

PRESS RELEASE

S&P BSE 500 SHARIAH - METHODOLOGY CHANGE

S&P BSE 500 SHARIAH index is designed to represent all Shariah compliant stocks of the broad based S&P BSE 500 index. The index includes all constituents of S&P BSE 500 index (the underlying index) which are Shariah compliant.

At present the index follows float adjusted market capitalization weighted methodology. Effective **October 20, 2014**, the index will follow modified market capitalization methodology, capping maximum weight of constituents to **9%** at each rebalancing.
