DIVIDEND RELATED INFORMATION

- 12. The shareholders whose names appear in the Register of Members/List of Beneficial Owners as on 21st August, 2023 i.e. the cut-off date will be paid the Dividend for the financial year ended 31st March, 2023, as recommended by the Board and after it is approved at the AGM.
- 13. Members holding shares in electronic form may note that bank particulars registered against their respective depository accounts will be used by the Company for payment of dividend declared at the meeting. The Company or its Registrars & Transfer Agents viz. Link Intime India Private Limited cannot act on any request received directly from the members holding shares in electronic form for any change of bank particulars or bank mandates or their address. Such changes are to be advised only to the Depository Participants by the members.

- 14. Members are requested to notify promptly any changes in their postal/email addresses or bank mandates to their respective Depository Participants in respect of their electronic share accounts quoting Client ID no. and in respect of their physical shares, quoting their Folio no. to Link Intime India Pvt. Ltd., Vadodara, the Company's Registrars and Transfer Agents.
- 15. Shareholders may note that the Income-tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after 1st April, 2020 shall be taxable in the hands of the shareholders. The Company shall, therefore, be required to deduct Tax at Source (TDS) at the time of making payment of final dividend, if any, declared. In order to enable us to determine the appropriate TDS rate as applicable, members are requested to submit the documents in accordance with the provisions of the Income-tax Act, 1961.
 - a. For Resident Shareholders, TDS shall be deducted under Section 194 of the Income-tax Act, 1961 @ 10% on the amount of Dividend declared and paid by the Company during the financial year 2022-2023 provided PAN is registered by the shareholder. If PAN is not registered, TDS would be deducted @20% as per Section 206AA of the Income-tax Act, 1961.
 - However, no tax shall be deducted on the dividend payable to resident individuals if the total dividend to be received by them during financial year 2022-2023 does not exceed Rs.5000/-. Please note that this includes the future dividends, if any, which may be declared.
 - Also, in cases where the shareholder provides Form 15G (applicable to any person other than a Company or a Firm)/Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted.
 - b. For Non-Resident Shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 of the Income-tax Act, 1961 at the rates in force. As per the relevant provisions of the Income-tax Act, 1961, the withholding tax shall be @20% (plus applicable surcharge and cess) on the amount of dividend payable to them. However, as per Section 90 of the Income-tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:
 - i. Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is a resident.
 - ii. Self-declaration in Form 10F if all the details required in this form are not mentioned in the TRC.
 - iii. Self attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income-tax Authorities.
 - iv. Self declaration, certifying the following points:
 - 1. Member is and will continue to remain a tax resident of the country of residence during the financial year 2023-2024;
 - 2. Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;
 - 3. Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;
 - 4. Member is the ultimate beneficial owner of its shareholding in the Company and Dividend receivable from the Company; and
 - 5. Member does not have a taxable presence or a permanent establishment in India during the financial year 2023-2024.

- 16. Please note that the Company is not obliged to apply the beneficial DTAA rates at the time of tax deduction/withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company of the documents submitted by the Non-Resident shareholder.
- 17. Accordingly, in order to enable us to determine the appropriate TDS/withholding tax rate applicable, we request you to provide these details and documents as mentioned above before the cut-off date.
- 18. Members are requested to note that the aforementioned documents are available on https://linkintime.co.in/client-downloads.html (under the tab 'General') and are required to be submitted at https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html on or before 21st August, 2023 ('the cut-off date') in order to enable the Company to determine and deduct appropriate TDS/withholding tax rate. No communication on the tax determination/deduction shall be entertained post 21st August, 2023. It may be further noted that in case the tax on the said dividend is deducted at a higher rate in the absence of receipt of the aforementioned details/documents from you, there would still be an option available with you to file the return of income and claim an appropriate refund, if eligible.
- 19. We shall arrange to send the copy of TDS certificate to you either on the last mentioned postal address available in the records of the Company or would be sent to the registered email id in due course, post payment of the said dividend.
- 20. Members who have not registered their email addresses so far are requested to register their email addresses for receiving all communications including Annual Report, Notices, Circulars, etc. from the company electronically, as provided for in the Companies Act, 2013 and the Rules made thereunder.
- 21. The Company has transferred to the Investor Education and Protection Fund (IEPF) unpaid/unclaimed dividend amounting to Rs.3,47,035/- pertaining to the Financial Year 2014-2015. Members who have not encashed their dividend warrants for the financial year 2015-2016 or subsequent financial years are requested to immediately write to the Company enclosing their uncashed Dividend Warrant and Bank Details for issue of cheque/demand draft against such invalid dividend warrants before such unclaimed dividend becomes due for transfer to the IEPF. The details of dividend amount already transferred to IEPF are available on the Company's website https://www.transpek.com/index.php/policies-and-other-information. After the unpaid/unclaimed dividend is transferred to IEPF, the shareholder can claim it from IEPF following the procedure provided on the IEPF website www.iepf.gov.in.

