The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

This draft prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this draft prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Financial Statements prepared in accordance with Indian AS, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. *Some risks may not be material individually but may be material when considered collectively.*
2. *Some risks may have material impact qualitatively instead of quantitatively.*
3. *Some risks may not be material at present but may have a material impact in the future.*

INTERNAL RISK FACTOR:

1. ***Our Company, our Group Company, our Promoters and Directors are parties to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, result of operations and financial conditions.***

Our Company, our Group Company, our Promoters and Directors are parties to certain legal proceedings which are pending at different levels of adjudication before competent authority, appeals, tribunal and forums. We cannot assure you that these proceedings will be decided in favour of our Company, our Group Company, our Promoters or our Directors, as the case may be. Further, there is no assurance that similar proceedings will not be initiated against us, our Directors or Promoters in the future. Any adverse outcome in any of the below mentioned proceedings could have an adverse effect on our reputation and may affect our future business, prospects, financial condition and results of operations. It further may divert the attention of our management and promoters and waste our corporate resources. For details of these proceedings, see "Outstanding Litigation and Material Developments" on beginning from page 148 of this draft prospectus. Note: The amount mentioned above may be subject to additional interest, rates or Penalties being levied by the concerned authorities for delay in making payment or otherwise. In the absence of Order copy of the Income Tax Department, the nature, extents and status of the Cases cannot be ascertained.

2. *We operate in a highly-competitive and fragmented industry, and our business, results of operations and financial condition may be adversely affected if we are not able to compete effectively.*

The company operates in the highly competitive and fragmented printing and logistics services industries. The entry barriers in the business are low and numerous players operate in the industry. The company faces tough competition from a large number of unorganised and a few organized players. The margins of the company may be constrained in the future due to volatility in the price of raw materials and consumables and intense competition from new as well as established players.

Our future success depends on our ability to compete effectively, including by distinguishing our products, content or services from our competitors, by expanding our brands and titles, by providing higher quality content, expanding our distribution, sales and marketing forces, or by expanding our portfolio of digital products and educational services.

3. *Interruptions or performance problems associated with our technology and infrastructure may harm our business and results of operations.*

Our printing process may suffer a huge loss in form of wastage of our printing materials like paper, ink, manpower hours, due to interruption of power supply or machinery break down. Although there have not been instances in the past where interruptions or problems with our technology and infrastructure have caused performance issues which have material impact, we may in future experience disruptions, data loss, outages and other performance problems with our technology infrastructure due to a variety of factors, including infrastructure changes, introductions of new functionality, human or software errors, capacity constraints, denial of service, machinery break down, attacks or other security-related incidents. In some instances, we may not be able to identify the cause or causes of these performance problems within an acceptable period of time. It may become increasingly difficult to maintain and improve our performance, especially during peak usage times. To the extent that we do not effectively address capacity constraints, upgrade our systems as needed, and continually develop our technology and network architecture to accommodate actual and anticipated changes in technology, our business, results of operations and financial condition could be harmed.

4. *We are subject to certain government regulation and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business, our business and results of operations may be adversely affected.*

Our operations are subject to certain government regulation and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India, generally for carrying out our business. For details of approvals relating to our business and operations, see "Government and Other Approvals" on page 153. A majority of these approvals are granted for a limited duration and require renewal. Further, while we have applied for some of these approvals, we cannot assure you that such approvals will be issued or granted to us in a timely manner, or at all. We cannot assure you that we will be able to obtain such consent in a timely manner. If we do not receive such approvals or are not able to renew the approvals in a timely manner, our business and operations may be adversely affected. The approvals required by our Company are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

5. *The shortage or non-availability of power and water facilities may adversely affect our printing process and have an adverse impact on our results of operations and financial condition.*

Our printing processing unit requires substantial amount of power and water. Currently our power requirement is fulfilled by the supply from Mumbai State Electricity Board. Further, our company has also installed diesel generator to meet exigencies at our facility. However, we can't assure that our facility will be operational during the power failure. Further we source our water requirement from the supply received from Navi Mumbai Municipal Corporation. We have not made any alternate arrangements for supply of water at our facilities. Any disruption/non availability of power or water or any failure on our part to arrange alternate source of electricity and water supply, in a timely manner and at acceptable cost shall directly affect our process which in turn shall have an impact on our operations and results of our company.

