SECTION 3: RISK FACTORS

The following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential Investors should carefully consider all the risk factors in this Information Memorandum and/or the Private Placement Offer cum Application Letter for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures but does not represent that the statements below regarding risks of holding the Debentures are exhaustive. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Potential Investors should also read the detailed information set out elsewhere in this Information Memorandum and/or the Private Placement Offer cum Application Letter and reach their own views prior to making any investment decision.

3.1 REPAYMENT IS SUBJECT TO THE CREDIT RISK OF THE ISSUER.

Potential investors ("**Investors**") should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures (as defined below) is subject to the credit risk of the Issuer. Potential Investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

3.2 THE SECONDARY MARKET FOR DEBENTURES MAY BE ILLIQUID.

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value.

3.3 CREDIT RISK & RATING DOWNGRADE RISK

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential Investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

3.4 CHANGES IN INTEREST RATES MAY AFFECT THE PRICE OF DEBENTURES.

All securities where a fixed rate of interest is offered, such as this Issue, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

3.5 TAX CONSIDERATIONS AND LEGAL CONSIDERATIONS

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

3.6 ACCOUNTING CONSIDERATIONS

Special accounting considerations may apply to certain types of taxpayers. Potential Investors are urged to consult with their own accounting advisors to determine implications of this investment.

3.7 SECURITY MAYBE INSUFFICIENT TO REDEEM THE DEBENTURES

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of security documents, and other related documents. The Investor's recovery in relation to the Debentures will be subject to (i) the market value of such secured property, (ii) finding willing buyers for the Security at a price sufficient to repay the potential Investors amounts outstanding under the Debentures. The value realised from the enforcement of the Security may be insufficient to redeem the Debentures.

3.8 MATERIAL CHANGES IN REGULATIONS TO WHICH THE ISSUER IS SUBJECT COULD IMPAIR THE ISSUER'S ABILITY TO MEET PAYMENT OR OTHER OBLIGATIONS.

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

3.9 LEGALITY OF PURCHASE

Potential Investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which they operate or for compliance by that potential Investor with any law, regulation or regulatory policy applicable to it.

3.10 POLITICAL AND ECONOMIC RISK IN INDIA

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

3.11 RISKS RELATED TO THE BUSINESS OF THE ISSUER

- (a) *The Issuer provides secured loans to the clients and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.*

A majority of the Issuer's loans are to the socially motivated double bottom line enterprises and the clients of these loans are of the high risk category. There is uncertainty on the client's ability to fulfil its loan obligations it can be difficult to verify all client details and assess the risk. Such non-performing or low credit quality loans can negatively impact our results of operations.

(This Information Memorandum is neither a prospectus nor a statement in lieu of a prospectus)

The Issuer has various procedures and process controls in place to mitigate the risk.

As on June 30, 2019, the gross NPA was Rs. 22.42 Crores (0.94%) on a gross portfolio of Rs. 2389.83 Crores (including managed portfolio of Rs. NIL).

The Issuer cannot assure that it will be able to effectively control and reduce the level of the NPAs of its Client Loans. The amount of its reported NPAs may increase in the future as a result of growth of Client Loans. If the Issuer is unable to manage NPAs or adequately recover its loans, the results of its operations will be adversely affected.

The current loan loss reserves of the Issuer may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of Client Loans. As a result, if the quality of its total loan portfolio deteriorates the Issuer may be required to increase its loan loss reserves, which will adversely affect its financial condition and results of operations.

The clients are from different industries spread across several geographies with limited access to finance and, as a result, might be vulnerable if economic conditions worsen or growth rates decelerate in India, or if there are natural disasters such as floods and droughts in areas where the Issuer's members live. Moreover, there is no precise method for predicting loan and credit losses, and the Issuer cannot assure that its monitoring and risk management procedures will effectively predict such losses or that loan loss reserves will be sufficient to cover actual losses. If the Issuer are unable to control or reduce the level of its NPAs or poor credit quality loans, its financial condition and results of its operations could be materially and adversely affected.

- (b) ***Lending to small businesses poses unique risks not generally associated with other forms of lending in India, and, as a result, the Issuer may experience increased levels of NPAs and related provisions and write-off that negatively impact results of operations.***

Issuer's core business is to provide loans to Microfinance Institutions (MFI), Farmer Producer Companies (FPCs) and Micro, Small and Medium Enterprise ("MSME") segments primarily in the urban and semi-urban areas. Any downturn in the area of activity by borrowers could adversely affect the ability of borrowers to make loan repayment on time and in turn negatively impact the Issuer's operation. Due to the precarious circumstances of borrowers and non-traditional lending practices the Issuer may, in the future experience increased level of non-performing loans and related provisions and write-offs that negatively impact its business and results of operations.

The Issuer has separated sales from credit risk department. This helps in better credit evaluation of the customer. A credit enhancement happens by the way of hypothecation of stocks/machineries and or mortgage of immovable property. The ability to repay the loan is taken care of by the internal credit evaluation and intention to repay is taken care of by the collaterals obtained.

- (c) ***The Issuer is exposed to certain political, regulatory and concentration of risks***

Due to the nature of its operations, the Issuer is exposed to political, regulatory and concentration risks. The Issuer believes a mitigant to this is to expand its geographical reach and may consequently expand its operations other states. If it is not effectively able to manage such operations and expansion, it may lose money invested in such expansion, which could adversely affect its business and results of operations.

Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.

(This Information Memorandum is neither a prospectus nor a statement in lieu of a prospectus)

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the microfinance, banking and financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer if be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

(d) ***The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees***

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

(e) ***The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position***

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage. In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to the Issuer on acceptable terms. A successful assertion of one or more large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations.

(f) ***The Issuer requires certain statutory and regulatory approvals for conducting its business and the failure to obtain or retain them in a timely manner, or at all, may adversely affect operations***

NBFCs in India are subject to strict regulation and supervision by the RBI. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC pursuant to Section 45-IA of the RBI Act, 1934. Further, such approvals, licenses, registrations and permissions must be maintained/renewed over time, applicable requirements may change and the Issuer may not be aware of or comply with all requirements all of the time. Additionally, RBI has issued detailed directions on prudential norms *inter alia* prescribing guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy,

(This Information Memorandum is neither a prospectus nor a statement in lieu of a prospectus)

restrictions on investments in land and building and unquoted shares besides others. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC that is subject to numerous conditions. In addition, its branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishments laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If the Issuer fails to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, its business may be adversely affected. If the Issuer fails to comply, or a regulator claims that it has not complied, with any of these conditions, the Issuer's certificate of registration may be suspended or cancelled and it shall not be able to carry on such activities. If the Issuer fails to comply with the NBFC Directions and fails to maintain the status of NBFC, it may attract penal provisions under the RBI Act, 1934 for non-compliance. The penal action can also result in RBI cancelling the Certificate of Registration issued to the NBFC.

(g) ***Competition from banks and financial institutions, as well as state-sponsored programs, may adversely affect our profitability and position in the Indian NBFC lending industry***

The Issuer faces most significant competition from other NBFCs and banks in India. Many of the institutions with which Issuer competes can have greater assets and better access to, and lower cost of, funding than the issuer. In certain areas, they may also have better name recognition and larger member bases than Issuer. Issuer anticipates that it may encounter greater competition as they continue expanding the operations in India, which may result in an adverse effect on the business, results of operations and financial condition.
