Our Company as per the restated audited financial statement as on October 31, 2018 has availed total sum of ₹ 157.15 lakhs as unsecured loan which may be recalled at any time. Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section “*Unsecured Loans*” under “*Financial Statements*” beginning on page no. 110 of this Draft Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

8. *Our Company has allotted Equity Shares during the preceding one year from the date of the Draft Prospectus which are lower than the Issue Price.*

Our Company has allotted the following Equity Shares during the preceding one year from the date of the Draft Prospectus which are lower than the Issue Price:

Date of Allotment	Name of the Allottee	Number of Shares	Face Value (₹)	Issue Price (₹)	Reasons	Promoter/ Promoter Group/ Public

For Further details of equity shares issued, please refer to the section titled “*Capital Structure*” beginning on page no. 42 of this Draft Prospectus

9. *Inability to restore the cottages and rooms to full operational capacity may adversely affect our business, results of operations and financial condition*

Our hotel comprises of 13 private cottage rooms and 12 executive rooms. Due to lack of infrastructure, we have not been able to operate according to our full capacity. At present, we operate only 4 cottage rooms. As to restore the cottages and rooms to full operational capacity and increase its scale of operations, we have planned capital expenditure aggregating to ₹ 140.00 lakhs towards repairs and restoration of hotel. Please refer to the section titled “*Objects of the Issue*” beginning on page no. 50 of this Draft Prospectus. Again, if we are unable to adapt our services successfully, meet changes in consumer demands and trends, our business and financial condition may be adversely affected

10. *We have experienced negative cash flows and any negative cash flows in the future could adversely affect our financial conditions and results of operations.*

We have experienced negative cash flows in the recent past, the details of our standalone cash flows are given in the table below:

(₹ in 000's)

Particulars	For the period ended October 31, 2018	For the Year ended March 31,

Net Cash used in Financing Activities	55,690.73	(0.18)	(0.48)	(0.17)

If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

11. We do not own some of our key properties which are used by us currently and we have acquired lands in relation to our business from our Promoter Group

We do not own any of the premises from where we operate. We have taken our registered office cum hotel property, situated at Hotel Alexander, S. No. 246, Plot No. 99, Matheran, Tal: Karjat, Raigad – 410 102 and Mumbai office at Unit No. 1, Ground Floor, Reva Apartment, Bhulabhai Desai Road, Haji Ali, Cumbala Hill, Mumbai – 400 018 from one of our Promoter Group Entity, S. J. S. HUF on a lease/ leave and licence basis.

We cannot guarantee the continuity of this arrangement and our Promoter Group Entity may cease this arrangement. In case of such an event, we may have to relocate, re-build our hotel property or we may have to agree on terms which may not be administratively and financially conducive to us. This may result in additional cost, disruption of day-to-day activities and increased rent burden which would adversely affect our financial condition.

For details regarding such “Properties”, please refer to “Our Business” on page no. 74 of this Draft Prospectus.

12. Our planned projects may not be completed by their expected completion dates or at all.

We have planned capital expenditure aggregating to ₹ 169.05 lakhs towards Repairs and Restoration of Hotel Alexander at Matheran. Please refer to the section titled “Objects of the Issue” beginning on page no. 50 of this Draft Prospectus. Again, the above capital expenditure are completely based on our management internally workings after consulting with architect and local contractors. Our plans are subject to a number of variables, including construction/development delays or defects; receipt of critical governmental approvals, force majeure events, availability of financing / success of this IPO, unanticipated cost increases among others any of which could delay our implementation schedule. Failure to complete the project according to its specifications or schedule, if at all, may give rise to potential liabilities and / or cost overruns and as a result, our returns on investments may be lower than originally expected, which may have a material adverse impact on the business operations of our Company.

13. The hotel industry is cyclical and sensitive to changes in the economy and this could have a significant impact on our operations and financial results

The hotel business is cyclical and sensitive to changes in the economy in general. The hotel sector may be unfavourably affected by such factors as changes in the global and domestic economies, changes in local market conditions, excess hotel supply or reduced demand for hotel rooms and associated services, competition in the industry, changes in interest rates, the availability of finance and other natural and social factors. Since demand for hotel is affected by economic growth in India as well as globally, a global or domestic recession could lead to a downturn in the hotel industry. Such adverse developments in the hotel industry in India or in the cities where our hotel is located would have a negative impact on our profitability and financial condition.

14. The hospitality industry is affected by consumer preferences and perceptions. Changes in these preferences and perceptions may affect the demand for our properties and adversely affect our operations

Hospitality industry is affected by changes in consumer preferences, national, regional and local economic conditions and demographic trends. Market perception of our properties and services may change which could impact our continued business success and future profitability. If we are unable to adapt our services successfully, meet changes in consumer demands and trends, our business and financial condition may be adversely affected. We are engaged in the hospitality industry and are driven by the quality of service we provide and by meeting the expectations of our clients. We strive to keep up with the evolving client requirements to enhance our existing business and level of customer service. Owing to increase in competition, and in the event that we are unable to identify and understand contemporary and evolving customer tastes and preferences or to deliver quality service as compared to our competitors, it could adversely affect our business result of operations and financial condition.

15. *We are a Company with limited operating history of running and operating hotels, and therefore we cannot guarantee our success of our recently acquired hotel property.*

Our company has been operating as a service provider for our current hotel in Matheran. Our role was limited to accepting bookings for this hotel while the running and upkeep of the hotel was done by third party. Hence, we do not have significant operating prowess in the field of running and maintaining a hotel. We have recently acquired the hotel on lease and license basis, with an intention to carry out complete lodging and boarding services to our patrons. The hotel business requires expertise in various areas such as room maintenance, customer service, property upkeep, security, etc. and also requires us to obtain and follow various government approvals and laws. We cannot guarantee that the said strategy will be successful and that we will be able to maintain and provide quality service to our patrons as per their specific needs. If we fail to satisfy the expectations of our patrons, we may not get repeat bookings and word of mouth publicity, both of which are crucial for a hotel business. For details regarding the business, please refer to the chapters titled "*Our Business*" beginning on page no. 70 of this Draft Prospectus. Given our limited operating history in the business in which we operate, there will be only limited information which evaluates the business and our current or future prospects on which to base the investment decision.

16. *We are subject to operating risks common in the Hotel industry.*

Our financial results are affected by occupancy and room rate achieved by our resort, our ability to control cost of developing and running additional rooms. Further our operating margins would be adversely affected by increase in electricity, insurance and environmental compliance expenses. Our resort would have to be renovated periodically to keep up with the changing trends and such renovation may involve significant development and maintenance costs. Our inability to manage the above operating risk would have a negative impact on our profitability and financial position. Similarly, cleaning and housekeeping services involve the handling of chemicals such as cleaning solutions, which if handled improperly may have an adverse impact on the health of our employees, guests and on the environment. Consequently, our business is associated with certain safety, privacy and public health concerns.

Failure to effectively implement our corporate, crisis response, training and management policies and protocols and to adequately address and manage risks inherent in our business, or a failure to meet the requirements of our guests, or a failure to develop effective risk mitigation measures, could have an adverse effect on our reputation, guest loyalty and consequently, our business, results of operations and financial condition.

