The occurrence of any of the following events could have a material adverse effect on our business, results of operations, financial condition and prospects and cause the market price of our Banks Equity Shares to fall significantly, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations. The following factors have been considered for determining the materiality:

- 1. Some events may not be material individually but may be found material collectively;*
- 2. Some events may have material impact qualitatively instead of quantitatively;*
- 3. Some events may not be material at present but may have material impact in future.*

Unless stated otherwise, the financial information in this section is derived from our Bank's financial statements as of March 31, 2014 and wherever applicable the relevant year ended March 31.

*Tax proceedings typically pertain to disallowance of expenses and not further tax claims. Should any of the Tax proceedings be decided against us, expenses or exemptions that we have claimed will not be allowed, hence increasing our tax liability. The amount of disputed tax liability is mentioned herein.

Should any new development arise, such as a change in the Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements, which may increase our expenses and current liabilities. We can give no assurance that these legal proceedings will be decided in our favour. Any adverse outcome in any or all of these proceedings may have a material adverse effect on our business, results of operations and financial condition. For further information relating to these proceedings, please refer to chapter titled “Outstanding Litigation and other Defaults” on page 126 of this Letter of Offer.

2. Any increase in Banks portfolio of NPAs and RBI mandated provisioning requirement may adversely affect our financial condition and results of operations.

As on March 31, 2014, March 31, 2013 and March 31, 2012, our gross NPAs were ₹ 3,076.94 crores, ₹ 1,749.88 crores and ₹ 1,488.75 crores representing 4.35%, 2.56% and 2.66% of our gross advances, respectively. Our NPAs net of provisions has increased to ₹ 1,928.50 crores in FY 2014 from ₹ 988.58 crores in FY 2013 and ₹ 853.57 crores in FY 2012, which represents 2.78%, 1.46% and 1.54% of our net advances respectively. As at March 31, 2014, March 31, 2013 and March 31, 2012, the Bank provided for 52.63%, 62.03% and 61.73% of its total NPAs (including prudential write-offs) respectively pursuant to applicable regulatory guidelines and the quality of security available. If there is any deterioration in the quality of the Bank’s security or further aging of the assets after being classified as non-performing, an increase in provisions will be required. This increase in provisions may adversely impact our financial performance and the market price of the Equity Shares.

Various factors, like a rise in unemployment levels, inflation, economic slowdown in India and other parts of the world, a sharp and sustained rise in the interest rates, developments in the Indian economy, movements in global commodity markets and exchange rates may cause an increase in the level of our NPAs and may have a material adverse impact on the quality of our loan portfolio. In addition, the expansion of our business may also cause the level of our NPAs to increase. The inability of the borrowers to repay loans due to the factors mentioned above or any other reasons may lead to increase in NPAs. There can be no assurance that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs.

Our Bank’s gross restructured loans, as a proportion of gross loans and advances outstanding was 5.50% and 3.56% as on March 31, 2014 and March 31, 2013 respectively. Our Bank has restructured loans and advances based upon a borrower’s potential to restore its financial health. However, certain loans classified as restructured may subsequently be classified as delinquent or non-performing in the event a borrower fails to restore its financial viability and honour its loan servicing commitments to us. There can be no assurance that, the debt restructuring criteria approved by our Bank will be adequate or successful and that the borrowers will be able to meet their obligations under the restructured loans. Any resulting increase in delinquency levels may adversely impact our financial performance and the market price of Equity Shares.

Although our loan portfolio contains loans to a wide variety of businesses, adverse market conditions in these sectors could increase our level of NPAs. As of March 31, 2014 and March 31, 2013, concentration of gross NPAs, as a percentage of our gross advances, was ₹ 3,076.94 crores constituting 4.35% and ₹ 1,749.88 crores constituting 2.56% respectively. The highest concentration of NPAs for the Bank being in the NBFCs & Trading sector amounting to ₹ 446.61 crores constituting 14.51% of the NPAs as of March 31, 2014 and ₹ 445.67 crores constituting 25.47 % of the NPAs as of March 31, 2013; followed by Textile sector amounting to ₹ 420.13 constituting 13.65% of the NPAs as of March 31, 2014 and ₹ 78.70 crores constituting 4.50% of the

NPAs as of March 31, 2013; and followed by Infrastructure sector amounting to ₹ 376.87 crores constituting 12.25% of the NPAs as of March 31, 2014 and ₹ 138.78 crores constituting 7.93% of the NPAs as of March 31, 2013.

Although, we constantly endeavour to improve our collections, we cannot assure you that we will be successful in our efforts or that the overall quality of our loan portfolio may not deteriorate in the future which could adversely affect our business, financial condition and results of operations.

3. *Our Bank has a regional concentration in the State of Kerala and thereby exposing us to regional risk. Any adverse change in the economic condition of Kerala can impact our results of operations.*

As of March 31, 2014, out of our 1,117 branches, 820 branches were located in the state of Kerala constituting 73.41% of our Bank's branch network. As of March 31, 2014, 60.87%, 49.71% and 69.25% of our Bank's total business, loans and advances and deposits respectively, were derived from our operations in Kerala. Our concentration in Kerala exposes our Bank more acutely to any adverse economic and/or political circumstances in the State as compared to other public and private sector banks that have a more diversified national presence. Any disruption, disturbance or sustained downturn in the economy of Kerala could adversely affect our business, financial condition and results of operations.

Additionally, while we continue to expand our operations outside Kerala, we face operational risks in geographic areas in which we do not possess the same level of familiarity with the economic condition, consumer base and commercial operations. In addition, our competitors may already have established operations in areas outside Kerala and we may find it difficult to attract customers in such new areas. We may not be able to successfully manage the risks of such an expansion, which could have a material adverse effect on our business, financial condition and results of operations.

4. *Our Bank's business is vulnerable to interest rate risk and volatility in interest rates could adversely affect our Bank's net interest margin, the value of our fixed income portfolio, our income from treasury operations, the quality of our loan portfolio and our financial performance.*

Our results of operations largely depend on our net interest income. Net interest income constituted 22.57% (i.e. ₹2,383.15 crores) and 22.91% (i.e. ₹2,128.20 crores) of our total income for FY 2014 and FY 2013 respectively. The net interest margin of our Bank for FY 2014 and FY 2013 was 2.43% and 2.56% respectively.

Most of our interest-earning advances have floating interest rates, while all of our interest-bearing liabilities have fixed interest rates. Any decrease in the interest rates applicable to our assets, without a corresponding decrease in the interest rates applicable to our liabilities, will result in a decline in our net interest income and may consequently reduce our net interest margin ("NIM").

Interest rates are sensitive to many factors beyond our Bank's control, including the RBI's monetary policy, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors. Furthermore, in the event of rising interest rates, our Bank's borrowers may not be willing to pay correspondingly higher interest rates on their borrowings and may choose to repay/pre-pay their loans with our Bank, particularly if they are able to switch to more competitively priced loans offered by other banks. Any inability of our Bank to retain customers as a result of rising interest rates may adversely impact our Bank's earnings in future periods. Similarly, in the event of falling interest rates, our Bank may face challenges in retaining our customers if it is unable to offer competitive rates as compared to other banks in the market.

Volatility and changes in interest rates could affect the interest we earn on our assets differently from the interest we pay on our liabilities. The difference could result in an increase in interest expense relative to interest income leading to a reduction in our net interest income. Accordingly, volatility in interest rates could materially and adversely affect our business and financial performance. An increase in interest rates may also adversely affect the rate of growth of important sectors of the Indian economy, such as the corporate, retail and agricultural sectors, which may adversely impact our business. Further, any significant or sustained decline in income generated from treasury operations resulting from market volatility may adversely impact our Bank's financial performance and the market price of the Equity Shares.

5. *The net profit of our Bank has decreased since FY 2013. In the event our net profit continues to decrease, it may adversely affect our business and financial condition.*

Our net profit has decreased since FY 2013. The net profit was ₹ 304.34 crores in FY 2014 as compared to ₹ 615.04 crores in FY 2013. The decrease in net profit is primarily on account of increase in gross NPAs from ₹ 1,749.88 crores as on March 31, 2013 to ₹ 3,076.94 crores as on March 31, 2014 and consequent increase in the loan loss provisions; increase in restructured advances from ₹ 2,391.47 crores as on March 31, 2013 to ₹ 4,057.79 crores as on March 31, 2014 and consequent increase in the provision for diminution in fair value of restructured advances; increase in depreciation on investments from ₹ 12.01 crores as on March 31, 2013 to ₹ 96.74 crores as on March 31, 2014; increase in employee cost from ₹ 884.76 crores as on March 31, 2013 to ₹ 1,198.83 crores as on March 31, 2014. In the event the NPAs, restructured advances and employee cost increases any further our interest earnings and net profits will be impacted further. If the net profit deteriorates further, our financial condition may be adversely affected.

