Our Company require certain approvals, licenses, registrations and permissions for operating our business. Such approvals, licenses, registrations and permissions must be maintained / renewed from time to time and we may have to comply with certain conditions in relation to these approvals. Moreover, the applicable requirements may change and we may not be aware of or may comply with all requirements all of the time. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected.

Further, we may need to apply for additional approvals, including the renewal of approvals which may expire from time to time and approvals required for our operations, in the ordinary course of business. We cannot assure you that we will be able to timely apply for, whether fresh or renewal, all approvals, consents, permits, registrations and clearances required for undertaking our business from time to time.

For more information on the licenses obtained by our Company and the licenses applied for by our Company, please refer chapter titled “*Government and other Statutory Approvals*” beginning on page 181 of this Draft Prospectus.

4. *All our trademarks are our material assets and are crucial to our business operations.*

As on the date of this Draft Prospectus, we have not obtained registration for our corporate logo

“Key2elements” “  ”and hence we do not enjoy the statutory protection accorded to a registered trademark. Though, we have made application for the same under Class 17 and 23 also made application, there can be no assurance that our application will succeed. Grounds for refusal of registration may include the validity or scope of the application. If we are unable to obtain a registration, we may still continue to use the corporate logo but remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our corporate logo which may adversely affect our reputation and business and could require us to incur additional costs. Further, we also have to be very cautious in ensuring that our trade secrets do not fall in the hands of our competitors or any third party who could give access of such information to our competitors. In the event, any of our employees, during or after their association with our Company, disclose the crucial information regarding our intellectual

property, trade secrets and other methods to our competitors, directly or indirectly, our Company may resort to litigations or other proceedings to enforce, protect or determine the validity and scope of our intellectual property rights and to defend against third party infringements, which may be expensive and resource-consuming and may also create uncertainty regarding the ownership of such rights. Although, we believe that that our present systems are adequate to protect our confidential information and intellectual property, there can be no assurance that our intellectual property data, trade secrets or proprietary technology will not be copied, infringed or obtained by third parties. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations. For further details pertaining to our intellectual property, please refer to the chapter titled “*Business Overview*” beginning on page no. 85 of this Draft Prospectus.

5. *We are subject to restrictive covenants under our credit facilities that could limit our flexibility in managing our business operations. Also, our lenders have imposed certain restrictive conditions on us under our financing arrangements.*

There are restrictive covenants in the agreements entered into with our lenders. Certain covenants in these agreements require us to obtain prior approval/permission from our lenders in certain conditions. The agreements governing certain of our debt obligations include terms that require us to, among other things, take prior approval of our lenders for undertaking any change in capital structure, pledge, lien, consolidation, reorganization, dissolution, amendment or modification of our charter documents, etc. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business.

For details of these restrictive covenants, see the chapter titled “*Financial Indebtedness*” on page 171 of this Draft Prospectus.

6. *Our Company has availed secured loans from the financial institution and our lenders has created lien on inter-corporate deposits (ICD) of the Company.*

Our Company has taken loan by creating lien/charge over ICD availed by our Company. For Details of outstanding borrowed secured loan, please refer to chapter titled “*Financial Statements*” and “*Financial Indebtedness*” on page 132 and 171 respectively of the Draft Prospectus. In the event, we default in repayment of the loans / facilities availed by our Company and any interest thereof, our lenders are entitled to recall any or all of our credit facilities, declare all undisbursed portion of the sanction cancelled or invoke lien/charge on ICD and may exercise all other remedies as available under law., which in turn could have significant adverse effect on our business, financial condition and results of operations. If there is change in the security provided by our Company, then bank has a right to revoke or recall or modify the loan sanctioned.

7. *We are significantly dependent on our top ten customers. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top ten customers contribute approximately 90% of our revenue for the period March 31, 2020 respectively. Any decline in our quality standards, growing competition and any change in the demand for our services by these customers may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. However, the composition and revenue generated from these clients

might change as we continue to add new clients in normal course of business. We intend to retain our customers by offering solutions to address specific needs in a proactive, cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth. Also, our Company manufactures valves on specific order, in order to fail to comply with the requirements of the customer shall leads to reduction of our customer base and shall affect the business of our Company.