17. *Our business is seasonal in nature.*

Our revenues and cash flows are affected by seasonality. Our resort is located at Matheran, and so we are subject to low revenue during varying seasons in this location. In particular, the first and second quarters of our financial year include India's summer and monsoon seasons and international travellers to, and domestic travellers in, India are substantially fewer than in the other quarters of the year. To the extent this seasonality is not mitigated by a steady volume of business travel, our quarterly results of operations could fluctuate significantly. There is a history of increases and decreases in demand for hotel rooms, in occupancy levels and in room rates realized by owners of hotels through economic cycles. The combination of changes in economic conditions and in the supply of hotel rooms, including periods of excess supply, can result in significant volatility in results for owners and managers of hotel properties. The costs of running a hotel tend to be more fixed than variable. As a result, in an environment of declining revenues the rate of decline in profits can be higher than the rate of decline in revenues.

18. *We have not disclosed the details of immediate relatives of the Promoter Group of our Promoter namely Mrs. Roopa Shah in the Draft Prospectus, as required by SEBI ICDR Regulations, since we have not received any information from such person.*

In accordance with the definition of the term Promoter Group as defined in the SEBI Regulations, the Promoter Group of our Individual Promoter namely Mrs. Roopa Shah consists of inter alia her Parent, Brother, Sister, brother(s) in law and father in law. However, information regarding the above mentioned relations and the companies in which they hold more than 20% shares is not available/disclosed in the Draft Prospectus as such our Individual Promoter has commercially disassociated herself from such persons and these persons have no interest or liability in our company and its listing. Further, we confirm that the above mentioned relations did not hold any Equity Shares in the Company at any point nor had any interest in our Company at any point and hence are not material to the issuer company and its future operations. For further details please refer to the chapter "*Our Promoter and Promoter Group*" on page no. 96 of the Draft Prospectus.

However, since we do not have access to any information pertaining to above mentioned relations and in connection with the entities in which he is associated or interested, we are not in a position to confirm whether such entities if any, are subject to any pending legal or regulatory proceedings or whether any such action has been taken by any statutory/regulatory authority including SEBI and RBI against such entities if any

19. *Our Company has not taken any insurance policy in regard to its Mumbai Office and Registered Office, in the event of any material hazards our company may adversely affect our business, results of operations and financial condition.*

As on the date of Draft Prospectus, our Company has not taken any insurance policies in relation to any calamities. In the event of any uncertain events our business and other assets could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which will not be compensated by insurance. There can be no assurance that in the event of any hazards, whether we will be able to sustain our operations again within reasonable time frame. If our Company suffers a large loss we may be required to make substantial payments and our results of operations and financial condition may be adversely affected. Further, if we are to obtain fresh insurance for all or some of our locations, we have to incur costs not yet provided for in our financials. Also, we cannot guarantee that we will be able to identify an insurance policy suitable to our needs within a reasonable premium. If we buy new policies we may have to put a strain on our existing cash flows and thus affect our results of operation and financial condition.

20. *Our Company's failure to maintain the quality standards of the services could adversely impact our business, results of operations and financial condition.*

Our services depend on customer's expectations and choice or demand of the customer and trends in the hospitality industry. Any failure to maintain the quality standards of our services may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our services will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or services, including those arising from any deterioration in quality of our services from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations.

21. *We face competition in our business from organized and unorganized players, which may adversely affect our business operations and financial condition.*

The hotel industry is highly and increasingly competitive and unorganised, and our results of operations and financial condition are sensitive to and may be materially adversely affected by competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins, lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations.

The segment which we cater our services are fragmented and continue to be dominated by unorganized players. Further we are situated in Matheran, which is considered as one of the tourist destinations near to Mumbai city, having hospitality business in an unorganized sector especially on small and medium scale. Hotel industry also has many large conglomerates giving further competition to players like us. We compete primarily on the basis of quality, customer satisfaction and marketing. We believe that in order to compete effectively, we must continue to maintain our reputation, be flexible and prompt in responding to rapidly changing market demands and customer preferences and offer customer a wide variety of services at competitive prices. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

22. *Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution and actual cost may vary compared with the estimated amount.*

Our Company intends to primarily use the Net Proceeds from the Issue as described in "Objects of the Issue" on page no. 50 of this Draft Prospectus. The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan, management estimates and have not been appraised by any bank, financial institution or any other external agency. Also, in terms of Regulation 262 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Fresh Issue size is not in excess of ₹ 100 crores. The management of our Company will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Net Proceeds from the Issue.

Given the dynamic nature of our business, we may have to revise our business plan from time to time and consequently our funding requirements and deployment on account of variety of factors such as our financial condition, business and strategy, including external factors such as market conditions, competitive environment, costs of commodities and interest/ exchange rate fluctuations which may not be within the control of our management. The deployment of the funds towards the objects of the Issue is entirely at the discretion of the Board and our Board will monitor the utilisation of Net Proceeds through its Audit Committee. Our Company will disclose the utilisation of the Net Proceeds under a separate head along with details in its balance sheet until the Net Proceeds remain unutilised, clearly specifying the purpose for which the Net Proceeds have been utilised. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our operational and financial performance. Additionally, various risks and uncertainties, including those set forth in this section “Risk Factors”, may limit or delay our Company’s efforts to use the Net Proceeds from the Issue to achieve profitable growth in its business.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the Objects of the Issue, at a price and manner as specified in the SEBI ICDR Regulations. Additionally, the requirement on Promoters or controlling shareholders to provide an exit opportunity to such dissenting shareholders may deter the Promoters or controlling shareholders from agreeing to the variation of the proposed utilisation of our Net Proceeds, even if such variation is in our interest. Further, we cannot assure you that our Promoters or the controlling shareholders will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price which may be prescribed by SEBI.

Accordingly, prospective investors in the Issue will need to rely upon our management’s judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

23. *We have, in the past, entered into related party transactions and may continue to do so in the future. We cannot assure you that such transactions, individually or in the aggregate, may always be in the best interests of our shareholders*

We have entered into transactions with our promoter and other related parties. Also, our entire revenue for the past financial periods is from related party because we were operating as service provider to our landlord “Hotel Alexander” (Prop. of S. J. S. HUF). We have recently taken our hotel property on lease basis from S. J. S. HUF and propose now to earn revenue directly from customer/ patrons of the hotel. For a list of related parties, please see the chapter titled “Financial Statements-Annexure XIX- Related Party Transaction” beginning on page no. 113 of this Draft Prospectus.

While we believe that all such transactions have been conducted on an arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise.

24. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support*

Our success depends heavily upon the continuing services of Mrs. Roopa Shah who is our promoter and Executive Director has over 2 decades experience in hospitality industry and Mr. Shreyas Shah an Executive Director has strong financial markets experience. We believe that our relation with our Promoter, who has rich experience in setting up business, developing markets, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoter and our success depends upon the continuing services of our Promoter who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. We may have to incur additional costs to replace the services of our promoter or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

In addition, we depend on our Executive Directors / Promoters in procuring certain bank loans and for the extension of unsecured loans and advances from time to time. We rely on our Directors and persons in control of our Promoter, in relation to certain of our bank loans for which they have granted certain security and personal guarantees. Further, our Promoter Group have from time to time, extended loans and advances to our Company for various business purposes (“Unsecured Loans”). For details, see “Annexure XIX– Related Party Transactions” on page no. 113 of this Draft

Prospectus. We cannot assure you that any future financing we obtain without guarantees from our Promoters or from unrelated third-parties will be on terms which are equal to or more favourable than the terms of our past financings.

25. *The shortage or non-availability of power facilities may adversely affect our services at Hotel Alexander and have an adverse impact on our business and financial condition.*

Our services at hotel property require substantial amount of power facilities. Currently, Company receives power from Electricity Department, Maharashtra State Electricity Distribution Co. Ltd. The quantum and nature of power requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of oil prices and other constraints. Our Company is mainly dependent on State Government for meeting its electricity requirements. Any disruption / non-availability of power shall directly affect our services which in turn shall have an impact on profitability and turnover of our Company.

26. *The potential liability for any failure to comply with environmental laws or for any currently unknown environmental problems could be significant*

Under various applicable environmental laws and regulations, the owner or operator of real property may be liable for failing to maintain air and water pollution within prescribed levels, or for failing to comply with various environmental regulations while constructing and operating our resorts. We are not aware of any environmental liability that could have a material adverse effect on our business, assets or results of operations, nor have we been notified by any governmental authority or any third party, and we are not otherwise aware, of any material non-compliance or other claim relating to hazardous or toxic substances in connection with any of our present or former properties. We cannot, however, assure you that we will remain in compliance with all environmental laws and regulations, or that the requirements of such laws and regulations will not change.

27. *The Shortage or non-availability of water facilities may adversely affect our services at Hotel Alexander and have an adverse impact on our business and financial condition.*

Our services at hotel property requires substantial amount of water. Our water requirement is high and we fulfil our water requirement through local sources maintained by the Maharashtra Jeevan Pradhikaran Water Management (Sub Division – Karjat), Matheran, Water Works Matheran. The quantum and nature of water requirements of our industry is significant and requires continuous supply. Our Company is mainly dependent on outside supply water for meeting its water requirements. Any disruption/non-availability of water shall directly affect our services which in turn shall have an impact on profitability and turnover of our Company. Also, our water connection is on the name of landlord, any disruption in the services could adversely affect our business operations and affect our ability to continue to manage and expand our business.

28. *System failures or inadequacy and security breaches in computer systems may adversely affect our business.*

Our business is increasingly dependent on our ability to process transactions and banking data into well managed accounts systems. Our financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are wholly or partially beyond our control, including a disruption of electrical or communication services. Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to and received by our management through our existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations.

We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate a growing customer base or product portfolio or supplier base. Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation.

29. *We have not entered into any agreement with online partners for sales/ booking of rooms at our hotel. Inability to engage services of renowned online travel agents/ portals and intermediaries may affect our business growth and financial condition adversely.*

In the past, hotel room booking was done by personal visit to the hotel premises. However as now the world is moving towards digitization it has become a trend to book the hotel room online. Due to online, customers/ patrons view the hotel pictures, price, amenities like rooms, parking facility, nearby places and many more before making any final decision. As the customers/ patrons now prefer online systems for their booking, there has been a huge growth in online agents and intermediaries, who provide this type of services to their clients. Again this online travel agents and intermediaries have strong marketing budgets and aim to create brand awareness and brand loyalty among consumers and may seek to commoditize hotel brands through price and attribute comparison.

At present, we don't have any kind of agreement with any of the online agents/ portals and intermediaries and all the rooms are booked by clients/ patron by personal visit or by direct call to the hotel. However in future we may enter into an agreement with online agents/ portals and intermediaries to boost our sales. If we fail to enter any agreement with this online agents/ portals and intermediaries which in turn may adversely affect our business growth and results of operations.

30. *Some of the forms filed by us with the Registrar of Companies and our records in that respect are not traceable.*

We have been unable to locate certain corporate records of our Company for the period prior to September 2007 in respect of Allotment of shares, Transfer of shares, change in registered office, and other data. We may hence be liable for payment of penalty fees and additional expenses arising from our inability to furnish correct particulars, in respect of the RoC filings, and for misrepresentation of facts which may occur due to non-availability of documents. For further information, please see “*Capital Structure*” on page no. 42 of this Draft Prospectus.

31. *Lack of experience in KMPs may adversely affect our business operations and profitability.*

Being a small size company, we do not have highly experienced KMP's in our existing workforce. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will again have to be trained and integrated into our operations. Failure to train and motivate our key managerial personnel and other employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. Any cost incurred on the training of the key managerial personnel will put additional pressure on our financial condition and cash flows. Further, any inability to attract and retain talented employees or the resignation or loss of key management personnel, may have an adverse impact on our business, future financial performance and the price of our Equity Shares.

32. *We undertake construction risks in the development of our resorts.*

We contract with third-party contractors to construct our resorts, and, accordingly their compliance with our construction schedules and budgets is not fully under our control. In addition, claims may be asserted against us for construction defects and may give rise to liabilities. In addition, state and local laws may impose liability on property developers with respect to construction defects discovered or repairs required to be made by future owners of a property. Our construction activities are also subject to risks relating to:

- ✚ the inability to obtain, or delays in obtaining, all necessary zoning, land-use, building, occupancy, sales and other required governmental and local regulatory permits and authorizations;
- ✚ construction costs or delays at a property may exceed original estimates which could make the development uneconomical or unprofitable;
- ✚ the possibility of fines and penalties being imposed on us due to non-compliance of statutory requirements by the contractor; and
- ✚ the ability to obtain adequate financing to complete the acquisition, construction or renovation work at resorts.

Any of the above risks, should they occur, could have an adverse effect on our business, results of operation and financial condition.

33. *We are exposed to a variety of risks associated with safety, security and crisis management.*

We are committed to ensure the safety and security of our guests, employees and assets against natural and man-made threats. These include, but are not limited to, exceptional events such as extreme weather, civil or political unrest, violence and terrorism, serious and organized crime, fraud, employee dishonesty, cyber crime, pandemics, fire and day-to-day accidents, incidents, health crises of guests and petty crime which impact the guest or employee experience, could cause loss of life, sickness or injury and result in compensation claims, fines from regulatory bodies, litigation and impact our reputation. Serious incidents or a combination of events could escalate into a crisis which, if managed poorly, could further expose us and our brands to significant reputational damage.

Such events occurring at hotel property may also have an adverse effect on our reputation and may also adversely affect operations of our other properties.

34. *We have not identified any alternate source of raising the funds mentioned as our 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans and financial performance. Further in case of any delay in the completion of the Issue, there would be a corresponding delay in implementation schedule.*

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and financial performance. The delay/shortfall in receiving these proceeds could result in inadequacy of funds.

The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to consider alternative source for meeting the fund requirement. We therefore, cannot assure that we would be able to execute the proposed investment plan within the given time frame, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and financial performance.

