. It is marked by seasonality. According to industry sources, the peak season for exports is from August to December/January. Export demand is dependent on production from the top 10 producing countries and inventory levels.

Post sluggish growth between fiscal 2018-22, fish meal exports saw a rise in fiscal 2023 supported higher landings

In value terms, fish meal exports increased at ~5.6% CAGR from ` 5,272.3 million in fiscal 2018 to ` 6,555.2 million in fiscal 2022. Fish meal exports have stagnated with fiscal 2022 volumes at ~70 thousand tonne, registering mild growth of 0.1% from fiscal 2018. Growth has not been uniform across years, as exports are dependent on factors such as: i) the catch during a year, which is affected by climate changes, and ii) demand from the domestic compound feed industry.

In fiscal 2023, the fish meal exports saw huge jump reaching ` 26,947.2 million. This rise in exports of fish meal during fiscal 2023 can be majorly attributed to the rise in raw material resources – oil sardine landings, coupled with shortage of fish meal production in Peru (a leading manufacturing country). This, coupled with depreciation of India rupee against the US dollar, has provided a further push for exports during the fiscal 2023 period.

Led by rise in fish landings fish oil exports saw a huge jump in fiscal 2023

Fish oil exports in value terms declined from ` 2,054.3 million in fiscal 2018 to ` 161.2 million in fiscal 2022 at a CAGR of ~47%. The volume of fish oil exports also saw a dip at a similar rate as value. In volume terms, fish oil exports dropped from 24.3 thousand tonne in fiscal 2018 to 1.1 thousand tonne in fiscal 2022 at a CAGR of 54%. Growth in fish oil exports was affected by species and quality of fish landings.

As mentioned earlier in the case of fish meal, exports of fish oil also saw a rise during fiscal 2023 due to higher landings of oil sardines, production shortage in the Peru region and a higher exchange rate scenario in the global markets.

Share of countries in Indian fish meal and fish oil exports: as of fiscal 2023 (In value terms)

In value terms, during fiscal 2023, China, Vietnam, China and Japan became top 4 exporting nations for India in terms of fish meal and fish oil.

Since the end of 2018, Indian players could cater to Chinese demand for fish meal and fish oil

In November 2018, a protocol on hygiene and inspection requirements for the exports of fish meal and fish oil from India to China was signed by the two countries during the visit of Hu Wei, Vice Minister of General Administration of Customs of China (GACC). This will enable India to commence exports of fish meal and fish oil to China. According to an Indian Press Information Bureau (PIB) notice dated November 28, 2018, India received clearance to export fish meal and fish oil to China. A protocol on hygiene and inspection requirements for the export of fish meal and fish oil from India to China was signed on the day. As per International Trade Centre data for the period 2018, China imported fish oil to the tune of \$183 million and fish meal and allied products to the tune of \$2,228 million.

e. Growth drivers for the industry

Fish meal and fish oil are not only a rich source of protein and essential fatty acids (EPA and DHA), respectively, but also contain an optimal mix of vital nutrients and are easily digestible. Fish meal and fish oil are valuable and essential ingredients in the feed industry. Fish meal and fish oil have been increasingly used in the aquaculture industry and the industry’s growth is driving prices of fish meal and fish oil higher. Growth drivers for the industry are detailed below:

Growth in the compound animal feed market, especially aqua feed

India is one of the largest global producers of animal feed and the Indian compound animal feed market is growing at a fast clip and expected to record a 3.5-4.0% CAGR, in value terms, between fiscals 2022 and 2026. Fish meal is an essential element for the compound feed industry and, thus demand for fish meal is expected to be strong going forward.

Within the animal feed market, during the same period, aqua feed is expected to grow the fastest at a 9-10% CAGR (value terms) driving higher growth for protein-rich feed such as fish meal and fish oil. About 70-75% of fish meal and fish oil demand is from the aquaculture industry, which is expected to grow strongly on rising per capita fish consumption.

Government initiatives to support growth of aquaculture and fisheries industries in India

India is the second-largest fish producer in the world and the central government has recognised the

fisheries sector as the ‘sunrise sector’. In addition, this sector provides livelihood to 28 million people at the primary level and twice the number across the value chain. To support the fisheries and aquaculture sectors in India, the government has introduced various schemes such as PMMSY, FIDF and Kisan Credit Card. These schemes cumulatively aim at increasing fish production and aquaculture exports from India, and decreasing post-harvest losses. The PMMSY aims to achieve an annual production of 22 million tonne by 2025 and increase the per capita consumption to 12 kg.

Further in Union Budget 2023-24, the government has taken various initiatives to support the Indian fisheries sector. PM-MKSSY, a sub-scheme under PMMSY was introduced with an investment of ` 60 billion to increase earnings of various stakeholders in the sector, along with ushering in formalisation in the sector. Reduction in custom duty of various products required for the manufacturing of shrimp feed was also announced. In addition, new reforms such as introduction of fishery co-operative societies, an increase in the credit target for agriculture and allied sectors and enhancement of digital infrastructure through the Digital Public Infrastructure and Agriculture Accelerator Fund were also introduced.

The above-mentioned initiatives by the government would bolster growth in the aquaculture and fisheries industry, in turn, leading to growth of the FMFO industry - as it acts a major raw material for the production of fish feed which is used in the aquaculture industry.

Increase in demand for nutraceuticals – nutrients plus pharmaceuticals

Increasing health disorders due to a sedentary lifestyle and poor habits have encouraged the use of nutraceuticals, which provide adequate supply of essential nutrients that help lower the risk of diseases. Awareness and access to information and rising risk of health disorders have increased awareness about nutrition and healthy diet, which has led to an increase in demand for health supplements and nutraceuticals.

Omega-3 pills and related products derived from fish oil are gaining importance as high nutrient and healthy dietary supplements. As already mentioned, omega-3 fatty acids have various health benefits and support healthy functioning of the heart, brain, nervous system, eyes, bones and joints. Along with supporting various body functions, they provide protection from numerous diseases. Dietary supplements and foods fortified with essential nutrients such as vitamins, iron and omega-3 acids are more in demand now.

f. Growth challenges for the industry

In spite of growing demand and importance of fish meal and fish oil, the industry faces various challenges to cater to rising demand. The foremost challenge is the volatile nature of raw materials (fish) and adherence to sustainable fishing practices.

Limited and volatile supply of raw materials

The Indian fish meal and fish oil industry’s annual turnover is dependent on the availability of fish. Indian oil sardine is a key species used for production of superior grade of fish meal and fish oil. By nature, the Indian oil sardine is prone to wide fluctuations in availability due to environmental factors. The environment has a direct impact on growth and reproduction of Indian oil sardine. Central Marine Fisheries Research Institute (CMFRI) in its study report on Indian oil sardine (IOS) remarks that various environmental factors affect biological functioning (which include growth rate, food availability, spawning failure, etc) of fishes that impact fish landing in coastal areas, both in terms of quality and quantity.

The impact of El Niño also cannot be ruled out. According to CMFRI, the IOS landing is impacted by the occurrence of El Niño effect. Though IOS decline is associated with onset and retreat of El Niño, the species recovers quickly on account of its medium to high resilience to exploitation on account of its inherent qualities such as high fecundity (fertility), rapid growth, short generation turnover time and protracted spawning period. Over the previous years, IOS landing peaked in fiscal 2013 post which it declined due to onset of El Niño. With the weakening of El Niño since fiscal 2017, normal spawning activity resumed and a marginal improvement in IOS landings was recorded in fiscal 2018.

The CMFRI study also notes that fisheries management is important for ensuring sustainable exploitation of various fishery resources and even more for Indian oil sardine, which not only is an important food fish but also forms a forage fish in the marine food chain and is also a key raw material for the fish meal and fish oil industry. Overall fish landings have increased in the last decade due an improvement in fishing gears and mechanisation of boats. Further analysis by CMFRI on IOS landings indicate that as of 2018, the stock level of IOS is almost fully exploited and there is little scope to increase the landing significantly by further increasing the effort. Efforts have to be in place to ensure sustainable exploitation of the stock without impacting the natural replenishment cycle.

Unsustainable fishing practices

Many companies have mushroomed in the past decade seeing a growth opportunity with the rise in aquaculture and export markets. Due to envisioned growth in aquaculture and a simple in-principal manufacturing process, many coast-specific small players have entered the fish meal industry. This has led to a rise in demand for fish at certain coasts, where supply is already limited by nature. Due to increased competition, unsustainable fishing practices have become rampant, leading to overfishing and depletion of fish population. Prices of raw material have been volatile, adversely impacting players' revenue and margins, especially for smaller coast-specific players.

Working capital management is key, especially for smaller players

In India, fishing is generally carried out by the unorganised segment and small fishermen. Procurement of fish has to be on a low credit basis with an immediate payment cycle. Also, fishing peaks during 3-4 months post monsoon season. Thus, procurement largely takes place for 3-4 months only. This raises inventory and the working capital requirement. Moreover, in the fish meal and fish oil industry, smaller local players have low bargaining power when it comes to large compound feed industry players, who are their chief customers. To retain customers, local players need to provide additional facilities such as a high credit period apart from a good quality product. Additionally smaller coast-specific players, on account of their scale of operation, have low bargaining power in terms of access to raw material (marine fish) compared with large established players. All these factors necessitate proper working capital management. As per industry interactions, due to the abovementioned factors, many smaller coast-specific players have had to stall or scale down production. Though schemes such as Kisan Credit Card (KCC) have been brought by the government under Union Budget fiscal 2018-19 to meet the working capital requirements of farmers, their penetration remains a key monitorable.

Development of alternative feed sources, in nascent stage

Fish meal and fish oil production cannot sustain the growing aquaculture industry as the supply of fish for fish meal is limited, being a natural resource. Consequently, feed formulators are looking to reduce their reliance on fish meal. Alternative feeds, which can substitute fish meal as a protein source, are being developed. As per IFFO data, the share of marine ingredients in fish feed formula has declined moderately since the 1990s to include more of plant source proteins. Developments in plant-based and insect-based products are in nascent stages. However, their availability on a larger scale will remain a key monitorable.

Insect feed as meals consists of a high amount of protein content and presence of essential amino acids and other lipids. It is blended with respect to the targeted animal. Being a rich source of nutrients, insect feed is used in various segments, such as poultry, pet food and aquaculture. Currently, insect feed is majorly used in pet food. Thus, growth of insect feed depends on its adaptability in the pet food segment and other animal feeds, where insect feed usage is currently limited.

g. Government regulations impacting the industry

Important for the industry to comply with regulations on fishing activities

The Marine Fishing Regulation Act (MFRA) has been in place since the 1980s, and all the maritime states have several management/regulation measures for marine fisheries. Relevant regulations on the zonation/demarcation of fishing areas for different categories of gear types, closed fishing season, restrictions on the use of destructive fishing gears, etc. are clearly indicated in the MFRA. Mesh size regulations are stipulated in this act and under state fisheries acts. Juvenile fishing was banned in August 2015, and the CMFRI recommended a minimum size of 10 cm of Indian oil sardines and 14 cm for Indian mackerel.

Apart from direct regulations on fishing, various environment laws are applicable to fishing activities. The Environment (Protection) Act (1986), being an umbrella act containing provisions for all environment-related issues, includes the Water (Prevention and Control of Pollution) Act (1974) and the Wild Life Protection Act (1972), which are applicable to the fisheries industry.

Export regulations

The Marine Products Export Development Authority (MPEDA) necessities registration of exporters, fishing vessels and other processing entities under Section 9(2) (b) and (h) of the MPEDA Act, 1972, for exporters of marine products.

There are no direct and separate regulations pertaining to the fish meal and fish oil industry, but the industry has to comply with standards and regulations required by export and domestic customers. For instance, Europe has its own set of regulations and standards for exports; Indian plants have to be approved by European agencies before exporting. In November 2018, India received clearance to export fish meal and fish oil to the Chinese market. Accordingly, players need to have certification and accreditation from the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China (AQSIQ) in order to conduct any export trade with China.

Compliance with sustainable procurement practices to gain importance

Apart from approvals and certification by export regulating authorities, industry players also need to comply with sustainable and responsible fishing activities. Due to growing importance of sustainable procurement of raw materials, many organisations (both feed and fish meal and fish oil producers) are keen on procuring goods only from suppliers that comply with certified sustainable supply practices. One such initiative is the IFFO Global Standard for Responsible Supply (IFFO RS), which is a business-to-business third-party audited certification programme that ensures stakeholders (including the animal feed, food and nutraceuticals value chains) responsibly source raw materials and manufacture fish meal and fish oil products. With growing importance of sustainability, especially in the developed markets, Indian exporters may have to comply with such sustainable practices to cater to the developed markets. Industry interactions indicate that some players have already initiated the process to gain requisite compliance certification, in order to remain competitive in the global scenario.

Limited supply of raw material necessitates regulations on fish meal and fish oil

Production of fish meal and fish oil is highly dependent on the fish landing quantity and quality in a particular season. It is nature-dependent. To ensure an ecological balance, measures are being taken to ensure sustainable fishing and avoid over-fishing. Over-fishing may increase the output for one season, but it may affect the availability of fish in the long run.

Measures such as a quota system for fish meal and fish oil producers on the quantity of fish catch utilised for production in a particular season have helped keep a check on over-fishing. In Peru and Chile, quotas are provided according to the approved capacity of fish meal and fish oil plants, which ensures sustainable fish catch and protects the industry from uncontrolled competition. Such a quota system is currently not implemented in India.

In Kerala, minimum fishing size has been implemented since 2015 by agencies so that juvenile fish are not caught, and breeding is not disrupted by over-fishing. Only adult fish can be caught.

CMFRI and MPEDA recommend a precautionary approach to fishing along with adherence to regulations on avoiding fishing of juveniles, using the stipulated mesh size in the nets and recommended engine horsepower of crafts that can lower fishing mortality rates. According to industry interactions, quota on catches per trawler, quota on capacity-wise procurement of fish and production of fish meal and fish oil, sustainable practices for fishing activity, and prevention of indiscriminate dumping of toxic materials, industrial effluents and sewage should be taken up by India to promote and conserve fisheries and the related industries.

3. Overview of the global animal feed industry

a. Global animal feed industry generated over \$400 billion revenue in CY 2020

The animal feed industry enables economic production of livestock animals throughout the world, and thus plays a prominent role in the global food industry. The animal feed industry supports generation of animal food and protein products. According to the International Feed Industry Federation (IFIF), the global commercial feed manufacturing industry or the compound animal feed industry generated estimated revenue in excess of \$400 billion in CY 2020.

b. Global animal feed industry produced ~1.2 billion tonne of feed in CY 2020

As per IFIF, global compound animal feed production grew at 5-6% CAGR between CY 2010 and CY 2020, to 1.2 billion tonne.

In volume terms, China was the largest producer of animal feed (21% share) in CY 2020, followed by the US (18%) and the EU (13%). Other Asian countries, including Japan, together accounted for 17% share.

c. Growth of global animal feed industry driven by developing nations

IFIF has observed that growth of the global animal feed industry is largely from developing countries, with production in developed countries relatively stable. IFIF expects the trend to continue, with growth coming from developing countries such as Brazil, China, India, and those in the Latin American and Caribbean regions.

Growth of the animal feed industry will be fuelled by rising global demand for animal protein food. Over the past decade, there has been an increase in global demand for animal protein, including livestock, dairy and fish, as more people are opting for animal nutrient diet. As seen from the chart below, poultry and pig feed held the dominant shares in the global animal feed industry as of CY 2020. However, by CY 2050, while poultry will still be the highest-growth category on account of higher production volume, aquaculture feed is expected to gain share and be the next fastest-growth category as global demand for fish protein rises.

Poultry contributes to nearly half of global compound animal feed (as of CY 2021)

Source: IFIF estimates, CRISIL MI&A Research

d. Poultry and aquaculture to drive growth for animal feed

The United Nations Food and Agriculture Organization (FAO) estimates global food demand to grow 60% by CY 2050. Accordingly, between CY 2010 and CY 2050, production of animal proteins is expected to grow ~1.7% per annum, with poultry projected to rise ~104%, aquaculture by 90% and dairy by 55%.

e. Demand from aquaculture farms to boost fish feed and allied industries

The anticipated growth of the aquaculture industry is expected to drive growth of the fish feed and allied industries, which can be seen from the growth rate in exports.

China, Chile, Denmark, Iceland, India, Japan, Norway, Peru, Thailand, the US and Vietnam are the key producers of fish meal and fish oil. China utilises fish meal primarily for the domestic industry. In fact, China is a net importer of fish meal, largely for its aquaculture farm and feed industries.

As per IFFO data, Peru is the leader in fish meal and fish oil production, as it has the largest and superior-quality oily fish along its coast. Due to low domestic consumption, the produced fish meal and fish oil are sold in global markets.

In the European Union, Norway and Denmark are the major producers of fish meal and fish oil. Norway is the largest consumer of fish meal and fish oil globally, due to its aquaculture production.

As per industry interactions, India is not a major exporter of fish meal and fish oil when compared with the top 10 countries. On average, the Indian fish meal and fish oil grade contains lower protein than the Peruvian grade, owing to limited availability of high-quality oily fish along its shores. The country's main export markets for fish meal and fish oil are Australia, Bangladesh, Japan, Malaysia, Saudi Arabia, Taiwan, Thailand and Vietnam.

f. Insect feed emerging as an alternative source in animal feed industry

With increasing demand driven by more population opting for animal-based nutrition coupled with limitation of fish meal due to its environmental impact has raised the requirement for new source of protein in the animal feed industry. Insect based nutrition is emerging as a new source of protein in the global animal feed industry. The emergence is majorly led by the following factors.

- Insects have high protein content (50-80% on a dry matter basis)
- Insects are natural diet for most animals
- Insect farming requires less water, less land, less production and has small environmental footprint when compared with other species.
- Use of insect feed also contributes to circular economy upcycling of low agriculture food materials into high value protein

Aquaculture industry plays a vital role in adoption of insect feed. In the current scenario, globally the usage of insect feed in the aquaculture industry is at nascent stage.

The initial usage in the industry is limited to insect feed being a niche ingredient. Going forward, usage ingredients such as fish meal being limited by sustainability provides an opportunity for the insect feed industry to grow.

Further growth in the segment is led by functional properties of insects. Insects are natural source of food for fishes and shrimps. Insect feed having similar smell and taste as that of insects would aid in its adoption and can also increase appetite.

4. Competitive assessment of key players

Data in this section is obtained from publicly available sources, including annual reports of players, regulatory filings, and/or company websites. The financials used in the competitive section are re-classified by CRISIL based on the annual report and financial filings by the players.

CRISIL has considered the following companies as competitors for Mukka Proteins Limited. These lists of companies either operate in same line of business or offer same product portfolio as that of Mukka Proteins Limited and available in public domain. Please note the peers set considered below is an indicative list and not an exhaustive list of players present in the fish meal and fish oil industry

Key observations

- Mukka proteins limited through its promoters has presence in the fish meal and fish oil industry since 1975. Among the other players listed above, Arbee Aquatic Proteins Pvt Ltd has presence in the fish meal and fish oil industry since 1978.
- Over the past 5 years, fiscal 2018 to 2022, share of Mukka Proteins limited in fish meal exports from India has ranged from 30-60% in volume terms. It is to be noted that the share of Mukka Proteins Limited varies acutely on a year-on-year basis.
- Between fiscal 2018 to 2022, share of Mukka Proteins limited in fish oil exports from India has ranged from 20-50% in volume terms. It is to be noted that the share of Mukka Proteins Limited varies acutely on a year-on-year basis.
- As per CRISIL estimates, Mukka proteins limited with total operating revenue of ` 6.9 billion, has a market share of 45-50% in the fish meal and fish oil industry for fiscal 2022 which is estimated to be around ` .13-17 billion for the corresponding period.
- In terms of operating revenues, among the players compared above Mukka Proteins limited is the largest player with operating revenue of ` 6.9 billion for fiscal 2022. TJ Marine Products Private Limited is the second largest player with revenue of ` 2.2 billion for fiscal 2022. Similar data on operating revenue is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered.
- Operating revenue for Mukka Proteins limited has grown at a faster pace when compared to its peers mentioned above at a CAGR of ~19% from fiscal 2019 to 2022. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered.
- Net profit for Mukka Proteins limited has degrown at CAGR of ~9% from fiscal 2019 to 2022. Meanwhile, TJ Marine Products Pvt Ltd grew at the fastest pace, at ~29% CAGR, among the peers mentioned above. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered
- In terms of profitability, Arbee Aquatic Proteins Pvt Ltd. ranks higher among the players listed above, with net profit margin of ~4% for fiscal 2022. It is followed by Mukka Proteins limited and TJ Marine Products Private Limited. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered
- As per CRISIL estimates and MPEDA database, Mukka Proteins Limited (at consolidated level) occupies a share of 8-9% in the overall fish meal and fish oil capacity in India. The low share in capacity can be attributed to non-operation of few units and limited utilization rates of plants in fish meal and fish oil industry, as CRISIL has considered capacities registered with MPEDA for fish meal and fish oil industry.
- It is vital to note that, unavailability of raw materials i.e, fish species required to produce fish meal and fish oil acts as the major constraints in the fish meal and fish oil industry rather the production capacities available.

Addendum I to the report “Assessment of the fish meal and fish oil processing industry in India”

The following section is an addendum I to the report, ‘Assessment of the fish meal and fish oil processing industry in India’ dated March 2023 (Macro-economic update – May 2023) . CRISIL MI&A has provided this addendum to sections which are as below. Rest of the original report remain unchanged.

5. Macroeconomic assessment

5.1. India’s macroeconomic assessment

GDP grew at a 5.7% CAGR between fiscals 2012 and 2023

India's GDP logged a compound annual growth rate (CAGR) of 5.7% over the past 11 years to Rs 160 trillion in fiscal 2023 from Rs 87 trillion in fiscal 2012.

In fiscal 2022, India recovered from pandemic-related stress following the resumption of economic activity and easing of restrictions, although geopolitical pressures in the last quarter resulted in higher inflation. However, resumption of economic activity and healthy trade flows led to robust GDP growth of 9.1% in fiscal 2022 after declining 5.8% in fiscal 2021. In FY23, the GDP rose 7.2% on strong growth momentum propelled by domestic demand from investment and private consumption through the year.

Note: PE: provisional estimates; RE: revised estimates

Source: Provisional estimates of national income 2022-23, Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation (MoSPI), CRISIL MI&A Research

GDP grew at a robust rate of 7.2% in fiscal 2023

While the Indian economic recovery continues to gather pace after the pandemic, there are several risks. Global growth is projected to slow as central banks in major economies withdraw easy monetary policies to tackle high inflation, leading to lower demand for Indian exports. Together with high commodity prices, especially oil, this may lead to a trade shock for the country. High commodity prices, along with depreciating rupee, indicate higher imported inflation.

Data for the second and third quarters of fiscal 2023 reflect how the global slowdown had begun to spill over into the Indian economy. The first three quarter of fiscal 2023 saw a decline in the contribution of net exports to GDP growth, but the fourth quarter saw a recovery and positive growth. S&P Global expects US GDP to slow to 0.7% in CY2023 from 2.1% in CY2022 and eurozone GDP to decline to 0.3% from 3.5%. Major developed economies are expected to fall into a shallow recession in CY2023. S&P Global expects US GDP growth to swerve from 1.8% in CY2022 to negative 0.1% in CY2023, and European Union GDP growth to plunge from 3.3% to 0%. This will weaken the export prospects for India, thereby weighing on domestic industrial activity but strong domestic consumption will sustain growth in a reasonable range.

CRISIL forecasts India's GDP to grow 6.0% in FY24

After the robust growth in FY2023, a slowdown seems inevitable in FY2024, driven by rising borrowing costs and global slowdown. Rate hikes are getting transmitted to broader lending rates with a lag and expected to peak in FY2024, hitting both global and domestic demand. S&P Global expects GDP growth for the United States and euro zone to slow in 2023. As these economies account for 33% of India's goods exports, the country is likely to see slower growth. Overall, real GDP of India is expected to grow 6.0% in FY2024 compared with 7.2% in FY2023.

While outlook for the external environment seems grim, India is positioned better with lower inflation rates and higher government capex. Government capex is expected to offer key support to the investment cycle this year.

Private sector capex is also showing signs of a pick-up, because of the rising capacity utilisation. However, it will take time for the pick-up to be broad-based and for the segment to take the baton from the government. Overall, we expect India’s real GDP to grow 6% this fiscal, compared with 7.2% in fiscal 2023.

PFCE to maintain dominant share in India’s GDP

Private final consumption expenditure (PFCE) at constant prices clocked a 6% CAGR between fiscals 2012 and 2023, maintaining its dominant share ever in the GDP pie at 58.5%, or ~Rs 93,587 billion in fiscal 2023, registering 7.5% y-o-y growth. Factors contributing to growth included good monsoons, wage revisions due to the implementation of the Seventh Central Pay Commission’s recommendations, benign interest rates, and low inflation.

India has seen robust growth in per capita income in recent times

India's per capita income, a broad indicator of living standards, rose from Rs 63,462 in fiscal 2012 to Rs 98,374 in fiscal 2023, at a 4.1% CAGR. Per capita income recovered 7.6% and 6.3% in fiscal 2023 and 2022, respectively, after declining 8.7% in fiscal 2021. Growth was led by better job opportunities, propped up by overall GDP growth. Moreover, population growth remained stable at ~1% CAGR.

Review of CPI Inflation in India

Inflation based on the consumer price index (CPI) dropped a mild 15 basis points (bps) to 4.87% in October from 5.02% in September 2023, led by a broad-based decline in core and fuel inflation.

Food inflation remains steady, as the underlying components show mixed trends with categories like vegetables, cereals, milk have eased during the period while categories like fruits, pulses and sugar have seen a uptick in inflation. Furthermore, fuel inflation has turned mildly negative with declining of inflation across categories. This coupled with easing of core inflation supported by inflation in categories such as education, housing, personal care and effects, transportation and communication have aided the over inflation to come down during the October period when compared to previous month.

However, CRISIL MI&A expected the Reserve Bank of India (RBI) to remain vigilant, as the headline inflation remains above the Monetary Policy Committee’s (MPC) 4% target and risks to food and fuel inflation persist.

CPI in India

Source: MoSPI, CRISIL MI&A Research

CPI inflation to average 5.5% in fiscal 2024

Easing input cost pressures on manufacturers and moderating domestic demand are expected to ease core inflation. That said, several risks to the forecast remain. Tight global food supplies threaten food inflation. So does the flare up in onion prices which continued in October. For the December quarter, CRISIL MI&A expects food inflation to soften, because of the government intervention and as the kharif harvest enters the market. Oil prices remain an unknown and could potentially play a spoilsport if the Middle East conflict escalates. An adverse index base (inflation had seen a drop in the year-ago period) will somewhat restrict the downside in inflation for two months. We expect the Reserve Bank of India (RBI) to remain vigilant, as the headline inflation remains above the Monetary Policy Committee’s (MPC) 4% target and risks to food and fuel inflation persist. Our base case for this fiscal is an average inflation of 5.5% and the MPC maintaining its policy rate and stance.

Government providing support for the fisheries sector in India

In recent times, Indian government is providing support to fisheries sector in India through various schemes mentioned below, contributing to India’s efforts towards enhancing its presence in global sea food industry. This in turn would also aid the growth for Indian fish oil and fish meal industry.

Pradhan Mantri Matsya Sampada Yojana (PMMSY)

As a part of the Aatmanirbhar Bharat Abhiyan, the government approved PMMSY in fiscal 2021 to enhance the country’s Blue Revolution by focusing on sustainable and responsible development of the fisheries sector. The major objectives and aims of this scheme include:

- Harnessing of fisheries potential in a sustainable, responsible, inclusive, and equitable manner
- Enhancing fish production and productivity through expansion, intensification, diversification, and productive utilisation of land and water
- Modernising and strengthening of the value chain - post-harvest management and quality improvement
- Doubling fishers and fish farmers' incomes and generation of employment
- Enhancing contribution to agriculture GVA and exports
- Social, physical and economic security for fishers and fish farmers
- Robust fisheries management and regulatory framework

In line with the above-mentioned aims and objectives, the scheme has envisaged achieving the following targets during the period catering to various segments such as productivity, employment generation and value addition in the fisheries sector.

Fish production and productivity	Economic value addition	Enhancing income and employment generation
<ul style="list-style-type: none"> • Increasing fish production to 22 million metric tonne by fiscal 2025 • Improving aquaculture productivity to 5 tonne per hectare • Increasing fish consumption in the country to 12kg per capita 	<ul style="list-style-type: none"> • Increasing contribution of the fisheries sector GVA in agriculture GVA to 9% by fiscal 2025 • Increasing earnings from exports to Rs 1 trillion by fiscal 2025 • Reduction in post-harvest losses from 20-25% to 10% • Encouraging private investments and 	<ul style="list-style-type: none"> • Doubling the incomes of fishers and fish farmers • Generation of employment opportunities directly and indirectly along the value chain

This scheme, with an overall investment of Rs. 2,005 billion, will be implemented over five years from fiscal 2021 to fiscal 2025 as an umbrella scheme with two components:

- Central sector scheme, wherein the project cost is borne by the central government
- Centrally sponsored scheme, wherein the cost will be shared between states and central government and all the sub-components/ activities will be carried forward by state/ Union territories

Fisheries and Aquaculture Infrastructure Development Fund (FIDF)

The FIDF has been envisaged under Union Budget 2018. With a fund size of Rs. 75.2 billion, this scheme tries to improve the fisheries infrastructure, both marine and inland.

The National Fisheries Development Board (NFDB), Hyderabad, acts as the nodal implementing agency. FIDF provides concessional finance to the eligible entities (EEs), which include state governments/Union territories and state entities to develop identified fisheries infrastructure facilities. This concessional finance is provided through nodal loaning entities (NLEs) such as:

- National Bank for Agriculture and Rural Development (NABARD),
- National Cooperatives Development Corporation (NCDC) and
- All scheduled banks

Cumulatively, 31st December 2022, NFDB received 236 proposals from 25 states and UTs for the total project cost of Rs. 78.8 billion. NFDB recommended 121 proposals out of which 110 proposals were recommended by CAMC and in-principal approval was accorded by Department of Fisheries (DoF) for the project cost of Rs. 52.5 billion.

Activity-wise key proposals received

S no	Name of activity	Proposals	Project cost (Rs. billion)
1	Establishment of fishing harbours	36	52.6
2	Development of aquaculture	33	1.1
3	Any other innovative projects/activities designed to enhance fish production/productivity/value	30	5.8
4	Modernisation of state fish seed farms	30	1.4
5	Establishment of fish landing centres	26	2.0
6	Fish processing units	14	1.8
7	Fish transport facilities (marine and inland fisheries sector)	10	150.0
8	Establishment of cage culture in reservoir	9	2.3
9	Introduction of deep sea fishing vessels	6	0.1
10	Construction of Ice Plants (both Marine and Inland Fisheries Sectors)	8	0.2

Blue Revolution

The Blue Revolution, which focuses mainly on increasing fisheries production and productivity from aquaculture and fisheries resources, both inland and marine, was launched in December 2015 as a centrally sponsored scheme. The scheme was launched for 5 years from fiscal 2016 to 2020 with an outlay of Rs. 300 billion with the following objectives:

- Increase overall fish production in a responsible and sustainable manner for economic prosperity
- Modernise fisheries with special focus on new technologies
- Ensure food and nutritional security
- Generate employment and export earnings
- Ensure inclusive development and empower fishers and aquaculture farmers

Major targets achieved by the scheme include

Fish production

- Increase in fish production from 10.26 million MT in fiscal 2015 to 13.75 million MT in fiscal 2019

Productivity

- Enhancement in productivity from 2.3 tonne per hectare to 3.3 tonne per hectare

Exports

- Exports increased from Rs 334.4 billion to Rs 465.9 billion in fiscal 2019

Kisan Credit Card (KCC)

During the budget announcement for fiscal 2019, the government extended the Kisan Credit Card (KCC) facility to fish and animal husbandry farmers in India. This scheme was introduced to meet the working capital requirement of fish farmers. The major aim of this scheme is to provide adequate and timely credit to farmers. KCC facilities can be availed by fishers, fish farmers, self-help groups, women groups, and joint liability groups. Currently, a credit limit of Rs. 0.3 million is provided to already existing KCC farmers while a credit limit of Rs. 0.2 million is provided for new KCC farmers for activities related to fisheries and animal husbandry.

For fisheries, the working capital costs that are included under KCC include recurring costs such as:

- Seed
- Feed
- Organic and inorganic fertilisers
- Lime/ other soil conditioners
- Harvesting and marketing charges
- Fuel/electricity charges
- Labour
- Lease rent (if leased water area)

For capture fisheries, these working capital costs may include:

- Fuel charges
- Ice
- Labouring charges
- Mooring/ landing charges, etc.

Till March 2023, 130,931 KCCs had been issued to fishers and fish farmers.

6. Overview of fish meal and fish oil industry in India

6.1. Value chain of the industry

The fish meal and fish oil industry relies on fishing in oceanic waters for procurement of raw materials. Typically, the larger raw material vendors (fishermen) use mechanised and motorised boats while the smaller fishermen use non-motorised boats, along with gears such as seines, trawls, gillnets and bagnet for fishing. According to Central Marine Fisheries Research Institute (CMFRI) data, mechanised and motorised boats accounted for ~98.8% of the total marine landings while non-motorised boats comprised the rest 1.8%, as of 2021.

In India, the peak season for fishing is August-December and the slack season is January-May. Fishing is not allowed in Indian waters during June-July, as it is the monsoon season. Fish meal and fish oil production follows the same season as fishing. The output is stocked to cater to the demand of domestic and exports market.

Availability of raw materials, a key monitorable

In the entire process of production of fish meal and fish oil, availability of raw material is a key monitorable. The industry procures raw material from fishing in the oceans, and thus, is dependent on fish landings in the Indian coastal waters. Large players have diversified their procurement across the Indian coastline so as to minimise their dependence on one particular coastal landing and fish catchments.

Fish landings is an important factor that determines the total quantity available for fishing and further use. Any drop in the fish landings hugely affects the entire sea-food and fish processing industry, which is dependent on wild catch. Also, the quality of fish in terms of nutrient content and growth of adult population determines the yield and output quality of fish meal and fish oil. Thus, even the prices of the end product are dependent on the quality of fish caught. The dependency of multiple stakeholders (fishers, fish processors, consumers, industrialists and exporters) on fish landings makes it necessary to initiate appropriate management measures for judicious harvesting of the resource.

According to the Indian Council of Agricultural Research (ICAR)-CMFRI report on Indian oil sardine (IOS), availability of the fish in the ocean water is affected by factors that could be classified as: i) environmental, such as El Niño and erratic rainfall; ii) biological, such as spawning failure, competition from other species of fish, and lack of food; and iii) anthropogenic, such as overfishing. A living natural resource such as fish has limitations in replenishment and is severely affected by climatic and environmental changes. Any change in climatic conditions affects the growth and breeding of fish and thus impacts the adult population during a particular season in the coastal waters. Overfishing and fishing of juvenile species also affect the fish population over the long run.

IOS is a key raw material used by Indian fish meal and fish oil industry. The landings of IOS have declines drastically from 0.5 Mn tonnes in 2014 to below 0.15 Mn tonnes in 2019 and further down to 0.08 Mn tonnes in 2021. However, in 2022 the landings of IOS have seen a drastic increase from the levels of 2021 – reaching to the levels of 0.3 Mn - which is further reflected in exports during the period.

According to CMFRI, IOS is known for its capricious nature, with seasonal, annual, inter-annual and decadal peaks and slumps in availability. The resilience of a fish population to exploitation is largely dependent on the

reproductive traits. Thus, while IOS species is volatile in availability, is also known to replenish fast after a decline, on account of its natural characteristics of rapid growth, early maturity, high fertility, and protracted spawning period. According to the ICAR-CMFRI report, the species have medium to high resilience due to which, along the southwest coast of India, the species is expected to revive in a span of 2-3 years post any decline, as supported by historical fishery trends. Decline in fish landings due to unsustainable fishing and changing climatic conditions is a key risk factor for the fish meal and fish oil industry.

Aquaculture feed represents the dominant usage of fish meal and fish oil at 88% and 74%, respectively, for calendar year 2022

According to the International Fish meal and Fish Oil Organisation (IFFO) 2023 report and CRISIL MI&A Research estimates, aquaculture feed represents the dominant use of fish meal globally at ~88% for calendar year 2022. Fish meal is transported from the factory to the compound animal feed manufacturers, where it is mixed with other ingredients to make ideal aquaculture or animal feed. Some of the key players operating in the Indian aquaculture feed manufacturing industry include Avanti Feeds, Godrej Agrovet, Anmol Feeds, CP Foods, Devi Sea Foods, and Grobest Foods.

Fish meal is also used to fortify feed for animals and poultry. According to industry interactions, incorporating less than 5-10% in the feed for farm animals achieves positive effects. Fish meal has served as a protein source for livestock for decades because in addition to the beneficial protein and amino acid composition, it has high

digestibility of over 90%.

Fish meal and fish oil contribute indirectly to human consumption as they are used as feed in aquaculture and livestock raising. Application in aquaculture which has been recording high growth rates worldwide due to the limited catch of wild fish, is especially important for fish meal and fish oil as it forms an important diet constituent.

Fish oil is largely used for aquaculture feed to maintain omega-3 diet nutrient

As per the IFFO 2022 report and CRISIL MI&A Research estimates, aquaculture feed sector dominates fish oil consumption with ~74% share worldwide, as of 2022. Aquaculture feed requires fish oil as specific species such as oily or carnivorous fish (salmonids and shrimps), chiefly consumed by humans, need to be fed with feed containing fish oil in order to ensure natural diet and achieve the natural nutrient make-up of fish.

