SUMMARY OF ISSUE DOCUMENT

SUMMARY OF BUSINESS

Our Company is engaged in the business of trading printed fabrics, kaftan and Voil which we process through established job work arrangements and trading of Agriculture products. The Company policy was to make the quality product and deliver the product on time. Initially the Company was buying the grey fabrics from the Triupur and hand over to the printers in the Jetpur to get it printed as per our design and requirements. However the Grey fabrics purchased from various suppliers are hand over to printers for the printing work and any report regarding shrinkage and less weight in the grey fabrics create dispute between the suppliers. In order to avoid such problems and for smooth running, the Company had decided to get the printed finished fabrics from the Job Workers after supplying grey fabric from triupur. The Grey fabric supplier send the grey fabric to the printer on our behalf and payment was made by us. The designs are supplied by the Company after getting feedback from the market regarding the current trend and future demand of particular designs to the printer. The grey fabric which company is purchasing is above 140 to 190 GSM.

SUMMARY OF INDUSTRY

The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20, according to the provisional estimates of GDP released on May 31, 2022. Real GDP growth in FY 2021-22 stands at 8.7%, which is 1.5% higher than the real GDP in FY 2019-20. These figures are associated with stronger growth momentum, indicating increased economic demand. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters. Moreover, capacity utilisation in the manufacturing sector rose in the fourth quarter, as against the third quarter, implying a build-up in demand, which is consistent with the growth objectives of the Indian economy.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's GDP is expected to grow at a strong rate of 7.4% in FY2022–23, the highest among major nations, according to International Monetary Fund (IMF). The IMF's prediction is supported by the strong performance of a few high-frequency indicators over the first four months of FY 2022–23. While the PMI manufacturing index reached an eight-month high in July 2022 with significant increases in the growth of new businesses and output, the index of industrial production and its eight core industries indicate a strengthening of industrial activity. The release of suppressed demand, the ease of mobility restrictions, and nearly universal vaccine coverage have helped the services sector, which was most negatively affected by the COVID-19 pandemic, become a significant growth engine.

INDIA ECONOMY

The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20, according to the provisional estimates of GDP released on May 31, 2022. Real GDP growth in FY 2021-22 stands at 8.7%, which is 1.5% higher than the real GDP in FY 2019-20. These figures are associated with stronger growth momentum, indicating increased economic demand. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters. Moreover, capacity utilisation in the manufacturing sector rose in the fourth quarter, as against the third quarter, implying a build-up in demand, which is consistent with the growth objectives of the Indian economy.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's GDP is expected to grow at a strong rate of 7.4% in FY2022–23, the highest among major nations, according to International Monetary Fund (IMF). The IMF's prediction is supported by the strong performance of a few high-frequency indicators over the first four months of FY 2022–23. While the PMI manufacturing index reached an eight-month high in July 2022 with significant increases in the growth of new businesses and output, the index of industrial production and its eight core industries indicate a strengthening of industrial activity. The release of suppressed demand, the ease of mobility restrictions, and nearly universal vaccine coverage have helped the services sector, which was most negatively affected by the COVID-19 pandemic, become a significant growth engine.

the following key frequency indicators highlighted improved performances:

- Private consumption stood at 57.5% of the nominal GDP in FY 2021-22, indicating that it is becoming a macro growth driver.
- In July 2022, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 51.1
- PMI Services remained comfortably in the expansionary zone at 55.5 in July 2022.
- Rupee strength reached Rs. 79.9/US\$, as of 29 August 2022.
- In FY 2021-22, India received a total of US\$ 58.77 billion in foreign direct investment.
- As of 19 August 2022, India's foreign exchange reserves stood at US\$ 564.05 billion.
- According to RBI Bank credit stood at Rs. 121.49 trillion (US\$ 1.52 trillion) as of 17 June 2022.
- Credit to non-food industries stood at Rs. 121.05 trillion (US\$ 1.51 trillion) as of 17 June 2022.

Traditional sectors like handloom, handicrafts and small scale power loom units are the biggest source of employment for millions of people in rural and semi urban area. It provides direct and indirect employment and source of livelihood for millions of people including a large number of women and rural population. The sector has perfect alignment with Government's key initiatives of Make in India, Skill India, Women Empowerment and Rural Youth Employment.

In keeping with goal of making India's development inclusive and participative, the Government's central focus has been on increasing textile manufacturing by building the best-in-class manufacturing infrastructure, up gradation of technology fostering innovation, enhancing skills and traditional strengths in the textile sector. Some of the major initiatives and highlights are listed below:

Functions & Organisational Set-up:

The Ministry of Textiles is responsible for policy formulation, planning and development of the Textiles Industry. The Ministry is headed by Union Minister of Textiles a Secretary who is assisted by Hon'ble Minister of State for Textiles, Secretary (Textiles) and other Senior Officers of the Ministry.

