## Internal Risks

### Risks relating to the business of our Company

- 1. We depend on our third-party manufacturers for our operations and unsatisfactory services provided by them or failure to maintain relationships with them could disrupt our operations. Further, we may not be able to pass on any increase in costs levied by our third-party manufacturers to our customers.***

The finished products are obtained from our third-party manufacturers, and there is a likelihood, that they may not meet the terms and conditions or performance parameters, which could result in disruption of our business operations and a deterioration in our brand value. We do not have direct control over the day-to-day activities of these third-party manufacturers, and only reliance is placed on them to manufacture the agreed products in accordance with the relevant arrangements. For more details, please refer to the section titled '**Our Business**' on page 105 of this Prospectus.

Further, we do not execute contracts with most of our third-party manufacturers and our arrangements with them are based on spot basis and at applicable spot-market rates. We do not have any definite agreement with third parties. While such arrangements are typically subject to renewal pursuant to mutual consent, we cannot assure you that such arrangements will continue to be successful or be renewed after expiry of the stipulated period, on terms that are commercially favorable to us, or at all. We cannot assure you that such third parties will continue to perform their obligations which could result in disruptions to our operations and a deterioration in our brand value. We cannot assure you that we will not face any loss in the future on account of the unavailability of third-party manufacturers.

We may be susceptible to certain unforeseen costs if our third-party manufacturers decide to impose these additional costs on us in the interim period. We cannot assure you that we will be able to pass on any such unanticipated increases in costs to our customers in the future, either wholly or in part, which may materially and adversely affect our operating margins and, consequently, our business, results of operations and financial condition.

- 2. We are dependent on our top long standing 10 customers who contribute more than 30% of our revenue from operations in each of the last 3 Financial Years. Loss of any of these customers or a reduction in purchases by any of them could adversely affect our business, results of operations and financial condition.***

We derive more than 30% of our revenue from operations from the sale of our products to our major customers. The table below sets forth the revenue derived from our major customers for the Financial Years encapsulated hereunder:

Particulars of Customers	Restated Financial Information for the Financial Year Ended March 31							
	September 30, 2023		2023		2022		2021	
	Amount (₹ in Lakhs)	% of Revenue from operations	Amount (₹ in Lakhs)	% of Revenue from operations	Amount (₹ in Lakhs)	% of Revenue from operations	Amount (₹ in Lakhs)	% of Revenue from operations
Top 5	3,616.27	83.80%	₹5,787.47	78.73%	₹1,973.45	45.74%	₹1,232.32	34.65%
Top 10	3,913.22	90.69%	₹6,697.78	91.11%	₹2,355.95	54.61%	₹1,387.93	39.02%

We depend and expect to continue to depend on our major customers for a substantial portion of our revenue. The loss of any of our above customers for any reason could have a material adverse effect on our business, results of operations and financial condition.

We have not entered into any formal agreements, arrangement, or any other understanding with our customers therefore, our business is dependent upon the continuous relationship with the customers, our traders and the quality of products supplied to us. Further, we rely on purchase orders and delivery schedules issued by our customers from time to time, that set out the sale price, volume, and other terms of sales for our products. However, such purchase orders/delivery schedules may be cancelled unilaterally with or without cause and should such cancellation take place, it may have an adverse impact on our revenue and results of operations. There has been no cancellation of order by any of our top customers in the past. However, there can be no assurance that our top customers will not cancel orders in the future which may have an impact on our results of operations and business in the future.

Furthermore, there is no assurance that our top customers will continue to source products from us at volumes or rates consistent with, and commensurate to, the amount of business received from them historically, or at all. While our top customers have not terminated their arrangements with us or reduced the demand for our products in the last three Fiscals,

any decrease in the demand for our products from our top three customers, or a termination of our arrangements altogether, would adversely impact our results of operations, financial condition, and cash flow.

- 3. *Our business and profitability are substantially dependent on the availability and any disruption to the timely and adequate supply of the finished products, or volatility in the prices of the finished products may adversely impact our business, results of operations and financial condition. Further, dependence on third parties for the supply of the finished products with no firm commitments for supply or exclusive arrangements with any of our suppliers. Loss of suppliers may have an adverse effect on our business, results of operations and financial condition.***

We do not generally have firm commitments for the supply of the finished goods and rely on purchase orders and delivery schedules for the procurement of the said finished goods. We procure our finished goods by purchase orders wherein the pricing, scheduling and delivery details are set out. We depend on third-party suppliers for our finished products that we procure under informal arrangements with them which are typically valid until terminated by either party. We may be unable to source products from alternative suppliers on similar commercial terms and within a reasonable timeframe. While our suppliers have not terminated their arrangements with us in the last three Financial Years, we may be unable to find suitable alternatives in the event our suppliers terminate their engagements with us in the future.

Furthermore, as we typically do not have exclusive arrangements with our suppliers, our suppliers could engage with our competitors and prioritize supplies of their other customers, which could adversely impact our ability to procure a sufficient quantity of products at competitive rates. Ultimately, our success depends on the uninterrupted and timely supply of the finished products to our customers which could have a material and adverse effect on our business, results of operations and financial condition. For more details, please refer to the section titled '**Our Business**' on page 105 of this Prospectus.

- 4. *We require certain approvals, licenses, registrations and permits for our business, and failure to obtain or renew them in a timely manner may adversely affect our operations.***

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels to operate our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous.

We are not able to trace our Professional Tax Registration Certificate issued by the Commercial Tax Department, Karnataka, and Professional Tax Enrolment Certificate issued by the Maharashtra Sales Tax Department. We have, however, throughout the years, made timely payment of fees towards these registration and enrolment. We have made applications for the revised Professional Tax Registration Certificate to the Commercial Tax Department, Karnataka, and revised Professional Tax Enrolment Certificate to the Maharashtra Sales Tax Department, pursuant to conversion of our Company from private limited to public limited. For further details, see '**Government and Other Statutory Approvals**' beginning on page 173 of this Prospectus.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding material approvals, licenses, registrations and permits, see '**Government and Other Statutory Approvals**' beginning on page 173 of this Prospectus.