6.2. Indian fish meal and fish oil industry size

In India, Karnataka, Kerala, Maharashtra, Gujarat and Tamil Nadu are home to key fish meal plants. Karnataka has the maximum number of plants, mostly in and around Mangaluru.

Indian fish meal and fish oil industry is estimated to reach Rs. 16-20 billion by fiscal 2026

CRISIL MI&A Research estimates, the Indian fish meal and fish oil industry de-grew at a CAGR of (4)-(5)% from Rs. 18.0 – 24.0 billion in fiscal 2018 to Rs. 13.0 – 17.0 billion in fiscal 2022. While in volume terms, it is estimated to have de-grown at a CAGR of (9)-(13)% from 180,000 – 220,000 tonnes in fiscal 2018 to 100,000-140,000 tonnes in fiscal 2022. This decline can be attributed to the decrease in fish landing (specifically of oil sardine fish) over the years due to change in climatic and natural conditions. In addition, as per our industry interactions, implementation of GST on fish oil (at 12%) and fish meal (at 5%), since 2019, has led to increase in prices, causing end consumers to favour cheaper imports as compared to domestic produce.

However, in fiscal 2023, the industry is estimated to see a huge jump in value as well as volume. It is likely to see an on-year growth of 130-170% in value terms and 90-130% in volume terms. This sudden rise can be majorly attributed to the increase in oil sardine landings (major raw material for fish meal and fish oil) coupled with increased traction in exports led by production shortage in Peru region and higher exchange rates in the global markets.

The fish meal and fish oil industry is seasonal in nature as the production during a period is majorly dependent upon the fish landings (fish availability) during that period. The landings of Indian oil sardines - the major raw material used in production of fish meal and fish oil - has seen a fluctuation over the years. These fluctuations in landings that bring in seasonality in the industry is majorly influenced by various factors which include environmental factors such as sea surface temperature, salinity, rainfall, upwelling, food availability; environmental events such as El Nino with a reduced rainfall and high temperature along with excessive fishing on the stock beyond the maximum sustainable yield, and excessive capture of juveniles.

In addition, the industry is broadly divided into established players or large players and seasonal players or small players. In case of a period where there are lower landings the established players get access to larger share of landings while the seasonal players get limited access to the landings. However, during the period of high landings both seasonal players and established players get access to fish (raw material) on account of surplus availability.

During fiscal 2023, when the Indian oil sardine landings have seen a sudden rise, both established and seasonal players got access to raw material and contributed to the supply / production. Prior to fiscal 2023, where the industry has seen lower landings, majorly established players contributed to the supply / production while small players operated at lower or zero utilization levels contributing negligibly to the supply / production.

Also, as per industry interactions and from past data on landings it is to be understood that volume of fish landings tend to exhibit moderation post a high landing period. Further, over long term, CRISIL also estimates the landings to moderate because of weather conditions such as El Nino and also due excessive catch of juvenile fish. With such scenario, the small players seize to operate or operate at lower utilization levels causing the overall industry capacities to be lower over the longer term. Hence, going forward, CRISIL estimates the overall industry volume to grow at a CAGR of 3-7% from the base of fiscal 2022 reaching an overall volume of 130,000 – 170,000 tonnes by fiscal 2026.

In value terms the industry is expected to grow at of 5-9% between fiscal 2022 and 2026 reaching Rs 16-20 billion. In fiscal 2023, the value growth is supported by both price and volume. The production shortage in Peru has supported the growth in exports leading to rise in prices for the fiscal which CRISIL expects to see a moderate growth over the longer term.

It is to be noted that, this future growth is majorly dependent on the improvement of fish landings. Alternatively, if the fish landings tend to decline further from the levels of 2022, CRISIL expects the industry remain stagnant or show moderate signs of decline during the aforementioned period when compared to fiscal 2022.

According to IFFO, aquaculture growth is not limited by availability of fish meal, though it remains an essential feed constituent which is not easy to substitute. Growth of the aquaculture industry will thus provide an opportunity for fish meal and fish oil players.

Though there exists an adequate demand for fish meal and fish oil in India driven by the aquaculture industry, the production of fish meal and oil depends on the natural availability of fishes and prevailing climatic conditions during the period in turn creating a supply constraint. In addition to that, the fish availability also depends on the reduction in unsustainable fishing practices wherein juvenile fishes are being caught and processed resulting in

overexploitation of resources leading to reduction in fish stock.

6.3. India's fish meal and fish oil (FMFO) export trend

The Indian fish meal and fish oil industry caters to both export and domestic markets. It is marked by seasonality. According to industry sources, the peak season for exports is from August to December/January. Export demand is dependent on production from the top 10 producing countries and inventory levels.

Post sluggish growth between fiscal 2018-22, fish meal exports saw a rise in fiscal 2023 supported higher landings

In value terms, fish meal exports increased at ~5.6% CAGR from Rs. 5,272.3 million in fiscal 2018 to Rs. 6,555.2 million in fiscal 2022. Fish meal exports have stagnated with fiscal 2022 volumes at ~70 thousand tonne, registering mild growth of 0.1% from fiscal 2018. Growth has not been uniform across years, as exports are dependent on factors such as: i) the catch during a year, which is affected by climate changes, and ii) demand from the domestic compound feed industry.

In fiscal 2023, the fish meal exports saw huge jump reaching Rs. 26,947.2 million. This rise in exports of fish meal during fiscal 2023 can be majorly attributed to the rise in raw material resources – oil sardine landings,

coupled with shortage of fish meal production in Peru (a leading manufacturing country). This, coupled with depreciation of India rupee against the US dollar, has provided a further push for exports during the fiscal 2023 period.

Led by rise in fish landings fish oil exports saw a huge jump in fiscal 2023

Fish oil exports in value terms declined from Rs. 2,054.3 million in fiscal 2018 to Rs. 161.2 million in fiscal 2022 at a CAGR of ~47%. The volume of fish oil exports also saw a dip at a similar rate as value. In volume terms, fish oil exports dropped from 24.3 thousand tonne in fiscal 2018 to 1.1 thousand tonne in fiscal 2022 at a CAGR of 54%. Growth in fish oil exports was affected by species and quality of fish landings.

Source: DGCI&S, CRISIL MI&A Research

As mentioned earlier in the case of fish meal, exports of fish oil also saw a rise during fiscal 2023 due to higher landings of oil sardines, production shortage in the Peru region and a higher exchange rate scenario in the global markets.

In value terms, during fiscal 2023, China, Vietnam, China and Japan became top 4 exporting nations for India in terms of fish meal and fish oil.

7. Overview of the global animal feed industry

7.1. Demand from aquaculture farms to boost fish feed and allied industries

The anticipated growth of the aquaculture industry is expected to drive growth of the fish feed and allied industries, which can be seen from the growth rate in exports.

China, Chile, Denmark, Iceland, India, Japan, Norway, Peru, Thailand, the US and Vietnam are the key producers of fish meal and fish oil. China utilises fish meal primarily for the domestic industry. In fact, China is a net importer of fish meal, largely for its aquaculture farm and feed industries.

As per IFFO data, Peru is the leader in fish meal and fish oil production, as it has the largest and superior-quality oily fish along its coast. Due to low domestic consumption, the produced fish meal and fish oil are sold in global markets.

In the European Union, Norway and Denmark are the major producers of fish meal and fish oil. Norway is the largest consumer of fish meal and fish oil globally, due to its aquaculture production.

As per industry interactions, India is not a major exporter of fish meal and fish oil when compared with the top 10 countries. On average, the Indian fish meal and fish oil grade contains lower protein than the Peruvian grade, owing to limited availability of high-quality oily fish along its shores. The country’s main export markets for fish meal and fish oil are Australia, Bangladesh, Japan, Malaysia, Saudi Arabia, Taiwan, Thailand and Vietnam.

8. Competitive assessment of key players

Data in this section is obtained from publicly available sources, including annual reports of players, regulatory filings, and/or company websites. The financials used in the competitive section are re-classified by CRISIL based on the annual report and financial filings by the players.

CRISIL has considered the following companies as competitors for Mukka Proteins Limited. These lists of companies either operate in same line of business or offer same product portfolio as that of Mukka Proteins Limited and available in public domain. Please note the peers set considered below is an indicative list and not an exhaustive list of players present in the fish meal and fish oil industry.

Key observations

- Mukka proteins limited through its promoters has presence in the fish meal and fish oil industry since 1975. Among the other players listed above, Arbee Aquatic Proteins Pvt Ltd has presence in the fish meal and fish oil industry since 1978.
- Over the past 5 years, fiscal 2018 to 2022, share of Mukka Proteins limited in fish meal exports from India

has ranged from 30-60% in volume terms and in fiscal 2023 the share of Mukka Proteins Ltd stand at 18%. It is to be noted that the share of Mukka Proteins Limited varies acutely on a year-on-year basis. During the fiscal 2023, the export of fish meal (in volume terms) for Mukka Proteins Ltd has seen a rise, however, company's share in the industry during the same period saw a dip compared to fiscal 2022. This can be attributed to substantial increase in high fish landings during the fiscal year leading to small or seasonal players re-entering the market coupled with production shortage in Peru region providing for an export opportunity for the Indian market.

- Between fiscal 2018 to 2022, share of Mukka Proteins limited in fish oil exports from India has ranged from 20-50% in volume terms and in fiscal 2023 the share of Mukka Proteins Ltd stand at 11%. During the fiscal 2023, the export of fish oil (in volume terms) for Mukka Proteins Ltd has seen a rise, however, company's share in the industry during the same period saw a dip when compared to previous fiscals as mentioned above. Further, it is to be noted that the share of players in the industry varies acutely on a year-on-year basis depending upon various factors which include overall fish landings during the period, quality of fish caught, price for fish oil in the export market, demand for fish oil in the export market and demand catered by other major exporting nations such as Peru and China.
- As per CRISIL estimates, Mukka proteins limited with total operating revenue of Rs. 6.9 billion, has a market share of 45-50% in the fish meal and fish oil industry for fiscal 2022 which is estimated to be around Rs.13-17 billion for the corresponding period.
- As per CRISIL estimates, Mukka proteins limited with total operating revenue of Rs.10.6 billion, has a market share of 25-30% in the fish meal and fish oil industry for fiscal 2023 which is estimated to be around Rs. 32-41 billion for the corresponding period.
- In terms of operating revenues, among the players compared above Mukka Proteins limited is the largest player with operating revenue of ~Rs. 10.7 billion for fiscal 2023. TJ Marine Products Private Limited is the second largest player with revenue of ~Rs. 4.5 billion for fiscal 2023. Similar data on operating revenue is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered.
- Operating revenue for Mukka Proteins limited has grown at a CAGR of ~24% from fiscal 2020 to 2023. Operating revenue of Arbee Aquatic Proteins Pvt Ltd has seen a faster pace of growth at a CAGR of ~40% during the aforementioned period. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered.
- Net profit for Mukka Proteins limited has grown at CAGR of 45.4% from fiscal 2020 to 2023. Meanwhile, TJ Marine Products Pvt Ltd grew at the fastest pace, at ~134% CAGR, among the peers mentioned above. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered
- In terms of profitability, Arbee Aquatic Proteins Pvt ltd. ranks higher among the players listed above, with net profit margin of ~14% for fiscal 2023. It is followed by Mukka Proteins limited and TJ Marine Products Private Limited. Similar data is not available for Akash Fishmeal and Fish oil Private Limited and Omega Fishmeal and oil Private Limited during the period considered
- As per CRISIL estimates and MPEDA database, Mukka Proteins Limited (at consolidated level) occupies a share of 8-9% in the overall fish meal and fish oil capacity in India. The low share in capacity can be attributed to non-operation of few units and limited utilization rates of plants in fish meal and fish oil industry, as CRISIL has considered capacities registered with MPEDA for fish meal and fish oil industry.
- It is vital to note that, unavailability of raw materials i.e., fish species required to produce fish meal and fish oil acts as the major constraints in the fish meal and fish oil industry rather the production capacities available.

OVERVIEW

Consistently being awarded by MPEDA, during the last 7 (seven) years for our export performance, *inter alia*, including as an outstanding performance in export of fish meal, fish oil and allied products for Fiscal 2021, Fiscal 2020 and Fiscal 2019 (Source: https://mpeda.gov.in/?page_id=557), we believe that we are one of the key players of the Fish Protein industry in India. In Fiscal 2023, of the total estimated revenue of the Indian fish meal and fish oil industry of ₹32,000 million to ₹41,000 million, the revenue of our Company was ₹10,663.98 million thus, being 25%-30% contributor to the estimated revenue of the Indian fish meal and fish oil industry for the corresponding period (Source: CRISIL Report). Our Company is also amongst the first few Indian companies to have commercialised insect meal and insect oil (collectively “**Insect Protein**”) as an ingredient for aqua feed, animal feed and pet food. Fish Protein and Insect Protein are hereinafter, collectively, referred to as “**Animal Protein**”.

As a manufacturer of Fish Protein products, we manufacture and supply fish meal, fish oil and fish soluble paste which is an essential ingredient in the manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food). Further, fish oil also finds its application in pharmaceutical products (additionally, Omega-3 pills and related products derived from fish oil are gaining importance as high nutrient and healthy dietary supplements), soap manufacturing, leather tanneries & paint industries. We sell our products domestically and also export them to over 10 countries, including Bahrain, Bangladesh, Chile, Indonesia, Malaysia, Myanmar, Philippines, China, Saudi Arabia, South Korea, Oman, Taiwan and Vietnam.

Our Company was originally formed as a partnership firm constituted under the Indian Partnership Act, 1932 under the name “**Mukka Sea Foods Industries**” pursuant to a deed of partnership dated March 13, 2003. “**Mukka Sea Foods Industries**” was thereafter converted from a partnership firm to a private limited company under Part IX of the Companies Act, 1956, as “**Mukka Sea Food Industries Private Limited**”. For further details, see “**History and Certain Corporate Matters**” on page 284 of this Red Herring Prospectus.

With, cumulative over 5 (five) decades of successful track record of our Promoters in the Fish Protein industry, we believe that our Company is one of the pioneers of the industry. We are also amongst the first few companies to have introduced the steam dried process in India for manufacturing of fish meal. Our Promoter Directors, namely Kalandan Mohammed Haris, Kalandan Mohammad Arif and Kalandan Mohammed Althaf are actively involved in the business and amongst themselves have, in-depth knowledge and vast experience in the marine sector, Fish Protein, aqua feed and alternative protein industry. Our Promoter Directors share various functional responsibilities amongst themselves for effective management and are well supported by qualified and experienced professionals. As on September 30, 2023, our total work force is 414 (four hundred and fourteen) which includes skilled and unskilled labour, administrative staff, management and operations team.

As on the date of this Red Herring Prospectus, we have 6 (six) manufacturing facilities operated by us, out of which 4 (four) manufacturing facilities are located in India and 2 (two) manufacturing facilities, held through our Foreign Subsidiary, namely Ocean Aquatic Proteins LLC is located in Oman. Further, our Company operates 3 (three) blending facilities and 5 (five) storage facilities located in India. All our Facilities are strategically located within the close proximity to the coastline.

A summary of our Facilities is as detailed under:

Mukka Manufacturing Facilities	
Number of facilities	2
Capacity (MTPA)	77,190
Capacity utilisation (MTP)*	10,700
Other Manufacturing Facilities (excludes overseas facilities)	
Number of facilities	6
Capacity (MTPA)	1,51,800
Capacity utilisation (MTP)*	13,830
Third party Manufacturing Facilities	
Number of facilities	8
Job work units	2
Blending Facilities	
Number of facilities	3
Capacity (MTPA)	2,37,600
Capacity utilisation (MTP)*	37,244
Storage Facilities	
Number of facilities	5
Area (Sq. ft.)	186,621

*Capacity utilisation is for the six months period ended September 30, 2023

**Additionally, our Subsidiary, Ocean Aquatic Proteins LLC, Oman operates 2 (two) manufacturing facilities in Oman

Note: Within the 8 third-party manufacturing facilities, 2 units are on job work basis

We maintain our Facilities along the coastline to minimize our dependency on any particular coastal landing sites and fish catchments and thus providing us with fresh, adequate and cost-effective access to our key raw material i.e. pelagic fish, such as sardine, mackerel, anchovy, etc. Our strategically located Facilities also enable us to maintain high product quality and optimize on the transport cost. As on September 30, 2023 our annualised

aggregate manufacturing capacity is 115050 MTPA of fish meal, 16950 MTPA of fish oil and 20340 MTPA of fish soluble paste.

Further, we also source fish meal, fish oil and fish soluble paste as our raw materials from partnership firms, namely Ullal Fish Meal and Oil Company, Mangalore Fish Meal and Oil Company, Progress Frozen and Fish Sterilization, and Pacific Marine Products, where our Company has made substantial capital contribution (collectively “**Partnership Facilities**”) and also from third party manufacturing units. The fish meal, fish oil and fish soluble paste, as raw materials are further processed and blended at our Blending Facilities in order to cater the demand of our customers.

As on September 30, 2023, we have also entered into contractual arrangement with third party manufacturing units, situated at Sasihithlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Taloja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), for supply of fish meal and fish oil. The third-party manufacturing units at Udupi (Karnataka) and Ullal (Karnataka) are on job work basis where the raw fish are supplied by our Company and are converted into fish meal and fish oil. These third-party manufacturing units are close to the source of our key raw material i.e., pelagic fish, thus increasing our presence across the western coastline of India. Our Company continuously seeks to identify new manufacturing units, on job work basis or similar arrangements, to achieve operational efficiency and also to have access to our key raw material, i.e., pelagic fish.

Given the critical end use application of our products, the key factors in our business are government and customers approved manufacturing facility, quality of the products and the ability to meet client specifications. We have, in the last few years, been successful in adding new customers. We believe that we share a good client relationship with our customers and we receive majority of our business from long-term customers. For instance, our top 2 (two) customers as on September 30, 2023 are associated with us for over 5 (five) years and contributes 42.17% of our revenue from operations.

All of our Manufacturing Facilities have in-house bio-chemistry labs and additionally, our Mukka Manufacturing Facility I has micro-biological lab. Our bio-chemistry labs and micro-biological lab are equipped with necessary instruments for testing the quality of our raw materials and finished products as per EIA parameters and also parameters specified by our customers. As on September 30, 2023, we employ 25 (twenty-five) lab technicians, of which 9 (nine) lab technicians employed by us in India are EIA approved. Our in-house bio-chemistry and micro-biological labs also facilitates us to test the finished products to cater our customers and meet the regulatory specifications.

Our key raw material is pelagic fish (raw fish), which we source from the local fish catchers. Pelagic fish and fish remains are used to manufacture fish meal, fish oil and fish soluble paste. Further, we also procure fish meal, fish oil, insect meal and insect oil as our raw material, which we further blend to our final product and as per customer specification. We procure our raw material based on quality, pricing and market availability. Our suppliers of raw materials include local fish catchers, fish processing units and fish meal suppliers. Our Company also import fish meal from overseas suppliers, including our Foreign Subsidiary, namely Ocean Aquatic Proteins LLC. The cost of goods sold (which is aggregate of cost of materials consumed and changes in inventories of finished goods) accounted for 80.52% and 80.60%, 82.38% and 85.08% of our revenue from operations for the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively. Import of raw material by our Company accounted for 1.13% and 0.83%, 3.74%, and 20.79% of the revenue from operations for the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively.

We are ISO 9001:2015, ISO 22000:2018 certified by NQA, UKAS Management Systems. We have received EU certification and also hold license from AQSIQ (Administration of Quality Supervision, Inspection and Quarantine), China, which we believe gives us significant advantage to add and maintain our key customers. Our Mukka Manufacturing Facility I hold international certifications such as GMP+, Halal, HACCP, EIA, MPEDA and is also a member of IFFO. Further, the Oman Manufacturing Facility I, Oman is ISO 9001:2015, ISO 22000:2018 certified by Times NQA, UKAS Management Systems and also GMP+.

Subsidiaries and Associates

Our Subsidiaries and Associates also contribute to our manufacturing capacity and revenues. The details of our Subsidiaries and Associates as on the date of this Red Herring Prospectus are as under:

Insect Protein

Insects contribute to a circular economy by upcycling of low-value agri-food materials into high-value protein and other applications. Insect-based nutrition is emerging as a whole new category in food and feed systems. It

has the potential to bring new value-added propositions based on its nutritional, functional, and environmental benefits. (Source: RaboResearch Report)

Our Company entered the business of manufacturing and selling of insect meal and insect oil (“**Insect Protein**”) through EPPL, our Associate, wherein our Company holds 50% of the total paid-up equity share capital and the balance 50% of the total paid-up equity share capital is held by a third-party entity, namely Holocene Ecosolutions Private Limited. EPPL was incorporated on March 8, 2021, as a wholly owned Subsidiary of our Company. Subsequently, EPPL became Associate of our Company pursuant to further issue of equity shares to Holocene Ecosolutions Private Limited, making Holocene Ecosolutions Private Limited a 50% shareholder in EPPL.

EPPL, is engaged in the business of manufacturing of Insect Proteins by processing the larvae of Black Soldier Fly (“**BSF Larvae**”) that is hatched, fed and harvested at the Municipal Solid Waste Management (“**MSW**”) sites and on low-value agri-food material. EPPL has entered into a memorandum of understanding with Mangaluru City Corporation on August 9, 2021 to convert the organic solid waste at the MSW site at Pachanady in the city of Mangaluru and was subsequently awarded a tender vide letter of acceptance dated July 17, 2023 as amended on November 30, 2023 for setting up, operation and maintenance of wet waste processing plant by utilising black soldier larvae at solid waste management processing plant – Pachanady for a period of 5 (five) years. However, the same is subject to renewal after the first year on satisfactory performance and a further renewal after every two years.

As of November 30, 2023, of the total 45,045 ton of wet waste and chicken waste (organic solid waste) allocated to EPPL, around 2739 ton of BSF Larvae was harvested and the organic solid waste was converted into 3495 ton of organic compost. Further, upto September 30, 2023, EPPL harvested 2407 ton of BSF Larvae which was processed into 505 ton of insect meals and 217 ton of insect oil.

Market Opportunity & Investment rationale

Under the Fish Protein category, our Company manufactures fish meal, fish oil and fish soluble paste which is an essential ingredient in the manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food). Further, fish oil also finds its application in pharmaceutical products (additionally, Omega-3 pills and related products derived from fish oil are gaining importance as high nutrient and healthy dietary supplements), soap manufacturing, leather tanneries & paint We sell our products in India as well as exports them to over 10 (ten) countries, such as Bahrain, Bangladesh, Chile, Indonesia, Malaysia, Myanmar, Philippines, China, Saudi Arabia, South Korea, Oman, Taiwan and Vietnam.

India fish meal and fish oil industry size:

- CRISIL MI&A Research estimates, the Indian fish meal and fish oil industry de-grew at a CAGR of (4)-(5)% from Rs 18.0 – 24.0 billion in fiscal 2018 to Rs 13.0 – 17.0 billion in fiscal 2022. However, in fiscal 2023, the industry is estimated to see a huge jump in value as well as volume. It is likely to see an on-year growth of 130-170% in value terms and 90-130% in volume terms. This sudden rise can be majorly attributed to the increase in oil sardine landings (major raw material for fish meal and fish oil) coupled with increased

traction in exports led by production shortage in Peru region and higher exchange rates in the global markets (Source: CRISIL Report);

- Going forward, CRISIL estimates the overall industry volume to grow at a CAGR of 3-7% from the base of Fiscal 2022 reaching an overall 130,000-170,000 tonnes by Fiscal 2026. In value terms the industry is expected to grow at of 5-9% between Fiscal 2022 and 2026 reaching Rs. 16-20 billion. In Fiscal 2023, the value growth is supported by both price and volume. (Source: CRISIL Report);
- The United Nations Food and Agriculture Organization (FAO) estimates global food demand to grow 60% by CY 2050. Accordingly, between CY 2010 and CY 2050, production of animal proteins is expected to grow ~1.7% per annum, with poultry projected to rise ~104%, aquaculture by 90% and dairy by 55% (Source: CRISIL Report);
- Share of Indian fish meal and fish oil in global production stands at 2.9% in CY 2021 (Source: CRISIL Report);

Key growth drivers

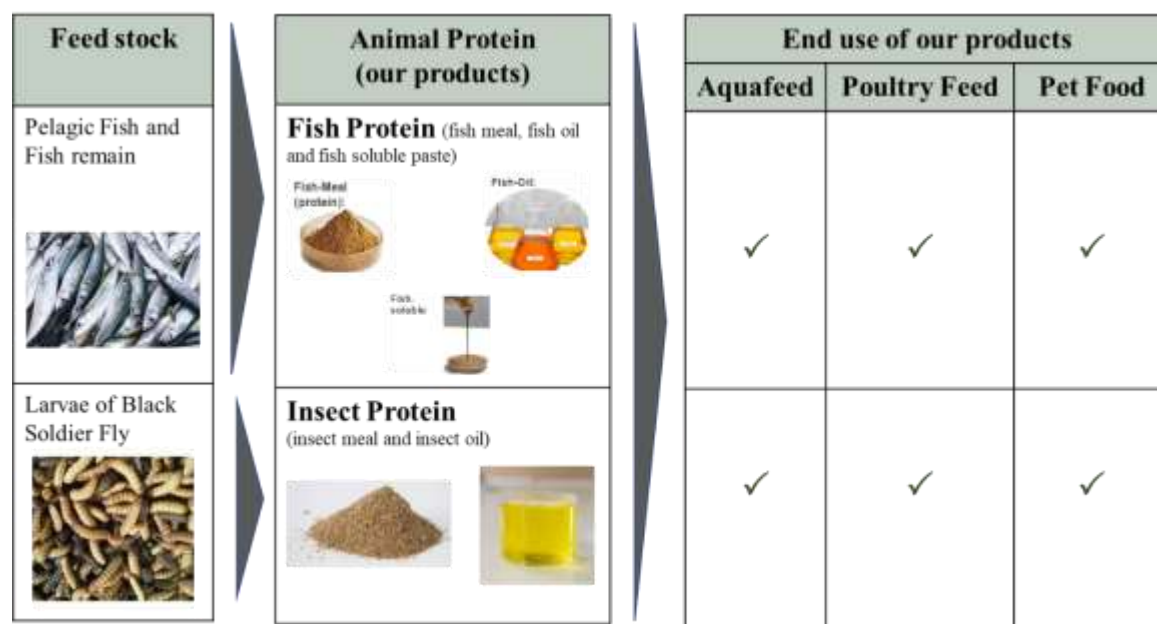

- India is one of the largest global producers of animal feed and the Indian compound animal feed market is growing at a fast clip and expected to record a 3.5-4.0% CAGR, in value terms, between fiscals 2022 and 2026. Fish meal is an essential element of compound feed industry and, thus demand for fish meal is expected to be string going forward. Within the animal feed market, during the same period, aqua feed is expected to grow the fastest at a 9-10% CAGR (value terms) driving higher growth for protein-rich feed such as fish meal and fish oil. (Source: CRISIL Report)
- Government initiatives to support growth of aquaculture and fisheries industry in India (Source: CRISIL Report)
- Increase in demand for nutraceuticals – nutrients plus pharmaceuticals (Source: CRISIL Report)
- Insects can help to build circular food systems as they can upcycle low-value agri-food material, including former foodstuffs, wastes, and residues, into high-value proteins, oils, and other ingredients. The total quantity of Solid waste generated in the country is 160038.9 Tonne Per Day (Source: https://cpcb.nic.in/uploads/MSW/MSW_AnnualReport_2020-21.pdf).
- The demand for Insect Protein, mainly as animal feed and pet food ingredient, could reach 500,000 metric tons globally by 2030 with 150,000 metric tons as a pet food ingredient. (Source: RaboResearch Report)
- By 2030, we estimate a global market potential of up to 200,000 metric tons, or 40% of the insect protein market and representing less than roughly 1% of the global aquafeed market in today's volumes. (Source: RaboResearch Report)

Our Financial and Operation information

Our revenue from operations for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ended September 30, 2023 was ₹11771.22 million, ₹7,705.03 million and ₹6,038.34 million and ₹6060.94 million, respectively. Our profit before tax for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 was ₹659.43 million, ₹359.80 million and ₹154.56 million, respectively, representing a CAGR of 106.56%. Our profit before tax for the six months period ended September 30, 2023 was ₹429.01 million. Our profit after tax for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 was ₹475.25 million, ₹258.19 million and ₹110.10 million, respectively, representing a CAGR of 107.76%. Our profit after tax for the six months period ended September 30, 2023 was ₹329.81 million.

Product description

The chart below depicts our product categories

Fish Meal

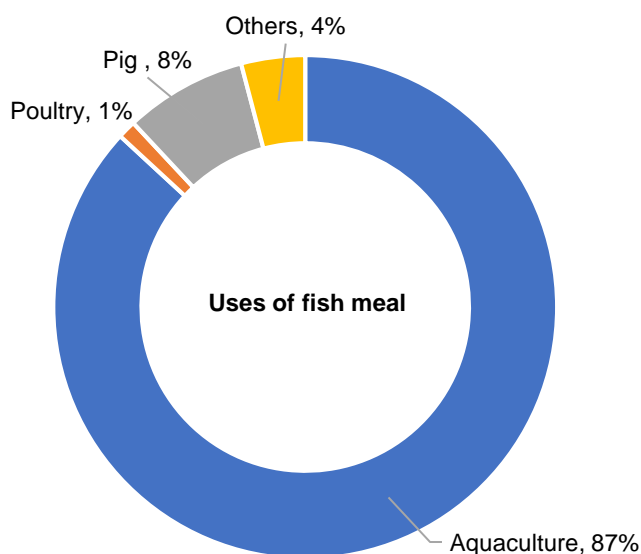

Fish meal is a high protein supplement prepared by cooking, pressing, steam drying and grinding of fish to form crude flour or powdered fish meal. Various species of pelagic fish can be used for fish meal production, but oily fish such as sardines, mackerels, anchovies, etc. are the main groups of species utilised. Fish meal is in powdered form and appears brownish in colour.

Fish meal is a concentrated source of protein. Fish meal is predominantly used as a rich source of protein in compound feeds. Compound feed is animal feed made from a combination and mixture of various raw materials and additives. Fish meal is used as ingredient in feed stuff in the aquaculture, poultry feed and pet food. Fish meal is also a concentrated source of high-quality protein and fat rich in Omega-3 essential fatty acids.

Fish meal carries large quantities of energy per unit weight and is an excellent source of proteins, lipids, minerals and vitamins and contains very less carbohydrates. It is easily digestible and considered as high-quality ingredient in aquaculture, poultry and pet food industry. The protein content of fish meal varies from 50% to 65%, even reaching 70% when prepared from protein rich fish species and contains 8-10% of fat, 8-10% of moisture and traces of ash, salt and sand. (Source: CRISIL Report).

Aquaculture feed represents the dominant usage of fish meal and fish oil at 87% and 75%, respectively, for calendar year 2022 (Source: CRISIL Report).

Uses of fish meal (in CY 2022)

Fish Oil

Fish Oil is a clear brownish yellow liquid obtained by pressing the cooked fish and is derived from fish tissues. It is generally made from oily species, such as sardines, mackerels, anchovies, etc. Oil sardine is the preferred source of fish oil due to its high contents of nutrients and omega-3 fatty acids. It is rich in two specific groups of omega-3 fatty acids: (i) docosahexaenoic acid (DHA); and (i) eicosapentaenoic acid (EPA). Omega-3 fatty acids are known to have various health benefits: they support healthy cardio-vascular function and development of the nervous system/ the brain, and boost the immune system. As per IFFO 2021/22 report, aquaculture feed sector dominates fish oil consumption with ~75% share worldwide as of Calendar Year 2021 (*Source: CRISIL Report*).

Uses of fish oil (in CY 2022)

Fish Soluble paste

Fish soluble paste is a brown, semi-viscous liquid, produced through evaporation of the remaining protein water after the separation of fish oil. It has high content of dissolved proteins, vitamins and amino acids. Fish Soluble has high crude protein content. It is used in aquafeed for better palatability, nutrition in bio activity of the protein and water-soluble vitamins. It is also used as organic fertilizer.

Insect Protein

Black Soldier Fly (scientific name - *Hermetia illucens*) is a dipteran fly insect widely used as a protein supplement in the feed formulations of aquaculture. This fly is amenable for mass production in organic food and agriculture waste and could be a viable alternative to the high-cost fish meal used in the aqua feed formulations. The life cycle of the BSF could be completed in 23- 25 days depending upon the substrate on which the culture was reared and the prevailing weather conditions. Adult fly mate during flight and seeks decaying substrates for oviposition. It lays about 200-300 eggs on the decomposing substrate in groups and hatches in 2-7 days. The larvae start feeding upon decaying organic matter and pass through six larval instars. The mature sixth instar larvae enter pupation. The adult emerges in 4-5 days. The mature larvae and prepupae of this fly are a rich source of protein to supplement or replace protein constituents in aqua feed. (Source: CRISIL Report)

Insect-based nutrition is emerging as a whole new category in food and feed systems. It has the potential to bring new value-added propositions based on its nutritional, functional, and environmental benefits: 1) Insects have a high protein content (50% to 80% dry matter basis); 2) When used as a feed ingredient, insect proteins bring health benefits to fish, pets, and other animals; 3) Insects can help to build circular food systems as they can upcycle low-value agri-food material, including former foodstuffs, wastes, and residues, into high-value proteins, oils, and other ingredients; 4) When local, underutilized resources are used as feed substrates to farm insects, not only is the food-waste challenge tackled, but a local feed production system is created and the feed supply chain is shortened; 5) Insects are part of the natural diet of most animals; and 6) Insect farming is a highly efficient protein production system with a small environmental footprint, requiring less water, less land, and less production time compared with other species. Seasonal and Natural resource

Our business and consequently our results of operations are affected by seasonal variations and weather conditions. For example, supply of pelagic fish, which is our key raw material is nature-dependent and is also subject to regulatory and environment conditions. In India, the peak season for fishing is August-December and the slack season is January-May (*Source: CRISIL Report*). Seasonal variations and adverse weather conditions affect the availability and price of the raw materials that we require for our manufacturing operations.

Over-fishing may increase the output for one season but it may affect the availability of fish in the long run and hence measures are taken from time to time to ensure sustainable fishing and thereby maintain an ecological balance.

OUR COMPETITIVE STRENGTHS

We believe that the following are our primary competitive strengths:

Our position as a leading manufacturer and exporter of Fish Protein products

Consistently being awarded by MPEDA, during the last 7 (seven) years for our export performance, *inter alia*, including as an outstanding performance in export of fish meal, fish oil and allied products for Fiscal 2021, Fiscal 2020 and Fiscal 2019 (*Source: https://mpeda.gov.in/?page_id=557*), we believe that we are one of the key players of the Fish Protein industry in India. In Fiscal 2023, of the total estimated revenue of the Indian fish meal and fish oil industry of ₹32,000 million to ₹41,000 million, we believe that we are one of the key players of the Fish Protein industry being 25%-30% contributor to the estimated revenue of the Indian fish meal and fish oil industry during the corresponding period (*Source: CRISIL Report*). Our Company is also amongst the first few Indian companies to have commercialised insect meal and insect oil (collectively “**Insect Protein**”) as an ingredient for aqua feed, animal feed and pet food. Fish Protein and Insect Protein are hereinafter, collectively, referred to as “**Animal Protein**”.

As a manufacturer of Fish Protein products, we manufacture and supply fish meal, fish oil and fish soluble paste which is an essential ingredient in the manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food). Further, fish oil also finds its application in pharmaceutical products (additionally, Omega-3 pills and related products derived from fish oil are gaining importance as high nutrient and healthy dietary supplements), soap manufacturing, leather tanneries & paint industries. We sell our products domestically and also export them to over 10 countries, including Bahrain, Bangladesh, Chile, Indonesia, Malaysia, Myanmar, Philippines, China, Saudi Arabia, South Korea, Oman, Taiwan and Vietnam.

Our revenue from operations grew at a CAGR of 39.62% from ₹6038.34 million in Fiscal 2021 to ₹11771.22 million in Fiscal 2023 and for the six months period ended September 30, 2023 our revenue from operations was ₹6060.94 million. Further for the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 our revenue from the sale of Fish Protein products (i.e., fish meal, fish oil and fish soluble paste) were ₹5,894.88 million and ₹11,543.06 million, ₹7,657.37 million and ₹5,916.67 million, respectively which constituted 97.26% and 98.06%, 99.38% and 97.98% of our revenue from operations, respectively. Export revenue of our Company for the six months period ended September 30, 2023 was ₹3474.14 million and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 was ₹5610.32 million, ₹1,389.47 million and ₹2826.96 million, which represents 62.69%, 52.61%, 20.05% and 52.72% of our revenue from operations, respectively. Our Company is also a “Three Star Export House” recognised by the Ministry of Commerce since March 20, 2020 and is effective till March 19, 2025. In Fiscal 2023, export of fish meal by our Company was 40,630 MT which represented 18 % of India’s export of fish meal (*Source: CRISIL Report*).

We believe that Indian Government and customer approved manufacturing facility, our strong manufacturing

capabilities, our access to key raw materials, manufacturing capabilities, long standing customer relationship and customer centric approach have enabled us to scale up our operations while maintaining the quality of our products. We have been able to penetrate into overseas market including China and Japan that are believed to have high standards for manufacturing, social and environmental compliance and food safety and traceability standards. As a result of the same, our operating revenue has grown at a CAGR of ~ 24% from Fiscal 2020 to 2023, (Source: CRISIL Report).

