We had informed the exchange regarding the same vide update on 02<sup>nd</sup> April 2020, which is also available on your website.

As due to current COVID situation there is a huge demand for diagnostic testing kits of RT-PCR to test Novel Coronavirus ( COVID19 ) our company has started manufacturing , streamlining , increasing production capacity to meet this huge demand which is also the need of the hour for the country.

This will surely convert into higher financial numbers in this quarter , however due to current lockdown things are difficult still company is expecting to manufacture between 500000 (Five Lac tests ) to 100000 (Ten lac tests) and offer to various hospitals and laboratories. The figure will vary due to several factors, like availability of raw materials continuation of the disease period and other factors .
