We have in the past, made RBI Submissions and reporting with delays. In the event that we are unable to comply with the regulatory requirements within the specified time limit, or at all, we may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC as the case may be. Any such action may adversely affect our business, prospects, result of operations, financial condition and the trading price of our Equity Shares.

Our Company is regulated by the RBI as a Non-Deposit Taking (ND) and Non-Systematically Important (NSI) Non-Banking Financial Company – Investment and Credit Company "NBFC-ICC" and comes under Base Layer (BL) of the RBI's Scale Based Regulatory Framework. Hence, majority of the regulatory filings and exposure norms are not yet applicable to our company. However, the same may become applicable once we cross a certain benchmark limit as specified by RBI from time to time after which, we would be a Systematically Important (SI) and/or Middle Layer (ML) or Upper Layer (UL) NBFC-ICC and hence would have to adhere to

individual and group borrower exposure limits and periodic reporting and other such compliances and procedures.

Secondly, even though, till date RBI has not conducted any Inspection of our Company and its operations, the RBI has the right to conduct inspections of all NBFCs and notify its findings and observations to such NBFC, which is expected to respond to the RBI's observations and provide clarifications and additional information, as necessary. Being a Non-Deposit Taking, Non-Systematically Important NBFC Company, means that RBI norms for us are relatively lesser stringent, however, there can be no assurance that we would have complied with all requirements as and when applicable.

In the event that we are unable to comply with the regulatory requirements within the specified time limit, or at all, we may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC. We cannot assure you that we may not breach the exposure norms or other regulatory norms in the future. Any levy of fines or penalties or the cancellation of our registration as an NBFC by the RBI by the Government of India, due to the breach of exposure or other applicable norms, may adversely affect our business, prospects, and result of operations, financial condition and the trading price of our Equity Shares.

Further, the RBI's regulation pertaining to NBFC may change or become more rigorous in the future which may require our Company to restructure its activities, incur additional costs or could otherwise adversely affect its business, financial performance and cash flows. There can be no assurance that the RBI and/or the Government will not implement further regulations or policies, including legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that may have an adverse impact on NBFCs.

Compliance with many of the regulations applicable to our operations in India, including any restrictions on investments and other activities currently being carried out by us, involves a number of risks, particularly in markets where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and our business could be adversely affected. We are also subject to changes in laws, regulations and accounting principles and practices. There can be no assurance that the laws governing the financial services sector will not change in the future or that such changes or the interpretation or enforcement of existing and future laws and rules by governmental and regulatory authorities will not adversely affect our business and future financial performance.

3. *As an NBFC, we face the risk of default and non-payment by borrowers and other counterparties. Any such defaults and non-payments would result in write-offs and/or provisions in our financial statements which may materially and adversely affect our profitability and asset quality.*

Any lending or investment activity is exposed to credit risk arising from the risk of default and non-payment by borrowers and other counterparties. Our loan book stood at Rs. 634.89 Lakhs and Rs. 710.37 Lakhs for the FY 2022 and FY 2021 respectively consisting entirely of Unsecured Loans. Many of our loans in the portfolio are loans granted to Small Business Firms (Proprietors / Partnerships) and Individuals (Personal Loans). Further, in relation to the unsecured loans, our ability to realise the amounts due to us for such loans would be restricted to initiating legal proceedings for recovery, as we will not have the benefit of enforcing any security interest related to such loans. There can be no guarantee as to the time that would be taken for the final disposal of such legal proceedings and/or our ability to obtain favourable decisions in connection therewith. Our inability to recover the amounts due from customers in connection with such loans in a timely manner or at all and/or to comply with applicable statutory/regulatory requirements in connection with such loans could adversely affect our operations and profitability.

There has not been any loan write-off in the last three years. However, the size of our loan portfolio is expected to grow as a result of our expansion strategy. This will expose us to an increasing risk of defaults as our portfolio expands. The borrowers and/or guarantors and/or third parties may default in their repayment obligations due to various reasons including insolvency, a lack of liquidity, and operational failure.

In future, we may do business of "Loan against Shares" and "Loan against Property" which may have relatively higher sensitivity to equity and real estate market conditions and also the targeted individual borrowers are generally less financially robust than larger corporate borrowers and often do not have any credit history supported by tax returns and other related documents, as a result, are likely to be more severely affected by deteriorating economic conditions. In deciding whether to extend credit to, or to enter into transactions with,

customers and counterparties, we rely on published credit information relating to such parties and financial and other relevant information furnished to us by customers, and our personal contacts and networks based on which we perform our credit assessment. We cannot be certain that our risk management controls will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan accounts, particularly for individual borrowers, could adversely affect our credit portfolio which could have a material and adverse effect on our business, future financial performance and results of operations. If any of the aforesaid information, as obtained from customers and third parties, is misleading or inaccurate, the procedures that we follow may not be adequate or sufficient to provide accurate data as to the creditworthiness of our customers and counterparties. In the event that we do not accurately identify the risk of default, or if we rely on information that may not be true or may be materially misleading, we may face the risk of default and non-payment by borrowers and other counterparties. Any such defaults and non-payments would result in write-offs and/or provisions in our financial statements which may materially and adversely affect our profitability and asset quality.

4. *Our investments activity and inventory are subject to market risk and judgement of our Management.*

The income from sale & purchase of shares was Rs. 1666.22 Lakhs and Rs. 6642.46 Lakhs representing about 99.04% and 99.76% of the total revenue of the Company for FY 2021-22 and FY 2020-21 respectively. The value of Investments stood at Rs. 454.95 Lakhs and Rs. 472.99 Lakhs and the amount of Inventory of the Company stood at Rs.223.63 Lakhs and 197.29 Lakhs for FY 2021-22 and FY 2020-21 respectively. As at March 31, 2022, our investments subject to market risks primarily include Quoted and Unquoted equity shares. Quoted shares are highly volatile forms of investment, while Unquoted equity shares cannot be traded in online platforms. Also our inventory stock-in-trade primarily includes the purchase and sale of Equity Shares, Equity linked Derivatives and may also include in future units of mutual funds, debt securities, equity instruments, government securities and certificates of deposits. The value of these investments depends on several macro factors beyond our control, including interest rates, the domestic and international economic and political scenario, inflationary expectations, Government policy and the RBI's monetary policies.

They also depend on the various micro factors related to the specific securities including their individual performance, investor sentiment, results, profitability, specific sector, trading liquidity, penal & regulatory actions, etc. Any decline in the value of these investments, their tradability & micro - macro factors may have an adverse effect on our business, financial condition, cash flows, market price and results of operations.

Further, the Management of our Company exercise discretion and judgment on purchase and sale, subscription, acquisition of investment, inventory and stock in trade, mainly Equity Shares and Equity linked Derivatives which are subject to various market risks and are highly volatile forms of investments. Any error in judgment, failure to take timely action, related to purchase, sale, subscription or investment in Equity Shares or Financial Instruments or any unprecedented market volatility & equity-specific performance beyond the control of the Management could expose the Company to potential loss which may adversely affect its business, performance, cash flows, results of operations as well as Market price.

5. *Some the loans granted are short term in nature.*

At the end of FY 2021-22, 49.73% of the loans we granted are due within one year of disbursement or are to be renewed within one year if need be or are given on-call basis, thus they are short term in nature. The relatively short-term nature of our loans means that our long-term interest income stream is less certain than if a portion of our loans were for a longer term. In addition, our borrowers may not obtain new loans from us upon maturity of their existing loans, particularly if competition increases. Further, some of our loans are repayable on short notice / demand and hence we are unable to charge high interest rates (if at all) to these clients. The potential instability of our interest income could materially and adversely affect our results of operations and financial position.