Established customer base and strong relationships

We have long established relationships with our key customers who are the major producers of aqua feed, poultry feed and pet food. We believe that one of the key factors differentiating us from our competitors is the quality of our products and customer centric approach by offering products meeting the customers' specifications. We believe that this approach has helped us to not only grow our business since inception but has also nurtured and expanded our market presence in the industry in which we operate.

During the Fiscal 2023, Fiscal 2022 and Fiscal 2021, we served around 84 (eighty-four), 46 (forty-six) and 52 (fifty-two) customers, respectively and 51 (fifty one) customers during the six months period ended September 30, 2023. As of September 30, 2023, we have on-going business relationships of more than five years with 19.61% of our total customers who contributes 52.90 % of the revenue from operations. During the 3 (three) preceding Fiscals and for the 6 (six) months period ending September 30, 2023, we have expanded our customer base by adding 59 (fifty-nine), 23 (twenty-three) and 33 (thirty-three) and 21 (twenty-one) new domestic and overseas customers, respectively.

We have exported our products to over 10 (ten) countries in the preceding 3 (three) Fiscals and 6 (six) months period ending September 30, 2023. We export our products to countries such as, Bahrain, Bangladesh, Chile, Indonesia, Malaysia, Myanmar, Philippines, China, Saudi Arabia, South Korea, Oman, Taiwan and Vietnam. During the six months period ending September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, revenue from export of our Company's products amounted to ₹3474.14 million, and ₹5597.19 million, ₹1,387.01 million and ₹2,826.96 million, representing 62.69%, 52.49%, 20.02% and 52.72% of our Company's revenue from operations, respectively. Our Company served around 29 (Twenty Nine) overseas customers as on September 30 , 2023 out of which 8 (Eight) customers have been associated with us for over 3 (Three) years.

The quality of our products and our customer centric approach has helped us to build a wide customer base over the years. Set out below is the number of customers we have served to, during the six months period ended September 30, Fiscal 2023, Fiscal 2022 and Fiscal 2021, across our product category and the revenue generated from each product category during the relevant periods.

Strategically located Facilities

Our Company is engaged in the business of manufacturing of fish meal, fish oil and fish soluble paste. Our key raw material is pelagic fish, which we source from the local fish catchers. Pelagic fish and fish remains are our raw materials for manufacturing of fish meal, fish oil and fish soluble paste. We also procure fish meal, fish oil, insect meal and insect oil as our raw material, which we further blend to our final product and as per customer specification. We procure our raw material based on quality, pricing and market availability. Our suppliers of raw materials include local fish catchers, fish processing units and fish meal suppliers. Our Company also imports fish meal from overseas suppliers, including our Foreign Subsidiary, namely Ocean Aquatic Proteins LLC.

Our key raw material, pelagic fish is perishable in nature and also the quality (i.e. protein, fat and oil contents) and quantity of fish catches is different at each location and during the season. We therefore have our manufacturing facilities located close to the source of our raw material and also spread across the coastline.

Further, the season and quality of fish catch in India is different from the season and quality of fish catch in Oman. For instance, the oil content in fish available along the Oman coast is higher. As on the date of this Red Herring Prospectus, we have 4 (four) strategically located manufacturing facilities, 3 (three) blending facilities and 5 (five) storage facilities along the western coastline of India. Further, we have 2 (two) manufacturing facilities in Oman, which is located in proximity to the landing sites and fish catchments.

Our Facilities, being strategically located provides us with access to our key raw material, pelagic fishes such as sardine, mackerel, anchovy, etc. and thus minimizing our dependency on one particular coastal landing sites and fish catchments. Further, our strategically located Facilities also ensure fresh, adequate and cost-effective supply of pelagic fishes, our key raw material, as well as transportation of our finished products, thereby enabling us to secure supply of raw material, maintain high product quality and optimize on the transport cost. As on September 30, 2023, our annualised aggregate manufacturing capacity is 1,15,050 MTPA of fish meal, 16,950 MTPA of fish oil and 20,340 MTPA of fish soluble paste.

Further, we also source fish meal, fish oil and fish soluble paste as our raw materials from our Partnership Facilities and also from third party manufacturing units. The fish meal, fish oil and fish soluble paste, as raw materials are further processed and blended at our Blending Facilities in order to cater to the demand of our customers.

In addition, as on September 30, 2023, we have also entered into contractual arrangement with third-party manufacturing units, situated at Sasihithlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Talaja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), for supply of fish meal and fish oil. The third-party manufacturing units at Udupi (Karnataka) and Ullal (Karnataka) are on job work basis where the raw fish are supplied by our Company and are converted into fish meal and fish oil. These third-party manufacturing units are close to the source of our key raw material i.e., pelagic fish, thus increasing our presence across the western coastline of India. With respect to our arrangement with other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Talaja (Maharashtra) and 1 (one) located in Sasihithlu (Karnataka), we have entered into arrangement to procure 100% of their production output, respectively.

These third-party manufacturing units are close to the source of our key raw material, thus increasing our presence across the western coastline of India. Our Company continuously seeks to identify new manufacturing units, on job work basis or similar arrangements, to achieve operational efficiency and also to have access to our key raw material, i.e., pelagic fish.

Entry Barriers

Fish meal and fish oil contributes indirectly to human consumption as they are used as feed in aquaculture and livestock raising (*Source: CRISIL Report*), accordingly our manufacturing facilities are subject to audit and inspection by various regulatory authorities and also by our customers. Some of the requisite approvals includes, pollution control, environment clearances, license to export including country specific license, customer validation and approvals, stringent product specifications and high-quality standards. Further, since these facilities usually need to be closer to the source of raw material i.e. sea and accordingly, are subject to stringent CRZ restrictions.

As a manufacturer of Fish Protein products, it is imperative that our products are pre-approved by our customers, as our customers end products contribute indirectly to human consumption and are typically subject to stringent regulatory and industry standards.

Further, our key raw material, pelagic fish is a natural resource and accordingly their availability is seasonal and subject to climatic conditions and also various regulatory restrictions. MPEDA, the regulatory authority has imposed a moratorium on registration of new fish meal and fish oil facilities and also enhancement of production capacity of the existing fish meal and oil facilities for export purposes.

We believe that these barriers restrict the ability of the new players to enter our industry and thereby helping our Company to retain our position in the industry in which we operate and ensuring consistent growth and profitability.

Strong and consistent financial performance

We have demonstrated consistent growth in terms of revenues and profitability. We have been able to increase

our revenue from operations at a CAGR of 39.62% during the last three Fiscals, from ₹6038.34 million in Fiscal 2021 to ₹11771.22 million in Fiscal 2023. Our revenue from operations in Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ended September 30, 2023 was ₹11771.22 million, ₹7,705.03 million and ₹6,038.34 million and ₹6060.94 million, respectively.

In the Fiscal 2023, Fiscal 2022 and Fiscal 2021 and for the six months period ended September 30, 2023, we had an EBITDA of ₹943.11 million, ₹542.39 million and ₹318.19 million and ₹613.06 million, respectively. Our EBITDA has grown at a CAGR of 72.16% from Fiscal 2021 to Fiscal 2023. Our profit after tax has grown at a CAGR of 107.76%, from ₹110.10 million in Fiscal 2021 to ₹475.25 million in Fiscal 2023. Further, in the Fiscals ended 2023, 2022 and 2021 and for the six months period ended September 30, 2023, our ROCE was for 17.62%, 13.86% and 5.86% and 9.41%, respectively. In the Fiscals ended 2023, 2022 and 2021 and for the six months period ended September 30, 2023, our ROE was 36.71%, 30.00%, and 17.37% and 19.15%, respectively.

We believe that our financial performance, demonstrates not only the growth of our operations over the years, but also the effectiveness of our management, our well-established customer relationship and cost monitoring that we have implemented. Among other things, our strong financial position and results of operations have enabled us to enhance scale of operation and enter new geographies.

Focus on Quality, Environment, Health and Safety (QEHS)

We believe that maintaining a high standard of quality and complying with stringent specification of our products is critical to our continued growth. Across our Manufacturing Facilities, we have put in place quality check systems that covers areas of our manufacturing process and product delivery, to ensure consistent quality, efficiency and safety of products. Our products adhere to various quality checks at various stages like procurement, cooking, centrifuges and dryers. Many of our key customers have audited and approved our Mukka Manufacturing Facility I and our manufacturing processes in the past, which fuels customers confidence in our quality of our facility, process and product.

We are committed towards quality, environment, health and safety standards as a result of which we have received quality certifications such as GMP+, ISO 9001:2015, ISO 22000:2018 certified by NQA, UKAS Management Systems. We believe we are one of the few Indian companies from our industry to have received EU certification and also holding license from AQSIQ (Administration of Quality Supervision, Inspection and Quarantine), China. We are also accredited with certifications' such as Halal, HACCP, EIA, MPEDA and is also a member of IFFO.

We endeavour to prioritize the health and safety of our employees and undertake initiatives to promote employee health and their overall well-being by facilitating periodical health check-ups.

Experienced Promoter Directors with extensive domain knowledge

We are led by our Promoter Directors i.e., Kalandan Mohammed Haris, Kalandan Mohammad Arif and Kalandan Mohammed Althaf, who have a collective experience of over 5 (five) decades in the industry in which we operate. Our Promoter Directors are involved in various aspects of our business, including manufacturing process, finance, procurement and marketing. Further, Kalandan Mohammed Haris is associated with various industry related organisation and associations.

We believe that the experience, depth and diversity of our Promoter Directors have enabled our Company to scale our operations in domestic and international market. Their industry experience enables us to anticipate and address market trends, manage and grow our operations, maintain and leverage customer relationships and respond to changes in customer preferences and requirements.

For further information on our Promoter Directors, see “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 299 and 322, respectively of this Red Herring Prospectus.

OUR BUSINESS STRATEGIES

Strengthening our foothold in our existing markets and expanding to new geographies

We sell our products domestically and also export to over 10 (ten) countries. In fiscal 2023, the industry is estimated to see a huge jump in value as well as volume. It is likely to see an on-year growth of 130-150% in value terms and 90-110% in volume terms. This sudden rise can be majorly attributed to the increase in oil

sardine landings (major raw material for fish meal and fish oil) coupled with increased traction in exports led by production shortage in Peru region and higher exchange rates in the global markets (*Source: CRISIL Report*). Further, we believe that we share a good client relationship with our customers and we receive majority of our business from long-term customers. The long-standing relationships that we have enjoyed with our customers over the years and the repeat and increased orders received from them are an indicator of our position as a preferred source for them. With our functional Facilities and capabilities, we intend to focus on increasing our wallet share with existing customers and establish relationships with new international and domestic customers.

We believe that our Manufacturing Facility and capacity, approved manufacturing capabilities, long standing customer relationship and customer centric approach have enabled us to scale up our operations while maintaining the quality of our products. We have been able to penetrate into overseas market including China and Japan that are believed to have high standards for manufacturing, social and environmental compliance and food safety and traceability standards. As a result of the same, our revenue from operations have grown at a CAGR of 39.62% from Fiscal 2021 to Fiscal 2023.

We had a market share of approximately 25% - 30% of the fish meal and fish oil industry in India for Fiscal 2023 (*Source: CRISIL Report*). We aim to increase our market share by meeting our customer demand for fish meal and fish oil. We further aim to deepen our presence in our existing export markets such as, China, Chile, Japan and facilitate our entry into new markets. We target to enter new market such as, USA and Turkey directly and/or through our Foreign Subsidiary

In order to strengthen our foothold in our existing markets and expanding our customer base, we intend to deploy additional working capital funds which, we believe, will enable us to procure raw material at a competitive rate by making payments upfront there by reducing cost and improving margins.

Expanding our presence in new protein source

Insects contribute to a circular economy by upcycling of low-value agri-food materials into high-value protein and other applications. Insect-based nutrition is emerging as a whole new category in food and feed systems. It has the potential to bring new value-added propositions based on its nutritional, functional, and environmental benefits (*Source: RaboResearch Report*).

With increasing demand driven by more population opting for animal-based nutrition coupled with limitation of fish meal due to its environmental impact has raised the requirement for new source of protein in the animal feed industry. Insect based nutrition is emerging as a new source of protein in the global animal feed industry. Aquaculture industry plays a vital role in adoption of insect feed. In the current scenario, globally the usage of insect feed in the aquaculture industry is at nascent stage. The initial usage in the industry is limited to insect feed being a niche ingredient. Going forward, usage of ingredients such as fish meal being limited by sustainability, provides an opportunity for the insect feed industry to grow (*Source: CRISIL Report*).

In light of the industry demand and to cater the same, our Company entered the business of manufacturing and selling of insect meal and insect oil through EPPL, our Associate, wherein our Company holds 50% of the total paid-up equity share capital of EPPL. EPPL, is engaged in the business of manufacturing of Insect Proteins by processing the larvae of BSF Larve that is hatched, fed and harvested at the MSW sites and on low-value agri-food material. EPPL has entered into a memorandum of understanding with Mangaluru City Corporation on August 9, 2021 to convert the organic solid waste at the MSW site at Pachanady in the city of Mangaluru and was subsequently awarded a tender vide letter of acceptance dated July 17, 2023 as amended on November 30, 2023 for setting up, operation and maintenance of wet waste processing plant by utilising black soldier larvae at solid waste management processing plant – Pachanady for a period of 5 (five) years. However, the same is subject to renewal after the first year on satisfactory performance and a further renewal after every two years.

As of November 30, 2023, of the total 45,045 ton of wet waste and chicken waste (organic solid waste) allocated to EPPL, around 2739 ton of BSF Larvae was harvested and the organic solid waste was converted into 3495 ton of organic compost. Further, upto September 30, 2023, EPPL harvested 2407 ton of BSF Larvae which was processed into 505 ton of insect meals and 217 ton of insect oil.

Set forth below are details of the capacity for processing organic solid waste process and BSF Larvae harvested, for the six months period ended September 30, 2023 and for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 in the unit of EPPL:

Manufacturing Facility	September 30, 2023	March 31, 2023	March 31, 2022	March 31, 2021
No. of poly houses	4	3	1	NIL

BSF Larvae harvested (MT)*	631	1398	377	NIL

*As certified by management of our Company.

Further, in order to scale up our Insect Protein production capabilities, we intend to make further investment in EPPL to meet its incremental working capital requirements, by way of equity, debt or a combination thereof from the proceeds of the Issue and thereby emerge as a key player in the new protein source for aqua feed industry. For further details, see “*Objects of the Issue*” and “*Risk Factor - We have recently ventured into insect protein business and we may be unable to execute our strategy to expand the business or find suitable market for insect proteins, which could have a material adverse effect on our business, financial condition and results of operations*” on page 137 and 54 of this Red Herring Prospectus.

Pursue strategic inorganic and organic growth opportunities:

Our Company is engaged in the business of manufacturing of Fish Protein products where our key raw material is pelagic fish. Availability of key raw material is seasonal and also subject to climatic and environmental changes. Further, the fishing activities are also subject to various regulations. Additionally, our raw fish are perishable in nature. With an objective to minimise the risk associated with the sourcing of our key raw material, we had spread our manufacturing facilities across the western coastline in India and also in close proximity to fish landing sites in Oman.

Further, we also source fish meal, fish oil and fish soluble paste as our raw materials from our Partnership Facilities, where we strategically invested towards the capital contribution over time. We also source our raw materials from third party manufacturing units. In addition, as on September 30, 2023, we have also entered into contractual arrangement with third-party manufacturing units, situated at Sasihihlu (Karnataka), Udupi (Karnataka), Ullal (Karnataka), Taloja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), for supply of fish meal and fish oil. The third-party manufacturing units at Udupi (Karnataka) and Ullal (Karnataka) are on job work basis where the raw fish are supplied by our Company and are converted into fish meal and fish oil. These third-party manufacturing units are close to the source of our key raw material i.e., pelagic fish, thus increasing our presence across the western coastline of India. With respect to our arrangement with other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Taloja (Maharashtra) and 1 (one) located in Sasihihlu (Karnataka), we have entered into arrangement to procure 100% of their production output, respectively.

Further, we are also evaluating opportunities for setting-up new state-of-the art manufacturing facilities in the eastern coastal states of India as a strategy to have seamless access to raw materials i.e. pelagic fish, diversify the over dependency on the western coastal fishing catchments and regulatory exposures.

In order to grow and expand our business, we continue to evaluate strategic investment opportunities in domestic and international markets with our strategy to further secure the source of our key raw material and also to grow and develop our market share and product portfolio such as, alternative protein products. We would also as a strategy, consolidate our legal entities in the future. We will pursue opportunities where such acquisitions or arrangements will add value to our business, stakeholders and customers. These inorganic growth opportunities may include acquisitions, joint ventures, strategic partnerships as well as acquiring the production capacity and / or processing facilities.

OUR FACILITIES

As on the date of this Red Herring Prospectus, we have 4 (four) strategically located manufacturing facilities, 3 (three) blending facilities and 5 (five) storage facilities along the western coastline of India. Further, we have 2 (two) manufacturing facilities in Oman which is located in close proximity to the coastline of Oman

Our Company presently operates 2 (two) manufacturing facilities in Mangaluru, Karnataka. Mukka Manufacturing Facility I, our primary facility is spread across a plant area of (approx.) 10359 sq. mtr. and Mukka Manufacturing Facility II is spread across a plant area of 2111.21 sq. mtr. and can manufacture fish meal, fish oil, fish soluble paste and insect meal. Further, as on the date of this Red Herring Prospectus our Foreign Subsidiary, namely Ocean Aquatic Proteins LLC, Oman operates 2 (two) manufacturing facilities in Oman spread over

(approx.) 2160 sq. mtr. and having an aggregate installed capacity of 18000 MTPA, 4,500 MTPA and 5400 MTPA for manufacturing of fish meal, fish oil and fish soluble paste, respectively.

Our Mukka Manufacturing Facility I have obtained approvals or certifications from, and are subject to inspections and audits by, our customers and also a range of regulatory bodies such as MPEDA, EIA, etc. Additionally, our Mukka Manufacturing Facility I is also accredited with ISO 9001:2015, ISO 22000:2018 certified by NQA, UKAS Management Systems. We believe we are one of the few Indian companies from our industry to have received EU certification and also holding license from AQSIQ (Administration of Quality Supervision, Inspection and Quarantine), China. We are also accredited with certifications' such as Halal, HACCP, EIA, MPEDA and is also member of IFFO.

These regulatory approvals, accreditations and membership enable us to supply our products in regulated and other markets. We regularly invest in the improvement of our manufacturing facilities to ensure adherence to relevant regulation.

Our Manufacturing Facilities are operated 7 (seven) days in a week having 3 shifts per day of 8 hours and we comply with applicable national and public holidays as per National and Festival Holidays Act, 1963. Our Blending Facilities works 6 days a week with 2 shifts of 8 hours each.

The details of our Facilities are set out as below:

1. Procurement of Raw material

The raw fish viz. Sardine, Mackerel, Anchovy etc. are brought in refrigerated insulated trucks with clearly stacking of fish in crates with sufficient ice and appropriate temperature. The trucks are checked by our staff for temperature, freshness, foreign matter, iced, any other fish mix etc. and thereafter used for processing. The raw fish is also tested for microbiology parameters by our in-house laboratory and is even tested with EIC/EIA approved laboratory where the test reports are maintained.

2. Cooking

Once the raw fish is checked for quality purpose, it is passed through conveyor for the cooking process. The fish is cooked at 90⁰-95⁰ C in the cooker using steam generated from the boiler. However, the time of cooking is based on the size of the fish. The cooking validation chart is displayed and is recorded frequently. The purpose of cooking is to denature or coagulate the proteins and to rupture the cell walls of tissues of fish so that oil and water present in the fish is separated. The cooking process is fully automated and the cooker is regularly cleaned.

3. Pressing

The cooked fish passes through the screw press. The process of pressing separates the cooked material into solid phase (press cake) and liquid phase (press liquor).

4. Drying

The pressed cake from the pressing process is passed through an automated conveyor to the dryer. In the drying process, fluffed press cake is dried at a temperature of 90⁰-95⁰ C along with necessary pressure to achieve the desired moisture content. The dried press cake is then passed through a magnetic separator to remove any steel contaminants. This generates dried fish meal.

5. Pulveriser

The dried fish meal is then passed through an automated conveyor to the Pulveriser, where it is grinded into powder form. The powdered fish meal will be added with antioxidant to meet customers specification and the details of antioxidant are recorded.

6. Cooling

The powdered fish meal is passed through the cooler where the water temperature is maintained between 26⁰-30⁰ C.

7. Sieving

After cooling, the powdered fish meal is passed through the automated conveyor to the siever where extraneous material is separated, if any.

8. Quality Control

We adhere to the quality control process by conducting sample check from the batches of the finished products. This involves sample check at our in-house labs.

9. Packing (Fish meal)

After the quality analysis report, the fish meal from the sieving process are packed in HDPE bags of 50 Kgs, which are pre-printed for batch number, expiry date and the date of manufacturing. The finished product is then weighed and stacked in pellets.

10. Decanter

The liquid phase (press liquor) from the pressing stage is passed through the decanter wherein the suspended solids are separated and added back to the dryer for further converting into fish meal. The press

liquor is passed through a preheated tank to centrifuge.

11. Centrifuge

In the centrifuge, the oil gets separated from the press liquor. The oil is then stored after checking for moisture and FFA at regular interval.

12. Evaporator

The remaining protein water after the separation of fish oil in the centrifuge is passed through the process of evaporation with the help of sealing water pump, cooling water supply pump, cooling tower fan, air compressor, drier and vacuum pump. After the evaporation process, the soluble paste which is a brown semi-viscous liquid is produced which is commonly known as fish soluble paste.

13. Packing and Storage

The finished fish oil and fish soluble paste is then packed in the plastic air tight HDPE barrels or flexi bags, tankers or flex tankers and are dispatched to our storage facilities.

14. Dispatch

The stored fish meal, fish oil and fish soluble paste is further dispatched as per orders received from our customers.

Insect Protein

Manufacturing process of insect meal can be broadly classified under two processes:

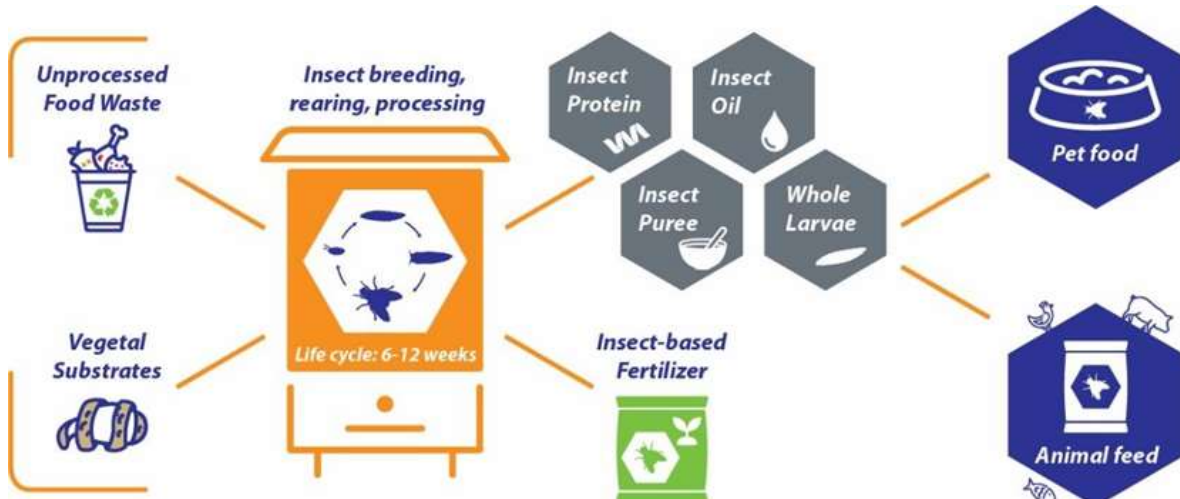

(i) Harvesting of adult larvae of BSF

After hatching of the eggs laid by the BSF, the hatched larvae will be collected and reared on formulated feed in crates for 5 days. These larvae are then sent to the waste processing sites, where they are spread over the sorted (Plastics, tender coconut shells, diapers are removed) and segregated waste. The larvae are fed for around 12 days before they become an adult larva. The adult larva is separated from the compost and sent to manufacturing facilities where they are processed into insect meal and insect oil. The compost formed by the left-over waste of the larvae is further dried before they are used as organic fertilizer.

(ii) Converting the harvested BSF larvae into insect meal and insect oil.

The manufacturing process of converting the BSF larvae into insect meal and insect oil is similar to the process explained herein above with respect to the manufacturing of fish meal and fish oil.

The below listed diagram broadly depicts the manufacturing process of Insect Protein undertaken by our Associate, namely EPPL.

ENVIRONMENT, HEALTH AND SAFETY MEASURES

We strive to operate our Facilities in a manner that protects the environment and the health and safety of our employees and communities. The safety and security of our employees, customers, partners, facilities, assets and data is of utmost importance. We are also subject to various environmental laws and regulations. These laws and regulations govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from our operations. For further details, see **“Government and Other Approvals”** on page 484 of this Red Herring Prospectus.

Our Manufacturing Facilities have effluent treatment processes in compliance with applicable law. Except as disclosed in **“Risk Factors - Our Company is party to a legal proceeding concerning an alleged violation of environmental norms by the Company. An adverse outcome of the proceeding could have an impact on our Company’s operations at Mukka Manufacturing Facility I”** and **“Outstanding Litigation and Material Developments - Litigation Involving Actions by Statutory/Regulatory Authorities”** on page 48 and 449 respectively of this Red Herring Prospectus, we have not been subject to any material fines or legal action involving non-compliance with any applicable environmental laws or regulations, nor are we aware of any threatened or pending action against us by any environmental regulatory authority.

Our operational, administrative and human resources teams, from time to time, may adjust our internal policies to accommodate for material changes that have been implemented under the relevant labour and safety laws. In order to ensure the safety of our workforce, we internally implement operational procedures and safety standards for our manufacturing process including work-related injuries, electricity safety, and emergency and evacuation procedures.

We believe that accidents and occupational health hazards can be significantly reduced through a systematic analysis and control of risks and by providing appropriate training to our management and our employees and therefore we provide our workforce with occupational safety education and training to enhance their awareness of safety issues. Our workers are covered under ESIS under the Employees’ State Insurance Act, 1948 thereby entitling them to medical services for themselves and their immediate families. We have also obtained insurance policies to insure employees or workers who are not protected under ESIS. All our existing manufacturing units are certified ISO 14001:2005 by Environmental Management System and occupational, health & safety assessment series by ISO 45001.

There was an incident of fire at our Storage Facility V, which caused damage to our products stored therein. However, there was no injuries caused to any of our employee in the said fire incident and our insurance claim was duly settled. Except as stated above, we have not encountered any safety-related accidents for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 and nor during the six months period ending September 30, 2023.

In past, we have experienced an incident of fire and flood at our Storage Facility I. For details, see, **“Risk Factors - Failure to procure and/ or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability”** and **“Outstanding Litigation and Material Developments – Other Pending Litigation”** on page 70 and 452 respectively of this Red Herring Prospectus.

COLLABORATIONS/TIE UPS/JOINT VENTURES

As on the date of this Red Herring Prospectus, we do not have any collaborations/tie ups/joint ventures.

SALES AND MARKETING STRATEGY

Our Company operates in the business-to-business segment of our industry consequent to which, all of our sales are to manufacturer of aqua feed and animal feed customers who use our products as component of their final product. We also sell our products to overseas traders who then sell our products to their end customers. Our major customers are domestic and international aqua feed manufacturer. We carry out our marketing activities primarily through media platforms, such as online marketing through search engines such as Google, social media platforms. We also carry out marketing activities by participating in domestic and overseas exhibitions to increase the visibility of our business activities.

Our success lies in the strength of our relationship with our customers who have been associated with our Company for a long period. Our Promoter Directors through their vast experience and with our track record of timely and quality delivery of products as per requisite specification, play an instrumental role in creating and expanding a work platform for our Company. In order to maintain good relation with our customers, our Promoter Director endeavour to regularly interacts with our existing customer and focuses on gaining an insight into the additional needs of our customers.

We leverage our relationships with our existing customers to procure repeat orders from them

OUR CUSTOMERS AND CUSTOMER CONTRACTS

The following is the breakup of our top 2 (two), top 5 (five) and top 10 (ten) customers for the Fiscal 2023, 2022, 2021 and for the six months period ended September 30, 2023 are as follows:

*As certified by Statutory Auditor of the Company, M/s Shah & Taparia, Chartered Accountants, pursuant to certificate dated January 3, 2024.

We do not enter into any long-term contract with our customers. We sell our products against the purchase order received from our customers. As on September 30, 2023, we served around 51 (fifty-one) customers.

COMPETITION

We operate in a competitive business, both in India and overseas. Some of our competitors especially overseas competitors may have greater financial resources, better distribution network, technical and marketing resources and generate greater revenues, and therefore may be able to respond better to market changes than we can. However, we continuously strive to remain competitive and identify emerging opportunities. We believe that our consistent tracking of markets, and our ability to deliver products with requisite specification and our consistent interaction with our customers is a key to our competitiveness.

Further, the industry in which we operate are not easy to break-into due to high entry barriers such as stringent regulatory and customer's approval process. Further, MPEDA through its notification dated September 30, 2019,

in its efforts toward sustainable development and to curb over-exploitation of food fish resources, has declared a moratorium on the registration of new fish meal and fish oil units and on enhancement of production capacity by existing fish meal units with effect from January 1, 2020 till further notice.

To promote exports, lower the cost of imports and cost of production, the government has announced reduction in import duty on certain products required for shrimp feed - basic customs duty on fish meal from 15% to 5%, on krill meal from 15% to 5%, on algal prime (flour) from 30% to 15%, on fish lipid oil from 30% to 15% and on mineral and vitamin premixes from 15% to 5%. With lowering down of import duty on fish meal in union budget of 2023-24, CRISIL MI&A Research, expects the competition in the fish meal industry to intensify as a result of consolidation of existing players (*Source: CRISIL Report*).

Additionally, we also expect that, with the lowering down of import duty on fish meal in the fiscal budget 2023, the competition may intensify as a result of consolidation of existing players and also by the entry of new players, upon cessation of existing moratorium imposed by MPEDA.

For further details on our competition, see “*Industry Overview*” and “*Risk Factors - We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures could have a material adverse effect on our business growth and prospects, financial condition and results of operations*” on page 169 and 89 of this Red Herring Prospectus.

AWARDS AND RECOGNITION

As a reflection of our commitment to quality products, solutions and services, we have received multiple awards in the past years including Industrial Excellence Awards & Conference for Best Company of the Year for Animal Feed Industry, Best Manufacturer Exporter Award, SKOCH Awards, Exporter of the year, MPEDA Award for highest export performance, Certificate for FT High-Growth Companies Asia-Pacific and Statista and Apex India MSME Award for outstanding export performance - Gold Award. Further, our Associate, EPPL received sustainability 100+ award under the sub-category Circularity, an initiative by ABInBev and Network 18.

For further details on our competition, see “*History and other Corporate Matters*” on page 284 of this Red Herring Prospectus.

UTILITIES

As part of our manufacturing and blending operations, we require a steady and abundant supply of power and steam. The power requirements of our Manufacturing Facilities, Blending Facilities and Storage Facilities in the state of Karnataka are met through local state power grid, Mangalore Electricity Supply Company Limited and the power requirements of our Manufacturing Facilities, Blending Facilities and Storage Facilities in the state of Gujarat is met through local state power grid, Paschim Gujarat Vij Company Limited. Our Company also maintain 3 (three) diesel generator of which 2 (two) diesel generator of 400 KVA each is maintained at Mukka Manufacturing Facility I and 1 (one) diesel generator of 625 KVA is maintained at Mukka Manufacturing Facility II, which is used on a stand-by basis to meet any disruption in power supply. We use briquettes and woods as fuel for our boilers for generating steam in our Manufacturing Facilities.

We use ground water for meeting our water supply requirements in our manufacturing facilities. We have also installed a RO plant and demineralised water plant in our manufacturing facilities. The ground water is first treated in the RO plant and the demineralised water plant, before it can be used during our manufacturing process in our manufacturing facilities.

Our utility expenses based on our Restated Consolidated Financial Statement is 0.72%, 0.52%, 0.59% and 0.60% of our revenue from operations and constituting 0.77%, 0.55%, 0.62% and 0.61% of our total expenses for the six months period ended September 30, 2023 and in the Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively.

RAW MATERIAL AND THIRD-PARTY MANUFACTURERS

Our key raw material is pelagic fish, which we source from the local fish catchers. Pelagic fish and offal and trimmings are used to manufacture fish meal, fish oil and fish soluble paste. Further, we procure fish meal, fish oil, insect meal and insect oil as our raw material which we further process and blend as our final product. We procure our raw material based on quality, pricing and market availability. Our suppliers of raw materials include local fish catchers, fish processing units and fish meal suppliers. Our Company also import fish meal from

overseas suppliers, including our Subsidiary, namely Ocean Aquatic Proteins LLC. Fish meal as a raw material is further blended to meet our customers specification.

Pelagic fish, as our raw material includes (i) fish considered as industrial catch (those caught specifically for making fish meal and fish oil); and (ii) surplus stock from by-catch of fisheries for human consumption. (Source: CRISIL Report).

Over a period of 20 (twenty) years, we believe we have built up trust with the fish catchers' community and are well known in the fish catcher's community. We purchase our fish requirements from multiple suppliers and we do not enter into any long-term contract with our suppliers. Considering the seasonal nature of the supply of our key raw material, we endeavour to purchase our requirement of raw material based on our anticipation of our consumer requirements for the year. The supply is done to our Manufacturing Facilities by our supplier in full-fledged insulated procurement vehicles which carries ice in tubs /crates and reaches the destination on the same day of procurement to maintain the quality of the fish. Further, with an objective to rationalize our procurement strategy we have manufacturing facilities spread across 3 (three) states i.e., Karnataka, Maharashtra and Gujarat along the western coastline of India.

Our purchasing staff supervise the pelagic fish received at our Manufacturing Facilities and check for size, weight and quality of the fish. Our supply of pelagic fish generally includes high oil content fish such as sardine, mackerel, anchovy, etc.

Our expenses towards procurement of raw materials for the six months period ended September 30, 2023, for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 is ₹4,584.78 million, ₹ 9,436.25 million, ₹5,840.03 million and ₹5,321.50 million comprising 82.74%, 88.49%, 84.29% and 99.24% of our revenue from operations, respectively.

In addition to our own Manufacturing Facilities, we have also entered into arrangements with 8 (eight) third-party manufacturers for supply of fish meal and fish oil to meet any additional demand and also to have access to our raw materials. For the six months period ended September 30, 2023, for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, products manufactured through third-party manufacturing arrangements contributed to 16.26%, 16.48%, 12.24% and 3.29% of our cost of material consumed, respectively. Further, for the six months period ended September 30, 2023, for the Fiscal 2023, Fiscal 2022 and Fiscal 2021, job work charges paid to third-party manufacturing arrangements contributed to 0.96%, 1.97%, 1.95% and NIL of our cost of material consumed, respectively. We have a dedicated quality assurance team for conducting inspections prior to entering into any third-party manufacturing agreement. We typically enter into third-party manufacturing agreements for shorter periods with provision of renewal. With (2) two of our third-party manufacturers, we have entered into job work arrangement, where we provide them the raw fish and receive corresponding output of the products manufactured by them. With respect to our arrangement with the other (6) six of our third-party manufacturers, we have entered into arrangement for procurement of 100 % of their production output. Further, our third-party manufacturers typically indemnify us for the quality defects in the products under their respective agreements. We also conduct periodic inspections of the third-party manufacturing facilities to ensure that they comply with our standard quality requirement. See also "**Risk Factors–In addition to our Manufacturing Facilities, we enter into arrangement with third-party manufacturers on job work basis and capacity bookings and therefore, we are subject to risks associated with the third-party manufacturing processes**" on page 91 of this Red Herring Prospectus.

Our Company has also entered in the business of manufacturing and selling of insect meal and insect oil ("**Insect Protein**") through EPPL, our Associate, whereby our Company holds 50% of the total paid-up equity share capital and the balance 50% of the total paid-up equity share capital is held by a third-party entity, namely Holocene

Ecosolutions Private Limited. EPPL was incorporated on March 8, 2021, as a wholly owned Subsidiary of our Company and subsequently became our Associate in year October 19, 2021.

EPPL harvest the larvae supplied by HEPL into adult larvae at the poly house maintained by EPPL in the solid waste management site at Mangaluru. The adult larvae are converted into insect meal and insect oil at our Manufacturing Facilities. The insect meal and insect oil are supplied by EPPL to our Company. Our expenses towards procurement of Insect Protein from EPPL, for the six months period ended September 30, 2023 and for the Fiscal 2023 and Fiscal 2022 is ₹ 16.87 million and ₹46.77 million and ₹12.61 million, comprising 0.30% and 0.42% and 0.17% of our total expenses, respectively.

INFORMATION TECHNOLOGY

Our IT systems are aligned with our business strategy and are vital to our business. Its key objectives are speed, agility, adaptability and scalability in development as well as service and collaboration. The key focus areas are protecting intellectual property rights, mitigating cyber and business continuity related risks, improving efficiency, increasing digitalization and automation, leveraging the value of data and ensuring availability of skills and resources. The key functions of our IT team include establishing and maintaining enterprise information systems and infrastructure services to support our business requirements.