6. *Our Bank's funding is primarily through short-term and medium-term deposits, whereas significant portion of Bank's loan assets are Cash credits and Overdrafts renewed periodically. If depositors do not roll over deposited funds on maturity or if our Bank is unable to continue to increase our deposits, our Bank's liquidity could be adversely affected.*

Most of our Bank's funding requirements are met through short-term and medium-term funding sources, primarily in the form of term deposits. As on March 31, 2014, 92.91 % of our Bank's total funding consisted of deposits and 25.69% of such total funding consisted of demand deposits and savings deposits. A significant portion of our Bank's loan assets are cash credits and overdrafts which are to be renewed periodically creating a potential for funding mismatches. In the event that a substantial number of our depositors do not roll over deposited funds upon maturity, our Bank's liquidity position, business and results of operations would be adversely affected. As on March 31, 2014, our Bank's total deposits increased to ₹ 89,336.68 crores registering an increase of 5.57% *vis-à-vis* our Bank's total deposits on March 31, 2013, ₹ 84,623.72 crores. Further, the top twenty depositors constitute 13.49% of our total deposits as on March 31, 2014 and 12.07% as on March 31, 2013.

7. *Our Bank's auditors have highlighted certain matters of emphasis in their Auditors' report and limited review report for the year ended March 31, 2014 and half year ended September 30, 2014, respectively.*

Our Bank's Auditors have highlighted certain matters of emphasis in the auditors' report and the limited review report for the year ended March 31, 2014 and half year ended September 30, 2014 respectively, as follows:

- Attention to Note 9.4.1 to the financial statement, which describes deferment of Pension and Gratuity liability of our Bank to the extent of ₹ 134.38 crores pursuant to the exemption granted by the Reserve Bank of India to the public sector banks from application of the provisions of Accounting Standard (AS) -15, Employee Benefits vide its circular No. DBOD.BP.BC.80/21.04.018/2010-11 dated Feb 9, 2011 on Re-opening of pension option to employees of Public Sector Banks and enhancement in Gratuity limits – Prudential Regulatory Treatment. *(From Auditor's Report for F.Y 2013-14)*
- Note No. 9 of unaudited financial results, about spreading over of loss in respect of assignment of financial assets to Asset Reconstruction Company to the extent of ₹ 246.85 crores, pursuant to Reserve Bank of India circular DBOD.BP.BC.No. 98/21.04.132/2013-14 dated February 26, 2014. *(From Limited Review Report September 30, 2014)*
- Note No. 10 of unaudited financial results, regarding creation of Deferred Tax Asset (DTA) on provision for diminution in fair value of Restructured Standard Assets amounting to ₹ 81.62 crores (including ₹ 77.82 crores relating to the period up to 31.03.2014). *(Limited Review Report September 30, 2014)*

We may not be able to assure that our financial statements may not contain any emphasis on matters pertaining to our Bank, which could adversely affect our business, financial condition and results of operations.

For more information, please refer to chapter titled “Financial Statements” on page 73 of this Letter of Offer. If such matters of emphasis are contained in future audit reports, the operations, prospects and business of our Bank may be adversely impacted.

8. *Deterioration in the performance of any of the industry sectors where our Bank has significant exposure may adversely impact our business, result of operations and financial conditions.*

Our total exposure to borrowers is dispersed across various industry sectors. As on March 31, 2014, the most significant exposure was to the NBFCs & Trading sector, Infrastructure sector, Iron & Steel Sector, Engineering sector and Chemical, Dyes & Paints sectors, which represented 15.17% (i.e., ₹ 12,281.05 crores), 10.25% (i.e., ₹ 8,299.96 crores), 5.81% (i.e., ₹ 4,700.98 crores), 4.91% (i.e., ₹ 3,974.70 crores) and 3.56% (i.e., ₹ 2,878.99 crores), respectively of our outstanding fund based and non fund based exposures as of March 31, 2014. Further, as of March 31, 2014, of our total NPAs 14.51% (i.e., ₹ 446.61 crores), 13.65% (i.e., ₹ 420.13 crores), 12.25% (i.e., ₹ 376.87 crores), 8.89% (i.e., ₹ 273.68 crores) and 7.16% (i.e., ₹ 220.17 crores) were towards NBFCs & Trading Sector, Textile Sector, Infrastructure Sector, Chemical, Dyes & Paints Sector and Gems & Jewellery Sector respectively.

Our Bank has fixed exposure norms (sectoral cap) for major industry sectors. For example, our internal policies set out limit of our credit exposure to any particular industry depending upon the nature of that industry.

Any significant deterioration in the performance of the industry sector we lend to (including ‘priority sectors’), driven by events not within our control, such as regulatory action or policy announcements by Government or State government authorities, would adversely impact the ability of borrowers in that industry sector to service their debt obligations.

We cannot assure you that we will be able to diversify our exposure over different industry sectors in the future. Failure to maintain diverse exposure resulting in industry sector concentration may adversely impact our business, financial condition and results of operation, in case of any significant deterioration in performance of such industry sector.

9. *Our Bank is exposed to higher credit risk as Loans and advance to MSMEs as per the audited financial statements as on March 31, 2014 amounting to 16.19% of our Bank’s loan portfolio.*

Our Bank’s portfolio of loans and advances to MSMEs has grown and the percentage of loans and advances to MSMEs on total advances as per the audited financial statements for the year ended March 31, 2014 was 16.19% and March 31, 2013 was 13.50%. As part of our Bank’s business, we will continue to focus on further growth in the MSME sector. Comprehensive third-party credit history reports for the majority of MSME borrowers are currently not available in India. As a result, our Bank is exposed to proportionate credit risk in the MSME segments which may adversely affect our business growth, results of operations and financial condition.

10. *Our Bank’s inability to comply with RBI inspection/observations may have a material adverse effect on our business, financial condition or results of operation.*

Our Bank is subject to an Annual Financial Inspection (“AFI”) by RBI under Section 35 of the Banking Regulation Act. Inspection by the RBI is a regular exercise and is carried out annually by the RBI for all banks and financial institutions. The reports of the RBI are strictly confidential and RBI does not allow disclosure of its inspection reports. In the event that we are unable to meet or adhere to the guidance or the requirements suggested by RBI in its inspection reports, we may be subject to penalties and censure by the RBI which may have an adverse effect on our business, financial condition or results of operation.

However, RBI imposes penalty in the event of any deficiency in currency chest and detection of FICN from soiled note remittance to RBI. Accordingly, during the year 2014-15, a total amount of ₹0.05 crores was imposed as penalty for management of currency chest and FICN Detection. As a remedial measure, Bank has installed latest NSMs (Note Sorting Machines) having features for finding forged notes in all currency chests as well as branches with high receipts. The staff members are given training with faculty support from RBI how to detect forged notes.

While we attempt to be in compliance with all regulatory provisions applicable to us, in the event we are not able to comply with certain observations made by the RBI, we may be subject to penalties by the RBI which may have a material adverse effect on our business, reputation, financial condition or results of operations.

11. *We derive a portion of our other income from our Government operations, a decline in the same could affect our Bank's business*

For FY 2014 and FY 2013, total Government business turnover was ₹ 81,675.21 crores and ₹ 73,964.36 crores respectively and commissions earned from the Government transactions for corresponding periods was ₹ 58.15 crores and ₹ 55.60 crores. While our Bank has enjoyed a strong working relationship with the Government in the past, there is no assurance that this relationship will continue in the future. The Government is not obligated to choose our Bank to conduct any of its transactions. If the Government does choose another bank to perform such tasks, our Bank's business will be adversely affected.

12. *The legal requirement that the State Bank of India maintains a majority shareholding interest in our Bank of at least 51% may limit the ability of our Bank to raise appropriate levels of capital raising. Further, our Promoter has control over our Bank, which will enable our Promoter to influence the outcome of matters submitted to shareholders for approval*

State Bank of India currently holds 78.91% of our shareholding. According to Section 7 (7) of the Subsidiary Banks Act, State Bank of India's shareholding interests in our Bank shall not be below 51%. This requirement could result in restrictions in the equity capital raising efforts of our Bank as the State Bank of India may not be able to fund any further investments that would allow it simultaneously to maintain its stake at a minimum of 51% and seek funding from the capital markets. Further, such control over our Bank, would enable our Promoter to influence the outcome of matters submitted to shareholders for their approval. As the Indian economy grows, more businesses and individuals will require capital financing. In order to meet and sustain increasing levels of growth in capital demand, our Bank will need to augment our capital base, whether through organic growth or (more likely) capital market financing schemes. If our Bank is unable to grow our capital base in step with demand, our business, financial prospects and profitability may be materially and adversely affected.

13. *Shareholder voting rights are subject to restrictions under Section 19 of the Subsidiary Banks Act.*

Section 19 of the Subsidiary Banks Act does not allow any individual shareholder, other than the State Bank of India, to exercise voting rights in excess of ten percent of our Bank's issued capital. To the extent that shareholders are unable to exercise all their voting rights with respect to the shares they own, their proportional voting power would be reduced.

14. *Our Bank has made provision for depreciation of non-performing investments. The depreciation requirement in respect of the securities is not set off against appreciation in respect of other performing securities. Any increase in provisioning requirement may adversely affect our financial condition and results of operations.*

Our Bank has made provision for depreciation on investments amounting to ₹ 96.74 crores and ₹ 12.01 crores respectively for the year ended March 31, 2014 and March 31, 2013 respectively. All securities where repayment of principal or interest are not serviced within 90 days from the due date are classified as Non-performing Investments, except securities guaranteed by the Central Government, which is, treated as performing investments notwithstanding arrears of principal / interest payments. In respect of investments classified as Non-performing, appropriate provisions are made for the depreciation in the value. The depreciation requirement in respect of these securities is not set off against appreciation in respect of other performing securities. Any increase in provisioning requirement may adversely affect our financial condition and results of operations.

