Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.***

Our Registered office is situated at 202, Shri Virkala Complex, M.G. Haveli R, Manekchowk Co. Op Bank, Manekchowk, Ahmedabad, Gujarat, India, 380001, is a leased premises which we have been taken for 11 months on lease beginning from April 01, 2019 which is owned by Mr. Bharat Rasiklal Shah, who is one of the Promoters of our Company and Whole-Time Director of our Company. Our business operations are also conducted from the said premises. As per the leave & license agreement the lease is for a period of 11 months and any non-compliance by us in relation to any term of lease may result in the termination of the leave & license agreement and consequently we have to vacate the said premises. We also cannot assure you that lessor will not terminate the leave & license agreement, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations.

- 4. Our company has not registered name and logo of our Company with the Trade Marks Registry of Ahmedabad. The company in future may register it depending on the future requirements. 5. ***Certain agreements may be inadequately stamped or may not have been registered or may not have necessary disclosure as a result of which our operations may be adversely affected.***

Few of our agreements may not be stamped adequately or registered or may not have not the necessary disclosures. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company. Further, effect of non-disclosure of certain necessary points as required under the Contract Act, 1872 (as amended from time to time) and/ or under any other law, rules, regulations, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non- disclosure of necessary points/ rules/regulations/ law relating to Contract Act, 1872 (as amended from time to time) and/ or under any other law, rules, regulations may adversely impact the operations of our Company.

6. ***We do not register our jewellery designs under the Designs Act, 2000 and we may lose income if our designs are duplicated by competitors.***

Our jewellery is designed by our job workers. Due to the competitive nature of the jewellery markets in which we operate, jewellery designs change on a frequent basis and hence we do not register designs under the Designs Act, 2000. Our designs therefore are not protected under the Designs Act, 2000 and if competitors copy our designs it could lead to loss of income, which could adversely affect our reputation and our results of operations.

7. ***Any change in our consumer's likes, preferences or a change in their perception regarding the quality of our products may negatively affect the image and our reputation and in turn affect our revenues and profitability.***

The industry in which we operate is highly competitive and where goodwill and reputation are of huge significance. Although we have been in the business of dealing in gold chains, bracelets and necklace; any change in consumer's likes, preferences or a change in their demands regarding the design & quality of our products, may negatively affect the image and reputation of our products and consequently that our Company. Further, such incidences may expose our Company to liabilities and claims, adversely affect our reputation, growth and profitability.

8. ***Any deficiency in our products & services could make our Company liable for client claims, which in turn could affect our Company's results of operations.***

Our Company is bound by the terms and conditions as placed before its clients. There are no specific regulations governing the supply of the same, other than the general law of contracts. Any claims made by these clients for deficiency in our products and services, would be subject to these terms and conditions, which are in the nature of normal contractual obligations in India. Any violation of these obligations could impact our Company's results of operations.

9. ***Orders placed by customers may be delayed, modified, cancelled or not fully paid for, which may have an adverse effect on our business, financial condition and thereby on our results of operations.***

We may encounter predicaments in executing the orders placed by our customer or executing it on a timely basis. Moreover, there are factors which may be beyond our control or in the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, which may result in the postponement of executing or delivering of the necessary product(s) or cause its cancellation. Further, even though we execute orders as placed by our customers, the order could be cancelled or there could be any changes in delivery of the products. Accordingly, it is difficult to predict with certainty if, when and to what extent the delivery of the orders placed will be made. Failure to deliver our orders on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our revenue, cost of operation and thereby our business functioning.

10. ***Our business experiences an increase in sales during the festive, wedding season and other significant seasons. Any substantial decrease in our sales during such periods and our inability cope up with our service***

during this time, then our revenues and profitability will be affected and have a negative effect on our image and brand.

Our business is experience significant increase in our sales during the festive, wedding season and other significant seasons like Christmas, Diwali season, Gudi Padwa, Guru Pushya Nakshatra etc and during wedding seasons. Any significant shortfall in sales or our inability to cope up with the growing demands during this periods during these periods, would affect our profitability and we would experience adverse effect on our results of operations.

- 11. If we are unable to introduce new designs of our products in line with the changing consumer preferences and market trends, we may face decline in demand for our products.***

Jewellery business is subject to changing consumer patterns and preferences, which is difficult to predict. We are required to constantly improvise our product designs, understand consumer tastes and preferences focus on innovative designing and introduce new designs and patterns to meet the changing consumer needs. If we are unable to meet consumer expectations, it may adversely affect our competitiveness, reduce our market share, lead to higher inventory costs and decrease our sales.

- 12. Strong competition in the jewellery sector could decrease the market share and compel the company to either reduce the cost charged or increase the payments made to the job workers. This may have an adverse impact on the enrolments, revenues and profitability.***

The jewellery sector is highly fragmented and competitive. The Company would not only compete with organized players but also a high percentage of unorganized entities such as individual jeweler's, retailer stores, jewellery showrooms and galleries and small scale companies. Some of them may offer better designs and patterns to the clients and may be capable of providing more personalized services to each client due to the smaller number of orders placed with them. Further, these unorganized entities offer their services at highly competitive prices having well established presence in their local markets. Aggressive discounting by competitors, including liquidating excess inventory, may also adversely impact our performance in the short term. This is particularly the case for easily comparable pieces of jewellery, of similar quality, sold through stores that closely resemble to those that we operate. In addition, there are minimal entry barriers in this sector and hence we may also face competition from new entrants.

- 13. We have not entered into any long-term contracts with any of our customers and orders are not backed-up by a letter of credit facility.***

We do not have any long-term contracts with our customers and any change in the buying pattern of the customers could adversely affect the business of our Company. Although we have satisfactory business relations with our customers and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

- 14. Any fluctuation in price and supply of gold and silver, which is a major raw material for the manufacture of our products, could adversely impact our income.***

Gold and silver is the primary raw materials for our products. Price of gold and silver is volatile in nature and is linked to the international commodity indices such as Rogers International Commodity Index. Although we source gold and silver wherein we sell our products on an unfixed basis, any increase in the prices of gold and silver shall result in the consequent increase in the price of our products. Such increase in price of our products may adversely affect their demand. However, particularly sharp increases and volatility in commodity costs usually result in a time lag before increased commodity costs are fully reflected in retail prices. Further, any increase in commodity cost is likely to impact demand for our products during high price periods. There is no certainty that such price increase will be sustainable and downward pressure on gross margins and income may occur.

- 15. We are dependent upon key suppliers for selling us quality gold and silver chains and other jewellery. Any disruption in their supply could disrupt our business and adversely affect our financial results.***

We purchase finished Chains and other jewelries from various jewellery manufacturers or independent jewellery wholesalers located in Ahmedabad and Mumbai pre-agreed rates or flexible spot-rates linked to the prevailing market benchmark. However, we do not enter into any long-term agreements with our suppliers and our arrangements with them are on short-term and spot basis. Hence, there is no assurance that in future also we will be able to source our products on timely basis and execute our orders on time or find alternative resources to source our products. Further, if we are unable to source our products at commercially acceptable prices, or at all, it may affect our ability to fulfill our supply commitments, or to fulfill them in an economical manner, which will have an adverse effect on our business, financial condition and results of operations.

16. Our business is partly dependent on factors affecting consumer spending that are out of our control.

Jewellery purchases are discretionary and are often perceived to be an exercise in luxury. As a result, our business is sensitive to a number of factors that influence consumer spending. The price of jewellery relative to other products, everyday household as well as luxury items, influences the conditions, consumer confidence in future economic and political conditions, economic slowdown or fears of economic slowdown, consumer debt, disposable consumer income, conditions in the housing market, consumer perceptions of personal well-being and security, fuel prices, inclement weather, interest rates, sales tax rate increases, inflation, and war or fears of war. In addition, we compete with other retail categories, for example electronics, travel, etc. for consumers' discretionary expenditure. Therefore, the price of jewellery relative to other products influences the proportion of consumers' expenditure that is spent on jewellery.

17. Significant portion of our revenues is dependent upon our few customers. The loss of any one or more of our major customers would have a material adverse effect on our business operations and profitability.

For 6 months period ending September 30, 2019 and financial year ending March 31, 2019, our Top 5 customers have accounted approximately 94.06% and 100.00% of our total revenue from operations, respectively. We have maintained good and longstanding relationships with our major customers; however, we do not have any long-term contract with either of them. Further, we sell to a large number of customers in Ahmedabad and are dependent on our significant customer(s) for our growth in revenues and thereby in our business. The loss of either of significant customer(s) or a significant reduction in their orders would have a materially adverse effect on our income. For further details of sales to our significant customer(s), see section titled “**Financial Statements**” and chapter titled “**Management's Discussion and Analysis of Financial Conditions and Results of Operations**” beginning on page no. 115 and page no. 137 respectively, of this Draft Prospectus.

18. Our business is working capital requirements. If we are unable to generate sufficient cash flows to allow us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.

Our business requires significant amount of working capital including fund requirement for payment for bulk purchases of various raw materials and product. Hence, major portion of our working capital is utilized towards debtors and inventory. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. However, if our management fails to manage our inventory or misjudges expected clients demand or shortage of materials/ products or an accumulation of excess inventory or accurately evaluate the credit worthiness of our clients, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

19. We are involved in high volume – low margin business. Any disruption in our turnover or failure to regularly grow the same may have a material adverse effect on our business, results of operations and financial condition.

As on the date of filing this Draft Prospectus, our company having a year-on-year growth. However, our inability to maintain and regularly grow our turnover and effectively execute our key business processes could lead to lower profitability and hence adversely affect our operating results and financial conditions. Due to the nature and varied categories of the wedding and events services, we may not be able to charge higher margins for our services. Hence, our business model is heavily reliant on our ability to effectively increase sale of valuable services and business products and / or grow our turnover and manage our key processes including but

not limited to order procurement, timely execution of our services, effectively monitoring the deliverables and continuous cost control of non-core activities. The table below gives details of our operating margins and net profit margin based on restated financials.

There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on the Company's operations and financial results.

Our operations currently benefit from certain direct tax incentives. In the event we are unable to continue to benefit from such tax benefits, or other taxes applicable to us increase, our financial condition and results of operations may be adversely affected. Taxes and other levies imposed by the GoI or State Governments that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. Imposition of any other charges by the Central and the State Governments or increases in existing charges may adversely affect our results of operations. Further, the central and state tax scheme in India is subject to change from time to time. Any adverse change in Indian tax rules and regulations or policy may have an adverse effect on our business, financial condition and results of operations.

28. *Our Company operates under several statutory and regulatory permits, licenses and approvals. Our failure to obtain and/or renew any approvals or licenses in future may have an adverse impact on our business operations.*

Our Company requires several statutory and regulatory permits, licenses and approvals to operate the business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Further, these permits, licenses and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant permits/ licenses/ approvals. Failure by our Company to renew, maintain or obtain the required permits, licenses or approvals, or cancellation, suspension or revocation of any of the permits, licenses or approvals which may result in the interruption of our Company's operations and may have a material adverse effect on the business. For details please refer to Chapter titled "**Government and Other Statutory Approvals**" beginning on page no. 149 of the Draft Prospectus.

29. *Our insurance coverage may not be sufficient or adequate in protecting us against all or certain operating hazards and from all or certain losses and this may have an adverse impact on the financial conditions of the business.*

As on the date of this Draft Prospectus, our Company has availed of Jewellery Block insurance coverage and Fidelity Guarantee Policy insurance coverage amounting to Rs. 525.00 Lakhs from The National Insurance Company Limited. We believe that the insurance coverage taken by us will protect our products/ business and from any damages or losses that we may suffer in the future. Further, our insurance coverage would be reasonably adequate to cover the normal risks associated with the operation of our businesses. However, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or for which we did not obtain or maintain insurance, or which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected. For further details on our insurance cover, please refer "**Our Business – Insurance Policies**" beginning on page no. 77 of this Draft Prospectus.

30. *Ineffective execution of marketing programs and reduced marketing expenditure could have an adverse effect on our sales.*

Being a wholesaler in jewellery, our primary factors in determining retailers buying decisions in the wholesale business includes customer confidence, price points for our products, timely delivery of our products, designs together with the level and quality of customer service. The ability to differentiate our products from competitors by its branding, marketing and advertising programs is an important factor in attracting retailers and consumers. As a result, from time to time we will be undertaking brand building exercise and marketing programs like to take part in various domestic trade fairs and jewellery exhibitions to enhance our brand visibility. If these programs are ineffectively executed or the level of support for them is reduced, it could affect our ability to attract customers. Further, we cannot assure you that we will be able to accurately estimate our marketing expenditure for wholesale trading operations. In case our marketing expenses are lesser than market standards, our marketing programs may be perceived ineffective. However, if our marketing expenses are higher than the market standards, it may adversely affect our income and results of operations.

31. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

For our business operations, our results of operations are dependent on our ability to effectively manage our inventory, timely delivery of our finished products from our job workers. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements, approximately delivery time of our finished goods and purchase new raw material/ inventory accordingly. If our management has misjudged the expected customer demand it could adversely impact the results by causing either a shortage of merchandise or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture through our job workers or purchase, we may be required to recycle our inventory, which would have an adverse impact on our income and cash flows.

32. *We have not entered into any non-disclosure or confidentiality agreements with our employees or other intermediaries.*

We operate in a highly competitive industry our ability to succeed depends largely on the ability and skill of the workers to create new and creative designs. Although, we have good terms with our employees, we cannot assure that we will have continued relation with them. Although, we believe that our designs may not be compromised, we cannot assure the same as we have not entered any non-disclosure or other confidentiality agreements with them.

33. *If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.*

Recovery of our receivables and timely collection of client balances depends on our ability to complete our commitments and bill and collect our contracted revenues. If we are unable to meet our requirements, we might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

34. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.*

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

35. *Our Company may require additional capital resources to achieve our expansion plans.*

The rate of our expansion will depend to an extent on the availability of adequate debt and equity capital. Further, the actual expenditure incurred may be higher than current estimates owing to but not limited to, implementation delays or cost overruns. We may, therefore, primarily try to meet such cost overruns through our internal generations and in case if the same is not adequate, we may have to raise additional funds by way of additional term debt from banks/ financial institutions and unsecured loans, which may have an adverse effect on our business and results of operations.

36. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

37. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

We have recently started exporting our products in some countries and receive sale proceeds against such export sales in foreign currency. Changes in value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Fluctuations in the exchange rates may affect our Company to the extent of cost of sales in foreign currency terms. Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's results of operations.

38. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed expansion, as detailed in the section titled "Objects of the Issue" is to be mainly funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun, or cost overrun may adversely affect our growth plans and profitability.

39. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange(s) which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

40. *The Company has not appointed any independent agency for the appraisal of the proposed Project.*

The Project, for which we intend to use our Issue proceeds as mentioned in the objects of the Issue, has not been appraised by any bank or financial institution. The total cost of Project is our own estimates based on current conditions and are subject to changes in external circumstances or costs. Our estimates for total cost of Project

has been based on various quotations received by us from different suppliers and our internal estimates and which may exceed which may require us to reschedule our Project

41. *Our Board of Directors and management may change our operating policies and strategies without prior notice or shareholder approval.*

Our Board of Directors and management has the authority to modify certain of our operating policies and strategies without prior notice (except as required by law) and without shareholder approval. We cannot predict the effect that any changes to our current operating policies or strategies would have on our business, operating results and the price of our Equity Shares.

42. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding in our Company.*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on page nos. 49 and 90, respectively, of this Draft Prospectus.

43. *There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2018, as amended from time to time, appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Since this Issue Size is less than Rs. 10,000 Lakhs, our Company has not appointed any monitoring agency for this Issue. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds.

Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the NSE and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

44. *We propose to utilize the Net Proceeds for purposes identified in the section titled “Objects of the Issue” in this Draft Prospectus. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders’ approval.*

We propose to utilize the Net Proceeds for purposes identified in the section titled “*Objects of the Issue*” beginning on page no. 61 of this Draft Prospectus. The manner deployment and allocation of such funds is entirely at the discretion of our management and our Board, subject to compliance with the necessary provisions of the Companies Act.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus without obtaining the shareholder’s approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholder’s approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholder’s approval may adversely affect our business or operations. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations, 2018, as amended from time to time. If our Shareholder’s exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

RISKS RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS

45. *Our Promoters, together with our Promoter Group, will continue to retain majority shareholding in our Company after the proposed Initial Public Issue, which will allow them to exercise significant control over us. We cannot assure you that our Promoters and Promoter Group members will always act in the best interests of the Company.*

After the completion of our Initial Public Issue, our Promoters, along with our Promoter Group members, will hold, approximately 45.26% of our post issue paid up equity capital of our Company. As a result, our Promoters

will continue to exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholder. By exercising their control, our Promoters could delay, defer or cause a change of our control or a change in our capital structure, delay, defer or cause a merger, consolidation, takeover or other business combination involving us, discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company. We cannot assure you that our Promoters and Promoter Group members will always act in our Company's or your best interests. For further details, please refer to the chapters titled "*Capital Structure*" and "*Our Promoter, Promoter Group and Group Companies*", beginning on page no. 49, 104 and 111 respectively, of this Draft Prospectus.

46. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

47. Any future issuance of Equity Shares may dilute your shareholdings, and sales of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

Any future equity issuances by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

48. We cannot assure you that we will pay dividend in future.

We have not paid any dividends on our Equity Shares since inception and there can be no assurance that dividends will be paid in future. The declaration of dividends in the future will be recommended by our Board, at its sole discretion, and will depend upon our future earnings, financial condition, cash flows, working capital requirements and capital expenditures. There can be no assurance that we will be able to pay dividend in the future. Further, we may be restricted by the terms of our debt financing from making dividend payments, in the event we default in any of the debt repayment installments.

49. Investors may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if STT has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. It is pertinent to note that pursuant to the Finance Bill, 2017, it has been proposed, that with effect from April 1, 2017, this exemption would only be available if the original acquisition of equity shares was chargeable to STT. The Central Government is expected to, however notify the transactions which would be exempt from the application of this new amendment. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to applicable short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption is provided under a treaty between India and the country of which the seller is resident, subject to the availability of certain documents. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares. For more details, please refer to "Statement of Tax Benefits" on page no. 68 of this Draft Prospectus.

50. *We cannot assure you that our Equity Shares will be listed on the SME Platform of BSE in a timely manner or at all, which may restrict your ability to dispose of the Equity Shares.*

In terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time, we are not required to obtain any in-principle approval from SEBI for listing of our Equity Shares. We have only applied to BSE to use its name as the Stock Exchange in this Offer Document for listing our Equity Shares on the SME Platform of BSE. Permission for listing of the Equity Shares will be granted only after the Equity Shares offered in this Issue have been allotted. Approval from BSE will require all relevant documents authorizing the issuing of the Equity Shares to be submitted to it. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Further, certain procedural and regulatory requirements of SEBI and the Stock Exchanges are required to be completed before the Equity Shares are listed and trading commences. Trading in the Equity Shares is expected to commence within 6 Working Days from the Issue Closing Date. However, we cannot assure you that the trading in the Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining the approvals would restrict your ability to dispose off your Equity Shares.

51. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. [●] is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers, please refer to the section titled "**General Information – Details of the Market Making Arrangement for this Issue**" on page no. 46 of this Draft Prospectus.

52. *There may be restrictions on daily/monthly movements in the price of our Equity Shares, which can adversely affect shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point of time.*

Subsequent to listing, our Company may be subject to a daily circuit breaker imposed on listed companies by all stock exchanges in India, which does not allow transactions having crossed certain volatility limit in the price of its Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our Company's circuit breaker is set by the stock exchanges based on certain factors such as the historical volatility in the price and trading volume of the Equity Shares. The stock exchange is not required to inform us of the percentage limit of the circuit breaker from time to time and may change it without our knowledge. This circuit breaker, if imposed, would effectively limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, we cannot assure that the shareholders will be able to sell the Equity Shares at desired prices at any particular time.

EXTERNAL RISK FACTORS

53. *Any changes in the regulatory framework could adversely affect our operations and growth prospects.*

The company is subject to various regulations and policies. For details see section titled "**Key Industry Regulations**" beginning on page no. 81 of this Draft Prospectus. The company's current businesses and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that it will succeed in obtaining all requisite

regulatory approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which could have a material adverse effect on the business, financial condition and results of operations.

54. *Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.*

The revenues recorded, and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned, and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

55. *The nationalized Goods and Services Tax (GST) regimes proposed by the Government of India may have material impact on our operations.*

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/ measure the impact this tax regime may have on our operations.

56. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors' assessments of our Company's financial condition. Our failure to successfully adopt IFRS may have an adverse effect on the price of our Equity Shares. The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our financial statements, including the financial statements provided in this Draft Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Draft Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For details, see “**Presentation of Financial, Industry and Market Data**” on page no. 11 of this Draft Prospectus. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

India has decided to adopt the “Convergence of its existing standards with IFRS” and not the “International Financial Reporting Standards” (“IFRS”), which was announced by the MCA, through the press note dated January 22, 2010. These “IFRS based / synchronized Accounting Standards” are referred to in India as IND (AS). Public companies in India, including our Company, may be required to prepare annual and interim financial statements under IND (AS). The MCA, through a press release dated February 25, 2011, announced that it will implement the converged accounting standards in a phased manner after various issues, including tax related issues, are resolved. Further, MCA Notification dated February 16, 2015, has provided an exemption to the Companies proposing to list their shares on the SME Exchange as per Chapter IX of the SEBI ICDR Regulations and hence the adoption of IND (AS) by a SME exchange listed company is voluntary. Accordingly, we have made no attempt to quantify or identify the impact of the differences between Indian GAAP and IFRS or to quantify the impact of the difference between Indian GAAP and IFRS as applied to its financial statements. There can be no assurance that the adoption of IND-AS will not affect our reported results of operations or financial condition. Any failure to successfully adopt IND-AS may have an adverse effect on the trading price of our Equity Shares. Currently, it is not possible to quantify whether our financial results will vary significantly due to the convergence to IND (AS), given that the accounting principles laid down in the IND (AS) are to be applied to transactions and balances carried in books of accounts as on the date of the applicability of the converged standards (i.e., IND (AS) and for future periods.

Moreover, if we volunteer for transition to IND (AS) reporting, the same may be hampered by increasing competition and increased costs for the relatively small number of IND (AS)-experienced accounting personnel available as more Indian companies begin to prepare IND (AS) financial statements. Any of these factors relating to the use of converged Indian Accounting Standards may adversely affect our financial condition.

57. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

58. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.*

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

59. *Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.*

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

60. *Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.*

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

61. *Natural calamities and force majeure events may have a negative impact on the Indian economy and cause our business to suffer.*

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. These natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Further prolonged spells of deficient or abnormal rainfall or other natural calamities in the future could have a negative impact on the Indian economy, adversely affecting our business and the price of the Equity Shares.

62. *Terrorist attacks, civil unrests and other acts of violence in India and around the region could adversely affect the markets, resulting in loss of consumer confidence and adversely affect the business, results of operations, financial condition and cash flows.*

Terrorist attacks, civil unrests and other acts of violence or war in India and around the region may adversely affect worldwide financial markets and result in a loss of consumer confidence and ultimately adversely affect the business, results of operations, financial condition and cash flows. Political tensions could create a perception that an investment in Indian companies involves higher degrees of risk and on the business and price of the Equity Shares.

63. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.*

Certain events that are beyond the company's control such as earthquake, fire, floods and similar natural calamities may cause interruptions in the business operations. The operations and financial results and the market price and liquidity of the equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

64. *In future the company may depend on banks and financial institutions and other sources for meeting its short and medium term financial requirements.*

Any delay in the disbursement of funds from these bodies can act as a bottleneck to the project execution capabilities and thereby its results of operations. The company cannot assure that it will be able to do so on commercially reasonable terms. Any increase in interest expense may have a material adverse effect on its business prospects, financial condition and results of operations.

65. *Increases in interest rates may affect the results of operations.*

Currently, the company does not have any debt, but it cannot be assured that it will not incur indebtedness with a floating rate of interest in the future. As such, increases in interest rates may adversely affect the cost of future borrowings.

Introduction

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 7 per cent of the country’s GDP and 15 per cent to India’s total merchandise exports. It also employs over 4.64 million workers and is expected to employ 8.23 million by 2022. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote ‘Brand India’ in the international market.