6. *We are a listed company and are required to comply with rules and regulations imposed by the Stock Exchanges and SEBI with respect to continuous listing and the Companies Act. Any failure to comply with such rules and regulations or any wrong disclosure made to the Stock Exchange or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.*

As a listed company, we are required to comply with certain conditions for continuous listing under the SEBI Listing Regulations and other rules and regulations imposed by SEBI, which require us to make certain periodic disclosures, including disclosures about any material events or occurrences with respect to our Company,

disclosure of our financial statements and disclosure of our updated shareholding pattern. Any failure to comply with these continuous disclosure requirements or any wrongful disclosure made by us to the Stock Exchange or any other statutory authority may lead to penalties being imposed on us.

There has been, on few occasions, inadvertent Non Compliances done by our Company as required under the provisions of SEBI LODR 2015. We believe, we are in compliance with rules and regulations imposed by the BSE and SEBI with respect to continuous listing, any failure to comply with such rules and regulations or any wrong disclosure/ Non filing to the BSE or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.

7. *Our Company may incur penalties or liabilities for non-compliances with few provisions of the Companies Act and other applicable laws in the last five (5) Years.*

In the past, there have been few instances of delays/ Non-filing of statutory forms as per the reporting requirements under the Companies Act, 2013 with the RoC.

Our Company may incur penalties or liabilities for non-compliance with few provisions including lapses/ delays in certain filings and/or erroneous filing/ Non-filing of e-forms under Company Act, 2013 applicable to it and non-registration of rent agreement in the past years.

Such non-compliances/delay Compliances / erroneous filing/ Non-filing /Non Registration may incur the penalties or liabilities which may affect the results of operations and financial conditions.

8. *High levels of customer defaults or delays in repayment of loans could adversely affect our business, financial condition and results of operations.*

Our business involves lending money and accordingly we are subject to customer default risks including default or delay in repayment of principal and/or interest on our loans. However, as on Fiscal 2022 and 2021, we not reported such instants. Although, customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan contracts, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

9. *Our indebtedness and the conditions and restrictions imposed by our financing agreements could restrict our ability to conduct our business and operations in the manner we desire.*

Our Company reported a financial indebtedness of Rs. 162.42 Lakhs and Rs. 229.58 Lakhs, respectively for Fiscal 2022 and 2021. We may incur additional indebtedness in the future. In future our financing agreements may include various restrictive conditions and covenants restricting certain corporate actions, and our Company may be required to take the prior approval of the lender before carrying out such activities. Our indebtedness could have several important consequences, including our cash flows being used towards repayment of our existing debt, which will reduce the availability of our cash flow to fund our working capital, capital expenditures and other general corporate requirements. Moreover, our ability to obtain additional financing or renewal of existing facilities, in the future at reasonable terms may be restricted or our cost of borrowings may increase due to sudden adverse market conditions, including decreased availability of credit or fluctuations in interest rates. There could be a material adverse effect on our business, financial condition and results of operations if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements and we may be more vulnerable to economic downturns, which may limit our ability to withstand competitive pressures and may reduce our flexibility in responding to changing business, regulatory and economic conditions.

10. *We are significantly dependent on a few major borrowers. Our inability to expand our loan book to include more number of borrowers and hence reduce dependence on certain borrowers could result in large write-offs or other financial instability.*

We earn interest income from our Loan Portfolio and our Investment in Debt Instruments (including Bank Fixed Deposits). Being a NBFC dealing in unsecured short term finance our ability to grow our loan book is restricted to only those clients whom we either know through our networks or come from a good reference. The

interest earned from our top 10 borrowers constituted approximately 51.22% and 26.65% of the Total Interest Earned for the FY 2022 and FY 2021 respectively.

While our Company has done substantial business with these customers in the past, we do not have any legally binding long term agreements or commitments to supply capital / funds to them in the future and we cannot assure that we would receive any business at all from any of these customers in the future, or receive business from them on terms and conditions commercially acceptable to us.

Secondly, due to the major portion of loans being short term and not severely secured, we rely substantially on our promoter and key manager's judgment and long term relations with such clients to whom we lend money. We do not have a large retail loan portfolio i.e. to the public at large and are hence a niche loan provider to a specific class of customers, and we shall hence be more dependent on regular business from such customers. Loss of one or more of our major customers would have a material adverse effect on our business, results of operations and financial condition.

11. We depend on the accuracy and completeness of information about customers and counterparties for certain key elements of our credit assessment and risk management process. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.

In deciding whether to extend credit or enter into other transactions with customers, for certain key elements of the credit assessment process, we rely on representation and/or information furnished to us by or on behalf of customers (including in relation to their financial transactions and past credit history). We may also rely on certain representations from our customers as to the accuracy and completeness of that information. All of our loans are unsecured, however in future for ascertaining the creditworthiness and encumbrances on collateral we may depend on the representations by the customer, third parties and we also exercise our own judgement and experience in relation to the representations (whether written or otherwise) by the customer, the value of the collateral, and our reliance on any misleading information given, may affect our judgement of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, prospects, results of operations and financial condition. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent or deter such activities in all cases, which may adversely affect our business prospects, financial condition and results of operations.

12. Conflicts of interest with our company and our corporate Promoter.

There are no other RBI registered NBFC companies which are promoted by our promoters. However, the Memorandum of Associations of our corporate promoter has certain Object Clauses which would allow it to undertake a similar business as us. We have not entered into any non-compete agreements with our Corporate Promoter and hence, to that extent there exists a potential conflict of interest. We shall endeavor to ensure that most of such conflicts are addressed in a mutually acceptable manner, however, we may not be able to resolve certain situations, for e.g. there can be no assurance that a good investment opportunity in which our corporate promoter may participate would be shared with our company or that our corporate promoter could offer Inter corporate Deposits to companies at better terms than we would. Further, all corporate companies, irrespective of their main objects, have permissions through their ancillary objects to provide ICDs to other corporate companies and earn short term or longer term interest income. Hence, to that extent, even our group companies (who are not in financial business) may compete with us in giving loans to corporate bodies. Potential conflicts of interests between our company and our corporate promoter could hence adversely affect our business prospects.

13. Our Company had negative cash flow during certain fiscal years; details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

(Rs. in Lakhs)		
Particulars	FY 2021-22	FY 2020-21
Net cash from (used in) Operating activities	(12,20,535)	(4,45,357)
Net cash from (used in) Investing activities	17,96,394	-
Net cash from (used in) Financing activities	-	-
Net Cash Flow	5,75,859	(4,45,357)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. For further details please refer to the section titled “Financial Statements” and chapter titled “Management's Discussion and Analysis of Financial Conditions and Results of Operations” beginning on page no. 82 and page no. 167 respectively, of this Draft Letter of Offer.

14. Our Group Companies have incurred losses in the past and may incur losses in the future.

Some of our group companies, have incurred loss in the past. The details of the loss incurred by group companies in last two fiscals are as under:

(Rs. in Lakhs)			
Sr. No.	Name of the Group Companies	FY 2021-22	FY 2020-21
1)	Visagar Polytex Limited	(57.38)	4.18
2)	Jagrecha Finance and Trades Private Limited	(0.71)	(0.25)
3)	Maharashtra Corporation Limited	(65.92)	0.56
4)	Shalimar Productions Limited	5.83	5.88
5)	Saraswati Educare Foundation	(0.40)	(0.35)
6)	Sagar Portfolio Services Limited	(0.27)	(2.75)
7)	Trisha Studios Limited	41.99	19.65

The loss incurred by group companies do not have any impact on overall revenue of the company. Except as stated above, none of the other group companies have incurred any losses in past. There can be no assurance that our group companies will not incur losses in the future, which may have an adverse effect on our reputation and business.

15. The novel coronavirus pandemic (COVID-19 Pandemic) outbreak and steps taken to control the same have significantly impacted our business, results of operations, financial condition and cash flows and further impact will depend on future developments, which are highly uncertain.

The rapid outbreak of the COVID-19 Pandemic, resulted in an unpredictable chain of events across the globe. With reduced production and consumption, every economy witnessed a fiscal crunch like never before. The pandemic shook the Indian economy, which was already under the effects of demonetisation and GST enforcement. As Covid-19 Pandemic swiftly made its way into the nation, the Indian Government imposed a strict nationwide lockdown. Trade and travel restrictions along with shutdown of business activities led to a GDP contraction of 23.9%.