6. *We rely on third party logistic providers, with whom we have no formal arrangements. Any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition.*

We rely on third party logistic providers and consequently, any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition. There are a limited number of such logistic providers and in the absence of a formal arrangement, we are exposed to fluctuations in transportation costs. Also, if the terms offered to such logistic providers by our competitors are more favourable than those offered by us, they may decline to provide their services to us and terminate their arrangements with us. We may also be affected by transport strikes, which may affect our delivery schedules. If we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, results of operations and financial condition may be adversely affected.

7. *Our business and results of operations are dependent on the contracts, including certain short-term contracts that we enter into with our customers. Any breach of the conditions under these contracts may adversely affect our business and results of operations*

We have entered into some short-term as well as long-term contracts/ master service agreements with our customers which, depending on the customer, may contain certain terms and conditions. Any dispute with a customer with respect to such obligations could have adverse effects on our relationship with that customer and other current and prospective customers, reduce demand for our products, damage our reputation and harm our business, results of operations and financial condition. While we internally consider all such factors prior to entering into these contracts, we cannot assure you that we will be able to continue to enter into similar such contracts in the future, which are not more onerous than the contracts we enter into currently. Additionally, non-compliance with the terms of our contracts, including breach of confidentiality provisions, may subject us to damages or penalties, lead to termination of the contracts and also result in us being unable to attract further business in the future.

8. *Our business is dependent on developing and maintaining continuing relationships with our clients and customers. The loss of any significant client or customer could have a material adverse effect on our business, financial condition and results of operations.*

Our business is dependent on developing and maintaining a continuing relationship with our key clients and customers. In the event of a significant decline in the demand for our products or services by our key clients, our business, results of operations and financial condition may be materially and adversely affected. There can be no assurance that we will be able to maintain the historic levels of business from these clients and customers or that we will be able to replace these clients in case we lose any of them.

9. *The industry in which we operate, is labour intensive and our operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.*

The industry in which we operate being labour intensive depends on labour force for carrying out its activity. Although we have not experienced any labour unrest, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any labour unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business, results of operations and financial condition.

10. *We have acquired M/s. Pansecure Record Storage Management LLP in 2018, and any failure in achieving the expected benefits from such acquisition, could have an adverse material effect in our business, results of operation, cash flows and financial condition.*

We have acquired M/s. Pansecure Record Storage Management LLP in 2018 to improve and providing customized solutions for records, documents and files storage and management services. Our ability to realize the anticipated benefits of the LLP firm acquisition will depend, to a large extent, on our ability to integrate its business. The overall integration of the businesses may result in material unanticipated problems, expenses, liabilities, competitive responses, loss of customers and other business relationships. As a result, we will be required to devote significant management attention and resources to integrate our business practices and operations with LLP. The integration process may disrupt other businesses and, if implemented ineffectively, would restrict the realization of the full expected benefits. Our failure to meet the challenges involved in integrating LLP and to realize the anticipated benefits of the transaction could cause an interruption of, or a loss of momentum in, the activities of the combined businesses and could adversely affect our business, results of operation, cash flows and financial condition.

11. *Our Group company did not change its Object Clause in MOA.*

Our current promoter has acquired M/s. Dynamic Superways And Exports Limited (Dynamic) in the year 2007. Dynamic was incorporated to act as Registrar to an Issue/Share transfer agent and registered with SEBI had surrender its certificate of registration as RTI/STA and the said certificate was cancelled with effect from 29/12/2004. But the company (Dynamic) has not changed its object clause in MOA, while the business activity of the company has been changed. There is no assurance that any proceedings will not be initiated against the company, its Directors or Promoters in the future.

12. *Our Registered Office and other premises from where we operate are not owned by us*

None of our business premises is owned by us. Our Registered office, Corporate Office and other business premises are taken on rental agreement basis. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. For further details, see section "Our Business" on page 65 of this draft prospectus. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

13. Government initiative for Digitization and going paperless could have negative impact on us.

We are working with many mutual fund, Credit Card and Banking companies for supply of statement on monthly or periodically basis. Government thrust and awareness to such industry for going paperless could have a negative impact on our results of operations and financial condition. However, we are also updating ourselves and adding new line of business/features/products in our segment, we can't assure that we could retain our financial progress and growth in near future also.

14. Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(Rs. in Lakhs)

Particulars	31-12-2019	31-03-2019	31-03-2018	31-03-2017
Net cash from operating activities	112.29	127.85	36.86	-28.36
Net Cash (used in) / from investing activities	-8.49	-224.76	-93.00	-130.27
Net Cash used in financing activities	-114.03	90.75	94.55	160.65
Net increase/(decrease) in cash and cash equivalent	-10.22	-6.16	38.42	2.01

15. Our Company's insurance coverage to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work may not be sufficient.

Our Company has insured itself against some business or operational risks. But we cannot assure you that these would be sufficient to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work. Any excess loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected.

16. We do not have long term agreements with suppliers of raw material and an increase in the cost of or a shortfall in the availability of raw materials could have an adverse effect on our business, results of operations and financial condition.

The price and availability of raw materials depend on several factors beyond our control, including overall economic conditions, production levels, market demand and competition for such material, production and transportation cost, duties and taxes and trade restrictions. We usually do not enter into long term supply contracts with any of the raw material supplier and typically place orders with them in advance for our anticipated requirements. The absence of long-term contracts at fixed prices exposes us to volatility in the prices of raw material that we require and we may be unable to pass these costs onto our customers. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure the raw material from alternate suppliers in a timely fashion, or on terms acceptable us, may adversely affect our operations and our financial performance.

17. We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

18. The improper handling of our products, raw materials, or spoilage of and damage to such materials, or any real or perceived contamination/inferiority in raw materials, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.

Any shortcoming in the production or supply of our product due to negligence, human error or otherwise, may damage our products and result in non-compliance with applicable regulatory standards. Any allegation that our raw material are of inferior quality resulting in inferior output could damage our reputation, adversely affect our sales and result in legal proceedings being initiated against us, irrespective of whether such allegations have any factual basis.

19. Our inability to expand or effectively manage our growing customer groups may have an adverse effect on our business, results of operations and financial condition.

We have our own sales network and marketing team. To sell our products and services to our end consumers, we use modern trade channels. Our ability to expand and grow our product reach significantly depends on the reach and effective management of our sales network. We continuously seek to increase the penetration of our product into different customer groups. We cannot assure you that we will be able to successfully identify new consumers. Due to this our business and results of operations may be adversely affected.

20. Our actual results could differ from the estimates and projections used to prepare our financial statements.

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

21. Our Company not made any application for registration of trademark yet. We are taking steps to apply for the registration of the Trademark in the near future. We are unable to assure you that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.

We have not made any application with 'The Registrar of Trade Marks, Trade Marks Registry' for registration of trademark of our logo . We are taking steps to apply for the registration of the Trademark in the near future as the registration for the said trademark in our name is important to retain our brand equity. If our application for registration is not accepted or if any oppositions filed against our trademark application are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our future application would be granted registration or will not be challenged or if granted registration, will not be invalidated or circumvented or will offer us any meaningful protection. We are unable to assure that the future viability or value of any of our intellectual property or that the steps to be taken by us to protect the proprietary rights of our Company will be adequate. For further details of our trademarks, please see "Government and Other Approvals" on page 153 of this draft prospectus.

22. We have entered into certain related party transactions and may continue to do so.

We have entered into related party transactions with our Promoters, its group members/ entities, Directors and other associates. While we believe that all such transactions have been conducted on arm's length basis, however it is difficult to ascertain whether more favourable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we will continue to enter into related party transactions in the near future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For further details regarding the related party transactions, see the disclosure on related party transactions contained in the financial statements included in this draft prospectus and, also see the section "Related Party Transactions" on page no. 137 of this draft prospectus.

23. Noncompliance with and changes in, safety, health and environmental laws and other applicable regulations, may adversely affect our business, results of operations and financial condition.

We are subject to laws and government regulations, including in relation to safety, health and environmental protection. We cannot assure you that we will not be involved in future litigation or other proceedings, or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which may be significant. Any accidents at our facilities may result in personal injury or loss of life resulting in the suspension of operations. The loss or shutdown of our operations over an extended period of time could have an adverse effect on our business and operations.

