### Management Discussion and Analysis Report

#### GLOBAL ECONOMY:

Global growth has slowed to the extent that the global economy is perilously close to falling into recession defined as a contraction in annual global per capita income only three years after emerging from the pandemic-induced recession of 2020. Very high inflation has triggered unexpectedly rapid and synchronous monetary policy tightening around the world to contain it, including across major advanced economies (figure 1.1.A). Although this tightening has been necessary for price stability, it has contributed to a significant worsening of global financial conditions, which is exerting a substantial drag on activity. This drag is set to deepen given the lags between changes in monetary policy and its economic impacts, and the fact that real rates are expected to continue to increase.

Asset prices have been in broad, synchronous decline, investment growth has weakened substantially, and housing markets in many countries are worsening rapidly. Shockwaves continue to emanate from the Russian Federation's invasion of Ukraine, especially in energy and other commodity markets. Against this backdrop, confidence has fallen precipitously. The world's three major engines of growth the United States, the euro area, and China are undergoing a period of pronounced weakness, with adverse spillovers for emerging market and developing economies (EMDEs), many of which are already struggling with weakening domestic conditions.

Global inflation has been pushed higher by demand pressures, including those from the lagged effects of earlier policy support, and supply shocks, including disruptions to both global supply chains and the availability of key commodities. In some countries, inflation has also been spurred by large currency depreciations relative to the U.S. dollar, as well as tight labor market conditions.

#### GOVERNMENT INITIATIVES:

The Indian economy, however, appears to have moved on after its encounter with the pandemic, staging a full recovery in FY22 ahead of many nations and positioning itself to ascend to the pre-pandemic growth path in FY23. Yet in the current year, India has also faced the challenge of reigning in inflation that the European strife accentuated. Measures taken by the government and RBI, along with the easing of global commodity prices, have finally managed to bring retail inflation below the RBI upper tolerance target in November 2022. However, the challenge of the depreciating rupee, although better performing than most other currencies, persists with the likelihood of further increases in policy rates by the US Fed. The widening of the CAD may also continue as global commodity prices remain elevated and the growth momentum of the Indian economy remains strong. The loss of export stimulus is further possible as the slowing world growth and trade shrinks the global market size in the second half of the current year.

Despite these, agencies worldwide continue to project India as the fastest-growing major economy at 6.5-7.0 per cent in FY23. These optimistic growth forecasts stem in part from the resilience of the Indian economy seen in the rebound of private consumption seamlessly replacing the export stimuli as the leading driver of growth. The uptick in private consumption has also given a boost to production activity resulting in an increase in capacity utilisation across sectors. The rebound in consumption was engineered by the near-universal vaccination coverage overseen by the government that brought people back to the streets to spend on contact-based services, such as restaurants, hotels, shopping malls, and cinemas, among others. The world's second-largest vaccination drive involving more than 2 billion doses also served to lift consumer sentiments that may prolong the rebound in consumption. Vaccinations have facilitated the return of migrant workers to cities to work in construction sites as the rebound in consumption spilled over into the housing market. This is evident in the housing market witnessing a significant decline in inventory overhang to 33 months in Q3 of FY23 from 42 months last year.

#### INDIA'S ECONOMIC RESILIENCE AND GROWTH DRIVERS:

Monetary tightening by the RBI, the widening of the CAD, and the plateauing growth of exports have essentially been the outcome of geopolitical strife in Europe. As these developments posed downside risks to the growth of the Indian economy in FY23, many agencies worldwide have been revising their growth forecast of the Indian economy downwards. These forecasts, including the advance estimates released by the NSO, now broadly lie in the range of 6.5-7.0 per cent. Despite the downward revision, the growth estimate for FY23 is higher than for almost all major economies and even slightly above the average growth of the Indian economy in the decade leading up to the pandemic. IMF estimates India to be one of the top two fast-growing significant economies in 2022. Despite strong global headwinds and tighter domestic monetary policy, if India is still expected to grow between 6.5 and 7.0 per cent, and that too without the advantage of a base effect, it is a reflection of India's underlying economic resilience; of its ability to recoup, renew and re-energise the growth drivers of the economy.