We have made conscious efforts to consistently upgrade our systems to ensure efficiency and reduce redundancies. We have taken necessary measures to ensure cyber security, data protection from virus attacks and hacking and disaster recovery servers and systems for data retrieval and business continuity. We use modern software i.e. Tally Prime 3.01 for our accounting and invoicing purpose, etc.

HUMAN RESOURCES

We place importance on developing our human resources. As on September 30, 2023, we had 414 permanent employees, including trainees across our Manufacturing Facilities including 352 in India and 62 outside India. We also engage manpower agencies to provide us with a temporary workforce which included 30 (thirty) contracted labour at Mukka Manufacturing Facility I, as of March 31, 2023.

Our work force is a critical factor in maintaining quality and safety standards and that good relations with our workforce are critical in strengthening our competitive position. Our employees are not unionized into any labour or workers' union and we have not experienced any work stoppages due to labour disputes or cessation of work, historically.

Our employee's attrition rate for six months period ended September 30, 2023 and in Fiscal 2023, Fiscal 2022 and Fiscal 2021, our attrition rate was 11.35%, 5.71%, 7.52% and 17.24%, respectively. A break-up of our permanent employees by function, as on September 30, 2023, is set out below:

INSURANCE

Our operations are subject to risks inherent to manufacturing operations. In order to manage the risk of losses from potentially harmful events, we maintain insurance policies such as standard fire and special peril policy, group health insurance policy, workmen compensation policy. These insurance policies are renewed periodically to ensure that the coverage is adequate.

Our insurance covers our PPE, capital work-in-progress and inventories at our Manufacturing Facilities and our registered office. As of six months period ended September 30, 2023 and Fiscals 2023, 2022 and 2021, we carried an insurance coverage of ₹ 3,635.59 million, ₹2,903.40 million, ₹2,095.30 million and ₹1,442.00 million against the book value of our net block of property, plant and equipment, capital work-in-progress and inventories of ₹2,983.08million, ₹2,986.82 million, ₹ 2,361.56 million and ₹ 2,227.51 million, respectively as of September 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021, respectively thus having a coverage ratio of 121.87%, 97.21%, 88.73% and 64.74%, respectively of our PPE, capital work-in-progress and inventories. Presently, we do not have directors' and officers' policy for our directors and senior management.

We believe that our insurance coverage is in accordance with industry custom, including the terms of and the coverage provided by such insurances. Our policies are subject to standard limitations. Therefore, insurance might not necessarily cover all losses incurred by us and we cannot provide any assurance that we will not incur losses or suffer claims beyond the limits of, or outside the relevant coverage of, our insurance policies. In past, there are instances where our insurance claims were not satisfactorily honoured. For further details, see "**Risk Factors**" and "**Outstanding Litigation and Other Material Developments**" on page 45 and 449, respectively of this Red Herring Prospectus.

QUALITY ASSURANCE

We place great emphasis on quality assurance and product safety at each step of the production process, right from the procurement of our raw materials until the final product is packaged and ready for distribution to ensure that the quality of our products meets the expectations of our customers and achieves maximum customer satisfaction. Our Manufacturing Facilities in India have technologists approved by the EIA at our in-house analytical laboratory to perform microbiological and chemical testing of our raw material, during manufacturing and post-production stages. We also conduct sampling tests of our raw material and finished products on various parameters to ensure that the colour, odour, taste, appearance and nutrients of the raw materials and the finished products comply with applicable regulations and to meet the specific requirements of our customers. We ensure safety of our products and hygiene of our Manufacturing Facilities in India by implementing HACCP Program mandated by the FDA, in addition to the norms prescribed by Indian regulations.

With the help of our recording and labelling systems, we are able to track the products we ship to our customers and are able to trace the stages of production from the source of the raw material to the final packaged product. Our Facilities are also required to comply with requirements of applicable regulatory agencies as well as countries where we export our products. Mukka Manufacturing Facility – I and Atlantic Manufacturing Facility I are registered with Marine Products Export Development Authority ("MPEDA") and further Mukka Facility I is also registered with the Export Inspection Council of India. For further details relating to the accreditations and quality certifications obtained for our Facilities, see "**Government and Other Approvals**" on page 484 of this Red Herring Prospectus.

EXPORT AND EXPORT OBLIGATIONS

Our Company export our products to more than 10 (ten) countries. Some of the key geographies to which our Company export its products include Bangladesh, Chile, Malaysia, Myanmar, Philippines, Saudi Arabia, Oman,

Taiwan and Vietnam. During the six months ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, sales from exports of our Company, as a percentage of revenue from operations of our Company were 62.69%, 52.49%, 20.02% and 52.72%, respectively.

Our sales from exports are denominated in foreign currencies, mostly the U.S. Dollars. Therefore, changes in the relevant exchange rates could also affect our sales as reported in Indian Rupees as part of our financial statements. While our Company hedge a portion of the resulting net foreign exchange position, we are still affected by fluctuations in exchange rates among the U.S. dollar and the Indian Rupee.

As on September 30, 2023, our Company has Export Obligation of US\$ 0.05 million (equivalent ₹4.37 million) pending on account of duty saved under EPCG Scheme. Details are as mentioned below

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from the various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the local authorities that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. For details of Government Approvals obtained by the Company in compliance with these regulations, see “Government and Other Approvals” on page 484 of this Red Herring Prospectus.

Our Company and our Subsidiaries are engaged in the business of manufacture of fish meal, fish oil and fish soluble paste. Our business is governed by various central and state legislations that regulate the substantive and procedural aspects of our Company’s and Subsidiaries’ businesses. Our Company and Subsidiaries are required to obtain and regularly renew certain licenses/ registrations and / or permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye-laws, acts and policies.

Given below is a brief description of the certain relevant legislations that are currently applicable to the business carried on by our Company and its Indian Subsidiaries:

A. INDUSTRY RELATED LEGISLATION

1. The Factories Act, 1948

The Factories Act, 1948 (“Factories Act”) seeks to regulate labour employed in factories and makes provisions for the safety, health and welfare of the workers. An occupier of a factory under the Factories Act, means the person who has ultimate control over the affairs of the factory. The occupier or manager of the factory is required to obtain a registration for the factory. The Factories Act also requires inter alia the maintenance of various registers dealing with safety, labour standards, holidays and extent of child labour including their conditions. Further, notice of accident or dangerous occurrence in the factory is to be provided to the inspector by the manager of the factory. The Factories Act requires that the occupier of a factory, i.e., the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must ensure the health, safety and welfare of all workers especially in respect of safety and proper maintenance of the factory, such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers’ health and safety, cleanliness and safe working conditions. The Factories Act also provides for fines to be paid and imprisonment of the manager of the factory in case of any contravention of the provisions of the Factories Act.

2. The Marine Products Export Development Authority Act, 1972

The Marine Products Export Development Authority Act, 1972 (“MPEDA Act”) provides for the establishment of an authority for promoting the development of the marine products industry under the control of the Central Government and for matters connected therewith. The Marine Products Export Development Authority (“Authority”) has been established with such constitution and to perform such functions as specified in the MPEDA Act. The MPEDA Act prescribes the Authority to undertake measures with respect to, inter-alia, (i) development and regulation of off-shore and deep-sea fishing; (ii) fixation of standards and specification for marine products for the purposes of export; and (iii) carrying out inspection of marine products in any fishing vessel, processing plant and storage premises. Further, the MPEDA Act requires every owner of a fishing vessel, processing plant or storage premises for marine products or conveyance used for the transport of marine products to apply to the Authority for registration before the expiration of one month from the date on which he first became owner of such fishing vessel, processing plant, storage premises or conveyance owned by him. Such registration once made shall continue to be in force until it is cancelled by the Authority. The MPEDA Act also requires every such owner to submit to the Authority returns in the form and manner as prescribed thereunder. For the purposes of the MPEDA Act, the term “marine products” has been defined as to include all varieties of fishery products known commercially as shrimp, prawn, lobster, crab, fish, shell-fish, other aquatic animals or plants or parts thereof and any other products which the Authority may, by notification in the Gazette of India, declare to be marine products.

The MPEDA Act empowers the Central Government to make provisions for prohibiting, restricting or otherwise controlling the import or export of marine products, either general or in specified classes of cases.

3. **Export of Fresh, Frozen and Processed Fish and Fishery Products (Quality Control, Inspection and Monitoring) Rules, 1995**

Export of Fresh, Frozen and Processed Fish and Fishery Products (Quality Control, Inspection and Monitoring) Rules, 1995 (“**Export of Fresh, Frozen and Processed Fish and Fishery Rules**”) require feed mills, hatcheries, aquaculture farms, fishing harbours, landing/auction centres, fishing vessels, factory vessels, freezer vessels, pre-processing centres (independent/detached), ice plants (independent/detached), establishments and cold storages (independent/detached) which are desirous to process fish and fishery products require approval from the Export Inspection Council and Export Inspection Agencies to export such products to European Union (“EU”) and Russian Federation and Export, and Non-EU countries other than Russian Federation respectively. The Export of Fresh, Frozen and Processed Fish and Fishery Rules also require, inter-alia, a premise where fishery products are prepared, processed, chilled, frozen, packaged or stored to procure aquaculture products only from farms registered with Coastal Aquaculture Authority of India/Designated Authorities and monitored under the Surveillance of Competent Authority.

4. **Coastal Regulation Zone Notification, 2019**

Coastal Regulation Zone Notification, 2019 (“**CRZ Notification 2019**”) was notified on January 18, 2019 by the Ministry of Environment, Forest and Climate Change with a view to conserve and protect the unique environment of coastal stretches and marine areas, besides livelihood security to the fisher communities and other local communities in the coastal areas and to promote sustainable development based on scientific principles taking into account the dangers of natural hazards and sea level rise due to global warming. The CRZ Notification, 2019 restricts the setting up of new fish processing units, operations or processes and manufacture or handling or storage or disposal of hazardous substances as specified in the Hazardous Substances (Handling, Management and Transboundary Movement) Rules, 2009 in the Coastal Regulation Zone. The CRZ Notification, 2019 provides for detailed classification of the Coastal Regulation Zones into different zones for the purpose of conserving and protecting coastal areas and marine waters, and accordingly permits or prohibits the specific activities within each zone.

5. **Pradhan Mantri Matsya Sampada Yojana**

Pradhan Mantri Matsya Sampada Yojana (“**PMMSY**”) has been launched by the GoI with an aim to bring about Blue Revolution through the sustainable development of the fisheries sector over a period of five years (2020-2025). The PMMSY will focus on species diversification, value addition, end-to-end traceability, brand promotion in close collaboration with The Marine Products Exports Development Authority. The PMMSY also aims to enhance exports to ₹ 1,000,000 million by 2024-2025.

6. **Indian Marine Fisheries Bill, 2021**

The Indian Marine Fisheries Bill, 2021 (“**IMF Bill**”) aims to promote the livelihood and socio-economic well-being of traditional and small-scale fishers, to provide for the sustainable development of fisheries resources in the exclusive economic zone of India and to ensure responsible harnessing of fisheries in the high seas by the Indian fishing vessels. The IMF Bill proposes formulation of Marine Fisheries Development Plans for (i) sustainable development of marine fisheries along with value chain; (ii) promotion of livelihood and well-being of traditional and small-scale fishers (iii) enhancement of fish stocks through creation of artificial reefs and sea ranching; (iv) recreational fishing, aqua-sports, marine tourism and other activities aimed at promotion of additional livelihood opportunities; (v) capacity building of marine fishers; (vi) development of post-harvest fisheries infrastructure as may be required for strengthening the value chain; and (vii) safety nets and security of fishers at sea. It also seeks to regulate Indian fishing vessels who shall not be permitted to engage in fishing or fishing related activities in the exclusive economic zone and in the high seas without a valid licence.

7. **The Indian Boilers Act, 1923**

Under the provisions of the Indian Boilers Act, 1923 (“**Boilers Act**”), an owner of a boiler is required to get the boiler registered and certified for its use. The Boilers Act provides for inter alia the safety of life and property of persons from the danger of explosions of steam boilers and regulates the possession of steam boilers. It sets out the requirements for achieving uniformity in registration and inspection during operation and maintenance of boilers in India and provides for penalties for illegal use of boilers. It also prescribes standard requirements with respect to material, construction, safety and testing of boilers.

8. Electricity Act, 2003

The Electricity Act, 2003 (“**Electricity Act**”) was enacted to regulate the generation, transmission, distribution, trading and use of electricity by authorising a person to carry on the above acts either by availing a license or by seeking an exemption under the Electricity Act. Additionally, the Electricity Act states no person other than Central Transmission Utility or State Transmission Utility, or a licensee shall transmit or use electricity at a rate exceeding 250 watts and 100 volts in any street or place which is a factory within the meaning of the Factories Act, 1948 or a mine within the meaning of the Mines Act, 1952 or any place in which 100 or more persons are ordinarily likely to be assembled. An exception to the said rule is given by stating that the applicant shall apply by giving not less than 7 days’ notice in writing of his intention to the Electrical Inspector and to the District Magistrate or the Commissioner of Police, as the case may be, containing the particulars of electrical installation and plant, if any, the nature and purpose of supply of such electricity. The Electricity Act also lays down the requirement of mandatory use of meters to regulate the use of electricity and authorises the Commission so formed under the Electricity Act, to determine the tariff for such usage. The Electricity Act also authorises the State Government to grant subsidy to the consumers or class of consumers it deems fit from paying the standard tariff required to be paid.

9. Export Promotion Capital Goods Scheme (“EPCG Scheme”)

The EPCG Scheme allows import of capital goods for pre-production, production and post-production at zero customs duty. Such import of Import under EPCG Scheme shall be subject to an export obligation equivalent to 6 times of duty saved on capital goods, to be fulfilled in 6 years reckoned from date of issue of authorisation. An authorisation holder under the EPCG Scheme can export either directly or through third-party(s). In case, EPCG authorization holder fails to fulfil prescribed export obligation, he is required to pay duties of customs plus interest as prescribed by concerned authority.

10. Export (Quality Control and Inspection) Act, 1963 (“EQCI Act”)

The EQCI Act provides for the development of the export trade of India by ensuring quality control by conducting inspection. The EQCI Act establishes the Export Inspection Council (“**EIC**”) which advises the Central Government on matters regarding measures for enforcement of quality control and inspection in respect of commodities intended to be exported. An authorised officer under the EQCI Act has the power to enter, inspect and search the premises for concealed commodities and books of account providing for penal consequences in the event of any contravention of the provisions therein.

11. Shops and Commercial Establishments Legislation:

We are governed by various shops and establishments legislations, as applicable in the States where we operate. These regulations regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, and safety measures, and wages for overtime work.

B. EMPLOYEE AND LABOUR RELATED LEGISLATIONS:

The various labour and employment related legislation that may apply to our operations, from the perspective of protecting the workers’ rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include, among others, the following: (i) Contract Labour (Regulation and Abolition) Act, 1970; (ii) Relevant state specific shops and commercial establishment legislations; (iii) Employees’ Provident Funds and Miscellaneous Provisions Act, 1952; (iv) Employees’ State Insurance Act, 1948; (v) Minimum Wages Act, 1948; (vi) Payment of Bonus Act, 1965; (vii) Payment of Gratuity Act, 1972; (viii) Payment of Wages Act, 1936; (ix) Maternity Benefit Act, 1961; (x) Apprenticeship Act, 1961; (xi) Equal Remuneration Act, 1976; (xii) Employees’ Compensation Act, 1923; and (xiii) Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

Code on Wages, 2019

The Code on Wages regulates and amalgamates wage and bonus payments and subsumes four existing laws namely –the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employee. The Central

Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.

Code on Social Security, 2020

The Code on Social Security amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, Building and Other Construction Worker's Welfare Cess Act, 1996 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund Organisation and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

C. TAX RELATED LAWS:

1. Income-tax Act, 1961

Income-tax Act, 1961 ("IT Act") is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its 'Residential Status' and 'Type of Income' involved. Every assessee, under the IT Act, which includes a company, is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax and like.

2. Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017 ("CGST Act") regulates the levy and collection of tax on the intra- State supply of goods and services by the Central Government or State Governments. The CGST Act amalgamates a large number of Central and State taxes into a single tax. The CGST Act mandates every supplier providing the goods or services to be registered within the State or Union Territory it falls under, within 30 days from the day on which he becomes liable for such registration. Such registrations can be amended, as well as cancelled by the proper office on receipt of application by the registered person or his legal heirs. There would be four tax rates namely 5%, 12%, 18% and 28%. The rates of GST applied are subject to variations based on the goods or services.

3. Integrated Goods and Services Tax Act, 2017

Integrated Goods and Services Tax Act, 2017 ("IGST Act") is a Central Act enacted to levy tax on the supply of any goods and/ or services in the course of inter-State trade or commerce. IGST is levied and collected by Centre on interstate supplies. The IGST Act sets out the rules for determination of the place of supply of goods. Where the supply involves movement of goods, the place of supply shall be the location of goods at the time at which the movement of goods terminates for delivery to the recipient. The IGST Act also provides for determination of place of supply of service where both supplier and recipient are located in India or where supplier or recipient is located outside India. The provisions relating to assessment, audit, valuation, time of supply, invoice, accounts, records, adjudication, appeal etc. given under the CGST Act are applicable to IGST Act.

4. The Customs Act, 1962 and the Customs Tariff Act, 1975

The provisions of the Customs Act, 1962 and Rules made there under are applicable at the time of import of goods into India from a place outside India or at the time of export of goods out of India to a place outside India. Any company requiring to import or export any goods is required to get itself registered under this Act and obtain an Importer Exporter Code number. The Customs Tariff Act, 1975 provides the rates at which duties of customs will be levied under the Customs Act, 1962.

5. Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

6. Foreign Trade (Development and Regulation) Act, 1992

In India, the main legislation concerning foreign trade is Foreign Trade (Development and Regulation) Act, 1992 (“FTA”). The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the Act, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import Policy. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce. An Importer Exporter Code number allotted to an applicant is valid for all its branches/ divisions/ units/factories.

D. INTELLECTUAL PROPERTY LAWS

The Trademarks Act, 1999

Under the Trademarks Act, 1999 (“**Trademarks Act**”), a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A ‘mark’ may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colors or any combination thereof. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The trademark, once applied for and which is accepted by the Registrar of Trademarks (“**the Registrar**”), is to be advertised in the trademarks journal by the Registrar. Oppositions, if any, are invited and, after satisfactory adjudications of the same, a certificate of registration is issued by the Registrar. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

E. OTHER APPLICABLE LAWS

1. The Companies Act, 2013

The Companies Act, 2013 (“**Companies Act**”) deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning, and winding up of companies. The Companies Act prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial, and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors.

2. **The Consumer Protection Act, 1986**

The Consumer Protection Act, 1986 (“**Consumer Protection Act**”) was enacted to provide speedy and simple redressal to consumer disputes through quasi-judicial machinery set up at district, state and national level. The provisions of the Consumer Protection Act cover products as well as services.

3. **The Transfer of Property Act, 1882**

The transfer of property, including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the Transfer of Property Act, 1882 (“**T.P. Act**”). The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: The transfer of ownership in property for a price, paid or promised to be paid.
- Mortgage: The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- Charges: Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
- Leases: The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
- Leave and License: The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

4. **The Sale of Good Act, 1930**

The Sale of Goods Act, 1930 provides for the setting up of contracts where the seller transfers or agrees to transfer the title (ownership) in the goods to the buyer for consideration. It is applicable all over India. Under the act, goods sold from owner to buyer must be sold for a certain price and at a given period of time.

5. **The Registration Act, 1908**

The Registration Act, 1908 (“**Registration Act**”) was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

6. **The Indian Contract Act, 1872**

The Indian Contract Act, 1872 (“**Contract Act**”) lays down the essentials of a valid contract, it provides a framework of rules and regulations that govern the validity, execution and performance of a contract and codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

7. **The Specific Relief Act, 1963**

The Specific Relief Act, 1963 (“**Specific Relief Act**”) is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Specific Relief Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere

purpose of enforcing a civil law. Specific performance' means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

8. Competition Act, 2002

The Competition Act, 2002 ("**Competition Act**") aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India ("**Competition Commission**") which became operational from May 20, 2009, has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising, or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

9. Legislations pertaining to Stamp Duty

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 ("**Stamp Act**") which is enacted by the Central Government. All other instruments are required to be stamped, as per the rates prescribed by the respective State Governments in the respective schedules of the respective legislations pertaining to stamp duty as applicable in the State. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

10. Legal Metrology Act, 2009

The Legal Metrology Act, 2009 ("**the Legal Metrology Act**") replaces the Standards of Weights and Measures Act, 1976 and the Standards of Weights and Measures (Enforcement) Act, 1985. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matters connected therewith or incidental thereto. The Legal Metrology Act inter-alia requires any person who manufactures, repairs or sells, or offers, exposes or possesses for repair or sale, any weight or measure, to obtain a license issued by the Controller of Legal Metrology. It has been clarified that no license to repair is required by a manufacturer for repair of his own weight or measure in a State other than the State of manufacture of the same. The Legal Metrology Act inter-alia provides that any person who is required to obtain a license under the Legal Metrology Act or the rules made thereunder, repairs or sells, or offers, exposes or possesses for repair or sale, any weight or measure, without being in possession of a valid license, will be punished in the first instance with fine and for a subsequent offence, with imprisonment and/or fine.

F. ENVIRONMENTAL LAWS

1. The Environment Protection Act, 1986 and Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for co-ordination of the activities of various Central and State authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exists among water, air and land, and human beings and other living creatures such as plants, micro-organisms and property. Further, the Ministry of Environment and Forests looks into Environment Impact Assessment. The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment which is assessed by the Ministry in detail before granting clearances for such proposed projects.

2. The Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act, 1974 ("**the Water Act**") prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State Pollution Control Board ("**State PCB**"). The Water Act also provides that the consent of the State PCB must

be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent. The Water Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

3. **The Air (Prevention and Control of Pollution) Act, 1981**

The Air (Prevention and Control of Pollution) Act, 1981 (**“the Air Act”**), requires that any individual, industry or institution responsible for emitting smoke or gases by way of use of fuel or chemical reactions must apply in a prescribed form and obtain consent from the State PCB prior to commencing any activity. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four months after the receipt of the application for consent the State PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent. The Air Act prescribes penalties for contravention in terms of fine, imprisonment or both.

G. **REGULATIONS REGARDING FOREIGN INVESTMENT**

Foreign Exchange Management Act, 1999

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999 (**“FEMA”**), as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, The Department for Promotion of Industry and Internal Trade (**“DPIIT”**), Ministry of Commerce and Industry has issued the Consolidated FDI Policy which consolidates the policy framework on Foreign Direct Investment (**“FDI Policy”**), with effect from October 15, 2020. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till October 15, 2020.

In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where Government approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company.

Our Company is engaged in the activity of manufacturing of fish meal, fish oil and fish soluble paste. The FDI Policy issued by the DIPP permits foreign investment up to 100% in the manufacturing sector under the automatic route. No approvals of the Administrative Ministries/Departments or the RBI are required for such allotment of equity Shares under this Issue. Our Company will be required to make certain filings with the RBI after the completion of the Issue.

(II) Basis of Preparation of Restated Consolidated financial statements

The Restated Consolidated Financial Statements of the Group comprise of the Restated Consolidated Statement of Assets and Liabilities for period ended on 30 September 2023, 31 March 2023, 31 March 2022 and 31 March 2021, the related Restated Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Consolidated Statement of Cash Flows and the Restated Consolidated Statement of Changes in Equity for period ended on 30 September 2023, 31 March 2023, 31 March 2022 and 31 March 2021, and the Material Accounting Policies and explanatory notes (collectively, the 'Restated Consolidated Financial Statements'). These Restated Consolidated Financial Statements have been prepared by the Management of the Company in accordance with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time, issued by the Securities and Exchange Board of India ('SEBI') on 11 September 2018, in pursuance of the Securities and Exchange Board of India Act, 1992 ("ICDR Regulations") for the purpose of inclusion in the Red Herring Prospectus ('RHP') in connection with its proposed initial public offering of equity shares of face value of Rs. 1 each of the company comprising an issue of equity shares, prepared by the Company in terms of the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act");
 - b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and
 - c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI), as amended (the "Guidance Note").
- These Restated Consolidated Financial Statements have been compiled by the Management from:

Audited Consolidated financial statements of the Group as at and for Period ended September 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meeting held on **December 2023, September 29, 2023, September 07, 2022 and August 27, 2021 respectively**.

The accounting policies have been consistently applied by the Company in preparation of the Restated Consolidated Financial Statements are consistent with those adopted in the preparation of Statutory Consolidated Financial Statements for the year ended March 31, 2023. These Restated Consolidated Financial Statements have been prepared for the Group as a going concern on the basis of relevant Ind AS that are effective as at September 30, 2023.

The Restated Consolidated Financials Statements have been prepared on the historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);
- Defined benefits plan - plan assets measured at fair value;

The Restated Consolidated Financials Statements are presented in Indian Rupees "INR" or "Rs." and all values are stated as INR or Rs. millions, except when otherwise indicated.

(C) Principles of consolidation and equity accounting

(i) Subsidiaries

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the group. The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the restated consolidated statement of profit and loss, restated consolidated statement of changes in equity and restated consolidated statement of assets & liabilities respectively.

(ii) Associates

Associates are all entities over which the group has significant influence but not control. This is generally the case where group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

(iii) Investment in Partnership and Joint Venture Entities

A Joint Venture is a joint arrangement whereby the parties that have joint control of the arrangements have rights to the net assets of the joint arrangements. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The results and assets and liabilities of associates or joint ventures including partnership firms are incorporated in these restated consolidated financial statements using the equity method of accounting.

Annexure V
NOTES TO RESTATED CONSOLIDATED FINANCIAL STATEMENTS

(iv) Equity Method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment. When the group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group. The carrying amount of equity accounted investments are tested for impairment in accordance with the impairment policy.

(v) Changes in Ownership Interest

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity. When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss. If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(III) Foreign Currency Translation

(i) Functional and presentation currency

The Restated consolidated financial statements are presented in Indian rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using average exchange rates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/(losses). Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(IV) Use of Estimates

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are as follows:-

- i. Estimation of defined benefit obligation
- ii. Useful life of PPE, investment property and intangible assets
- iii. Identification of Government Grants
- iv. Estimation of tax expenses and tax payable
- v. Probable outcome of matters included under Contingent liabilities

(C) Summary of Material Accounting Policies.

(I) Revenue recognition

a The company derives revenue mainly from Domestic and Export Sales of Fish Meal, Fish Oil and Fish Soluble Paste. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, we apply the following five step approach:-

- (1) identify the contract with a customer
- (2) identify the performance obligations in the contract,
- (3) determine the transaction price,
- (4) allocate the transaction price to the performance obligations in the contract, and
- (5) recognize revenues when a performance obligation is satisfied.

Revenue from sale of products and services are recognised at a time on which the performance obligation is satisfied. In determining whether an entity has right to payment, the entity shall consider whether it would have an enforceable right to demand or retain payment for performance completed to date if the contract were to be terminated before completion for reasons other than entity's failure to perform as per the terms of the contract.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

b **Export incentives** : Export Incentives under various schemes are accounted in the year of export.

c Interest income is recognised on the time proportion basis taking into account the amount outstanding and the rate applicable.

d Rental income / lease rentals are recognized on accrual basis in accordance with the terms of agreements.

e Insurance and other claims are accounted for as and when admitted by the appropriate authorities in view of uncertainty involved in ascertainment of final claim.

f Other Income are recognized on accrual basis.

Annexure V
NOTES TO RESTATED CONSOLIDATED FINANCIAL STATEMENTS

(II) Government Grants

- a Government Grants Government grants (including export incentives and incentives on specified goods manufactured in the eligible unit) are recognised only when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants will be received.
- b Government grants relating to the purchase of property, plant and equipment are included in noncurrent liabilities as deferred income and are credited to the statement of Profit and Loss on a straight - line basis over the expected lives of related assets and presented within other income.

(III) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(IV) Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases are charged to Statement of Profit and Loss over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(V) Impairment of assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU (Cash Generating Unit) to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

(VI) Cash and Cash Equivalent

For the purpose of preparing the statement of cash flows, cash equivalents encompasses all highly liquid assets which are readily convertible into known amount of cash and which are subject to an insignificant risk of changes in value. Cash and cash equivalents represent cash on hand and unrestricted balance with bank. Overdrawn balances that fluctuate from debit to credit during the year are included in cash and cash equivalents.

(VII) Trade Receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109 'Financial Instruments', which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

(VIII) Inventories

Items of inventories consisting of finished goods produced or purchased, raw materials, consumables and packing materials are carried at lower of cost and realisable value after providing for obsolescence, if any. Cost of finished goods produced or purchases comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw materials, consumables and packing materials are determined on weighted average basis.

(IX) Investments and other financial assets

(a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(b) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

(c) Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(X) Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and are included in other gains/(losses).

Forward Contracts

Profit/loss from Forward contract is recognised on the difference between the exchange rate as on date of entering into contract and date of cancellation of contract.

(XI) Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Restated Consolidated Statement of Assets and Liabilities if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Annexure V

NOTES TO RESTATED CONSOLIDATED FINANCIAL STATEMENTS

(XII) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. Advances paid towards the acquisition of property, plant and equipment outstanding as on each Statement of Assets & Liabilities date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related cumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Restated Consolidated Statement of Profit and

Depreciation and amortisation.

Depreciation is provided using Straight Line Method in the manner and at the rates prescribed under Part C Schedule II of the Companies Act, 2013, or as per the useful lives of the assets estimated by the management. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the assets are available to the company for its use. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(XIII) Intangible assets

(a) Initial Recognition

Intangible Assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition.

(b) Subsequent

Intangible Assets are carried at cost less accumulated amortisation and impairment loss, if any.

(c) Amortisation

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Software - 3 Years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Indefinite life intangibles mainly consist of brands. Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not the change in useful life from indefinite to finite is made on a prospective basis.

(d) Derecognition

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

(XIV) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. They are recognised initially at their fair value and subsequently measured at amortised cost.

(XV) Borrowings

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(XVI) Borrowing Cost

Borrowing costs that are attributable to the acquisition or construction of qualifying assets which takes substantial period of time to get ready for its intended use is capitalised as part of the cost of that asset. All other borrowing costs are recognised as an expense in the year in which they are incurred. To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation on that asset will be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings. To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation will be determined by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

(XVII) Provisions, Contingent Liabilities & Contingent Assets.

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be outflow of resources. Contingent Liabilities are not recognized but are disclosed in Notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

(XVIII) Employee benefits

Liabilities for Salaries and Wages to employees are expected to be settled wholly within 12 months after the end of the period in which the employee renders the related service and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Restated Consolidated Statement of Assets & Liabilities.

(a) Short Term Employee Benefits.

Employee benefits payable wholly within twelve months of rendering of the service are classified as short term employees benefits and are recognised in the period in which the employee renders the related service.

(b) Defined Contribution Plan:

Defined Contribution Plans such as Provident Fund etc., are charged to the Statement of Profit and Loss as incurred.

(c) Defined Benefits Plan:

Post employment and other long term employee benefits in the form of Gratuity is considered as defined benefit obligation.

Gratuity

Gratuity is provided for the year under Defined Benefit Plan as per the Actuarial valuation. The liability or asset recognized in the Restated Consolidated Statement of Assets and Liabilities in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are adjusted to retained earnings in the statement of changes in equity and in the Restated Consolidated Statement of Assets and Liabilities.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(XIX) Contribution Equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(XX) Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

(XXI) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupees in Million as per the requirement of Schedule III, unless otherwise stated.

a During the financial year 2017-18 a search and seizure operation under Section 132 of the Income Tax Act, 1961 was carried out by the Income Tax Authorities on the Company's premises. The company has filed income tax return u/s 153A of the Income tax Act for the Assessment year 2012-13 to 2017-18. The company has received assessment order under section 153A for AY 2012-13 to 2017-18 and under section 143(3) for AY 2018-19 wherein Income tax department raised demand against the company. Company appealed against the orders to Commissioner of Income Tax (Appeals).

The Company is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

b Income Tax Liability under Contigent Liability Head includes Rs. 3.13 million share of Mangalore Fishmeal & oil company for the period ended September 30, 2023.

Fair Value Hierarchy

The carrying amount of the current financial assets and current financial liabilities are considered to be same as their fair values, due to their short term nature. In absence of specified maturity period, the carrying amount of the non-current financial assets and non-current financial liabilities such as security deposits, are considered to be same as their fair values. With respect to Corporate Guarantees, the management has determined the fair value of such guarantee contracts as 'Nil' as the subsidiary company is not being benefited significantly from such guarantees.

40 Note 41 Financial Risk Management

The Company has exposure to the following risks from its use of financial instruments :

- > Credit risk
- > Liquidity Risk
- > Market Risk

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established a risk management policy to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risk and adherence to limits. Risk management systems are reviewed periodically to reflect changes in market conditions and the Company's activities.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company has medium exposure to said market risk.

Notes:

(1) The ratios on the basis of Restated Consolidated Financial Information have been computed as below:

i. Basic Earnings per Share = Restated profit for the period/year attributable to the attributable to the Equity Shareholders of our Company/Weighted average number of equity shares outstanding during the period/year. The weighted average number of Equity Shares outstanding during the year is adjusted for treasury shares, bonus issue and sub-division of Equity Shares.

ii. Diluted Earnings per Share = Restated profit for the period/year attributable to equity holders of our Company/Weighted average number of equity shares outstanding during the period/year considered for deriving basic earnings per share and the weighted average number of Equity Shares which could have been issued on the conversion of all dilutive potential Equity Shares including the treasury shares held by our Company to satisfy the exercise of the share options by the employees.

iii. Return on Net worth attributable to the Equity Shareholders of our Company (%) = Restated profit for the period/year attributable to equity holders of the parent/ Net worth attributable to our Company as at the end of the period/year. Return on Net worth attributable to the Equity Shareholders of the Company is a non-GAAP measure.

iv. Net Asset Value per Equity Share = Net worth / Weighted average number of equity shares outstanding as at the end of year/period.

The weighted average number of equity shares have been adjusted for sub-division of shares and bonus issuance.

v. Adjusted EBITDA is calculated as Restated profit before exceptional items and tax minus Other Income plus Finance Costs, Depreciation and amortisation expense.

vi. Adjusted EBITDA Margin (%) is the percentage of Adjusted EBITDA divided by Revenue from operations.

vii. EBITDA is calculated as Adjusted EBITDA plus Other Income.

viii. EBITDA Margin (%) is calculated as EBITDA divided by Revenue from operations.

ix. ROCE is calculated as EBIT as a % of Capital employed wherein capital employed refers to sum Total Equity and Net Debt. EBIT is calculated as Adjusted EBITDA minus depreciation and amortisation.

Other financial information

In accordance with SEBI ICDR Regulations, the audited standalone financial statements of our Company and our material subsidiaries, Atlantic Marine Products Private Limited, identified in accordance with the SEBI ICDR Regulations for the financial years ended March 31, 2023, March 31, 2022, and March 31, 2021, together with all the annexures, schedules and notes thereto (collectively, the “**Standalone Financial Statements**”) are available at www.mukkaproteins.com. Our Company is providing a link to this website solely to comply with the requirements specified in the SEBI ICDR Regulations.

The Standalone Financial Statements do not constitute, (I) a part of this Red Herring Prospectus; or (ii) a prospectus, a statement in lieu of a prospectus, an offering circular, an offering memorandum, an advertisement, an offer or a solicitation of any offer or an offer document to purchase or sell any securities under the Companies Act, 2013, the SEBI ICDR Regulations, or any other applicable law in India or elsewhere in the world. The Standalone Financial Statements and the reports thereon should not be considered as part of information that any investor should consider in order to subscribe for or purchase any securities of our Company, its Subsidiaries or any entity in which it or its shareholders have significant influence (collectively, the “Group”) and should not be relied upon or used as a basis for any investment decision. None of the Group or any of its advisors, nor the BRLM, nor any of their respective employees, directors, affiliates, agents or representatives accept any liability whatsoever for any loss, direct or indirect, arising from any information presented or contained in the Standalone Financial Statements, or the opinions expressed therein.

Non-GAAP measures

In addition to our results determined in accordance with Ind AS, we believe the following non-GAAP measures are useful to Bidders in evaluating our operating performance and liquidity. We use the following non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that non-GAAP financial information, when taken collectively with financial measures disclosed financial statements and prepared in accordance with Ind AS, may be helpful to Bidders because it provides an additional tool for Bidders to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these non-GAAP measures in isolation or as an alternative to financial measures of our performance and liquidity that is not required by, or presented in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. Further, these non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP.

Non-GAAP financial information is presented for supplemental informational purposes only, has limitations as an analytical tool and should not be considered in isolation or as a substitute for financial information disclosed in financial statements and presented in accordance with Ind AS. Non-GAAP financial information are not standardised terms, hence a direct comparison of these non-GAAP Measures between companies may not be possible and these measures may be different from similarly titled non-GAAP measures used by other companies. Other companies may calculate these non-GAAP measures differently from us, limiting its usefulness as a comparative measure. Non-GAAP financial measures are not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Our non-GAAP financial measures are not a measurement of financial performance or liquidity under these accounting standards and should not be construed in isolation or construed as an alternative to cash flows, restated loss for the period or any other measures of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated from our operating, investing or financing activities, derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by Ind AS to be recorded in our financial statements, as further detailed below. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. A reconciliation is provided below for the non-GAAP financial measures to the most directly comparable financial measure disclosed in financial statements. Bidders are encouraged to review the related Ind AS financial measures and the reconciliation of non-GAAP financial measures to their most directly comparable Ind AS financial measure included below and to not rely on any single financial measure to evaluate our business. For further details, see ***“Risk Factors – We have in this Red Herring Prospectus included certain Non-GAAP Measures that may vary from any standard methodology that is applicable across the Indian port industry and may not be comparable with financial information of similar nomenclature computed and presented by other companies.”*** on page 101.