For further details of our top ten (10) customers, please refer chapter titled “*Management’s Discussion & Analysis of Financial Conditions & Results of Operations*” beginning on Page 166 of Draft Prospectus.

8. *The Company is dependent upon Suppliers for supplies of the products.*

We majorly trade in Fabrics, yarns, fibre and PVC and as mentioned in the chapter titled “*Business Overview*” on page 85 of this Draft Prospectus. Our top ten suppliers contribute approximately 93% of our total purchases for the year ended March 31, 2020. We are completely dependent on third party suppliers for the supply of goods. The discontinuation of any of this large supplier will significantly affect our operations, revenue and profitability.

9. *We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.*

Our business model is primarily a B2B & B2C sales model, wherein we play a key role of supply chain consolidator between OEM / Vendor / Manufacturer and Channel partner/End customer. We therefore do not have long-term supply agreements with our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. However, such orders may be amended or cancelled prior to finalization, and should such an amendment or cancellation take place, it may adversely impact our business. Consequently, there is no commitment on the part of the customer to continue to place new work orders with us and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences. Also, since our customers themselves do not have firm commitment agreements with their customers as their business is demand driven, we cannot expect firm orders regularly from our loyal customers. Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur business loss.

10. *We sell our products in highly competitive markets and our inability to compete effectively may lead to lower market share or reduced operating margins and adversely affects our results of business operations.*

We face a tough competition from the wholesalers and direct retailers in the business which we operate, who have longer operating histories, strong customer base, established relationships with the suppliers and better brand recognition. The domestic segments are fragmented and continued to be dominated by unorganised regional suppliers. Our competitors may be able to respond well in timely and efficient manner to the customers’ preferences and development in the products due to comprehensive marketing, research and development and distribution team than we do. We cannot assure that we can effectively compete with our existing as well new entrants who have entered this industry and any such failure to compete may have material adverse effect on our results of business operations and financial conditions.

11. *We are dependent on certain brands for promotion of our products. An inability by the brand owners to protect its brand and / or Intellectual Property Rights, may adversely affect the popularity and the goodwill of the business and the product that could cause a negative impact on the financial conditions and business operations of the Company.*

Our Company is engaged in the business of trading of fabrics, yarns and fibres and PVC. We are dependent on the brands for promotion of products sold by us. The owner of the brands is primarily responsible for consumer marketing and brand promotion. A decrease in marketing efforts and expenditure by brand owners, in contribution to their marketing plan or in their commitment to the development and introduction of products may adversely affect our business prospects, results of operations and financial condition.

12. *We are dependent on third party transportation providers for the delivery of the stocks/inventory/products.*

We do not have an in-house transportation amenity; we have to depend on the third-party for the transportation facilities at every stage of the business activities, including the procurement and loading of goods from the suppliers and unloading them in the warehouses and transporting products to our distributors/customers. Therefore, the transportation costs are high and are also vulnerable to the increased fuel costs, strikes, delays and inadequacies of the road infrastructure. We have no formal agreements with the third-party in relation to the transportation services. Our operations and profitability are dependent upon the availability of transportation and other logistic facilities in a timely and cost-efficient manner. We cannot give assurance in relation to the timely availability of the transportation facilities, and we may require to look into other alternate resources which may not be cost-efficient and may have an impact on the results of the business operations and cashflow of the Company.

13. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand vis-à-vis supply requirements and trade inventory accordingly. If our management misjudges the expected customer demand, it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory.

Our sales and profitability would get adversely affected in case of any mis-management of maintaining the inventory or shortage of supply from them. Therefore, any delays or non-adherence to quality requirements could adversely impact our ability to meet our customers' requirements. Our business operations would be affected, if we are unable to line up supplies from alternate suppliers.