India's economic resilience can be seen in the domestic stimulus to growth seamlessly replacing the external stimuli. The growth of exports may have moderated in the second half of FY23. However, their surge in FY22 and the first half of FY23 induced a shift in the gears of the production processes from mild acceleration to cruise mode. Manufacturing and investment activities consequently gained traction. By the time the growth of exports moderated, the rebound in domestic consumption had sufficiently matured to take forward the growth of India's economy. Private Consumption as a percentage of GDP stood at 58.4 per cent in Q2 of FY23, the highest among the second quarters of all the years since 2013-14, supported by a rebound in contact-intensive services such as trade, hotel and transport, which registered sequential growth of 16 per cent in real terms in Q2 of FY23 compared to the previous quarter.

Although domestic consumption rebounded in many economies, the rebound in India was impressive for its scale. It contributed to a rise in domestic capacity utilisation. Domestic private consumption remains buoyant in November 2022, as indicated by Motilal Oswal's Economic Activity Index. The index estimates that private consumption grew at a five-month high pace of 5.6 per cent YoY, driven by auto sales and broad-based expansion of services.

#### **MARKET SIZE:**

In November 2021, at the Cop-26 Summit in Glasgow, Prime Minister Mr. Narendra Modi made a promise to increase India's renewable energy generation capacity to 500 GW and meet 50% of India's energy needs through renewable means by the year 2030.

The non-hydro renewable energy capacity addition stood at 4.2 GW for the first three months of FY23 against 2.6 GW for the first three months of FY22.

The non-conventional energy space in India has become highly attractive for investors and received FDI inflow of US\$ 12.57 billion between April 2000- June 2022. More than Rs. 5.2 lakh crore (US\$ 70 billion) has been invested in India's renewable energy sector since 2014. India ranked third on the EY Renewable Energy Country Attractive Index 2021.

In June 2021, Prime Minister Mr. Narendra Modi stated that the renewable energy capacity in India increased by 250% between 2014 and 2021 and the country ranks among the top five globally in terms of installed renewable energy capacity.

The Central Electricity Authority (CEA) estimates India's power requirement to grow to reach 817 GW by 2030.

As the economy grows, the electricity consumption is projected to reach 15,280 TWh in 2040 from 4,926 TWh in 2012. Most of the demand will come from the real estate and transport sectors.

#### **SUMMARY OF OUR BUSINESS:**

Our primary focus in renewable energy has been in solar industry and to cater it we developed an AI based intelligent Solar Digital Platform. We have developed Software as a Service (SaaS) products :

- a. Solar Companies
- b. Government Nodal Agencies

The SaaS for solar companies is to streamline the processes, design PV, do project management and monitor generation alongwith an integrated Marketplace to connect the demand & supply digitally. And the SaaS for the governments is to implement the distributed renewable programme in their service area.

Our Core business can be divided in following categories:

- a) Solar Software Service
- b) Solar Marketplace
- c) Solar Advisory and Consultancy Service
- d) Development of Solar Power Plant

Our company is also involved in the business of enabling the sustainable development through adoption of renewable energy and with energy transition to renewables.

#### **Our key expertise include:**

1. Software and Advisory on Process Management
2. Software related to solar EPC company for PV design, project management, procurement, monitoring, ERP, CRM

3. Solar Project Management
4. Advisory on policy and regulation related to renewable energy
5. Transactional Advisory on transformation of companies, cities and states to renewables
6. E-commerce for solar products
7. Drone Surveys
8. Automation
9. Development of Solar PV Power plant

Through our advisory services, we have our footprints across India and currently working with 38 cities to transform them to solar cities and enable the growth of solar in states like Gujarat, Punjab, Uttar Pradesh, Goa, Maharashtra, Telangana, Uttarakhand, Jharkhand, Delhi/NCR, Odisha, Karnataka, Kerala, J&K, etc.

#### **INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The Company has a proper and adequate system of internal financial controls, commensurate with its size and business operation. #### **OUTLOOK:**

We believe, the Company has a great deal of opportunities for future growth. We believe our management team has a long-term vision and has proven its ability to achieve long term growth of the Company. Our strengths lie in our track record of completing our projects efficiently and effectively within the stipulated time. It is critical in the renewable industry that projects are completed as per contracted schedule.

We have a track record of timely execution of the projects which minimizes cost overruns and eliminates any possibilities of penalties and liquidated damages, while earning repeat orders from our clients. We have never been penalized for delayed execution of a project. We intend to take advantage of the growing opportunities in renewable development by strengthening our expertise in software, advisory, development of solar plants and enabling the adoption of distributed solar for new prospects for growth.