Notes:

(1) Pursuant to a Shareholders' resolution dated February 28, 2022, equity shares of face value of ₹ 10 each of our Company were subdivided into Equity Shares of face value of ₹1 each. Consequently, the issued and paid-up equity share capital of our Company, comprising 2,20,00,000 equity shares of face value of ₹ 10 each, was sub-divided into 220,000,000 Equity Shares of face value of ₹1 each. Accordingly, the above financial information has been calculated after giving effect to such sub-division.

(2) Pursuant to the Shareholder's resolution passed at the Extra-ordinary General Meeting held on January 18, 2022, our Company issued (3) three bonus shares of face value ₹1 each for every one existing fully paid-up Equity Share of face value ₹1 each. Hence, for the purpose of calculation of the above financial information, the number of Equity Shares outstanding at the end of the respective period/year have been considered after factoring in the aforementioned bonus issue.

Overview

We manufacture fish meal, fish oil and fish soluble paste which is an essential ingredient in the manufacturing of aqua feed (for fish and shrimp), poultry feed (for broiler and layer) and pet food (dog and cat food) (*Source: CRISIL Report*). Further, fish oil also finds its application in pharmaceutical products (additionally, the EPA-DHA extraction is used as an ingredient in nutraceuticals), soap manufacturing, leather tanneries & paint industries (*Source: CRISIL Report*). We sell our products domestically and also exports them to over 10 countries, including Bahrain, Bangladesh, Chile, Indonesia, Malaysia, Myanmar, Philippines, China, Saudi Arabia, South Korea, Oman, Taiwan and Vietnam.

As of September 30, 2023, our product portfolio comprised of fish meal, fish oil, fish soluble paste and insect meal. We manufacture these products as per customer specification or as per standard parameters.

For Fiscal 2023, Fiscal 2022, and Fiscal 2021, our total revenue was ₹11,838.04 million, ₹7,761.45 million and ₹ 6,099.52 million, respectively, and our profit after tax for the year was ₹ 475.25 million, ₹ 258.19 million and ₹ 110.10 million, respectively. Our EBITDA in Fiscal 2023, Fiscal 2022 and Fiscal 2021 was ₹943.11 million, ₹542.39 million and ₹318.19 million, respectively. For the six months period ended September 30, 2023, our total revenue, profit after tax and EBITDA were ₹6,128.81 million, ₹329.81 million and ₹613.06 million, respectively.

Principal Factors Affecting our Results of Operations

Our financial performance and results of operations are influenced by a variety of factors, including without limitation, fish catch, severe weather conditions, global and domestic competition, conditions in the markets of our customers, general economic conditions, change in costs of raw materials and government regulations and policies. Some of the more important factors are discussed below, as well as in the section titled “**Risk Factors**” on page 45 of this Red Herring Prospectus.

Raw materials price fluctuations and availability

Our cost of goods sold (which is the aggregate of our cost of materials consumed and changes in inventories of finished goods) makes up a large portion of our operating expenses. During the six months ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, our cost of goods sold (cost of materials consumed and changes in inventories of finished goods) amounted to ₹4,880.15 million, ₹9,487.67 million, ₹ 6,347.21 million and ₹ 5,137.44 million, respectively, which represented 80.52%, 80.60%, 82.38% and 85.08% of our revenue from operations for the respective periods. We source raw materials primarily from third-party suppliers, such as local fish catchers, fish processing units and fish meal suppliers. Our raw materials include pelagic fish, fish remains, fish meal, fish oil and insect meal. We usually do not enter into long-term supply contracts with any of our raw material suppliers and typically source raw materials from third-party suppliers in the open market, except in some instances where we have contracts of shorter periods for supply of fish remains. The prices of our raw materials, being raw fish have been volatile and any increases in the prices of these materials have an impact on our costs of production. Our Company also import fish meal, as raw material from our subsidiary and other vendors. The cost of import of raw material of our Company for the Fiscal 2023 reduced to ₹ 95.88 million from ₹ 1,114.68 million in Fiscal 2021, which can be primarily attributed to availability of raw material in domestic market and also higher landed cost of imports.

Further, we also source fish meal, fish oil and fish soluble paste as raw materials from partnership firms, namely Ullal Fish Meal and Oil Company, Mangalore Fish Meal and Oil Company, Progress Frozen and Fish Sterilization and Pacific Marine Products, where our Company have significant capital interest (collectively “**Partnership Facilities**”). These products are further processed and blended at our Blending Facilities in order to cater the need of our customers.

In addition, as of September 30, 2023, we have entered into contractual arrangement with third-party manufacturing units, situated at Sasihithlu (Karnataka), Udipi (Karnataka), Ullal (Karnataka), Taloja (Maharashtra), Porbandar (Gujarat) and Mangrol (Gujarat), which are strategically located to ensure availability of our key raw material and also to increase our presence across the western coastline of India. We typically enter into third-party manufacturing agreements for shorter period with provisions for renewal. With (2) two of our third-party manufacturers located in Udipi (Karnataka) and Ullal (Karnataka), we have entered into job work

arrangement, where we provide them the raw material and receive corresponding output of the products manufactured by them. With respect to our arrangement with other 6 (six) third-party manufacturers, 1 (one) located in Porbandar (Gujarat), 1 (one) located in Mangrol (Gujarat), 3 (three) located in Taloja (Maharashtra) and 1 (one) located in Sasiythlu (Karnataka), we have entered into arrangement with these third-party manufacturers to procure 100% of their production output, respectively. Our Company continuously seeks to identify new manufacturing units, on job work basis or similar arrangements, to achieve operational efficiency and also to have access to our primary raw material, i.e., pelagic fish.

The prices of our raw materials are generally based on, or linked to, the quantity of fish landing and is also seasonal in nature, for instance fishing is not allowed in Indian waters during June-July as it is the monsoon season (*Source: CRISIL Report*). As a result, our revenues may fluctuate due to volatility in supply of raw material. Further, variation in the prices of other source of protein meals like soya, vegetable base, etc, can also impact our profitability. However, we may be able to pass on these price variations to our customer. In Fiscal 2023, our cost of materials as a percentage of total revenue decreased, primarily due to (i) better yield of finished products on account of good quality of pelagic fish and improved utilization of raw materials; and (ii) increase in the price of our finished goods. However, we cannot assure you that the prices of our raw materials would not increase in the future or that our pricing model will enable us to avoid all effects from fluctuations in raw fish prices.

Seasonal Variations and Weather Conditions

Our business and consequently our results of operations are affected by seasonal variations and weather conditions. For example, supply of pelagic fish, which is our primary raw material is nature-dependent and is also subject to regulatory and environment conditions. Over-fishing may increase the output for one season but it may affect the availability of fish in the long run and hence measures are taken from time to time to ensure sustainable fishing and thus an ecological balance. For instance, in Kerala, agencies have implemented minimum fishing size regulation since 2015 so that juvenile fish are not caught, and breeding is not disrupted by over-fishing. Hence, only adult fish can be caught by the fishermen's in Kerala. In India, the peak season for fishing is August-December and the slack season is January-May (*Source: CRISIL Report*). Seasonal variations and adverse weather conditions affect the availability and price of the raw materials that we require for our manufacturing operations.

Foreign exchange rate risk

Our financial statements are prepared in Indian Rupees. However, our sales from exports and a portion of our raw material expenditures are denominated in foreign currencies, mostly the U.S. Dollar. Accordingly, we have currency exposures relating to buying, selling and financing in currencies other than in Indian Rupees, particularly the U.S. Dollar. The following table sets out our revenues denominated in foreign currencies and their percentage in comparison with revenue from operations for the six-months period ended September 30, 2023 and Fiscal 2023, Fiscal 2022 and Fiscal 2021:

(₹ in millions except ratio)

Revenues	Six-months period ended September 30, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Revenue outside India	3,993.66	6,690.67	1,964.13	3,278.00
Percentage of Revenue from Operations	65.89%	56.84%	25.49%	54.29%
Purchase outside India	467.24	980.06	720.71	1,418.71
Percentage of Revenue from Operations	7.71%	8.33%	9.35%	23.49%
Revenue from Operations	6,060.94	11,771.22	7,705.03	6,038.34

Our revenue and profit are affected by volatility in the currencies in which we earn our revenues. Our results of operations will be impacted by the relative value of the rupee compared to other currencies. Unfavourable fluctuations in foreign currency exchange rates have had an adverse effect and could in the future have a material adverse effect, on our results of operations. To manage our foreign exchange risk, we hedge our foreign exchange exposure. Our Company has substantially hedged its foreign currency risk and the forward contract cover position as on September 30, 2023 is ₹1,081.04 million (equivalent to US Dollar 13 million), against total foreign currency receivable of ₹1,142.26 million.

For the Fiscal 2022 and Fiscal 2021, we have recorded foreign exchange fluctuation gain of ₹12.94 million and ₹31.63 million, respectively, while we have recorded foreign currency loss of ₹51.16 million for Fiscal 2023. For the six months period ended September 30, 2023, we have recorded foreign exchange fluctuation gain of ₹36.99 million. There can be no assurance that we will continue to record gains from foreign exchange fluctuations or any hedging measures we take will enable us to avoid the effect of any adverse fluctuations in the value of the Indian Rupee against the U.S. Dollar or other foreign currencies.

Capital expenditure

We require capital to maintain our existing facilities, as well as to acquire new sites, to expand our existing facilities and to construct new facilities. In the six months period ended September 30, 2023 and Fiscal 2023, Fiscal 2022 and Fiscal 2021, we have incurred capital expenditure towards building and plant & machinery of ₹39.29 million and ₹58.16 million, ₹ 92.67 million and ₹ 85.10 million, respectively. A significant amount of our capital expenditure was aimed at improving our existing manufacturing operations and towards purchase of plant and equipment and construction and expansion of buildings for our operations.

Dependence of demand from Aqua Feed, Poultry Feed and Pet Food industries

We supply our products to manufacturers of aqua feed, poultry feed and pet food and also through local and global traders. Our supply to feed manufacturers constituted 73.49%, 86.03% and 60.74% of our revenue from operations for the Fiscal 2023, Fiscal 2022 and Fiscal 2021 and 69.89% for the six months period ended September 30, 2023.

Reliance on major customers and relatively few products

Our customer base currently comprises a host of multinational and domestic companies. However, our top 5 customers represent a significant portion of our revenue. Of our revenue from operations in the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 our largest customer contributed approximately 23.86%, 29.48%, 50.37% and 35.58%, respectively; our top 5 customers contributed to approximately 58.09%, 53.09%, 80.31% and 76.50%, respectively; and our top 10 customers contributed 72.29%, 69.04%, 89.57% and 83.82%, respectively. We expect that we will continue to be reliant on our major customers for the foreseeable future. We have long-term relationships and ongoing active engagements with many of our customers. Accordingly, any decrease in orders from any of these select customers and/or failure to retain such customers on terms that are commercially viable could adversely affect our business, financial condition and results of operations. In addition, any defaults or delays in payments by a major customer or a significant portion of our customers may have an adverse effect on business, financial condition and results of operations.

We do have any supply contracts with our customers.

Competition

We operate in a competitive business, both in India and overseas. Some of our competitors especially overseas competitors may have greater financial resources, better distribution network, technical and marketing resources and generate greater revenues, and therefore may be able to respond better to market changes than we can. However, we continuously strive to remain competitive and identify emerging opportunities. We believe that our consistent tracking of markets, and our ability to deliver products with requisite specification and our consistent interaction with our customers is a key to our competitiveness.

Further, the industries in which we operate are not easy to break-into due to high entry barriers such as stringent regulatory and customer's approval process. Further, MPEDA through its notification dated September 30, 2019, in its efforts toward sustainable development and to curb over-exploitation of food fish resources, has declared a moratorium on the registration of new fish meal and fish oil units and on enhancement of production capacity by existing fish meal units with effect from January 1, 2020 till further notice.

To promote exports, lower the cost of imports and cost of production, the government has announced reduction in import duty on certain products required for shrimp feed - basic customs duty on fish meal from 15% to 5%, on krill meal from 15% to 5%, on algal prime (flour) from 30% to 15%, on fish lipid oil from 30% to 15% and on mineral and vitamin premixes from 15% to 5%. With lowering down of import duty on fish meal in union budget of 2023-24, CRISIL MI&A Research, expects the competition in the fish meal industry to intensify as a result of consolidation of existing players (*Source: CRISIL Report*).

Due to shortage of fish meal production in Peru (*Source: CRISIL Report*), the impact of reduction in import duty

by India should not have any significant impact on our domestic sales on account of higher demand of fish meal from countries like China, Taiwan and Vietnam. Our competitors may succeed in developing products that are more popular or cheaper than any that we may develop, which may render our products uncompetitive and adversely affect our business and financial results. Some of our competitors may have greater financial resources, better distribution network, technical and marketing resources and generate greater revenues, and therefore may be able to respond better to market changes than we can.

For further details on our competition, please see section titled “*Industry Overview*” on page 169 of this Red Herring Prospectus.

Government Regulations and Policies

Government regulations and policies, of India, Oman and in countries to which we export, can affect the demand for, expenses related to and availability of our products and their raw materials. These regulations and policies are extensive and cover a broad range of industries, some of which are politically sensitive. These regulations and policies and the tax regimes to which we are subject could change at any time, with little or no warning or time for us to prepare. For further details see, “*Risk Factors – Internal Risk Factors - We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations*” and “*Risk Factors – Internal Risk Factors - Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations* ” on page 51 of this Red Herring Prospectus.

We are currently entitled to certain export benefits including duty drawback received from the Government of India under export promotion schemes like the Duty Drawback Scheme and the Remission of duties or taxes on export products (RODTEP). Under the Duty Drawback Scheme, we are entitled to a refund of duty paid on the imported capital goods or inputs used in the products manufactured by us. This allows us to neutralize the duty impact of the goods imported. The RODTEP enables us to claim rebate of all hidden central, state and local duties /taxes/levies on the goods exported which have not been refunded under any other existing scheme. Changes in regulations or withdrawal of such incentives and schemes could impact our revenues. We are also subject to the regulatory framework of the various international markets where we export our products. The markets where we export our products to may become inaccessible or less accessible as a result of trade embargoes, import restrictions, quotas, anti-dumping duties, tariffs or other forms of trade barriers introduced by countries where we export our products.

Costs of power and fuel

As part of our manufacturing operations, we require a steady and abundant supply of power and steam. The power requirements of our manufacturing facilities, blending facilities and storage facilities in the state of Karnataka are met through local state power grid, Mangalore Electricity Supply Company Limited and the power requirements of our manufacturing facilities, blending facilities and storage facilities in the state of Gujarat is met through local state power grid, Paschim Gujarat Vij Company Limited. We also maintain 3 (three) diesel generator of which 2 (two) diesel generator of 400 KVA each is maintained at Mukka Manufacturing Facility I and 1 (one) diesel generator of 625 KVA is maintained at Mukka Manufacturing Facility II, which is used on a stand-by basis to meet any disruption in power supply. We use briquettes and woods as fuel for our boilers for generating steam in our Manufacturing Facilities.

Our utility expenses based on our restated consolidated financial information is 0.72%, 0.52%, 0.59% and 0.60% of our revenue from operations and constituting 0.77%, 0.55%, 0.62% and 0.61% of our total expenses for the six months period ended September 30, 2023 and in the Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively.

Significant Accounting Policies

The notes to the Restated Consolidated Summary Statements included in this Red Herring Prospectus contain a summary of our significant accounting policies. Set forth below is a summary of our most significant accounting policies adopted in preparation of the Restated Consolidated Summary Statements.

Basis of preparation

The Restated Consolidated Summary Statements have been prepared for the purpose of inclusion in this Red

Herring Prospectus in connection with the Issue. The Restated Consolidated Summary Statements have been prepared in accordance with Ind AS, Section 26 of Part I of Chapter III of the Companies Act, 2013, the SEBI ICDR Regulations and the ICAI Guidance Note.

The preparation of the Restated Consolidated Summary Statements requires our management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these judgements, assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Principles of consolidation and equity accounting.

The Restated Consolidated Financial Statements relate to the Company and its subsidiary company and joint ventures. The Restated Consolidated Financial Statements have been prepared on the following basis:

- (a) The financial statements of the parent and its subsidiaries are combined line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated.
- (b) Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.
- (c) The results and assets and liabilities of associates or joint ventures including partnership firms are incorporated in these restated consolidated financial statements using the equity method of accounting.

The restated consolidated financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the holding company, i.e., period ended September 30, 2023, Years ended March 31, 2023, March 31, 2022 and March 31, 2021.

The accounting policies have been consistently applied by the Company in preparation of the Restated Consolidated Financial Statements are consistent with those adopted in the preparation of Statutory Consolidated Financial Statements for the year ended March 31, 2023. These Restated Consolidated Summary Statements have been prepared for the Group as a going concern on the basis of relevant Ind AS that are effective as at September 30, 2023.

Use of Estimates

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are as follows; i Estimation of defined benefit obligation ii. Useful life of PPE, investment property and intangible assets iii. Identification of Government Grants iv. Estimation of tax expenses and tax payable v. Probable outcome of matters included under Contingent liabilities

Significant Accounting Policies.

Revenue recognition

The company derives revenue mainly from Domestic and Export Sales of Fish Meal, Fish Oil and Fish Soluble Paste. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services

Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases are charged to Statement of Profit and Loss over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Cash and Cash Equivalent

For the purpose of preparing the statement of cash flows, cash equivalents encompass all highly liquid assets which are readily convertible into known amount of cash and which are subject to an insignificant risk of changes in value. Cash and cash equivalents represent cash on hand and unrestricted balance with bank. Overdrawn balances that fluctuate from debit to credit during the year are included in cash and cash equivalents.

Trade Receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109 'Financial Instruments', which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Inventories

Items of inventories consisting of finished goods produced or purchased, raw materials, consumables and packing materials are carried at lower of cost and realisable value after providing for obsolescence, if any. Cost of finished goods produced or purchases comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Cost of raw materials, consumables and packing materials are determined on weighted average basis.

Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. Advances paid towards the acquisition of property, plant and equipment outstanding as on each Statement of Assets & Liabilities date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-

progress'. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related cumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Restated Consolidated Statement of Profit and Loss.

Depreciation and amortisation.

Depreciation is provided using Straight Line Method in the manner and at the rates prescribed under Part C Schedule II of the Companies Act, 2013, or as per the useful lives of the assets estimated by the management. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the assets are available to the company for its use. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Intangible assets

Intangible Assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per payment terms. They are recognised initially at their fair value and subsequently measured at amortised cost.

Borrowings

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Borrowing costs that are attributable to the acquisition or construction of qualifying assets which takes substantial period of time to get ready for its intended use is capitalised as part of the cost of that asset. All other borrowing costs are recognised as an expense in the year in which they are incurred.

Provisions, Contingent Liabilities & Contingent Asset

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be outflow of resources. Contingent Liabilities are not recognized but are disclosed in Notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

Employee benefits

Liabilities for Salaries and Wages to employees are expected to be settled wholly within 12 months after the end of the period in which the employee renders the related service and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Restated Consolidated Statement of Assets & Liabilities.

Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the

weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive, potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

Contribution Equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceed.

Non-GAAP Financial Measures

In addition to our results determined in accordance with Ind AS, we believe the following non-GAAP measures are useful to our Company and our investors as a means of assessing and evaluating our performance in comparison to prior periods. We use the following non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes: EBITDA, EBITDA Margin, PAT Margin, ROE, Capital Employed, ROCE, Debt, Net Debt, Debt- Equity Ratio, Net Debt-EBITDA Ratio, Net Worth, Return on Net Worth, Net Asset Value per Equity Share, Pre-Tax Operating Profit, Net Tangible Assets, Monetary Assets and % of Monetary Assets to Net Tangible Assets. We believe that non-GAAP financial information, when taken collectively with financial measures prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with Ind AS.

Non-GAAP financial information is presented for supplemental informational purposes only, has limitations as an analytical tool and should not be considered in isolation or as a substitute for financial information presented in accordance with Ind AS. Non-GAAP financial information are not recognized under Ind AS and do not have standardized meanings prescribed by IND AS. In addition, non-GAAP financial measures used by us may differ from similarly titled non-GAAP measures used by other companies. The principal limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by Ind AS to be recorded in our financial statements, as further detailed below. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these non-GAAP financial measures. A reconciliation is provided below for each non-GAAP financial measure to the most directly comparable financial measure prepared in accordance with Ind AS. Investors are encouraged to review the related Ind AS financial measures and the reconciliation of non-GAAP financial measures to their most directly comparable Ind AS financial measures included below and to not rely on any single financial measure to evaluate our business.

Total Revenue: Total revenue increased by 52.52% to ₹ 11,838.04 million for the Fiscal 2023 from ₹ 7,761.45 million for the Fiscal 2022 due to increase in revenue from operations and other income. Increases in our total revenue and revenue from operations between Fiscal 2023 and Fiscal 2022, we experienced higher export sale by our Company which was partly offset by a lower domestic sale.

Revenue from operations: Revenue from operations increased by 52.77% to ₹ 11,771.22 million for the Fiscal 2023 from ₹ 7,705.03 million for the Fiscal 2022, primarily due to an increase in revenue of export sale from ₹ 1,964.13 million in Fiscal 2022 to ₹ 6,690.67 million for the Fiscal 2023. Increase in export sales was primarily driven by (i) increase in sales volumes of fish meal (by approximately 137.27%) and fish oil (by approximately 787.98%); and (ii) increase in export selling price of fish meal by an average of (approx) 16.35%, resulting in high realization per kg of sale. However, the increase in export sale was offset by lower domestic sales as compared to the Fiscal 2022. The lower domestic sales were on account of higher focus on export sales as price realisation on export sale were higher for the period. Further, the increase in revenue from operations was also supported by higher export benefits of ₹ 207.21 million in Fiscal 2023 as compared to ₹ 43.27 million in Fiscal 2022.

Other Income: Other income increased by 18.42% from ₹56.43 million in Fiscal 2022 to ₹ 66.82 million in Fiscal 2023 primarily due to increase in (i) Interest on Capital from Partnership Firm from ₹ 6.18 million in Fiscal 2022 to ₹ 13.25 million in Fiscal 2023; (ii) Insurance claim from ₹ 0.44 million in Fiscal 2022 to ₹ 12.51 in Fiscal 2023; (iii) Other Non - Operating Income from ₹4.12 million in Fiscal 2022 to ₹ 20.59 in Fiscal 2023. However, the increase in other income was partially offset by decrease in interest income, rent income, foreign exchange fluctuation gain, remuneration from the partnership firm and sundry balance written back.

Total expenses: Total expenses increased by 51.02% to ₹ 11,193.22 million for the Fiscal 2023 from ₹ 7,411.77 million in the Fiscal 2022 primarily due to increases in cost of material consumed, employee benefits expense, finance, depreciation and amortization and other expenses.

Cost of Materials Consumed: Cost of materials consumed increased by 56.01% to ₹10,136.17 million in Fiscal 2023, primarily due to higher volumes of products manufactured due to higher sales. Further, there was an increase in the cost of pelagic fish by 11.01% (approx.) and also a 8.29% (approx.) increase in cost of other raw materials, during the corresponding period.

Change in inventories of finished goods: Changes in inventories of finished goods increased to ₹648.50 million in the Fiscal 2023 as compared to increase by ₹150.12 million in Fiscal 2022. In relation to inventories of finished goods, we had an opening stock of ₹1,645.01 million and a closing stock of ₹2,293.51 million for the Fiscal 2023, and an opening stock of ₹1,494.89 million and a closing stock of ₹1645.01 million for the Fiscal 2022. The higher closing inventories for Fiscal 2023 can be attributed to higher production during the period. The closing inventory for Fiscal 2023 is 71 days which is line with our normal inventory level.

Employee Benefits Expense: Our employee benefits expense increased by 27.39% from ₹193.57 million in Fiscal 2022 to ₹ 246.59 million in Fiscal 2023, due to an increase in salaries and wages to ₹205.69 million for the Fiscal 2023 from ₹ 167.99 million for the Fiscal 2022 and also increase in bonus and staff welfare expenses from ₹18.87 million in Fiscal 2022 to ₹33.04 million in Fiscal 2023, which was mainly attributable to (i) an increase in our permanent employee head count to 385 employees from 319 employees, and (ii) annual increments in employee

salaries, wages and bonus paid during the Fiscal 2023.

Finance Costs: Our finance costs increased by 70.22% from ₹ 96.80 million in Fiscal 2022 to ₹164.77 million in Fiscal 2023, primarily due to an increase in interest expenses and other borrowing costs on account of increase in bill discounting charges on TREDS facilities.

Depreciation and Amortization Expense: Our depreciation and amortization expense increased marginally by 38.61% from ₹ 85.79 million in Fiscal 2022 to ₹ 118.92 million in Fiscal 2023, primarily due to an increase in depreciation on Right of use Assets from ₹4.21 in Fiscal 2022 to ₹8.46 million in Fiscal 2023 and on building by 25.47% from ₹7.50 million in Fiscal 2022 to ₹9.41 million in Fiscal 2023.

Other expenses: Other expenses increased by 70.72% from ₹688.41 million in Fiscal 2022 to ₹1,175.26 million in Fiscal 2023, generally in line with the increase in our production volume. The increase in other expenses was primarily due to (i) job work charges to ₹199.85 million for the Fiscal 2023 from ₹ 126.50 for the Fiscal 2022, which was mainly attributable to job work agreements entered by our Company with manufacturing facility in Taloja (Maharashtra) and Udupi (Karnataka); (ii) labour charges to ₹63.98 million for the Fiscal 2023 from ₹ 37.46 million for the Fiscal 2022, which was mainly attributable to increased number of labourers employment for increased production activity ; (iii) power, fuel and water charges to ₹61.01 million for the Fiscal 2023 from ₹45.78 million for the Fiscal 2022, which was mainly attributable to an increase in electricity and fuel costs on account of higher production volumes; (iv) miscellaneous expenses to ₹15.83 million for the Fiscal 2023 from ₹8.84 million for the Fiscal 2022, which was mainly attributable to higher machinery maintenances on account of increased production activities and reconditioning ; (v) export expenses to ₹347.41 million for the Fiscal 2023 from ₹115.66 million for the Fiscal 2022, which was mainly attributable to higher exports as well as an increase in transportation costs ; (vi) Advertisement & Business Promotion Expenses to ₹15.49 million for the Fiscal 2023 from ₹6.22 million for the Fiscal 2022, which was mainly attributable to higher product export sales ; (vii) Loss on sale of fixed assets; (viii) Bad debt written off; and (ix) Forex Fluctuation to ₹47.98 million for the Fiscal 2023 from ₹5.63 million for the Fiscal 2022.

Profit before share of net profits from investments accounted for using equity method in Fiscal 2023 increased by 84.40% to ₹644.83 million from ₹349.68 million in Fiscal 2022 as total expense to total revenue reduced to 94.55% in Fiscal 2023 as against 95.49% during Fiscal 2022.

Share of profit / (loss) of Associates and Joint Ventures

Our share of profit of Associates and Joint Ventures increase by 44.26% to ₹14.60 million in Fiscal 2023 from ₹10.12 million in Fiscal 2022.

Profit after share of net profits from Associates and Joint Ventures accounted for under equity method in Fiscal 2023 increased by 83.28 % to ₹659.43 million from ₹359.80 million in Fiscal 2022.

Profit before tax: As a result of the foregoing, we recorded an increase of 83.28% in our profit before tax, which amounted to ₹659.43 million in Fiscal 2023, as compared to ₹359.80 million in Fiscal 2022.

Tax expenses: Our tax expenses (current, earlier year and deferred) increased by 81.26% from ₹101.61 million in Fiscal 2022 to ₹ 184.18 million in Fiscal 2023. Our effective tax rate in Fiscal 2023 and Fiscal 2022 was 27.93% and 28.24%, respectively.

Restated Profit for the period: As a result of the foregoing, we recorded an increase of 84.07% in our profit for the year from ₹258.19 million in Fiscal 2022 to ₹475.25 million in Fiscal 2023.

Total Revenue: Total revenue increased by 27.25% to ₹ 7,761.45 million for the Fiscal 2022 from ₹ 6,099.52 million for the Fiscal 2021 due to increase in revenue from operations, partially offset by a decrease in other income. Despite the increases in our total revenue and revenue from operations between Fiscal 2022 and Fiscal 2021, we experienced lower export sale by our Company which was offset by an increase in domestic sale.

Revenue from operations: Revenue from operations increased by 27.60% to ₹ 7,705.03 million for the Fiscal 2022 from ₹ 6,038.34 million for the Fiscal 2021, primarily due to an increase in revenue of domestic sale from ₹ 2,627.07 million in Fiscal 2021 to ₹ 5,697.29 million for the Financial Year 2022. Increase in domestic sales was primarily driven by (i) increase in sales volumes of fish meal (by approximately 103.58%) and fish soluble paste (by approximately 181.22%) and others; and (ii) increase in selling price of fish meal by an average of (approx) 9.77%, resulting in high realization per ton of sale. However, the increase in domestic sale was offset by lower export sales as compared to the Fiscal 2021. The lower export sales were attributable to sudden increase in freight cost during the initial months of Fiscal 2022. Further, the increase in revenue from sales was offset by lower export benefits of ₹ 43.27 million as compared to ₹ 130.17 million in Fiscal 2021.

Other Income: Other income reduced by 7.77% from ₹61.18 million in Fiscal 2021 to ₹ 56.43 million in Fiscal 2022 primarily due to reduction in (i) foreign exchange gains from ₹ 32.93 million in Fiscal 2021 to ₹ 16.87 million in Fiscal 2022; (ii) profit from sale of property from ₹ 3.34 million in Fiscal 2021 to ₹ 0.93 in Fiscal 2022; (iv) gain on forward contract from ₹ 2.41 million in Fiscal 2021 to ₹1.69 million in 2022. However, the reduction in other income was partially offset by an increase in interest and remuneration from the partnership firm, sundry balance written back, interest income and rent income.

Total expenses: Total expenses increased by 23.88% to ₹ 7,411.77 million for the Fiscal 2022 from ₹ 5,983.17 million in the Fiscal 2021 primarily due to increases in cost of material consumed, employee benefits expense, finance, depreciation and amortization, other expenses and changes in inventories of finished goods.

Cost of Materials Consumed: Cost of materials consumed increased by 18.50% to ₹6,497.32 million in Fiscal 2022, primarily due to higher volumes of products manufactured due to higher sales. Further, there was an increase in the cost of pelagic fish by 3.65% (approx.) and also a 4.5% (approx.) increase in cost of other raw materials, during the corresponding period.

Change in inventories of finished goods: Changes in inventories of finished goods reduced to ₹150.12 million in the Fiscal 2022 as compared to increase by ₹345.64 million in Fiscal 2021. In relation to inventories of finished goods, we had an opening stock of ₹1,494.89 million and a closing stock of ₹1645.01 million for the Fiscal 2022, and an opening stock of ₹1,149.29 million and a closing stock of ₹1,494.89 million for the Fiscal 2021. The higher closing inventories for Fiscal 2021 can be attributed to slow moving of stock due to non-availability of vessels and containers and also restriction on transportation of goods. The closing inventory for Fiscal 2022 is 78 days which is line with our normal inventory level.

Employee Benefits Expense: Our employee benefits expense increased by 29.33% from ₹149.67 million in Fiscal 2021 to ₹ 193.57 million in Fiscal 2022, due to an increase in salaries and wages to ₹167.99 million for the Fiscal 2022 from ₹ 137.38 million for the Fiscal 2021 and also increase in bonus and staff welfare expenses from ₹7.38 million in Fiscal 2021 to ₹18.87 million in Fiscal 2022, which was mainly attributable to (i) an increase in our permanent employee head count to 319 employees from 290 employees, and (ii) annual increments in employee salaries and wages.

Finance Costs: Our finance costs increased by 20.68% from ₹ 80.21 million in Fiscal 2021 to ₹96.80 million in Fiscal 2022, primarily due to an increase in other borrowing costs on account of increase in bill discounting charges on TREDS facilities.

Depreciation and Amortization Expense: Our depreciation and amortization expense increased marginally by 2.84% from ₹ 83.43 million in Fiscal 2021 to ₹ 85.79 million in Fiscal 2022, primarily due to an increase in depreciation on Right of use Assets from ₹ NIL in Fiscal 2021 to ₹4.21 million in Fiscal 2022 and on building by 11.44% from ₹6.73 million in Fiscal 2021 to ₹7.50 million in Fiscal 2022.

Other expenses: Other expenses increased by 29.30% from ₹532.43 million in Fiscal 2021 to ₹688.41 million in Fiscal 2022, generally in line with the increase in our production volume. The increase in other expenses was primarily due to (i) job work charges to ₹126.50 million for the Fiscal 2022 from ₹ NIL for the Fiscal 2021, which was mainly attributable to job work agreements entered by our Company with manufacturing facility in Taloja (Maharashtra) and Udupi (Karnataka); (ii) labour charges to ₹37.46 million for the Fiscal 2022 from ₹ 24.87 million for the Fiscal 2021, which was mainly attributable to increased number of labourers employment for increased production activity ; (iii) power, fuel and water charges to ₹45.78 million for the Fiscal 2022 from ₹36.39 million for the Fiscal 2021, which was mainly attributable to an increase in electricity and fuel costs on account of higher production volumes; (iv) miscellaneous expenses to ₹8.84 million for the Fiscal 2022 from ₹1.01 million for the Fiscal 2021, which was mainly attributable to higher machinery maintenances on account of increased production activities and reconditioning ; and (v) freight outward to ₹229.61 million for the Fiscal 2022 from ₹107.06 million for the Fiscal 2021, which was mainly attributable to higher product sales as well as an increase in transportation costs.

Profit before share of net profits from investments accounted for using equity method in Fiscal 2022 increased by 200.56% to ₹349.68 million from ₹116.34 million in Fiscal 2021. The profit before share of net profits from investments margin increased to 4.51% in Fiscal 2022 from 1.91% in Fiscal 2021. The primary reason for increase in margin was on account of (i) increase in selling price of fish meal in the domestic market by an average of (approx) 9.77%, resulting in high realization per kg of sale. For instance, the average selling price of fish meal per kg during Fiscal 2022 was ₹ 95.96 as against ₹ 87.42 in Fiscal 2021; (ii) However, the increase in domestic sale was offset by lower export sales (₹ 1,964.13 million in Fiscal 2022) as compared to ₹ 3,278.00 million in the Fiscal 2021. The lower export sales were attributable to sudden increase in freight cost during the initial months of Fiscal 2022. However, the increase in per kg price of fish meal was higher at 14.70% in Fiscal 2022 as against 6.14% in Fiscal 2021; and (iii) marginal increase in cost of pelagic fish during the Fiscal 2022 (i.e. an increase of 3.65% per kg).

Share of profit / (loss) of Associates and Joint Ventures

Our share of profit of Associates and Joint Ventures decreased by 73.51% to 10.21 million in Fiscal 2022 from 38.21 million in Fiscal 2021. Mainly on account loss from associates ₹ 8.06 for the Fiscal 2022 from NIL for Fiscal 2021. Further, share of profit from certain partnership firms, accounted as joint ventures reduced in Fiscal 2022 as compared to Fiscal 2021.

Profit after share of net profits from Associates and Joint Ventures accounted for under equity method in Fiscal 2022 increased by 132.79 % to ₹359.80 million from ₹154.56 million in Fiscal 2021.

Profit before tax: As a result of the foregoing, we recorded an increase of 132.79% in our profit before tax, which amounted to ₹359.80 million in Fiscal 2022, as compared to ₹154.56 million in Fiscal 2021.

Tax expenses: Our tax expenses (current, earlier year and deferred) increased by 128.57% from ₹44.45 million in Fiscal 2021 to ₹ 101.61 million in Fiscal 2022. Our effective tax rate in Fiscal 2022 and Fiscal 2021 was 28.24% and 28.76%, respectively.

Restated Profit for the period: As a result of the foregoing, we recorded an increase of 134.50% in our profit for the year from ₹110.10 million in Fiscal 2021 to ₹258.19 million in Fiscal 2022.

Total Revenue: Total revenue increased by 10.04% to ₹ 6,099.52 million for the Financial Year 2021 from ₹ 5,542.94 million for the Financial Year 2020 due to increase in revenue from operations, partially offset by a decrease in other operating income.

Revenue from operations: Revenue from operations increased by 9.94% to ₹ 6,038.34 million for the Financial

Year 2021 from ₹ 5,492.48 million for the Financial Year 2020 primarily due to an increase in revenue from sale of products to ₹ 5,905.08 million for the Financial Year 2021 from ₹ 5,320.32 million for the Financial Year 2020 representing an increase of 10.99%, which was mainly attributable to the growth of our domestic business and also outside India sales. Increase in sales of our product was primarily driven by (i) increase in sales volumes of fish meal (by approximately 2.15%), fish oil (by approximately 124.55%), and fish soluble paste (by approximately 181.41%) and others; and (ii) increase in selling price of fish meal, resulting in high realization per ton of sale. However, the increase in our sale of products was offset by reduction in export benefits from ₹ 170.40 million in Fiscal 2020 to ₹ 130.17 million in Fiscal 2021.

