

ExtranetPlus Setup Instructions:

1. Machine on which ExtranetPlus application should be on Private network(LAN,WAN,VSAT)
2. The PC should have atleast 512 MB RAM and a good Harddisk capacity to store the files downloaded on a daily basis.
3. Download the ExtranetPlus application from the <https://member.bseindia.com> site. A file named ExtranetPlus.zip is downloaded.
4. Extract the ExtranetPlus.zip file in any drive.
5. On extracting the ExtranetPlus.zip file, a folder with name ExtranetPlus is created.
6. Extract the "Net Framework4.zip" and install DOT Net Framework 4.0 by double clicking on "**dotNetFx40_Full_x86_x64.exe**" file.
7. After successful installation of .NET 4 Framework, run ExtranetPlus Setup by double-clicking "**Setup.exe**" file in the ExtranetPlus folder.
8. After this, browse to the installation path of ExtranetPlus application for registering **UserId** and **Password**.

e.g. C:\Program Files\BSE\ExtranetPlusSetup

At this path, edit "**settings.ini**" file and enter the following :

Following are the contents of the File:

REMOTESERVERIP=10.1.101.98	➡ BSE Server IP
REMOTESERVERPORT=9001	➡ BSE Server Port
MEMBERID=0001	➡ Enter bsewebx MEMBERID
USERID=0001	➡ Enter bsewebx USERID
PASSWORD=<password>	➡ Enter bsewebx Password*
DRIVE=C	➡ Enter the drive name where member wants the files to be downloaded.
SPECIALREQUESTPORT=9000	➡ BSE SPECIAL REQUEST PORT **

*** in case the user changes/resets the bsewebx password, the same needs to be updated in the settings.ini file failing which "Login Status :- Invalid password .. Login failed .. Try again" message is displayed.**

**** members who are already using ExtranetPlus application needs to run the setup.exe to install the new version and add this line in the "settings.ini" file (as given above)**

Save the "settings.ini" file and exit.

9. In order to start the ExtranetPlus application, double click on **ExtranetPlus** icon created on the desktop or go to Start->Program->ExtranetPlus option.

10. The files will be downloaded in the location given below :

Drive selected in Setting.ini file \BSEExtranet_Files\EQ	➡ All Equity Files
\BSEExtranet_Files\FNO	➡ All Derivative Files
\BSEExtranet_Files\SLB	➡ All SLB Files
\BSEExtranet_Files\OFS	➡ All OFS Files
\BSEExtranet_Files\Year	➡ All Year Files
