**2. Performance of the Company**

Every year, the company continues to enhance its performance, consistently surpassing its previous records, even in the face of challenging environments and difficult periods. In the fiscal year 2022-23, the Company achieved remarkable milestones. The company's performance was exceptional, as evidenced by a significant increase in its operational revenue, reaching a new pinnacle of Rs. 549.26 Cr.

The fertilizer division, in particular, exhibited outstanding performance, with operational revenue hitting a record high of Rs. 314.03 Cr. The seed division also excelled, achieving a new high of Rs. 150.12Cr. The exceptional performance of the fertilizer division was especially noteworthy in light of the challenging conditions in the 2022-23 fiscal year. Steep increases in commodity prices, particularly Rock Phosphate and sulfur, which are essential raw materials for SSP fertilizer production, posed unprecedented challenges. Additionally, the government's decision to cap subsidy rates within the Nutrient-Based Subsidy Policy for the year further pushed up SSP fertilizer prices, making it less competitive compared to other phosphatic fertilizers benefiting from full subsidy rates.

Throughout the financial year, the seed division expanded its presence in other states, aligning with the company's strategy of achieving more than 50% of sales from non-soyabean sources and from regions outside Maharashtra. The research division introduced a new soyabean variety called "Omkar" in Maharashtra, which received widespread acceptance among farmers.

The company's diversification efforts have contributed to increased turnover while maintaining profitability. Even during this challenging period, the company's prudent cost management and sound raw material procurement policies ensured the preservation of profit margins, despite increased working capital requirements.

In the fiscal year 2022-23, the company strategically increased the production capacity of LABSA, doubling its production and sales compared to the previous year. The demand for cold storage facilities has also risen, leading to ongoing expansion efforts in our cold storage units. These units remain committed to adopting innovative technologies to provide effective and efficient services to our customers.

The company successfully launched a pipe manufacturing plant in Akola, Maharashtra, catering to the demands of drip irrigation, sprinkler systems, and HDPE portable water pipes. This expansion aligns naturally with meeting the growing rural demand, and we anticipate that this product line will continue to make a significant contribution to our company's turnover in the coming years.

Looking ahead to the fiscal year 2023-24, the long-range monsoon forecast predicts below-normal rainfall, and the fertilizer industry anticipates a correction in rock phosphate prices, which would be beneficial for the sector. It is expected that these upcoming years will continue to present challenges for the SSP fertilizer industry

**3. DIVIDEND :**

The Board of Directors are pleased to recommend the dividend of Rs. 0.08 per share (8%) for the year 2022-23 on equity share capital, subject to the approval of the shareholders at the Annual General Meeting (Previous Year 8%) which shall absorb Rs. 72.50 lakhs (Previous Year Rs. 72.50 lakhs).

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### Company Profile

The company holds a prominent position in the agriculture sector and is recognized as one of Maharashtra's leading manufacturers of a wide range of agricultural inputs. Our product portfolio includes SSP Fertilizer, various hybrid seeds and NPK mixture granulated fertilizers. Most recently the Company has diversified into Warehousing, Cold Storage and LABSA manufacturing. The company's trademark, "Krishi Sanjivani," stands as a symbol of quality and is highly regarded by the farming community and customers.

Our production facilities are strategically located in different states, including Maharashtra, Karnataka, and Madhya Pradesh. In addition to our core agricultural operations, the company is actively involved in the generation of power through wind turbines and the operation and maintenance of warehousing and cold storage facilities.

Furthermore, the successful establishment of a pipe manufacturing plant in Akola, Maharashtra, positions us to meet the growing demand for drip irrigation systems, sprinklers, and HDPE portal water pipes. This expansion aligns naturally with our commitment to serving the burgeoning rural markets.

### Economic Overview

Agriculture is the third largest sector of Indian Economy, which contributes around 17% of total GDP of the Country. Fertilizer Industry, with the emerging scenario, plays a vital role in the growth of Agriculture Sector. The balanced use of chemical fertilizer is important not only for increasing agricultural productivity but also for sustaining soil fertility. Single Super Phosphate is a multi-nutrient fertilizer containing phosphate (16%) and sulphur (11%) as primary nutrients. SSP is applied as a basal fertilizer being rich in secondary nutrients like calcium and magnesium oxide and several micro nutrients. It is an essential Fertilizer for crops like Oilseeds, Pulses, Sugarcane, Fruits and Vegetables, Tea etc. and for sulphur deficient soils. Growth of Industries and openings of MNCs have not yet declined the importance of agriculture in India. Economic development is not a sole function of Industrial development; it also includes development of agriculture. Sustainable development is the need of the time and it can only be achieved through balanced growth of both agriculture and Industrial sector. There is a popular saying Countries are known for their greenery, and India is one of those countries. Growth of agriculture and growth of fertilizer Industry supplement each other. Both go hand in hand.

To feed the population there is a need to increase food grain production. To increase agricultural production and diversify the agricultural base, the government focuses on irrigation, adoption of new agricultural technologies, credit facilities to farmers and the use of various agriculture input like better quality seeds, efficient and balanced use of fertilizers and insecticides. Fertiliser is one of the main agricultural input for increasing food grain production. It strengthens the soil and enhances its fertility. The productivity of agricultural land has to be necessarily improved with increased use of agricultural inputs like quality seeds, fertilisers, water, agro-chemicals etc., for better crop yields. Among the different agricultural inputs and practices required for good production, the use of the fertilisers together with quality seeds and water are the most important. Fertilizers provide plants with the food they need for their growth and development. India needs to increase its yield in comparison to developed countries keeping in mind the growing population. Yield can be improved with proper use of fertilisers.

The Government has been consistently pursuing policies conducive to increase the consumption of fertilizers containing all types of nutrients by the farmers at affordable prices in the country to increase the food grain production. Every year the demand for the SSP fertilizers increases as it is the poor farmer's choice of fertilizer. It also helps to treat sulphur deficiency in soil (40% Indian soil is sulphur deficient) as well as for further enhancement of yields at the least cost. Government's continuous thrust to encourage SSP to substitute imports of DAP and NPK is an indicator of upward trend in the Industry's future.

The Company is producing SSP, which contains Phosphate, Sulphur, Calcium and other micro nutrients and could be said to be a 'Multi Nutrient Fertilizer'. The fertilizer industry including SSP is a working capital intensive industry. Therefore interest rates and delay in disbursement of subsidy are always matters of concern to the Company. The agriculture industries are totally depending on the monsoon conditions.

### Current and Future Outlook

The year 2022-23 saw the operations begin in a global uncertainty following the Russia Ukraine conflict. This geo political situation led to an unprecedented rise in prices of rock phosphate which is the major raw material for the Company. This conflict also led to closure of several businesses in Europe due to high energy costs and subsequently there was a acute shortage of raw material in prices of Sulphuric acid and related chemicals.

Every year, the company continues to enhance its performance, consistently surpassing its previous records, even in the face of challenging environments and difficult periods. In the fiscal year 2022-23, the Company achieved remarkable milestones. The company's performance was exceptional, as evidenced by a significant increase in its operational revenue, reaching a new pinnacle of Rs. 549.26 Cr.

The fertilizer division, in particular, exhibited outstanding performance, with operational revenue hitting a record high of Rs. 314.03 Cr. The seed division also excelled, achieving a new high of Rs. 150.12Cr. The exceptional performance of the fertilizer division was especially noteworthy in light of the challenging conditions in the 2022-23 fiscal year. Steep increases

in commodity prices, particularly Rock Phosphate and sulfur, which are essential raw materials for SSP fertilizer production, posed unprecedented challenges. Additionally, the government's decision to cap subsidy rates within the Nutrient-Based Subsidy Policy for the year further pushed up SSP fertilizer prices, making it less competitive compared to other phosphatic fertilizers benefiting from full subsidy rates.

The GOI has recently initiated the pilot project for the final stage of Direct Benefit Transfer to the farmers. Hopefully in a few years this may also be fully implemented. The GOI has now created a separate division within the Ministry of Fertilizers for SSP to encourage production and address issues of the industry.