Other Income: Other income increased by 21.23% from ₹ 50.46 million in Fiscal 2020 to ₹ 61.18 million in Fiscal 2021 primarily due to increase in (i) remuneration from partnership firm from ₹ 4.10 million in Fiscal 2020 to ₹ 7.65 million in Fiscal 2021; (iii) Interest income from ₹ 1.77 million in Fiscal 2020 to ₹ 5.01 million in Fiscal 2021; (iv) gain on forward contract from ₹ NIL million in Fiscal 2020 to ₹ 2.41 million in 2021; and (v) other non-operating income from ₹ 1.28 million in Fiscal 2020 to ₹ 3.28 million in 2021. However, the higher income was partially offset by a decrease in foreign exchange fluctuation gain and rent income.

Total expenses: Total expenses increased by 11.42% to ₹ 5,983.17 million for the Fiscal 2021 from ₹ 5,370.03 million for the Fiscal 2020 primarily due to increases in costs of materials consumed, employee benefits expense, depreciation and amortization expenses, other expenses, partially offset by changes in inventories of finished goods.

Cost of Materials Consumed: Cost of materials consumed increased by 16.06% from ₹ 4,724.34 million in Fiscal 2020 to ₹ 5,483.09 million in Fiscal 2021, primarily due to higher volumes of products manufactured due to higher sales.

Change in inventories of finished goods: Changes in inventories of finished goods increased by ₹ 345.64 million for the Fiscal 2021 as compared to decrease by ₹ 3.94 million for the Fiscal 2020. In relation to inventories of finished goods, we had an opening stock of ₹ 1,149.29 million and a closing stock of ₹ 1,494.89 million for the Fiscal 2021 and an opening stock of ₹ 900.34 million and a closing stock of ₹ 1,149.29 million for the Fiscal 2020. The increase in our inventories from the Fiscal 2020 to the Fiscal 2021, was primarily due to lower sales of materials than anticipated due to COVID-19 pandemic.

Employee Benefits Expense: Our employee benefits expense increased by 80.11% from ₹ 83.10 million in Fiscal 2020 to ₹ 149.67 million in Fiscal 2021, due to an increase in salaries and wages to ₹ 137.38 million for the Fiscal 2021 from ₹ 71.73 million for the Fiscal 2020 and also increase in bonus and staff welfare expenses from ₹ 6.70 million in Fiscal 2020 to ₹ 7.38 million in Fiscal 2021, which was mainly attributable to (i) an increase in our permanent employee head count to 290 employees from 232 employees; (ii) annual increments in employee salaries and wages; and (iii) accounting of employee expenses as revenue in nature which was earlier capitalised to plant & machinery.

Finance Costs: Our finance costs increased by 11.27% from ₹ 72.08 million in Fiscal 2020 to ₹ 80.21 million in Fiscal 2021, primarily due to an increase in interest expense on account of increase in borrowing by 12.36% from ₹ 1,416.76 million in Fiscal 2020 to ₹ 1,591.93 million in Fiscal 2021.

Depreciation and Amortization Expense: Our depreciation and amortization expense increased by 77.86% from ₹ 46.91 million in Fiscal 2020 to ₹ 83.43 million in Fiscal 2021, primarily due to an increase in depreciation of plant and machinery and building on account of increase in number of subsidiaries upon conversion of partnership firms and also on account of commissioning of our Oman Manufacturing Facility – II, in Oman.

Other expenses: Other expenses increased by 21.10% from ₹ 439.66 million in Fiscal 2020 to ₹ 532.43 million in Fiscal 2021, generally in line with the increase in our production volume. The increase in other expenses was primarily due to (i) power, fuel and water charges to ₹ 36.39 million for the Fiscal 2021 from ₹ 27.20 million for the Fiscal 2020, which was mainly attributable to an increase in electricity and fuel costs as well as higher production volumes; (ii) traveling expenses to 10.32 million for the Fiscal 2021 from ₹ 7.81 million for the Fiscal 2020 which was mainly attributable to expenses incurred in Ocean Aquatic Proteins LLC, Oman towards employees visa ; (iii) export expenses to ₹ 187.91 million for the Fiscal 2021 from ₹ 140.56 million for the Fiscal 2020, which was mainly attributable to higher cost of freight charges and also due to increase in export sales; (iv) rent to ₹ 10.20 million for the Fiscal 2021 from ₹ 5.67 million for the Fiscal 2020, which was mainly attributable to rental payments incurred in Ocean Aquatic Proteins LLC, Oman ; (v) freight outward to ₹ 107.06 million for the Fiscal 2021 from ₹ 73.96 million for the Fiscal 2020, which was mainly attributable to higher product sales as

well as an increase in transportation costs;; (vii) forex fluctuation to ₹ 3.70 million for the Fiscal 2021 from ₹ NIL million for the Fiscal 2020, which was mainly attributable to Ocean Aquatic Proteins LLC, Oman on account of difference in US \$ conversion rates applied in buy sell by the banks ; and (viii) miscellaneous expenses to ₹ 64.16 million for the Fiscal 2021 from ₹ 41.35 million for the Fiscal 2020, which was mainly attributable to Ocean Aquatic Proteins LLC, Oman (Previously some of the expenses were getting capitalised and from current year they have be routed through P&L) .

Profit before share of net profits from investments accounted for using equity method: As a result of the foregoing, we recorded a decrease of -32.72% in Fiscal 2021 to ₹ 116.34 million from ₹172.91 in Fiscal 2020

Share of profit / (loss) of Associates and Joint Ventures

Our share of profit of Associates and Joint Ventures increased by 56.66% to 38.21 million in Fiscal 2021 from 24.39 million in Fiscal 2020. Mainly on account increase in share of profit from certain partnership firms, accounted as joint ventures.

Tax expenses: Our tax expenses (current, earlier year and deferred) reduced by 27.79% from ₹61.56 million in Fiscal 2020 to ₹ 44.45 million in Fiscal 2021. Our effective tax rate in Fiscal 2021 and Fiscal 2020 was 28.76% and 31.20%, respectively. The decrease in our effective tax rate in Fiscal 2021 was primarily due to a decrease in our applicable corporate tax rate from 33.384% in Fiscal 2020 to 25.17% in Fiscal 2021.

Restated Profit for the period: As a result of the foregoing, we recorded a decrease by 18.89% in our profit for the year, which amounted to ₹ 110.10 million in Fiscal 2021, as compared to ₹135.74 million in Fiscal 2020.

Liquidity and Capital Resources

Capital Requirements

Our primary sources of liquidity include cash generated from operations and from borrowings, both short-term and long-term, including cash credit, term and working capital facilities and bill discounting. As of September 30, 2023, we had cash and cash equivalents of ₹191.35 million.

Our financing requirements are primarily for working capital and investments in our business such as capital expenditures to upgrade and increase the capacities of our Manufacturing Facilities. We expect that cash flow from operations and borrowings will continue to be our principal sources of funds in the long-term. We evaluate our funding requirements periodically in light of our net cash flow from operating activities, the requirements of our business and operations, acquisition opportunities and market conditions.

Our net working capital days (which represents the average of working capital divided by revenue from operations for the relevant year multiplied by 365 days) was 89, 78 and 80 for the Fiscal 2023, 2022 and 2021 and 112 for the six months ended September 30, 2023, respectively. The increase in our net working capital days between the Fiscal 2023 and the six months ended September 30, 2023 was primarily due to increases in our trade receivables and inventories. The increase in working capital would reach normalcy by end of the fiscal.

Cash Flows

The following table summarizes our cash flows for the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021:

Capital Expenditure

Capital expenditures consist primarily of investments in new manufacturing facilities and equipment. We also make investments at our manufacturing facilities to improve our manufacturing capacity, upgradation and improvements. Capital expenditure will vary from year to year depending upon a number of factors, including the need to replace and update equipment. In the six months period ended September 30, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, we incurred capital expenditure of ₹ 74.73 million, ₹ 92.34 million, ₹65.11 million and ₹106.77 million, respectively. A significant amount of our capital expenditure was towards purchase of boilers at by our Company which was leased out and installed at Atlantic Manufacturing Facility II and Oman Manufacturing Facility – II and also towards installation of Boiler, Bio Filter and routine replacement at Mukka Manufacturing Facility – I.

Financial indebtedness

As of September 30, 2023, our total borrowings (current and non-current) were ₹3,177.28 million, which primarily consisted of term loans from banks and working capital loans. For further details related to our indebtedness, see “**Financial Indebtedness**” on page 412 of this Red Herring Prospectus.

Off-Balance Sheet Commitments and Arrangements

We do not have any off-balance sheet arrangements, derivative instruments swap transactions or relationships with affiliates or other unconsolidated entities or financial partnerships that would have been established for the purpose of facilitating off-balance sheet arrangement.

Quantitative and Qualitative Analysis of Market Risks

We are exposed to various types of market risks during the normal course of business. The market risks we are exposed to include credit risk, liquidity risk, interest rate risk, commodity price risk and foreign currency risk.

Credit risk

Credit risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables, and from our financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

We manage our credit risk through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which we grant credit terms in the normal course of business. We establish an allowance for doubtful debts and impairment that represents our estimate of incurred losses in respect of trade and other receivables and investments. The loans we advance carry interest and are granted after evaluating the purpose and credit worthiness of the counter party. The loans advanced are backed by personal guarantee of the director of the counter party. Moreover, given the diverse nature of our business, trade receivables are spread over a number of customers with no significant concentration of credit risk.

In addition, we hold bank balances with reputed and creditworthy banking institutions within the approved exposures limit of each bank. None of our cash equivalents, including time deposits with banks, are past due or impaired. Credit risk from balances with banks and financial institutions is managed by our treasury department in accordance with our policy. Investments of surplus funds are made in bank deposits and other risk-free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity risk

Liquidity risk is defined as the risk that we will not be able to settle or meet our obligations on time or at reasonable price. Our objective is to at all times maintain optimum levels of liquidity to meet our cash and liquidity requirements. We closely monitor our liquidity position and deploy a robust cash management system. We maintain adequate sources of financing through the use of short term bank deposits and cash credit facilities. Processes and policies related to such risks are overseen by senior management, who monitor our liquidity position through rolling forecasts on the basis of expected cash flows.

Interest rate risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. We are exposed to market risk with respect to changes in interest rates related to our borrowings. Interest rate risk exists with respect to our indebtedness that bears interest at floating rates tied to certain benchmark rates as well as borrowings where the interest rate is reset based on changes in interest rates set by RBI. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, domestic and international economic and political conditions, inflation and other factors. Upward fluctuations in interest rates increase the cost of servicing existing and new debts, which adversely affects our results of operations and cash flows. As a part of our interest rate risk management policy, our treasury department closely tracks interest rate movements on a regular basis and determines investments of surplus funds.

Commodity price risk

Exposure to market risk with respect to commodity prices primarily arises from our purchases and sales of our raw materials, being pelagic fish. These are commodity products and also subject to various uncertainties including climate change, rainfall, breeding of fish during any particular years, the prices of which may fluctuate significantly over short periods of time. The prices of our raw materials generally fluctuate in line with fishing season and also prices of alternative protein products such as soyabean and plant based proteins. Commodity price risk exposure is evaluated and managed through operating procedures, sourcing policies and also increasing the selling price. As of March 31, 2021, March 31, 2022, March 31, 2023 and September 30, 2023 we had not entered into any material derivative contracts to hedge exposure to fluctuations in commodity prices.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Our exposure to the risk of changes in foreign exchange rates relates primarily to our operating activities (when revenue or expense is denominated in a foreign currency). Foreign currency exchange rate exposure is partly balanced by purchasing of goods from the respective countries. We evaluate our exchange rate exposure arising from foreign currency transactions and follow established risk management policies.

Unusual or Infrequent Events or Transactions

Except as disclosed in this Red Herring Prospectus, to our knowledge, there have been no unusual or infrequent events or transactions that have in the past or may in the future affect our business operations or future financial performance.

Known Trends or Uncertainties

Our business has been subject, and we expect it to continue to be subject, to the trends identified above in "*Significant Accounting Policies*" and the uncertainties described in "*Risk Factors*", on pages 422 and 45, respectively. Except as disclosed in this Red Herring Prospectus, there are no known trends or uncertainties that

have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

Significant Economic Changes

Our business has been subject, and we expect it to continue to be subject, to significant economic changes that materially affect or are likely to affect income from continuing operations. See “**Risk Factors**” and “**Significant Accounting Policies**” on pages 45 and 422 of this Red Herring Prospectus respectively.

Future Relationship between Cost and Revenue

Other than as described in “**Risk Factors**”, “**Our Business**” and above in “**Significant Accounting Policies**” on pages 45, 232 and 422, of this Red Herring Prospectus respectively, to our knowledge, there are no known factors that may adversely affect our business prospects, results of operations and financial condition.

New Products or Business Segments

Except as disclosed in this Red Herring Prospectus, including as described in “**Our Business**” on page 232, of this Red Herring Prospectus there are no new products or business segments that have or are expected to have a material impact on our business prospects, results of operations or financial condition.

Segment Reporting

Our Company’s chief operating decision maker (“CODM”) is the Managing Director of our Company. Our CODM has identified Fish Protein and other related products as our only reportable segment, as our main business is manufacturing of fish meal, fish oil, fish soluble paste and insect meal in India and overseas. As we have only one reportable segment, no further disclosures for business segments have been given in the Restated Consolidated Summary Statements as per Ind AS 108.

Supplier or Customer Concentration

We have a wide customer base across the aqua feed industries and have served around 51 customers for the six months period ended September 30, 2023. However, our top 2 (two) customers contributed around 42.17% of our revenue from operations. We do not have any material dependence on a single or few suppliers. We procure our key raw materials from local fish catchers.

Competitive Conditions

We operate in a highly competitive industry and we expect competition from existing and new competitors to intensify. For details, please refer to the discussions of our competition in the sections “**Risk Factors**”, “**Our Business**” and “**Industry Overview**” on pages 45, 232 and 169, respectively, of this Red Herring Prospectus.

Seasonality

Our business and consequently our results of operations are affected by seasonal variations and weather conditions. For example, supply of pelagic fish, which is our primary raw material is nature-dependent and is also subject to regulatory and environment conditions. Over-fishing may increase the output for one season but it may affect the availability of fish in the long run and hence measures are taken from time to time to ensure sustainable fishing and thus an ecological balance. For instance, in Kerala, agencies have implemented minimum fishing size regulation since 2015 so that juvenile fish are not caught, and breeding is not disrupted by over-fishing. Hence, only adult fish can be caught by the fish catchers’ in Kerala. In India, the peak season for fishing is August-December and the slack season is January-May (*Source: CRISIL Report*). Seasonal variations and adverse weather conditions affect the availability and price of the raw materials that we require for our manufacturing operations.

We typically experience higher sales during the second half of the Financial Year as compared to the first half of the Financial Year due to change in the climatic conditions prevailing in India. See “**Risk Factors –Internal Risk Factors –Risks Related to Our Business – We operate in an environmentally sensitive industry and are subject to disruptions due to unpredictable or unseasonal weather and man-made factors affecting the pelagic fish populations adversely affecting our business, financial condition and results of operations.**” On page 80 of this

Red Herring Prospectus.

Change in Accounting Policies

There have been no material changes in our accounting policies for the six months period ended September 30, 2023 and for the Fiscal 2023, 2022, Fiscal 2021 and Fiscal 2020.

Significant Developments Occurring after September 30, 2023

Except as disclosed in this Red Herring Prospectus, there are no circumstances that have arisen since September 30, 2023, the date of the last financial statements included in this Red Herring Prospectus, which materially and adversely affect or is likely to affect our operations or profitability, or the value of our assets or our ability to pay our material liabilities within the next twelve months.

Recent Accounting Pronouncements

As of the date of this Red Herring Prospectus, there are no recent accounting pronouncements, which would have a material effect on our financial condition or results of operations.

SECTION VII: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this Section, there are no outstanding: (a) criminal proceedings; (b) actions by statutory or regulatory authorities; (c) claims relating to direct and indirect taxes; (d) disciplinary actions including penalties imposed by SEBI or stock exchanges against the Company, the Subsidiaries, the Directors and the Promoters in the last five Fiscals, including outstanding action; or (e) Material Litigation (as defined below); involving our Company, its Subsidiaries, its Directors, its Promoters and its Group Companies ('**Relevant Parties**').*

*Our Board, in its meeting held on May 1, 2023, determined that outstanding legal proceedings involving the Relevant Parties will be considered as material litigation ('**Material Litigation**') (i) if the aggregate amount involved exceeds 0.2% of the consolidated revenue from our operations as per the financial year in Restated Consolidated Financial Statements; or (ii) are outstanding litigations whose outcome could have a material impact on the business, operations, prospects or reputation of the Company; or (iii) the decision in one case is likely to affect the decision in similar cases such that the cumulative amount involved in such cases exceeds the Materiality Threshold, even though the amount involved in an individual litigation may not exceed the Materiality Threshold.*

It is clarified that for the above purposes, pre-litigation notices received by Relevant Parties, unless otherwise decided by our Board, are not evaluated for materiality until such time that the Relevant Parties are impleaded as defendants in litigation proceedings before any judicial forum.

Except as stated in this Section, there are no outstanding material dues to creditors of our Company. For this purpose, our Board has considered and adopted a policy of materiality for identification of material outstanding dues to creditors by way of its resolution dated May 1, 2023. In terms of the materiality policy, creditors of our Company to whom amounts outstanding dues to any creditor of our Company exceeding 5% of trade payables as per the Restated Consolidated Financial Statements of our Company disclosed in this Red Herring Prospectus, would be considered as material creditors. The trade payables of our Company as on September 30, 2023 were ₹ 1104.47 million. Details of outstanding dues to micro, small and medium enterprises and other creditors separately giving details of number of cases and amount involved, shall be uploaded and disclosed on the website of the Company as required under the SEBI ICDR Regulations.

For outstanding dues to any micro, small or medium enterprise, the disclosure shall be based on information available with our Company regarding the status of the creditor as defined under the Micro, Small and Medium Enterprises Development Act, 2006 as amended, read with the rules and notification thereunder, as amended, as has been relied upon by the Statutory Auditors.

Unless stated to the contrary, the information provided below is as of the date of this Red Herring Prospectus.

The Criminal Case bearing no. 0000070/2023 is pending.

2. **Litigation Involving Actions by Statutory/Regulatory Authorities**

Writ Petition bearing no. 1729/ 2021 (GM-POL) filed by (i) P. R. P. Shetty, (ii) Rashme Gopi, and (iii) Anil Kumar (the “Petitioners”) against the (i) Union of India (“Respondent No. 1”), (ii) The State of Karnataka (“Respondent No. 2”), (iii) Deputy Commissioner and Chairman of the District Coastal Zone Management Committee (“Respondent No. 3”), (iv) Karnataka State Pollution Control Board (“Respondent No. 4”), (v) Our Company (“Respondent No.5”) (vi) M/s Bawa Fish Meal And Co (“Respondent No. 6”) (vii) M/s HKA Bawa And Sons (“ Respondent No. 7”) (collectively the “Respondents”) before the Hon’ble High Court of Karnataka (“the Hon’ble High Court”)

The Petitioners are residents of the area where the factory of the Company is located. The Petitioners had submitted a representation to the Karnataka State Pollution Control Board alleging various environmental issues caused by factories established by the Respondent Nos. 5, 6 and 7. The Petitioners have alleged that no appropriate action has been taken against the Respondent companies 5, 6 and 7. The Petitioners

have alleged that the factories of Respondent Nos. 5, 6 and 7 are in violation of the Coastal Regulation Zone Notification (CRZ Notification), 2011, which has imposed a specific ban inter alia on setting up and expansion of fishing processing units. The Petitioners have filed the above Writ Petition No.1729/2021 in the nature of Public Interest Litigation (PIL) inter alia seeking for the following reliefs: (i) direct the Respondents No. 1 to 4 to direct the Respondent Nos.5 to 7 to immediately cease operations and permanently shut-down its industries at Mukka, Sasihithlu, Mangaluru, Dakshina Kannada District; (ii) direct the Respondents No.1 to 4 to ensure that all the steps are taken and necessary financial allocations are made towards preservation of Coastal Regulation Zone at Mukka Sasihithlu, Mangaluru, Dakshina Kannada District; (iii) direct the Respondents No.1 to 4 to take necessary steps to ensure that Respondent Nos. 5 to 7 restore the area to its previous pristine state; (iv) direct the Respondent No.1 to commission a Regional Environmental Impact Assessment along with ecological survey to comprehend the individual and cumulative impact of the respondent Nos.5 to 7's industries on the biodiversity, environment, human beings, human settlements, livelihoods, traditional knowledge, etc.; and (v) prepare and implement a plan to remedy the negative impacts caused by the Respondent industries on the "polluter pays principle", including awarding of compensation to the affected people. Further, pending the disposal of WP No.1729/2021, the Petitioners have prayed before the Hon'ble High Court to issue an order of injunction restraining the Respondent Nos. 5 to 7 from running the industries at Mukka, Sasihithlu, Mangalore, D.K. District. Our Company has filed its Statement of Objections to the said Writ Petition whereby our Company has denied all the allegations made by the Petitioners and has put forth the facts in its defence and has contended that the provisions of CRZ Notification, 2011, is not applicable to the Company and its factory unit is in existence much before the year 1991 and operation of such fishing processing unit is legal and such position has been accepted by the Coastal Zone Regulatory authorities in its joint report dated March 2, 2021 and requesting for dismissal of the Writ Petition No.1729/2021. Vide Order dated February 2, 2021, the Hon'ble High Court of Karnataka, Bengaluru, passed an interim order directing the Jurisdictional Environmental Officer of Karnataka State Pollution Control Board and a representative of the District Coastal Zone Management Committee to visit the industries/properties occupied by the Respondent Nos. 5, 6 and 7 and submit a detailed report in the context of allegations made in the Writ Petition No.1729/2021. The Karnataka State Pollution Control Board has submitted its Inspection Report to the Hon'ble High Court of Karnataka on February 5, 2022. The matter is adjourned without any further date.

3. Other Pending Litigations

And

Original Suit bearing no O.S. 204/2023 filed by Surendra Rao against (i) Raveendra Rao ("Defendant No. 1"), (ii) Sarojini Bai ("Defendant No. 2"), (iii) Vidya Nayak ("Defendant No. 3"), (iv) Veena Nayak ("Defendant No. 4"), and (v) our Company ("Defendant No. 5"), ("collectively Defendants") before the Senior Civil Judge, Mangaluru, D. K.

Our Company has purchased a non-agricultural immovable property situated at Attavara Village of Mangaluru Taluk bearing R.S No. 172/2, with residential house bearing Door No. 18-02-16/4 ("**the Property**") vide a sale deed dated September 23, 2005, from Raveendra Rao and Sarojini Bai. The property originally was purchased by the deceased Rathankar Rao who was the father of Raveendra Rao, Sri Surendra Rao, Nayak, Veena Nayak and husband of Sarojini Bai. Further, a settlement deed dated March 9, 2004, was executed by the deceased in respect of the Property in favour of Raveendra Rao and Sarojini Bai. Surendra Rao had originally filed a suit bearing O.S. No. 411/2015 before the Hon'ble Senior Civil Judge, Mangaluru, D.K, ("**Hon'ble Court**") against our Company and Raveendra Rao, Sarojini Bai, Vidya Nayak and Veena Nayak inter-alia praying for seeking a decree and partition in the Property. An order was issued on October 13, 2015, by the Hon'ble Court granting a temporary injunction thus restraining Raveendra Rao from alienating the property. The Hon'ble Court passed two orders dated November 4, 2016 and November 15, 2016, wherein certain documents were accepted as agreements upon being aggrieved by the aforesaid orders, Sri Surendra Rao filed a Writ Petition bearing no. 4290/2017 dated January 23, 2017 before the Hon'ble High Court of Karnataka, inter-alia challenging the aforesaid orders. The Hon'ble High Court of Karnataka granted a stay on proceedings in O.S 411/2015 for a period of 8 weeks vide an Order dated February 10, 2017. By an interim order dated

March 16, 2018, the Hon'ble High Court of Karnataka granted a stay on further proceedings in the suit bearing no. 411/2015. Based on the interim order granted, Surendra Rao filed another Civil Suit O.S.No.330/2018 dated March 20, 2018 before the Civil Judge, Mangalore inter-alia praying that while the proceedings in O.S 411/2015 continue, the Company shall not construct on or use the Property. Surendra Rao also filed M.A No. 15/2018 before the II Additional Senior Civil Judge, Mangaluru, D.K inter-alia seeking order of temporary injunction wherein vide Order dated May 30, 2018 the II Additional Senior Civil Judge, Mangaluru, D.K granted an order of temporary injunction restraining the Company from putting up further construction on the Property. Aggrieved by the Order dated May 30, 2018, our Company filed the Writ Petition bearing No.24324/2018 before the Hon'ble High Court of Karnataka inter-alia praying that the Hon'ble High Court of Karnataka issue a Writ of Certiorari and quash the aforementioned Order dated May 30, 2018 passed in M.A No.15/2018 pending on the file of the II Additional Senior Civil Judge & CJM at Mangalore, D.K. Consequently, Hon'ble High Court of Karnataka passed an Order dated August 31, 2018 inter-alia dismissing the Company's prayers and continuing the Order dated May 30, 2018. Further, an Interim Application ("IA") was filed by Surendra Rao under Order VI Rule 17 read with Section 151 of the Civil Procedure Code, 1908 ("CPC") to amend the plaint in O.S 411/2015. An objection dated April 17, 2021 was filed by Company stating that the amendment sought before the I Additional Civil Judge, Mangalore would change the nature of the suit and cause of action. An order dated September 09, 2021 was passed by the I Addl. Civil Judge & JMFC., Mangaluru stating that IA filed by Surendra Rao under Order VI Rule 17 read with Section 151 of CPC was allowed and he was permitted to amend the plaint by incorporating the proposed amendment, (ii) Another Original Suit No.330/2018 was filed by M. Surendra Rao against Raveendra Rao and 4 others before the Court of Civil Judge, Mangaluru, Dakshina Kannada seeking permanent prohibitory injunction restraining the Defendants or any other persons claiming through or under them from putting up any structure or construction of whatsoever nature in the non-agricultural immovable property situated in Attavar Village of Mangalore Taluk comprising of R.S. On February 2, 2013 an FIR was filed by Mohammed Althaf Razak on behalf of our Company (“Complainant”) against Accused under Section 120B, 403, 406, 408, 417, 424, 465, 467, 468, 420, 471 read with Section 34 of IPC and Sections 66 and 77 Information Technology Act, 2000. The Complainant is the director of the Company and the Accused was employed to work as a quality controller in the lab of our Company. The Accused created fake e-mail id in the name of our Company in order to misappropriate funds of our Company illegally. The Accused have acquired assets like gold, automobiles, and immovable properties with the embezzled funds. Vide Order dated February 7, 2013 passed by the Hon’ble Court, the Investigating Officer (I.O) was directed to take custody of Shameer Bashvar for the misappropriation of funds worth ₹3,00,00,000/- (Rupees Three Crore Only). This matter is pending.

Criminal Petition bearing no. CRL.P 3496/2023 filed by (i) the Company (ii) Kalandan Mohammed Haris (iii) Kalandan Mohammed Althaf (iv) Rivaz Ahmed (collectively the “Petitioners”) against The Superintendent of Customs (the “Respondent”) before the Hon’ble High Court of Karnataka (“Hon’ble High Court”)

The Petitioners had filed a Criminal Petition bearing no. CRL.P 3496/2023 before the Hon’ble High Court challenging the Order dated April 20, 2023 (“Impugned Order”) passed by the Chief Judicial Magistrate, Dakshina Kannada, Mangalore (“Hon’ble Court”) in Private Complaint No. 02/2023 which was filed by the Respondent against the Petitioners for offences punishable under Sections 135, 140 of the Customs Act, 1962 read with Section 34 of the Indian Penal Code (“IPC”) wherein the Hon’ble Court had passed the Impugned Order directing the registration of the case as Private Complaint against the Petitioners, instead of dismissing the complaint. The Petitioners have filed the Criminal Petition no. 3496/2023 praying to quash the entire proceedings in Private Complaint No. 02/2023 and the Impugned Order of the Hon’ble Court. Further a stay application was filed by the Petitioners before the Hon’ble High Court seeking stay on all further proceedings in Private Complaint No. 02/2023. Subsequently, vide Order dated June 26, 2023, the Hon’ble High Court granting stay on further proceedings in Private Complaint No 02/2023. The Criminal Petition bearing no. 3496/2023 is pending.

2. Litigation Involving Actions by Statutory/Regulatory Authorities

Writ Petition no. 25540/2018 filed by our Company (“Petitioner”) against the Commissioner, Mangalore City Corporation (“Respondent”) before the Hon’ble High Court of Karnataka at Bangalore (“the Hon’ble High Court”)

A Writ Petition No. 25540/2018 was filed by our Company before the Hon’ble High Court against the Commissioner, Mangalore City Corporation seeking a direction in the nature of Writ of Mandamus to direct the Respondent to reconsider the representation made by the Petitioner on May 29, 2018, stating that the Petitioner complies with all regulations, including payment of penalty and requesting the Respondent not to demolish the temporary shed accommodating the labourers at land bearing no. 12/12 of Surathkal Village, Mangalore, Taluk. The Petitioner had purchased 21 cents of land bearing no. 12/12 of Surathkal Village, Mangalore, Taluk coming within the limits of Mangalore City Corporation which includes a small Temporary Shed vide Sale Deed dated September 9, 2016 and used the same to provide temporary shelter to labourers. The Respondent passed an Order bearing reference no. Na.Yo.Vi/Cr.5/2017-18 dated July 31, 2017, under Section 321(3) of the Karnataka Municipal Corporation Act, 1976 to remove the structure within 15 (fifteen) days. Being aggrieved by the aforesaid Order dated July 31, 2017, the Petitioner filed an Appeal dated August 18, 2017, bearing no. M.A no. 22/2017 under Section 443-A of Karnataka Municipal Corporation Act, 1976, before the Hon’ble IV Additional District and Session Judge, D.K. Mangalore (“the Hon’ble Trial Court”) seeking to set aside the Order dated July 31, 2017. The Hon’ble Trial Court passed an Order dated December 16, 2017, modifying the aforesaid Order dated July 31, 2017 passed by the Respondent and granted 6 (six) months period for removal of the temporary shed. Therefore, the Petitioner filed the above Writ Petition before the Hon’ble High Court inter-alia praying that the Hon’ble High Court issues a Writ of Mandamus

directing the Respondent to reconsider the representation made by the Petitioner on May 29, 2018 and not to demolish or bring down the structure until the representation dated May 29, 2018 is considered and a decision is taken thereof or during the pendency of the Writ Petition. The matter is pending before the Hon'ble High Court and next date of hearing is not assigned by the Hon'ble High Court.

Writ Appeal No. 1048 of 2023 filed by (i) our Company, (ii) Raj Fishmeal & Oil Co., (iii) Janatha Fish Meal & Oil Products, and (iv) Bawa International (“Appellants”) against the (i) Director General of Foreign Trade, (ii) Deputy Director General of Foreign, and (iii) Chairman, Policy Interpretation Committee (“Respondents”) before the Hon'ble High Court of Karnataka, Bangalore (“the Hon'ble High Court”).

Writ Appeal No. 1048 of 2023 was filed by the Appellants before the Hon'ble High Court challenging Order dated July 25, 2023 passed by the Hon'ble High Court dismissing the Writ Petition No. 33805 of 2016. The Duty Entitlement Passbook (“DEPB Scheme”) provided incentives, aiding competitive pricing and neutralizing incidence of customs duty on import content of export product. The Policy Interpretation Committee (“PIC”) by Order dated March 24, 2009, unilaterally, excluded fish oil and fish meal from DEPB Scheme benefits. DEPB Scheme was abolished in the year 2011. The Appellants, engaged in exporting fish meal and fish oil, sought to quash the PIC Order dated March 24, 2009 and to allow DEPB Scheme scripts retrospectively to the Appellants on the exports of fish meal and fish oil from November 2009 till the date, DEPB Scheme was abolished. The Appellants obtained certifications affirming fish oil and fish meal as fishery products, despite the Order dated March 24, 2009 passed by PIC. In light of the Order dated March 24, 2009 passed by PIC, the Company would not have received its claim for DEPB Scheme. Therefore, the Appellants filed a Writ Petition No. 33805 of 2016 before the Hon'ble High Court challenging the PIC Order dated March 24, 2009. Vide Order dated July 25, 2023, the Writ Petition No. 33805 of 2016 was dismissed directing the Appellants to seek alternative remedies. Consequently, the Appellants filed the above Writ Appeal No. 1048 of 2023 challenging the Order dated July 25, 2023 inter alia on the grounds that (i) Hon'ble High Court failed to properly consider the evidence and materials presented; (ii) the interpretation of the PIC that fish meal and fish oil falls outside the purview of product code no. 66 of the DEPB Scheme Schedule, which reads, fish and fishery products violates Article 14 of the Constitution of India; (iii) the omission of relevant factors and inclusion of irrelevant factors indicate arbitrariness in PIC's decision; (iv) PIC's classification lacks a nexus with the DEPB Scheme's objective, discriminating against fishery products and defeating the DEPB Scheme's purpose; and (v) the violation of fundamental rights and principles of natural justice indicate that the Hon'ble High Court still had jurisdiction to entertain the above Writ Petition No. 33805 of 2016 despite availability of alternative remedies. Therefore, the Appellants prayed to the Hon'ble High Court to allow the Writ Appeal No. 1048 of 2023 by (i) setting aside the Order dated July 25, 2023 passed by the Hon'ble High Court in Writ Petition No. 33805 of 2016; (ii) quashing the Order dated March 24, 2009 of the PIC; (iii) directing the Respondents to retrospectively grant DEPB Scheme scripts to the Appellants for the export of fish meal and fish oil from November 2009 until the date of abolition of the DEPB Scheme. The matter is pending.

Writ Petition bearing WP No.35710/2019 filed by (i) the Company (ii) Haris Marine Products Private Limited (“Petitioners”) against Central Board of Indirect Taxes and Customs (CBI&C) and Others (“Respondents”) before the Hon'ble High Court of Karnataka at Bengaluru (“the Hon'ble High Court”).

This matter was filed by the Petitioners challenging the circular issued by Central Board of Indirect Taxes and Customs vide Circular No. 80/54/2018- GST dated December 31, 2018 whereby a higher rate GST was levied on fish meal and fish oil. The Petitioners have challenged the vires of the circular issued by the Central Board of Indirect Taxes and Customs on the ground that fish meal as a commodity is listed under the heading/HSN 2301 and the same is included under the Serial Number 103 of Notification 01/2017, whereby it is chargeable with GST at the rate of 5%, whereas the Serial Number 102 of Notification 02/2017 provides for the exemption of goods with the following description – “Aquatic feed including shrimp feed and prawn feed, poultry feed & cattle feed, including grass, hay & straw, supplement & husk of pulses, concentrates & additives, wheat bran & de-oiled cake” under the headings/HSN of 2302, 2304, 2305, 2306, 2308 & 2309. Subsequently, by way of a Corrigendum dated July 27, 2017, the heading/HSN 2301, which includes fish meal in all its forms, was added to Serial Number 102 of the Notification No. 02/2017, thereby explicitly making fish meal exempt from the applicability of GST. The matter is pending for orders.

Appeal dated January 3, 2023 filed by the Company, Kalandan Mohammed Haris, Kalandan Mohammad Arif, Kalandan Mohammed Althaf, Umaiyva Banu, Kalandan Abdul Razak Mehaboobsab Mahmadvous Chalyal and Jessica Juliana Mendonca (“Appellants”) against Registrar of Companies, Karnataka (“Respondent”) before the Regional Director, South East Region, Hyderabad under Section 454 of the Companies Act, 2013 and rules made thereunder read along with Section 149(4) of the Companies Act, 2013.

The Respondent levied maximum penalty prescribed under Section 178 on the Appellants in aggregate amounting to Rs.9,51,000 (Rupees Nine Lakhs Fifty One Thousand Only) (“Adjudication Penalty”) without considering the reasons for non-compliance by the Appellants. The Appellants have prayed that the Adjudication Penalty imposed by the Respondent may be reduced, and reasonable penalty may be imposed on all the Appellants and to pass any such orders as the Regional Director may deem fit. The matter is pending.

Appeal dated January 3, 2023 filed by the Company, Kalandan Mohammed Haris, Kalandan Mohammad Arif, Kalandan Mohammed Althaf, Umaiyva Banu, Kalandan Abdul Razak Mehaboobsab Mahmadvous Chalyal and Jessica Juliana Mendonca (“Appellants”) against Registrar of Companies, Karnataka (“Respondent”) before the Regional Director, South East Region, Hyderabad under Section 454 of the Companies Act, 2013 and rules made thereunder read along with Section 178 of the Companies Act, 2013.

This Appeal is filed as the Appellants are aggrieved by the Order dated November 23, 2023 passed by Respondent having file no. ROC(B)/Adj.Ord.454-178/Mukka Proteins/Co.No.055771/2023 (hereinafter referred as “Aggrieved Order”) in the Suo moto adjudication application filed by Appellants for the purpose of delay in constitution of Nomination and Remuneration Committee with the proper composition as per Section 178 of the Companies Act, 2013. The Respondent levied maximum penalty prescribed under Section 178 on the Appellants in aggregate amounting to Rs. 12,00,000 (Rupees Twelve Lakhs Only) (“Adjudication Penalty”) without considering the reasons for non-compliance by the Appellants. The Appellants have prayed that the Adjudication Penalty imposed by the Respondent may be reduced, and reasonable penalty may be imposed on all the Appellants and to pass any such orders as the Regional Director may deem fit. The matter is pending.