The financial year 2020-21 began with ongoing COVID-19 Pandemic that led to nationwide lockdown. The lockdown was relaxed in a phased manner depending upon the severity and magnitude of the spread of the pandemic. The cases started declining after reaching peak levels in September 2020. With revival of economic activities due to easing of lockdown, economy rebounded. However, the resurgence of COVID-19 Pandemic impacted the nascent economic revival that was taking shape. The most vulnerable category of borrowers are individual borrowers, small businesses and MSMEs.

Our Company also lends to MSMEs. In order to mitigate the stress caused by the Covid-19 Pandemic on several sectors across the country, the Government has announced an Emergency Credit Line Guarantee Scheme ("ECLGS"). The ECLGS aims to provide 100 percent guaranteed coverage to the banks, non-banking financial institutions (NBFCs) and other lending institutions in order to enable them to extend emergency credit to business entities that have suffered due to the COVID-19 Pandemic and are struggling to meet their working capital requirements. The scheme aimed to provide Rs 3 lakh crore worth of collateral-free, government-guaranteed loans to micro, small and medium enterprises (MSMEs) across India to mitigate the distress caused by the coronavirus-induced lockdown.

RBI took several standard and innovative measures to ensure liquidity in the system. RBI permitted lending institutions to provide relief to the borrowers for a period of six months starting from 1st March 2020 to 31st August 2020 from EMI payments and working capital interest payments. It also announced relief measures including new restructuring guidelines to retain loans from banks and NBFCs' to such qualifying loans

classified as standard within the regulatory framework. RBI also declared Resolution Framework for COVID-19 Pandemic related stress through which a window to enable lenders to implement a resolution plan in respect of eligible corporate exposures without change in ownership, and personal loans, while classifying such exposures as Standard, subject to specified conditions. Reserve Bank of India vide its circular dated 7th April 2021 instructed all lending institutions to refund / adjust 'interest on interest' to all borrowers including those who had availed of working capital facilities during the moratorium period, irrespective of whether moratorium had been fully or partially availed or not availed.

Given that the COVID -19 Pandemic and its impact on the Company, the actual impact on our Company's loans and advances will also depend on future developments, including, among other things, any new information concerning the severity of the COVID -19 Pandemic and any action to contain its spread or mitigate its impact. While, our Company continue to monitor the developments of the COVID-19 Pandemic situation closely, assess and respond proactively to minimize any adverse impacts on the financial position, cash flows and operating results of our Company, it is possible that the Company's business, financial condition and results of operations could be adversely affected due to the COVID-19 Pandemic. If the COVID-19 Pandemic situation persists or worsens, it may adversely impact our Company's business and the financial condition.

Further the COVID-19 pandemic, resultant effects of the pandemic & post-pandemic economic scenario coupled with the presence of geo-political global tensions & inflationary global environment, and volatility in global equity & commodity thereof have presented a unique scenario of caution as well as optimism in the Financial & Equity Markets and the long term impact on the Financial markets, Equity & Debt markets is yet to be fully seen.

As these are unforeseen circumstances, it may give rise to risks that we may not have anticipated. If the outbreak of any of these pandemic or other severe pandemic, continues for an extended period, occur again and/or increases in severity, it could have an adverse effect on economic activity worldwide, including India, and could materially and adversely affect our business, cash flows, financial condition and results of operations.

16. Our measures to prevent money laundering may not be completely effective and we may be subject to scrutiny and penalties by the RBI for failure to implement effective measures.

Our Company is required to comply with applicable anti-money-laundering and anti-terrorism laws and other regulations in India. Our measures to prevent money laundering as required by the RBI and other KYC compliance applicable in India, including the Reserve Bank of India (Know Your Customer) Master Directions, 2016 dated February 25, 2016, as amended ("KYC Directions") and the adoption of anti-money laundering policies and compliance procedures may not be completely effective. In the event, if any regulatory authorities believes that we are not complying with required money laundering compliances and/or KYC Compliances, there may be civil and criminal penalties for non-compliance and our business and results of operations could be adversely affected.

17. The new bankruptcy code in India may affect our rights to recover loans from borrowers.

The Insolvency and Bankruptcy Code, 2016 ("Bankruptcy Code") was notified on August 5, 2016. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision, and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

In case insolvency proceedings are initiated against a debtor to our Company, we may not have complete control over the recovery of amounts due to us. Under the Bankruptcy Code, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Bankruptcy Code provides a 180-day timeline which may be extended by 90 days when dealing with insolvency resolution applications. Subsequently, the insolvency resolution plan prepared by the insolvency professionals has to be approved by 66% of voting share of financial creditors, which requires sanction by the adjudicating authority and, if rejected, the adjudicating authority will pass an order for liquidation. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it. In case a liquidation process is opted for, the Bankruptcy Code provides for a fixed order of priority in which proceeds from the sale of the debtor's assets are

to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes, debts owed to workmen and other employees. Further, under this process, dues owed to the Central and State Governments rank at par with those owed to secured creditors. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority.

Accordingly, if the provisions of the Bankruptcy Code are invoked against any of the borrowers of our Company, it may affect our Company's ability to recover our loans from the borrowers and enforcement of our Company's rights will be subject to the Bankruptcy Code.

Further, the GoI vide notification dated March 24, 2020 ("Notification") has amended section 4 of the Bankruptcy Code due the lingering impact of the COVID-19 pandemic. Pursuant to the said Notification, GoI has increased the minimum amount of default under the insolvency matters from ₹1,00,000 to ₹1,00,00,000. Therefore the ability of our Company to initiate insolvency proceedings against the defaulters where the amount of default in an insolvency matter is less the ₹1,00,00,000 may impact the recovery of outstanding loans and profitability of our Company.

18. We have entered into certain related party transactions and may continue to do so.

We have entered into related party transactions with our Promoters, its group members/ entities, Directors and other associates. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we will continue to enter into related party transactions in the near future. For further details regarding the related party transactions, see the disclosure on related party transactions contained in the financial statements included in this Draft Letter of Offer and, also see the section "Related Party Transactions" beginning on page no. 126 and 161 of this Draft Letter of Offer.

19. Any increase in or realization of our commitments and contingent liabilities could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospect.

As on March 31, 2022 and March 31, 2021, we had the following commitments and contingent liabilities in our Audited Financial Statements:

Particulars	(Rs. In Lakhs)

Total	40.43	-

For details of the contingent liabilities of our Company, please refer page no. 174 of this Draft Letter of Offer.

20. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

Our Company has not paid any dividend since incorporation. However, our ability to pay dividends in the future will depend on number of factors, including our profit after tax for the fiscal year, utilization of the profit after tax towards reserves, our future expansion plans and capital requirements, our financial condition, our cash flows and applicable taxes, including dividend distribution tax payable by our Company. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and subsequent approval of shareholders and will depend on factors that our Board and shareholders deem relevant. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Further, dividends distributed by us will attract

dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. We cannot assure you that we will be able to pay dividends in the near or medium term or future, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

21. *We require certain approvals, licenses, registrations and permits for our business, and the failure to obtain or renew them in a timely manner may adversely affect our operations.*

Our Company requires certain statutory and regulatory registrations, licenses, permits and approvals for our business. In future, we shall be required to renew such registrations and approvals and obtain new registrations and approvals for any proposed operations, including any expansion of existing operations. While we believe that we will be able to renew or obtain such registrations and approvals, as and when required, there can be no assurance that the relevant authorities will renew or issue any such registrations or approvals in the time frame anticipated by us or at all. Failure to obtain and renew such registrations and approvals with statutory time frame attracts penal provisions. If we are unable to renew, maintain or obtain the required registrations or approvals, it may result in the interruption of our operations and may have a material adverse effect on our revenues, profits and operations and profits.

