SECTION III: RISK FACTORS

An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Draft Prospectus, particularly the “Financial Information of the Company” and the related notes, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 133, 95 and 181 respectively of this Draft Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse affect on our business, results of operations, financial condition and prospects.

This Draft Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential affects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Draft Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “Risk Factors” on page 24 and “Management Discussion and Analysis of Financial Condition and Results of Operations” on page 191 of this Draft Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Audited Financial Statements, as restated” prepared in accordance with the Indian Accounting Standards

- 1. We are subject to strict quality requirements and are consequently required to maintain our product quality. Any failure to comply with such quality standards may lead to cancellation of existing and future work orders which may adversely affect our reputation, financial conditions, cash flows and results of operations.***

We specialize in manufacture and supply of automotive sheet components on technical specifications as per the requirements of our customers. Given the nature of our products and the sector in which we operate, our customers have high and exacting standards for product quality as well as delivery schedules. Adherence to quality standards is a critical factor in our manufacturing process as any

defects in the products manufactured by our Company or failure to comply with the technical specifications of our customers may lead to cancellation of the orders placed by our customers. Further, any failure to make timely deliveries of products in the desired quantity as per our customers' requirements could also result in the cancellation of orders placed by our customers and may adversely affect our business and financial position.

Thus, we have to maintain stringent quality control mechanism at each stage of the manufacturing process and are required to maintain the quality and precision level for each product. As a result, we are required to incur expenses to maintain our quality assurance systems such as periodic checking by the operators to ensure there is no defect in the manufacturing facilities and machineries, and in the manufacturing processes. We will continue to spend a portion of our future revenues to manage our product quality and to maintain our quality control a failure of which may negatively impact our profitability.

For further details of our Business, Please refer chapter titled "**Our Business**" beginning on page 95 of this Draft Prospectus.

2. We are yet to apply for certain regulatory licenses, registrations and approvals in respect of our business operations. Failure to obtain or maintain licenses, registrations, permits and approvals may severely affect our business and results of operations.

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for carrying our business operations. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. Additionally, we will need to apply for renewal of certain approvals, licenses, registrations and permits, which are needed to be updated pursuant to conversion of Company from private to public Company.

While we have obtained a number of approvals, licenses, registrations and permits from the relevant authorities, we are yet to apply for certain licenses/approvals relating to our manufacturing units which inter-alia includes (i) NOC from fire department for all three factory units (ii) Renewal of consent to operate and Authorization from MPCB for our factory units situated at B-198, MIDC, Nashik and J-41, MIDC, Nashik. Also, our Company has submitted application dated December 06, 2019 to the concerned Authority for renewal of factory licence of our factory units J-41 and C-13 which are expiring on December 31, 2019, but the approval is awaited. Further, we have not executed final lease agreements with MIDC in respect of our factory land situated at J-41 and B-198, MIDC, Ambad, Nashik as stipulated under the Assignment deeds of respective properties. Any failure to apply for and obtain the required consents and registrations or any cognizance being taken by the concerned authorities for non-registration could result in levy of penalties and other legal proceedings which may adversely affect our business, financial condition, results of operations and prospects. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see Chapter titled "**Government and Other Approvals**" on page 209 of this Draft Prospectus.

Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied regularly by us. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents and registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse affect on our business.

3. Our business is substantially dependent on our certain major customers, with whom we do not have firm commitment agreements. The loss of any significant clients may have a material and adverse affect on our business and results of operations.

We are dependent on certain major customers, especially MSL Driveline Systems Limited from which we derive around 50% of our revenue (from products and services) in F.Y. 2018-19. Our other major customers include Reliable Autotech Pvt. Ltd., Scrap Traders, JBM Auto Limited and Innova Rubbers Private Limited. For the year ended March 31, 2019 and stub period ended June 30, 2019, our top five customers cumulatively accounted for approximately 91.19% and 91.42% of our revenue from operations. In the event any one or more customers cease to continue doing business with us, our business may be adversely affected. The loss of such clients may be caused mainly because of competition. There may be factors other than our performance, which may not be predictable, which could cause loss of clients. Also, we generally do not enter into any long-term contracts with our customers and any change in the buying pattern of the customers could adversely affect the business of our Company. Further, any significant reduction in demand for our products from our key clients, any requirement to lower the price offered by these clients, or any loss or financial difficulties caused to these clients, or bad debts of the dues from these clients, or change in relationship with the clients

could have a material adverse affect on our business, result of operations, financial conditions and cash flow.

We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. However, the composition and revenue generated from these customers might change as we strive to add new customers in the normal course of business. While we are constantly striving to increase our customer base and reduce dependence on any particular customer, there is no assurance that we will be able to broaden our customer base in any future periods, or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers.

4. We are heavily dependent on the performance of the Automobile Sector particularly, passenger vehicle, commercial vehicles and tractors market in India. Any adverse changes in the conditions affecting these markets can adversely impact our business, results of operations and financial condition.

Our sheet metal auto-components business is heavily dependent on the performance of the Automobile Sector particularly, passenger vehicle, commercial vehicles and tractors market in India. We are therefore exposed to fluctuations in the performance of these markets. In the event of a decrease in demand in these markets or any developments that make the sale of components in these markets less economically beneficial, we may experience pronounced effects on our business, results of operations and financial condition. The automotive market is affected by, amongst other things, changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, which may negatively affect the demand of our products which may materially adversely affect our business, results of operations and financial condition.

5. There are certain outstanding legal proceedings involving Our Company, Directors and Promoters. Any failure to defend these proceedings successfully may have an adverse affect on our financial conditions, business, reputation and result of ongoing operations.

Our Company, Directors and Promoters are involved in certain legal proceedings, which if determined, against us/them could harm our reputation or adversely affect our business, financial condition and results of operations. These proceedings are pending at different levels of adjudication before various courts, tribunals and appellate authorities. For details kindly refer chapter titled “Outstanding Litigations and Material Developments” on page 205 of this Draft Prospectus.

A brief detail of such outstanding litigations as on the date of this Draft Prospectus are as follows:

Litigations/Matters against our Company:-

Nature of Cases	No. of Outstanding Cases	Amount Involved (Rs. in Lacs)
Direct Tax Liabilities	1	1.91
Indirect Tax Liabilities	2	1.29

Litigations/matters against our Directors & Promoters:-

Nature of Cases	No. of Outstanding Cases	Amount Involved (Rs. in Lacs)
Criminal Matter	1	Undetermined
Direct Tax Liabilities	6	2.99

* Note:- The liability amount of Summary Criminal case filed against our Promoter Director, Mrs. Alka Mukund Kulkarni by Maharashtra State through A.C. Ade, under Section 3(1) and 5(1) of the Factories Act, 1948 in the court of Chief Judicial Magistrate, could not be determined, as case documents are not available with us.

For further details of Statutory or legal proceedings involving our Company, Directors and Promoters, please refer to the chapter titled “Outstanding Litigations and Material Developments” on page 205 of this Draft Prospectus.

6. Our failure to identify and understand evolving industry trends and preferences and to develop new products to meet our customers' demands may materially adversely affect our business.

Changes in consumer preferences, regulatory or industry requirements or in competitive technologies may render certain of our products obsolete or less attractive. Our ability to anticipate changes in technology and regulatory standards and to successfully

develop and introduce new and enhanced products on a timely basis is a significant factor in our ability to remain competitive. However, there can be no assurance that we will be able to secure the necessary technological knowledge, through technical assistance agreements or otherwise, that will allow us to develop our product portfolio in this manner. If we are unable to obtain such knowledge in a timely manner, or at all, we may be unable to effectively implement our strategies, and our business and results of operations may be adversely affected. Moreover, we cannot assure you that we will be able to achieve the technological advances that may be necessary for us to remain competitive or that certain of our products will not become obsolete.

To compete effectively in the metal sheet components industry, we must be able to develop, upgrade and manufacture new products to meet our customers' demand in a timely manner. In order to do so, we need to identify and understand the key market trends and address our customers' evolving needs proactively and on a timely basis. As a result, we may incur capital expenditures for development of products to meet the demands of our customers. We cannot assure you, however, that we will be able to install and commission the equipment needed to manufacture products for our customers on time. Our failure to successfully and timely develop and manufacture new products in order to cater to the requirements of our customers and industry trends could have a material adverse effect on our business, financial condition, results of operations and future prospects.

7. *Our company has not complied with certain statutory provisions of the Companies Act. Such non-compliance may attract penalties and prosecution against our Company and its Directors which could impact the financial position and goodwill of us to that extent.*

Our Company has not complied with certain statutory provisions under the Companies Act such as:-

- There are few discrepancies noticed in some of our corporate records relating to minutes and e-forms filed with the Registrar of Companies(ROC), which inter-alia includes clerical & technical errors in the Annual Returns filed by our Company with the ROC in past years, for instance, list of transfers were not attached in the Annual Return filed by Company for F.Y. 2012-13. Further, there are certain forms which are filed with delayed fees with ROC.
- There has been inadequate/incorrect disclosure on letterheads of the Company as per Section 12 of the Companies Act, 2013, which has now been rectified.
- Our Company has advanced an amount of Rs. 5.46 lakhs to our Director, Mr. Suresh Fegde during F.Y. 2016-17 which is a non-compliance of Section 185 of the Companies Act, 2013. However, the said loan was cleared in F.Y. 2017-18.
- In terms of Section 129(1) of the Companies Act, 2013, Our Company has not fully complied with some Accounting Standards such as AS-2 for Valuation of Inventories, AS-15 for Employee Benefits & AS-10 for Accounting for Fixed Assets in the past. However, now the Company has made necessary compliance in the restated financial statements of the Company.
- Our Company in the past has inadvertently borrowed certain amount which is termed as deposits under the purview of Section 58A of Companies Act, 1956/Section 73 of Companies Act, 2013. However the same have been repaid and except for Rs. 31,00,000/- which is taken from one shareholder, there are no other unsecured loans outstanding as on date of this Draft Prospectus.

Further, we are not in possession of valuation report dated 07.02.2007 for immovable assets, which was taken at the time of acquisition of partnership firms, namely, M/s S.M. Industries and M/s. Spam Fab Technocrats. Although no show cause notice have been issued against the Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors, in which event the financials of the Company shall be affected.

9. *The geographical concentration of our manufacturing facilities may restrict our operations and adversely affect our business, results of operations and financial conditions.*

We presently operate our business through our three manufacturing facilities which are located in Nashik, Maharashtra. Due to the geographic concentration of our manufacturing operations primarily in Nashik, our operations are susceptible to local and regional factors, such as accidents, system failures, economic and weather conditions, natural disasters, and demographic and population changes, and other unforeseen events and circumstances. Such disruptions could result in the damage or destruction of a significant portion of our manufacturing abilities, significant delays in the transport of our products and raw materials and/or otherwise adversely affect our business, financial condition and results of operations.

For further details of our location, Please refer chapter titled “*Our Business*” beginning on page 95 of this Draft Prospectus.

10. Our continued operations are critical to our business and are subject to operating risks such as breakdown or failure of machinery, disruption to power sources or any temporary shutdown of our manufacturing facilities, in the event of which, our business, results of operations, financial condition and cash flows can be adversely affected.

Our manufacturing facilities are subject to operating risks, such as the breakdown or failure of machinery, power supply or processes, performance below expected levels of efficiency, obsolescence of equipment or machinery, labour disputes, natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. Our customers rely significantly on the timely delivery of our products and our ability to provide an uninterrupted and timely supply of our products is critical to our business. We also require substantial electricity for our manufacturing facilities which is sourced from state electricity boards. If supply is not available for any reason, we will need to rely on alternative sources, which may not be able to consistently meet our requirements. Our customer relationships, business and financial results may be materially adversely affected by any disruption of operations of our products, including as a result of any of the factors mentioned above.

11. We may be subject to financial and reputational risks due to product quality and liability claims and legal proceedings if the quality of our products does not meet our customers' expectations.

Our products may contain quality issues or undetected errors or defects, especially when first introduced, resulting from the design or manufacture of the product or raw materials used in the product. While we test for quality on a sample basis, we cannot assure you that all products would meet the quality standards. Such quality issues can expose us to product liability claims or require us to replace such products, in the event that our products fail to meet the required quality standards, or are alleged to cause harm to customers. Further, if any of the products sold by us fail to comply with quality standards, it may result in customer dissatisfaction, which may have an adverse affect on our business, sales and results of operations.

Additionally, we face the risk of legal proceedings and product liability claims being brought against us by our Customers for various reasons including for defective products sold. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims, regardless of whether we are responsible for any alleged defects.

12. We depend on third parties for the supply of raw materials and delivery of products and such third parties could fail to meet their obligations, which may have a material adverse effect on our business, results of operations and financial condition.

The main raw materials which are required by us to manufacture auto-components includes HRPO Strips, Coil, Steel Strip, Spring Steel Material, Cold rolled steel, Hot rolled steel, Deep Draw, Extra deep draw, Aluminum Alloys, Copper based alloys etc, which are procured by us from various domestic vendors which mainly includes Reliable Autotech Pvt. Ltd, Ajay Iron & Steel Traders, Naresh Steel Industries Pvt.Ltd, Sona Steel Enterprises and Mahesh Steel Udyog. We are dependent on third party suppliers for the supply of our raw materials. Discontinuation of production by these suppliers, a failure of these suppliers to adhere to any delivery schedule or a failure to provide materials of the requisite quality could hamper our production schedule and therefore affect our business and results of operations. This dependence may also adversely affect the availability of key materials at reasonable prices, thus affecting our margins, and may have an adverse effect on our business, results of operations and financial condition. There can be no assurance that high demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials. If we were to experience a significant or prolonged shortage of raw materials from any of our suppliers, and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules for some of our key products and deliver such products to our customers in timely fashion, which would adversely affect our sales, margins and customer relations. We cannot assure you that a particular supplier will continue to supply the required components or raw materials to us in the future. Any change in the supplying pattern of our raw materials can adversely affect our business and profits.

Further, we do not have an in-house transportation facility and we rely on third party transportation and other logistic facilities at every stage of our business activity including for procurement of products from our suppliers and for transportation of our finished products to our customers. For this purpose, we hire services of transportation companies. However, we have not entered into any definitive agreements with any third party transport service providers and engage them on a needs basis. Additionally, availability of transportation solutions in the markets we operate in is typically fragmented. The cost of our goods carried by such third party

transporters is typically much higher than the consideration paid for transportation, due to which it may be difficult for us to recover compensation for damaged, delayed or lost goods.

13. Our Company's logo  is not registered under the Trademarks Act, 1999 as on date of Draft Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third party intellectual property rights.

As on date of Draft Prospectus, we are yet to make application for registration of our logo  under the Trademarks Act, 1999. Further, the status of our application dated September 25, 2019 for registration of our wordmark "SM Auto Stamping" is objected as on date. Hence, we do not enjoy the statutory protections accorded to a registered logo and wordmark.

Further, we may also be susceptible to claims from third parties asserting infringement and other related claims. If claims or actions are asserted against us, we may be required to obtain a licence, modify our existing technology or cease the use of such technology and design a new non-infringing technology. Such licences or design modifications can be extremely costly. Furthermore, necessary licences may not be available to us on satisfactory terms, if at all. In addition, we may decide to settle a claim or action against us, the settlement of which could be costly. We may also be liable for any past infringement. Any of the foregoing could adversely affect our business, results of operations and financial condition.

14. We are heavily dependent on our Promoters and Key Managerial Personnel for the continued success of our business through their continuing services and strategic guidance and support.

Our success heavily depends upon the continued services of our Promoters and Key managerial personnel, particularly Mr. Suresh Fegde, Mrs. Alka Mukund Kulkarni and Mr. Mukund Narayan Kulkarni. We also depend significantly on our Key Managerial Persons for executing our day to day activities. The loss of any of our Promoter and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse affect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Section "**Our Management**" on page 116 of this Draft Prospectus.

15. We have in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse affect on our Company's financial condition and results of operations.

Our Company has entered into various transactions with our Directors, Promoters, Promoter Group and Group Company. These transactions, inter-alia includes sales, purchase, issue of shares, remuneration, loans and advances, reimbursement of expenses etc. For details, please refer to "**Annexure XXXIV - Related Party Transactions**" under Section titled "**Financial Information of the Company**" and Chapter titled "**Capital Structure**" beginning on page 172 and 55 respectively of this Draft Prospectus. Our Company has entered into such transactions due to easy proximity and quick execution. While we believe that all such transactions have been conducted on an arm's length basis and in the ordinary course of business, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties.

Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse affect on our business, financial condition, cash flows, results of operations and prospects.

16. We engage in a highly competitive business and if we fail to compete effectively, it would have a material adverse affect on our business, financial condition and results of operations.

We believe that the automotive stamping component business in India is characterized by intense competition, technological advancements, and price fluctuations. We face significant competition from manufacturers & suppliers in both the organized and unorganized sectors. Many of our competitors may have greater financial, manufacturing, research and development, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader product ranges and stronger

sales forces. Our competitors may succeed in developing products that are more affective, more popular or cheaper than any we may develop, which may render our products obsolete or uncompetitive and adversely affect our business and financial results. Also, we face pressure on our margins due to pricing competition from several small and unorganized local players. Presence of more players in the unorganized sector compared to organized ones has resulted in increasingly competitive environment characterized by stiff price competition. If we fail to compete effectively, it would have a material adverse affect on our business, financial condition and results of operations.

17. Customer consolidation and takeovers could adversely impact our financial position, results of operations and cash flows.

Customers in our markets, including the customers in the automotive sheet components industry, may consolidate and grow in a manner that could affect their relationship with us. For instance, if one of our customers is acquired by any other company, its management may get reshuffled which may affect our relationship with such customer, and we may not be able to retain any favorable terms that we agreed to in the past and may even lose that acquired customer's business. Additionally, if our customers become larger and more concentrated, they could exert pressure in pricing and payment terms on all suppliers, including us. Accordingly, our ability to maintain or raise prices in the future may be limited, including during periods of increase in the price of raw materials and other costs. If we are forced to reduce prices or maintain prices during periods of increased costs, or if we lose customers because of their acquisition, pricing or other methods of competition, our financial position, results of operations and cash flows may be adversely affected.

18. Changes in technology may render our current technologies obsolete or require us to make substantial investments.

Modernization and technology up gradation is essential to reduce costs and increase the output. Our technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we believe that we have installed updated technology, we shall continue to strive to keep our technology, plant and machinery in line with the latest technological standards. In case of a new found technology in the metal stamping business, we may be required to implement new technology or upgrade the machineries and other equipment's employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations

19. Our Promoter Group Entity and Group Company is engaged in the line of business similar to our Company. There are no non - compete agreements between our Company and such entity. We cannot assure that our Promoter will not favour the interests of such entity over our interest or that the said entity will not expand, which may increase our competition and may adversely affect business operations and financial condition of our Company.

Our Promoter Group and Group Company, SM Autovision Private Limited is presently engaged in the similar line of business as of our Company. We have not entered into any non-compete agreement with the said entity. We cannot assure that our Promoter who has common interest in said entity will not favour the interest of the said entity. As a result, conflict of interests can arise on account of common suppliers/customers and in allocating business opportunities amongst our Company and our Promoter Group Company in circumstances where our respective interests diverge. In cases of conflict, our Promoter may favour other entity/entities in which our Promoter has interests. There can be no assurance that our Promoter or our Promoter Group entities or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse affect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations. For further details, please refer to Chapter titled "***Our Group Company***" on Page 214 of this Draft Prospectus.

20. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse affect on our business.

Our business involves many risks and hazards which may affect our profitability, including breakdowns, failure or substandard performance of equipment, third party liability claims, labour disturbances and infrastructure failure. Our company has obtained insurance coverage in respect of certain risks which consists of Standard Fire and Special Perils Policy for all our three manufacturing units and vehicle insurances. However, we have not taken machinery breakdown policy, burglary insurance, goods in transit, cash in transit, Directors and Officers Liability insurance, keyman insurance (except for Mr. Mukund Narayan Kulkarni) or workman compensation policies. If any uncertainty arises including losses arising on account of third party claims or if claim made by us in respect of an insurance, is not accepted or any loss occurred by us is in excess of the insurance coverage, the same may adversely affect our operation, results and financials. If our arrangements for insurance or indemnification are not adequate to cover

claims, we may be required to make substantial payments and our results of operations and financial condition may be affected. For further information, see the section titled “Our Business” on page 95 of this Draft Prospectus.

21. Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.

Our business requires significant amount of working capital and major portion of our working capital is utilized towards debtors, and inventories. As on June 30, 2019, we have been sanctioned cash credit facility of Rs. 550 lacs and long term working capital loan of Rs. 500 lakhs from TJSB Sahakari Bank Limited. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations.

22. We have not received consent of our lenders for undertaking the initial public offer of equity shares.

As on the date of this Draft Prospectus, we have applied for NOC for the Proposed Issue from one of our lender, SIDBI but we are yet to receive NOC from the said lender. However, our Company intends to obtain the necessary consent & NOC in relation to the proposed issue from such lender prior to the filing of the Prospectus with the RoC. Undertaking the proposed issue without obtaining such lender consent & NOC may constitute a default under such loan agreement, which could impact our loan facilities and may have an effect on our financial condition and results of operations.

23. Delays or defaults in client payments could affect our operations.

We may be subject to working capital risks due to delays or defaults in payment by clients, which may restrict our ability to procure raw materials and make payments when due. In addition, any delay or failure on our part to supply the required quantity or quality of products, within the time stipulated by our agreements, to our customers may in turn cause delay in payment or refusal of payment by the customer. We typically extend credit terms to our large institutional and other customers. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations.

24. Failure to effectively manage labour or failure to ensure availability of sufficient labour could affect the business operations of the Company.

Our business activities are dependent on availability of skilled and unskilled labour. Non-availability of labour at any time or any disputes with them may affect our production schedule and timely delivery of our products to customers which may adversely affect our business and result of operations. Though we have not faced any labour problem in the past we cannot assure that we will not experience disruptions to our operations due to disputes or other problems with our work force, which may lead to strikes, lock-outs or increased wage demands. Such issues could have adverse affect on our business, and results of operations.

25. We have incurred loss in recent financial years.

We incurred a net loss of ₹ 173.11 lakhs for F.Y. 2016-17, as per our Restated Consolidated Financial Information. We cannot assure you that we will not incur losses in future. For further details, see “Financial Information” beginning on page 133 of this Draft Prospectus.

For details, please see the chapter titled “Financial Information of the Company” on page 133 of this Draft Prospectus. Any negative cash flows in the future could adversely affect our results of operations and consequently our revenues, profitability and growth plans.

27. Our Group Company, SM Autovision Private Limited have incurred losses in F.Y. 2016-17 and any operating losses in the future could adversely affect the results of operations and financial conditions of our group company.

The details of profit and loss (based on Audited financials) of our Group Company, SM Autovision Private Limited in past years are mentioned as follows:

(Rs. in lacs)

Company	Profit/ (Loss) for the year ended on		
	March 31, 2019	March 31, 2018	March 31, 2017

Any operating losses by our Group Company could adversely affect the overall operations of the group and financial conditions. For more information, regarding the Companies, please refer chapter titled “Our Group Company” beginning on page 214 of this Draft Prospectus.

28. We have incurred substantial indebtedness which exposes us to various risks which may have an adverse affect on our business and results of operations

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on June 30, 2019, our total outstanding indebtedness was ₹ 1196.47 lakhs.

Our significant indebtedness results in substantial amount of debt service obligations which could lead to:

1. increasing our vulnerability to general adverse economic, industry and competitive conditions;
2. limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
3. affecting our credit rating;
4. limiting our ability to borrow more money both now and in the future; and
5. increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a short notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an adverse affect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “Statement of Financial Indebtedness” on page 184 of this Draft Prospectus.

29. Our Company has taken unsecured loans that may be recalled by the lenders at any time and our Company may not have adequate working capital to make timely payments or at all.

Our Company has availed unsecured loans which may be recalled by its lenders at any time. As on June 30, 2019, such loans amounted to Rs. 101.24 lacs. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled “Statement of Financial Indebtedness” on page 184 of this Draft Prospectus.

30. Loans availed by Our Company has been secured on personal/corporate guarantees of our Director and Group Company. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Directors or Group Company.

Our Promoters & Directors, Mr. Suresh Fegde, Mrs. Alka Mukund Kulkarni and Mr. Mukund Narayan Kulkarni has provided personal guarantee to secure a significant portion of our existing borrowings taken from TJSB Sahakari Bank Limited and SIDBI, and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of

the personal/corporate guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse affect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Statement of Financial Indebtedness**” on page 184 of this Draft Prospectus.

31. *The Promoters and Directors hold Equity Shares in Our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.*

Our Directors (including our Promoters) are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company or their relatives, dividend entitlement, or loans advanced and personal guarantee, provided by them for the Company, and benefits deriving from the directorship in our Company. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information, please refer to the chapters/section titled “**Our Business**”, “**Our Promoter and Promoter Group**” and “**Annexure XXXIV - Related Party Transactions**”, beginning on pages 95, 127 and 172 respectively of this Draft Prospectus.

32. *Obsolescence, destruction, theft, breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business, cash flows, financial condition and results of operations*

Obsolescence, destruction, theft or breakdowns of our major plants or machineries may significantly increase our machineries purchase cost and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all, particularly where our plants or machineries are not readily available from the market or require services from original machinery manufacturers. Some of our major machineries or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability. Such obsolescence, destruction, theft, breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an affect our business, cash flows, financial condition and results of operations For further details of our Plant and Machineries, please refer to chapter titled “**Our Business**” beginning on page 95 of the Draft Prospectus.

33. *We may not be able to sustain affective implementation of our business and growth strategy.*

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse affect on our business, financial condition and results of operations.

34. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be affective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

35. *Excessive dependence on TJSB Sahakari Bank Limited for obtaining financial facilities.*

Most of our fund based and non fund based financial assistance has been sanctioned by TJSB Sahakari Bank Limited. We have been sanctioned the financial assistance on the security of assets and personal guarantee of our Directors. Any default under such

arrangement or non renewal or renewal of the sanction on adverse term with such lender may result into difficulty in arranging of funds for re-payment and may also adversely affect our operations and financials. For further details on the Cash Credit Limits and other banking facilities, please see "*Statement of Financial Indebtedness*" on page 184 of this Draft Prospectus.

36. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.

The proposed fund requirement for our working capital needs, as detailed in the section titled "*Objects of the Issue*" is to be funded from the proceeds of this Issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled "*Objects of the Issue*" beginning on page 77 of this Draft Prospectus.

37. We are subject to the restrictive covenants of banks in respect of the Loans/ Credit Limits and other banking facilities availed from them.

Our financing arrangements contain restrictive covenants whereby we are required to obtain approval from our lender, regarding, among other things such as major changes in share capital, management, changes in fixed assets, creation of any other charge, undertake any guarantee obligation etc. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows.

For further details on the Cash Credit Limits and other banking facilities, please see "*Statement of Financial Indebtedness*" on page 184 of the Draft Prospectus.

38. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.

Our Company is engaged in business of manufacturing of metal stamping components, which attracts tax liability such as Goods and Service tax, Income tax, and professional tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund and Employee State Insurance. Any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

39. The Objects of the Issue for which funds are being raised, are based on our management estimates and have not been appraised by any bank or financial institution or any independent agency.

The deployment of funds will be entirely at our discretion, based on the parameters as mentioned in the chapter titles "Objects of the Issue". The fund requirement and deployment, as mentioned in the "Objects of the Issue" on page 77 of this Draft Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter "Objects of the Issue" is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter "Objects of the Issue" will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

40. Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary.

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials and assumptions relating to operational efficiencies. Actual production levels and utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization

information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Draft Prospectus. For further information, see the section titled **“Our Business”** on page 95 of this Draft Prospectus.

41. Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section **“Dividend Policy”** on page 132 of the Draft Prospectus.

42. There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above ₹10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

43. Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company after the issue, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our promoters along with the promoter group will continue to hold collectively 73.12% of the Equity share capital of the company. As a result of the same, they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholders vote. Such a concentration of the ownership may also have the affect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse affect on our future financials or results of operations.

44. We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company’s Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company’s Equity Shares. Additionally the disposal, pledge or encumbrance of Equity Shares by any of our Company’s major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company

will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

45. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The issue price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled “***Basis for Issue Price***” beginning on page 82 of the Draft Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

46. Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application.

Pursuant to the SEBI ICDR Regulations, Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application. While our Company is required to complete Allotment pursuant to the issue within six Working Days from the issue Closing Date, events affecting the Applicants decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the applicant’s ability to sell the Equity Shares Allotted pursuant to the issue or cause the trading price of the Equity Shares to decline on listing.

47. Certain data mentioned in this Draft Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

EXTERNAL RISK FACTORS

48. Our business is dependent on the Indian economy.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse affect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse affects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

49. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighboring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India, may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in the world, could influence the Indian economy and could have an adverse affect on the market for securities of Indian companies, including our Equity Shares.

50. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter “***Government and Other Approvals***” on page 209 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse affect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. For instance, the Government has proposed a comprehensive national goods and services tax (“GST”) regime that will combine taxes and levies by the Central and state Governments into a unified rate structure. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any such future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

51. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse affects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion affect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE’s benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse affect on our business, operations, financial condition, profitability and price of our Equity Shares.

52. Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

53. Government regulation of foreign ownership of Indian securities may have an adverse affect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non residents and residents are freely permitted(subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other

government agency can be obtained.

54. *If certain labour laws become applicable to us, our profitability may be adversely affected.*

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

55. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India's current economic and financial sector liberalization and deregulation policies. However there can be no assurance that such policies will be continued and a significant change in the government's policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations.

Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse affect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

GENERAL INFORMATION

Our Company was originally incorporated as “SM Auto Stamping Private Limited” on August 14, 2006 vide Registration no. 163789 (CIN: U27109MH2006PTC163789) under the provisions of the Companies Act, 1956 with the Registrar of Companies, Mumbai. GLOBAL ECONOMIC OVERVIEW

The global growth outlook has weakened amid unresolved trade tensions and elevated international policy uncertainty. Across both developed and developing countries, growth projections for 2019 have been downgraded. Alongside a slowdown in international trade, business sentiments have deteriorated, casting a cloud on investment prospects. In response to softening economic activity and subdued inflationary pressures, major central banks have eased their monetary policy stances.

While part of the growth slowdown reflects temporary factors, downside risks remain high. Prolonged trade disputes could have significant spillovers, including through weaker investment and the disruption of production networks. Recent monetary policy shifts have reduced short-term financial pressures, but may further fuel debt accumulation, increasing medium-term risks to financial stability. These persistent macroeconomic risks are compounded by greater frequency and intensity of natural disasters, reflecting the rising effects of climate change.

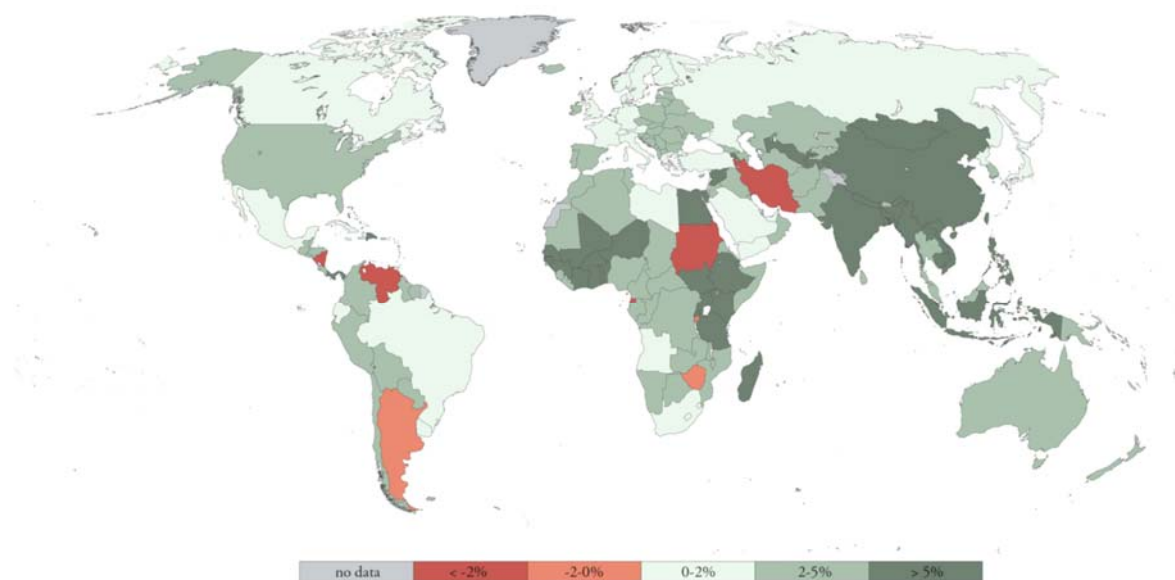

In the face of these multifaceted challenges, tackling the current growth slowdown and placing the world economy on a robust path towards the 2030 Agenda for Sustainable Development require more comprehensive and well-targeted policy responses. This should include a combination of monetary, fiscal and development-oriented measures. A coordinated, multilateral approach to global climate policy, including a price on carbon, is an important element of this policy mix. Increasing use of internal CO2 prices by the private sector indicates some willingness by firms to adapt to expected policy changes. The deterioration in growth prospects of many countries that are already lagging behind poses additional challenges for sustainable development, especially the goal to universally eradicate poverty by 2030. Future progress on poverty reduction will, to a significant extent, depend on the effective management of ongoing urbanization, particularly in Africa and South Asia.

Growth projections for 2019 have been revised downward in all major developed economies. In the United States, the growth momentum is projected to moderate as headwinds from trade policy are compounded by the waning effects of fiscal stimulus. In Europe, while the effects of auto production disruptions are expected to dissipate, economic activity will be dampened by weaker confidence, softer external demand and prolonged uncertainty surrounding Brexit developments. In Japan, weak external demand has weighed on investment in the manufacturing sector, while household consumption remains sluggish.

The growth outlook for many developing economies has also weakened. Southern Africa, Western Asia and Latin America and the Caribbean have seen particularly large downward revisions for growth in 2019. The weaker prospects for Southern Africa are attributable to the devastation caused by cyclone Idai, coupled with a subdued outlook for South Africa's economy, which is severely hampered by power shortages. In Western Asia, growth in Saudi Arabia is projected to slow amid oil production cuts, while Turkey will only gradually emerge from recession, following a sharp contraction in domestic demand in the second half of 2018. The downward revision of the outlook for Latin America and the Caribbean reflects weaker-than-expected activity in the region's largest economies—Argentina, Brazil and Mexico—and a further severe contraction in the Bolivarian Republic of Venezuela. In contrast, growth prospects remain favourable in other developing regions, most notably East Africa and East Asia. In China, recent policy stimulus measures will largely offset the adverse effects from trade tensions. Despite downward revisions, growth in India remains strong amid robust domestic demand.

ECONOMIC OUTLOOK OF INDIA

As the world's third largest economy in purchasing parity terms, India aspires to better the lives of all its citizens and become a high-middle income country by 2030. Between 2011-15, more than 90 million people escaped extreme poverty and improved their living standards thanks to robust economic growth. However, India's growth rate has decelerated in the past two years.

In recent years, the country has made a significant dent in poverty levels, with extreme poverty dropping from 46 percent to an estimated 13.4 percent over the two decades before 2015. While India is still home to 176 million poor people, it is seeking to achieve better growth, as well as to promote inclusion and sustainability by reshaping policy approaches to human development, social protection, financial inclusion, rural transformation, and infrastructure development.

While the country's development trajectory is strong, challenges remain. Economic performance has been strong, but development has been uneven, with the gains of economic progress and access to opportunities differing between population groups and geographic areas. Implementation challenges of indirect tax reforms, stress in the rural economy and a high youth unemployment rate in urban areas may have moderated the pace of poverty reduction since 2015. Despite regulatory improvements to spur competitiveness, levels of private investment and exports continue to be relatively low, undermining prospects for longer term growth. The country's human development indicators – ranging from education outcomes to a low and declining rate of female labor force participation - underscore its substantial development needs.

India's ability to achieve rapid, sustainable development will have profound implications for the world. India's success will be central to the world's collective ambition of ending extreme poverty and promoting shared prosperity, as well as for achieving the 2030 Sustainable Development Goals (SDGs). Indeed, the world will be only able to eliminate poverty if India succeeds in lifting its citizens above the poverty line.

For international trade and the health of the global economy too, India's growth will be ever more important. Growth is projected to be 6.0 percent this fiscal year and expected to rise to 6.9 percent in 2020/21 and to 7.2 percent in the following year. In addition, the carbon footprint India leaves as it propels its high growth will have a significant influence on the planet's ability to keep global warming within the 2-degree threshold.

On crucial issues ranging from managing scarce water resources, to modernizing food systems, to improving rural livelihoods, to ensuring that megacities become engines of sustainable economic growth and inclusion, India's development trajectory will have a major influence on the rest of the world.

At the same time, India's growing economic and political stature and the relevance of its experience, know-how and investments for the development efforts of other nations well-position the country to play a greater leadership role in the global arena.

India continues to remain the fastest growing major economy in the world in 2018- 19, despite a slight moderation in its GDP growth from 7.2 per cent in 2017-18 to 6.8 per cent in 2018-19. On the other hand, the world output growth declined from 3.8 per cent in 2017 to 3.6 per cent in 2018. The slowdown in the world economy and Emerging Market and Developing Economies (EMDEs) in 2018 followed the escalation of US China trade tensions, tighter credit policies in China, and financial tightening alongside the normalization of monetary policy in the larger advanced economies. In 2019, when the world economy and EMDEs are projected to slow down by 0.3 and 0.1 percentage points respectively, growth of Indian economy is forecast to increase.

Growth rate of real GDP (per cent):

India is the seventh largest economy in terms of Gross Domestic Product (GDP) in current US\$ and has emerged as the fastest growing major economy. The average growth rate of India was not only higher than China’s during 2014-15 to 2017-18 but much higher than that of other top major economies (measured in terms of GDP at current US\$ terms) as well. With Purchasing Power Parity (PPP) adjustments, India’s GDP at current international dollar, ranks third in the world.

The contribution of the Indian economy to the GDP of EMDEs and world economy has increased consistently over the years. In a span of less than a decade, India’s contribution to EMDEs GDP has increased by around 1.3 percentage points and to the world economy by around 0.7 percentage points. India’s share in GDP of EMDEs stood at 8 per cent in 2018. As per the WEO, April 2019 of IMF, going forward, the growth of world economy will be bolstered mainly by growth in China and India and their increasing weights in world income. In EMDEs group, India and China are the major drivers of growth. The global economy—in particular the global growth powerhouse, China—is rebalancing, leading to an increasing role for India. Hence, India’s contribution has become much more valuable to the global economy.

India’s share in GDP of EMDEs and World (per cent):

Outlook of the Economy

- The year 2019-20 has delivered a huge political mandate for the government, which augurs well for the prospects of high economic growth. Real GDP growth for the year 2019-20 is projected at 7 per cent, reflecting a recovery in the economy after a deceleration in the growth momentum throughout 2018-19. The growth in the economy is expected to pick up in 2019-20 as macroeconomic conditions continue to be stable while structural reforms initiated in the previous few years are continuing on course. However, both downside risks and upside prospects persist in 2019-20.
- Investment rate, which was declining from 2011-12 seems to have bottomed out. It is expected to pick up further in the year 2019-20 on the back of higher credit growth and improved demand. The political stability in the country should push the animal spirits of the economy, while the higher capacity utilization and uptick in business expectations should increase investment activity in 2019-20.
- The oil prices increased in 2018-19 by around 14 \$/bbl. However, oil prices are expected to decline in 2019-20 from the current level (based on the oil futures price for 2019-20). This should provide a positive push to consumption.
- Prospects of export growth remain weak for 2019-20 if status quo is maintained. However, reorientation of export policies to target countries/markets based on our own relative comparative advantage and the importing country's exposure to Indian goods can foster export performance. Under status quo, the outlook for the global economy is bleak in 2019, with most of the countries projected to slow down.

INDIAN AUTOMOTIVE SECTOR

The Auto & Auto Component industry’s impact on the Indian economy currently is significant as it contributes ~7% to the country’s GDP and is expected to increase to 12% as per the Automotive Mission Plan.

According to the Automotive Mission Plan 2016-26 (AMP 2026); a collective vision of the Government of India and the Indian Automotive Industry, the Indian Auto Industry will be in the global top three for engineering, manufacturing and export of vehicles, auto components; it will encompass safe, efficient and environment friendly conditions for affordable mobility by 2026.

The industry is likely to grow from 80 Billion USD to 270 Billion USD by 2026 and generate an additional 65 Million jobs. The Automotive industry is key to the domestic Manufacturing Sector contributing over 40% and impacting the fortunes of several related manufacturing industries such as Iron and Steel, Aluminum, Rubber, Chemicals, Molds etc.

The Auto industry, over the years, has adapted well to the changes in the policy & regulatory environment and the needs of its customers. In FY 14-15 the Indian auto-components industry bounced back growing at 11% and registered a turnover of USD 38.5 billion. Today, the industry contributes ~46% to the Manufacturing GDP and ~7% to National GDP, providing direct employment to 1.5 million people and is an important driver of growth for the Indian economy. Automobile exports too have grown despite the global slowdown, growing at 14.89% from April-March 2015 over the same period last year.

India is currently one of the largest markets in the world as far as automobile sales are concerned. Car manufacturers raised a toast for the financial year 2017-18 as it turned out to be one of their best in terms of sales. The industry registered double-digit growth between 1st April 2017 and 31st March 2018. The year also marked India surpassing Germany as the fourth largest automobile market on a global scale to stand right behind China, the US, and Japan.

According to data released by the Society of Indian Automobile Manufactures (SIAM),

Passenger Vehicles: the domestic sales of Passenger Vehicles (PVs) grew at 7.89 % to 32,87,965 (3.28 million) units in 2017-18, against 9.23 % in 2016-17.