35. *Our Promoter and Promoter Group will continue to retain majority shareholding in us after the Issue, which will allow them to exercise significant influence over us and potentially create conflicts of interest.*

After the completion of Initial Public issue of 18,00,000 new equity shares to general public still, our Promoter and Promoter Group may beneficially own approximately 62.58 % of our post-Issue equity share capital. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

36. *We could be exposed to risks arising from misconduct, fraud and trading errors by our employees and Business Associates.*

Frauds or other delinquencies by employees could include indulging in transactions that exceed authorized limits or present unacceptable risks to us; hiding unauthorized or unsuccessful trading activities from us; or the improper use of confidential information. Such misconduct could result in unacceptable business risks, losses, invite regulatory sanctions and seriously harm our reputation and could even lead to litigation. The precautions we take to prevent and detect these activities may not be effective. Any delinquencies or trading errors on the part of our employees could materially affect our business operations, financial position and/or reputation.

37. *We may require additional funding to finance our operations, which may not be available on terms acceptable to us, or at all, and if we are able to raise funds, the value of your investment in us may be negatively impacted.*

There can be no assurance that we will be able to obtain any additional financing on terms acceptable to us, or at all. The cost of raising capital is high and any additional funding we obtain may strain our cash flows and financial condition. Our ability to raise additional financing in the future is subject to a variety of uncertainties, including but not limited to:

- Our future financial condition, results of operations and cash flows;
- General market conditions for debt financing and capital raising activities; and
- Economic, political and other conditions in India.

If we raise additional funds through equity or equity-linked financing, your equity interest in our Company may be diluted. Alternatively, if we raise additional funds by incurring debt obligations, we may be subject to various covenants under the relevant debt instruments that may, among other things, restrict our ability to pay dividends or obtain additional financing. Servicing such debt obligations could also be burdensome to our operations. If we fail to service such debt obligations or are unable to comply with any of the covenants there under, we could be in default under such debt obligations and our liquidity and financial condition could be materially and adversely affected.

38. *Our Promoter and Directors may have interest in our Company, other than reimbursement of expenses incurred or remuneration.*

Our Promoter and Directors may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives or our Group Entities, and benefits deriving from their directorship and shareholding in our Company. Our Promoter is interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. For further details, please refer to the chapters titled “*Our Business*” and “*Our Promoters and Promoter Group*”, beginning on page nos. 70 and 96 respectively and the chapter titled “*Annexure XIX - Related Party Transactions*” on page no. 113 under chapter titled “*Financial Statements*” beginning on page no. 102 of this Draft Prospectus.

RISK FACTORS RELATED TO EQUITY SHARES

39. *Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by our Company could dilute the investors’ shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

40. *There is no existing market for our Equity Shares, and we do not know if one will develop. Our stock price may be highly volatile after the Issue and, as a result, you could lose a significant portion or all of your investment.*

There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares. Prior to the Issue, there has not been a public market for the Equity Shares of our Company. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity Shares that you purchased. The Issue Price is not indicative of prices that will prevail in the open market following the Issue. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Issue Price. The market price of the Equity Shares on the Stock Exchanges may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Draft Prospectus;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us, our shareholders or Group Companies;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of hospitalities companies generally;

- Performance of our competitors in the Indian hospitality industry and the perception in the market about investments in the hospitality industry sector;
- Significant developments in the regulation of the Hospitality industry in our key locations;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalisation and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share

Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

41. *You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realized on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realized on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognized stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognized stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

EXTERNAL RISK FACTORS

42. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a quarterly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

43. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

44. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in Draft Prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. Further, companies meeting certain financial thresholds are also required to constitute a

committee of the board of directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for instances of non-compliance have been prescribed under the Companies Act, 2013, which may result in inter alia, our Company, Directors and key managerial employees being subject to such penalties and formal actions as prescribed under the Companies Act, 2013, should we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could also affect our reputation.

To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Additionally, some of the provisions of the Companies Act, 2013 overlap with other existing laws and regulations (such as the corporate governance norms and insider trading regulations). We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013, which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

45. Any changes in the regulatory framework could adversely affect our operations and growth prospects.

Our Company is subject to various regulations and policies. For details see section titled “Key Industry Regulations and Policies” beginning on page no. 75 of this Draft Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

46. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse affects on our operations and financial performance.

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

47. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and neighbouring countries might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other\ adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

48. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on

the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in Nifty, NSE's/SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

49. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

OVERVIEW OF THE GLOBAL AND INDIAN ECONOMY

Global Scenario

In the first half of 2018, global growth shed some of the strong momentum registered in the second half of last year, and the expansion became less synchronized across countries. Activity moderated more than expected in some large advanced economies from its strong pace last year, while the emerging market and developing economy group continued to expand at broadly the same pace as in 2017. Among advanced economies, growth disappointed in the euro area and the United Kingdom. Slower export growth after a strong surge in the final quarter of 2017 contributed notably to the euro area slowdown. Higher energy prices helped dampen demand in energy importers, while some countries were also affected by political uncertainty or industrial actions. In the United Kingdom, growth moderated more than anticipated, partly because of weather-related disruptions in the first quarter. Set against these developments, the US economy maintained robust growth, particularly in the second quarter, with private sector activity buoyed further by sizable fiscal stimulus. Aggregate growth in the emerging market and developing economy group stabilized in the first half of 2018. Emerging Asia continued to register strong growth, supported by a domestic demand-led pickup in the Indian economy from a four-year-low pace of expansion in 2017, even as activity in China moderated in the second quarter in response to regulatory tightening of the property sector and nonbank financial intermediation. Higher oil prices lifted growth among fuel-exporting economies in sub-Saharan Africa and the Middle East. The recovery in Latin America continued, though at a more subdued pace than anticipated as tighter financial conditions and a drought weighed on growth in Argentina and a nationwide truckers' strike disrupted production in Brazil.

A core element of the 2017 upsurge in global growth and trade was the pickup in investment in advanced economies and an end to investment contractions in some large, stressed commodity exporters. Overall, both global imports and investment growth, at about 5 percent, were the highest since the 2010–11 rebound from the global financial crisis. This pace of expansion in investment is projected to ease in 2018 and 2019 compared with 2017, with a more notable decline in trade growth. Despite this easing, investment growth in emerging market and developing economies is projected to remain robust over the next five years at about 5½ percent, accounting for well over one-third of their GDP growth rate during that period. Medium-term prospects for investment growth are much weaker in advanced economies, with capital spending projected to slow considerably as growth declines toward its lower potential rate and the fiscal stimulus in the United States begins to unwind. At the same time, rising trade tensions and policy uncertainty—discussed in more detail below—raise concerns about global economic prospects. These factors could lead firms to postpone or forgo capital spending and hence slow down growth in investment and demand. This slowdown would also weaken trade growth, as capital and intermediate goods account for an important share of global trade. As mentioned earlier, high-frequency data point to a slowdown in global trade and industrial production, somewhat weaker manufacturing purchasing managers' indices, and especially weaker export orders, but the extent to which these factors have affected capital spending and trade are still unclear. Consistent with signs of slower production of capital goods, the forecast for fixed investment growth in 2018 was revised downward in advanced economies by about 0.4 percentage point relative to the April 2018 WEO, particularly in advanced Asia and the United Kingdom. This downward revision was accompanied by downward revisions to export growth (by over 1 percentage point) and especially import growth (by 1.4 percentage point). The forecast for investment and trade growth in 2019 is also weaker. For emerging market and developing economies, trade growth was revised down modestly for 2018 and more substantially for 2019. The forecast for investment growth for 2018–19 is weaker than in April, despite higher capital spending in India, on account of contracting investment in economies under stress, such as Argentina and Turkey, which is also reflected in a downward revision for import growth, particularly for 2019.