Vision:

To achieve a pre-eminent global standing in manufacture and export of all types of textiles including technical textiles, jute, silk, cotton and wool and develop a vibrant handlooms and handicrafts sector for sustainable economic development and promoting and preserving the age old cultural heritage in these sectors.

Mission:

- To promote planned and harmonious growth of textiles by making available adequate fibers to all sectors.
- To modernise the industry through technological upgradation
- To develop capacity and skills of all textile workers

- To promote exports of textiles and clothing and handicrafts and increase India's share of world exports in these sectors.

Exports:

India is the 6th largest exporter of Textiles & Apparel in the world. The share of textile, apparel and handicrafts in India's total exports was 11.4% in 2020-21. India holds 4% share of the global trade in textiles and apparel.

India's textiles products, including handlooms and handicrafts, are exported to more than 100 countries. USA and EU-27 and UK, account for approximately 47% of India's textiles and apparel exports. The sector holds importance from the employment point of view as well. It provides direct and indirect employment and source of livelihood for millions of people including a large number of women and rural population.

Export details of Textiles & Apparel are as under:

- During 2020-21, Readymade Garments (RMG) accounted for almost 37% of the total textile and clothing exports. Apart from this, major contributing segments in export are Cotton textiles (33.4%), Man-made textiles (12.5%), Carpet (4.5%) and Handicrafts excluding handmade carpets (5.7%).
- Exports of textile and Apparel products including handicrafts from India have decreased to US\$33.3 billion during the year 2020-21 from US\$ 36.9 billion during 2019-20, registering negative growth of 9.8%. The decline in exports has been mainly due to the ongoing global slowdown, which got aggravated due to the Covid-19 crisis. The latter resulted in large scale disruptions in supply chains and demand resulting in cancellation of orders. Other main reason for decline is differential tariff disadvantage to Indian textiles vis a vis competing nations like Bangladesh, Sri Lanka, Pakistan and Turkey in EU markets.
- The signs of recovery are visible during 2021-22. In Apr-Dec'21 (Provisional), total textile and apparel (T&A) exports is US\$ 30.45 bn as compared to US\$ 20.01 bn for the same period of last year. Growth of 52% signals an economic rebound.

Imports:

- India is a textile and apparel exporting country and enjoys huge trade surplus.
- Bulk of import takes place for re-export or for industrial requirement of raw material.
- Import of textiles and apparel products by India during April-Dec' 21 (provisional) has increased by 53% in comparison to corresponding period of 2020-21.

T&A Imports including handicrafts	7,549	8262	5,873	3,933	6,006
Change over same period in previous year		9.4%	29%		53%

Steps taken for enhancing exports:

Following steps are being taken by Government to enhance export:

Rebate of State and Central Taxes and Levies (RoSCTL): The scheme of Rebate of State and Central Taxes and Levies effective from March 2019 has been continued till 31st March 2024 for exports of Apparel/Garments (chapter 61 & 62) and made-ups (Chapter 63).

Remission of Duties and Taxes on Exported Products (RoDTEP): Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP) has been notified by Department of Commerce for reimbursement of Central, State and local level taxes/duties/levies, which are incurred in the process of manufacture and distribution of exported textile products covered under chapter 50-60. This will lead to cost competitiveness of exported products in international markets and better employment opportunities in export oriented manufacturing industries. The scheme is going to give boost to the domestic industry and Indian exports providing a level playing field for Indian producers in the International market so that domestic taxes/duties are not exported.

Production-Linked Incentive (PLI) Scheme: The Government has launched Production Linked Incentive (PLI) Scheme for Textiles, with an approved outlay of Rs 10683 crore over a five year period, to promote production of

MMF Apparel, MMF Fabrics and Products of Technical Textiles in the country to enable Textile sector to achieve size and scale and to become competitive. The Scheme has two parts; Part-1 envisages a minimum investment of Rs.300 crore & minimum turnover of Rs.600 crore per company; and Part-2 envisages a minimum investment of Rs.100 crore & minimum turnover of Rs.200 crore per company. There will be two years of gestation period under the Scheme (FY: 2022-23 and FY:2023-24). The incentive will be provided to the companies under the scheme on achieving the threshold investment and threshold turnover and thereafter incremental turnover.

Other Initiatives:

Participation in World Expo Dubai: Dubai World Expo 2020 which was inaugurated on 01.10.2021 in Dubai, UAE and would be continuing till 31.03.2022 is a global event. The Expo gives an opportunity in establishing stronger and constructive bonds among the textile manufacturers, investors, buyers, and Indian Government, thus opening new avenues of growth of the textile sector. The event also gives a centre stage of showcasing the unique cultural heritage and richness of Indian Textile Industry at the Global stage. Indian pavilion has the theme of Openness, Opportunity, and Growth.

Export Promotion Councils:

There are eleven Exports Promotion Councils (EPCs) representing various segments of the textiles & apparel value chain, viz. fiber, yarn, fabric, readymade garments of cotton, silk, jute, wool etc. These Councils work in close cooperation with the Ministry of Textiles and other Ministries to promote growth and export of their respective products/sectors in global markets.

Activities of EPCs:

- Participation international fairs/ exhibitions and standalone shows in India and overseas markets to showcase Indian textiles to enhance exports and access new markets.
- Publishing Newsletter by respective EPCs.
- Providing latest information on markets, policy developments/initiatives, news relating to exports, Government Notifications, overseas trade inquiries, fashion & technology developments.
- Setting targets and goals for current as well as short term/long term future. Further they are involved in formulating strategy for fulfilment of export goals.

(Source: Ministry of Textile, Annual Report 2021-22)

The Commodity Divisions of Department of Commerce have held regular review meetings with the concerned EPCs under their jurisdiction.

Thus, notwithstanding the challenges posed by successive waves of Covid, India's merchandise trade performance has shown impressive growth and exports remained above USD 30 Billion for eleven consecutive months (likely to be twelve consecutive months at the end of March) during April to February wherein December 2021 in particular recorded the highest ever monthly merchandise exports recorded at USD 39.3 billion.

Engineering goods exports have gone up by nearly 50% vis-à-vis last year. Higher engineering exports, apparel and garment export, etc. indicate that the misconception of India being a major exporter of primary commodities is gradually changing. We are now exporting more and more value added and high end exports and this effort by our technology driven industries should continue. Export of Cotton Yarn/Fabrics/Made-ups, Handloom Products etc, Gems and Jewellery, Other Cereals and Man-Made Yarn/Fabrics./Made-up etc. have registered a growth rate between 50%-60%.

Agriculture sector has made noteworthy progress, especially during the pandemic, with India emerging as a major global supplier of food / essential agriculture products. Agriculture exports buoyancy is driven by commodities such as rice (both basmati and non-basmati), marine products, wheat, spices and sugar, among others, recording the highest ever agricultural products export in 2021-22.

Till 21st March 2022, Australia, Taiwan, Korea Rp, Bangladesh Pr, Poland, Brazil, Indonesia, Belgium, Saudi Arab, Turkey, Italy, Japan, Canada, U S A, South Africa, Netherland, Nigeria, Egypt and Mexico are the major countries which have achieved more than the export target. The Major Countries Thailand, Israel, Nepal, Vietnam Soc Rep, China, France and Sri Lanka Dsr which have achieved between 90% to 100% of total export target.

Till 21st March 2022, Organic & Inorganic Chemical, Other Cereals, Petroleum Products, Cotton Yarn/Fabrics/Made-ups, Handloom Products Etc., Mica, Coal and Other Ores, Minerals Including Process, Engineering Goods and Plastic and Linoleum are the major Commodities which have achieved more than the export target.

The Major Commodities Rice, Marine Products, Jute Mfg. Including Floor Covering, Carpet, Cereal Preparations and Miscellaneous Processed Item, Electronic Goods, Coffee, Gems And Jewellery and Handicrafts Excl. Hand Made which have achieved between 90% to 100% of the total export target.

The government has been working round the clock to provide a conducive environment and infrastructure for our industry and exporters to enhance their export performance. Policies and schemes aligned with the goal are being introduced and implemented for their benefit.

The smooth roll out of RoDTEP and ROSCTL even in the midst of the pandemic reflects the strong resolve of the government to walk the talk. The Interest Equalisation Scheme has been extended to exporters and is likely to benefit a large number of MSME exporters.

The CIN of the Company is U51909GJ2016PLC085610.

Our Company was incorporated in the year 2016 and the promoters of our Company are Mr. Anil Runthala and Ms. Harsha Sharma who have an experience of about decades in textile industry. They have a wide experience in textile industry and have been instrumental in determining the vision, growth and strategies for our Company. We believe that our market position has been achieved by adherence to the vision of our Promoters and well supported by qualified &experienced management at different levels with appropriate functional responsibilities.

Our Company is engaged in the business of trading printed fabrics, kaftan and Voil which we process through established job work arrangements and trading of Agriculture products. The Company policy was to make the quality product and deliver the product on time. Initially the Company was buying the grey fabrics from the Triupur and hand over to the printers in the Jetpur to get it printed as per our design and requirements. However the Grey fabrics purchased from various suppliers are hand over to printers for the printing work and any report regarding shrinkage and less weight in the grey fabrics create dispute between the suppliers. In order to avoid such problems and for smooth running, the Company had decided to get the printed finished fabrics from the Job Workers after supplying grey fabric from triupur. The Grey fabric supplier send the grey fabric to the printer on our behalf and payment was made by us. The designs are supplied by the Company after getting feedback from the market regarding the current trend and future demand of particular designs to the printer. The grey fabric which company is purchasing is above 140 to 190 GSM.

Our Promoters are experience in textile business on account of family business and having knowledge of manufacturing, marketing and finance.

We focus on smooth processing and quality of our product to increase our customer satisfaction and develop a positive brand image in the industry. Our management team have enable us to maintain good customer relations and ensuring order flows. Promoters having experience in industry has maintained close relations with our suppliers and tries to strengthen the same.

The company has expanded the business in the year 2017-18 our company have opened branch office in Ludhiana and started trading of knitted clothes which we process through established job work arrangements and gradually started trading of readymade Garments in the domestic as well as international market. Initially we buy yarn and get it processed with third parties, In order to maintain the quality and smooth delivery of goods the promoter have set up factory with known brand machines for knitting and dyeing under one roof and started manufacturing of T-shirts (Round, V-neck and Polo T-shirt), Track Pants, Hoodies and body warmers.

In the FY 2020-21 the spread of Covid -19 has been hard-hitting for apparels and knitwear industries in Ludhiana due to migration of labor, order cancellation, unavailability of raw material, etc which had affected our company due to which promoter has taken a decision to shut down the factory and diversify the business and restarted trading in Agriculture products and in new field of Bullion trading in 2021-22.

COVID-19

The company has expanded its business in domestic as well as international market, we are exporting the fabrics via water ways. Due to Covid -19 pandemic the export segment is highly affected, there were shortage of containers, due to unavailability and reduction in the number of workers, and the rise in fare of containers. Usually, it takes approx. 35-40 days for a container to reach the destination but during Covid -19 pandemic period it took approx. 100 days to reaches the destination due to which lots of working capital was blocked and rise in fare price result into increase of cost and thereby reducing the profit margin. During COVID 19 promoter realised that dependence on one product effect the financial position of the company in the adverse scenario. The company had restarted trading of Agriculture product like wheat, Pearl Millet (Bajra), Castor Seed, Muster, and started business of bullion which later proven a key to diversify a new segment. After being severely hit by COVID -19 pandemic company export growth is expected to rebound in the upcoming years.

- **FOREIGN INVESTMENT RELATED LAWS AND REGULATIONS**

Foreign investment in Indian securities is governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) read with the applicable FEM Rules. FEMA replaced the erstwhile Foreign Exchange Regulation Act, 1973. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the government approval route, depending upon the sector in which foreign investment is sought to be made. The DIPP (now DPIIT) makes policy pronouncements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEM Rules. In case of any conflict, the FEM Rules prevail. Therefore, the regulatory framework, over a period of time consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DIPP (now DPIIT) issued the FDI Policy which consolidates the policy framework on FDI issued by DIPP (now DPIIT), in force on August 28, 2017 and reflects the FDI policy as on August 28, 2017. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP (now DPIIT). As per the FDI Policy, FDI up to 100% is permitted in wholesale trading under automatic route and up to 51% is permitted in multi brand retail trading under the government route subject to certain conditions prescribed under FDI policy. Further, a citizen of Pakistan or an entity incorporated in Pakistan can invest, only under the Government route, in sectors/activities other than defence, space, atomic energy and sectors/activities prohibited for foreign investment.

The Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) and the rules, regulations and notifications there under, as issued by the Reserve Bank of India from time to time. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 by Notification No. FEMA. 395/2019-RB dated October 17, 2019 (“FEMA Rules”) to prohibit, restrict, or regulate transfer by or issue security to a person resident outside India. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the RBI. Our Company is engaged in the business of trading printed fabrics, kaftan and Voil which we process through established job work arrangements and trading of Agriculture products. The Company policy was to make the quality product and deliver the product on time. Initially the Company was buying the grey fabrics from the Triupur and hand over to the printers in the Jetpur to get it printed as per our design and requirements. However the Grey fabrics purchased from various suppliers are hand over to printers for the printing work and any report regarding shrinkage and less weight in the grey fabrics create dispute between the suppliers. In order to avoid such problems and for smooth running, the Company had decided to get the printed finished fabrics from the Job Workers after supplying grey fabric from triupur. The Grey fabric supplier send the grey fabric to the printer on our behalf and payment was made by us. The designs are supplied by the Company after getting feedback from the market regarding the current trend and future demand of particular designs to the printer. The grey fabric which company is purchasing is above 140 to 190 GSM.