22. *We face increasing competition in our business which may result in declining margins if we are unable to compete effectively.*

We face competition in all our lines of business. Our primary competitors are other NBFCs, public sector banks, private sector banks, co-operative banks and foreign banks and the unorganized financiers who principally operate in the markets where we operate. Banks have access to low cost funds which enables them to enjoy higher margins and / or offer finance at lower rates. NBFCs do not have access to large quantities of low cost deposits, a factor which can render them less competitive. In addition, interest rate deregulation and other liberalization measures affecting the retail and small and medium enterprises finance sector, together with increased demand for capital by individuals as well as small and medium enterprises, have resulted in an increase in competition.

We face competition from other NBFCs, microfinance companies as well as both commercial and small finance banks. In addition, our target customers also borrow from money lenders and non-institutional lenders which may lend at higher rates of interest. Our ability to compete effectively will depend, to some extent, on our ability to raise low-cost funding in the future. Furthermore, as a result of increased competition in the finance sector, finance products are becoming increasingly standardized and variable interest rate and payment terms and lower processing fees are becoming increasingly common in the finance sector in India. There can be no assurance that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive finance industry. Increasing competition may have an adverse effect on our net interest margin, and, if we are unable to compete successfully, our market share may decline. If we are unable to compete effectively with other participants in the finance sector, our business, future financial performance may be adversely affected.

23. *Our Registered Office and other premises from where we operate are not owned by us. If we are required to vacate the same, due to any reason whatsoever, it may adversely affect our business operations.*

Our Registered office is owned by our Promoter- Mr. Tilokchand Manaklal Kothari and “No Objection Letter” has been obtained from him for using the premises as the registered office address for our company and no rent payment is being made by us for usage of premises since October 2010. Although, we have complied with all the terms of such NOC, in the event there is any breach or violation or if our promoter decides to withdraw his NOC, we may be required to vacate the premises and we may be required to look for alternate premises, which we may not be able to find at terms favourable to our Company. In such an event, it will adversely affect our business operations and our financial condition.

24. *Some of our corporate records including forms filed with the Registrar of Companies are not traceable.*

We cannot assure you that these forms filings will be available in the future or that we will not be subject to any penalties imposed by the relevant regulatory authority in this respect. Our Company is unable to trace certain corporate and other documents in relation to our Company including forms filed with the Registrar of Companies. Certain forms filed with the ROC like increase in authorised capital could not be traced. Our

Company cannot assure you that the filings were made in timely manner, or the information gathered through other available documents of the Company are correct. Also, our Company may not be in a position to attend to and / or respond appropriately to any legal matter due to lack of lost records and to that extent the same could adversely affect our business operations.

- 25. *Our company has made an application register the logo of our Company with the Trade Marks Registry of Mumbai. Any delay in granting registration or objection/ opposition/ rejection of our application for registration could result in loss of brand equity and the company's right to use the said brand.***

Our Company has made application with Trade Mark Registry, Mumbai on 13-09-2022 to register the word "Visagar" of the company under Class 36. While the application is filed for registration, if the same is not accepted or if there are oppositions/ objections/ rejections, our company may lose the statutory protection available to it under the Trade Marks Act, 1999 for such trademarks there affecting our business, reputation, financial condition and results of operations. For further details, please refer to the chapter titled '**Government and Other Approvals**' beginning on page no.182 of the Draft Letter of Offer.

- 26. *Our Group Companies also use the name "VISAGAR".***

Our Group Companies also use the name VISAGAR and are known in the market in their respective trades by that name. There is no written understanding between the group companies regarding name usage policy, nor has any group company sought any trademark protection for the exclusive use of name "VISAGAR". It is understood that the name "VISAGAR" is an integral part of the Company's business. The use of name VISAGAR or any similar intellectual property rights or by group Companies, or trademark of such or similar names by group companies, may have a material adverse effect on our business.

We cannot assure that our Promoter/ Promoter Group who has common interest in such entities will not favour the interest of such entities. As a result, conflicts of interests may arise on account of common suppliers/ customers and in allocating business opportunities amongst our Company and such entities in circumstances where our respective interests diverge.

Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations. We cannot assure you that these or other conflicts of interest, in the event such conflicts arise, will be resolved in an impartial manner.

- 27. *Our Company has not taken any insurance coverage which may protect us against certain operating hazards and from all losses and this may have an adverse impact on the financial conditions of the business.***

Our Company has not taken any insurance cover at present. Hence, we may not be able to protect ourselves from any damage or loss suffered by us. To the extent that we suffer any loss or damage, the operational results of the company could be adversely affected. The company does not maintain a directors and officers liability insurance policy for the directors or key managerial personnel of the Company.

- 28. *We are exposed to operational risks, including employee negligence, petty theft, burglary and embezzlement and fraud by employees, customers or third parties, which could harm our results of operations and financial position.***

We are exposed to the risk of theft, burglary and misappropriation or unauthorized transactions by our employees and fraud by employees, customers or third parties. Our security systems and measures undertaken to detect and prevent these risks may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our operations and profitability. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transaction, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill.

- 29. *We face risks associated with potential acquisitions, investments, strategic partnerships or other ventures that could adversely affect our results of operations.***

We may acquire or make investments in complementary businesses, technology, services or products or enter into strategic partnerships with parties who can provide access to those assets, if appropriate opportunities arise. The general trend towards consolidation in the financial services industry increases the importance of our ability

to successfully complete such acquisitions and investments. We may not identify suitable acquisition, investment or strategic partnership, candidates, or if we do identify suitable candidates, we may not complete those transactions on commercially acceptable terms or at all. If we acquire another company, we could have difficulty in assimilating that company's personnel, operations, technology and software. In addition, the key personnel of the acquired company may decide not to work for us. If we make other types of acquisitions, we could have difficulty in integrating the acquired products, services or technologies into our operations. These difficulties could disrupt our ongoing business, distract our management and employees and increase our expenses.

30. *Our business requires substantial capital, and any disruption in funding sources would have a material and adverse effect on our liquidity and financial condition.*

The liquidity and ongoing profitability of our business are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from a combination of shareholder funding, secured and unsecured loan funds, with equity being a pre-dominant source. Thus, our business depends and will continue to depend on our ability to access diversified funding sources. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. Further as we grow, we may have to finance our funding from debt also. Any disruption in our primary funding sources at competitive costs would have a material adverse effect on our liquidity and financial condition.

31. *Our business is based on the trust and confidence of our customers; any damage to that trust and confidence may materially and adversely affect our business, future financial performance and results of operations.*

We are dedicated to earning and maintaining the trust and confidence of our customers and we believe that the good reputation is essential to our business. The reputation of our Company could be adversely affected by any threatened and/or legal proceedings and/or any negative publicity or news articles in connection with our Company. As such, any damage to our reputation could substantially impair our ability to maintain or grow our business. If we fail to maintain brand recognition with our target customers due to any issues with our product offerings, a deterioration in service quality, or otherwise, declines our market perception and customer acceptance of our brands may also decline.

32. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be impaired.*

Certain of our agreements, including, but not limited to, the Loan Agreements and KYC Documents etc may not be adequately stamped or registered under Indian law. In the event of any such irregularity, we may not be able to enforce our rights under such agreements, businesses or properties in the event of a dispute with a third party unless we pay the applicable duty as well as a penalty of up to ten times the amount of the stamp duty.

33. *System failures or inadequacy and security breaches in computer systems may adversely affect our business.*

Our trade portfolio dashboard, financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are wholly or partially beyond our control including a disruption of electrical or communications services. Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. Our operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Our online trading systems, computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security. Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation. In addition, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the localities in which we are located.