- 5. *We have experienced growth in recent years and may be unable to sustain our growth or manage it effectively.***

We have experienced growth in the recent years. Our revenue from operations grew at a 70.39% from ₹4,314.23 Lakhs in the Financial Year ended March 31, 2022, to ₹7,351.08 Lakhs in the Financial Year ended March 31, 2023. Sustaining our growth will require investments including in assets and will also put pressure on our ability to effectively manage and control historical and emerging risks. An expansion in the size of our business and the scope and complexity of our operations could strain our internal control framework and processes, which may result in delays, increased costs, and lower quality products. We may be unable to effectively manage this growth or achieve the desired profitability in the expected timeframe or at all.

**6. We use third-party dealers to market, sell and deliver products in the market and are subject to risks associated with these arrangements.**

We use third-party dealers to market, sell and deliver products in the market and are subject to risks associated with these arrangements. Our relationships with dealers may be characterized as seller and buyer relationships which do not grant us control over their operations, inventories, and they are free to appoint authorized stockists at their own discretion or compete with one another. We are also not entitled to any indemnity from dealers for losses that we may incur as a result of actions of such dealer. As a result, our sales through third-party dealers are subject to risks, including: (i) the inability of our selected dealers to effectively sell our products; (ii) the quality of customer service provided by dealers, which could harm our reputation or brand image; (iii) our ability to extend existing dealer arrangements for subsequent periods; and (iv) a decrease in contact with our customers. Furthermore, as our dealer relationships are non-exclusive, our competitors may incentivize our dealers to prefer their products over ours, which may hamper sales of our products. While we have not encountered any instances of customer claims attributable to the actions or inactions of our dealers in the last three Financial Years, any significant disruption of our sales to our dealers could materially and adversely affect our business and results of operations.

**7. There may be delays or defaults in payment by our customers or the tightening of payment periods by third-party manufacturers which could negatively affect our cash flows. As a result, we experience significant working capital requirements and our inability to meet our working capital requirements may materially and adversely affect our business, cash flows and financial condition.**

Our business requires a significant amount of working capital to finance our operations and our inability to meet our working capital requirements may adversely affect our cash flow cycle. Our working capital requirements increase primarily due to a considerable difference between the holding levels of our trade payables and our trade receivables.

The table below sets forth details of our trade payables, trade receivables, as of the dates indicated.

Particulars	For the Financial Year ended March 31											
	September 30, 2023			2023			2022			2021		
	Number of days	Amount (₹ in Lakhs)	% of Revenue from operations	Number of days	Amount (₹ in Lakhs)	% of Revenue from operations	Number of days	Amount (₹ in Lakhs)	% of Revenue from operations	Number of days	Amount (₹ in Lakhs)	% of Revenue from operations
Trade Receivables	162	36.74	88.91%	164	3,304.69	44.96%	74	879.65	20.39%	106	1,040.48	29.25%
Trade Payables	30	710.36	16.46%	58	1,156.17	15.73%	97	1,148.09	26.61%	118	1,149.93	32.33%

Our working capital requirements may further increase if the holding level of trade receivables is further increased or if there is a further decrease in holding period of trade payables. We cannot assure you that we will continue to be successful in arranging adequate working capital for our existing or expanded operations on acceptable terms or at all, which may materially and adversely affect our business, cash flows and financial condition.

**8. Our inability to effectively manage or expand our distribution network may have an adverse effect on our business, results of operations and financial condition.**

Our ability to expand and grow our sales significantly depends on the reach and effective management of our distribution network and the continued cooperation of third parties such as traders, dealers and consignment stockists, etc. We cannot assure you that we will continue to be able to effectively manage our distribution network and maintain good relationships with such third parties. Certain distribution intermediaries may have exclusivity arrangements with our competitors and may be unable to, or decline to, distribute nutraceutical products to us, which in turn may limit our ability to expand our distribution network. We cannot assure you that we will be able to expand our sale and distribution network in accordance with our business plans, or at all, which may adversely affect our business, results of operations and financial condition.

**9. Our inability to manage inventory in an effective manner could affect our business.**

Our business model requires us to maintain a certain level of inventory of our finished products, to meet the present and future orders. If we underestimate the orders that we may receive, we may experience inventory shortages and a loss of opportunity. Similarly, an over estimation of orders may result in over stocking leading to increased holding costs.

Additionally, any over run in holding of such goods may lead to their decay. Therefore, any mismanagement on our part to determine the optimum inventory levels may impact our operations and cause us to incur losses.

**10. Our brand “MCPL”, Trade Name “Manoj & Co” and its website and software applications under the name and style of www.mcplworld.com which are registered in the name of our Promoter, Mr. Manoj Dharamashibhai Rakhasiya and not in the name of our Company.**

We may continue to use the brand “MCPL”, Trade Name “Manoj & Co” and its website and software applications under the name and style of www.mcplworld.com which are owned and registered in the name of our Promoter, Mr. Manoj Dharamashibhai Rakhasiya. We have used these since 2006. At present, there is no written agreement in place with governing the use of these intellectual property rights. There is no assurance that the Company shall take necessary steps and pursue legal options to establish its ownership over all the trademarks and domain names.

In any event of a conflict of interest with the Promoter, would likely adversely affect our business, financial condition, cash flows and results of operations. For further details, see “*Our Management – Interest of Directors*”, and “*Our Promoters and Promoter Group – Interest of our Promoters*” on pages 132, and 141 of this Prospectus.

**11. Our Company operates solely on an asset-light trading model and is not directly involved in the manufacturing process. However, our marketing materials and website may showcase the concept of “Contract Manufacturing”.**

Our Company’s operation on an asset-light trading model, where we do not directly engage in manufacturing, is the potential for misinterpretation or confusion that may arise from our marketing materials and website showcasing the concept of “Contract Manufacturing”. Our focus lies in facilitating trade and distribution rather than being involved in the actual production and manufacturing process. The inclusion of “Contract Manufacturing” in our marketing materials might lead to misunderstandings, where some may perceive our Company as engaged in manufacturing operations.