Appeal dated January 3, 2023 filed by the Company, Kalandan Mohammed Haris, Kalandan Mohammad Arif, Kalandan Mohammed Althaf, Umaiyva Banu, Kalandan Abdul Razak Mehaboobsab Mahmadvous Chalyal and Jessica Juliana Mendonca (“Appellants”) against Registrar of Companies, Karnataka (“Respondent”) before the Regional Director, South East Region, Hyderabad under Section 454 of the Companies Act, 2013 and rules made thereunder read along with Section 177 of the Companies Act, 2013.

This Appeal is filed as the Appellants are aggrieved by the Order dated November 23, 2023 passed by Respondent having file no. ROC(B)/Adj.Ord.454-177/Mukka Proteins/Co.No.055771/2023 (hereinafter referred as “Aggrieved Order”) in the Suo moto adjudication application filed by Appellants for the purpose of delay in constitution of Audit Committee with the proper composition as prescribed under the Section 177 of the Companies Act, 2013. The Respondent levied maximum penalty prescribed under Section 178 on the Appellants in aggregate amounting to Rs. 12,00,000 (Rupees Twelve Lakhs Only) (“Adjudication Penalty”) without considering the reasons for non-compliance by the Appellants. The Appellants have prayed that the Adjudication Penalty imposed by the Respondent may be reduced, and reasonable penalty may be imposed on all the Appellants and to pass any such orders as the Regional Director may deem fit. The matter is pending.

Appeal dated January 3, 2023 filed by the Company, Kalandan Mohammed Haris, Kalandan Mohammad Arif, Kalandan Mohammed Althaf, Umaiyva Banu, Kalandan Abdul Razak Mehaboobsab Mahmadvous Chalyal and Jessica Juliana Mendonca (“Appellants”) against Registrar of Companies, Karnataka (“Respondent”) before the Regional Director, South East Region, Hyderabad under Section 454 of the Companies Act, 2013 and rules made thereunder read along with Section 135 of the Companies Act, 2013.

This Appeal is filed as the Appellants are aggrieved by the Order dated November 23, 2023 passed by Respondent having file no. ROC(B)/Adj.Ord.454-135/Mukka Proteins/Co.No.055771/2023 (hereinafter referred as “**Aggrieved Order**”) in the Suo moto adjudication application filed by Appellants for the purpose of delay in constitution of Corporate Social Responsibility Committee with the proper composition as prescribed under the Section 135 of the Companies Act, 2013. The matter is pending.

Income Tax Appeal No. 198 of 2023 filed by our Company (“Appellant”) against the Principal Commissioner of Income Tax, Hubli and Another (“Respondents”) before the Hon’ble High Court of Karnataka at Bengaluru (“the Hon’ble High Court”)

The Appellant has filed the Income Tax Appeal No. 198 of 2023 dated April 5, 2023 under Section 260A of the Income Tax Act, 1961, challenging the Order dated November 17, 2022 passed by the Hon’ble Income Tax Appellate Tribunal, ‘A’ bench, Bangalore in ITA No. 433/Bang/2022 for the Assessment Year 2018-2019. A search and seizure under Section 132 of the Income Tax Act, 1961, and a survey under Section 133A of the Income Tax Act, 1961 was conducted at the Appellants’ Sasihitlu factory premises and Baikampady Godown on February 08, 2018. During the search, a statement was recorded under Section 132(4) of the Income Tax Act, 1961 of the Managing Director of the Appellant wherein the Managing Director erroneously admitted additional income for alleged bogus purchases and a sum of ₹13,08,02,529/- for alleged stock differences and later during the assessment proceedings, the alleged difference in stock of ₹13,08,02,529/- was reduced to ₹11,14,72,010/-. In the AY 2018-19 return, the Appellant declared total income of ₹17,78,99,390/-, including ₹5,89,59,400/- being the income on account of alleged stock differences. The Assessing Officer, passed an Order dated December 20, 2019 under Section 143(3) read with Section 153D of the Income Tax Act, 1961, adding a sum of ₹5,25,12,610/- to income of the Company on the premise that the Director of the Appellant had given a statement admitting additional income on account of unaccounted stock which was not offered to tax and was considered as income under the head “income from business”. The Appellant filed an appeal before the Commissioner of Income Tax. During the pendency of the appeal filed, the Principal Commissioner of Income Tax (Central), Bengaluru, issued a show cause notice on January 05, 2022 under Section 263 of the Income Tax Act, 1961, proposing to revise the scrutiny order of assessment dated December 20, 2019 passed under Section 143(3) of the Income Tax Act, 1961, by stating that the scrutiny order of assessment dated December 20, 2019 is erroneous for the reasons that the Assessing Officer while framing the Order under Section 143(3) of the Income Tax Act, 1961 has made an addition on account of difference of excess stock found and the same falls under Section 69C of the Income Tax Act, 1961 and the said amount ought to have been taxed as per Section 115BBE of the Income Tax Act, 1961 and the net profit as per profit and loss account is ₹22,45,91,971/- whereas as per the computation sheet in the Assessment Order the same is taken at ₹17,97,70,830/- and the Assessing Officer has failed to notice the discrepancy. Despite the reply filed by Appellant, a revision Order dated March 22, 2022 was passed under Section 263 of the Income Tax Act, 1961 by Principal Commissioner of Income Tax directing that the Order dated December 20, 2019 of assessment passed by the Assessing Officer under Section 143(3) read with Section 153D of the Income Tax Act, 1961 is erroneous and prejudicial to the interest of the revenue. The Appellant being aggrieved by aforementioned Order dated March 22, 2022, filed an appeal before the Hon’ble Income Tax Appellate Tribunal, Bengaluru Bench, Bengaluru on May 24, 2022. Vide Order dated November 17, 2022 the Hon’ble Income Tax Appellate Tribunal upheld the Order dated March 22, 2022 passed in ITA no. 433/Bang/2022. The Appellant in the above Income Tax Appeal No. 198 of 2023 has inter alia prayed to set aside the Income Tax Tribunals’ findings in the Order dated November 17, 2022 passed in ITA no. 433/Bang/2022 relating to the A.Y 2018-19 and address substantial questions of law. The matter is pending.

3. Other Pending Litigations

Consumer Complaint No. CC/1224/2019 was filed by the Company (“Complainant”) before the National Consumer Dispute Redressal, New Delhi against National Insurance Company Limited (“Respondent”).

Our Company had bought a Standard Fire and Special Perils Policy (“**Policy**”) bearing no.

604301/11/16/3200000362 from the Respondent to protect the large quantities of fish meal and fish oil at Storage Facility I against risk of fire by paying a premium of ₹1,88,719/- (Rupees One Lakh Eighty-Eight Thousand Seven Hundred Nineteen Only). Within the validity of the Policy, an occurrence of emergence of smoke and fire took place at the Storage Facility I and after a few days, the Respondent conducted a preliminary survey. The Company filed its fire claim with the Respondent stating that it had incurred a loss of ₹3,13,78,648/- (Rupees Three Crore Thirteen Lakh Seventy-Eight Thousand Six Hundred Forty-Eight Only). The Company received a letter dated March 19, 2018, from the Respondent after the final survey, that spontaneous combustion was not covered under the Policy. Thereafter, the Company filed the above Consumer Complaint no. 1224/2019 dated July 15, 2019 seeking directions to set aside the repudiation letter of the Respondent dated March 19, 2018 and to allow the claim of the Company. The Company has filed Interlocutory Application bearing No.12754 of 2023 before the National Consumer Dispute Redressal Commission, Delhi under Section 151 of the Civil Procedure Code, 1908, and Section 38 of the Consumer Protection Act, 2019, praying to allow the application and condone the delay in filing evidence, and permit the Company to file its evidence by way of Affidavit, in the interest of justice and equity. The matter is pending.

Complaint No. CC/55/2021 dated April 05, 2021 was filed by the Company (“Complainant”) against United India Insurance Company Limited (“Respondent”) before the Dakshina Kannada District Consumer Disputes Redressal Commission (“Commission”)

The Company had obtained insurance for a total sum of ₹20,30,00,000/- (Rupees Twenty Crores Thirty Lakhs Only) from the Respondent for protection against various hazards for its goods stored at Storage Facility II for the period of May 20, 2018 to May 19, 2019. Due to heavy rains on May 29, 2018, the Storage Facility II was flooded with water to a height of about 3 feet from the floor level affecting the insured goods. The Company immediately informed the Respondent and on July 19, 2018, the First Surveyor submitted his final report for the incident and assessed the final claim to be ₹3,71,08,021/- (Rupees Three Crores Seventy-One Lakhs Eight Thousand Twenty One Only). In the due course, the Company submitted the requisite documents to the Respondent and it took 9 months to process and settle the claim. Subsequently, the Respondent appointed a second surveyor who conducted his survey on initial assessment of the first the surveyor and revaluated the claim amount to ₹1,50,41,160/- (Rupees One Crore Fifty Lakhs One Thousand One Hundred Sixty Only). The Respondent furnished vague answers when the Company tried seeking clarification for the reduced claims. Aggrieved by the Respondent's actions, the Company filed the above complaint against the Respondent under Section 34 of the Consumer Protection Act, 2019 before the Commission. The Company has inter alia prayed for the Commission to (i) direct the Respondent to declare the report by the second surveyor as invalid; (ii) allow claim of the Company to be based on the original survey report amounting to ₹3,71,08,021/- (Rupees Three Crores Seventy-One Lakhs Eight Thousand and Twenty-One Only) along with interest at 15% levied against the original claim for delay caused. The matter is pending.

Writ Petition bearing WP No.35710/2019 filed by (i) the Company (ii) Haris Marine Products Private Limited (“Petitioners”) against Central Board of Indirect Taxes and Customs (CBI&C) and Others (“Respondents”) before the Hon’ble High Court of Karnataka at Bengaluru (“the Hon’ble High Court”)

For details, see “*Litigations filed by our Company– Litigation Involving Actions by Statutory/Regulatory Authorities*” on page 454 of this Red Herring Prospectus.

Writ Petition bearing no. 27433/2023 filed before the Hon’ble High Court of Karnataka at Bangalore (“Hon’ble High Court”) inter alia by (i)Span Aquatic Products, (ii)Haris Marine Products, (iii) Ullal Fish Meal & Oil Co, (iv)Mangalore Fish Meal & Oil Co and Others (“Petitioners”) against Karnataka State Pollution Control Board and Others (“Respondents”).

The Petitioners are running manufacturing units of fishmeal, fish oil, and fish soluble products located in Ullal. Petitioners had obtained its Consent for operation for a period valid from November 13, 2017 to September 30, 2022. On August 05, 2022, closure orders were arbitrarily issued against the Petitioners industry by Karnataka State Pollution Control Board (“**the Respondent Board**”). The closure orders were challenged by the Petitioners before the Hon’ble High Court, wherein the Hon’ble High Court had passed an Order directing the Respondent Board to pass afresh orders considering the aforesaid closure orders as show cause notices after receiving the reply from the Petitioners within one week. A detailed reply was submitted by the Petitioners. However, the Respondent has not passed any order to the date while Petitioners are operating their business in terms of the conditions imposed upon them without any deviations. The Petitioners were initially granted a Consent for Operation in accordance with Section 21 of the Air Act, 1981, and Section 25 and 26 of the Water Act, 1974 for a period of five years from December 13, 2017 to September 30, 2022. However, prior to its expiry, the Petitioners applied for a renewal of consent with necessary payments. However, the Respondent did not process the renewal application of the Petitioners promptly. Thus, the Petitioners were granted deemed consent of renewal unconditionally as per Section 25(7) of the Water Act, 1974 as they failed to pass any refusal orders against the renewal application within four months from making the application. An inspection was conducted by the Respondent in the premises of the Petitioners’ industry in January and February, 2023. In violation of the mandatory requirement under Section 27(2) of the Air Act, 1961 and Section 22(2) of the Water Act, 1974 the Petitioners were never provided a copy of the inspection report. Personal Hearings for the Petitioners were conducted during August to October 2023 after a substantial delay from the date of inspection. The Petitioners were never supplied the inspection report or afforded the opportunity to revert to the issues raised therein. The Petitioners were on this occasion also inspected on August 24, 2023 and once again, the inspection report for the same was not provided. A show cause notice dated August 30, 2023 was issued to the Petitioners seeking compliance on the observations of the Board. The show cause notice read with the conditional order passed by the Respondent required submission of a compliance report, failing which consent would be refused. The Petitioners submitted a detailed compliance report on September 13 and 14, 2023 in reply to the aforesaid show cause notices. However, without considering any of the replies submitted by the Petitioners, the Respondent Board continued to pass the impugned refusal Order (“**Impugned Order**”). The reason for refusal of consent application has been stated to be the Petitioners’ failure to obtain a CRZ Clearance. Considering the Respondent has already granted deemed consent for renewal, it could not refuse renewed consent in the impugned Order but only withdraw the deemed consent granted by following the procedure contemplated under the Water Act, 1974 and Air Act, 1961 and determining if the Petitioners had violated the terms of consent. The Hon’ble High Court had passed an order dated September 07, 2023 in WP No.

19569/2023 that the Chairman of the Respondent Board was prohibited from taking any policy decisions. Thus, the Chairman of the Respondent Board could not have presided over the proceedings for approval of consent application of industries as it is a policy decision. Aggrieved by the Impugned Order, Petitioners have filed this Writ Petition No. 27433/2023 on the grounds that: (i) the Respondent Board is not the concerned authority to enforce the CRZ Regulations as per Regulation 6 of the CRZ Notification of 2011, making the impugned Order ultra vires and issued beyond authority; (ii) the Respondent Board has violated Principles of Natural Justice by providing the Petitioners neither a copy of the inspection report nor an opportunity to reply to the issues raised therein; (iii) the reply to the show cause notice dated August 30, 2023 was never considered by the Respondent Board before passing the impugned Order, after mechanically conducting a personal hearing; (iv) notices for inspection were never issued; (v) the impugned Order is vitiated by procedural irregularity under Section 25(7) of the Water Act, 1974 as consent was deemed to be granted unconditionally upon expiry of the period of four months from making the application; (vi) the current chairman of the Respondent Board had presided arbitrarily over the proceedings for approval of consent application in violation of the order passed by this Hon'ble Court in Writ Petition No. 19568/2023 that bars them from presiding over policy decisions; and (vii) the Petitioners are compliant with the conditions of the Respondent Board and are not causing any form of pollution beyond the prescribed limits. Aggrieved by the Impugned Order, the Petitioner have prayed that the Hon'ble High (i) issue a Writ of Certiorari or any other appropriate writ, order, or directions to quash and set aside Impugned Order issued to Haris Marine Products, Ullal Fish Meal & Oil Co, Mangalore Fish Meal & Oil Co, and other Petitioners; and (ii) issue a Writ of Certiorari or any other appropriate writ, order, or direction to quash and set aside the proceedings held on August 08, 2023, October 03, 2023 and October 04, 2023 for Haris Marine Products, Ullal Fish Meal & Oil Co, and Mangalore Fish Meal & Oil Co. respectively. Vide Order dated December 06, 2023 the Hon'ble High Court has stayed the Impugned Order until further orders. The matter is pending.

Kalandan Mohammed Haris

Special Leave Petition (Criminal) No. 2293/2022 filed by The Income Tax Department (the “Petitioner”) against Kalandan Mohammed Haris (“Respondent”) before the Hon’ble Supreme Court of India (“the Hon’ble Supreme Court”)

The Petitioner has filed the Special Leave Petition (Criminal) No. 2293/2022 before the Hon’ble

Supreme Court challenging the Order dated September 24, 2021 passed by the Hon'ble High Court of Karnataka at Bengaluru (“**Hon'ble High Court**”) in Criminal Petition No. 689 of 2020, whereby the Hon'ble High Court set aside the sanction order passed by the Principal Director of Income Tax (Inv.), Bengaluru for an offence committed by the Respondent under Section 50 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 and as a result, all the criminal proceedings were quashed against the Respondent in CC. No. 4179 of 2019 registered upon P.C. No. 73 of 2019 pending on the file of II Judicial Magistrate First Class, Mangalore. The Petitioner had conducted search proceedings on February 8, 2018 under Section 132 of the Income Tax, 1961 at the Company and at the residence of the Respondent. Show Cause Notice dated October 30, 2018 was issued to the Respondent asking as to why prosecution under Section 50 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 should not be launched against him on the grounds that the Respondent had not furnished the details of certain foreign assets and foreign income in the Income Tax Returns filed by him and that there was wilful concealment of the ownership of the assets. Vide reply dated November 21, 2018 to the said Show Cause Notice dated October 30, 2018, the Respondent provided certain information and explanation for the allegations made. The Respondent filed revised returns under Section 139(5) of the Income Tax Act, 1961 for A.Y. 2017-18. In Criminal Petition No. 689 of 2020, the Hon'ble High Court held that no offence against Respondent is made out as per Section 4 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 so as to invoke Section 50 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 for initiating any criminal prosecutions. The Petitioner has filed the above Special Leave Petition (Criminal) No. 2293/2022 before the Hon'ble Supreme Court on the grounds that (i) Order dated September 24, 2021 passed by the Hon'ble High Court is against law, (ii) the above Special Leave Petition involves substantial question of law of general public importance, (iii) the Hon'ble High Court erred in setting aside the sanction order passed by the Principle Director of Income Tax (Inv.), Bengaluru for an offence committed by the Respondent under Section 50 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 and also erred in quashing the criminal proceedings against the Respondent by recording erroneous finding, (iv) the Hon'ble High Court failed to appreciate the object of Section 139(5) of the Income Tax Act, 1961, (v) the Hon'ble High Court ought to have appreciated that the filing of the revised return after discovery of omission or wrong statement is not sufficient to bring the revised return within the ambit of Section 139(5) of the Income Tax Act, 1961, (vi) the Hon'ble High Court misinterpreted the provision of Section 50 of the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015 and (vii) the Hon'ble High Court misconstrued the provisions of law and its approach is manifestly misconceived and misdirected. The Petitioner has prayed before the Hon'ble Court to (i) grant to the Petitioner Special Leave to Appeal under Article 136 of the Constitution of India from the Order dated September 24, 2021 passed by the Hon'ble High Court in Criminal Petition No. 689 of 2020, (ii) to grant ad interim ex-parte stay of operation of Order dated September 24, 2021 passed by the Hon'ble High Court in Criminal Petition No. 689 of 2020 and/or (iii) pass any further order which the Hon'ble Court may deem fit and proper in interest of justice. The matter is pending.

Case No. WP 1007/2023 filed by Kalandan Mohammed Haris (“Petitioner) against (i) Union of India, (ii) Commissioner of Customs and (iii) Directorate of Enforcement (“Respondents”) before the Hon’ble High Court of Karnataka, at Bengaluru (“the Hon’ble High Court”).

A seizure order bearing no. 02/2022 dated July 12, 2022 was issued under Section 37A of the Foreign Exchange Management Act, 1999 (“FEMA”), by the Directorate of Enforcement, seizing certain properties held in the name of the Petitioner valued at ₹17,34,49,000 (Rupees Seventeen Crores Thirty Four Lakhs Forty Nine Thousand Only) for transactions that were entered into prior September 09, 2015 (effective date of implementation of Section 37A of FEMA). The said seizure order bearing no. 02/2022 came to be confirmed by the Commissioner of Customs under Section 37A, FEMA vide order bearing No. 01/2023 dated January 06, 2023. The Petitioner has filed a Writ Petition 1007/2023 before the Hon’ble High Court challenging the aforementioned seizure Orders dated July 12, 2022 and January 06, 2023 as the said Orders (i) are violative of Article 20(1) of the Constitution of India, (ii) the foreign transactions in sanctions were admittedly initiated prior to enactment of Section 37A of the FEMA and that the proceedings under Section 37A of the FEMA culminate into criminal sanctions, (iii) the fundamental rights guaranteed under Article 20(1) of the Constitution of India were argued to be infringed by the actions of the Respondents. The Petitioner further stated that, even otherwise, the FEMA does not provide for retrospective application for Section 37A of the FEMA thereof and thus, it was impermissible for Respondents to initiate any proceeding thereunder. The Petitioner has prayed that the Hon’ble High Court (i) issues a Writ of Certiorari or such other writ as deemed fit quashing the seizure order bearing no. 02/2022 dated July 12, 2022 as being violative of Article 20(1) of the Constitution of India and hence, illegal (ii) issues a Writ of Certiorari or such other writ as deemed fit quashing the order No. 01/2023 dated January 06, 2023 as being violative of Article 20(1) of the Constitution of India and hence, illegal (iii) issues a Writ of Mandamus or such other writ as deemed fit declaring that the actions and conduct of the Respondents in initiating and holding enquiry under Section 37A of the FEMA, as illegal, arbitrary, and without any authority, and (iv) to pass such other and further orders/writs as the Hon’ble High Court deems fit. The Hon’ble High Court, upon hearing the Petitioner and prima facie after satisfying itself on the case of the Petitioner, on January 16, 2023, had granted a status quo order against the Respondents. On January 31, 2023, Interim Order granted earlier was extended till 16 February, 2023 and March 7, 2023 respectively. On March 16, 2023, two weeks’ time was sought by petitioner to file rejoinder to statement of objections and Interim Order granted earlier was extended till the next date of hearing. The matter is pending.

Writ Petition No. 23939/2023 filed by Kalandan Mohammed Haris (“Petitioner”) against (i) Union of India (“Respondent No.1”), (ii) Directorate of Enforcement (“Respondent No.2”), (iii) Assistant Director, Directorate of Enforcement (“Respondent No.3”) and (iv) Commissioner of Customs (“Respondent No.4”) (collectively “Respondents”) before the Hon’ble High Court of Karnataka, at Bengaluru (“the Hon’ble High Court”).

The Petitioner is a promoter and director in various fish meal and oil manufacturing companies. A seizure order dated July 12, 2022 under Section 37A of FEMA, was issued by Respondent No. 3 against the Petitioner seizing certain properties held in the name of the Petitioner valued at ₹17,34,49,000/- (Rupees Seventeen Crore Thirty-Four Lakhs Forty-Nine Thousand only) for transactions that were entered prior to September 09, 2015 (effective date of implementation of Section 37A of FEMA). The said seizure order dated July 12, 2022 came to be confirmed by the Respondent No. 4 under Section 37A of FEMA vide order dated January 06, 2023. The Petitioner had filed a Writ Petition No. 1007/2023 before the Hon'ble High Court challenging the aforementioned seizure orders dated July 12, 2022 and January 06, 2023 and the Hon'ble High Court granted a status quo order on January 16, 2023 (“**Interim Order**”). On January 31, 2023, Interim Order granted by the Hon'ble High Court was extended till 16 February, 2023 and further on 16 February, 2023, Interim Order granted by the Hon'ble High Court was extended till March 7, 2023. On March 16, 2023, two weeks' time was sought by Petitioner to file rejoinder to statement of objections and Interim Order granted by the Hon'ble High Court was extended till the next date of hearing. The Respondent No. 3 had filed a Complaint in F. No. T-3/MGSZO/04/2022 dated July 7, 2023 (“**Complaint**”) against the Petitioner stating that the Petitioner (i) acquired immovable property outside India neither by way of gift nor inheritance, nor by way of payment from Resident Foreign Currency account nor jointly with a relative who is a person resident outside India as prescribed by FEMA, (ii) sold/transferred the immovable property outside India, but failed to repatriate the sale proceeds of the immovable property to India, (iii) held undisclosed bank account outside India and (iv) acquired business interest and made investments in a company registered outside India and acquired shares of the company registered outside India in contraventions of Sections 3(a),3(b) and Section 4 of FEMA read with Regulation 20, 20A, 21, 22 and 24 read with Regulation 3 of Foreign Exchange Management (Transfer of Issue or any Foreign Security) Regulations, 2004 for a total amount of ₹19,89,35,398.91/-, (Rupees Nineteen Crores Eighty Nine Lakhs Thirty Five Thousand Three Hundred Ninety Eight and Ninety One Paise Only) and on the basis of the said Complaint, Respondent No.2 had issued show cause notice dated September 11, 2023 to the Petitioner calling upon him to show cause as to why adjudication proceedings vide Section 13 and Section 16 of FEMA read with Rule 4 of Foreign Exchange Management (Adjudication Proceedings & Appeal) Rules, 2000 should not be condemned against the Petitioner. The Petitioner had stated that the transactions mentioned in the Complaint are already subject to the scrutiny of the Hon'ble High Court in Writ Petition No. 1007/2023. The Petitioner has filed the above Writ Petition No. 23939/2023 before the Hon'ble High Court inter alia stating that the show cause notice dated September 11, 2023 issued by Respondent No. 2 (i) is violative of the Interim Order, (ii) is arbitrary as it cannot be applied retrospectively for transactions that occurred prior to enactment of Section 37A of FEMA, (iii) is violative of Article 20(1) of the Constitution of India, which protects individuals from being convicted for acts that were not offenses when committed. The Petitioner has prayed before the Hon'ble High Court to (i) issue a Writ of Certiorari or such other writ as deemed fit quashing the show cause notice dated September 11, 2023 as being arbitrary and illegal, (ii) issue a Writ of Certiorari or such other writ as deemed fit quashing the as arbitrary and illegal, (iii) issue a writ of Mandamus or such other writ as deemed fit declaring that the actions and conduct of the Respondents in initiating proceedings under Section 37A of FEMA, as illegal, arbitrary, and without any authority, (iv) to stay the operations of show cause notice dated September 11, 2023 and the Complaint and (v) pass such other orders as the Hon'ble High Court deems fit. The matter is pending.

➤ **MATERIAL ENVIRONMENT RELATED APPROVALS**

• **OUR COMPANY**

• **Approvals in relation to Mukka Manufacturing Facility-I:**

- Combined Consent Order for discharge of effluents under Water (Prevention and Control of Pollution) Act, 1974 and emission under Air (Prevention and Control of Pollution) Act, 1981 and the Rules and Orders.
- Approval for installation of 2 (two) 400 KVA, 415 V Direct Generator Set issued by Electrical Inspector, Mangalore.

• **Approvals in relation to our Manufacturing Facility-II:**

- Consent to operate under Water (Prevention and Control of Pollution) Act, 1974 and emission under Air (Prevention and Control of Pollution) Act, 1981 and the Rules and Orders, expired on September 30, 2022*.
- Approval for installation of a 625 KVA, 415 V Direct Generator Set issued by Electrical Inspector, Mangalore.

** The Company has taken the Mukka Manufacturing Facility-II on rent basis from our Subsidiary, namely Haris Marine Products Private Limited on December 01, 2022 and the said license was issued in the name of Haris Marine Products Private Limited. Haris Marine Products Private Limited was initially granted Consent to Operate dated October 29, 2017 in accordance with Section 21 of the Air Act, 1981, and Section 25 and 26 of the Water Act, 1974 for a period of five years from December 13, 2017 to September 30, 2022. However, prior to its expiry, Haris Marine Products Private Limited made two applications dated August 27, 2022 and November 10, 2022 for renewal of the consent to operate under Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981 and the Rules and Orders made thereunder and also submitted a letter dated August 3, 2023 to the Environment Officer, Karnataka State Pollution Control Board, Mangalore ("KSPCB") for intimating that the Manufacturing Facility-II is rented to the Company and thus requesting for renewal and transfer the consent to operate in the name of the Company. The KSPCB did not process the renewal application of Haris Marine Products Private Limited promptly. Thus, the Consent to Operate dated October 29, 2017 granted to Haris Marine Products Private Limited was treated as deemed consent of renewal as per Section 25(7) of the Water (Prevention and Control of Pollution) Act, 1974 as KSPCB failed to pass any refusal orders against the renewal application within 4 (four) months from making the application. For details refer to "Litigations filed by our Subsidiaries- Haris Marine Products Private Limited - Litigation Involving Actions by Statutory/Regulatory Authorities" and "Risk Factors-We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations" on pages 461 and 51 of this Red Herring Prospectus.*

This Red Herring Prospectus does not, however, constitute an offer to sell or an invitation to subscribe to Equity Shares offered hereby, in any jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. No person outside India is eligible to bid for Equity Shares in the Issue unless that person has received the preliminary offering memorandum for the Issue, which contains the selling restrictions for the Issue outside India. Any person into whose possession this Red Herring Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Any dispute arising out of this Issue will be subject to the jurisdiction of appropriate court(s) in Karnataka, India only.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that this Red Herring Prospectus has been filed with SEBI for its observations. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and this Red Herring Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of this Red Herring Prospectus, nor any offer or sale hereunder, shall, under any circumstances, create any implication that there has been no change in our affairs from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Eligibility and Transfer Restrictions

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Equity Shares have not been and will not be registered under the U.S. Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and applicable laws of the jurisdictions where such offers and sales occur.

Each purchaser of the Equity Shares in the Issue in India shall be deemed to:

- represent and warrant to our Company, the BRLM and the Syndicate Members that it was outside the United States (as defined in Regulation S) at the time the offer of the Equity Shares was made to it and it was outside the United States (as defined in Regulation S) when its buy order for the Equity Shares was originated.
- represent and warrant to our Company, the BRLM and the Syndicate Members that it did not purchase the Equity Shares as result of any “directed selling efforts” (as defined in Regulation S).
- represent and warrant to our Company, the BRLM and the Syndicate Members that it bought the Equity Shares for investment purposes and not with a view to the distribution thereof. If in the future it decides to resell or otherwise transfer any of the Equity Shares, it agrees that it will not offer, sell or otherwise transfer the Equity Shares except in a transaction complying with Rule 903 or Rule 904 of Regulation S or pursuant to any other available exemption from registration under the U.S. Securities Act.
- represent and warrant to our Company, the BRLM and the Syndicate Members that if it acquired any of the Equity Shares as fiduciary or agent for one or more investor accounts, it has sole investment discretion with respect to each such account and that it has full power to make the foregoing representations, warranties, acknowledgements and agreements on behalf of each such account.
- represent and warrant to our Company, the BRLM and the Syndicate Members that if it acquired any of the Equity Shares for one or more managed accounts, that it was authorized in writing by each such managed account to subscribe to the Equity Shares for each managed account and to make (and it hereby makes) the representations, warranties, acknowledgements and agreements herein for and on behalf of each such account, reading the reference to “it” to include such accounts.
- agree to indemnify and hold the Company, the BRLM and the Syndicate Members harmless from any and all costs, claims, liabilities and expenses (including legal fees and expenses) arising out of or in connection with any breach of these representations, warranties or agreements. It agrees that the indemnity set forth in this paragraph shall survive the resale of the Equity Shares.
- acknowledge that our Company, the BRLM, the Syndicate Members and others will rely upon the truth and accuracy of the foregoing representations, warranties, acknowledgements and agreements.

Bidders are advised to ensure that any Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law.

Further, each Bidder where required must agree in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act.

Mechanism for Redressal of Investor Grievances

The agreement between the Registrar to the Issue and our Company dated May 23, 2023 provides for retention of records with the Registrar to the Issue for a minimum period of 8 (eight) years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, in order to enable the investors to approach the Registrar to the Issue for redressal of their grievances.

Investors can contact the Company Secretary and Compliance Officer, the BRLM or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc.

All grievances, other than of Anchor Investors may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary with whom the ASBA Form was submitted, giving full details such as name of the sole or First Bidder, ASBA Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for Retail Individual Investors who make the payment of Bid Amount through the UPI Mechanism),

date of ASBA Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Issue.

Anchor Investors are required to address all grievances in relation to the Issue to the BRLM. All grievances of the Anchor Investors may be addressed to the Registrar to the Issue, giving full details such as the name of the Sole Bidder or First Bidder, Anchor Investor Application Form number, Bidders' DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the Book Running Lead Manager where the Bid cum Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid / Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/22, dated February 15, 2018, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and subject to applicable law subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. Further, the investors shall be compensated by the SCSBs in accordance with SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially allotted applications for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the Book Running Lead Manager shall compensate the investors at the rate higher of ₹100 per day or 15% per annum of the application amount for the period of such delay, which period shall start from the day following the receipt of a complaint from the investor. The following compensation mechanism has become applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock.
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher.	From the date on which multiple amounts were blocked till the date of actual unblock.
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹100 per day or 15% per annum of the difference amount, whichever is higher.	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock.
Delayed unblock for non – Allotted / partially Allotted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher.	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual

Scenario	Compensation amount	Compensation period
		unblock.

Further, in terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the Book Running Lead Manager, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

Our Company, the BRLM and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of any SCSB, Registered broker, Syndicate member, RTA or CDP including any defaults in complying with its obligations under the SEBI ICDR Regulations.

Disposal of Investor Grievances by our Company

We estimate that the average time required by our Company and/or the Registrar to the Issue for the redressal of routine investor grievances shall be ten Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has appointed Mehaboobsab Mahmaddous Chalyal, Company Secretary as the Compliance Officer and he may be contacted in case of any pre-Issue or post-Issue related problems, at the address set forth hereunder.

- Right to receive dividend, if declared;
- Right to attend general meetings and exercise voting powers, unless prohibited by law;
- Right to vote on a poll either in person or by proxy or ‘e-voting’, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive any surplus on liquidation subject to any statutory or preferential claims being satisfied;
- Right to freely transfer their Equity Shares, subject to any RBI rules, foreign exchange regulations and other applicable laws; and
- Such other rights, as may be available to a shareholder of a listed public company under applicable law, including the Companies Act, 2013, the terms of the SEBI Listing Regulations and the Articles of Association of the Company.

For a detailed description of the main provisions of our Articles of Association relating to voting rights, dividend, forfeiture and lien, transfer and transmission, consolidation and splitting, see “*Description of Equity Shares and terms of Articles of Association*” on page 538 of this Red Herring Prospectus.

Allotment of Equity Shares in dematerialised form

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two tripartite agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

1. Tripartite Agreement dated December 30, 2021 among NSDL, our Company and the Registrar to the Issue.
2. Tripartite Agreement dated January 7, 2022 among CDSL, our Company and Registrar to the Issue.

Market Lot and Trading Lot

Since the trading of our Equity Shares on the Stock Exchanges shall only be in dematerialised form, the tradable lot is one (1) Equity Share. Allotment of Equity Shares will be only in electronic form in multiples of one (1) Equity Share, subject to a minimum Allotment of [●] Equity Shares. For details, see “*Issue Procedure*” on page 515 of this Red Herring Prospectus.

Joint Holders

Subject to provisions contained in our Articles of Association, where two or more persons are registered as the holders of any Equity Share, they shall be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

Jurisdiction

The courts of Mangalore, Karnataka, India will have exclusive jurisdiction in relation to this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933 (“Securities Act”) and may not be offered or sold within the United States (as defined in Regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration

requirements of the Securities Act. Accordingly, the Equity Shares are only being offered and sold outside the United States in offshore transactions in compliance with Regulation S under the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

Nomination facility to investors

In accordance with Section 72 of the Companies Act, 2013 read with Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 as mentioned above, shall, upon the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividend, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment will be made only in dematerialised form, there shall be no requirement for a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder will prevail. If Bidders wish to change their nomination, they are requested to inform their respective Depository Participant.

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular No: SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/76 dated May 30, 2022, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

The above timetable is indicative and does not constitute any obligation on our Company or the BRLM.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days of the Bid / Issue Closing Date or such period as may be prescribed by SEBI, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company and, in consultation with the BRLM, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid/Issue Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay.

Any circulars or notifications from SEBI after the date of this Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the issue procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time (“IST”)
Bid/ Issue Closing Date[#]	
Submission of electronic applications (online ASBA through 3-in-1 accounts)	Only between 10.00 a.m. and up to 5.00 p.m. IST
Submission of electronic application (bank ASBA through online channels like internet banking, mobile banking and syndicate ASBA applications through UPI as a payment mechanism where Bid Amount is upto ₹0.50 million)	Only between 10.00 a.m. and up to 4.00 p.m. IST
Submission of electronic applications (syndicate non-retail, non-individual applications of QIBs and NIIs)	Only between 10.00 a.m. and up to 3.00 p.m. IST
Submission of physical applications (direct bank ASBA)	Only between 10.00 a.m. and up to 1.00 p.m. IST

Submission of physical applications (syndicate non-retail, non-individual applications where Bid Amount is more than ₹0.50 million)	Only between 10.00 a.m. and up to 12.00 p.m. IST
Revision/cancellation of Bids	
Upward Revision of Bids by QIBs and Non-Institutional Bidders categories*	Only between 10.00 a.m. and up to 4.00 p.m. IST on Bid/ Issue Closing Date
Upward or downward Revision of Bids or cancellation of Bids by RIBs	Only between 10.00 a.m. and up to 5.00 p.m. IST

#UPI mandate end time and date shall be at 5.00 p.m. on the Bid/Issue Closing Date.

**QIBs and Non-Institutional Bidders can neither revise their Bids downwards nor cancel/withdraw their Bids.*

On the Bid/ Issue Closing Date, the Bids shall be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by UPI Bidders.

On Bid/Issue Closing Date, extension of time may be granted by the Stock Exchanges only for uploading Bids received by Retail Individual Bidders, after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchanges.

The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of the time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 1.00 p.m. (IST) on the Bid/Issue Closing Date. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation under this Issue Bids will only be accepted on Working Days.