34. *Our inability to effectively implement our growth strategies or manage our growth could have an adverse effect on our business, results of operations and financial condition.*

Our growth strategy envisages a very strong asset size and operational income growth. However, there could be a possibility that we may not grow at a comparable rate to our growth rate in the past or the required growth rate to effectively compete in the market either in terms of profit or income. Further, such growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls and more importantly adhering to quality and high standards that meet customer expectations. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

35. *As the Equity Shares of our Company are listed on BSE, our Company is subject to certain obligations and reporting requirements under SEBI Listing Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us/our promoter liable to prosecution and/or penalties.*

Our Company is subject to the obligations and reporting requirements under SEBI Listing Regulations. In the past, our Company had not complied with certain provisions of the SEBI Listing Regulations. Though our Company endeavours to comply with all such obligations/reporting requirements, there have been certain instances of non-compliance and delays in complying with such obligations/reporting requirements. Any such delays or non-compliance would render our Company to prosecution and/or penalties. Although our Company have not received any further communication from the Stock Exchange or any authority in this regard, there could be a possibility that penalties may be levied against our Company for certain instances of non-compliance and delays in complying with such obligations/reporting requirements.

36. *We are dependent on our Promoter, our senior management, directors and key personnel of our Company for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.*

Our Promoter, Directors, senior management and key managerial personnel collectively have vast years of experience in the industry and are difficult to replace. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. For further details of our Directors and key managerial personnel, please refer to Section "Our Management" on page 79 of this Draft Letter of Offer. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently.

Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

37. *Our Promoter and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.*

Our Promoters and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs. So long as the Promoters have a majority holding, they will be able to elect the entire Board and control most matters affecting us, including the appointment and removal of the officers of our Company, our business strategy and policies and financing. Further, the extent of the Promoters' shareholding in our Company may result in the delay or prevention of a change of management or control of our Company, even if such a transaction may be beneficial to the other shareholders of our Company.

38. *Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.*

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund

requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our Board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control.

39. *Any variation in the utilization of the Net Proceeds as disclosed in this Draft Letter of Offer shall be subject to certain compliance requirements, including prior Shareholders' approval.*

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Letter of Offer without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

40. *Our Company's management will have flexibility in utilizing the Net Proceeds. There is no monitoring agency appointed by our Company and the deployment of funds is at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.*

The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors and is not subject to monitoring by external independent agency. As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above Rs. 10,000.00 lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Net Issue Proceeds to the BSE Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

41. *Certain data mentioned in this Draft Letter of Offer has not been independently verified.*

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

ISSUE SPECIFIC RISK FACTORS

42. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

43. Any future issuance of the Equity Shares, or convertible securities by our Company may dilute your future shareholding and sales of the Equity Shares by our Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, or convertible securities by our Company, including through exercise of employee stock options or restricted stock units may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Further, any future sales of the Equity Shares by the Promoters and members of our Promoter Group, or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

44. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to long-term capital gains tax in India if Securities Transaction Tax (STT) is paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares, except in the case of such acquisitions where STT could not have been paid, as notified by the GoI under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, Finance Act, 2018, taxes such long term capital gains exceeding ₹1 lakh arising from sale of equity shares on or after April 1, 2018. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

45. You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. We cannot assure you that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

46. Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer chapter titled "Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form" on page 197 of this Draft of Letter of Offer.

47. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to

the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Issue Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

48. *Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.*

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

49. *Your ability to acquire and sell the Issue Shares offered in the Issue is restricted by the distribution, solicitation and transfer restrictions set forth in this Draft Letter of Offer.*

No actions have been taken to permit an offering of the Issue Shares in the Issue in any jurisdiction except India. As such, our Issue Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Further, your ability to acquire Issue Shares is restricted by the distribution and solicitation restrictions set forth in this Draft Letter of Offer. For further information, please refer to the chapters entitled 'Notice to Investors', 'Other Regulatory and Statutory Disclosures' and 'Restrictions on Foreign Ownership of Indian Securities' on pages 13, 184 and 217, respectively. You are required to inform yourself about and observe these restrictions. Our representatives, our agents and us will not be obligated to recognize any acquisition, transfer or resale of the Issue Shares made other than in compliance with applicable law.

50. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained Government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

51. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to of volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in

certain securities, limitations on price movements and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares.

52. *The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are:

- (a) quarterly variations in the rate of growth of our financial indicators such as earnings per share;
- (b) changes in revenue or earnings estimates or publication of research reports by analysts;
- (c) speculation in the press or investment community;
- (d) general market conditions; and,
- (e) domestic and international economic, legal and regulatory factors unrelated to our performance.

53. *There is no guarantee that the Rights Equity Shares issued pursuant to the Issue will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, permission for listing of the Rights Equity Shares will not be granted until after those Rights Equity Shares have been issued and allotted. In addition, we are required to deliver the Draft Letter of Offer to SEBI and the Stock Exchanges under the applicable provisions of the Companies Act and the SEBI ICDR Regulations. The trading approvals shall be granted subject to the submission of all other relevant documents authorizing the issuing of Rights Equity Shares. There could be a failure or delay in listing the Rights Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict investors' ability to dispose of their Equity Shares. Further, a closure of, or trading stoppage on the Stock Exchanges could adversely affect the trading price of the Equity Shares.

EXTERNAL RISK FACTORS

54. *Political instability or changes in the government or government policies could impact the liberalization of the Indian economy.*

The performance and growth of our Company is dependent on the health of the Indian economy and more generally the global economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well. As a result, our business and the market price and liquidity of the Equity Shares may be affected by such economic and / or political changes. While the current government is expected to continue the liberalization of India's economic and financial sectors and deregulation policies, there can be no absolute assurance that such policies will be continued. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and specifically have an adverse effect on the operations of our Company.

55. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a

greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

56. *Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Currently, the Russia- Ukraine conflict has resulted in significant increase in a global oil prices which could have a significant impact on inflation and cost of production. Additionally, essential raw materials for the manufacture of various products could be affected globally due to the aforementioned European crisis which could have cascading effect on the Indian economy and the trading price of our Equity Shares.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

57. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial condition.*

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavorable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and / or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial condition.

58. *General economic conditions in India and globally could adversely affect our business, results of operations and financial condition.*

Our business, prospects, results of operations and financial condition depend significantly on worldwide economic conditions and the health of the Indian economy. Various factors may lead to a slowdown in the Indian or world economy which in turn may adversely impact our business, prospects, results of operations and financial condition. Our Company mainly derives revenue from operations in India and the performance and

growth of our business is significantly dependent on the performance of the Indian economy. In the past, the Indian economy has been affected by global economic uncertainties, liquidity crisis, domestic policies, global political environment, volatility in interest rates, volatility in currency exchange rates, volatility in commodity and electricity prices, volatility in inflation rates and various other factors. Accordingly, high rates of inflation in India could increase our Company's employee costs and decrease our operating margins, which could have an adverse effect on our business, prospects, results of operations and financial condition.

Further the Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, also have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our Company's business. A slowdown in the Indian economy could adversely affect the policy of the Government of India towards the industry in which our Company operates, which may in turn, adversely affect our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business, results of operations and financial condition as well as the market price of the Equity Shares.

59. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition. India's physical infrastructure is in a developing phase, as compared to that of many developed nations.

Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could have an adverse effect on our results of operations and financial condition.

60. A downgrade in ratings of India, may affect the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. India's sovereign rating is Baa3 with a "stable" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a "negative" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

61. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

SECTION IV: ABOUT OUR COMPANY INDUSTRY OVERVIEW

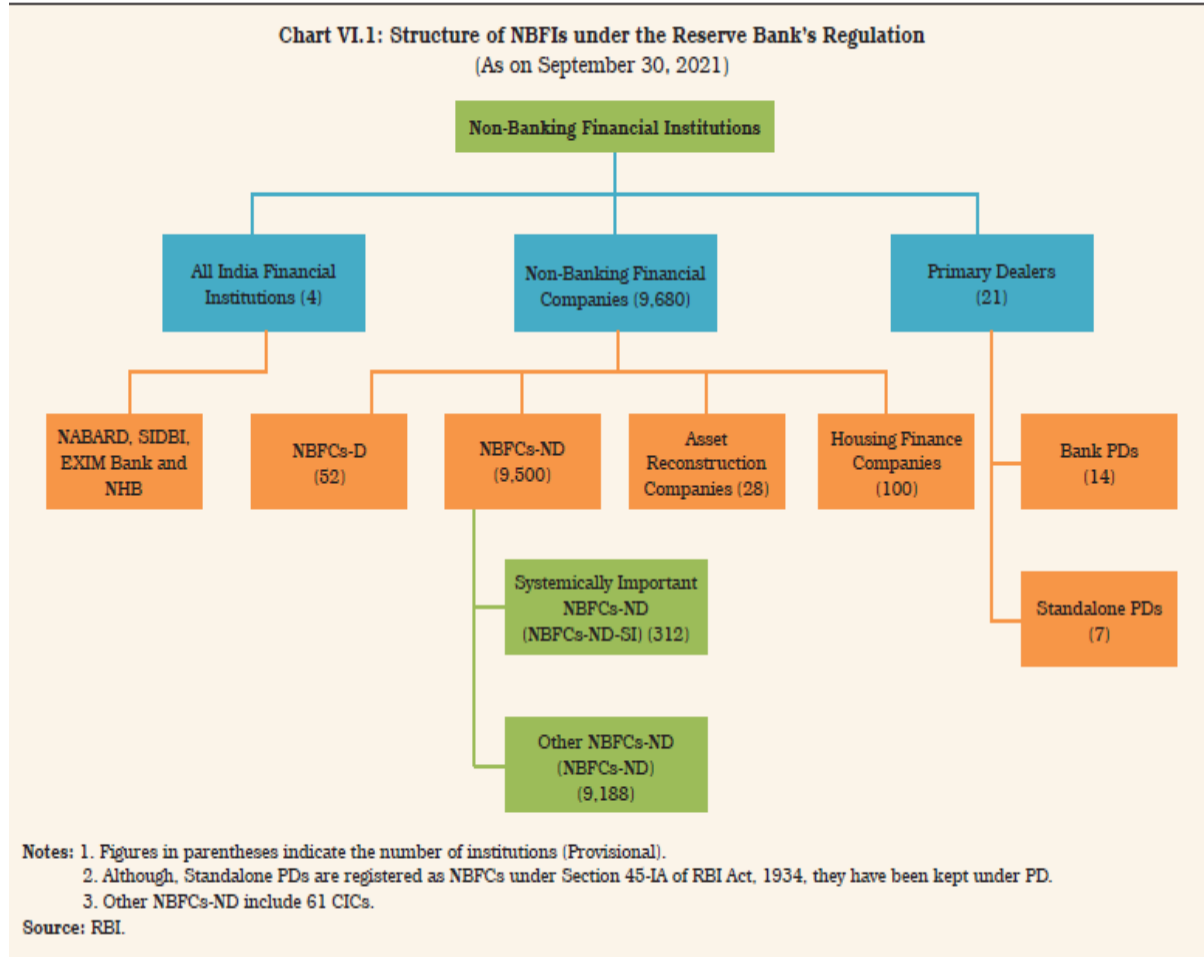

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and accordingly, investment decisions should not be based on such information.

Introduction

NBFC is a Financial Institution that is into Lending or Investment or collecting monies under any scheme or arrangement but does not include any institutions which carry on its principal business as agriculture activity, industrial activity, trading and purchase or sale of immovable properties. A company that carries on the business of accepting deposits as its principal business is also an NBFC.

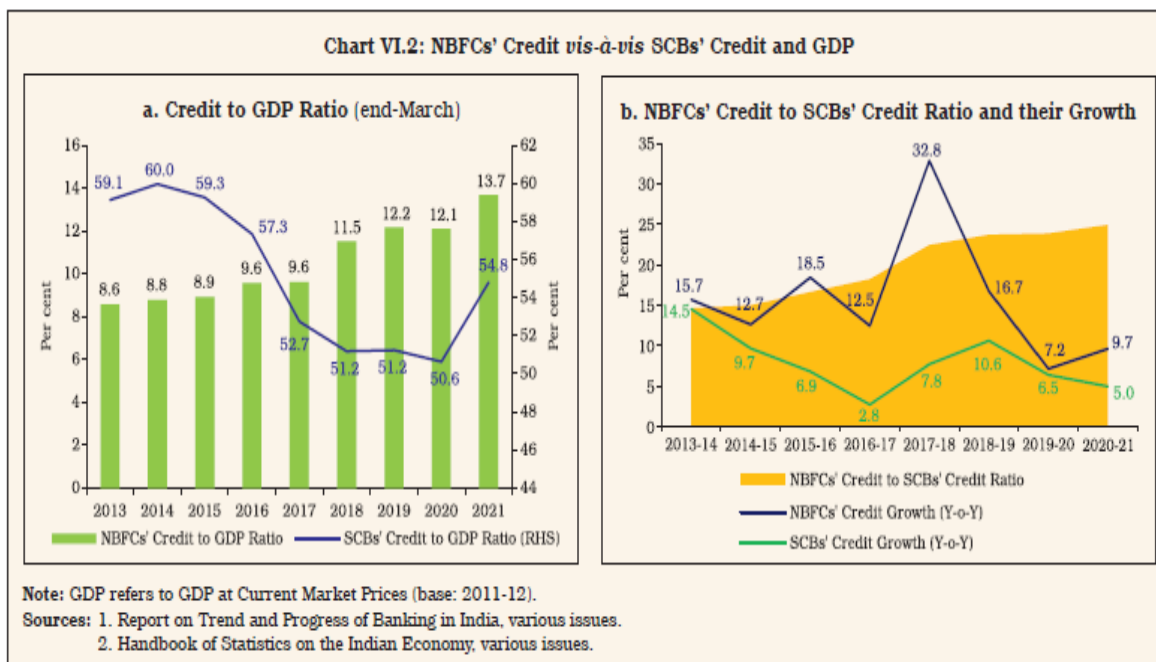

India has a diversified financial sector undergoing rapid expansion, both in terms of the strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds, and other smaller financial entities. The banking regulator has allowed new entities such as payments banks to be created recently thereby adding to the types of entities operating in the sector.

NBFC Market Outlook

NBFCs' credit intensity measured by the credit/GDP ratio has been rising consistently, reaching a high in 2021 (Chart VI.2 a). Significantly, NBFCs' credit as proportion to SCBs' credit has also risen (Chart VI.2 b).

Regulatory guidelines mandate that only those NBFCs with minimum net owned funds (NOF) of ₹2 crore can be allowed to operate. In 2018-19, there was a record amount of cancellations/surrender of licenses of noncompliant NBFCs. During 2020-21, the number of registrations and cancellations were the lowest in the last five years.

The NBFC sector is dominated by NBFCs-ND-SI that constitute 85.1 per cent of the total assets of the sector. The number of large government-owned NBFCs, which mainly lend in the infrastructure space, has remained unchanged but their share in total assets of NBFCs-ND-SI has increased during the year (Table VI.2).

The Reserve Bank has been monitoring the operations and growth of NBFCs-D in order to secure depositors' interest, given that deposits of NBFCs-D are not covered by the Deposit Insurance and Credit Guarantee Corporation (DICGC). The Reserve Bank has mandated that only investment grade NBFCs-D shall accept fixed deposits from the public up to a limit of 1.5 times of their NOF and for a tenure of 12 to 60 months only, with interest rates capped at 12.5 per cent. NBFCs-D accounted for 14.9 per cent of the total assets of the NBFC sector at end-March 2021. Privately owned NBFCs-D accounted for 88.4 per cent of NBFCs-D' total assets in 2020-21 (Table VI.2).

During the year under review, the balance sheet of NBFCs expanded at a faster rate than a year ago, driven essentially by growth in credit and investments of NBFCs. In 2020-21, the share capital and reserves of NBFCs expanded significantly as some NBFCs raised additional capital *via* rights issues, NBFCs also increased their investments substantially during the year.