The Company also continues to converge on improving business capabilities and enhancing growth levers. Improved R&D capabilities, enhanced retail format expansion, design abilities and better operational management amongst others will help reinforce our competitive advantages.

#### **HEALTH, SAFETY AND ENVIRONMENT:**

At our renewable advisory company, we hold a steadfast commitment to upholding all relevant health, safety, and environmental regulations throughout our operational endeavors. Our dedication to effective implementation of safety protocols is paramount. At the outset of each project, we meticulously identify potential material hazards, assess associated risks, and subsequently establish, execute, and oversee appropriate measures to mitigate these risks.

#### **THREATS, WEAKNESS AND CONCERNS:**

The industry is highly fragmented in the hands of several organized and unorganized players. Due to the attractiveness of the opportunity and large potential, competition across the industry in India is rising significantly.

The Company's weakness is limited recognition due to its relatively recent founding, the company might have lower brand recognition and while digital innovation is a strength, reliance on technology could pose a risk if there are disruptions in the digital infrastructure. The possible threats are the regulatory changes, competition and the technology shifts happening in the sector. There are no entry barriers in our industry, which puts us to the threat of competition from new entrants.

#### **SWOT :**

##### **Strengths:**

- **Innovative Services:** AHAsolar offers unique and innovative digital solutions for the solar industry, setting it apart from traditional competitors.
- **Experienced Team:** The company is backed by a team of experienced professionals with diverse expertise in the solar and digital sectors.
- **Comprehensive Offerings:** AHAsolar provides a range of services, from advisory for solar power plant development to online marketplaces for solar equipment, catering to various needs in the industry.
- **Strong Geographic Reach:** The company operates in multiple countries, including India, UAE, and Germany, indicating a strong international presence.

##### **Weaknesses:**

- **Market Penetration:** Being established in 2017, AHAsolar might face challenges.
- **Limited Recognition:** Due to its relatively recent founding, the company might have lower brand recognition.
- **Dependency on Digital Platforms:** While digital innovation is a strength, reliance on technology could pose a risk if there are disruptions in the digital infrastructure.

##### **Opportunities:**

- **Growing Solar Industry:** The increasing global focus on renewable energy creates opportunities for AHAsolar to capitalize on the growing demand for solar solutions.
- **Evolving Policies:** Favorable solar energy policies and incentives can drive increased adoption of solar solutions, benefiting AHAsolar's services.
- **Expansion into New Markets:** The company's successful operations in India, UAE, and Germany could pave the way for expansion into additional international markets.

##### **Threats:**

- **Competition:** The solar industry is competitive, with both traditional and new players vying for market share, which could impact AHAsolar's growth.
- **Regulatory Changes:** Changes in solar energy policies, tariffs, or regulations could affect the demand for solar solutions and impact AHAsolar's business.
- **Technological Shifts:** Rapid advancements in solar technology or shifts in digital platforms could necessitate continuous adaptation and investment.

#### **OUR BUSINESS MODEL**

**Our Business Model can be broadly categorized into three categories:**

1. Our business model is SaaS based on market revenues and the users buy the services as per the requirements online.
2. Our Company is awarded contracts from Public and Private Sector companies and development corporations for the advisory vertical for adoption of renewable energy at distributed and utility scale power projects alongwith road map preparation.
3. Our company works on the transaction margins for the transactions that happen in the marketplace for buying and selling of solar products.

#### **BUSINESS STRATEGY:**

##### **1. Continue to enhance our project execution capabilities.**

We intend to continue our focus on enhancing advisory execution capabilities so as to derive twin benefits of client satisfaction and improvements in operating margins. We will constantly endeavor to deliver the quality services through our transactional advisory and technical consultancy to ensure the profitability in end client's business.

We believe that we have developed a reputation for undertaking challenging advisory projects and completing such projects in a timely manner. We intend to continue our focus on performance and project execution ability to maximize our operating margins.

To facilitate efficient and cost-effective decision making, we intend to continue to strengthen our internal systems. Our ability to effectively manage projects will be crucial to our continued success as a Think-tank advisory company. We believe that we are able to distinguish ourselves from our competitors because of our management strength and knowledge teams, experienced and operational capabilities.

##### **2. Diversify our business by bidding and winning Government projects**

Renewable Energy growth in India has been propelled in the past decade with reforms and benefits extended by the government. Increased allocation of resources to the renewable sector, facilitation of incremental lending to the renewable sector and increased social sector projects benefiting renewable development are contemplated as part of current government plan.

Our Company believes that the increasing level of investment in infrastructure development of solar assets and digital assets provides solutions to government stakeholders to run and manage the programme. As the initiatives by central and state governments will be a major growth driver for its business in the future and its demonstrated expertise and experience in the renewable and solar segment providing a significant advantage in pursuing such opportunities. The Company believes that it is in an advantageous position because of its knowledge strength, experienced team, digital expertise and familiarity with the sector.

##### **3. Building our own SaaS Community**

Our SaaS solution is very uniquely placed and provides an opportunity to the B2B players to take the advantage of a platform to manage the sales, design, operation, procurement and maintenance of solar power systems. The SaaS community provides a solid platform to connect with all the stakeholders and bring more revenue

##### **4. Capture the high growth opportunities in the India Renewable sector**

We believe that the increasing levels of investment in renewable by governments and private industries will be major driver for growth in our business in the foreseeable future. We intend to take advantage of the growing opportunities in infrastructure development by strengthening our expertise in developing solar power projects under innovative models of fractional ownerships.

##### **5. Online Marketplace**

We believe that our strategic vertical of Marketplace will be a very well-placed business removing the challenges of entry barrier for solar EPC players as this helps them come to our platform for buying and selling of solar products and eventually experience the SaaS solution and implementing it into their business. This ensures the marketplace working a strategic vertical bring business own its own as well as creating future business opportunities.

#### **MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS:**

The Company's relations with the employees continued to be cordial and harmonious with its employees. It considers manpower as its assets and that people had been driving force for growth and expansion of the Company. The Company acknowledges that its principal assets is its employees. The Company has continued its efforts in building a diverse and inclusive workforce.

The total number of employees on roll in the Company as on 31st March, 2023, including factory workmen, was 42. The Company will continue to create opportunity and ensure recruitment of diverse candidates without compromising on meritocracy.

The Members of **AHASOLAR TECHNOLOGIES LIMITED**

### Report on the Audit of the Standalone Financial Statements

#### Opinion:

We have audited the accompanying standalone financial statements of the **AHASOLAR TECHNOLOGIES LIMITED** (formerly known as Ahasolar Private Limited) (the 'Company'), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss and Cash Flow Statement for the year ended and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the State of Affairs of the Company as at March 31, 2023 and its Profits for the year ended on that date.

#### Basis of Opinion:

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 (the 'Act'). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion on the standalone financial statements.

#### Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report.

#### Other information:

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, change in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and

prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements:**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatement in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding Independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## **Annexure – B to Independent Auditor's Report on Standalone Financial Statements**

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of Ahasolar Technologies Limited (Formerly known as Ahasolar Private Limited of even date)

### **Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')**

We have audited the internal financial controls over financial reporting of Ahasolar Technologies Limited (Formerly known as Ahasolar Private Limited) ('the Company'), as of 31st March 2023 in conjunction with our audit of the Standalone Financial Statements of the Company for the period ended and as on that date.

#### **Management's Responsibility for Internal Financial Controls:**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility:**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing prescribed under Section 143(10) of the Act and the Guidance Note, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of Internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting:**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

### **2. SIGNIFICANT ACCOUNTING POLICIES:**

#### **i. Basis for Accounting**

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis and comply with the relevant provisions of the Companies Act, 2013 ('the Act'). GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 read with Companies (Accounting Standards) Amendment Rule, 2016 applicable with effect from 1 April 2016 and other generally accepted accounting principles. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in Indian rupees in lakhs.

#### **ii. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are, useful lives of Property, plant and equipment, Provisions and contingencies, Income tax and deferred tax, Measurement of defined employee benefit obligations. The estimates & assumptions used in these financial statements are based upon management's evaluation of relevant events & circumstances of the data of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis, any revision to accounting estimates is recognized prospectively in current and future periods.

#### **iii. Current versus non-current classification**

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle; or

- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company has identified twelve months as its operating cycle.

**iv. Revenue Recognition**

Sales are recorded net of trade discounts, rebates, Goods and Services Tax (GST) as applicable. Revenue from sale of products is recognised when all the significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from contracts is recognised to the extent that it is probable that the economic benefits will flow to the company and can be reliably measured.