15. *Our Bank has advanced significant amount towards long gestation projects. Any delay in completion of the project or in timely generation of the revenue from the project or failure in generating such revenue shall have a bearing on the recovery of amount advanced towards such projects which may adversely affect our financial condition and results of operation.*

Our Bank has sanctioned amount of ₹ 1,058.00 Crores, ₹ 1,491.87 Crores and ₹ 145.00 Crores for the year ended March 2012, March 2013 and March 2014 respectively towards long gestation projects like infrastructure, roads etc., The revenue generation from these projects would take time in view of the long gestation period. Any delay in completion of the project or in timely generation of the revenue from the project or failure in generating

such revenue shall have a bearing on the recovery of amount advanced towards such projects which may adversely affect our financial condition and results of operation.

- 16. *Our Bank's business is highly dependent on the continuation of our management team and skilled personnel and our Bank's ability to attract and retain talented personnel. Failure to retain key personnel or inability to manage attrition levels may have a material adverse impact on our Bank's business, our ability to grow and our control over various business functions.***

Our Bank is highly dependent on the services of our key management personnel. Our Bank's ability to meet future business challenges depends, among other things, on their continued employment and our Bank's ability to attract and recruit talented and skilled personnel. There can be no assurance that our Bank will be able to retain such key personnel. Competition for skilled and professional personnel in the Banking industry is intense. Our Bank's remuneration scheme may not be as attractive as other banks including private sector banks which may affect our Bank's ability to attract / retain skilled personnel. The loss of key personnel or an inability to manage attrition levels across our Bank may have a material adverse impact on our Bank's business, our ability to grow and our control over various business functions. As on March 31, 2014, our Bank had 14,491 employees as compared to 12,525 employees as on March 31, 2013 and 12,597 employees as on March 31, 2012. During the above three year period, 4,326 employees were appointed and 1,907 employees resigned/retired/terminated.

Further, our Bank's employees are represented by officers' associations and employees' unions and any employee unrest could adversely affect our operations and profitability.

- 17. *We may face workmen disruptions that could interfere with our operations. Any such disruption in future may have a material adverse effect on our business, financial condition or results of operation.***

We are exposed to the risk of strikes and other industrial actions. As of March 31, 2014, we employed 14,491 employees. Most of our employees are part of trade unions. During the past 5 years, there have been 10 instances of strikes and stoppages on account of our employees unions participating in all India strikes. Most of the strikes were on account of wage settlements, opposing disinvestment, merger with SBI etc. While we believe that we have a strong working relationship with the unions / associations, there can be no assurance that our Bank will continue to have such a relationship in the future. If the employees' union was to call for a work stoppage or other similar action, we may be forced to suspend all or part of our operations until the dispute is resolved. If any such work stoppage or disruption was to occur, possibly for a significant period of time, our business, financial condition or results of operation would be adversely affected.

- 18. *A large portion of our deposits is constituted by NRI deposits and any volatility in the income of the NRIs can affect our Bank's business***

NRI deposits constituted 27.94% and 22.82% of our total deposits for the year ended March 31, 2014 and March 31, 2013, respectively. The deposits from NRIs are dependent on the economic conditions of the countries of their residence. Any sustained downturn in the economies of such countries can adversely affect the rollover of existing deposits and inflow of additional NRI deposits to our Bank.

- 19. *Any inability to maintain adequate capital due to changes in regulations or lack of access to capital markets, or otherwise could materially and adversely impact our ability to grow and support our business.***

Our Bank is subject to regulations relating to capital adequacy of banks, which determines the minimum amount of capital our Bank must hold as a percentage of the risk-weighted assets on our portfolio, or capital-to-risk asset ratio ("**CRAR**"). The RBI requires Indian banks to maintain a minimum risk weighted capital adequacy ratio of 9%, subject to a minimum Tier I capital adequacy ratio of 7% and Tier II capital adequacy ratio of 2% under Basel III.

Our Bank's capital adequacy ratio under Basel III was 10.79% as on March 31, 2014 and 10.74% as on March 31, 2013. Our Bank is exposed to the risk of RBI increasing the applicable risk weight for different asset classes from time to time. Although, our Bank has not, at any time, during the preceding 3 financial years, fallen below the minimum level of CRAR as required by the RBI, certain adverse developments could affect our ability to

continue to comply the capital adequacy requirements, including deterioration in our asset quality, declines in the values of our investments and changes in the minimum capital adequacy requirements. Furthermore, our ability to support and grow our business could be limited by a declining capital adequacy ratio if we are unable to access or have difficulty in accessing the capital markets or have difficulty obtaining capital in any other manner.

The RBI has issued the guidelines on Basel III capital regulations on May 2, 2012, pursuant to the Monetary Policy Statement 2012-13. These guidelines have become effective from April 1, 2013 and are being implemented in a phased manner. The Basel III capital ratios will be fully implemented by March 31, 2019. With the implementation of the Basel III guidelines, we may be required to improve the quality, quantity and transparency of Tier I capital, which will have to be predominantly equity shares. In addition, these changes may result in the incurrance of substantial compliance and monitoring costs. Furthermore, with the implementation of Basel III guidelines, our ability to support and grow our business could be limited by a declining capital adequacy ratio, if we are unable to access or face difficulty in accessing the capital or have difficulty in obtaining capital in any other manner.

If we fail to meet capital adequacy requirements, the RBI may take certain actions, including restricting our lending and investment activities and the payment of dividends by us. These actions could materially and adversely affect our reputation, results of operations and financial condition.

20. We face maturity mismatches between our assets and liabilities. If we fail to sustain or achieve growth of our deposit base, including our current and savings account deposit base, our business may be adversely affected.

We meet our funding requirements through short-term (i.e. maturity up to one year) and long-term (i.e., maturity for more than one year) deposits from retail depositors and mid-to-large corporate depositors. Banks usually face a bucket-wise asset-liability mismatch where, typically, the inflows do not match with the outflows in that particular bucket, based on residual maturity.

As of March 31, 2014 we have an asset liability mismatch. The bucket-wise structural liquidity position as at March 31, 2014 is as under:

₹ in crores

Particulars	Day 1	2 to 7 days	8 to 14 days	15 to 28 days	29 days to 3 months	Over 3 months & up to 6 months	Over 6 months & up to 1 year	Over 1 year & up to 3 years	Over 3 years & up to 5 years	Over 5 years
Cumulative Outflows	1,410	3,906	7,206	8,806	18,032	26,777	37,627	58,882	78,282	1,17,390
Cumulative mismatch	635	448	(272)	481	3712	4,536	15,180	7,073	(1,651)	(3,061)
Cumulative mismatch %	45.06%	11.48%	(3.77)%	5.46%	20.59%	16.94%	40.34%	12.01%	(2.11)%	(2.61)%

Asset liability mismatch results in liquidity risk that reflects the possible mismatch of assets and liabilities in a particular bucket. The liquidity risk in a bank arises on account of unanticipated withdrawals of deposits, non-renewal of deposits and delay in anticipated repayment of advances. The cumulative negative mismatches within the time bands are observed in certain time buckets in the time bands of 8 to 14 days; over 3 years & upto 5 years; and over 5 years of the total outflow respectively. The cumulative mismatches are however within the tolerance level prescribed in our Asset-Liability Management Policy.

We have constituted an Asset Liability Committee (“ALCO”) to address the abovementioned risks. The ALCO regularly reviews the asset liability mismatch and takes appropriate steps to ensure that we are not exposed to liquidity risk either, in the short or long-term. However, if the abovementioned risks materialise, we may face liquidity problem, resulting in an asset liability mismatch. As a result, we may be required to pay higher rates to attract deposits, which may have an adverse impact on our business and results of operations.

Any failure on our part to minimize the asset liability mismatch resulting in higher liquidity risk may adversely affect our business, financial condition and results of operations.

21. *Our Bank's inability to foreclose on collateral in the event of a default or a decrease in the value of the collateral may result in failure to recover the expected value of the collateral exposing us to potential loss.*

Our Bank's loans to corporate customers for working capital credit facilities are typically secured by charges on inventories, receivables and other current assets. In certain cases, our Bank obtains security by way of a first or second charge on fixed assets, a pledge of marketable securities, bank guarantees, government guarantees, corporate guarantees and personal guarantees. In addition, project loans or long-term loans to corporate customers are secured by a charge on fixed assets and other collateral security. Loans to retail customers are either unsecured or secured by the assets financed, largely property and vehicles. As on March 31, 2014, our Bank's unsecured advances represented 12.01% of our total advances.

In India, foreclosure on collateral generally requires a written petition to a court or tribunal. Although special tribunals have been set up for expeditious recovery of debts due to banks, any proceedings brought may be subject to delays and administrative requirements that may result, or be accompanied by, a decrease in the value of the collateral. The Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (the "SARFAESI Act"), the Debt-Recovery Tribunal Act, 1993 and the RBI's corporate debt restructuring have strengthened the ability of lenders to recover NPAs by granting them greater rights to enforce security and recover amounts owed from secured borrowers. However, there can be no assurance that these legislations will have a favourable impact on our Bank's efforts to recover NPAs as the full effect of such legislation has yet to be determined in practice. Any failure to recover the expected value of the collateral would expose our Bank to potential loss.