On credit disbursement, 57 NBFCs, each having a loan book of more than ₹5000 crore, lent 90.1 per cent of the total credit disbursed in 2020-21 (Chart VI.4). Smaller NBFCs (asset size less than ₹500 crore) are numerous but accounted for only 0.9 per cent of total NBFC credit outstanding. VI.14 Amongst NBFCs-ND-SI, ICCs, IFCs and NBFCs-MFI together accounted for 98.1 per cent of the total asset size of the sub-sector in March 2021. All categories of NBFCs-ND-SI exhibited balance sheet growth in 2020-21,

NBFCs in middle layer and upper layer shall be known as NBFC - Middle Layer (NBFC-ML) and NBFC - Upper Layer (NBFC-UL) respectively. The Top Layer is ideally expected to be empty and will be known as NBFC - Top Layer (NBFC-TL).

Details of NBFCs populating the various layers shall be as prescribed in paras 1.2 to 1.6 below:

Base Layer: 1.2 The Base Layer shall comprise of (a) non-deposit taking NBFCs below the asset size of ₹1000 crore and (b) NBFCs undertaking the following activities- (i) NBFC-Peer to Peer Lending Platform (NBFC-P2P), (ii) NBFC-Account Aggregator (NBFC-AA), (iii) Non-Operative Financial Holding Company (NOFHC) and (iv) NBFCs not availing public funds and not having any customer interface.

Middle Layer: 1.3 The Middle Layer shall consist of (a) all deposit taking NBFCs (NBFC-Ds), irrespective of asset size, (b) non-deposit taking NBFCs with asset size of ₹1000 crore and above and (c) NBFCs undertaking the following activities (i) Standalone Primary Dealers (SPDs), (ii) Infrastructure Debt Fund - Non-Banking Financial Companies (IDF-NBFCs), (iii) Core Investment Companies (CICs), (iv) Housing Finance Companies (HFCs) and (v) Infrastructure Finance Companies (NBFC-IFCs).

Upper Layer: 1.4 The Upper Layer shall comprise of those NBFCs which are specifically identified by the Reserve Bank as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology as provided in the Appendix to this circular. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

Top Layer: 1.5 The Top Layer will ideally remain empty. This layer can get populated if the Reserve Bank is of the opinion that there is a substantial increase in the potential systemic risk from specific NBFCs in the Upper Layer. Such NBFCs shall move to the Top Layer from the Upper Layer.

Categorisation of NBFCs carrying out specific activity

- 1.6 As the regulatory structure envisages scale based as well as activity-based regulation, the following prescriptions shall apply in respect of the NBFCs NBFC-P2P, NBFC-AA, NOFHC and NBFCs without public funds and customer interface will always remain in the Base Layer of the regulatory structure.
- NBFC-D, CIC, IFC and HFC will be included in Middle Layer or the Upper Layer (and not in the Base layer), as the case may be. SPD and IDF-NBFC will always remain in the Middle Layer.
- The remaining NBFCs, viz., Investment and Credit Companies (NBFC-ICC), Micro Finance Institution (NBFC-MFI), NBFC-Factors and Mortgage Guarantee Companies (NBFC-MGC) could lie in any of the layers of the regulatory structure depending on the parameters of the scale based regulatory framework.

While Pillar 2 capital will not be insisted upon, NBFCs are required to make a realistic assessment of risks. Internal capital assessment shall factor in credit risk, market risk, operational risk and all other residual risks as per methodology to be determined internally. The methodology for internal assessment of capital shall be proportionate to the scale and complexity of operations as per their Board approved policy. The objective of ICAAP is to ensure availability of adequate capital to support all risks in business as also to encourage NBFCs to develop and use better internal risk management techniques for monitoring and managing their risks. This will facilitate an active dialogue between the supervisors and NBFCs on the assessment of risks and monitoring as well as mitigation of the same.

Additional regulatory changes under SBR applicable to NBFC-UL

A detailed circular on the areas mentioned at para c above will be issued by the Reserve Bank in due course. In the meantime, extant norms shall prevail.

Additional regulatory changes under SBR applicable to NBFC-UL

d) Large Exposure Framework – It has been decided to introduce Large Exposure Framework (LEF) for NBFCs placed in the Upper Layer. Accordingly, large exposure of an NBFC to all counterparties and groups of connected counterparties will be considered for exposure ceilings. Simplified and separate guidelines will be issued incorporating the definition of large exposure, regulatory reporting and large exposure limits.

4.2 Transition of NBFCs to the Upper Layer

- a) Once an NBFC is categorised as NBFC-UL, it shall be subject to enhanced regulatory requirement, at least for a period of five years from its classification in the layer, even in case it does not meet the parametric criteria in the subsequent year/s. In other words, it will be eligible to move out of the enhanced regulatory framework only if it does not meet the criteria for classification for five consecutive years.
- b) NBFC-UL may however move out of the enhanced regulatory framework before the period of five years if the movement is on account of voluntary strategic move to readjust operations as per a Board approved policy. Impact of COVID-19 on NBFC

The Indian economy has been severely affected due to coronavirus outbreak. The worst effect has been on the majority of small businesses in comparison to the big companies as large corporates have sufficient profits, contingency funds and a large customer base to survive without bearing the negative effect of the lockdown.

If we talk about small businesses, they have a shortage of funds to survive as their operational cost is higher than their revenue. Thus, by the time this pandemic come to an end, most of them would be in a situation to forcefully wind up. Non-Banking Finance Companies have also been largely affected due to the coronavirus lockdown in India. Let's have a look at the Impact of COVID-19 on NBFC.

Liquidity Issues Faced by NBFCs

The NBFC Sector is staring at another bout of liquidity challenges due to the side effects of COVID-19. Earlier, there was no clarity on whether the three-month moratorium applies to the loans which NBFCs have taken from the Banks or not. NBFCs were to repay the loan amount to the banks when their inflows have been affected due to a three-month moratorium period provided by them to their customers on terms loans as advised by Reserve Bank of India.

It means that initially, there was no moratorium period provided to the NBFC and HFC by the Banks, that are availing credits from them like any other borrower and it has been currently observed that in aggregate, NBFCs have Rs 1.75 trillion of debt obligations maturing by them to the banks.

Moratorium becomes important for NBFCs and HFCs mainly because these lenders, unlike banks, do not have access to systemic sources of liquidity and depend significantly upon wholesale funding. Bank borrowing is a significant source of funding for the shadow banking sector, especially the smaller ones. Apart from that, they borrow money from the debt capital markets via instruments like NCDs and CPs. Of late, many NBFCs have been acquiring overseas through ECBs, given the liquidity challenges they have been encountering in the domestic market.

NBFC: Growing in prominence

- Non-banking financial companies (NBFCs) are rapidly gaining prominence as intermediaries in the retail finance space.

- The public funds of NBFCs increased from US\$ 278.23 billion in 2016 to US\$ 470.74 billion in 2020 at a CAGR of 14.04%.
- There were 9,425 NBFCs registered with the RBI as of January 22, 2021.
- In December 2020, the Reserve Bank of India issued a draft circular on declaration of dividends by NBFCs, wherein it proposed that NBFCs should have at least 15% Capital to Risk Weighted Assets Ratio (CRAR) for the last 3 years, including the accounting year for which it proposes to declare a dividend.
- In July 2021, Rajya Sabha approved the Factoring Regulation (Amendment) Bill in 2020, enabling ~9,000 NBFCs to participate in the factoring market. The bill also gives the central bank the authority to establish guidelines for improved oversight of the US\$ 6 billion factoring sector.
- On September 30, 2021, the Reserve Bank of India communicated that the applicable average base rate to be charged by non-banking financial company - micro finance institutions (NBFC-MFIs) to their borrowers for the quarter beginning October 1, 2021, will be 7.95%.

Benefits of NBFCs

According to research and studies, it is proved that NBFCs are outperforming banks. The continued better performance from NBFCs has given rise to an uptick of 15% customer satisfaction as compared to the banking customers. The same is agreed by the RBI according to the recent Financial Stability Report. Banks and Non-Banking Financial Companies (NBFCs) are financial intermediaries and the services offered by them are pretty much the same as banks.