14. *High Volume and Low Margin Business.*

The Business in which we are engaged is a high volume and low margin business. Our inability to regularly grow our turnover and effectively execute our business plans and process could lead to lower profitability and may adversely affect our business results and financial conditions. Due to the nature of the products which we sell, we may not be able to charge higher margin but on few products we may charge high margins. Our business is heavily reliant on our ability to increase the turnover and manage our key processes including the procurement of traded goods, timely sales, order execution etc. As part of our growth strategy, we aim to improve our functional efficiency and enhance our business operations. Our growth strategy is subject to and involves risks and difficulties, many of which are beyond our control and accordingly there can be no assurance that we will be able to implement our strategies or growth plans or complete them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. For further details regarding the discussions and

explanations for our past results, please refer to the chapter titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operation*” beginning on page 166 of this Draft Prospectus.

15. Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive, it requires a significant amount of working capital to finance the payments and other business activities. Summary of our working capital position is given below:

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets. Our inability to maintain or arrange sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 64 of this Draft Prospectus.

- 16. *Delays or defaults in customers payments, cancellation and modification of orders could result in a reduction of our profits. We may be subject to working capital shortages due to delays or defaults in payments by clients.***

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control may postpone the delivery of such products or may result into cancellations of the orders as placed by our customers. The customers' default in their payments in due time to which we have devoted significant resources it could have a material adverse effect on our business, financial condition and results of operations. Any such adverse event in the business could materially harm our cashflow position and income.

- 17. *Our continued success is dependent on our senior management and skilled manpower. Our inability to attract and retain key personnel or the loss of services of our Promoters or Directors may have an adverse effect on our business prospects.***

Our experienced Directors and senior management have significantly contributed to the growth of our business, and our future success is dependent on the continued services of our senior management team. An inability to retain any key managerial personnel may have an adverse effect on our operations. Our ability to execute orders and to obtain new clients also depends on our ability to attract, train, motivate and retain highly skilled professionals, particularly at managerial levels. We might face challenges in recruiting suitably skilled personnel, particularly as we continue to grow and diversify our operations. In the future, we may also not be able to compete with other larger companies for suitably skilled personnel due to their ability to offer more competitive compensation and benefits. The loss of Directors or other key personnel or an inability on our part to manage the attrition levels; may materially and adversely impact our business, results of operations, financial condition and growth prospects.

- 18. *Our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits and terrorism. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.***

Our marine insurance policies consist of, among others, standard fire and special perils, earthquake, etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. Further there can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

- 19. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "Dividend Policy" beginning on page 131 of this Draft Prospectus.

20. *There have been instances in the past of incorrect filing of the RoC forms /attachments with Ministry of Corporate Affairs (MCA).*

There have been instances in the past of incorrect filing of the RoC forms with Ministry of Corporate Affairs (MCA). At the time of filing the forms, attachments were inadvertently attached incorrect with the said RoC form. The form has been approved by the Ministry of Corporate Affairs and no-show cause notice have been issued against our Company till date. However, regulatory body in future may take action against such discrepancies / inconsistency which may affect our business.

21. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

22. *We have in past entered into, and will continue to enter into, related party transactions and we cannot assure you that we could not have achieved more favorable terms had such transactions not been entered into with related parties.*

We have in past entered into transactions with several related parties, including our Promoter Group Companies. We cannot assure you that we could not have achieved more favorable terms had such transactions been entered into with parties that were not related parties. Further, it is likely that we will enter into related party transactions in the future. We cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on our results of operations and financial condition. The transactions we have entered into and any future transactions with our related parties have involved or could potentially involve conflicts of interest. For more information, see “*Financial Statements*” on page no 132 of this Draft Prospectus.

23. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

24. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

Post this Issue, our Promoters and Promoter Group will collectively own significant percentage of our equity share capital / voting rights. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of

delaying, preventing or deterring a change in control of our Company. In addition, our Promoter will continue to exercise control over the Company, which may or may not conflict with interests of some or all of our creditors or other shareholders. Accordingly, we cannot assure that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

25. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

We maintain large amounts of inventory at our premises at all times. Although we have set up security measures, our operations may be subject to incidents of theft or damage to inventory. There can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future which could adversely affect our results of operations and financial condition. Additionally, in case of losses due to theft, fire, breakage or damage caused by other casualties, there can be no assurance that we will be able to recover from our insurer the full amount of any such loss in a timely manner, or at all. If we incur a significant inventory loss due to third-party or employee theft and if such loss exceeds the limits of, or is subject to an exclusion from, coverage under our insurance policies, it could have a material adverse effect on our business, results of operations and financial condition. In addition, if we file claims under an insurance policy it could lead to increases in the insurance premiums payable by us or the termination of coverage under the relevant policy.

26. *We may not be able to sustain if there is no effective implementation of our business, growth and marketing strategy.*

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. We have distributors and agents for the selling of our product in India as well as overseas. We do not have any long-term agreement with any of the distributors and agents and termination of services may affect our business and profitability. Changes in regulations applicable to the industry in which we operate may also make it difficult to implement our business strategy. We cannot provide assurance that we will be able to execute our strategy on time and within the estimated budget, or that we will meet the expectations of targeted customers. Inability on our part to manage our business and effectively implement growth strategy could have a material adverse effect on our business, financial condition and profitability.

27. *Our Company have limited comparable listed peers which are involved in similar line of business for comparison of performance and therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.*

As on the date of this Draft Prospectus, we have limited listed peers involved in similar kind of business therefore, we cannot provide the strict comparison with other companies listed on the Indian Stock Exchanges that are similar in business, size and nature of activities carried on by our Company. Therefore, all the prospective investors must rely on their own examination of accounting ratios of our Company for the purpose of investment in this proposed Public Issue.

28. *We have experienced negative cash flows in the past. Our inability to generate and sustain adequate cash flows in the future may adversely affect our business, results of operations and financial condition.*

Cash Flow of a Company is a key performance indicator to measure the progress towards the organizational goals of the Company. It reflects the cash generated from operations to meet the capital expenditure, pay dividends, repay the loans and make new investments without raising the funds from external resources. Hence, our business may be affected due to insufficient amount of cash flow generated out of the operating activities. For further details, refer "Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of

Operations” on pages 132 and 166, respectively. The details of cashflows of our Company are as follows:

<i>Particulars</i>	<i>For the period ended September 30, 2020</i>	<i>For the year ended March 31, 2020</i>	<i>For the year ended March 31, 2019</i>	<i>For the year ended March 31, 2018</i>
Cashflow from / (used in) Operating Activities	1,155.37	584.59	(690.86)	(0.01)
Cashflow from / (used in) Investing Activities	(24.73)	(317.68)	691.80	0.00
Cashflow from / (used in) Financing Activities	0.00	0.00	0.00	0.00

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

- 37. *Any slowdown in the rate of growth prospects of the dependent industries would impact our Company growth prospects.***

We operate in Various majorly trade in Yarn, Fibre and PVC. If the demand for our products falls, due to slowdown in economic growth for prolonged periods, could have adverse effects on our results of our business operations and financial condition of our Company.

- 38. *Malpractices by some players in the industry affect overall performance of emerging Companies.***

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like us as the industry norms are applicable to all

at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

Other Risks:

39. Adverse developments in the global or local macroeconomic environment may adversely affect our business and results of operations

Our business and financial performance are affected by global and local economic conditions. In addition, our Company's performance is significantly influenced by the economic situation and governmental policies in India. A slowdown in global economic growth or in economic growth in India (including as a result of the COVID-19 pandemic) could exert downward pressure on the demand for our certain products which could have an adverse effect on our business, cash flows, financial condition and results of operations. Further, a prolonged weakness in the global and domestic Indian financial and economic situation may have a negative impact on third parties with whom we do, or may do, business.

40. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to "Key Industry Regulations and Policies" beginning on page 93 for details of the laws currently applicable to us. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. Any unfavorable changes to the laws and regulations applicable to us could also subject us to additional liabilities. GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge currently being collected by the central and state governments. The GST is expected to increase tax incidence and administrative compliance. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

41. Any downgrading of India's debt rating by an independent may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rate and other commercial terms at which such additional financing may be available. This could have adverse effect on our business and future financial performance, its ability to obtain financing for capital expenditures and the price of our Equity Shares.

42. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

43. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

44. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

45. Natural calamities and Epidemics could have a negative impact on the Indian economy and cause our Company's business to suffer.

Natural disasters such as floods, earthquakes, famines and pandemics have in the past had a negative impact on the Indian economy, and also out-break of health epidemics and such similar events could affect our business operations which may result in inability to effectively manage the effects of the particular event. Potential effects include the damage to our business cycle and the loss of business continuity or business information. Due to all these factors our operations may be significantly interrupted, which may materially and adversely affect our business, financial condition and results of operations.

46. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including

the Equity Shares.

47. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

48. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager shall appoint Designated Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

49. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of "BSE" in a timely manner, or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted unless the post issue formalities are completed after the Equity Shares have been issued. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of "BSE". Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

50. *Conditions in the Indian Securities market may affect the price or liquidity of the Equity Shares.*

Indian stock exchanges have, in the past, experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading, limited price movements and increased margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected.

POLY VINYL CHLORIDE (PVC)

GLOBAL MARKET

The global polyvinyl chloride (PVC) market size was estimated to be 62,654.7 million in 2018 and is expected to grow at a CAGR of 7.2% during forecast period. PVC resins are the synthetic polymer and are the third most widely manufactured after polypropylene (PP) and polyethylene (PE). (Source: <https://www.polarismarketresearch.com/>)

PVC MARKET IN INDIA

Poly Vinyl Chloride (PVC) demand in India witnessed an impressive CAGR in the historic years and is projected to achieve a healthy CAGR of over 6.81% during 2015-2030. Polyvinyl Chloride comes under the category of synthetic polymers and are a part of vinyl chain. These polymers are highly desired in various industries owing to its non-flammability, ease of processing and molding and superior strength. Pipe grade PVC accounts for over 40 per cent of the overall demand for PVC in the country as the product is extensively used in the production of water-distribution and underground irrigation pipes. Government policies in the budget of FY 20 for improvisation in facilities for piped water supply in rural areas has given a much-needed push in the demand for PVC in the domestic market.

(Source: <https://www.chemanalyst.com/>)

Another large percentage of PVC demand comes from construction industry where it is utilized in the manufacturing of profiles, films and insulation. However, due to economic slowdown, halt in the construction activities has led to a considerable decline of PVC demand in the last few years. In contrast, demand for PVC in packaging applications has witnessed a significant growth after the outbreak of Coronavirus in the final quarter of FY 20. The rising awareness for maintaining good hygiene as a preventive measure of the virus has made the food and beverage industry to increase the utilization of flexible packaging to assure complete safety of the packaged products. The demand for PVC in the packaging sector is likely to further propel in the coming years as there are low chances for the complete abatement of the virus till a proper vaccine is attained. As India holds limited capacity to produce PVC, a sufficient percentage of demand for PVC is met through imports from other countries.

Prices of Poly Vinyl Chloride (PVC) are highly susceptible to the prices of its feedstock Vinyl Chloride Monomer (VCM). As Vinyl Chloride Monomer is a majorly imported material, international prices of the product play a very crucial role in determining the prices of its derivative PVC in the domestic market. In FY 20, prices of PVC witnessed a downtrend on decline in demand from automotive industry affected by the prolonged slowdown in the sector due to economic downturn, which was further exacerbated by the outbreak of Coronavirus in the final quarter. Owing to the halt in industrial activities in Q4 FY20, prices of PVC underwent a fall of around 5 per cent from previous fiscal year.