24. Our business and prospects may be adversely affected if we are unable to maintain and grow our brand image.

Our brand and its reputation are among our most important assets and we believe our brands serve in attracting customers to our product in preference over those of our competitors. We also believe that continuing to develop awareness of our brand, through focused and consistent branding and marketing initiatives, among retail consumers, is important for our ability to increase our sales volumes and our revenues, grow our existing market share and expand into new markets. Consequently, any adverse publicity involving us, or any of our products may impair our reputation, dilute the impact of our branding and marketing initiatives and adversely affect our business and our prospects.

25. If we are unable to raise additional capital, our business prospects could be adversely affected.

We intend to fund our development plans through our cash on hand, cash flow from operations and from the Net Proceeds. We will continue to incur significant expenditure in maintaining and growing our existing infrastructure. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our cash on hand and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

26. Any delay or default in client payment could result in the reduction of our profits.

Our operations involve extending credit for extended periods of time to our certain customers and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. As a result of such industry conditions, we have and may continue to have high levels of outstanding receivables. If our customers delay or default in making these payments, our profits margins could be adversely affected.

27. The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue Price.

The average cost of acquisition of Equity Shares by our promoter is lower than the issue price. However, the promoters have acquired all the shares in face value, but due to allotment of Bonus shares, there acquisition price has gone below the face value.

Sl. No.	Name of the Promoter	No. of Equity Shares Held	Avg. Cost of Acquisition (In ₹ per Equity Share)
1	Mr. Dinesh Muddu Kotian	29,66,520	1.67
2	Mr. Santhosh Muddu Kotian	30,000	1.67

The average cost of acquisition of Equity Shares by our Promoters has been calculated by taking into account the amount paid by them to acquire, by way of fresh issuance or bonus issue and conversion of outstanding loan, the Equity Shares less amount received by them for the sale of Equity Shares through transfer, if any and the net cost of acquisition has been divided by total number of shares held as on date of the draft prospectus.

28. The Promoters and Directors hold Equity Shares in our Company and are therefore interested in our Company's performance in addition to their remuneration and reimbursement of expenses.

Certain of our Directors (including our Promoters) are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see "Our Management – Interest of Directors" and "Our Promoters, Promoter Group and Group Companies – Interest in our Company" on pages 94 and 107, respectively.

29. We are dependent on a number of key personnel, including our senior management, and the loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.

Our performance depends largely on the efforts and abilities of our senior management and other key personnel. We believe that the inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic directions taken by our Company. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an adverse effect on our business and our results of operations. The continued operations and growth of our business is dependent upon our ability to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified personnel with relevant industry expertise in India is intense. A loss of the services of our key personnel may adversely affect our business, results of operations and financial condition.

30. Certain relevant copies of education qualification and experience certificates of our promoters/Directors are not traceable.

Relevant copies of education qualification and experience certificates of some of our promoters/Directors are not traceable. We can't assure you that back-ups for the relevant copies of educational qualifications will be available in a timely manner or at all. We have relied on personal undertakings provided from them.

31. Our Company has availed certain unsecured loans that are recallable by the lenders at any time.

Our Company had availed certain unsecured loans and may continue to do so in future that are recallable on demand by the lenders. In such cases, the lender is empowered to require repayment of the facility at any point in time during the tenor. In case the loan is recalled on demand by the lender and our Company is unable to repay the outstanding amounts under the facility at that point, it would constitute an event of default under the respective loan agreements. For further details, please refer chapter titled "Financial Indebtedness" beginning on page 141 of this draft prospectus.

32. Our funding requirements and the proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised.

Our funding requirements and the proposed deployment of the Net Proceeds are based on management estimates and is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies, and have not been appraised by an independent entity. In the absence of such independent appraisal, or the requirement

for us to appoint a monitoring agency in terms of the SEBI Regulations, the deployment of the net proceeds is at our discretion. We cannot assure you that we will be able to monitor and report the deployment of the Net Proceeds in a manner similar to that of a monitoring agency. Further, we may have to revise our expenditure and funding requirements as a result of variations in costs, estimates, quotations or other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling planned expenditure and funding requirements at the discretion of our Board. Additionally, various risks and uncertainties, including those set out in this “Risk Factors” section, may limit or delay our Company’s efforts to use the Net Proceeds and to achieve profitable growth in our business.