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. Neither our Company nor any member of the Syndicate is liable for any failure in: (i) uploading or downloading the Bids due to faults in any software / hardware system or otherwise, and (ii) the blocking of the Bid Amount in the ASBA Account of Bidders on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/Issue Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e., the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price will not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be less than or equal to 120% of the Floor Price, subject to it being at least 105% of the Floor Price. In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

In case of any revision in the Price Band, the Bid/Issue Period shall be extended for at least 3 (three) additional Working Days after such revision of the Price Band, subject to the total Bid/Issue Period not exceeding 10 (ten) Working Days. Further, in cases of *force majeure*, banking strike or similar circumstances, our Company and in consultation with the BRLM, for reasons to be recorded in writing, may extend the Bid / Issue Period for a minimum of 3 (three) Working Days, subject to the Bid /Issue Period not exceeding 10 (ten) Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a press release and also by indicating the change on the websites of the BRLM and at the terminals of the members of the Syndicate and by intimation to the Designated Intermediaries and Sponsor Bank as applicable. In case of revision of the Price Band, the Bid lot shall remain the same.

In case of discrepancy in the data entered in the electronic book *vis-à-vis* the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

Under-subscription, if any, in any category except the QIB Portion, would be met with spill-over from the other categories at the discretion of our Company in consultation with the BRLM, and the Designated Stock Exchange.

Minimum Subscription

In the event our Company does not receive (i) a minimum subscription of 90% of the Issue, and (ii) a subscription in the Issue equivalent to at least 25% post-Issue paid up Equity Share capital of our Company, as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, as applicable, within 60 days from the date of Bid/Issue Closing Date, or if the subscription level falls below the thresholds mentioned above after the Bid/Issue Closing Date, on account of withdrawal of applications or after technical rejections, or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares being issued under this Red Herring Prospectus, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond 4 (four) days, our Company to the extent applicable, shall pay interest at the rate of 15% per annum including the SEBI circular bearing no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021.

Further, the Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted shall not be less than 1,000 in compliance with Regulation 49(1) of the SEBI ICDR Regulations failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders, and subscription money will be refunded, as applicable. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, the Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for disposal of odd lots

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

Restriction on transfer and transmission of shares

Except for the lock-in of the pre-Issue Equity Share Capital of our Company, minimum Promoters' Contribution and Equity Shares allotted to Anchor Investors pursuant to the Issue, as detailed in "*Capital Structure*" on page 122 and except as otherwise provided in our Articles of Association, there are no restrictions on transfers and transmission of Equity Shares or on their consolidation or splitting, for details see, "*Description of Equity Shares and terms of Articles of Association*" on page 538 of this Red Herring Prospectus.

Option to receive Equity Shares in Dematerialized Form

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges.

Withdrawal of the Issue

The Issue shall be withdrawn in the event that 90% of the Issue is not subscribed.

Our Company, in consultation with the BRLM, reserves the right not to proceed with the entire or portion of the Issue for any reason at any time after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the same newspapers, in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such further time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. Further, the Stock Exchanges shall be informed promptly in this regard by our Company, and the BRLM, through the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank (in case of UPI Bidders using the UPI mechanism), as applicable, to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification and inform the Bankers to the Issue to process refunds to the Anchor Investors, as the case may be. In the event of withdrawal of the Issue and subsequently, plans of a fresh Issue by our Company, a fresh red herring prospectus will be submitted again to SEBI and the Stock Exchanges.

Notwithstanding the foregoing, this Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days of Bid/Issue Closing Date or such other period as may be prescribed, and the final RoC approval of the Prospectus after it is filed with the RoC.

New Financial Instruments

Our Company is not issuing any new financial instruments through this Issue.

^SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, has mandated that ASBA applications in public issues shall be processed only after the application monies are blocked in the bank accounts of the investors. Accordingly, Stock Exchanges shall, for all categories of investors viz. QIBs, NIBs and RIBs and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked.

- (1) Our Company may, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis subject to there being (i) a maximum of two Anchor Investors, where allocation in the Anchor Investor Portion is up to ₹ 100 million, (ii) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹100 million but up to ₹2,500 million under the Anchor Investor Portion, subject to a minimum Allotment of ₹50 million per Anchor Investor, and (iii) in case of allocation above ₹2,500 million under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹2,500 million, and an additional 10 Anchor Investors for every additional ₹2,500 million or part thereof will be permitted, subject to minimum allotment of ₹50 million per Anchor Investor. An Anchor Investor will make a minimum Bid of such number of Equity Shares, that the Bid Amount is at least ₹100 million. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion.
- (2) Subject to valid Bids being received at or above the Issue Price. The Issue is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 45 of the SEBI ICDR Regulations. The Issue is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Issue shall be available for allocation on a proportionate basis to Qualified Institutional Buyers. Such number of Equity Shares representing 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to all QIBs. Further, not less than 15% of the Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders of which one-third of the Non-Institutional Portion shall be reserved for applicants with an application size of more than ₹0.2 million and up to ₹1 million and two-thirds of the Non-Institutional Portion shall be reserved for applicants with an application size of more than ₹1 million and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to applicants in the other sub-category of Non-Institutional Portion in accordance with SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Further, not less than 35% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. In the event of under-subscription in the Issue, the Allotment for the valid Bids will be made, in the first instance, towards subscription for 90% of the Fresh Issue. For details, please see “**Terms of the Issue**” on page 504 of this Red Herring Prospectus.
- (3) In the event that a Bid is submitted in joint names, the relevant Bidders should ensure that the depository account is also held in the same joint names and the names are in the same sequence in which they appear in the Bid cum Application Form. The Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder would be required in the Bid cum Application Form and such First Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.
- (4) Anchor Investors shall pay the entire Bid Amount at the time of submission of the Anchor Investor Bid, provided that any positive difference between the Anchor Investor Allocation Price and the Issue Price, shall be payable by the Anchor Investor Pay-in Date as mentioned in the CAN.
- (5) Anchor Investors are not permitted to use the ASBA process.
- (6) In case the Issue Price is lower than the Anchor Investor Allocation Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- (7) UPI Bidders are advised to confirm the availability of the UPI Mechanism with their respective brokers, prior to submission of Bids.

Bids by FPIs with certain structures as described under “**Issue Procedure**” on page 515 of this Red Herring Prospectus and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible

under applicable law, rules, regulations, guidelines and approvals to acquire Equity Shares under the Issue.

In case of any revision in the Price Band, the Bid/ Issue Period shall be extended for at least 3 (three) additional Working Days after such revision of the Price Band, subject to the total Bid/ Issue Period not exceeding 10 (ten) Working Days. Any revision in the Price Band, and the revised Bid/ Issue Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a press release and also by indicating the change on the websites of the BRLM and at the terminals of the members of the Syndicate.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

ISSUE PROCEDURE

All Bidders should read the General Information Document, for Investing in Public Issue prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the “**General Information Document**”) which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLM. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Issue; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of CAN and Allotment in the Issue; (vi) price discovery and allocation; (vii) general instructions (limited to instructions for completing the Bid cum Application Form); (viii) designated date; (ix) disposal of applications and electronic registration of bids; (x) submission of Bid cum Application Form; (xi) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xii) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. UPI has been introduced in a phased manner as a payment mechanism with the ASBA for applications by Retail Individual Investors through intermediaries from January 1, 2019. The UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was to continue for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the Covid-19, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had decided to continue with the UPI Phase II till further notice. The final reduced timeline of T+3 days will be made effective using the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”) and modalities of the implementation of UPI Phase III has been notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended by circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 has introduced certain additional measures for streamlining the process of initial public issue and redressing investor grievances. This circular has come into force for initial public issue opening on or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹0.5 million shall use the UPI Mechanism. The provisions of these circulars are deemed to form part of this Red Herring Prospectus.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

The BRLM shall be the nodal entity for any issues arising out of public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and BRLM shall continue to coordinate with intermediaries involved in the said process.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, investors shall be entitled to compensation in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended by SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

Our Company and the members of the Syndicate do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Red Herring Prospectus and the Prospectus.

Further, our Company and the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Issue.

Book Building Procedure

The Issue is being made through the Book Building Process, in terms of Rule 19(2)(b) of the SCRR read with Regulation 31 of the SEBI ICDR Regulations, through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Issue shall be available for allocation on a proportionate basis to QIBs, provided that our Company may, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Issue shall be available for allocation to Non-Institutional Bidders in accordance with the SEBI ICDR Regulations, out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹0.2 million and up to ₹1 million; and (b) two-third of such portion shall be reserved for applicants with application size of more than ₹1 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders; and not less than 35% of the Issue shall be available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Under-subscription, if any, in any category, except the QIB Category, would be allowed to be met with spill-over from any other category or categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, subject to applicable laws. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for UPI Bidders using the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the

Equity Shares in the Issue, subject to applicable law.

Bidder must ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press release dated June 25, 2021 and September 17, 2021 and CBDT Circular No.7 of 2022 dated March 30, 2022 read with press release dated March 28, 2023.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of *inter alia*, equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI. Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase III of the UPI Circular.

All SCSBs offering the facility of making applications in public offers shall also provide the facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI Mechanism.

Non-Institutional Bidders Bidding with an application size of up to ₹0.5 million in the Non-Institutional Portion may also Bid using the UPI Mechanism, where made available.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022.

Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all individual investors applying in public issues where the application amount is up to ₹0.5 million shall use UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- i. a syndicate member;
- ii. a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);
- iii. a depository participant (whose name is mentioned on the website of the stock exchange as eligible for this activity);
- iv. a registrar to an issue and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity)

For further details, refer to the “General Information Document” available on the websites of the Stock Exchanges and the BRLM.

Bid cum Application Form

Copies of the ASBA Forms (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at relevant Bidding Centres and at our Registered Office. An electronic copy of ASBA Forms will also be available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid/Issue Opening Date.

Anchor Investor Application Forms shall be available at the offices of the BRLM at the Anchor Investor Bidding Date.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate in the Issue through the ASBA process. All ASBA Bidders must provide either, (i) bank account details and authorisation to block funds in the ASBA Form, or (ii) the UPI ID (in case of UPI Bidders), as applicable, in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details will be rejected. Non-Institutional Bidders bidding through UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

ASBA Bidders (other than UPI Bidders using UPI Mechanism) must provide bank account details and authorization to block funds in their respective ASBA Accounts in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with CBDT notification dated Feb 13, 2020 and press release dated June 25, 2021 and September 17, 2021 and CBDT Circular No.7 of 2022 dated March 30, 2022 read with press release dated March 28, 2023.

Further, ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the relevant Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. UPI Bidders using the UPI Mechanism, may submit their ASBA Forms with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs. UPI Bidders authorising an SCSB to block the Bid Amount in the ASBA Account may submit their ASBA Forms with the SCSBs. UPI Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSB or by Sponsor Bank under the UPI Mechanism, as applicable at the time of submitting the Bid. ASBA Bidders must ensure that the ASBA

Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable at the time of submitting the Bid. In order to ensure timely information to Bidders, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked/ unblocked. For all IPOs opening on or after September 1, 2022, as specified in SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, all the ASBA applications in Public Issues shall be processed only after the application monies are blocked in the investor's bank accounts. Stock Exchanges shall accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. The circular shall be applicable for all categories of investors viz. Retail, QIB and NIB and also for all modes through which the applications are processed.

Since the Issue is made under Phase III, ASBA Bidders may submit the ASBA Form in the manner below:

For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. For ASBA Forms (other than UPI Bidders using UPI Mechanism where made available) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and

PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. In accordance with BSE circular no. 20220803-40 and NSE circular no. 25/2022, each dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. Further, modification of Bids shall be allowed in parallel during the Bid/Issue Period until the Cut-Off Time. The NPCI shall maintain an audit trail for every bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank, NPCI or the bankers to an issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank and the Bankers to the Issue. The BRLM shall also be required to obtain the audit trail from the Sponsor Bank and the Bankers to the Issue for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts for mandate block and unblock including details specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the SEBI Circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Banks on a continuous basis.

Participation by associates and affiliates of the BRLM and the Syndicate Members, Promoters, Promoter Group and persons related to Promoters / Promoter Group

The BRLM and the Syndicate Members shall not be allowed to subscribe to or purchase the Equity Shares in this Issue, in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLM and the Syndicate Members may bid for Equity Shares in the Issue, either in the Net QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders, and such Bid subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLM and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis or in any other manner as introduced under applicable laws, and such subscription may be on their own account or on behalf of their clients.

Except as stated below, neither the BRLM nor any associates of the BRLM can apply in the Issue under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the BRLM
- (ii) insurance companies promoted by entities which are associate of the BRLM
- (iii) AIFs sponsored by the entities which are associate of the BRLM; or
- (iv) FPIs (other than individuals, corporate bodies and family offices) sponsored by the entities which are associate of the BRLM.

Further, persons related to our Promoter and Promoter Group shall not apply in the Issue under the Anchor Investor Portion.

For the purposes of this section, a QIB who has any of the following rights shall be deemed to be a “*person related to the Promoter or Promoter Group*”: (a) rights under a shareholders’ agreement or voting agreement entered into with the Promoter or members of the Promoter Group; (b) veto rights; or (c) right to appoint any nominee director on our Board.

Further, an Anchor Investor shall be deemed to be an associate of a BRLM, if: (a) either of them controls, directly or indirectly through its Subsidiary or holding company, not less than 15% of the voting rights in the other; or (b) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or (c) there is a common director, excluding a nominee director, amongst the Anchor Investor and the BRLM.

Promoters and the members of the Promoter Group will not participate in the Issue except in accordance with the applicable law. Furthermore, persons related to our Promoters and our Promoter Group shall not apply in the Issue under the Anchor Investor Portion. It is clarified that a qualified institutional buyer who has rights under a shareholder’s agreement or voting agreement entered into with any of our Promoters or members of our Promoter Group of our Company, veto rights or a right to appoint any nominee director on our Board, shall be deemed to be a person related to our Promoters or Promoter Group of our Company.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index fund or sector or industry specific scheme. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Issue. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their respective SCSB or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non- Resident External (“NRE”) accounts (including UPI ID, if activated), or Foreign Currency Non-Resident (“FCNR”) Accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorize their respective SCSB to block their Non-Resident Ordinary (“NRO”) accounts or confirm or accept the UPI Mandate Request (in case of UPI Bidders using the UPI Mechanism) for the full Bid Amount, at the time of the submission of the Bid cum Application Form. NRIs applying in the Issue through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue colour). By way of Press Note 1 (2021 Series) dated March 19, 2021, issued by the DPIIT, it has been clarified that an investment made by an Indian entity which is owned and controlled by NRIs on a non-repatriation basis, shall not be considered for calculation of indirect foreign investment.

For details, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 536 of this Red Herring Prospectus.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the *karta*. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the *karta*”. Bids/Applications by HUFs may be considered at par with Bids/Applications from individuals.

Bids by FPIs

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI or an investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control) shall be below 10% of our post-issue Equity Share capital on a fully diluted basis. In case, the total holding of an FPI, or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents (blue colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed

that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income-tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, is permitted to issue, subscribe to or otherwise deal in offshore derivative instruments directly or indirectly, if it complies with the following conditions: (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with the 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (i) to (iv)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

BID received from FPIs bearing the same PAN shall be treated as multiples bids and are liable to be rejected, except for bid from FPIs that utilise the multiple investment manager structure in accordance with the operational guidelines for FPIs and designated depository participants issued to facilitate implementation of SEBI FPIs regulations (such structure referred to as "MIM structure"), provided such bid have been made with different beneficiary account numbers, Client IDs and DP IDs.

Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

Further, in the following cases, Bids by FPIs shall not be treated as multiple Bids:

- FPIs which utilise the multi-investment manager structure;
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager;
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs with the operational guidelines for FPIs and designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids shall be rejected.

For details of investment by FPIs in the Issue, see "**Restrictions on Foreign Ownership of Indian Securities**" on

page 536 of this Red Herring Prospectus. Participation of FPIs shall be subject to the FEMA Non-debt Instruments Rules.

The FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for non-residents.

Bids by SEBI registered VCFs, AIFs and FVCIs

The Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012, as amended (the “SEBI AIF Regulations”) prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996, venture capital funds which have not re-registered as AIFs under the SEBI AIF Regulations shall continue to be regulated by the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs.

The category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A category III AIF cannot invest more than 10% of its investible funds in one investee company. A VCF registered as a category I AIF, cannot invest more than one-third of its investible funds, in the aggregate, in certain specified instruments, including by way of subscription to an initial public offering of a venture capital undertaking. An FVCI can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations).

Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

Participation of AIFs, VCFs and FVCIs shall be subject to the FEMA Rules.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding equity shares of a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months period from the date of purchase by the venture capital fund or alternative investment fund or foreign venture capital investor.

There is no reservation for Eligible NRI Bidders, AIFs, FPIs and FVCIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLM are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Red Herring Prospectus or Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

General Instructions

Please note that QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. RIBs can revise their Bid(s) during the Bid/ Issue Period and withdraw or lower the size of their Bid(s) until Bid/ Issue Closing Date. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bid/ Issue Period.

Do's:

1. Check if you are eligible to apply as per the terms of this Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
2. Ensure that you have Bid within the Price Band;
3. Ensure that you (other than the Anchor Investors) have mentioned the correct details of your ASBA Account (i.e. bank account number or UPI ID, as applicable) in the Bid cum Application Form if you are not a UPI Bidder using the UPI Mechanism in the Bid cum Application Form and if you are a UPI Bidder using the UPI Mechanism ensure that you have mentioned the correct UPI ID (with maximum length of 45 characters including the handle), in the Bid cum Application Form;
4. UPI Bidders using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
5. UPI Bidder using UPI Mechanism, may submit their ASBA Forms with the Syndicate Member, Registered Brokers, RTAs or CDPs and should ensure that the ASBA Form contains the stamp of the relevant Designated Intermediary;
6. UPI Bidders Bidding using the UPI Mechanism shall make Bids only through the SCSBs, Mobile Applications and UPI handles whose name appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected;
7. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
8. Ensure that the details about the PAN, DP ID and Client ID are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in the dematerialised form only;
9. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the relevant Bidding Centre (except in case of electronic Bids) within the prescribed time. UPI Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate Members, sub-Syndicate Members, Registered Brokers, RTAs or CDPs and should ensure that the ASBA Form contains the stamp of such Designated Intermediary;
10. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
11. In case of joint Bids, ensure that first Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the first Bidder is included in the Bid cum Application Form. If the first Bidder is not the ASBA Account holder, ensure that the Bid cum Application Form is also signed by the ASBA Account holder;
12. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. Ensure that the signature of the First Bidder is included in the Bid cum Application Forms. PAN of the First Bidder is required to be specified in case of joint Bids;
13. Bidders should ensure that they receive the Acknowledgment slip or the acknowledgement number duly signed and stamped by a Designated Intermediary, as applicable, for submission of the Bid cum Application Form;
14. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;

15. Ensure that you submit the revised Bids to the same Designated Intermediary, through whom the original Bid was placed and obtain a revised acknowledgment;
16. Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification dated February 13, 2020 issued by the Central Board of Direct Taxes and the press release dated June 25, 2021 and September 17, 2021 and CBDT Circular No.7 of 2022 dated March 30, 2022 read with press release dated March 28, 2023;
17. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of the SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) submitted by investors who are exempt from the requirement of obtaining/specifying their PAN for transacting in the securities market, and (iii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
18. Ensure that the Demographic Details are updated, true and correct in all respects;
19. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;
20. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;
21. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust, etc., relevant documents, including a copy of the power of attorney, are submitted;
22. Ensure that Bids submitted by any person resident outside India should be in compliance with applicable foreign and Indian laws;
23. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
24. Since the Allotment will be in demat form only, ensure that the depository account is active, the correct DP ID, Client ID, the PAN, and UPI ID (for UPI Bidders bidding through UPI mechanism) and PAN are mentioned in their Bid cum Application Form and that the name of the Bidder, the DP ID, Client ID, UPI ID (for ASBA Bidders bidding through UPI mechanism) and the PAN entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as applicable, matches with the name, DP ID, Client ID, UPI ID (for UPI Bidders bidding through UPI mechanism) and PAN available in the Depository database;
25. In case of QIBs and NIBs, ensure that while Bidding through a Designated Intermediary, the ASBA Form is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at <http://www.sebi.gov.in>);
26. The ASBA Bidders shall use only their own bank account or only their own bank account linked UPI ID for the purposes of making Application in the Issue, which is UPI 2.0 certified by NPCI;
27. The ASBA Bidders shall ensure that bids above ₹0.5 million, are uploaded only by the SCSBs;
28. Bidders (except UPI Bidders Bidding through the UPI Mechanism) should instruct their respective banks to release the funds blocked in the ASBA account under the ASBA process. In case of UPI Bidders, once the Sponsor Bank issues the UPI Mandate Request, the UPI Bidders would be required to proceed to authorize the blocking of funds by confirming or accepting the UPI Mandate Request to authorize the blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment;

29. UPI Bidders who wish to revise their Bids using the UPI Mechanism, should submit the revised Bid with the Designated Intermediaries, pursuant to which UPI Bidders should ensure acceptance of the UPI Mandate Request received from the Sponsor Bank to authorize blocking of funds equivalent to the revised Bid Amount in the UPI Bidder's ASBA Account;
30. UPI Bidders should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
31. Note that in case the DP ID, UPI ID (where applicable), Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, UPI ID (where applicable), Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
32. However, Bids received from FPIs bearing the same PAN shall not be treated as multiple Bids in the event such FPIs utilise the MIM Structure and such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs;
33. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 12:00 p.m. of the Working Day immediately after the Bid/Issue Closing Date;
34. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, were required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids are liable to be rejected;
35. Ensure that Anchor Investors submit their Bid cum Application Forms only to the BRLM;
36. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and UPI Bidders Bidding using the UPI Mechanism) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI (at www.sebi.gov.in) or such other websites as updated from time to time);
37. Ensure that you have correctly signed the authorization /undertaking box in the Bid cum Application Form, or have otherwise provided an authorization to the SCSB or the Sponsor Bank, as applicable via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
38. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorize the UPI Mandate Request using his/her UPI PIN. Upon the authorization of the mandate using his/her UPI PIN, the UPI Bidder shall be deemed to have verified the attachment containing the application details of the UPI Bidder Bidding using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorized the Sponsor Bank to issue a request to block the Bid Amount mentioned in the Bid Cum Application Form in his/her ASBA Account;
39. UPI Bidders Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form
40. Bidders (other than Anchor Investors) ensure that only their own ASBA Account or only their own bank account linked UPI ID (only for UPI Bidders using the UPI Mechanism, where made available) to make an application in the Issue and not ASBA Account or bank account linked UPI ID of any third party;
41. Retail Individual Investors Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Bid Amount in his/her account and subsequent debit of funds in case of allotment in a timely manner;
42. Bids by Eligible NRIs and HUFs for a Bid Amount of less than ₹0.2 million would be considered under the Retail Portion, and Bids for a Bid Amount exceeding ₹0.2 million would be considered under the Non-Institutional Portion, for the purposes of allocation in the Issue;

43. The Bid cum Application Form is liable to be rejected if the above instructions, as applicable, are not complied with. Application made using incorrect UPI handle or using a bank account of an SCSB or SCSBs which is not mentioned in the Annexure 'A' to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 is liable to be rejected;
44. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank(s) prior to 12:00 p.m. of the working Day immediately after the Bid/Issue Closing Date; and
45. The Bid cum Application Form is liable to be rejected if the above instructions, as applicable, are not complied with. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“**DPIIT**”) makes policy announcements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEMA. The DPIIT also issues the Consolidated Foreign Direct Investment Policy (“**FDI Policy**”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DPIIT with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DPIIT till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

In accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Further, in accordance with the amendment to the Companies (Share Capital and Debentures) Rules, 2014 vide notification dated May 4, 2022 issued by Ministry of Corporate Affairs, a declaration shall be inserted in the share transfer form stipulating whether government approval shall be required to be obtained under Foreign Exchange Management (Non-debt Instruments) Rules, 2019 prior to transfer of shares. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

Further, the existing individual and aggregate investment limits for an FPI in our Company are not exceeding 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Issue, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders. With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100%. As per the Regulations, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has passed no such Board Resolution and hence, has not revised its sectoral caps. Our Company falls within the applicable statutory ceiling limits which stand at 100% for the manufacturing sector under the FDI Policy. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to

the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company. The aggregate limit of 10% in case of NRIs and OCIs together may be raised to 24 % if a special resolution to that effect is passed by the shareholders of the Company. The shareholders of the Company have by their resolution dated December 29, 2021 approved such increase of limits of investment for the FPIs, NRIs and OCIs.

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of RBI, subject to fulfillment of certain conditions as specified by DPIIT / RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the Bids are not in violation of laws or regulations applicable to them.

SECTION IX: DESCRIPTION OF EQUITY SHARES AND TERMS OF ARTICLES OF ASSOCIATION

Pursuant to the Companies Act and the SEBI ICDR Regulations, the Description of Equity Shares and Terms of the Articles of Association are detailed below. Capitalised terms used in this section have the meaning given to them in the Articles of Association. Each provision below is numbered as per the corresponding article number in the Articles of Association and defined terms herein have the meaning given to them in the Articles of Association.

The following regulations comprised in these Articles of Association were adopted pursuant to members' resolution passed at the Extraordinary General Meeting held on February 28, 2022 in substitution for and to the entire exclusion of, the regulations contained in the existing Articles of Association of the Company.

MAIN PROVISIONS OF ARTICLES OF ASSOCIATION

Article 6

Share Capital and Variation of Rights

- (a) The Authorised Share Capital of the Company shall be such amount and be divided into such shares as may from time to time, be provided in clause V of the Memorandum each with power to consolidate, increase, reduce, subdivide the capital for the time being and to divide the shares in the capital for the time being into several classes and to attach thereto respectively such preferential, cumulative, convertible, preference, guaranteed, qualified or special rights, privileges or conditions as may be determined by or in accordance with the Articles of Association of the Company and to vary, alter, modify, amalgamate or abrogate any such rights, privileges or conditions in such a manner as may for the time being be provided for by the Articles of Association of the Company or by the law in force for the time being.
- (i) The Share Capital of the Company shall be of two kinds, namely: -
- Equity Share Capital with voting rights; or
 - with differential rights as dividend, voting or otherwise in accordance with the Act.
- (ii) Preference share capital.
- (b) Subject to the rights of the holders of any other shares entitled by the terms of issue to preferential repayment over the equity shares in the event of winding up of the Company, the holders of the equity shares shall be entitled to be repaid the amounts of capital paid up or credited as paid up on such equity shares and all surplus assets thereafter shall belong to the holders of the equity shares in proportion to the amount paid up or credited as paid-up on such equity shares respectively at the commencement of the winding up.
- (c) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of Section 48 of the Act, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

Article 7 Clause (b)

Further Issue of Capital

Where at any time it is proposed to increase the subscribed capital of the Company by allotment of further shares, whether out of unissued share capital or out of the increased share capital.

- (i) such further shares shall be offered to the person who at the date of offer, are holders of the equity shares of the Company, in proportion as nearly as circumstances admit, to the capital paid up on those shares at that date.
- (ii) the offer aforesaid shall be made by a notice specifying the number of shares offered and limiting a time not being less than 15 days and not exceeding 30 days from the date of the offer within which the offer, if not accepted, will be deemed to have been declined.
- (iii) The offer aforesaid shall be deemed to include a right exercisable by the person concerned to renounce the shares offered to him or any of them in favor of any other person and the notice shall contain a statement of this right.

- (iv) After the expiry of the time specified in notice aforesaid or on receipt of earlier intimation from the person to whom such notice is given that he declines to accept the shares offered, the Board may dispose of them in such manner as they think most beneficial to the Company and members.
- (v) Notwithstanding anything contained in the preceding sub-clause, the Company may:
 - (a) by a special resolution offer further shares to any person or persons, and such person or persons may or may not include the person/s who at the date of the offer, are the holders of the equity shares of the Company or to employees of the Company under the Scheme of employees' stock option; or
 - (b) Notwithstanding anything contained in sub-clause (a) above, but subject, however, to section 62(3) of the Act, the Company may increase its subscribed capital on exercise of an option attached to the debentures issued or loans raised by the Company to convert such debentures or loans into shares, or to subscribe for shares in the Company.

Article 12

Division, Sub-division, consolidation, Conversion and Cancellation of Shares

Subject to the provisions of Section 61 of the Act, the Company in general meeting may alter the conditions of its Memorandum as follows, that is to say, it may:

- (a) increase its authorized share capital by such amount as it think expeditiously;
- (b) consolidate and divide all or any of its Share Capital into shares of larger amount than its existing shares. Provided that no consolidation and division which results in changes in the voting percentage of shareholders shall have effect unless it is approved by the Court or Tribunal as applicable
- (c) sub-divide its shares or any of them into shares of smaller amount than originally fixed by the Memorandum subject nevertheless to the provisions of the Act in that behalf and so however that in the sub-division the proportion between the amount paid and the amount, if any unpaid on each reduced share shall be the same as it was in the case of the share from which the reduced share is derived; and so that as between the holders of the shares resulting from such sub-division one or more of such shares may, subject to the provisions of the sub-division one or more of such shares may, subject to the provisions of the Act, be given any preference or advantage over the others or any other such shares;
- (d) convert, all or any of its fully paid-up shares into stock, and re-convert that stock into fully paid-up shares of any denomination;
- (e) cancel, shares which at the date of passing of the resolution have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

Article 30

Issue of Certificates of Shares to be Governed by Section 46 of the Act etc.

- (a) The issue of certificates of shares or of duplicate or renewal of certificates of shares and/or advices/certificates issued upon sub-division, split, consolidation and exchanges shall be governed by the provisions of Section 46 and other provisions of the Act, as may be applicable and by the Rules or notifications or orders, if any, which may be prescribed or made by competent authority under the Act or Rules or the as well as the Listing Regulations, as may be applicable or any other law. The Directors may also comply with the provisions of such rules or regulations of any stock exchange where the shares of the Company may be listed from the time being.
- (b) The Certificate of title of shares shall be issued under the Seal of the Company, if any, and shall be signed by such Directors or Officers or other authorized persons as may be prescribed by

Rules made under the Act from time to time and subject thereto shall be signed in such manner and by such persons as the Directors may determine from time to time.

- (c) The Company shall comply with all rules and regulations and other directions which may be made by any competent authority under Section 46 of the Act and the Listing Regulations.

Article 32

Issue of new Certificates in Place of one defaced Lost or Destroyed

If any certificate be worn out, defaced, mutilated or torn if there be no, further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the company, a new certificate may be issued in lieu, thereof, and if any certificate be lost or destroyed then upon proof thereof to the satisfaction of the Company and on; execution of such indemnity as the Company deem adequate, being given, a new Certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every Certificate under this Article shall be issued without payment of fees. Out of pocket expenses incurred by the Company in investing the evidence as to the loss or destruction shall be paid to the Company if demanded by the directors.

Provided that notwithstanding what is stated above the directors shall comply with such Rules or Regulation or requirements of any stock Exchange including the Listing Regulations or the Rules made under the Act or the Rules made under Securities Contracts (Regulation) Act, 1956 or any other Act, on Rules applicable in this behalf.

The provisions of the Article under this heading shall mutatis mutandis apply to debentures of the Company.

Article 41

Calls on Shares of the Same Class to be made on Uniform Basis

Where any calls for further Share Capital are made on shares, such calls shall be made on a uniform basis on all shares falling under the same class.

Explanation: For the purpose of this provision, shares of the same nominal value on which different amounts have been paid up shall not be deemed to fall under the same class.

LIEN

Article 47

Company's Lien on Shares/Debentures

The Company shall have a first and paramount lien upon all the shares and/or debentures (other than fully paid-up shares and/or debentures) registered in the name of each Member and/or debenture holder (whether held singly or jointly with others) in respect of all moneys called or payable at a fixed time in respect of such shares whether the time for payment thereof shall have actually arrived or not and shall extend to all dividends, interest right and bonuses from time to time declared in respect of such shares and/or debentures. The registration of transfer of shares and/or debentures shall not operate as a waiver of the Company's lien, if any, on such shares and/or debentures, unless otherwise agreed by the Board. The Directors may at any time declare any share and/or debenture wholly or in part exempt from the provisions of this Article.

Article 48

As to Enforcing Lien by sale

For the purpose of enforcing such lien, the Board may sell the shares/debentures subject thereto in such manner as they shall think fit, and for that purpose may cause to be issued a duplicate certificate in respect of such shares and/or debenture and may authorize one of their members or appoint any officer or Agent to execute a transfer thereof on behalf of and in the name of such member/debenture holder. No sale shall be made until such period, as may be stipulated by the Board from time to time, and until notice in writing of the intention to sell shall have been served on such member and/or debenture holder or his legal representatives and default shall have been made by him or them in payment, fulfillment, or discharge of such debts, liabilities or engagements for fourteen days after such notice.

FORFEITURE

Article 50

If Call or Installment Not Paid Notice must be given

- (a) If any member or debenture holder fails to pay the whole or any part of any call or installment or any money due in respect of any share or debentures either by way of principal or interest on or before the day appointed for the payment of the same or any such extension thereof as aforesaid, the Directors may at any time thereafter, during such time as the call or any installment or any part thereof or other moneys remain unpaid or a judgement or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such member or debenture holder or on the person (if any) entitled to the share by transmission requiring him to pay such call or installment or such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all expenses that may have been incurred by the Company by reason of such non-payment.
- (b) The notice shall name a day not being less than fourteen days from the date of the services of the notice and a place or places, on and which such call, or installment or such part or other moneys as aforesaid and such interest and expenses as aforesaid are to be paid. The notice shall also state that in the event of non-payment of call amount with interest at or before the time and at the place appointed, the shares or debentures in respect of which the call was made or installment or such part or other moneys is or are payable will be liable to be forfeited. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time, thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

Article 51

In Default of Payment Shares or Debentures to be Forfeited

If the requirements of any such notice as aforesaid are not complied with any share/debenture in respect of which such notice has been given, may at any time thereafter before payment of all calls or installments, interest and expenses or other moneys due in respect thereof, be forfeited by a resolution of the Directors to that effect. Neither the receipt by the Company of a portion of any money which shall from time to time be due from any member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company. In respect of the payment of any such money, shall preclude, the Company from thereafter proceeding to enforce a forfeiture of such shares as herein provided. Such forfeiture shall include all dividends declared or interest paid or any other moneys payable in respect of the forfeited shares or debentures and not actually paid before the forfeiture.

Article 52

Entry of Forfeiture in Register of Member/Debenture holders

When any shares / debentures shall have been so forfeited, notice of the forfeiture shall be given to the member or debenture holder in whose name it stood immediately prior to the forfeiture and any entry of the forfeiture with the date thereof, shall forthwith be made in the Register of members of debenture holders but no forfeiture shall be invalidated by any omission or neglect or any failure to give such notice or make such entry as aforesaid.

Article 56

Effect of Forfeiture

The forfeiture of a share or a debenture shall involve extinction at the time of forfeiture, of all interest in and all claims and demands against the Company, in respect of the share or debenture and all other rights incidental to the share or debenture, except only such of these rights as by these Articles are expressly saved.

Article 61

Surrender of Shares or Debenture

The Directors may, subject to the provisions of the Act, accept a surrender of any share or debenture from or by any member or debenture holder desirous of surrendering them on such terms as they think fit.

Article 66

Transfer of Share

- (a) An application of registration of the transfer of shares may be made either by the transferor or the transferee provided that where such application is made by the transferor, no registration shall in the case of partly paid shares be effected unless the Company gives notice of the application to the transferee and subject to the provisions of Clause (a) of this Article, the Company shall unless object is made by the transferee, within two weeks from the date of receipt of the notice, enter in the Register of members the name of the transferee in the same manner and subject to the same conditions as if the application for registration was made by the transferee.
- (b) For the purpose of clause (a) above notice to the transferee shall be deemed to have been duly given if sent by prepaid registered post to the transferee at the address given in the instrument of transfer and shall be deemed to have been duly delivered at the time at which it would have been delivered to him in the ordinary course of post.
- (c) It shall not be lawful for the Company to register a transfer of any shares unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupation, if any, of the transferee has been delivered to the Company along with the Certificate relating to the shares and if no such Certificate is in existence, along with the letter of allotment of shares. The Directors may also call for such other evidence as may reasonably be required to show the right of the transferor to make the transfer, provided that where it is proved to the satisfaction of the Directors of the Company that an instrument of transfer signed by the transferor and the transferee has been lost, the Company may, if the Directors think fit, on an application in writing made by the transferee and bearing the stamp required by an instrument of transfer register the transfer on such terms as to indemnity as the Directors may think fit.
- (d) Nothing in clause (c) above shall prejudice any power of the Company to register as shareholder any person to whom the right to any share has been transmitted by operation of law.
- (e) Nothing in this Article shall prejudice any power of the Company to refuse to register the transfer of any share.

Article 73

Registration of Persons Entitled to Share Otherwise than by Transfer

- (a) Subject to the provisions of Article 79 any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy or insolvency of any member or by any lawful means other than by a transfer in accordance with these present, may with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of such titles as the Directors shall think sufficient, either be registered himself as a member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as a member in respect of such shares. Provided nevertheless that if such person shall elect to have his nominee registered, he shall testify his election by executing in favor of his nominee on instrument of transfer in accordance with the provisions herein contained and until he does so, he shall not be free from any liability in respect of such shares.
- (b) A transfer of the share or other interest in the Company of a deceased member thereof made by his legal representative shall although the legal representative is not himself a member, be as valid as if he had been a member at the time of the execution of the instrument of transfer.

GENERAL MEETINGS