Indian Scenario

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers of the world over the next 10-15 years, backed by its strong democracy and partnerships.

India's GDP is estimated to have increased 6.6 per cent in 2017-18 and is expected to grow 7.3 per cent in 2018-19. In April-July quarter of 2018-19, the GDP grew by 8.2 per cent. India has retained its position as the third largest startup base in the world with over 4,750 technology startups, with about 1,400 new start-ups being founded in 2016, according to a report by NASSCOM. India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute. India's foreign exchange reserves were US\$ 400.49 billion in the week up to September 14, 2018, according to data from the RBI.

Investment is growing steadily, driven by the gradual increase in capacity utilisation, large infrastructure programmes and recent structural reforms which are supporting investors' confidence, in particular the new Insolvency and Bankruptcy Code and public bank recapitalisation. The rebound in exports is supported by a weaker rupee and an easier-to-comply-with Goods and Services Tax. Private consumption remains strong, in particular in rural areas where incomes are benefitting from the good monsoon and steady government spending on rural roads, housing and employment programmes. Consumer price inflation remains within the target band, partly reflecting one-off factors, such as a good monsoon, lower excise taxes on oil products and the government's request to public-sector oil marketing companies to lower their margins. However, pressures on inflation are rising from the rupee depreciation and recent increases in wages and housing allowances for public employees. Core inflation and inflation expectations are edging up.

Tighter financial conditions, higher oil prices, adverse terms of trade, lower growth in partner countries, and rising political uncertainties in India and abroad will tend to reduce growth somewhat. Even so, economic activity is projected to slow only marginally from a high level. Recent improvements in the GST administration, enabling exporters to get faster tax refunds, and the depreciation of the rupee will boost exports. Corporate investment will remain vigorous, supported by recent structural reforms and better infrastructure (in particular road and energy provision). Inflation pressures will be reinforced by the decision to raise minimum support prices and government purchases of some agricultural products. The Reserve Bank's credibility in targeting inflation and the projected marginal increases in policy rates will help anchor inflation. Confidence and investment would suffer from unexpected difficulties in non-bank financial institutions and delays in reducing non-performing loans. A further increase in oil prices and contagion from turbulence in other emerging-market economies are the major external risks. On the other hand, the hike in US tariffs on Chinese imports could benefit India's exports, in particular in the textile sector.

OVERVIEW OF GLOBAL HOTEL AND TOURISM INDUSTRY

Hotel trading growth is set to flatten in the year ahead due to economic uncertainty, weak business travel demand and an influx of new rooms scheduled to open across the country, according to findings by PwC. The PwC's Hotels Forecast 2019 analysis found that the outlook for London has leveled out with year-on-year occupancy growth of only 0.1% and a marginal fall of -0.5% forecast for 2019, which will see occupancy levels drop one percentage point to 81% in 2019. However, according to research from the global hotels data company STR, a potential 5,000 new rooms could open in London in 2018 with a further 4,300 in 2019. This is on top of the 38,000 rooms added in the previous five years.

Commenting on the latest forecast, Liz Hall, head of hospitality and leisure research at PwC, said: "2017 was a hard act to follow for hotel trading, in terms of growth and 2018 has been held back by uncertainty, slower economic growth, significant supply additions and reported stuttering business travel. This is despite the weak pound buoying leisure travel, the Royal Wedding and the International Farnborough Air Show effect. However, trading in absolute terms remains extremely high by historic and global standards for London and by 2019 PwC forecast both ADR and RevPAR to reach new records in nominal terms.

"For a sector heavily reliant on people to deliver its products and services, the shortfall in availability of EU nationals remains a concern for hotels and the weak pound has pushed up the costs of retaining staff and importing goods within the sector.

“Following a number of years of strong revenue growth when there was not the imperative to focus on costs, prudent operators and owners need to adopt a stringent approach to operating costs growth in 2019 to preserve profitability.”

Occupancy levels in the regions have been averaging 76% since 2015 and are forecast to remain around this level for the next year but to see a -0.3% decline in 2018 and no growth forecast for 2019. ADR growth is forecast to slow compared to 2017, with an anticipated 1.3% increase for 2018 taking ADR to £72 and a further 1.2% in 2019 lifting rates to £73. RevPAR is forecast to see a 1% uplift and a further 1.2% in 2019 taking it to £55, up from £54 in 2017.

PwC forecast shows RevPAR in the regions to end 2019 23% ahead of pre-recession peaks in nominal terms but lagging in real terms by 7%. Demand continues to be driven by inbound tourism, domestic holidays and events. The ICC Cricket World Cup is being held across 11 locations in England and Wales which could help regional hotels in 2019. Occupancy rates have been creeping up from 66% in 2009 to an average of 76% in 2015. We forecast rates to remain at this level despite over 40,000 rooms to be added in the regions in 2018 and 2019. A continuing structural supply shift towards a greater proportion of budget rooms will sustain occupancy levels.

Total deal volume for 2017 reached £4.9bn, up 34% on the year prior, driven by a series of large portfolio deals. In the first half of 2018 the UK has already seen £3.8bn worth of deal activity, an 80% rise on the first half of 2017. PwC forecast total deal volume to reach c£6.8bn by the end of the year, a 40% increase on last year and the second highest volume of hotel investment in the UK after record levels of £9.3bn in 2015. For 2019 deal activity is forecast to slow down with activity to fall by around 34% from 2018 to c£4.5bn.

The UK hotel market has generally shown deal volumes closely tracking RevPAR growth over the past decade. However with a swathe of significant portfolio deals completed in the first half of this year and with more in progress, deal volume for 2018 is set to buck this trend. This will mark only the second year deal volumes are expected to exceed RevPAR growth. We anticipate a slowdown in portfolio deal activity in 2019 due to a combination of longer term investors entering the UK hotel market, US funds refinancing their hotel portfolios to take advantage of the favourable debt terms currently available and uncertainty around leaving the European Union in March.”

Market Performance H1-18

Market-wide occupancy, ADR and RevPAR were at 65.9%, Rs. 5,868 and Rs. 3,868 respectively. The movement was positive, across all three parameters.