**v. Property, Plant and Equipment, Depreciation and Amortisation**

***Property, Plant and Equipment***

Tangible assets are carried at cost less accumulated depreciation, amortisation and impairment loss, if any. Cost comprises of purchase price including inward freight, non rebatable duties & taxes and expenses directly related to the acquisition, construction and installation of the Property, Plant and Equipment. Borrowing costs directly attributable to acquisition or construction of those Property, Plant and Equipment which necessarily take a substantial period of time to get ready for their intended use are capitalised.

Expenditure incurred on acquisition/ construction of Property, Plant and Equipment which are not ready for their intended use at each balance sheet date are disclosed under capital work in progress.

Depreciation on Fixed Assets is provided to the extent of depreciable amount on the Written Down Value (WDV) Method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on Property, Plant and Equipment acquired / discarded during the year is provided on a pro-rata basis from / upto the date of addition / deletion.

***Intangible assets***

Intangible assets are amortised in statement of profit and loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset. Accordingly, at present, these are being amortised on Written Down Value (WDV) basis. In accordance with the applicable Accounting Standard, the Company follows a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. However, if there is persuasive evidence that the useful life of an intangible asset is longer than ten years, it is amortised over the best estimate of its useful life. Such intangible assets and intangible assets that are not yet available for use are tested periodically for impairment.

**vi. Impairment of Assets:**

The carrying amount of tangible or intangible assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized in profit and loss account wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognized impairment loss is further provided or reversed depending on changes in circumstances.

**vi. Accounting for Taxes on Income**

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income-tax expense is recognised in profit or loss except that tax expense related to items recognised directly in reserves is also recognised in those reserves.

Current tax is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the applicable tax rates and tax laws. Deferred tax is recognised in respect of timing differences between taxable income and accounting income i.e. differences that originate in one period and are capable of reversal in one or more subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

## **vii. Provisions and Contingencies**

### ***Provisions :***

Provision is recognised in the balance sheet when, the Company has a present obligation as a result of a past event; it is probable that an outflow of economic benefits will be required to settle the obligation; and a reliable estimate of the amount of the obligation can be made

A disclosure by way of a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

### ***Contingencies :***

Provision in respect of loss contingencies relating to claims, litigation, assessment, fines, penalties, etc. are recognised when it is probable that a liability has been incurred, and the amount can be estimated reliably.

## **vii. Employee benefits**

### ***Short-term employee benefits :***

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized during the period.

### ***Long-term employee benefits :***

The Company's gratuity obligation is a defined benefit plans. The Company's net obligations in respect of gratuity is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present values of the obligation under such defined benefit plans are determined based on actuarial valuation carried out by an independent actuary at each balance sheet date using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligations are measured at the present values of the estimated future cash flows. The discount rates used for determining the present values of the obligations under defined benefit plans, are based on the market yields on Government securities as at the balance sheet date.

Actuarial gains and losses are recognized immediately in the Profit and Loss account.

### ***Compensated Absences :***

The employees can carry-forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees

render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

**vii Inventories**

*Inventories include traded goods. Inventories are valued at lower of cost and net realizable value. Cost is computed on the weighted average basis and is net of taxes. Traded goods include cost of purchase (net of refundable taxes and levies) and other costs incurred in bringing the inventories to their present location and condition. Provision is made for cost of obsolescence and other anticipated losses, whenever considered necessary.*

**vii Foreign exchange transactions**

*Foreign exchange transactions are recorded into Indian rupees using the average of the opening and closing spot rates on the dates of the respective transactions. Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated into Indian rupees at the closing exchange rates on that date. The resultant exchange differences are recognised in the Statement of Profit and Loss of the year.*

**vii Leases**

***Operating lease :***

Assets acquired under leases other than finance leases are classified as operating leases. The total lease rentals (including scheduled rental increases) in respect of an asset taken on operating lease are charged to the Statement of Profit and Loss on a straight line basis over the lease term unless another systematic basis is more representative of the time pattern of the benefit. Initial direct costs incurred specifically for an operating lease are deferred and charged to the Statement of Profit and Loss over the lease term.

**vii. Earnings per share**

The basic earnings per share are computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the reporting year. Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

**viii. General**

Accounting policies not specifically referred to above are consistent with generally accepted accounting principles.