33. *Our Promoters and Promoter Group will continue to retain control over our Company after completion of the Issue, which will allow them to influence the outcome of matters submitted for approval of our shareholders.*

Post completion of the Issue, our Promoters and Promoter Group will continue to hold approximately 71.11% of our post-Issue Equity Share capital. As a result, they will have the ability to significantly influence matters requiring shareholders approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders’ meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any assignment or transfer of our interest in any of our licenses. We cannot assure you that our Promoters will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business.

34. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.*

Any future equity issuances by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

35. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue price is based on numerous factors. For further information, see the chapter titled “Basis for Issue Price” beginning on page no. 54 of this draft prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

36. *Any future acquisitions, joint ventures, partnerships, strategic alliances, tie-ups or investments could fail to achieve expected synergies and may disrupt our business and harm our financial condition and operating results.*

Our success will depend, in part, on our ability to expand our business in response to changing technologies, customer demands and competitive pressures. We have, in the past, explored and continue to explore opportunities on our own, or through tie-ups, acquisitions, strategic alliances, partnerships or joint ventures across countries and regions of focus. In some circumstances, we may also decide to acquire, or invest in, complementary technologies instead of internal development. While we are currently evaluating opportunities and speaking to several potential partners, we have not entered into any definitive agreements in relation to this. Further, the identification of suitable acquisition can be difficult, time-consuming and costly, and we may not be able to successfully complete acquisitions that we target in the future. The risks we face in connection with acquisitions may include integration of product and service offerings, co-ordination of R&D and sales and marketing functions and the diversion of management time and focus from operating our business to addressing acquisition integration challenges. Our failure to address these risks or other problems encountered in connection with our acquisitions and investments could cause us to fail to realise the anticipated benefits of these acquisitions or investments, cause us to incur unanticipated liabilities, and harm our business generally.

37. *Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.*

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/

salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

EXTERNAL RISK FACTORS

1. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. Public companies in India, including our Company, shall be required to prepare financial statements under Indian Accounting Standards.

Our Company currently prepares its annual financial statements under Indian GAAP. The MCA, Government of India, has, through a notification dated February 16, 2015, set out the Indian Accounting Standards (Ind AS) and the timelines for their implementation. In accordance with such notification, our Company may be required to prepare its financial statements in accordance with Ind AS in future. Ind AS is different in many aspects from Indian GAAP under which our financial statements are currently prepared. Accordingly, the degree to which the restated financial statements included in the draft prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the draft prospectus should accordingly be limited.

4. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

5. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

6. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the draft prospectus.

While facts and other statistics in the draft prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective

affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Industry Overview*” beginning on page 58 of this draft prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

7. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

8. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non- residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

9. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India’s physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company’s normal business activity. Any deterioration of India’s physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company’s business operations, which could have an adverse effect on its results of operations and financial condition.

10. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India’s credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

11. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

12. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India’s economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company’s business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Depreciation and Amortization Expense: The Depreciation and Amortization Expense for 2017-18 has increased to ₹40.89 Lacs as against ₹26.57 Lacs in the FY 2016-17. The increase in depreciation was mainly due to addition of new assets during the period.

Profit/ (Loss) Before Tax: Profit before and Tax for FY 2017-18 has increased to ₹88.12 Lacs as against ₹43.64 Lacs in the FY 2016-17. The increase in profit before tax was 101.92% due to increase in sales volumes thereby absorbing our fixed cost.

Profit/ (Loss) After Tax: The restated Profit after Tax for FY 2017-18 has increased to ₹64.79 Lacs as against ₹28.95 Lacs in the FY 2016-17. The increase in profit after tax was 123.80% due to increase in sales volumes thereby absorbing our fixed cost and reducing of corporate tax rate for the FY 2017-18.

An analysis of reasons for the changes in significant items of income and expenditure is given hereunder:

1. *Unusual or infrequent events or transactions*

Except as described in this Draft Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent