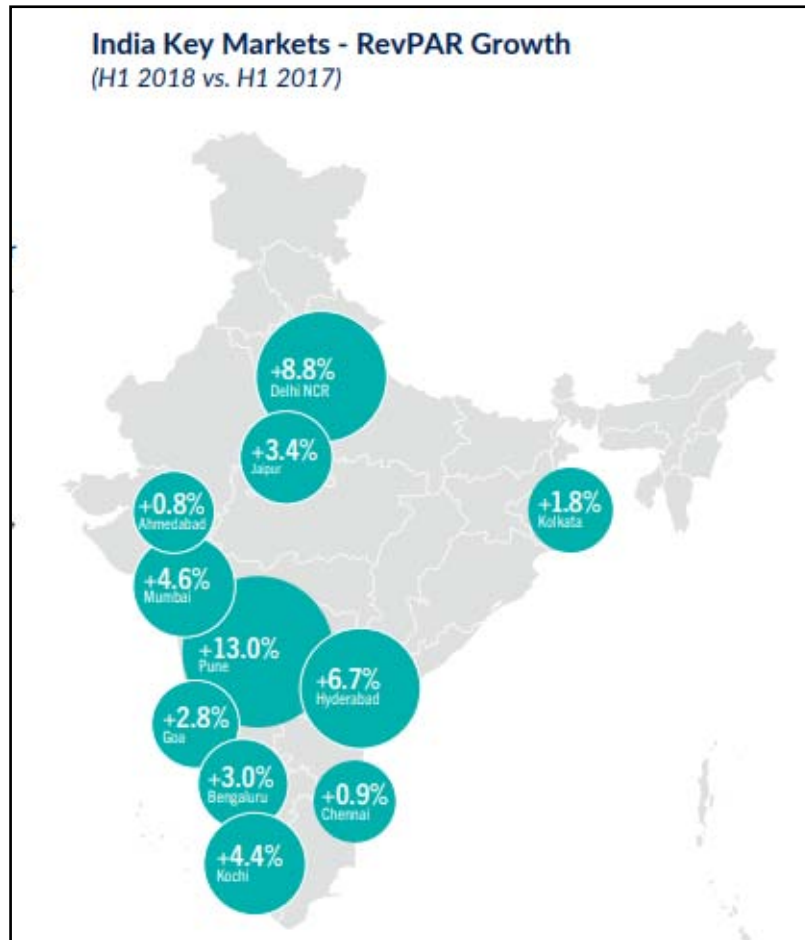

The key positive news from this performance is:

1. Mumbai occupancy up significantly, to 78% and ADR crossed 8k level.
2. New Delhi and Pune occupancy crossed 70%, while also gaining 8% in ADR.
3. Goa occupancy moved up by +2.1 pts, however ADR was flat.
4. Bengaluru and Jaipur had good ADR growth, comfortably crossing the 6k and 5k levels respectively.
5. Kochi ADR grew 7.2% - but the market will struggle due to the unfortunate floods.
6. Hyderabad grew RevPAR by 6.7%, mainly on improved occupancy.

Markets that faced challenges are:

1. Gurgaon, with ADR and RevPAR decline
2. Chennai and Ahmedabad with less than 1% RevPAR growth.
3. Chandigarh, where rate decline has materially neutralised occupancy growth.

(Source: https://corporate.cms-horwathhtl.com/wp-content/uploads/sites/2/2018/09/MR_India-Hotel-Market_H1_2018.pdf)

Due to intense competition and economic slowdown from fiscal 2011 to 2017, RevPAR growth across India dipped at 2% CAGR. RevPAR dipped 7% in fiscals 2013 and 2014, owing to huge supply addition, and grew 4% on-year in fiscal 2016 because of limited supply addition and improving economic conditions. Demand for premium hotels is expected to grow at CAGR of 6% during fiscal 2018 to fiscal 2022. Ease of travel achieved due to introduction of facilities, such e-visa, is also expected to have a positive impact on domestic tourism growth in the long run (although the impact is likely to be marginal in the short term). During the same period, supply is expected to increase at CAGR of 4%, resulting in OR increasing to 68% by fiscal 2022 from 65% in 2018. ARR is expected to grow at CAGR of 3%.

Room demand (6% CAGR) in leisure destinations - Goa, Agra, Jaipur and Kerala (Kochi, Kovalam and Thiruvananthapuram) - is expected to outpace room supply (expected to increase 4% CAGR) during fiscal 2018- fiscal 2022. While OR in leisure destinations is expected to grow to 70%, ARR is expected to grow at 4% CAGR. Consequently, RevPAR for leisure destinations is expected to grow at CAGR of 5% annually to Rs 5,750 till fiscal 2022.

Room demand in business destinations - Mumbai, North Capital Region (NCR), Kolkata, Chennai, Pune, Ahmedabad, Bengaluru and Hyderabad - demand is expected to grow at a moderate rate of 9% & 7% respectively during the same period with supply additions in both the cities at 7% and 3% CAGR respectively. While OR is expected to increase by 400 basis points to 68%, ARR is estimated to increase by CAGR of ~2%. As a result, RevPAR in business destinations is expected to rise by %CAGR to Rs 5,500 till fiscal 2022.

Matheran Tourism Sector

Matheran means forest on the top. Situated at 803 meters above sea level, this is one of the two most favorite hill stations of Maharashtra. It's Proximity to Mumbai and easy accessibility has made it more popular. In 1850, Mallet, the district Collector of Thane first discovered this hill station. He first sited this mountain from the village 'Chowk'. He climbed the hill from "one tree point". Britishers developed this hill station as their summer resort. This is the main reason why all the points of Matheran have English names. Matheran is situated on a plateau which suddenly drops off into the gorgeous valleys of Sahyadri and one can have breath taking view of the surrounding. On a clear night, one can easily see the "lights of Mumbai" from Bombay point. Matheran is surrounded by dense forest with almost 150 varieties of plants in it. Many birds species have made this forest their home. Some of the major species are: Kingfisher, Robin, Dhanesh, Bulbul, Lank etc. Though Matheran is basically a hill station and previously it was visited during summer, now with trekking enthusiasm on rise, this is very attractive point of trekking in the rains. With the advent of monsoons, Matheran looks enchanting. One can have a feel of "walk in the clouds" during the rains of Matheran. A fascinating hilltop, nestled at an altitude of 800 m (2,625 above sea-level), Matheran is 100 km from the nearby city of Mumbai.

Road Ahead

India's travel and tourism industry has huge growth potential. The tourism industry is also looking forward to the expansion of E-visa scheme which is expected to double the tourist inflow to India. India's travel and tourism industry has the potential to expand by 2.5 per cent on the back of higher budgetary allocation and low cost healthcare facility, according to a joint study conducted by Assocham and Yes Bank.

(Source: <https://www.ibef.org/industry/tourism-hospitality-india.aspx>)

As a global growth engine, tourism offers opportunities for both skilled and unskilled segments of the labour force, and the spillover benefits have the potential to promote sustained, inclusive growth. With rising demand for tourism products – both mainstream and offbeat, many new destinations have emerged that are competing fiercely to garner larger footfalls, and many businesses within destinations are also competing. Infrastructure development is a prerequisite to gain higher tourist numbers as well as tourism receipts, and requires the combined effort of the host community, tourists and private and public sectors. The public sector needs to set up the planning, regulation and monitoring systems that use public spending as a catalyst to attract capital investment from the private sector, which would be primarily interested in areas that enhance the competitiveness and economic appeal of the destination. The following suggestive measures can accelerate growth of tourism infrastructure in the country.

1. **Tourism Specific Ease of Doing Business (EoDB) Rankings:** 'EoDB Tourism State Rankings' can be introduced with comprehensive parameters for assessment of State initiatives. A uniform format can be introduced for collection and publishing of tourism data and statistics across states and districts to facilitate easier decision making by investors and also measure impact of initiatives of various states and other stakeholders.
2. **Private Sector Participation for O&M of Existing Government Infrastructure:** There is a large inventory of tourism infrastructure owned by state tourism departments as well as interconnected sectors like forest bungalows, many of which boast of exquisite locations that are lying idle or have further potential to upscale and attract more visitors, thereby also becoming self-sustainable. The private sector can be roped in to operate, improve or refurbish such properties and thus also boosting the room inventory.
3. **Promote Smart and Frugal Infrastructure:** As we expect tourism models to uplift communities, creation of modern infrastructure will be pivotal towards attracting tourists, even more so in remote and offbeat locations. Currently, the minimum project cost for tourism projects to qualify for infrastructure status is ₹ 200 Cr, which is under consideration to be lowered to ₹ 50 Cr. However, if this entry barrier can be further lowered, or a separate incentive scheme can be carved out for smaller projects, it will encourage private players to participate in small infra.
4. **Promote MICE Sector:** While MICE sector has experienced growth in the Indian sector in the past decade, India still has less than 0.5% share of the world meetings and conventions market. Developing more world-class exhibition centres can enable India to attract global conventions and meetings in tourism as well as other sectors.
5. **Incentivize Private Sector Participation:** Government/(s) should incentivize private players to invest in unserved/ under-served tourism projects. The incentive pattern can be friendlier for attracting more innovative tourism projects vis-a-vis run-of-the-mill projects. For instance, interest subvention scheme can be introduced for small tourism projects like community homestays, RO-RO and boat operators. Additional incentives, like additional interest subvention post COD, can be provided to projects (incl. new Hotels and resorts) at tourist destinations with limited tourist facilities and connectivity.
6. **Online Repository of Land Banks:** Availability of suitable land is one of the main concerns for investing in tourism projects, especially when it comes to sustainable tourism infrastructure in fragile areas. The states need to develop land bank outlining the land parcels available for tourism projects, which are made accessible over an interactive web platform with the support of Ministry of Tourism. This will enable investors to assess the preliminary viability of their projects basis the nature of land parcel/ select the appropriate land parcel suitable to the proposed project.
7. **Medical and Wellness Tourism:** Over the past few years, the government's efforts to promote and position Yoga and traditional Indian wellness therapies has paid dividends with World Yoga Day being observed globally on June 21 each year. India holds a competitive advantage in offering these products and services, and is also one of the most competitive destinations offering specialized treatments at low costs. Need of the hour now is to attract investments to create supporting infrastructure that can help reap dividends of this global movement led by India, as well as further consolidate offerings in allopathic healthcare and advanced medical procedures.

- 8. Coastal Area Development:** Blessed with almost 7,500 km of coastline, beaches/ Coastal tourism forms one of the top tourism themes in India and is also a preferred theme for foreign tourists visiting India. To leverage on this coastal advantage of India, priority can be accorded for identifying a minimum of 100 coastal destinations/ beaches and develop the basic tourism infrastructure in addition to ensuring cleanliness at these locations. In the Konkan coastline for instance, a community based Konkan Inclusive Tourism Ecosystem (KITE) can be developed wherein Modern Fishing Villages can sustain their traditional livelihoods with income augmentation from tourist activity, and the same can be replicated in other key coastal areas.
- 9. Leveraging MSME funds:** India's immense cultural and natural heritage is managed and conserved by local communities and small entrepreneurs whose business models now require scale-up through capital infusion, capacity building and skill building support. Convergence of Government Schemes with organizations like NABARD, SIDBI among others can be channelized into developing tourism infrastructure in rural and hinterland areas.
- 10. Technology for Infrastructure Assessment and Management:** Today's technologies give us clear insights and easy to use tools to advance sustainable and inclusive growth, and go far beyond cashless transactions and reservations. Data analytics can provide insights into consumer spending and movement trends which can further facilitate municipalities on crowd management and urban planning. Enabling a cashless ecosystem for tourists, introducing value added products like Incredible India Travel Card, application of GIS and emerging technologies, like Artificial Intelligence (AI) are some possible areas of intervention.

OUR BUSINESS

This chapter should be read in conjunction with, and is qualified in its entirety by, the more detailed information about our Company and its financial statements, including the notes thereto, in the sections titled 'Risk Factors' and 'Financial Information' and the chapter titled 'Management Discussion and Analysis of Financial Condition and Results of Operations' beginning on page nos. 15, 102 and 117 respectively, of this Draft Prospectus. Unless the context otherwise requires, in relation to business operations, in this chapter of this Draft Prospectus, all references to "we", "us", "our" and "our Company" are to Roopshri Resorts Limited, unless stated otherwise.

OVERVIEW

We are a hospitality company which is currently operating "Hotel Alexander" at Matheran, which is a popular hill station in Maharashtra. Hotel Alexander is one of the oldest hotel properties in Matheran and has been in existence operating under this brand for over 3 decades. The property is located in a secluded hill side and is an ideal for getting away from the city's hustle and bustle. The Hotel is around 3 hours by road from Mumbai and around 2 hours from Pune, both of which are the major customer segment of the Hotel.

Our company has been operating as a service provider for this Hotel over the years and thereafter we have recently taken the hotel property on leave and license from its owner. The Hotel had not been operating to full capacity due to poor condition of the hotel facilities and hence our company shall be conducting restoration and repairs work and shall be making the Hotel fully operational and increase its scale of operations. For details of the proposed renovation activities please refer to "*Objects of the Issue*" beginning on page no. 50 of this Draft Prospectus.

The Hotel comprises of 13 private cottage rooms and 12 executive rooms, of which only 4 private cottage rooms are in operational condition. Further the hotel is currently only offering lodging facilities. Our company is proposing to renovate this property and increase its operational capacity and also rebuild its boarding facilities to be able to offer "full lodging and boarding facilities" to its customers. The look and feel of the property is of "heritage living with nature" and does not require large amounts of investment w.r.t state of the art interiors etc. This makes this a value for money proposition.

Our Strengths

Locational Benefits

We believe that one of the biggest selling points of our hotel is its location. Firstly we are located at Matheran which is a very popular hill station near Mumbai and Pune. Matheran has the distinction of being the only popular tourist spot which does not have any motor ways or industrial activities. Hence the air quality of the hill station is very pure and the nature is substantially untouched. For further details w.r.t Matheran please refer "*Industry Overview*" beginning on page no. 60 of this Draft Prospectus. Further our property is located in a secluded valley side little further from the main market area making it a unique proposition for nature lovers and those looking to distill from the hustle bustle of the city. We believe that if we are able to regularise and re-organise the facilities of the hotel our unique location would provide strong benefits to our saleability in the future.

Well Educated and Experienced Promoter Group

Mrs. Roopa Shah and Mr. Shreyas Shah are our promoter group directors. Mrs. Roopa Shah has over 2 decades experience in hospitality industry and Mr. Shreyas Shah has strong financial markets experience. For details regarding the educational qualifications and experience of our promoter group directors please refer "*Our Management*" beginning on page no. 85 of this Draft Prospectus. We believe that due to strong background of our promoter group family we would be able to ensure sustained growth of the company.

Large Property Size

We have recently taken "Hotel Alexander" on a leave and license basis wherein we plan to renovate and re-organise the hotel facilities and make it fully operational. This property is almost 3.75 acres in size but only less than half acres are currently being used for the hotel facilities. This large property size is a big benefit for us as we believe that once we create strong branding and customer demand for our hotel we would have readily available land space for further expansion and hence take further operational margin improvements.

Our Strategies

Ensure Strong Equity Position and Low Leverage

Our company has a net worth (Owned Funds) of ₹ 401.19 lakhs and debt levels of ₹ 157.15 lakhs as on October 31, 2018. We propose to repay the debt to the tune of ₹ 150.00 lakhs from the proceeds of the IPO. This will make our company almost debt free and hence make our post IPO balance sheet situation very strong and stable. We believe that string fiscal management will ensure long term wealth creation and we intend to continue on these policies.

Asset Light Model

Our company does not own any real estate. The Hotel Property is taken on a leave and license against which we have given a substantial security deposit which is refundable in nature. There is no material outflow in form of rentals or license fees and hence it makes our operating cash flow stress free. We believe that by not owning assets we will be continue to remain liquid and would be able to move away from non-performing assets and move into performing assets in an easier and much smoother way.

Explore value opportunities in hospitality and tourism sector

We intend to execute our plans of renovating and reorganising the facilities of the recently acquired property – Hotel Alexander and reaching profitability levels over the next financial year. Simultaneously we intend to identify other value proposition assets like these and scale our business operations further. We believe that running multiple locations would provide us scaling benefits and costing advantages.

A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the T.P. Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act requires that any industrial plant emitting any air pollutant into the atmosphere must apply in a prescribed form and obtain consent from the state PCB prior to commencing any activity. The state PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act prohibits the use of any stream or well or land for the disposal of any poisonous, noxious or polluting matter, in violation of the standards set out by the concerned PCB. We are a hospitality company which is currently operating "Hotel Alexander" at Matheran, which is a popular hill station in Maharashtra. Hotel Alexander is one of the oldest hotel properties in Matheran and has been in existence operating under this brand for over 3 decades. The property is located in a secluded hill side and is an ideal for getting away from the city's hustle and bustle. The Hotel is around 3 hours by road from Mumbai and around 2 hours from Pune, both of which are the major customer segment of the Hotel.

Our company has been operating as a service provider for this Hotel over the years and thereafter we have recently taken the hotel property on leave and license from its owner. The Hotel had not been operating to full capacity due to poor condition of the hotel facilities and hence our company shall be conducting restoration and repairs work and shall be making the Hotel fully operational and increase its scale of operations. For details of the proposed renovation activities please refer to "*Objects of the Issue*" beginning on page no. 50 of this Draft Prospectus.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of financial condition and results of operations together with our financial statements included in this Draft Prospectus. The following discussion relates to our Company and is based on our restated financial statements. Our financial statements have been prepared in accordance with Indian GAAP, the accounting standards and other applicable provisions of the Companies Act.

Note: Statement in the Management Discussion and Analysis Report describing our objectives, outlook, estimates, expectations or prediction may be "Forward looking statement" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to our operations include, among others, economic conditions affecting demand/supply and price conditions in domestic and overseas market in which we operate, changes in Government Regulations, Tax Laws and other Statutes and incidental factors.

OVERVIEW

We are a hospitality company which is currently operating "Hotel Alexander" at Matheran, which is a popular hill station in Maharashtra. Hotel Alexander is one of the oldest hotel properties in Matheran and has been in existence operating under this brand for over 3 decades. The property is located in a secluded hill side and is a ideal for getting away from the city's hustle and bustle. The Hotel is around 3 hours by road from Mumbai and around 2 hours from Pune, both of which are the major customer segment of the Hotel.

Our company has been operating as a service provider for this Hotel over the years and thereafter we have recently taken the hotel property on leave and license from its owner. The Hotel had not been operating to full capacity due to poor condition of the hotel facilities and hence our company shall be conducting restoration and repairs work and shall be making the Hotel fully operational and increase its scale of operations. For details of the proposed renovation activities please refer to "Objects of the Issue" beginning on page no. 50 of this Draft Prospectus.

The Hotel comprises of 13 private cottage rooms and 12 executive rooms, of which only 4 private cottage rooms are in operational condition. Further the hotel is currently only offering lodging facilities. Our company is proposing to renovate this property and increase its operational capacity and also rebuild its boarding facilities to be able to offer "full lodging and boarding facilities" to its customers. The look and feel of the property is of "heritage living with nature" and does not require large amounts of investment w.r.t state of the art interiors etc. This makes this a value for money proposition.

COMPETITION

Our competition comes from existing hotels as well as proposed hotels at Matheran, Maharashtra. Some of the well known hotels that we will compete with include Byke Resorts, Regal Hotel, Adamo Village, Usha Ascot, etc. Our low overheads situation will ensure we have substantial pricing difference between existing hotels in order to make headway from price point of view and also our secluded location would allow customer retention and satisfaction.

Significant Developments after October 31, 2018 that may affect our Future Results of Operations

The Directors confirm that there have been no events or circumstances since the date of the last financial statements as disclosed in the Draft Prospectus which materially or adversely affect or is likely to affect the profitability of our Company, or the value of our assets, or our ability to pay liabilities within next twelve months.

Factors affecting our Result of Operation

Except as otherwise stated in this Draft Prospectus and the Risk Factors given in the Draft Prospectus, the following important factors could cause actual results to differ materially from the expectations include, among others.

Increasing competition in the industry

Our Company faces competition from local and also from organized and unorganized players in the market. Our Company operates in competitive environment which may force us to reduce our pricing of services.

General economic and business conditions

As a Company with its complete operations in India, we are affected by general economic conditions in the country and in particular economic factors that affect Hospitality industry in India. India's gross domestic product, or GDP, has been and will continue to be of importance in determining our operating results and future growth.

Our ability to successfully implement its strategy and its growth and expansion plans

Our growth plans are considerable and would put significant demands on our management team and other resources. Any delay in implementation of our strategy and growth and expansion plans could impact our Company's roll out schedules and cause cost and time over runs.

Increases in revenues are by and large linked to increases in introduction of new services and volume of business activity carried out by the Company.

6. Total turnover of each major industry segment in which our Company operates.

Our Company is engaged in the business of Hospitality Company. Relevant data has been included in chapter titled ‘*Industry Overview*’ beginning on page no. 60 of this Draft Prospectus.

7. Status of any publicly announced new products or business segments

Please refer to the chapter titled “*Our Business*” beginning on page no. 70 of this Draft Prospectus.

8. The extent to which the business is seasonal.

The hospitality industry is seasonal in nature. The period during which our property experience higher revenues is on the second half of each fiscal year as compared to first half of the fiscal year. This seasonality can be expected to cause quarterly fluctuations in revenue, profit margins and net earnings.

The hospitality industry is cyclical and demand generally follows, on a lagged basis, key macroeconomic indicators. There is a history of increases and decreases in demand for hotel rooms, in occupancy levels and in room rates realized by owners of hotels through economic cycles. The combination of changes in economic conditions and in the supply of hotel rooms can result in significant volatility in results for owner and manager of hotel. The costs of running a hotel tend to be more fixed than variable. This leads to high operating leverage in the hotel business. In an environment of changing revenues the rate of change in profit margins may be higher than the rate of change in revenues.

9. Any significant dependence on a single or few suppliers or customers

Our company does not depend on few customers or few suppliers. For further details, please refer chapter “*Our Business*” beginning on page no. 70 of this Draft Prospectus.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy, which with effect from June 07, 2016 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 7, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the LM’s are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus.