A. BACKGROUND

Rangoli Tradecomm Limited ('the Company') is a limited company domiciled in India and incorporated under the provisions of Companies Act, 1956. The Company is engaged in a business of Polymer and Textiles. Company received a certificate of incorporation from Registrar of Companies, Kolkata on July 30, 2009 bearing Corporate Identification Number (CIN) U51909WB2009PLC137310.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Statement of Assets and Liabilities of the Company as on September 30, 2020, March 31, 2020, March 31, 2019 and March 31, 2018, and the Restated Statement of Profit and Loss and Restated Statements of Cash Flows for the period ended on September 30, 2020 and for the year ended on March 31, 2020, March 31, 2019 and March 31, 2018 and the annexure thereto (collectively, the "**Restated Financial Statements**" or "**Restated Summary Statements**") have been extracted by the management from the Audited Financial Statements of the Company for the period ended September 30, 2020 and for the year ended March 31, 2020, March 31, 2019 and March 31, 2018.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2014 as per section 133 of the Companies Act, 2013.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements, and the reported amount of revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements which in management's opinion are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in current and future periods.

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation is provided on a straight line basis over the useful lives of assets, which is as stated in Schedule II of the Companies Act 2013 or based on technical estimation made by the Company. The details of estimated life for each category of assets are as under:

Category of assets	Estimated Life (Yrs)
Computer	3
Office Equipment's	5
Software	10

Depreciation and amortization methods, useful lives and residual values are reviewed at each reporting date.

5. BORROWING COSTS

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred. Capitalization of borrowing costs is suspended during the extended period in which active development is interrupted. Capitalization of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Other borrowing costs are charged to statement of profit and loss as and when incurred.

6. IMPAIRMENT OF ASSETS

In accordance with AS 28 on 'Impairment of assets' as prescribed in the Companies (Accounting Standards) Rules, 2006, the Company assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss or against revaluation surplus, where applicable. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciated historical cost.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

Inventories of finished goods are valued at cost or net realizable value, whichever is lower. Cost of finished goods includes purchase cost, cost incurred in bringing the inventories to their present location and condition, GST etc.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

9. CURRENT/NON CURRENT CLASSIFICATIONS

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within twelve months after the balance sheet date; or
- d) It is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the balance sheet date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in, the entity's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the balance sheet date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

Non-monetary foreign currency items are carried at cost.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of the Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

12. EMPLOYEE BENEFITS

- a) Provision for Gratuity :-

Since the company does not have more than 10 employer associated with it, provision of Gratuity Act does not applicable.

- b) Leave Encashment :-

- c) Provident Fund :-

Provident fund is a defined contribution scheme as the company pays fixed contribution at pre-determined rates. Since the company does not have more than 10 employer associated with it, provision of Provident Fund Act does not applicable.

13. SEGMENT ACCOUNTING

(i) Business Segment

The Company operates in one Business Segment only and hence no separate information for business segment wise disclosure is required.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely “within India” and hence no separate information for geographic segment wise disclosure is required.

14. ACCOUNTING FOR TAXES ON INCOME

Current Tax

Current tax is determined as the amount of tax payable under the provisions of Income Tax Act, 1961, in respect of taxable income for the year.

Deferred Tax

Deferred income taxes reflect the impact of current year timing difference between taxable income and accounting income for the year and reversal of timing difference of earlier year. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

15. CONTINGENT LIABILITIES AND PROVISIONS

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

16. EARNINGS PER SHARE:

Basic earnings per share are computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted

earnings per share is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

17. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) has proposed to introduce an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. The same was applicable until June 30, 2019 (“UPI Phase I”).

With effect from July 1, 2019, with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Phased implementation of Unified Payments Interface

SEBI has issued a **UPI Circulars** in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I:

This phase has become applicable from January 1, 2019 and will continue till June 30, 2019. Under this phase, a Retail Individual Applicant would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six working days.

Phase II:

This phase commenced on completion of Phase I i.e. with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Applicant through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six working days during this phase.

Phase III:

Subsequently, the time duration from public issue closure to listing would be reduced to be three working days. All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.