The plants of the Company are located at the Consumption center thereby the Company is in advantageous position over its competitors as agriculture produce can be made available to the farmers without delay at reasonable prices. The Company is continuously and gradually expanding all its activities especially in terms of its product range, volume of seed handled, level of seed distribution and have developed adequate level of specialization and competence in handling and managing various segments of seed improvement on scientifically sound and commercially viable terms. Emphasis has been given by the Company to develop seeds having traits such as insect / pest resistance, herbicide tolerance, disease resistance, etc. so that crop yields can be increased, farm costs can be reduced. The consistent, stable, and sustainable growth, improving its operational efficiencies and achieving better profitability along with the highest standard of quality, safety and productivity are the prime objectives of the Company. With a view to educate the farmers about the improved and modern techniques of cultivations, the Company arranges the 'krishi melas' at different locations wherein on field demonstrations has been given to the farmers about the output per acre of land by using the Hybrid seeds and appropriate fertilizers. The advantages of seeds replacement, soil improvements, efficient use of water and fertilizers, beneficial cropping pattern etc. are explained to the farmers in the said melas. By launching technologically superior seeds with less disease vulnerability, at reasonable prices, the Company has gained the confidence of the farming communities over the years. The Company has developed hybrid seeds for high yielding and pest resistant varieties of crops suitable for different agro-climatic zones. Land and water resources being limited, increased agricultural production by using advanced agronomical practices like use of Micro-irrigation technologies and also by using Balanced Chemical fertilizers and hybrid seeds is of immense importance to meet the requirement of the increasing population. Hence timely availability of quality seeds at affordable prices to farmers is necessary for achieving higher agricultural productivity

### **Opportunities and threats**

The raw material prices of Rock Phosphate remained high throughout the year mainly due to global sentiment and demand from new industry constraints in domestic and global situations has led to a acute shortage of material from suppliers leading to increase in prices. SSP fertilizers are based on imported raw-materials which can face severe volatility in prices and foreign currency exchange rates, affecting the profitability of the Company. Agro-Climatic conditions also have a large effect on the performance of the Company. Delay in subsidy payments, uncertainty of monsoon, volatile international market of raw material, seasonal consumption of fertilizer mainly in two months each in Kharif and Rabi, lack of awareness of benefits of SSP consumption amongst farmer fraternity, clubbed with logistics availability/ cost and higher requirement of working capital shall remain concerns for the Industry & of the Company.

A good monsoon which has been forecasted will greatly help the company to achieve its target. The Government has been consistently pursuing policies conducive to increase consumption of fertilizers containing all types of nutrient by the farmers at affordable prices in the country to increase the food grain production. The Government is taking positive steps to boost SSP Production with "Make in India" initiatives and discouraging DAP imports which will revive SSP industry. The coming year is with the prediction of a favourable monsoon and the company is ready to capitalize this opportunity.

The plants of the Company are located at the consumption center thereby the Company is in an advantageous position over its competitors as agriculture produce can be made available to the farmers without delay at reasonable prices

### **Human Resources / Safety Management System**

Human Resources are one of the most important ingredients for growth. The Company considers its highly motivated and well-maintained employees its most valuable assets of the Company. Company strongly believes in continuously taking steps towards the talent growth , leadership development, and employee engagement.

The Company therefore strives to align human resource policy and initiatives to meet business plans. Training of employees to maintain high level of motivation is an ongoing process. Industrial relations at all the units remained cordial during the year. Health & safety Management system in the Company aims at to reduce, eliminate or control workplace hazards and associated risks of accidents or injuries to the workers. We provide sufficient information, instructions, training and supervision to enable all workers to identify, minimize and manage hazards and contribute positively to safety at works

### **Cautionary Statement**

This Management Discussion and Analysis Report contains statement about the Company's future plans, projections, estimates, expectations may be forward looking statements within the meaning of applicable laws and regulation. Actual result could however differ materially from those expressed or implied in this statement due to factors beyond control of the Company like, monsoon condition, economic condition, government policies and regulations etc.

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF BASANT AGRO TECH (INDIA) LIMITED

#### Report on the Audit of the Standalone Financial Statements Opinion

We have audited the accompanying Standalone Financial Statements of BASANT AGRO TECH (INDIA) LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Financial Statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Financial Statements.