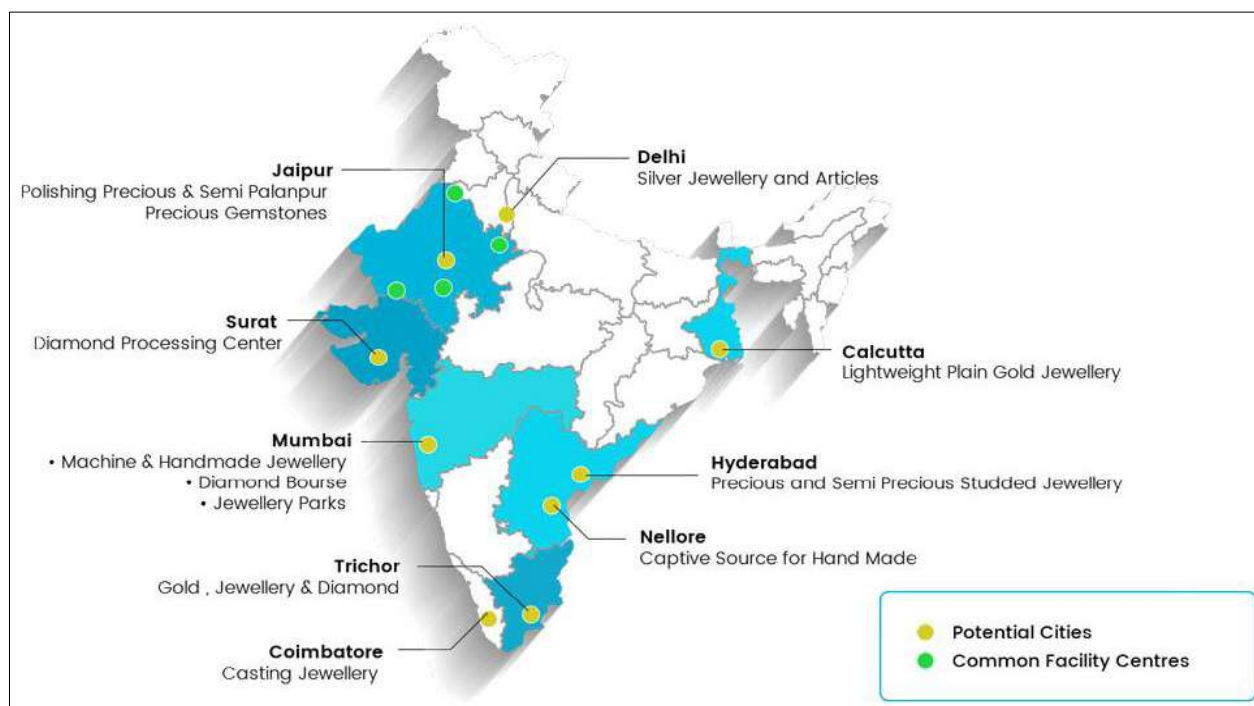

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world’s largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 75 per cent of the world’s polished diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

Market size

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. The Goods and Services Tax (GST) and monsoon will steer India’s gold demand going forward.

The gems and jewellery market in India is home to more than 300,000 players, with the majority being small players. Its market size is about US\$ 75 billion as of 2017 and is expected to reach US\$ 100 billion by 2025. It contributes 29 per cent to the global jewellery consumption.

Road Ahead

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1-2 per cent of the fine jewellery segment by 2021-22. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

Foreign Trade (Development and Regulation) Act, 1992 ("FTA")

In India, the main legislation concerning foreign trade is the Foreign Trade (Development and Regulation) Act, 1992 ("FTA"). The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the Act, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorized to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorized to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import ("EXIM") Policy. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application

for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

Foreign Exchange Management Act, 1999

Foreign investment in Indian companies is governed by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) read with the applicable regulations. The Department of Industrial Policy and Promotion (“**DIPP**”), Ministry of Commerce and Industry has issued the Consolidated FDI Policy (the “**FDI Circular**”) which consolidates the policy framework on Foreign Direct Investment (“**FDI**”), with effect from June 7, 2016. The FDI Circular consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till June 6, 2016. All the press notes, press releases, clarifications on FDI issued by DIPP till June 6, 2016 stand rescinded as on June 7, 2016. Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the approval route, prior approval of the Government of India through FIPB is required. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the FIPB, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where FIPB approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company. The RBI, in exercise of its power under the FEMA, has also notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. The Consolidated FDI Circular dated June 7, 2016 issued by the DIPP does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route. No approvals of the FIPB or the RBI are required for such allotment of equity Shares under this Issue. The Company will be required to make certain filings with the RBI after the completion of the Issue. RBI has also issued Master Circular on Foreign Investment in India dated July 01, 2015. In terms of the Master Circular, an Indian company may issue fresh shares to persons resident outside India (who are eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. As mentioned above, the Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 (“**FEMA Regulations**”) to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SECTION XI - RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy Circular of 2018, which with effect from January 04, 2018 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on January 04, 2018. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act or any state securities laws in the United States and, unless so registered, and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.