In addition, pursuant to RBI prudential guidelines on restructuring of advances by banks, our Bank may not be allowed to initiate recovery proceedings against a corporate borrower where the borrower's aggregate total debt is ₹ 10 crore or more and 60% of the lenders by number and holding at least 75% or more of the borrower's debt by value decide to restructure their loans. In such a situation, our Bank is restricted to a restructuring process only as approved by the majority lenders.

Our Bank may not be able to realize the full value of collateral as a result of, among other factors:

- delays in bankruptcy and foreclosure proceedings;
- defects or deficiencies in the perfection of collateral (including due to inability to obtain approvals that may be required from third parties);
- fraud by borrowers;
- depreciation in value of the collateral, illiquid market for disposal of and volatility in the market prices for the collateral; and
- current legislative provisions or changes thereto and past or future judicial pronouncements.

As a result of the foregoing factors, realisation of the full value of collateral may become difficult, which could have an adverse effect on our business and financial condition.

22. *Our Bank's inability to implement growth strategies or in penetrating new markets may adversely impact our Bank's business.*

In the past, our Bank has witnessed growth in both office infrastructure and our business. The number of branches of our Bank, excluding the head office, and service branches, have grown to 1,117 branches as on March 31, 2014 from 1,013 branches as of March 31, 2013. Over the same period, our Bank's total assets have grown to ₹ 1,05,285.42 crores from ₹ 1,01,579.33 crores. One of our Bank's principal business strategies is to expand branch network and our product offerings. This strategy exposes our Bank to a number of risks and challenges, including, the possible failure to identify appropriate opportunities and offer attractive new products, failure to comply with new market and regulatory standards, and the need for hiring and retaining skilled personnel, among others, each of which would have a potential adverse impact on our Bank's profitability. In addition, given the increasing share of retail products and services and transaction banking services in our Bank's overall business, the importance of systems technology to our Bank's business has increased significantly. Any failure in our Bank's systems, particularly for retail products and services and transaction banking, could significantly affect our Bank's operations and the quality of our customer service, reputation and could result in business and financial losses. Our Bank cannot assure you that we will be able to grow at the rate

we have experienced in the past, which could materially and adversely affect our business and future results of operations.

- 23. As on March 31, 2014, we had contingent liabilities amounting to ₹ 29,060.72 crores. Any crystallization of our significant contingent liabilities could materially and adversely affect our business, financial conditions, result of operations and prospects.**

As on March 31, 2014, we had contingent liabilities amounting to ₹ 29,060.72 crores. Most of the liabilities have arisen during the normal course of our business. In the event of there being a crystallization of any of the liabilities stated below, we may be required to honour the demands raised. Any crystallization of our significant contingent liabilities could materially and adversely affect our business, financial conditions, result of operations and prospects.

Sr. No.	Contingent Liability	As on March, 31, 2014 (Amount in ₹ Crores)
1	Claims against the Bank not acknowledged as debts	1.74
2	Liability on account of outstanding forward exchange contracts	18,420.25
3	Liability on account of outstanding int. rate swap contracts	313.75
4	Guarantees given on behalf of constituents	5,248.26
5	Acceptances, endorsements & other obligations	4,916.21
6	Disputed Income-tax liability	158.74
7	Capital commitments on account of unexecuted contracts	1.77
	TOTAL	29,060.72

- 24. We have written off loans amounting to ₹196.26 crores during FY 2014. Having to write off bad debts and to engage in litigation for recovery may impact our business and results of operations.**

As per the audited financial statements for FY 2014, our Bank has written off (including technical write off) 4,887 accounts falling under the categories of Agriculture, SSI, Other Priority and Non Priority sectors, amounting to ₹ 196.26 crores. Our Bank initiates legal proceedings for recovery of amounts outstanding. Further, our Bank conducts recovery drives in each of our branches, through bank adalat, compromise settlements and lok adalats. Having to write off bad debts and to engage in litigation for recovery may impact our business and results of operations.

- 25. A portion of our advances is unsecured. In case we are unable to recover such advances in a timely manner or at all, it may adversely affect our business, financial condition and results of operations.**

As of March 31, 2014 and March 31, 2013, 12.01% (i.e., ₹ 8,336.96 crores) and 12.67% (i.e., ₹ 8,549.50 crores) respectively, of our total advances were unsecured.

While we have been selective in our lending policies and strive to satisfy ourselves with the credit worthiness and repayment capacities of our customers, there can be no assurance that we will be able to recover the interest and the principal advanced by us in a timely manner or at all. Any failure to recover the unsecured advances given to our customers would expose us to a potential loss which could adversely affect our business, financial condition and results of operations.

- 26. Our Bank is exposed to high concentrations of loans to a few borrowers and default by any one of them would adversely affect our Bank's business**

As on March 31, 2014, aggregate loans to our Bank's twenty largest borrowers amounted to ₹ 9,116.16 crores, representing 12.93% of our Bank's total advances as compared to ₹ 7,994.87 crores, representing 11.57% of our Bank's total advances as on March 31, 2013. Any deterioration in the credit quality of these assets would have adverse effect on our Bank's financial condition and results of operations, as well as on the market price of our Bank's Equity Shares.

27. *Our Bank may be subject to volatility in income from our treasury operations that could materially and adversely impact our financial results.*

We derived 22.87% and 20.97% of our total income in FY 2014 and FY 2013 respectively, from our treasury operations. Though our income from our treasury operations has increased in the previous year, there is no guarantee that in the future, our Bank will not experience volatility in our income from treasury operations. Any significant or sustained decline in income generated from treasury operations would adversely impact our Bank's financial performance.

28. *We do not own the intellectual property rights attached to the logo used by our Bank and our ability to use the logo may be restricted, which may materially and adversely affect our goodwill and business. Further, we have not made any application for registration of our logo and trademarks. Failure to protect our intellectual property may adversely affect our reputation, goodwill and business operations.*

We do not own the intellectual property rights attached to the logo of our Bank. Our logo includes the logo of our Promoter, the State Bank of India. We have not entered into any agreement of license with the State Bank of India to use the said logo. However, there can be no assurance that the State Bank of India would not in future, restrain our Bank from using the said logo or call upon our Bank to pay royalty in consideration of usage of the logo. Further, we have not made any application for registration of our logo. We cannot assure that our application, if filed, shall be granted in our favour. We may not be able to prevent infringement of the logo / trademark which may be detrimental to our business and may also result in litigation relating to infringement. In the event any third party infringement claim is brought against our Bank, our Bank may be required to establish their right to the exclusive use of the logo and trademark. Any such eventuality or failure to protect our intellectual property may require us to incur additional costs and may impact our brand recognition among customers, affect our reputation, goodwill and business operations.

29. *Regulations in India require our Bank to extend a minimum level of loans to certain specified sectors in India which may subject our Bank to lend to vulnerable economic sectors thus affecting our financial performance.*

The priority sector lending norms of the RBI require all banks in India to extend at least 40% of their ANBC to specified sectors, including agriculture and small scale industries, which are known as "priority sectors". In accordance with regulatory requirements in India, at least 18 % of our Bank's ANBC, must be extended to the agricultural sector. In addition, the criteria for classifying agricultural loans as non-performing differ from the criteria applicable for non-agricultural loans. For example, loans to agricultural borrowers can only be classified as non-performing if the loan remains overdue for more than two harvest seasons. As on March 31, 2014, total credit extended to priority sectors constituted 42.26% of our Bank's ANBC, and credit extended to the agriculture sector constituted 19.13%, of our ANBC. Like other Indian commercial banks, if our Bank fails to achieve the prescribed lending target to the priority sectors and/or the agricultural sector, we are required to contribute to the Rural Infrastructure Development Fund ("RIDF") of NABARD or other financial institutions as specified by the RBI, being investments which may offer lower rates of return and our contribution to the same as on March 31, 2014 is ₹ 1,757.21 crores. Although such priority sector loans are extended to borrowers who have met our Bank's internal guidelines and against what our Bank believes to be adequate security, adverse economic circumstances, including those resulting from changes in government policies, adverse weather conditions and natural calamities, may adversely impact these priority sectors resulting in an increase in impaired loans in these sectors.

30. *Most of our business premises are taken on lease basis. Some of the lease agreements with respect to the business premises have expired. Further, we may not be able to renew the lease agreements for some/all of our branches/business premises on favourable terms or at all which could have a material adverse affect on our business and results of operations*

As on March 31, 2014, our Bank has 1,217 offices (including 1,117 branches), out of which 28 are located on owned premises. In addition, our Bank has 1,352 ATMs out of which 25 ATMs are located on the freehold properties of our Bank and the remaining 1,327 ATMs are on leased premises. Some of the lease agreements with respect to the business premises have expired. However, we continue to be in the possession of the premises whose term has expired. Any failure to renew lease agreements for these premises on terms and conditions favourable to us or at all may require us to shift the concerned branch offices, regional offices or the

ATMs to new premises, due to which we may suffer a disruption in our operations or increased costs, or both, which may adversely affect our business and results of operations.

Additionally, some of our lease agreements may not be adequately stamped or registered as required under the law. Any such irregularity may result in our Bank paying a penalty for inadequate stamping or our inability to enforce our rights under such lease agreements before any court of law which may disrupt our operations and adversely affect our business, financial condition and result of operations.

31. *Our Bank's risk management policies and procedures may not be fully effective in mitigating unidentified or unanticipated risks, which could negatively affect our business and financial condition.*

Our Bank has devoted significant resources to developing our risk management policies and procedures and expects to continue to do so in the future. Despite this, our policies and procedures to identify, monitor and manage risks may not be fully effective.

Our Bank's hedging strategies and other risk management techniques may not be fully effective in mitigating our risk exposure in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risk are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, clients or other matters. This information may not in all cases be accurate, complete, up to date or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a large number of transactions and events. As we seek to expand the scope of our operations, we also face the risk of inability to develop risk management policies and procedures that are properly designed for those new business areas. Implementation and monitoring may prove particularly challenging with respect to businesses that we have recently initiated. Inability to develop and implement effective risk management policies may adversely affect our business, prospects, financial condition and results of operations.

32. *Our Bank is subject to various operational and other risks associated with the financial industry which if materialised, may have an adverse impact on the results of our Bank.*

The proper functioning of our financial control, risk management, accounting or other data collection and processing systems, together with the communication networks connecting our various branches and offices is critical to our operations and ability to compete effectively. Our Bank is exposed to many types of operational risk, including:

- fraud or other misconduct by employees or outsiders;
- unauthorised transactions by employees and third parties (including violation of regulations for prevention of corrupt practices, and other regulations governing our business activities);
- unauthorised use of debit cards at ATMs;
- misreporting or non-reporting with respect to statutory, legal or regulatory reporting and disclosure obligations;
- any breach of network security; and
- operational errors, including clerical or record keeping errors or errors resulting from faulty computer or telecommunications systems.

In the past we have experienced fraud committed by our employees ranging from misuse of discretionary powers to misappropriation of funds. We make efforts to recover the amounts involved in such cases. We cannot assure you that such cases will not happen or we will be able to recover such amount in the future. Further, we cannot assure you that any such incident will not have an adverse effect on our reputation.

In addition, we may also be exposed to other different types of risk during our operations, including but not limited to credit risk, counterparty risk, market risk, liquidity risk and operational risk. Given the high volume of transactions of our Bank, certain errors may be repeated or compounded before they are discovered and successfully rectified. We cannot guarantee that such events will not occur in the future. Any such event could disrupt our reputation, operations, or otherwise will have a material adverse effect on our business, financial condition or results of operation.

Our Bank also faces the risk that the design of controls of our Bank and procedures prove inadequate, or may be circumvented, thereby causing delays in detection or errors in information. Although our Bank maintains a system of controls designed to keep operational risk at appropriate levels, there can be no assurance that our Bank will not suffer losses from operational risks in the future.

33. *Our Bank's employee cost will increase pursuant to the proposed X Bipartite Wage settlement to be entered into. It is very difficult to assess the actual impact of such wage revisions and consequential impact on the employee cost for our Bank.*

The IX bipartite wage settlement has expired on October 31, 2012 and the negotiation for the X bipartite wage settlement are being taken up. Our Bank has made a total provision of ₹ 137.70 crores i.e, ₹ 100.70 crores during FY 2014 and ₹ 37.00 crores during the FY 2013. Even though we have created a provision for wage settlement and wage revision, we cannot assure that the provision will be sufficient to cover the additional cost that would have to be incurred on account of wage settlement and revision thereof and also provisions pertaining to gratuity and pension scheme arrangements in our Bank. Any material increase in our wage bill including the benefits, pursuant to the settlement would increase our employee cost which could result in adverse impact on our profitability.

34. *We are exposed to risks related to lending, trading, hedging, settlement and other financial transactions.*

Some or all of our Bank's customers or counterparties may be unable or unwilling to meet their respective contractual commitments in relation to lending, trading, hedging, settlement and other financial transactions. This may materially and adversely affect our Bank's operations and may require our Bank to engage in protracted litigation and recovery proceedings which may not adequately compensate our Bank for losses suffered by it. As on March 31, 2014, total advances amounted to ₹ 69,404.61 crores, the Available for Sale and Held for trading investments amounted to ₹ 5,461.71 crores and bills for collection yet to be settled amounted to ₹ 4,236.55 crores. For further details please refer to the chapter titled "Financial Statements" on page 73 of this Letter of Offer.

35. *If our Bank fails to maintain desired levels of credit deposit ratio, our business operations may be materially and adversely affected.*

Our Bank has a credit deposit ratio of 79.23% and 80.82% for FY 2014 and for FY 2013 respectively. Customer deposits are our Bank's primary source of funding. Credit to deposit ratio indicates our Bank's core funds used for lending activities. Any increase in ratio will put pressure on resources and the capital adequacy requirements. Moreover, a higher ratio may also lead to asset – liability mismatches. However, many factors affect the growth of deposits, some of which are beyond our Bank's control, such as economic and political conditions, availability of investment alternatives and retail customers' changing perceptions toward savings. Any significant increase in credit deposit ratio may put strain on our existing resources and will have a material adverse effect on Bank's financial condition, liquidity and results of operations.

36. *Our Bank may not be able to detect money-laundering and other illegal or improper activities fully or on a timely basis, which could expose it to additional liability and harm our business or reputation.*

Our Bank is required to comply with applicable anti-money-laundering and anti-terrorism laws and other regulations. These laws and regulations require our Bank, among other things, to adopt and enforce "Know Your Customer" ("KYC") policies and procedures and to report suspicious and large transactions to the applicable regulatory authorities in different jurisdictions. While our Bank has adopted policies and procedures aimed at detecting and preventing the use of our banking networks for money-laundering activities and by terrorists and terrorist-related organizations and individuals generally, such policies and procedures may not completely eliminate instances where our Bank may be used by other parties to engage in money-laundering and other illegal or improper activities due to, in part, the short history of these policies and procedures. To the extent our Bank fails to fully comply with applicable laws and regulations, the relevant government agencies to whom our Bank reports have the power and authority to impose fines and other penalties. In addition, our Bank's business and reputation could suffer if customers use our Bank for money-laundering or illegal or improper purposes. Although our Bank does not believe that it is in violation of any applicable sanctions, there can be no assurance that our Bank will be able to fully monitor all of our transactions for any potential violation.

37. Any consolidation of the Associate Banks with the State Bank of India may result in resistance and may adversely affect our Bank's operations

Any consolidation of the business of the Associate Banks with State Bank of India may result in resistance from our employees and customers. Such kind of opposition in future may disrupt business operations and the delivery of banking services to customers.

38. A significant reduction in our credit rating could adversely affect our business, financial condition, cash flows and results of operations.

Our Innovative Perpetual Debt Instruments & Tier I / Tier II subordinated bonds which are outstanding are rated by rating agencies as under:

* Call option is available after 10 years (subject to RBI permission at that time.)

A downgrade in credit rating may negatively affect the Bank's ability to obtain funds and increase the financing costs by increasing the interest rates of its outstanding debt or the interest rates at which the Bank is able to refinance existing debt or incur new debt, which may adversely affect its business, financial condition and results of operations.

39. Our Bank is exposed to fluctuations in foreign exchange rates

As a financial intermediary, our Bank is exposed to exchange rate risk. As on March 31, 2014, contingent liabilities on account of outstanding forward exchange contracts were ₹ 18,420.25 crores. Our Bank complies with regulatory limits on our unhedged foreign currency exposure, and is exposed to fluctuations in foreign currency rates for our unhedged exposure to that extent.

Adverse movements in foreign exchange rates may also impact our Bank's borrowers negatively which may in turn impact the quality of our Bank's exposure to these borrowers. Volatility in foreign exchange rates could adversely affect our Bank's future financial performance and the market price of the Equity Shares.

40. *We are member of the RBI Corporate Debt Restructuring (CDR) mechanism, pursuant to which we may be mandated to restructure or write-off certain outstanding debts that may impact our results of operations.*

Our Bank is a member of the RBI CDR mechanism. RBI's guidelines on CDR mechanism specify that for debt amounts of ₹ 10.00 crore and above, 60% of the creditors by number and 75% of creditors by value can decide to restructure the debt and that such a decision would be binding on the remaining creditors. In situations where we have exposure of 25% or less, we could be forced to agree to a restructuring of debt which may not be in our interests or which may be time consuming or require us to reduce interest rates or write-off portions of outstanding amounts, in preference to foreclosure of security or a One Time Settlement (OTS), which may impact our results of operation. During FY 2014, our Bank has restructured 31 accounts under CDR. As on March 31, 2014, the total outstanding amount of loans assets under CDR was ₹ 2,588.06 crore which constituted 3.66% of our total loan assets.

41. *If our Bank is unable to adapt to rapid technological changes, our business could suffer.*

Our Bank's future success will depend partly on our ability to respond to technological advances and to emerging banking industry standards and practices on a cost-effective and timely basis. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that our Bank will successfully implement new technologies effectively or adapt our transaction processing systems to meet customer requirements or emerging industry standards. If our Bank is unable, to adapt itself in a timely manner to changing market conditions, customer requirements or technological changes, our business, and operations could be materially affected.

With the implementation of CBS and other technology initiatives, the importance of systems technology to our business has increased significantly. However, the maintenance of the CBS by the technology provider is under an agreement between the provider and our promoter, State Bank of India on behalf of our Bank. Consequently, in the event of a breach or termination of such agreement for any reason whatsoever, our Bank's operations would be adversely affected.

Further, any technical failures associated with our Bank's information technology systems or network infrastructure, including those caused by power failures and breaches in security including information security caused by computer viruses and other unauthorized tampering, may cause interruptions, data loss and/or delays in our Bank's ability to provide services to our customers on a timely basis or at all, and may also result in costs for information retrieval and verification.

42. *We may not maintain historical dividends in the future as the same depends upon, among other factors, our earnings, financial position, cash requirements and availability of profits, as well as the provisions of relevant laws in India from time to time.*

While we have paid dividends in the past, there can be no assurance as to whether we will pay dividends in the future and, if so, the level of such future dividends. The declaration, payment and amount of any future dividends is subject to the discretion of the Board and will depend upon, among other factors, our earnings, financial position, cash requirements and availability of profits, as well as the provisions of relevant laws in India from time to time.

43. *Any future equity offerings by our Bank could lead to dilution of your shareholding or adversely affect the market price of the Equity Shares.*

As a shareholder of our Bank's Equity Shares, you could experience dilution to your shareholding in the event that we conduct future equity offerings. Such dilution can adversely affect the market price of the Equity Shares and could impact our ability to raise capital through an offering of our equity securities. In addition, any perception by investors that such issuance or sales will occur could also affect the trading price of the Equity Shares.

- 44. *The Equity Shares Allotted pursuant to the Issue will be listed on the BSE, NSE and MSE and you will not be able to sell immediately on the Stock Exchanges any of the Equity Shares Allotted till the final listing approval is received.***

Our Equity Shares are currently listed on the BSE, NSE, MSE and CSE and the Equity Shares offered pursuant to the Issue will be listed on BSE, NSE and MSE. SEBI vide its order dated December 23, 2014 bearing No. WTM/RKA /MRD/163/2014 granted an exit to the CSE and hence the equity shares arising out of this rights issue shall not be listed on CSE. Listing and trading of Equity Shares to be allotted are subject to the receipt of final approval from the Stock Exchanges. We cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Letter of Offer. Any failure or delay in listing the Equity Shares on the Stock Exchanges would restrict investors' ability to dispose of their Equity Shares.

- 45. *Our Inability to improve the share of CASA deposits may result in higher cost of deposits and thereby affect the profitability of our bank in future.***

Our Bank as on March 31, 2014 and March 31, 2013 had total deposits of ₹ 89,337 crores and ₹ 84,624 crores respectively. The share of CASA deposits amounted to 27.65% of total deposits in FY 2014 *vis-à-vis* 25.79% in FY 2013. Inability to improve the share of CASA deposits may affect the profitability of our Bank.

- 46. *If we are unable to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business, it may have a material and adverse effect on our business, financial condition and results of operations.***

We require certain statutory and regulatory permits and approvals to operate our business.

Further, under certain of our contractual arrangements we are required to hold all necessary and applicable approvals and licenses from authorities such as RBI, SEBI and the Insurance Regulatory and Development Authority. In the event that such approvals and licenses lapse or are revoked by the granting authorities, we may not be able to provide such services which could have an adverse effect on our business and financial condition. Failure by us to renew, maintain or obtain the required permits or approvals, including those set forth above, may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations.

- 47. *Due to the limited information regarding loan servicing history of customers in India, we may be at a higher risk compared to banks with lending operations in more developed countries. We depend on the accuracy and completeness of information furnished by the customers and counterparties and any misrepresentation, errors or incompleteness of such information could cause our business to suffer.***

Unlike several more developed economies, a nationwide credit bureau has become operational in India only recently, and therefore, adequate information regarding loan servicing histories, particularly in respect of individuals and small businesses, is limited. As a result, our credit risk exposure is higher compared to banks operating in more developed markets. Because our lending operations are primarily limited to India, we may be exposed to a greater potential for loss compared to banks with lending operations in more developed countries. Inadequate loan servicing histories for borrowers increase the risk of exposure and may lead to an increase in our NPAs which may adversely affect our business, results of operations and financial condition.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, we may rely on information furnished to us by or on behalf of our customers and counterparties, including financial statements and other financial information. We may also rely on certain representations as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors.

For example, in deciding whether to extend credit, we may assume that a customer's audited financial statements conform to generally accepted accounting principles and present fairly, in all material respects, the financial condition, results of operation and cash flows of the customer.

The difficulties associated with the inability to accurately assess the value of collateral and to enforce rights in respect of collateral, along with the absence of such accurate statistical, corporate and financial information,

may decrease the accuracy of our assessments of credit risk, thereby increasing the likelihood of borrower default on our loan and decreasing the likelihood that we would be able to enforce any security in respect of such a loan or that the relevant collateral will have a value commensurate to such a loan. Moreover, the availability of accurate and comprehensive credit information on retail customers and small businesses in India is more limited than for larger corporate customers, which reduces our ability to accurately assess the credit risk associated with such lending.

Difficulties in assessing credit risks associated with our day-to-day lending operations may lead to an increase in the level of our non-performing and restructured assets, which could materially and adversely affect our business, financial condition and results of operations.

48. *Our insurance coverage could prove inadequate to satisfy potential claims. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have a material adverse effect on our business, results of operations and financial condition.*

We have taken out insurance within a range of coverage consistent with industry practice in India to cover certain risks associated with our business, including money and securities in safe or transit, goods held in trust, coins/ currency and buildings. We cannot assure you that our current insurance policies will insure us fully against all risks and losses that may arise in the future. In addition, even if such losses are insured, we may be required to pay a significant deductible on any claim for recovery of such a loss, or the amount of the loss may exceed our coverage for the loss. In addition, our insurance policies are subject to annual review, and we cannot assure you that we will be able to renew these policies on similar or otherwise acceptable terms. If we were to incur a serious uninsured loss or a loss that significantly exceed the limits of our insurance policies, it could have a material adverse effect on our business and financial condition.

B. External Risks

49. *There are certain restrictions as per Subsidiaries Banks Act and Banking Regulation Act which has a bearing on the flexibility of our Bank's operations and affect/restrict investor's right. Further, any material changes in the regulations that govern our Bank could adversely affect our Bank's business and financial performance.*

Our Bank can carry on business/activities as specified in the Subsidiary Banks Act and the Banking Regulation Act. There are certain restrictions on our ability to pursue profitable avenues if they arise, in contrast with other companies. There are restrictions regarding:

- a) Setting up of subsidiaries by a Bank
- b) Management of the Bank including appointment of Directors
- c) Borrowings and creation of floating charge thereby hampering leverage. Banks may have to resort to unsecured debt instruments for borrowings
- d) Production of documents and availability of records for inspection by shareholders
- e) Reconstruction of banks through amalgamation etc.
- f) Voluntary winding up.
- g) Ownership restrictions.

Any material changes in the regulations that govern our Bank could adversely affect our Bank's business and financial performance.

50. *Changes to interest rates, CRR and SLR may affect our business operations and profitability*

The RBI's policies pertaining to interest rates, CRR and SLR are sensitive to many factors beyond our control, including the RBI's monetary policy, deregulation of the financial sector in India and domestic and international economic and political conditions. Presently, the CRR prescribed by the RBI stands at 4% and the repo/ reverse repo rate at which banks borrow/ lend money from / to the RBI under liquidity adjustment facility is at 7.50% / 6.50%. Under the RBI regulations, we are required to maintain a minimum specified Statutory Liquidity Ratio of 21.50% of our net demand and time liabilities in cash and government or other approved securities.

51. *Changes to the prudential norms by the RBI requiring banks to maintain higher provisioning norms would adversely affect our profitability*

In the event of the RBI effecting any changes to the prudential norms requiring banks to maintain higher provisioning norms for non performing assets, such increase in provisioning requirement would adversely impact our profitability, business, financial condition or results of operations.

52. *Natural calamities could have a negative impact on the Indian economy and harm our Bank's business*

India has experienced natural calamities such as earthquakes, floods, drought and a tsunami in recent years. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy which could adversely affect our Bank's business and the price of our Bank's Equity Shares.

53. *Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our Bank's business*

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets and the worldwide financial markets. These acts may result in a loss of business confidence, make travel and other services more difficult and could generally have an adverse effect on our Bank's business. In addition, any deterioration in international relations may result in investor concern regarding regional stability which could adversely affect the price of our Bank's Equity Shares.

In addition, India has witnessed localised civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our Bank's business. Such incidents could also create a greater perception that investment in Indian market involves a higher degree of risk and could have an adverse impact on our Bank's business and the market price of our Bank's Equity Shares.

54. *Restrictions on foreign direct investment in public sector bank may limit our ability to raise additional capital.*

Foreign direct investment including portfolio investment, in public sector bank is limited to 20% of the bank's share capital. Further, such foreign investment in public sector bank is subject to the prior approval of the Central Government. Thus, our ability to raise additional capital from foreign investors is impaired as a result of these and other restrictions, which may adversely affect our business operations and growth.

55. *Banking is a heavily regulated industry and material changes in the regulations which govern our Bank, may adversely affect our business.*

Banks in India are subject to detailed supervision and regulation by the RBI. The RBI also sets guidelines on the CRR, SLR, priority sector lending, export credit, agricultural loans, loans to sectors deemed to be weak by the RBI, market risk, CAR and branch licensing, among others.

Our Bank is also subject to regular financial inspection by the RBI. In the event, our Bank is unable to meet or adhere to the guidelines or requirements of the RBI, the RBI may impose strict enforcement of its observations on the Bank, which may have an adverse effect on our business, financial condition, cash flows or results of operations. The laws and regulations governing the banking sector, including those governing the products and services that our Bank provides or proposes to provide, such as our life insurance or asset management business, or derivatives and hedging products and services, could change in the future.

In addition, the financial condition and results of operations of banks are susceptible to material change pursuant to changes in law, as well as to changes in regulations, government policies and accounting principles. Any such changes may adversely affect our Bank's business, future financial performance and the price of the Equity Shares.

56. Significant changes in the Government's policy on liberalisation of the Indian economy could impact our Bank's financial results and prospects.

India has been charting a course of economic liberalisation and our Bank's business could be significantly influenced by the economic policies of the Government. However, there can be no assurance that these liberalisation policies will continue in the future. The rate of economic liberalisation could change, and laws and policies affecting banking and finance companies, foreign investment, currency exchange and other matters affecting investment in our Bank's securities could change as well. Any significant change in liberalization and deregulation policies could adversely affect business and economic conditions in India generally and our Bank's business in particular. If the Government introduces significant changes, the competitive position of our Bank's borrowers may be adversely affected and this may impact the quality of our Bank's loan portfolio.

57. A slowdown in economic growth in India could cause our Bank's business to suffer.

Any slowdown in economic growth in India could adversely affect our Bank's borrowers and contractual parties. The current uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A further slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults among corporate, retail and rural borrowers.

With the importance of retail and personal loans to our Bank's business, any slowdown in the growth or negative growth of sectors such as housing and automobiles could adversely impact our Bank's performance. Any such slowdown could adversely affect our Bank's business, including our ability to grow, the quality of our assets, our financial performance and the trading price of the Equity Shares.

Further, Indian economy has witnessed inflationary pressures in the past and this has a major say on the domestic interest rates. Any changes in the CRR and the repo rates will necessitate banks to adjust their Base Rate/BPLR. Call money rates would also move up mainly on account of higher pre-emption and credit off-take. Our Bank's business may be affected on account of the above factors.

58. The Indian banking industry is very competitive and our Bank's ability to grow depends on its ability to compete effectively.

The Indian banking industry is very competitive. Our Bank competes directly with public and private sector banks some of which may have a larger customer and deposit base, larger branch networks and more capital. The large public sector banks are also expected to improve their customer service networks and technology platforms, which will allow them to enhance their competitive position against banks such as our Bank. Our Bank also competes with other private sector banks in India, some of which also have larger customer bases and greater financial resources than our Bank. In particular, other private sector banks may have operational advantages in implementing new technologies, rationalizing branches and recruiting employees through incentive-based compensation.

Liberalisation of the Indian financial sector could also lead to a greater presence or new entries of Indian and foreign banks offering a wider range of products and services, which could adversely affect our competitive environment. The RBI has recently issued the Guidelines on Licensing of New Banks in the Private Sector and intends to issue licences on an on-going basis, subject to the RBI's qualification criteria. Thus far, the RBI has granted "in-principle" approval to two applicants to set up new banks under these guidelines.

We also compete with foreign banks with operations in India. These competitors include a number of large multinational banks and financial institutions as well as NBFCs and housing finance companies. In November 2013, the RBI released a framework for the setting up of wholly owned subsidiaries in India by foreign banks. The framework encourages foreign banks to establish a presence in India by granting rights similar to those received by Indian banks, subject to certain restrictions and safeguards. Under the current framework, wholly-owned subsidiaries of foreign banks are allowed to raise Rupee resources through issue of non-equity capital instruments. Further, wholly-owned subsidiaries of foreign banks may be allowed to open branches in Tier 1 to Tier 6 centres (except at a few locations considered sensitive on security considerations) without having the need for prior permission from RBI in each case, subject to certain reporting requirements. The guidelines may result in increased competition from foreign banks.

Mergers and consolidation among public sector banks as well and private sector banks may result in enhanced competitive strengths in pricing and delivery channels for the merged entities. Our Bank may face greater competition from larger banks as a result of such consolidation, which may adversely affect our Bank's future financial performance.

59. *Any downgrading of India's rating by an international rating agency could have a negative impact on our economy.*

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Indian securities markets. Any such disruption could have an adverse effect on the price of our Bank's Equity Shares.

60. *Financial instability in other countries, could disrupt our Bank's business.*

Although economic conditions are different in each country, investors' reactions to developments in one country may have an adverse effect on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India, which could adversely affect the Indian financial sector in particular. Any such disruption could have an adverse effect on our Bank's business, future financial performance, financial condition and results of operations, and affect the price of our Bank's Equity Shares.

61. *Seasonal trends in the Indian economy affect our Bank's business*

Our Bank's business is affected by seasonal trends in the Indian economy that affect the overall banking industry. The period from October to March is the busy period in India for economic activity and, accordingly, we generally experience higher volumes of business during this period. From April to September, when economic activity typically decreases, our business volumes experience a corresponding decrease. As a result of this, the quarter to quarter comparison of historical results may not be accurate or a meaningful indicator of our future performance.

62. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to investors' assessments of our financial condition. Our failure to successfully adopt IFRS could have a material adverse effect on our stock price.*

Our financial statements, including the financial statements provided in this Letter of Offer, are prepared in accordance with Indian GAAP. There is lack of clarity on the adoption of and convergence with IFRS and there is not yet a significant body of established practice on which to draw in forming judgments regarding its implementation and application, we have not determined with any degree of certainty the impact that such adoption will have on our financial reporting. There can be no assurance that our financial condition, results of operations, cash flows or changes in shareholders' equity will not appear materially worse under converged accounting standards than under Indian GAAP. There can be no assurance that our adoption of converged accounting standards will not adversely affect our reported results of operations or financial condition and any failure to successfully adopt converged accounting standards could have a material adverse effect on our stock price.

63. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell Equity Shares at a particular point in time.*

Our Bank's shares are subject to a daily "circuit breaker" imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. A closure of, or trading stoppage on, either BSE or NSE could adversely affect the trading price of the Equity Shares. The circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

64. *Market price of the Equity Shares of our Bank may fall below the historical price levels.*

The share price data of our Bank incorporated herein pertains to Equity Shares prior to this Rights Issue. The price of Equity Shares of our Bank may potentially vary significantly following the Issue and may potentially fall to levels which are below the historical price levels of the Equity Shares.

65. *After this Issue, the price of our Equity Shares may be highly volatile.*

The prices of our Bank's Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including:

- our profitability and performance;
- performance of our competitors in the Indian banking industry and the perception in the market;
- significant developments in India's fiscal, and other regulations;
- an assessment of our management, our past and present operations, and the prospects for, and timing of, our future revenues and cost structures;
- the present state of our development, etc

There can be no assurance that an active trading market for our Equity Shares will be sustained after this Issue, or that the prices at which our Equity Shares have historically traded will correspond to the price at which the Equity Shares are offered in this Issue or the prices at which our Equity Shares will trade in the market subsequent to this Issue. The Indian stock markets have witnessed significant volatility in the past and our Equity Share price may be volatile and may decline post listing.

66. *The market value of an investment in our Equity Shares may fluctuate due to the volatility of the Indian securities markets.*

The Indian Stock Exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Such fluctuations and volatility could affect the market price and liquidity of the securities of Indian companies, including our Equity Shares. Moreover, there have been occasions when secondary market operations have been interrupted and/or affected due to temporary exchange closures, broker defaults and settlement delays. In addition, the governing bodies of the Indian Stock Exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements.

67. *Investors may be subject to Indian taxes arising out of capital gains*

Under current Indian tax laws and regulations, capital gains arising from the sale of shares in an Indian company are generally taxable in India. Any gain realised on the sale of listed equity shares on a stock exchange held for more than twelve (12) months will not be subject to capital gains tax in India if Securities Transaction Tax ("STT") has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the equity shares are sold. Any gain realised on the sale of equity shares held for more than twelve (12) months to an Indian resident, which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of twelve (12) months or less will be subject to short term capital gains tax in India.

68. *There is no guarantee that the Rights Equity Shares will be listed on the Stock Exchanges (except CSE) in a timely manner and any trading closures at the Stock Exchanges may adversely affect the trading price of the Equity Shares*

In accordance with Indian law and practice, permission for listing of the equity shares will not be granted until after the equity shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of equity shares to be submitted. There could be a failure or a delay in listing the Equity Shares offered in this Issue on BSE, NSE and MSE. The exchanges have in the past experienced problems, including temporary exchange closures, broker defaults, settlements delays and strikes by brokerage firm employees, which, if continuing or recurring, could affect the market price and liquidity of the securities of Indian companies. A closure of, or trading stoppage on, either of the exchanges could adversely affect the trading price of the Equity Shares. Further, the Equity Shares offered in this Issue will be listed on BSE and NSE. The Equity Shares allotted in this Issue shall be listed on the Stock Exchanges within stipulated time period as per ICDR Regulations.