However, the benefits of incorporating an NBFC and carrying on its activities are listed below:

Competitive Interest Rates:

Rate of interest is one of the main aspects of all types of loans. Non-Banking Financial Sectors have started to concentrate on this area in the recent decades and have brought down the interest rates to either equal to bank lending rates or at times even lower to bank rates. With all the other benefits when the rate of interest is also lowered, borrowers found this easier and more affordable. This has also resulted in lower EMI (Equated Monthly

Instalment) for borrowers. Based on the income, credit scoring, and repayment, the rate of interest is charged on the borrowers However it is at competitive rates.

Quick Processing:

At banks, it is very important that the applicant should fulfill the eligibility criteria but NBFC is lenient in this aspect. This makes loan approval easier, a smoother process, and quicker. Most of the time, people apply for loans when they are in immediate need of money. NBFCs have taken this as an opportunity to meet the demand by quickly processing the loans at a competitive rate of interest. At times, borrowers are even ready to compromise on the interest rates if the loan amount is huge and if they could get it approved quickly.

Fewer Rules and Regulations:

As NBFC is incorporated under the Companies Act, (though regulated by the Reserve Bank of India), the rules and regulations for lending are not as stringent as banks. This helps borrowers to get loans easily. In view of less complicated loan processing requirements, borrowers are highly satisfied. Of course, the risk of default is high with NBFC and thus interest rates and other charges will Be according priced by the NBFC. Even the loan amount approved will be quite lesser than the collateral value. This is due to the high risk of default. NBFCs do not have statutory reserve ratios and can open branches at will.

Loan available for Individuals with Poor Credit Rating:

Individuals with poor credit ratings generally will not get loans from banks. The reason for this is banks consider borrowers are high-risk individuals if the credit scoring is low. Unless the credit score is above 600 -650, it is very difficult to get a loan sanctioned from banks. On the other hand, loans will be offered to individuals with low credit scores by NBFCs but most of the time the interest rates for such borrowers will be higher than market rates. Due to these aforementioned advantages, most of the NBFCs are growing.

Road Ahead

This is a great initiative taken by the government as it will not only help in providing the liquidity and easing the impact of coronavirus on the NBFC sector but also provide loans to the needy even in the current situation and help in building the economy.

The latest measures taken by the RBI will soften the near-term credit negative impact on non-banking financial companies, NBFCs' funding and liquidity but are unlikely to boost the credit flow to the broader economy.

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and Cash Flow Statement of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the

Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to

those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls systems in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our

audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatement in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls with reference to financial statements of **Visagar Financial Services Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the internal financial controls with reference to financial statements and their operating effectiveness. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. 1. Significant Accounting Policies

1.1 Basis of Preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

These financial statements for the year ended 31st March, 2022 are the fifth financials with comparatives, prepared under Ind AS and the financial statements for the year ended 31st March, 2018 are the first financials with comparatives, prepared under Ind AS. For all previous periods, the Company had prepared its financial statements in accordance with the accounting standards notified under companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2017.

The financial statements have been prepared on a historical cost basis, except for the following:

- a) Certain financial assets and liabilities that are measured at fair value;
- b) Assets held for sale measured at lower of carrying amount or fair value less cost to sell;
- c) Defined benefit plans – plan assets measured at fair value

1.2 Summary of Significant Accounting Policies

a) Current vs Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after reporting period, or

VISAGAR FINANCIAL SERVICES LIMITED

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.
 A liability is current when:

- Expected to be settled in normal operating cycle.
- Held primarily for the purpose of trading
- Due to be settled within twelve months after reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.
 Deferred tax assets and liabilities are classified as non-current assets and liabilities.
 The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalent. The Company has identified twelve months as its operating cycle.

b) Use of estimates and judgements

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

c) Property, Plant & Equipment

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 1, 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

Property, plant & equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. In case of assets acquired in exchange for a non-monetary asset, the cost of such an item of property, plant and equipment is measured at fair value unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

VISAGAR FINANCIAL SERVICES LIMITED

An item of Property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

d) Depreciation on Property, Plant & Equipment

Depreciation on Property, Plant & Equipment is calculated on a written down value (WDV) basis using the rates arrived at based on the useful lives estimated by the management which is as per the rates specified in Schedule II to the Companies Act, 2013.

e) Inventories

Inventories are valued at the lower of cost or net realizable value.

f) Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

g) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

h) Employee Benefits

Short term benefits and post employment benefits are accounted in the period during which the services have been rendered.

i) Taxation**Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to

VISAGAR FINANCIAL SERVICES LIMITED

compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal or its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount

VISAGAR FINANCIAL SERVICES LIMITED

of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses, are recognised in the statement of profit and loss.

k) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of profit or loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as part of finance costs.

l) Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

m) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

n) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

(1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and

(2) Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

VISAGAR FINANCIAL SERVICES LIMITED**Debt Instruments:**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

Amortised Cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

Equity Instruments:

The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss.

(iii) Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

o) Earnings Per Share**Basic earnings per share**

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Company
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per shares

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Visagar Financial Services Limited**

Report on the Audit of Financial Statements

Opinion

We have audited the standalone financial statements of **Visagar Financial Services Limited** ("the Company"), which comprise the balance sheet as at March 31, 2021, the statement of Loss and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and Loss and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There is no matters to be key financial matter to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and Cash Flow Statement of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial

statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls systems in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatement in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

- f) With respect to the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls With Reference to Financial Statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

VISAGAR FINANCIAL SERVICES LIMITED

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

VISAGAR FINANCIAL SERVICES LIMITED

1. Significant Accounting Policies

1.1 Basis of Preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

These financial statements for the year ended 31st March, 2021 are the fourth financials with comparatives, prepared under Ind AS and the financial statements for the year ended 31st March, 2020 are the first financials with comparatives, prepared under Ind AS. For all previous periods, the Company had prepared its financial statements in accordance with the accounting standards notified under companies (Accounting Standard) Rule, 2006 (as amended) and other relevant provisions of the Act (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India.

The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2017.

The financial statements have been prepared on a historical cost basis, except for the following:

- a) Certain financial assets and liabilities that are measured at fair value;
- b) Assets held for sale-measured at lower of carrying amount or fair value less cost to sell;
- c) Defined benefit plans - plan assets measured at fair value

1.2 Summary of Significant Accounting Policies

a) Current vs Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- Expected to be settled in normal operating cycle.
- Held primarily for the purpose of trading
- Due to be settled within twelve months after reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

VISAGAR FINANCIAL SERVICES LIMITED

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalent. The Company has identified twelve months as its operating cycle.

b) Use of estimates and judgements

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/ materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

c) Property, Plant & Equipment

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 1, 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

Property, plant & equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. In case of assets acquired in exchange for a non-monetary asset, the cost of such an item of property, plant and equipment is measured at fair value unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

An item of Property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

d) Depreciation on Property, Plant & Equipment

Depreciation on Property, Plant & Equipment is calculated on a written down value (WDV) basis using the rates arrived at based on the useful lives estimated by the management which is as per the rates specified in Schedule II to the Companies Act, 2013.

e) Inventories

Inventories are valued at the lower of cost or net realizable value.

f) Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

VISAGAR FINANCIAL SERVICES LIMITED

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

g) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

h) Employee Benefits

Short term benefits and post employment benefits are accounted in the period during which the services have been rendered.

i) Taxation

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

VISAGAR FINANCIAL SERVICES LIMITED

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal or its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses, are recognised in the statement of profit and loss.

k) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of profit or loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as part of finance costs.

l) Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

m) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

n) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

VISAGAR FINANCIAL SERVICES LIMITED

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

Debt Instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following categories:

Amortised Cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through Profit and Loss. Interest income from these financial assets is included in other income.

Equity instruments:

The Company measures its equity investment other than in subsidiaries, joint ventures and associates at fair value through profit and loss.

(iii) Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

o) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Company
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per shares

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of our Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (OCBs) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer.