Key Audit Matter	Auditor's Response
<p><b>Information Technology</b> IT systems and controls The Company's key financial accounting and reporting processes are highly dependent on the automated controls in information systems, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated. From a financial reporting perspective the Company uses and we have tested the financial accounting and reporting system and other tools for overall financial reporting. We have focused on user access management, change management, segregation of duties, system reconciliation controls and system application controls over key financial accounting and reporting systems.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>□ We tested a sample of key controls operating over the information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations.</li> <li>□ We tested the design and operating effectiveness of key controls over user access management which includes granting access right, new user creation, removal of user rights and preventative controls designed to enforce segregation of duties.</li> <li>□ For a selected group of key controls over financial and reporting system, we independently performed procedures to determine that these control remained unchanged during the year or were changed following the standard change management process.</li> <li>□ Evaluated the design, implementation and operating effectiveness of the significant accounts-related IT automated controls which are relevant to the accuracy of system calculation, and the consistency of data transmission.</li> <li>□ Other areas that were independently assessed included password policies, security configurations, system interface controls, controls over changes to applications and databases and that business users, developers and production support did not have access to change applications, the operating system or databases in the production environment.</li> <li>□ Obtained report related to information technology audit carried out by the subject matter expert engaged by the management and assessed the impact if any on our audit procedures.</li> </ul>

<p>The Company operates in more than one State within India, exposing it to a variety of different Central and State laws, regulations and interpretations thereof. The provisions and contingent liabilities relate to ongoing litigations and claims with various authorities. Litigations and claims may arise from direct and indirect tax proceedings, legal proceedings, including regulatory and other government/department proceedings, as well as investigations by authorities and commercial claims.</p> <p>The determination of a provision or contingent liability requires significant judgement by the Company because of the inherent complexity in estimating future costs. The amount recognized as a provision is the best estimate of the possible expenditure. The provisions and contingent liabilities are subject to changes in the outcomes of litigations and claims over time as new facts emerge as each legal case progresses and positions taken by the Company. There is an inherent complexity and magnitude of potential exposures is significant across the Company. Significant judgment is necessary to estimate the likelihood, timing and amount of the cash outflows, interpretations of the legal aspects, legislations and judgements previously made by the authorities. Accordingly, this is identified as a key audit matter</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Obtaining an understanding of actual and potential outstanding litigations and claims against the Company from the Company's in-house Legal Counsel and other senior personnel of the Company and assessing their responses;</li> <li><input type="checkbox"/> Assessing status of the litigations and claims based on correspondence between the Company and the various tax/legal authorities and legal opinions obtained by the Company;</li> <li><input type="checkbox"/> Testing completeness of litigations and claims recorded by verifying the Company's legal expenses and the minutes of the board meetings;</li> <li><input type="checkbox"/> Assessing and challenging the Company's estimate of the possible outcome of litigations and claims. This is based on applicable tax laws and legal precedence by involving our tax specialists in taxation related matters and internal legal counsel;</li> <li><input type="checkbox"/> Evaluating judgements made by the Company by comparing the estimates of prior year to the actual outcome;</li> <li><input type="checkbox"/> Assessing and testing the adequacy and completeness of the Company's disclosures in respect of litigations and claims.</li> </ul>
<p><b>Revenue Recognition</b></p> <p>Ind AS 115 requires to consider management to account revenue as per terms of contracts with customers and on fulfillment of performance obligations</p> <p>Due to the Company's sales under various contractual terms and across the country, delivery to customers in different regions might take different time periods and may result in undelivered goods at the period end.</p> <p>There is also a risk of revenue being overstated due to fraud resulting from pressure on the Company to achieve performance targets at the reporting period end. Accordingly, fraud and cut-off risks in revenue recognition are considered as a key audit matter.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Understood the processes and controls around established in recognition of revenue.</li> <li><input type="checkbox"/> Focusing on the Company's revenue recognition for compliance with Ind AS.</li> <li><input type="checkbox"/> Evaluated and tested design and operating effectiveness of controls addressing risk.</li> <li><input type="checkbox"/> Performed test check of sales transactions to verify contractual terms of invoices, acknowledged delivery receipts and tested the transit time to deliver the goods.</li> </ul>

### Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 (the 'Order') issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable

## ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of BASANT AGRO TECH (INDIA) LIMITED of even date)

### Report on the Internal Financial Controls over Financial Reporting under Clause

#### (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of BASANT AGRO TECH (INDIA) LIMITED (“the Company”) as of March 31, 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

#### Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

#### Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

#### Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## NOTES TO FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH 2022

### 1. Corporate Information

The company holds a prominent position in the agriculture sector and is recognized as one of Maharashtra's leading manufacturers of a wide range of agricultural inputs. Our product portfolio includes SSP Fertilizer, various hybrid seeds and NPK mixture granulated fertilizers. Most recently the Company has diversified into Warehousing, Cold Storage and LABSA manufacturing. The company's trademark, "Krishi Sanjivani," stands as a symbol of quality and is highly regarded by the farming community and customers.