- Passenger Cars grew at 3.33 % to 2.17 million units,

- Utility vehicles expanded at a strong 21% to 0.92 million units.

Commercial vehicle: (CV) segment sales registered a strong growth of 20% in 2017-18, significantly higher than 4% in 2016-17.

- medium and heavy vehicles grew 12.48% to 340,313 (0.34 mn) units,
- light vehicles expanded at over 25% to 516,140 (0.52 mn) units.

Three-wheeler sales also hit a new record of 635,698 (0.63 mn) units, growing at a whopping 24% growth rate from the previous year.

- passenger carriers grew nearly by 29%,
- goods carriers grew just under 8%.

Two-wheelers also touched a new milestone of 20.19 million units last year, grew at 14.80%, compared with 7% in 2016-17.

- Motorcycle sales grew 13.69% to 12.61 million units,
- scooters expanded 20% to 6.71 million units.
- Mopeds, declined over 3% to 0.85 million units.

Growth Drivers

There are several key drivers that have affected the automobile industry in India. These include:

I. Government regulations: The automobile industry in India has received extensive government support and this has encouraged a lot of foreign direct investment in the industry. The government permits 100% foreign direct investment in this industry and it is fully delicensed making it easy for investors to penetrate it and set up shop in India. Additionally, there are also tax incentives and investors can actually export the automobiles for free.

II. Low car penetration & Rising family income: India has about 120 vehicles (all segments including 19 cars per 1000) on every 1000 people right now, which is expected to rise to almost 300 in next 10 years. Around 60% of the mobility demand in India is served by public transportation modes like buses and metros and non-motorized transport modes (walking and cycling). India's per capita income grew at pace of 8.6 per to Rs. 1,12,835 (1375 Euro) during FY18 from Rs. 1,03,870 (1265 Euro) in FY17. The growing domestic income is to make motor vehicles more affordable for local consumers.

III. Young population: Indian is one of the youngest country in the world with more than 50% of population is below the age of 25 years and more than 65% is below the age of 35%. A young population may lead to higher personal vehicle ownership.

IV. Greater Availability of cheaper and easier finance: All nationalized and scheduled banks offers loans for purchase of new vehicles at very low interest rates. In India nearly 70-75% of the new vehicle purchases are done by using bank loans. This indicates that Indian auto industry is unique in the way vehicles are purchased by consumers.

V. Research and Development: There have been many research and development initiatives, both private and governmental. These are aimed at improving the automobile industry in India. The government started the Automotive Component Manufacturers Association of India (ACMA) which is an apex body that deals with the automobile industry in India. This body looks into matters such as upgrading of technology in the industry, collecting information on industrial events and trends as well as disseminating this information to relevant stakeholders. The body does this through research and also promotes trade in both domestic and foreign circles. On their part, private investors have also set up research and development initiatives within their companies. For instance the Mahindra and Mahindra research centre for electric vehicles in order to enhance their services in India.

VI. Stable economy: Many experts predict that the future of the automobile industry in India is bright. However this is subject to the economic stability of the country and currency inflation rates. Economic stability and low inflation will increase incomes for majority of Indians and raise the domestic consumption of automobiles in the country.

MANUFACTURING PROCESS FLOW CHART

Stamping (also known as pressing) is the process of placing flat sheet metal in either blank or coil form into a stamping press where a tool and die surface forms the metal into a desired shape. Stamping includes a variety of sheet-metal forming manufacturing processes, such as punching, blanking, parting, embossing, bending, flanging, forming, draw, trimming, coining etc. The process is usually carried out on sheet metal, but can also be used on other materials also.

A description of the manufacturing process followed by the Company is discussed hereunder:

- 1) Raw material ordering: Raw materials such as HRPO Strips, Coil, Steel Strip are ordered in defined sheet size from steel traders or steel mills, which are staked in inward area.
- 2) Raw material inspection: Raw material is inspected for material hardness, sheets size, surface defect such as scratches, bends, damages etc.
- 3) Shearing: At shearing station, material is cut to size & stacked in racks for ease of availability to operators for next operation of stamping.
- 4) Blanking: Blanking operation is used to cut sheet at desired size on stamping tool operated either by mechanical or pneumatic power press.
- 5) Piercing: This operation is used to create holes or pocket in the blanks of defined sizes with the help of piercing tool operated on a pneumatic power press.
- 6) Draw /forming: This operation is used to give desired shape to the sheets which may be a cup shape or a bend or a form to suit product geometry. This operation is performed on draw press tool operated either by hydraulic, mechanical or pneumatic power press.
- 7) Trimming: This operation is used to cut the extra material of sheets at boundary left out after forming operation.
- 8) Surface treatment: To avoid rusting & increase life of components, materials are provided with surface treatment which may be zinc passivation, trivalent, phosphating, powder coating etc.
- 9) Final inspection: Components are checked for visual defects, dimensional accuracy and profile geometries.
- 10) Packing: Inspected components are spread with oil if no surface treatment & packed in bags which are in turn pack in carton boxes. These boxes are stored in outward area racks ready for dispatch.
- 11) Dispatch: The components dully packed are dispatched via vehicle to customer as per there requirement & schedule.

I. SIGNIFICANT ACCOUNTING POLICIES

A) BASIS OF PREPARATION OF FINANCIAL STATEMENT

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 (‘the Act’) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act. The accounting policies adopted in the preparation of financial statements have been consistently applied. All assets and liabilities have been classified as current or non-current as per the company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time difference between the provision of services and realization of cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

B) USE OF ESTIMATES

The preparation of financial statements is in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialized.

C) ACCOUNTING CONVENTION

The group follows the mercantile system of accounting, recognizing income and expenditure on accrual basis. The accounts are prepared on historical cost basis and as a going concern. Accounting policies not referred to specifically otherwise, are consistent with the generally accepted accounting principles.

The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

1. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have been passed to the buyer. Sales are disclosed net of sales tax /GST/ VAT, trade discounts and returns, as applicable. Excise duties deducted from turnover (gross) are the amounts that are included in the amount of turnover (gross) and not the entire amount of liability that arose during the year.

Income from services

Revenue from services is recognised when services have been rendered and there should be no uncertainty regarding consideration and its ultimate collection.

Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable."

Dividend Income

Dividend Income is recognised on receipt basis.

2. Property, plant & equipment

- a) Property, plant and equipment are stated as per Cost Model i.e., at cost less accumulated depreciation and impairment, if any;
- b) Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the management;
- c) Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs & maintenance costs are recognized in the Statement of profit & Loss when incurred;
- d) The cost and related accumulated depreciated are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit or Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell;
- e) Depreciation on Tangible Assets in case of holding company is provided in such a manner so that the cost of asset (Net of realizable value) will be amortized over their estimated remaining useful life on WDV basis as per the useful life prescribed under Schedule II to the Companies Act 2013 and that of subsidiary is provided on SLM basis.
- f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

3. IMPAIRMENT

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4. INVENTORIES

Inventories are valued after providing for obsolescence, as follows:

- a) Raw Materials, Stores & Spare parts and Packing Material-Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on Weighted Average Cost basis.

b) Work-in-Progress is valued at raw material cost plus proportionate conversion cost.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale, however due to the nature of the company the own manufactured goods are valued at a Retail Method basis on a consistent basis, however the Trading Goods are valued at the lower of Cost or Net Realisable Value.

5. RETIREMENT BENEFITS & OTHER EMPLOYEE BENEFITS

Defined-contribution plans:

All short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

The Company's contribution to Provident Fund and Employees State Insurance Scheme is determined based on a fixed percentage of the eligible employees' salary and charged to the Statement of Profit and Loss on accrual basis.

The Group has made provision for payment of Gratuity to its employees. This Provision is made as per the method prescribed under the Payment of Gratuity Act. The cost of providing gratuity under this plan is determined on the basis of actuarial valuation at year end. Under the Gratuity Fund Plan, the holding company contributes to a LIC administered Group Gratuity Fund on behalf of employees.

6. FOREIGN EXCHANGE TRANSACTIONS

Foreign-currency denominated monetary assets and liabilities if any are translated at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from the transactions relating to purchase of current assets like Raw Material etc. are included in the Statement of Profit and Loss. Revenue, expense and cash-flow items denominated in foreign currencies are translated using the exchange rate in effect on the date of the transaction.

7. CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

8. BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

9. INCOME TAX

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognised for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

10. EARNINGS PER SHARE

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

11. PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the likely future outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

12. CASH & CASH EQUIVALENTS

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

The cash consideration receivable from directors of Autovision amounting to Rs. 60.41 Lakh will enhance the cash flow of the company.

Basis of Preparation

The pro forma standalone financial information of the company comprising the pro forma balance sheet as at June 30, 2019 and March 31, 2019, the pro forma statement of profit and loss for the period ended June 30, 2019 and year ended March 31, 2019, read with the notes to the pro forma financial information, has been prepared as per the request of the management of the company pursuant to requirements of SEBI ICDR Regulations to reflect the divestment of equity of Autovision in the Draft Prospectus/ Prospectus (collectively ‘Offer Documents’). Because of their nature, the pro forma financial information addresses a hypothetical situation and, therefore, do not represent company’s actual standalone financial position or results. They purport to indicate the results of operations that would have resulted had the divestment been completed at the beginning of the period presented and the standalone financial position had the divestment been completed as at the respective period or year end, but are not intended to be indicative of expected results or operations in the future periods or the future financial position of the company. The pro forma adjustments are based upon available information and assumptions that the management of the company believes to be reasonable. In addition, the rules and regulations related to the preparation of pro forma financial information in other jurisdictions may also vary significantly from the basis of preparation as set out in paragraphs below to prepare these pro forma financial statements.

As explained in the following paragraphs, the unaudited proforma balance sheet as at June 30, 2019 and March 31, 2019 has been prepared to reflect the divestment by the company of Autovision as on November 27, 2019. - a) the restated audited Consolidated financial statement of the Company as at June 30, 2019 on which we have expressed an unmodified opinion in our reports dated December 26, 2019;
- b) the restated audited standalone financial statement of the Company as at June 30, 2019 on which we have expressed an unmodified opinion in our reports dated December 26, 2019;
- c) the audited standalone financial statement of SM Autovision Pvt Ltd as at June 30, 2019 on which we have expressed an unmodified opinion in our reports dated December 26, 2019;
- d) the audited Consolidated financial statement of the Company as at March 31, 2019 on which we have expressed an unmodified opinion in our reports dated September 13, 2019;
- e) the audited standalone financial statement of the Company as at March 31, 2019 on which we have expressed an unmodified opinion in our reports dated September 13, 2019; and
- f) the audited standalone financial statement of SM Autovision Pvt Ltd as at March 31, 2019 on which we have expressed an unmodified opinion in our reports dated August 29, 2019 (the “audited financial statements”).

The unaudited pro-forma financial information does not include any adjustment for liabilities or related costs that may result from divestment activities, nor do they reflect any adjustments for potential down flow in the company’s operations and activities.

Pro forma adjustments

The following adjustments have been made to present the unaudited pro forma condensed consolidated financial information:

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act. The

accounting policies adopted in the preparation of financial statements have been consistently applied. All assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time difference between the provision of services and realization of cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

B) USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialized.

C) ACCOUNTING CONVENTION

The group follows the mercantile system of accounting, recognizing income and expenditure on accrual basis. The accounts are prepared on historical cost basis and as a going concern. Accounting policies not referred to specifically otherwise, are consistent with the generally accepted accounting principles.

The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

1. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have been passed to the buyer. Sales are disclosed net of sales tax /GST/ VAT, trade discounts and returns, as applicable. Excise duties deducted from turnover (gross) are the amounts that are included in the amount of turnover (gross) and not the entire amount of liability that arose during the year.

Income from services

Revenue from services is recognised when services have been rendered and there should be no uncertainty regarding consideration and its ultimate collection.

Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable."

Dividend Income

Dividend Income is recognised on receipt basis.

2. Property, plant & equipment

a) Property, plant and equipment are stated as per Cost Model i.e., at cost less accumulated depreciation and impairment, if any;

b) Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the management;

c) Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs & maintenance costs are recognized in the Statement of profit & Loss when incurred;

- d) The cost and related accumulated depreciated are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit or Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell;
- e) Depreciation on Tangible Assets in case of holding company is provided in such a manner so that the cost of asset (Net of realizable value) will be amortized over their estimated remaining useful life on WDV basis as per the useful life prescribed under Schedule II to the Companies Act 2013 and that of subsidiary is provided on SLM basis.
- f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

3. IMPAIRMENT

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4. INVENTORIES

Inventories are valued after providing for obsolescence, as follows:

- a) Raw Materials, Stores & Spare parts and Packing Material-Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on Weighted Average Cost basis.
- b) Work-in-Progress is valued at raw material cost plus proportionate conversion cost.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale, however due to the nature of the company the own manufactured goods are valued at a Retail Method basis on a consistent basis, however the Trading Goods are valued at the lower of Cost or Net Realisable Value.

5. RETIREMENT BENEFITS & OTHER EMPLOYEE BENEFITS

Defined-contribution plans:

All short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

The Company's contribution to Provident Fund and Employees State Insurance Scheme is determined based on a fixed percentage of the eligible employees' salary and charged to the Statement of Profit and Loss on accrual basis.

The Group has made provision for payment of Gratuity to its employees. This Provision is made as per the method prescribed under the Payment of Gratuity Act. The cost of providing gratuity under this plan is determined on the basis of actuarial valuation at year end. Under the Gratuity Fund Plan, the holding company contributes to a LIC administered Group Gratuity Fund on behalf of employees.

6. FOREIGN EXCHANGE TRANSACTIONS

Foreign-currency denominated monetary assets and liabilities if any are translated at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from the transactions relating to purchase of current assets like Raw Material etc. are included in the Statement of Profit and Loss. Revenue, expense and cash-flow items denominated in foreign currencies are translated using the exchange rate in effect on the date of the transaction.

7. CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

8. BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

9. INCOME TAX

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognised for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

10. EARNINGS PER SHARE

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

11. PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the likely future outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

12. CASH & CASH EQUIVALENTS

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.