Further, whilst incorporating MCPL Ceramic FZ-LLC, the business plan erroneously specifying “Contract Manufacturing” had been submitted to Ras Al Khaimah Economic Zone - Government of Ras Al Khaimah. As on date of this Prospectus, no notices have been issued upon our Company and fines or penalties may also be imposed upon our Company, which may adversely affect our administration. There can be no assurance that no penal action will be taken against us by the regulatory authorities with respect to the said erroneous disclosures. If any adverse actions are taken against us, our financial results could be affected. Further, we cannot assure you that the relevant corporate records will become available in the future, or that regulatory proceedings or actions will not be initiated against us in the future, and we will not be subject to any penalty imposed by the competent regulatory authority in this respect.

**12. There have been instances of shutting down of our warehouses and showrooms in the past.**

Our Company had ventured into leasing properties in Chennai, Hyderabad, Ahmedabad, Surat, and Pune for warehouse purposes, along with an office and showroom in Andheri. However, as of the Prospectus, there are no warehouses or showrooms present at the aforementioned locations. Our Company’s logistics for trucks and local transport has been improved at various locations. Post Covid-19, the company has taken an advantage of local tie-up of logistics network and reduced local stock points. For instance, material available at Ahmedabad depot or Surat depot, got merged with Morbi depot, also the company has made new tie-ups with local transport teams, to provide logistics for the same delivery that the company used to provide from Ahmedabad/Surat depot to local dealers in their areas. Similarly, Andheri 27/E display centre and Corporate office got merged and shifted to one-point contact and bigger display space Bhiwandi location thereby having 3 times more display of products as compared to display of products the company had at Andheri location. Further, for Chennai and Hyderabad locations as well, the teams and stocks were merged at Bangalore depot.

The above-mentioned instances led to shutdown of various warehouses resulting into reduction in warehousing maintenance cost, transportation cost and increased productivity and controlling centre post Covid-19.

While our financials remain unaffected presently, it is essential to acknowledge the potential risks that could significantly and unfavorably impact our business, cash flows, and financial condition in the foreseeable future.

#### **Operational risks**

**13. We do not own our Registered Office, land on which our warehouse, and showrooms, are located. A failure to renew our existing lease arrangements at commercially favourable terms or at all may have a material adverse effect on our business, financial condition, and results of operations.**

We do not own our Registered Office, and the land on which our warehouse, showrooms, and other offices are located. Some of our lease arrangements with third parties are due for renewal in the next one year, the details of which are set forth in the table below:

Godown	Cosmo Ceramic Old Ghuntu Road Mahendra Nagar Morbi - 363642, Gujarat, India	Jayeshbhai Vanjibhai Padaliya	Leased	0.39 Lakhs	Till 31 Jan 2024

There can be no assurance that we will be able to renew our lease arrangements at commercially acceptable terms or at all.

Furthermore, some of our other properties, including our Registered Office, are leased from/permitted to be used by our related parties. For instance, our Company has entered into a right to use agreement with our Director and member of the Promoter Group, Mr. Manoj Dharamashibhai Rakhasiya for the permitted use of our Registered Office. For further details, see '*Our Business – Material Properties*' on page 118 of this Prospectus.

We cannot assure you that we will be able to renew our leases on commercially acceptable terms or at all. While we have not failed to renew our lease arrangements in the past, in the event that we are unable to in the future, we may be required to vacate our current premises and make alternative arrangements for new offices. We cannot assure that the new

arrangements will be on commercially acceptable terms. If we are required to relocate our business operations or shut down our warehouses or godown during this period, we may suffer a disruption in our operations or have to pay increased charges, which could have an adverse effect on our business, financial condition, cash flows and results of operations. Furthermore, the deeds for our future leased properties may not be adequately stamped or such stamp duty may not be accepted as evidence in a court of law and we may be required to pay penalties for inadequate stamp duty.

**Risks related to our financial position.**

**14. Our inability to maintain appropriate levels of inventory to meet the demands of our customers may have an adverse effect on our results of operations and financial condition.**

We need to maintain sufficient inventory levels to meet customer expectations at all times. Accumulating excess inventory could increase our inventory costs, and a failure to have adequate inventory in stock to fulfil customer orders could result in inability to meet customer demand or loss of customers. For further details, see “*Management’s Discussion and Analysis Of Financial Condition And Results Of Operations – Significant Factors Affecting our Financial Condition and Results of Operations – Our customers and their purchasing patterns*” on page 165 of this Prospectus.

As actual orders by our customers are only placed by way of on-going purchase orders which are subject to refining/ phasing-out of existing models on an on-going basis, we are exposed to significant or unexpected changes in product specifications and delivery schedules, which may result in a mismatch between our inventories of finished products, thereby increasing our costs for maintaining inventory. Our inability to forecast the level of customer demand for our products as well as our inability to accurately schedule and manage our inventory may adversely affect our business and cash flows from operations.

The table below sets forth our inventory as of the dates stated:

Particulars	September 30, 2023	For the Financial Year ended March 31		
		2023	2022	2021
Inventories (₹ in Lakhs)	2,275.94	2253.23	2795.68	2546.13
Inventory Days*	96	112	237	262

\*Inventory days are calculated as inventory as on March 31 of a Financial Year x 365/ revenue from operations during such Financial Year (and have been rounded off to the next digit number).

While we have not experienced a significant mismatch in the past, there can be no assurance that such instances in the future will not have a material adverse effect on our liquidity, profitability, and financial condition. Furthermore, we may be required to maintain high inventory levels if we anticipate increase in customer demand for our products, which in turn would require a significant amount of working capital. Continued increases in our working capital requirements may have an adverse effect on our results of operations and financial condition. For further details, see “- *Internal Risk Factors – Risks related to our financial position – We have substantial capital expenditure and working capital requirements and may require additional financing to meet those requirements, which could have an adverse effect on our results of operations and financial condition.*”

**15. We have substantial capital expenditure and working capital requirements and may require additional financing to meet those requirements, which could have an adverse effect on our results of operations and financial condition.**

Our business is capital intensive as we require significant capital to operate. Historically, we have funded our capital expenditure requirements through a combination of internal accruals and term loans. 17.	Retail Manager	1
<b>Total</b>		<b>115</b>

We cannot assure you that we will be able to retain our staff or find adequate replacements in a timely manner, or at all. Competition for skilled personnel is intense, and we may need to increase our levels of employee compensation to attract and retain our staff. Even if we were to offer higher compensation and other benefits, there is no assurance that these individuals will continue to work for us or that we will successfully attract new talent.

The table below sets forth information on our attrition rates for the Fiscals stated:

<b>Particulars</b>	<b>For the Financial Year ended March 31</b>		
	<b>2023</b>	<b>2022</b>	<b>2021</b>
Number of Key Managerial Personnel and Senior Management	6	6	6
Attrition Rate <sup>(1)</sup> (Key Managerial Personnel including Senior Management)	5.61%	5.83%	5.83%
<b>Total staff</b>	107	103	103
Total staff employed	113	109	109

*Attrition rate for a particular category is calculated as total number of employees who have resigned during the period divided by average number of employees as on 1<sup>st</sup> date of each month during such period.*

We may also require significant time to hire and train replacement personnel when skilled personnel terminate their employment with us. The loss of the services of our staff could adversely affect our business, results of operations and financial condition.

**27. Our Promoters and certain of our Directors (some of whom are our Key Managerial Personnel) may have interests in the Company other than reimbursement of expenses incurred or normal remuneration or benefits. Further, we have acquired land from entities who are related to our Promoters and Directors.**

Our Promoters and certain of our Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses. In addition to the above, our Promoters and certain of our directors hold Equity Shares, pursuant to which they may take or block actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders.

We cannot assure you that our Promoter and our Directors will not provide competitive services or otherwise compete in business lines in which we are already present or will enter into in the future. This may give rise to a conflict of interest, which may adversely affect our business, financial condition, cash flows and results of operations.

For further details, see “*Our Management – Interest of Directors*”, “*Our Promoters and Promoter Group – Interest of our Promoters*” and “*Restated Financial Information – Note 32 – Related party disclosures*” on pages 132, 141, and 148 of this Prospectus.

**28. Our Promoters, who are also our Directors, and members of our Promoter Group will continue to hold a significant equity stake in our Company after the Issue and their interests may differ from those of the other shareholders.**

Post this Issue, our Promoters and Promoter Group will collectively own 99.55% of our post issue equity share capital. As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing, or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

**29. Conflict of interest may arise out of common business objects shared by our Company and our Promoter Group.**

Some of our Promoter Group Entities are in similar business line as of our Company. As a result, there may be conflict of interests in allocating business opportunities between us and our Promoter Group Entities. Our Promoters have not entered into a Non-Compete Agreement with the Company and therefore there is no assurance that all business activities related shall be undertaken only through or by our Company, due to which the effects would be visible on the results of our operations and financial condition.

**30. The average cost of acquisition of Equity shares by our Promoters is lower than the Issue price.**

Our Promoter’s average cost of acquisition of Equity shares in our Company is lower than the Issue Price of Equity shares as given below:

Sr. No.	Name of Promoter	No. of Equity Share held	Average Cost of Acquisition per equity share (in ₹)*
1.	Mr. Manoj Dharamshi Rakhasiya	16,50,200	₹12.17
2.	Mrs. Anjana Manoj Rakhasiya	27,68,000	₹0.47
3.	Mr. Dhruv Manoj Rakhasiya	5,78,600	₹5.45
4.	Mr. Aakash Manoj Rakhasiya	5,02,000	₹1.42
5.	Mrs. Manasvi Dhruv Rakhasiya	2,40,000	₹8.00
6.	Manoj D Rakhasiya HUF (acting through its Mr. Manoj Dharamshi Rakhasiya)	2,34,000	₹2.50

\*The average cost of acquisition of Equity Shares by our Promoters has been calculated by taking into account the amount paid by them to acquire and Shares allotted to them as reduced by amount received on sell of shares i.e. net of sale consideration is divided by net quantity of shares acquired.

**31. Our success depends heavily upon our Promoters, Directors and Key Managerial Personnel for their continuing services, strategic guidance and financial support. Our success depends heavily upon the continuing services of Promoters, Directors and Key Managerial Personnel who are the natural person in control of our Company.**

Our Promoters and Directors have a vast experience in the business undertaken by our company. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company's current customer and supplier relations. We believe, our Promoters and Directors, who have rich experience in this industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters, Director and Key Managerial Personnel and our success depends upon their continuing services. We also depend significantly on our Directors and Key Managerial Persons for executing our day-to-day activities. The loss of any of our Promoters, Directors and Key Management Personnel, or failure to retain, recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and Key Managerial Personnel, please refer to the *Section titled* "Our Management" on page 132 of this Prospectus.

***Risks related to the Objects of the Issue***

**32. The Objects of the issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled "Objects of the issue". Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.**

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management's estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time and consequently our funding requirements may also change. Our estimates may exceed the value that would have been determined by third party appraisals and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. The Board after consideration and approval by the Audit Committee will disclose the utilisation of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchange, on a half-yearly basis, deviations, if any, in the Use of Proceeds of the Issue from the Objects stated in this Prospectus or by way of an explanatory statement to the notice for a general meeting.

**33. We have not identified any alternate source of raising the funds required for the object of the Issue and the deployment of funds is entirely at our discretion and as per the details mentioned in the section titled "Objects of the Issue".**

Our Company has not identified any alternate source of funding for our object of the Issue and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of funds or may result in borrowing funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the company. Further the deployment of the funds raised in the issue will be entirely at the discretion of the management and any revision in the estimates may require us to reschedule our projected expenditure and may have a bearing on our expected revenues and earnings. For further details of Please refer section titled "Object for the Issue" beginning on Page 78 of this Prospectus.

**34. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.**

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely

affect our business and results of operations. For further details of the proposed objects of the Issue, refer section titled “*Objects of the Issue*” on Page 78 of this Prospectus.

#### ***Other risks***

**35. *Product liability and other civil claims and costs incurred because of product recalls could harm our business, results of operations and financial condition.***

We face an inherent business risk of exposure to product liability or recall claims in the event that our products are damaged. While there have been no such claims in the past, we cannot assure you that we will not experience any material product liability claims in the future or that we will not incur significant costs to defend any such claims. We cannot assure you that such claims will not be brought against us in the future, and any adverse determination may have an adverse effect on our business, results of operations and financial condition and reputation.

**36. *If there is deterioration in the reputation and market perception of our brands, or if our sales and marketing efforts are ineffective, it could adversely affect our sales, profitability and the implementation of our growth strategy.***

Our brand and reputation are among our important assets, and the performance and quality of products are critical to the success of our business. In particular, we operate and sell our products under our “MCPL” brand which has been registered under the Trademarks Act. The success of our products depends on the effectiveness of the product design, quality of the materials. While there have been no such instances of deterioration in our brand and reputation in the past, any adverse change in the quality of products rendered by us including due to reasons beyond our control, or allegations of defects, even when false, at any of our manufacturing facilities could tarnish the image of our brands, result in negative reviews and feedback from our customers. For further details, ‘*Our Business*’ and ‘*Government and Other Approvals*’ on pages 105, and 173 of this Prospectus for further details.

Furthermore, our brand building also depends on the effectiveness of sales and promotional activities and choice of channel partners. There can be no assurance that our efforts in these areas would always be effective. Any adverse development or decline in our brand value and reputation may adversely affect our business, results of operations and financial condition.

**37. *We may not be able to detect or prevent fraud or other misconduct committed by our employees or third parties.***

Fraud or other misconduct by our employees, such as unauthorized business transactions, bribery may be difficult to detect or prevent. It could subject us to financial loss while seriously damaging our reputation. While we have not experienced any material instances of fraud or other misconduct in the past, we cannot assure you that fraud or other misconduct will not occur in the future. In such event, our ability to effectively attract prospective stakeholders, obtain financing on favorable terms and conduct other business activities may be impaired.

**38. *Industry information included in this Prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial, and other industry information is either complete or accurate.***

These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed, and their dependability cannot be assured. **39. *This Prospectus contains certain non-GAAP financial measures and certain other selected statistical information related to our operations and financial performance. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the manufacturing industry, and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other manufacturing companies.***

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this Prospectus. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of manufacturing companies, many of which provide such non-GAAP financial measures and other statistical and operational information when reporting their financial results. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other manufacturing companies.

## **External Risk Factors**

### ***40. The cyclical and seasonal nature of businesses, in particular, the automobile industry, can adversely affect our business.***

Our business depends on general economic conditions and other factors, including consumer spending and preferences. Any sudden request from our customers to increase their order volumes, could cause lead time problems resulting in a loss of revenue for our customers if we are unable to meet their demands. As a result, our relationship with our customers may be impacted, affecting our sales adversely, resulting in a loss of revenue and reduced margins.

### ***41. Political, economic or other factors including but not limited to any changes in laws, rules and regulations and legal uncertainties that are beyond our control may have an adverse impact on our business, results of operations, financial condition and cash flows.***

External risks may have an adverse impact on our business, results of operations, financial condition, and cash flows, should any of them materialize. For instance, (i) an increase in interest rates may adversely impact our access to capital and increase our borrowing costs; (ii) a sustained period of high inflation may increase our employee costs and decrease demand for our products and services, which may have an adverse effect on our profitability and competitive advantage; (iii) a downgrade of India's sovereign rating by international credit rating agencies may adversely impact our access to capital and increase our borrowing costs; (iv) a change in tariff and non-tariff barriers in countries where we import raw materials and export our products may affect our financial condition; (v) a decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy as well as the valuation of the Indian Rupee; (vi) political instability, resulting from a change in government or in economic and Fiscal policies, may adversely affect economic conditions in India; (vii) the occurrence of natural or man-made disaster or epidemic or pandemic such as Covid-19 may adversely affect economic conditions in India; and (viii) civil unrest, acts of violence, terrorist attacks, regional conflicts or situations of war may adversely affect the financial markets, which may impact our business and financial condition. For example, in February 2022, Russia commenced military operations in Ukraine, and the conflict is currently on-going as of the date of this Draft Red Herring Prospectus.

Lastly, changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, which may adversely affect our business, results of operations, financial condition, and prospects. For instance, the Government of India has announced the union budget for the Financial Year ending 2023, pursuant to which the Finance Bill, 2022, has introduced various amendments. The Finance Bill has received assent from the President of India on March 30, 2021, and has been enacted as the Finance Act, 2022. We have not fully determined the impact of these recent and proposed laws and regulations on our business. As such, there is no certainty on the impact that the Finance Act, 2022 may have on our business and operations or on the industry in which we operate.

### ***42. A slowdown in economic growth in other countries and jurisdictions, such as Europe, China and the United States, could cause our business to suffer.***

The Indian financial markets and economy are influenced by market and economic conditions in other countries, including conditions in the United States, Europe, and certain emerging economies in Asia. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and us. Furthermore, concerns relating to trade wars between large economies such as the United States of America and China may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom's exit from the European Union ("**Brexit**"), there still remains significant uncertainty around the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations

between the two countries, affecting economic stability in India which may have an adverse effect on our business.

**43. *If inflation rises in India, increased costs may result in a decline in profits.***

Inflation rates in India have been volatile in recent years, and such volatility may continue. India has experienced high inflation in the recent past. Increasing inflation in India could cause a rise in the costs of rent, wages, raw materials, and other expenses. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our customers, whether entirely or in part, and may adversely affect our business and financial condition. While the Government of India has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect. There can be no assurance that inflation in India will not worsen.

**44. *Changes in trade policies may affect us.***

Any change in policies by the countries, in terms of tariff and non-tariff barriers, from which our suppliers import their raw materials, components and/or countries to which we export our products, may have an adverse effect on our profitability.

***Risks related to the Issue and the Equity Shares***

**45. *Our ability to pay dividends in the future will depend on our future earnings, cash flows, working capital requirements, capital expenditures, financial condition, and restrictive covenants of our financing arrangements.***

Our Company did not declare any dividend for the Financial Year ended March 31, 2023, 2022 and 2021. Our Company has declared dividend in year 2018-19 and paid a dividend at the rate of 6.295% on the Equity Shares during Financial Year ended March 31, 2020 and thereafter no dividend has been declared. Any dividends to be declared and paid in the future are required to be recommended by our Company's Board of Directors and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013, as amended.

For further information, see '*Dividend Policy*' on page 147 of this Prospectus, the amount of our future dividend payments, if any, will depend on our future earnings, cash flows, financial condition, working capital requirements, capital expenditures, restrictive covenants of our financing arrangements, applicable Indian legal restrictions and other factors. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our Company's shareholders consistent with our past practices, or at all. We may decide to retain all of our future earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, our ability to pay dividends may also be restricted by the terms of financing arrangements that we may enter into. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. As a result, we may not declare dividends in the foreseeable future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

**46. *Foreign currency exchange rate fluctuations may have an adverse effect on net dividends to foreign investors***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

**47. *There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.***

As per SEBI (ICDR) Regulations, , appointment of monitoring agency is required only for Issue size above ₹10,000.00 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (LODR) Regulations. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the Stock Exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

**48. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the Issue Price.***

Our Promoter's average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price may be decided by the Company acting through the IPO Committee, in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoter in our Company and built-up of Equity Shares by our Promoter in our Company, please refer to "*Capital Structure*" on page 62 of this Prospectus.

**49. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.***

The Issue Price of the Equity Shares will be determined by our Company, in consultation with the Lead Manager, and through the Fixed Price Process. This price will be based on numerous factors, as described under "*Basis for Issue Price*" on page 86 of this Prospectus and may not be indicative of the market price for the Equity Shares after the Issue. The market price of equity shares may be influenced by many factors, some of which are beyond our control, including:

- the failure of security analysts to cover the Equity Shares after this Issue, or changes in the estimates of our performance by analysts;
- the activities of competitors and business partners;
- future sales of the Equity Shares by our Company or our shareholders;
- investor perception of us and the industry in which we operate;
- our quarterly or annual earnings or those of our competitors;
- developments affecting Fiscal, industrial or environmental regulations;
- results of operations that vary from the expectations of securities analysts and investors;
- fluctuations in stock market prices and volume;
- the public's reaction to our press releases and adverse media reports; and
- general economic and stock market conditions.

The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to resell your Equity Shares at or above the Issue Price.

**50. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares) at any stage after submitting an Application, and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.***

Pursuant to the SEBI (ICDR) Regulations, QIBs and Non-Institutional Investors are required to pay the Application Amount on submission of the Application and are not permitted to withdraw their Application (in terms of quantity of Equity Shares) at any stage after submitting an Application. Similarly, Retail Individual Investors can revise or withdraw their Application at any time during the Issue Period and until the Issue Closing Date, but not thereafter. Therefore, QIBs and Non-Institutional Investors will not be able to withdraw or lower their Application following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations or otherwise at any stage after the submission of their Bids.

**51. *The Equity Shares have never been publicly traded and after the Issue, the Equity Shares may experience price and volume fluctuations and an active trading market for the Equity Shares may not develop, which may mean you may be unable to resell your Equity Shares at or above the Issue Price, or at all.***

There has been no public market for the Equity Shares of our Company prior to this Issue and an active trading market for the Equity Shares may not develop or be sustained after this Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Furthermore, the price at which the Equity Shares are initially traded may not correspond to the prices at which the Equity Shares will trade in the market subsequent to this Issue.

The Issue Price of the Equity Shares is proposed to be determined by the Company in consultation with the Lead Manager and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may fluctuate after this Issue as a result of several factors, including volatility in the Indian and global securities markets, the results of our operations, the performance of our competitors, developments in the automotive industry and changing perceptions in the market about investments in general and our Company including adverse media reports on us or changes in the estimates of our performance or recommendations by financial analysts.

There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could mean that you may be unable to resell your Equity Shares at or above the Issue Price, or at all.

## ***52. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as whether STT is paid, the quantum of gains and any available treaty exemptions. Furthermore, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India.

Furthermore, if non-resident shareholders of entities holding the Equity Shares exit by way of sale or redemption of the shares held by them, such non-resident shareholders could be taxed on capital gains in India if the offshore shares derive substantial value from Indian assets, subject to certain exemptions.

Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident read with the Multilateral Instrument (“MLI”), if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

No dividend distribution tax is required to be paid in respect of dividends declared, distributed, or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. Furthermore, provisions of the MLI have effect on India’s tax treaties, including tax rates specified therein, from Fiscal 2021 onwards where the other country has also ratified the MLI and notified the relevant tax treaty as a Covered Tax Agreement.

General Anti-Avoidance Rules (“GAAR”) seeks to deny the tax benefit to any arrangement, whose main purpose is to obtain a tax benefit, subject to the satisfaction of certain tests. If GAAR provisions are invoked, the tax authorities have wide powers, including cancellation of a proposed transaction or ignoring the impact of a transaction undertaken by the company, denial of tax benefit under the IT Act, denial of a benefit available under a tax treaty, etc.

Similarly, any business income realized from the transfer of Equity Shares held as trading assets is taxable at the applicable tax rates subject to any treaty relief, if applicable, to a non-resident seller.

Furthermore, the Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our Company’s business and operations.

Our Company cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our Company’s business, results of operations, financial condition and cash flows.

**53. Any future issuance of Equity Shares or convertible securities or other equity linked instruments by us may dilute your shareholding, and significant sales of Equity Shares by our Promoters or major Shareholders, may adversely affect the trading price of the Equity Shares.**

Any future equity issuances by us, including a primary offering or convertible securities or other equity linked instruments, may lead to the dilution of investors' shareholdings in our Company and may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences for us including difficulty in raising debt-financing. In addition, any perception by investors that such issuances or sales might occur may also affect the trading price of our Equity Shares. Additionally, the disposal, pledge, or encumbrance of the Equity Shares by any of our Promoters or the perception that such transactions may occur, may affect the trading price of the Equity Shares. There can be no assurance that we will not issue further Equity Shares or that our Promoters will not dispose of further Equity Shares after the completion of the Issue (subject to compliance with the lock-in provisions under the SEBI (ICDR) Regulations) or pledge or encumber their Equity Shares.

**54. You will not be able to sell any of the Equity Shares you purchase in the Issue on the Stock Exchanges until the Issue receives the appropriate trading approvals.**

The Equity Shares will be listed on BSE Limited. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant and listing is expected to commence within the period as may be prescribed under applicable law. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose their Equity Shares. We cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods prescribed under law.

**55. The requirements of being a listed company may strain our resources.**

The requirements of being a listed company may strain our resources. We are not a listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance, and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (LODR) Regulations which will require us to file audited annual and unaudited half-yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

**56. Foreign investors are subject to foreign investment restrictions under Indian law, which may adversely affect the market price of the Equity Shares.**

Under the exchange control regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the exceptions specified by the RBI, then the approval of the RBI will be required. Additionally, shareholders who seek to convert the Indian Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the Indian income tax authority. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all.

Furthermore, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the GoI, as prescribed in the Consolidated FDI Policy and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular term or at all.

For further information, see "Restrictions on Foreign Ownership of Indian Securities" on page 232 of this Prospectus.

***57. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India is required to offer holders of its Equity Shares pre-emptive rights to subscribe and pay for a proportionate number of Equity Shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the Equity Shares who have voted on such resolution. However, if the laws of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, you may suffer future dilution of your ownership position and your proportional interests in us would be reduced.

#### Global Economic Overview

##### Introduction

Global activity is forecast to expand 4 percent in 2021, below previous expectations amid a sharp resurgence of new COVID-19 cases. Global growth is expected to strengthen over the forecast horizon as pandemic-related disruptions fade and as vaccination continues. In emerging market and developing economies (EMDEs), the recovery will be uneven, with a strong rebound in China and softer-than-expected growth across most other economies as the pandemic's lingering effects continue to weigh on consumption and investment. The recovery could be even weaker than envisioned if downside risks materialize, which could exacerbate the losses in per capita income and increase in poverty. Policy makers can raise the likelihood of better outcomes while warding off worse ones through effective pandemic control and structural reforms that boost both productivity and environmental sustainability.

Global activity: Slower-than-expected recovery amid sharp resurgence of virus. Following a collapse last year caused by the COVID-19 pandemic, global activity is forecast to expand 4 percent in 2021. The global recovery, however, has been dampened in the near term by a resurgence of new COVID-19 cases, and the majority of country forecasts have been downgraded in the last six months. Global economic activity is expected to firm over the forecast horizon as confidence, consumption, and trade gradually improve, supported by ongoing vaccination. The materialization of a number of downside risks—including a worsening of the virus, delays in vaccine procurement and distribution, and financial stress amid high debt levels—could derail the projected global recovery. Even if the recovery proceeds as envisioned in the baseline scenario, global output is expected to remain 4.4 percent below pre-pandemic projections by 2022.

EMDE growth: Uneven near-term recovery, subdued outlook. Although aggregate EMDE growth is envisioned to firm to 5 percent in 2021 and to moderate to 4.2 percent in 2022, the improvement largely reflects China's expected rebound. Absent China, the recovery across EMDEs is anticipated to be far more muted, averaging 3.5 percent in 2021-22, as the pandemic's lingering effects continue to weigh on consumption and investment. The pandemic has also caused per capita incomes to fall in more than 90 percent of EMDEs, tipping millions back into poverty. For more than a quarter of EMDEs, the pandemic is expected to erase at least 10 years of per capita income gains—and, in about two-thirds of EMDEs, per capita incomes are projected to be lower in 2022 than they were in 2019. The pandemic has impeded future prospects for poverty reduction by adversely affecting longer-term productivity growth—the deterioration in confidence has dampened investment, and the loss in learning-adjusted school years and prolonged spells of unemployment have eroded earlier gains in human capital.

### Introduction

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022–23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

### Market size

India's nominal gross domestic product (GDP) at current prices is estimated to be at ₹232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

### Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.

- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 7.41% in September 2022.
- In FY 2022-23, (until October 28, 2022), Foreign Portfolio Investment (FPI) outflows stood at ₹58,762 crore (US\$ 7.13 billion).
- The wheat procurement in Rabi 2021-22 and the anticipated paddy purchase in Kharif 2021-22 would include 1208 lakh (120.8 million) metric tonnes of wheat and paddy from 163 lakh (16.7 million) farmers, as well as a direct payment of MSP value of ₹2.37 lakh crore (US\$ 31.74 billion) to their accounts.

## Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, are aimed at creating immense opportunities in India. ## Road Ahead

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signalling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

**Note:** Conversion rate used for December 2020 is ₹1 = US\$ 0.014

## Ceramic Industry In India

### Introduction

Ceramic Tiles today have become an integral part of home improvement. It can make a huge difference to the way your interiors and outdoors look and express. The Indian tile industry, despite an overall slowdown of the economy continues to grow at a healthy 15% per annum. Investments in the last 5 years have aggregated over Rs. 5000 crores.

The Indian tile industry is divided into organized and unorganized sector. The organized sector comprises of approximately 14 players. The current size of the organized sector is about Rs 7,200 Crores. The unorganized sector accounts for nearly 60% of the total industry bearing testimony of the growth potential of this sector.

India ranks in the top 3 list of countries in terms of tile production in the world. With proper planning and better quality control our exports (presently insignificant) contribution can significantly increase.

### Current status of the Industry

The ceramic tiles industry in India has followed similar trends internationally which have been characterized by excess capacities and falling margins. Countries like Malaysia, Thailand, Indonesia, Sri Lanka and Vietnam are setting up their own plants. China has emerged as a major competitor. Producers from Spain and Italy have the advantage of lower transportation costs while exporting to USA and Germany. In India, the per capita consumption is as low as 0.50 square meters per person compared to China (2.6 square meters per person), Europe (5 to 6 square meters per person) or Brazil (3.4 square meters per person). Rising disposable incomes of the growing middle class and 40 million units of housing shortage hold out a great potential.

A major change that took over the ceramic tiles industry, was the introduction of vitrified and porcelain tiles. These new entrant product types are said to be the tiles of the future. Internationally these tiles are already the major sellers. These categories of products account for almost 50% of total tile sales by value in this industry. These new products and the conventional wall & floor tiles have together made the organized industry grow to a formidable Rs. 7,200 crores industry. This coupled with a spate of expansions by many players make the industry look very promising in the future.

The Indian Industry has developed an export market although at the lower end. In volume it constitutes less than half a percent of the global market. (Presently India does not figure in the list of major exporting countries). But this reality could change as Indian exports are rising at an accelerating growth annually. The top-end of the global export market is presently dominated by China (36.8%) and Italy (15.1%)

## Key demand drivers for Tiles industry

**Housing sector – Housing shortage:** According to Ministry of Housing and Urban Affairs, there was an affordable housing shortfall of approximately 10 million houses. With the government addressing this housing shortage, the ceramic tile industry is expected to receive huge traction.

**Per capita consumption:** The per capita consumption of tiles in 2018 was a mere 0.59 sq. metres in India compared to 3.95 sq. metres in China and 3.39 square metres in Brazil and the global average of 1.40 sq. metres, indicating the huge headroom of growth available.

**Home extension and home improvement needs:** In 2011, 41% of households were living in less than one-room homes and 53% households were in a good condition, implying a need for home improvement and home extension. Owing to this increasing growth in home extension, the ceramic tiles and sanitaryware industry has seen a sea change.

**Hotel sector Hotel growth:** The hotel industry in India is projected to grow to Rs 1,210.9 billion by 2023, expanding at a CAGR of ~13% between 2018 and 2023, on the back of high arrival rate of foreign tourists and business delegates once the world normalises.. This could further boost the ceramic tile and sanitaryware market in the country.

**Commercial sector Office space:** According to a Knight Frank India report, the country's office leasing volume rose by 27% y-o-y to an all-time high of 60.6 million sq ft in 2019 on the back of a surge in leasing activity by [information technology](#) companies. This has helped boost the ceramic tiles and sanitaryware market in the country.

**Shopping malls:** India is set to >65 million sq ft of new mall spaces by the end of 2022, of which the top 7 cities comprise 72% share and the remaining 28% or 18.2 million sq ft is slated to come up in Tier 2 and 3 cities. This could widen the ceramic tile and sanitaryware market in the near future.

## Policy Related to Tiles Industry in India

**Pradhan Mantri Awas Yojana (PMAY-Urban):** Under this initiative, the Government aims to build 1 Crore houses by 2022, of which ~104 Lakh houses were sanctioned till date and >32 Lakh houses completed. This will drive the demand of tiles in the country for the next few fiscals.

**Pradhan Mantri Awas Yojana (PMAY-Gramin):** In the second phase of PMAY-Gramin, the Government assured to provide 1.95 Crore houses to eligible beneficiaries between 2019-20 and 2021-22 with amenities such as LPG, electricity, and toilets. This could boost the demand for ceramic tiles in the near future.

## Market size

Ceramic tiles as a product segment has grown to a sizeable chunk today at approximately 680 Millions Square meters production per annum. The key drivers for the ceramic tiles in India are the boom in housing sector coupled by government policies fuelling strong growth in housing sector. The retail boom in the Indian economy has also influenced the demand for higher end products. The main product segments are the Wall tile, Floor tile, Vitrified tile and Industrial tile segments. The market shares (in value terms) are 20%, 23% 50%, and 7% respectively for Wall, Floor, Vitrified, and Industrial tiles. The industry also enjoys the unique distinction of being highly indigenous with an abundance of raw materials, technical skills, infrastructural facilities despite being fairly capital intensive. A total of over 5,50,000 people are employed in the sector. Out of this, 50,000 people are directly employed and 5,00,000 are indirectly associated. The potential is huge considering the per capita consumption of ceramic tiles in India. Currently it is at 0.50 square meters per person in comparison to over 2 square meters per person for like countries like China, Brazil and Malaysia

### Government Initiatives

The real estate construction activity is also aided by the affordable housing segment, which has witnessed a pick-up in the recent years, driven by various Government initiatives and programmes. The key measures taken include - infrastructure status for the affordable housing segment, relaxation of eligibility criteria for tax exemption, developers brought under Section 80IBA and increase in allocation for the Pradhan Mantri Awas Yojana (PMAY) programme, which plans to build 1.12-crore houses by 2022. To match the expected growth in supply in the affordable segment, measures have also been taken by the Government to improve affordability for the end consumers, especially in the economically weaker section (EWS) and the lower income group (LIG) by providing a credit-linked subsidy.

Further, to improve the physical and social infrastructure across the cities of India, the Smart City Mission was launched in June 2015. The mission intends to provide core infrastructure to the citizens of the city in a sustainable, cleaner and smarter way, i.e. with the use of technology as much as possible. The Smart City Mission has a five-year horizon and will cover 100 cities. The mission will establish/create model cities that may be replicated within and outside the shortlisted smart cities, facilitating the creation of new cities on similar lines. Going forward, the domestic demand for tile will largely be dependent on the broad-based recovery in the residential real estate sector and success of Government initiatives like Housing for All by 2022, Smart Cities and Clean India programmes in the medium term. Moreover, the Government initiatives like Housing for All by 2022, Smart Cities and Clean India programmes will continue to support the tile demand in the medium term.

The total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).

For applications where the proportionate allotment works out to less than 2,000 equity shares the allotment will be made as follows:

Each successful applicant shall be allotted 2,000 equity shares; and

The successful applicants out of the total applicants for that category shall be determined by the draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of 2,000 equity shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of 2,000 equity shares subject to a minimum allotment of 2,000 equity shares.

If the Shares allocated on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.

Since present issue is a fixed price issue, the allocation in the net issue to the public category in terms of Regulation 253 of the SEBI (ICDR) Regulations, 2018 shall be made as follows:

Minimum of 50% of the net issue of shares to the Public (i.e. 11,08,000 Equity Shares) shall be made available for allotment to retail individual investors; and

The balance net issue of shares to the public (i.e. 11,08,000 Equity Shares) shall be made available for allotment to Non-Institutional Investors, including Qualified Institution Buyers, Corporate Bodies/ Institutions.

The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

Explanation: If the retails individual investor category is entitled to more than allocated portion on proportionate basis, the retails individual investors shall be allocated that higher percentage.

Our Company shall ensure that out of total allocated shares to the Category 'Non-Institutional Investors, including Qualified Institution Buyers, Corporate Bodies/ Institutions', at least 15% of net issue of shares to the public shall be allocated to Non- Institutional Bidders will be made at the Issue Price.

The Net Issue size less Allotment to Retail Investors shall be available for Allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 11,08,000 Equity Shares at or above the Issue Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 11,08,000 Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of 2,000 Equity Shares and in multiples of 2,000 Equity Shares thereafter.