Our production facilities are strategically located in different states, including Maharashtra, Karnataka, and Madhya Pradesh. In addition to our core agricultural operations, the company is actively involved in the generation of power through wind turbines and the operation and maintenance of warehousing and cold storage facilities.

Furthermore, the successful establishment of a pipe manufacturing plant in Akola, Maharashtra, positions us to meet the growing demand for drip irrigation systems, sprinklers, and HDPE portal water pipes. This expansion aligns naturally with our commitment to serving the burgeoning rural markets.

#### • Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. The policies have been consistently applied to all the years presented, unless otherwise stated.

#### a) Basis of preparation

##### i. Compliance with Ind AS

Basis of preparation of financial statements Effective April 1, 2017 the company has adopted all the Ind AS standards and adoption was carried out in accordance with Ind AS 101, "First time adoption of Indian Accounting Standard", with April 1, 2016 as the transition date. The transition was carried out from the Indian Accounting Principles Generally Accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in INR and all values are rounded to the nearest INR Lakh, except when otherwise indicated.

##### ii. Current versus non-current classification

Classification of Assets and Liabilities as Current and Non-Current All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of product & activities of the Company and their realisation in cash and cash equivalent, the Company has determined its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and liabilities

#### b) Operating Segment

The company is primarily engaged in the business of manufacturers of various farm inputs in India comprising SSP Fertilizer, various hybrid seeds and NPK mixture granulated fertilizers. Most recently the Company has diversified into Warehousing, Cold Storage and LABSA manufacturing. Further all the commercial operations of the company are based in India. Performance is measured based on the management accounts as included in the internal management reports that are reviewed by the company's Chairman and Managing director. Accordingly, the Company classifies Seed, Fertilizer and Others as three major operating segments.

#### c) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

#### d) Revenue recognition

Revenue from the sale of goods is recognised, when all the significant risk and rewards of ownership of the goods have passed to the buyer, the Company no longer has effective control over the goods sold, the amount of revenue and costs associated with the transaction can be measured reliably and no significant uncertainty exists regarding the amount of consideration that will be derived from the sales of Goods. Revenue from the sale of goods is measured at the fair value of the consideration receivable, net of returns and allowances, trade discounts and volume rebates. The sales include the excise duty and exclude Value added tax/ sales tax/ Goods and service tax.

#### Rendering of services

Revenue received from Warehouse, i.e. Rental Income is recognised on accrual basis as and when the outcome of a transaction can be reliably estimated.

#### Interest income

Interest income for debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that discounts

estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering contractual terms of the financial instrument but does not consider the expected credit losses.

## **Dividends**

Dividend is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

## **Subsidy**

Fertilizer Subsidy, wherever applicable, is accounted for on actual sales and is net off any subsequent non receipt reversal.

## **e) Segment reporting:**

The Managing Directors monitor the operating results of the business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products. Segment revenue includes sales and other income directly identifiable with/ allocable to the Segment.

Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure. Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.

Segment result represent the profit before interest and tax earned by each segment without allocation of central administrative costs. Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

The company has disclosed Business Segments as its primary segments. Reporting segments have been identified as Fertilizers, Micro Nutrients & Chemicals and Oil, taking into accounts the nature of product, the different risk and returns, the organizational structure and the internal reporting system.

The company caters mainly to the need of domestic market. The direct export turnover is Nil during the year. As such there are no reportable geographical segments.

## **f) Income Taxes**

Income tax comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to an items recognized directly in equity or in other comprehensive income.

### **Current income tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of the previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

### **Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax loss and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore in case of history of recent losses, the company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax asset –unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is legally enforceable right to offset current tax liabilities and assets, and they to income taxes levied by the same tax authority.

### **Current and deferred tax for the year**

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

## g) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

### Finance Lease

Finance Lease is a lease that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's policy on borrowing costs. A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term. Operating Lease

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Lease rentals paid for operating leases are charged to Statement of Profit and Loss with reference to lease term and other consideration.

## h) Provisions and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resource embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Contingent Assets are not recognised in financial statements but are disclosed, since the former treatment may result in the recognition of income that may or may not be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate

## i) Property, plant and equipment

- a. On transition to IND AS, the company has adopted optional exception under IND AS 101 to measured Property, plant and Equipment at carrying value, consequently the carrying value has been assumed to be deemed cost of property, plant and Equipment on the date of transition, subsequently property.
- b. Property, plant and equipment acquired after the transition date are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchased price, borrowing cost if capitalized criteria are met and directly attributable cost of bringing the assets to its working condition for the intended use. Any trade discounts, rebates & cenvat availed, are deducted in arriving at the purchase price.
- c. Capital work –in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date.
- d. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the costs to the item can be measured reliably. Repairs and maintenance costs are recognised in net profit in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gain or losses are recognised in the statement of profit and loss.
- e. Gains or losses arising from de-recognized of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the assets is derecognized.
- f. Machinery spares/ standby equipments which are used only in connection with property, plant and equipment and are of material value to the overall value of the asset are capitalized.

## j) Depreciation

- i. Depreciation on tangible assets is provided on the straight – line method over the useful lives of assets as prescribed in schedule ii of the Companies Act, 2013, except in respect of following categories of assets in whose case the life of certain assets has been assessed based on technical advice taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, maintenance support etc.
- ii. Depreciation for assets purchased / sold during a period are proportionately charged.
- iii. Intangible Assets are amortized on straight-line basis over the estimated useful economic life.

## k) Inventories

Inventories are valued as under: -

- i. Raw material, Work in process and Packing Materials: -

At Cost on First in First out (FIFO) basis or net realizable value whichever is lower. Raw material and work in process are not written down below cost if the finished product in which they will incorporated are expected to be sold at or above cost.

- ii. Finished Goods: -

At cost or net realizable value whichever is lower. The cost is computed on weighted average method and includes cost of materials, cost of conversion and other costs incurred in acquiring the inventory and bringing them to their present location and condition.

- iii. Stores & Spares: -

At Cost on FIFO Basis.

**l) Reclassification to investment property**

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

**m) Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits, (which are not pledged) with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

**n) Employee Benefits**

**Provident Fund / ESIC**

Retirement benefits in the form of Provident Fund / ESIC are a defined contribution scheme and the contributions are charged to the profit and loss of the year when the contributions to the respective fund are due. There are no other obligations other than the contribution payable to the respective funds.

**Gratuity /Leave encashment**

The obligation of assets recognised in the balance sheet in respect to defined benefit / leave encashment value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Re-measurement gain and losses arising from experience adjustment and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Re-measurements are not reclassified to profit or loss in subsequent periods.

**o) Foreign currencies**

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company into functional currency at the exchange rate on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**p) Earnings Per Share**

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

**q) Statement of Cash Flow**

Cash Flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transition of a non-cash nature, any deferrals or accrual of past or future operating cash receipts or payments and items of income or expense is associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

**r) Financial Assets**

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. At initial recognition, all financial assets are measured at fair value. Such financial assets are subsequently classified under following three categories according to the purpose for which they are held. The classification is reviewed at the end of each reporting period.

i. Financial Assets at Amortised Cost At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates. These financial assets are intended to be held until maturity. Therefore, they are subsequently measured at amortised cost by applying the Effective Interest Rate (EIR) method to the gross carrying amount of the financial asset. The EIR amortisation is included as interest income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

ii. Financial Assets at Fair value through Other Comprehensive Income At the date of initial recognition, are held to collect contractual cash flows of principal and interest on principal amount outstanding on specified dates, as well as held for selling. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in Other Comprehensive Income (OCI). Interest income calculated using the effective interest rate (EIR) method, impairment gain or loss and foreign exchange gain or loss are recognised in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from the OCI to Statement of Profit and Loss.

iii. Financial Assets at Fair value through Profit or Loss At the date of initial recognition, financial assets are held for trading, or which are measured neither at Amortised Cost nor at Fair Value through OCI. Therefore, they are subsequently measured at each reporting date at fair value, with all fair value movements recognised in the Statement of Profit and Loss.

**s) Trade Receivables.**

A Receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. For some trade receivables the Company may obtain security in the form of guarantee, security deposit or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement. Impairment is made on the expected credit losses, which are the present value of the cash shortfalls over the expected life of financial assets.

losses are recognised in a separate provision for impairment and the impairment losses are recognised in the Statement of Profit and Loss within other expenses. Subsequent changes in assessment of impairment are recognised in provision for impairment and the change in impairment losses are recognised in the Statement of Profit and Loss within other expenses

## t) **Investment in Equity Shares.**

Investments in Equity Securities are initially measured at cost. Any subsequent fair value gain or loss is recognized through Profit or Loss if such investments in Equity Securities are held for trading purposes. The fair value gains or losses of all other Equity Securities are recognized in Other Comprehensive Income.

### **Derecognition.**

Financial Asset is primarily derecognised when:

- i. The right to receive cash flows from asset has expired, or.
- ii. The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement and either:
  - a) The Company has transferred substantially all the risks and rewards of the asset, or
  - b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at

the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

## u) **Investments in Associates**

Investments in equity shares of Associates are recorded at cost and reviewed for impairment at each reporting date

## v) **Financial Liabilities**

### **Initial recognition and measurement**

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent Measurement.

The measurement of financial liabilities depends on their classification, as described below:

- i. **Financial Liabilities at Fair Value through Profit or Loss.** Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date with all the changes recognized in the Statement of Profit and Loss.
- ii. **Financial Liabilities measured at Amortised Cost.**

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method (“EIR”) except for those designated in an effective hedging relationship. The carrying value of borrowings that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in fair values attributable to the risks that are hedged in effective hedging relationship. Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.
- iii. **Loans and Borrowings.**

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.
- iv. **Trade and Other Payables.**

Payable is classified as ‘trade payable’ if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

### **De-recognition of Financial Liability**

A Financial Liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

### **Offsetting of Financial Instruments**

# BASANT AGRO TECH (INDIA) LIMITED

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

## w) Exemptions and exceptions availed

In preparing these Ind AS Financial Statements, the Group has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the Consolidated Financial Statements as at the transition date under Ind AS and IGAAP have been recognised directly in equity (retained earnings or another appropriate category of equity). This Note explains the adjustments made by the Group in restating its IGAAP Consolidated Financial Statements, including the Balance Sheet as at April 01, 2016 and the Consolidated Financial Statements as at and for the year ended March 31, 2017.

### a) Ind AS optional exemptions

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous IGAAP to Ind AS.

### b) Ind AS mandatory exceptions

The Group has applied the following exceptions from full retrospective application of Ind AS as mandatorily required under Ind AS 101:

## x) Estimates

Estimates in accordance with Ind AS at the transition date will be consistent with estimates made for the same date in accordance with IGAAP (after adjustments to reflect any difference in Accounting Policies) unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 01, 2016 are consistent with the estimates as at the same date made in conformity with IGAAP. The Group made estimates for following items in accordance with Ind AS at the date of transition as these were not required under IGAAP:

1. Investment in equity instruments carried at FVOCI;

## y) Financial Risk Management objectives and Policies

### Financial risk factors

The Company's operational activities expose to various financial risks i.e. market risk, credit risk and risk of liquidity. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk & interest rate risk. The Company calculates and compares the alternative sources of funding by including cost of currency cover also. Whenever, the currency cover costs are such as to neutralize the advantage in foreign currency, loans are hedged so as to not to lose advantage. The Company uses derivative financial instruments to reduce foreign exchange risk exposures.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables	Ageing Analysis, credit risk analysis	Diversification of bank deposits, credit limits and letter of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecast	Availability of committed credit lines and borrowing facilities
Market Risk -Foreign Exchange	Future Commercial transactions, Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting Sensitivity Analysis	Forward foreign exchange contracts Foreign Currency options
Market Risk -Interest Rate	Long term borrowings at variable rates	Sensitivity analysis	Interest rate swaps
Market Risk -Security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification
