TEETHING TROUBLE

A month on, glitches still mar I-T portal

PRESS TRUST OF INDIA
New Delhi, July 11

A MONTH AFTER its launch and two weeks after the finance minister reviewed its functioning, technical glitches continue to mar the functioning of the new income tax portal, as certain key utilities like e-proceedings and digital signature certificate are not yet functional, say chartered accountants.

Besides, some overseas firms have been facing problems in logging in to the portal, they said.

The much-touted new income tax portal 'www.incometax.gov.in' had a bumpy start from the day of its launch on June 7 as it continued to face tech glitches, which prompted finance minister Nirmala Sitharaman to call a meeting on June 22 with officials of Infosys, which has developed the new website.

Infosys in 2019 was awarded a contract to develop the next-generation income tax filing system to reduce processing time for returns from 63 days to one day and expedite refunds.

Even after two weeks of the meeting and over a month of the portal launch, users still continue to encounter multiple problems like being unable to file I-T returns for past years and to download intimation

The portal had a bumpy start from the day of its launch on June 7 as it continued to face tech glitches, which prompted finance minister Nirmala Sitharaman to call a meeting on June 22 with officials of Infosys, which has developed the site

notice u/s 143(1) for AY 2019-20 and earlier years, and Form-3 under the 'Vivad se Vishwas Scheme' not being visible on the portal.

In response to queries on the glitches on I-T portal, Infosys said, "We're in our silent period. Clarity on the income tax matter was provided at our recently concluded AGM."

An email sent to the finance ministry for comments remained unanswered.

BDO India Partner (Tax & Regulatory Services) Amit Ganatra said after the meeting of the Finance Minister with the Infosys team on June 22, it appeared that all the pending issues would get resolved quickly. While there has been improvement in the functioning of the site thereafter, it seems the technology-related challenges still persist and it may take some more time to get the site up and running completely.

"The e-proceedings tab is not fully functional, online rectification option is not available, JSON utility for filing tax returns in ITR 5, 6 and 7 is still not available and unlike the earlier website, there is no tab for the VsV scheme for providing comprehensive information and no update of the pending actions tab. These are some of the functionalities amongst others that remain to be addressed in the new tax portal," Ganatra said.

Dhruva Advisors LLP Partner Sandeep Bhalla said Form 15CA/CB utility (relating to remittances) is still awaited. While physical filing of the same is permitted, it is a time-consuming process. This is a time when companies declare and pay dividends and physically filing Form 15CA/ CB for remittance to each shareholder can be a task.

"Also, the DSC is now required to be registered on the personal e-filing account of the authorised signatory. In the case of foreign companies having non-resident authorised signatories not having a PAN in India, it is unclear as to how this procedure will work. In fact, for such foreign companies, an error is being encountered even at the time of attempting to login onto the e-filing portal," Bhalla added.

Can BPCL get domestic LPG after privatisation, govt seeks legal opinion

AMMAR ZAIDI
New Delhi, July 11

A TWO-DECADE-OLD LPG supply order restricting supply of domestically produced LPG to only state-owned oil companies has stymied plans to allow Bharat Petroleum Corporation (BPCL) to continue selling subsidised cooking gas (LPG) after its privatisation.

Legal opinion has now been sought to ascertain if privatised BPCL will be eligible to receive liquefied petroleum gas (LPG) produced by companies such as ONGC and GAIL, two government officials with knowledge of the development said.

Currently, BPCL has more than 8.4 crore domestic LPG customers, including 2.1 crore Ujjwala customers. The company does not produce enough LPG at its refineries to be able to cater to the requirement of all these.

It, like other oil marketing companies, buys LPG from ONGC and GAIL as well as private companies such as Reliance Industries.

The Liquefied Petroleum Gas (Regulation of Supply and Distribution) Order, 2020, known as LPG Control Order of 2000, restricts sale of indigenously produced cooking gas only to state-owned oil marketing companies. — PTI

TVS Motor, M&M start pilot project in Pune for pure ethanol-based 2-wheelers

VIKAS SRIVASTAVA
Mumbai, July 10

TVS MOTOR COMPANY, and Mahindra & Mahindra (M&M) have initiated pilot projects in Pune to produce flex fuel-based engines for two-wheelers. Flex fuel engines help vehicles adapt to higher percentage of blended ethanol in fuel. At present, India blends 8.6% of ethanol and targets to reach 20% by 2025.

In a step towards meeting its ethanol blending target of 20% by 2025, the government had asked auto companies to check the viability of E100 or pure ethanol-based vehicles even as they ready themselves for E20 or 20% blended fuel vehicles.

In a stakeholders meet with the ministry of petroleum and natural gas, sugar manufacturers, and automotive industry body (SIAM) the government proposal of E100 or pure ethanol-based vehicles is being deliberated.

The two pilot projects will check the viability of launching E100 vehicles given the consistent supply of ethanol for a month is not clear. If it can be sustained on an yearly basis will be tested, sources said.

Email queries to TVS Motor and M&M remained unanswered.

The biggest concern with the industry when the aggressive target of 20% blend by 2025 has been set, is to augment the capacity of ethanol which stands at 457 crore litres per annum. It can sustain up to 10% blending. But to reach the 20% level India needs 1,016 crore litres of ethanol per year.

The majority of this ethanol used to come from molasses which had limited supply. However, the government has now facilitated production of grain-based ethanol from waste products such as rice husk, bran, broken rice and wheat stock with FCI and corn.

In January, the Department of Food & Public Distribution received 418 proposals under the modified financial assistance scheme with lower interests on loans to set up an additional ethanol capacity of 1,680 crore litre per year.

Of this new capacity, 840 crore litres would be solely grain-based projects. This is more than triple the country's estimated capacity of 457 crore liters per year.

Loren Puette, Analyst, Biofuels, S&P Global Platt, said, despite the high proposed volumes, a maximum of 600 crore litres per year, or likely much less, will come online over the next two to four years given the financial infeasibility of many of the projects.

"Irrespective, the bulk, an estimated 55% of proposed new capacity, is based in UP, Maharashtra and Karnataka. The states, already with high blending rates, will likely be the first to achieve E20," Puette said.

Shirisha Bandla becomes 3rd Indian-origin woman to fly into space

SEEMA HAKHU KACHRU
Houston, July 11

AERONAUTICAL ENGINEER SIRISHA Bandla on Sunday became the third Indian-origin woman to fly into space when she joined British billionaire Richard Branson on Virgin Galactic's first fully crewed suborbital test flight from New Mexico.

Virgin Galactic's VSS Unity, as the spaceplane is called, took off for the 1.5-hour mission above New Mexico following a 90-minute delay due to bad weather.

Bandla joined Branson and five others on board Virgin Galactic's SpaceShipTwo Unity to make a journey to the edge of space from New Mexico.

"I am so incredibly honoured to be a part of the amazing crew of #Unity22, and to be a part of a company whose mission is to make space available to all," 34-year-old Bandla tweeted days before the flight.

"When I first heard that I was getting this opportunity, it was just ... I was speechless. I think that that probably captured it very well. This is an incredible opportunity to get people from different backgrounds, different geographies and different communities into space," she said in a video posted on the Twitter handle of Virgin Galactic on July 6.

The primary objective for Unity 22 was to serve as a test flight for future commercial passenger flights by Virgin Galactic.

Bandla, who was born in Guntur district in Andhra Pradesh and brought up in Houston, was astronaut No 004 and her flight role was Researcher Experience. Other crew members were two pilots, and three crewmates, including billionaire Branson. She became the third Indian-origin woman to fly into space after Kalpana Chawla and Sunita Williams. — PTI