- (b) Brokerage / commission etc., paid in connection with the acquisition of investments is charged to revenue and not included in cost.
- (c) Broken period interest paid / received on debt instruments is treated as interest expended / income and is not included in cost / sale consideration.
- (d) Cost is determined on the weighted average cost method.
- (e) Transfer of scrips from AFS /HFT category to HTM category should be made at the lower of book value or market value. In cases where the market value is less than the book value, the provision against depreciation held against this security should be adjusted to reduce the book value to the market value and the security should be transferred at the market value.

Transfer of scrips from HTM to AFS/HFT category will be done at the acquisition price/book value. After transfer, these securities should be immediately revalued and resultant depreciation, if any, may be provided.

(ii) Held to Maturity categories:

Each security is carried at acquisition cost or at amortized cost, if acquired at a premium over the face value. Any premium on acquisition is amortized over the remaining maturity period of the security on constant yield basis. Such amortization of premium is adjusted against income under the head "Interest on investments".

(iii) Available for Sale and Held for Trading categories:

- (a) The value of investments held under the Available For Sale category is determined as per Reserve bank of India guidelines as under:

 - State Government Securities and Other Trustee Securities: Marked to market on the basis of prices derived out of the yield for respective maturities declared for the purpose of valuation jointly by FIMMDA and PDAI.
 - Shares: Wherever Stock Exchange quotations are available valuation is done as per lower of the quotations in Bombay Stock Exchange or National Stock Exchange. Wherever current quotations are not available and in respect of unquoted shares (i) Valuation is as per Book Value (without considering Revaluation Reserves, if any) ascertained from the latest Balance Sheet of the Company (which is not more than one year prior to the date of valuation) (ii) In case the latest Balance Sheet is not available, the shares are valued at Re.1.00 per Company.
 - Bonds & Debentures: Valued on the YTM method for the respective maturity and rating put out by FIMMDA and PDAI.
 - Mutual Fund Units: Investment in quoted MF Units should be valued as per Stock Exchange quotations.
 - Investment in un-quoted MF Units is to be value on the basis of the latest re-purchase price declared by the MF in respect of each particular scheme. In case of funds with a lock in period, where re-purchase price/market quote is not available, units are valued at Net Asset Value (NAV). If NAV is not available, then these are valued at cost, till the end of lock in period.
 - Treasury Bills, Certificates of Deposits and Commercial Papers are valued at carrying cost.
 - Preference Shares are valued at lower of market value determined on YTM basis and its redemption value.

- (b) Each security in the above two categories is revalued at the market price or fair value determined as per Regulatory Guidelines and only the net depreciation of each group for each category is provided for and net appreciation is ignored. On provision for depreciation, the book value of the individual securities remains unchanged after marking to market.
- (iv) Security receipts issued by an Asset Reconstruction Company (ARC) are valued in accordance with the guidelines applicable for Non-SLR investments.
- (v) Investments are classified as performing and non-performing based on the following guidelines issued by the RBI.

Our responsibility is to issue a report on the Statement based on our review of the Statement, which has been prepared by the Bank’s management pursuant to Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2009, as amended (“**SEBI (ICDR) Regulations 2009**”), issued by the Securities and Exchange Board of India (“**SEBI**”), in accordance with Accounting Standard 25 (“**AS 25**”) on Interim Financial Reporting, and other applicable accounting standards.
2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410 – “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” – issued by Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A limited review of interim financial statements consists principally of applying analytical procedures to financial data and making enquiries with the Bank personnel responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards followed in India, objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.
3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the Statement, prepared in all material respects in accordance with AS 25, has not disclosed the information required to be disclosed in terms of AS 25 read with Paragraph A (3) in Clause X in Part E of SEBI (ICDR) Regulations 2009, including the manner in which it is to be disclosed, or that it contains any material misstatement.
4. This report is intended solely for the use of the Bank for filing with SEBI and Stock Exchanges in connection with the proposed rights issue of Equity shares of the Bank under SEBI (ICDR) Regulations 2009 and the same should not be used, referred to or distributed for any other purpose, without our prior written consent. We do not accept or assume any liability or duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come, save where expressly agreed by our prior consent in writing.

Brief Facts: As per the order dated January 07, 2011 of the Hon'ble High Court of Bombay, it is stated that our Bank had sanctioned loan aggregating to ₹ 9.00 crores in favour of Respondent No. 1 in December 1995 against various securities. As Respondent No. 1 was unable to pay its dues to the Bank, the Bank filed recovery proceedings before the DRT wherein a partial decree of ₹ 8.12 crores had been passed. As per the said High Court order, Respondent No. 1 claimed that the Bank had executed an assignment deed dated March 29, 2006 in favour of Kotak Mahindra Bank Ltd. wherein all the dues receivable by our Bank from Respondent No. 1 was assigned to Kotak Mahindra Bank Ltd, without the knowledge of Respondent No. 1 and therefore alleges suppression of facts by the Petitioners and our Bank, which worked against Respondent No. 1. Aggrieved by this, Respondent No. 1 filed complaint against the Petitioners and the others (including our Bank) alleging offence punishable under Section 409 ad 418 read with Section 120 of the Indian Penal Code 1860. The Petitioners thereby filed a writ petition (bearing reference number 1279 of 2010) before the Hon'ble High Court of Bombay under Article 227 of the Constitution of India 1950 and Section 482 of Code of Criminal Procedure 1973 praying for quashing of Criminal Case No.

0800009/SW/08 pending in the court of Additional Chief Metropolitan Magistrate, Mumbai and for setting aside of order dated January 25, 2008, by which proceedings were issued against all the persons accused in the complaint (including the Petitioners herein). The Hon'ble High Court of Bombay observed that the Petitioners could not make a case for themselves for quashing of the complaint and hence their petition was rejected. Aggrieved by the same, the Petitioners have approached the Hon'ble Supreme Court of India to grant special leave to appeal under Article 136 of the Constitution of India 1950 and have prayed to pass such order the Hon'ble Supreme Court of India deems fit and proper in the facts and circumstances of the case. The Hon'ble Supreme Court has passed an interim order dated March 14, 2011 for stay of further proceedings during the pendency of the special leave to appeal.

Additionally, existing Equity Shareholders may not renounce in favour of persons or entities in the United States or who would otherwise be prohibited from being offered or subscribing for Equity Shares or Rights Entitlement under applicable securities laws.

Any renunciation (i) from resident Indian equity shareholder(s) to non-resident(s); (ii) from non-resident equity shareholder(s) to resident Indian(s); or (iii) from a non-resident equity shareholder(s) to other non-resident(s), is subject to the renouncer(s)/ renounee(s) obtaining the necessary regulatory approvals. Our Bank had applied to the RBI for seeking approval for renunciation of Rights Entitlement and RBI in its letter dated February 24, 2015 communicated as follows (a) RBI has given its no objection for renunciation of rights entitlement by, and to, persons' resident in India and persons' resident outside India on following conditions (i) the renunciation of rights entitlement should be on the floor of the Stock Exchange (ii) RBI has no objection for renunciation by non-resident to resident on the floor of the stock exchange (iii) RBI has no objection for renunciation by non-resident to non-resident on the floor of stock exchange. If the non-resident transferees include FIIs, the individual as well as overall limit should be complied with. (iv) If any transaction involves an erstwhile OCB, the Bank should approach RBI with full details for prior approval (v) The NRI shareholders holding non-repatriable shares may renounce the rights entitlements in favour of Residents or other NRIs only. Further in terms of Regulation 6 of Notification No. FEMA20/2000-RB dated 3rd May 2000, as amended from time to time, only the existing Non Resident shareholders may subscribe for additional shares over and above the shares offered on rights basis by the company.

Renunciation by OCBs

By virtue of the Circular No. 14 dated September 16, 2003 issued by the RBI, Overseas Corporate Bodies ("OCBs") have been derecognised as an eligible class of investors and the RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs) Regulations, 2003. Accordingly, the Eligible Equity Shareholders of our Bank who do not wish to subscribe to the Rights Equity Shares being offered but wish to renounce the same in favour of renounee shall not renounce the same (whether for consideration or otherwise) in favour of OCB(s).

The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated 8 December 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated nonresident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000, under the foreign direct investment scheme with the prior approval of Government of India if the investment is through the government approval route and with the prior approval of RBI if the investment is through automatic route on case by case basis. Shareholders renouncing their rights in favour of OCBs may do so provided such Renounee obtains a prior approval from the RBI. On submission of such approval to us at our Head Office, the OCB shall receive the Abridged Letter of Offer and the CAF.

Part 'A' of the CAF must not be used by any person(s) other than those in whose favour this offer has been made. If used, this will render the application invalid. The Renounees applying for all the Rights Equity Shares renounced in their favour may also apply for additional Rights Equity Shares. Part 'A' of the CAF must not be used by the Renounee(s) as this will render the application invalid. Renounee(s) will have no further right to renounce any Rights Equity Shares in favour of any other person.

The right of renunciation is subject to the express condition that our Board shall be entitled in its absolute discretion to reject the request for Allotment to Renouncee(s) without assigning any reason thereof.