GENERAL INFORMATION

Corporate Social Responsibility Policy

Introduction

Transpek Industry Limited ("TIL"), a part of Shroff Group of organizations and a listed company, engaged in the development and manufacturing of chemical products, has been serving the community towards improving the quality of life of all its stakeholders since its inception, much before the legal framework of CSR was announced by the Govt. of India through the Companies Act, 2013 ('the Act').

Philosophy

TIL recognizes that business enterprises are the vital instruments of an economy and contribute significantly towards the well-being of the nation. TIL believes that the success of a company is measured not only in terms of financial results but also in terms of its commitment and contribution towards social and environmental performance which can generate multiplier impact towards enhancing societal sustainability and foster inclusive and equitable growth.

TIL's CSR strategy is a holistic, long term strategy that aligns with the group's core values of "Customer Focus", "Innovation", "Passion to Win" and "Fair play" for all stakeholders. This entails understanding the needs of communities, addressing them through need-based projects and making them work together to help create game changing development for sustainable growth.

Vision

To actively contribute towards creating innovative and sustainable solutions in the fields of health, education, vocational training and skill building and in doing so, build a better sustainable way of life for the weaker sections of the society.

Objectives

- 1. Transpek will make significant contribution in improving quality of education by establishing innovative models in under-served schools in the State of Gujarat.
- 2. Transpek will encourage/nurture development of human capital by providing inclusive and vocational education through demonstrated models of excellence in technical training and skill building to help enhance the employability of aspiring students.
- 3. Transpek will drive measurable improvements in health and hygiene standards in communities in which it operates

by supporting primary healthcare initiatives.

CSR Policy

- 1. TIL is committed to manage its business with integrity, align business values with operations seeking to enrich the society in which it operates.
- 2. To undertake CSR programmes which largely fall within the State of Gujarat.
- 3. To engage in vocational training and skill building to enhance employability and help create livelihood for the society.
- 4. To provide preventive healthcare, sanitation and drinking water for the disadvantaged sections of the society and help improve their health and hygiene standards.
- 5. To promote awareness towards "Safety" and "Environment" while working closely with the communities.
- 6. To develop the required capability and self-reliance of women at the grass root level, enable empowerment and provide opportunities to promote gender equality.
- 7. To promote collaborative partnership with government authorities, village panchayats, NGO's and industry associations in order to have a multiplier impact. TIL will also be responsible in times of natural calamities and disasters.
- 8. To ensure an increased commitment at all levels in the organization and operate its business in an economically, socially and environmentally sustainable manner while recognizing the interests of all its stakeholders.

Governance Structure

The governance structure for driving TIL's CSR Policy will incorporate the requirements under the law and also take into account the optimal structure required for maximizing impact. The CSR policy will be in compliance with the provisions of Companies (Corporate Social Responsibility) Rules, 2014 read with Section 135 and Schedule VII of the Companies Act, 2013 ('CSR Regulations').

Governance

The Board will set up a committee of Directors known as 'Corporate Social Responsibility Committee' ("CSR Committee") which will be a responsible body for formulating policy and driving the strategy to fulfil its objectives.

TIL will seek to identify suitable programmes for implementation in line with the CSR objectives of the Company and CSR Regulations. The CSR Committee may assign the task of implementation of the specified CSR Plan/project/programmes within specified budgets and timeframes to such trust, society or company (established under section 25 of the Companies Act, 1956 or under section 8 of the Act by the Company, either singly or along with its holding or subsidiary or associate Company, or along with any other Company or holding or subsidiary or associate Company of such other Company, or otherwise) which would execute the said CSR Plan/project/programmes.

In case of programme execution by NGO's/Voluntary organizations, the following minimum criteria would need to be ensured:

- 1. The NGO / Agency has a permanent office/address in India, preferably in Gujarat.
- 2. The NGO is a professionally managed registered society under Societies Registration Act or a non-profit entity under Section 25 of the Companies Act, 1956 / Section 8 of the Companies Act, 2013 or a Trust registered under the laws applicable to charitable trusts and has an established track record of minimum three years in undertaking similar programmes or projects.
- 3. Possesses a valid Income Tax Exemption Certificate;
- 4. The NGO shall execute/implement the Company's specified CSR Plan/project/programmes within specified budgets with modalities of utilization of funds, timeframes and monitoring and reporting mechanism;

- 5. The capacity building expenditure including administrative overheads shall not exceed five percent of the total CSR expenditure of the Company;
- 6. The antecedents of the NGO/Agency are verifiable/subject to confirmation.
- 7. The Company can collaborate with any Private or Public Company incorporated under the Companies Act, 1956 or Companies Act, 2013 as may be permissible under the CSR Regulations for carrying out CSR activities.

The CSR Committee/Board of the Company will approve flagship programmes, periodically monitor the progress of activities and review strategy.

Ethical business is given priority at Transpek. We strictly follow and practise the principle of accountability, honesty and integrity in all aspects of our business and diligently comply with all applicable laws and regulations. We are additionally committed to provide equal opportunities in all respects of employment and will not engage in workplace conduct that can be construed as discrimination, intimidation and harassment.

SECRETARIAL AUDIT REPORT FORM NO. MR - 3

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2023

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of The Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

18th May, 2023

To, The Members, TRANSPEK INDUSTRY LIMITED 4th Floor, Lilleria 1038, Gotri Sevasi Road, Vadodara - 390 021

I, Vijay L Vyas, Practising Company Secretary, have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **TRANSPEK INDUSTRY LIMITED (CIN:-L23205GJ1965PLC001343)** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

I have conducted verification & examination of records, as provided by the Company in physical form or through email, for the purpose of issuing this report.

Based on my verification of **TRANSPEK INDUSTRY LIMITED's** books, papers, minute books, certificates, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives (in physical form/electronic mode) during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended March 31, 2023, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2023 according to the provisions of:-

- (i) The Companies Act, 2013 ('the Act') and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011:
 - (b) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

- (d) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; Not applicable, as the Company did not issue any security during the financial year under review;
- (e) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014; Not applicable, as the Company has not granted any Stock Options to its employees during the financial year under review;
- (f) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; *Not applicable, as the Company has not issued or listed any debt securities during the financial year under review;*
- (g) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client;
- (h) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; *Not applicable, as the Company has not delisted its equity shares from any stock exchange during the financial year under review;* and
- (i) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; No buyback of Securities was done during the year under review.
- (vi) Environment Protection Act, 1986 and other environmental laws;
- (vii) Explosives Act, 1864;
- (viii) Labour Laws; and
- (ix) Public Liability Insurance Act, 1991;

I have also examined compliance with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc., mentioned above, except that the Standalone and Consolidated Financial Results for September, 2022 quarter were submitted to BSE Ltd., on 09-11-2022 under Regulation 33 of SEBI (LODR) Regulations, 2015, along with Limited Review Report for consolidated Financial Results and inadvertently the Auditors Limited Review Report on the Standalone Financial Results was left out to be uploaded. BSE Ltd. considered it as non-compliance and notice was issued on 24-11-2022. The same was then fully complied on 24-11-2022 and for which the Company has paid a fine of Rs.50000 levied by BSE Ltd., as per their SOP.

I am informed, the Company has responded appropriately to notices received from various statutory / regulatory authorities including initiating actions for corrective measures, wherever found necessary.

I further report that -

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors, including woman Director. During the period under review the changes in the composition of the Board of Directors were carried out in compliance with the provisions of the Act;

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Urgent business, if any, is considered at a shorter notice with the consent of the Directors present including Independent Director. Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes. Recording of meetings held by video conferencing are maintained by the Company.

I further report that there are adequate systems and processes in the Company commensurate with the size and

operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. I have relied on the representations made by the Company and its officers in respect of the systems and processes and mechanism formed for compliances under the laws at (vi) to (ix) above and other applicable laws.

I further report that during the audit period, there were no instances of:

- i) Public/Rights/Preferential issue of shares/debentures/sweat equity;
- ii) Merger/amalgamation/reconstruction etc.;
- iii) Foreign technical collaborations.

I further report that during the FY 2022-2023, no resolutions were passed through Postal Ballot.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

This report includes discussion on the following matters within the limits set by the Company's competitive position:

GLOBAL DYNAMICS AND MACRO ECONOMIC SITUATION

As the difficult times of COVID-19 pandemic are behind us and the world has started to recover from its impact, the material cost, logistics cost and other aspects of uncertainties are gradually coming under control. This is helping businesses and economies to recover and slowly be back on track for growth.

The overall raw material availability, shipping cost & berth availability have also improved. At the same time, the continuing war keeps uncertainties at a very high level and various countries, especially, in Europe, have been negatively impacted. While the chemical business in general continues to be reasonably stable (even seeing growth in some cases), there has been significant negative impact on Agrochemicals & Pharmaceutical segment in terms of competitive price and demand.

Due to continuing uncertainties, it is critical for the businesses to remain vigilant and be agile in aligning their actions in consonance with unexpected changes and development.

Your Company is proactively monitoring the global and local developments that may affect its business operations adversely and also ensuring a very robust risk management to counter such developments.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Your Company manufactures products that finds applications in Polymers, Paints & Pigments, Pharma, Agrochemicals, Personal Care Products etc. While, there has been some negative impact on agrochemicals and pharma businesses, your Company has not been adversely impacted as the quantum of this applications are not significant.

The polymer application continues to grow due to innovation in the end product profile and usage. Overall the structure of user industry has not undergone any major change in terms of demand, application profile or the potential in foreseeable future so far as Company's products are concerned.

During the year, the raw material prices have gone down to reasonable level and the logistics cost has also significantly reduced compared to COVID-19 period. This has helped ensure the affordability of the end products. The logistics delays are largely the things of the past and nowadays timely incoming and outgoing deliveries are again becoming the norm.

As the Company does not have major business in agrochemicals application, there has not been any major impact on the Company's volumes and profitability due to current difficult market conditions. In case of pharma segment, the overall demand has remained subdued and it is expected that there will not be any major change in 2023-2024.

Your Company is facing tough competition in some of the products from domestic manufacturers as well as international ones. This puts pressure and may reduce profitability for such products. Generally, there is a monthly or quarterly negotiation for pricing in some of these products. This situation does not allow strategic relationships in such products.

OUTLOOK FOR THE INDUSTRY

While the long term outlook for Chemical Industries remain positive, in the short run the macro level issues being faced by the world would continue to bring in uncertainties. The very high in energy prices (which have somewhat moderated) are still quite high and that has continued to create issues for many chemical manufacturers in Europe. Some such manufacturers have curtailed their production which consequently has affected various suppliers.

At present, the build-up of inventory and consequent demand levels are expected to impact negatively in the short run. However, the overall long term demand structure is expected to remain positive.

The overall market for Acid and Alkyl Chlorides has not been adversely impacted despite significant challenges and it is expected that there would not be any major impact in mid to long term. This is mainly due to the importance of the Chlorides as a critical element in various applications like pharmaceuticals and polymers.

Considering the above, the overall long term outlook for Company's products, remain positive. Your Company continues to develop new products and will keep on adding them to its portfolio as the approval and validation happen.

SNAPSHOT OF PERFORMANCE

You would be happy to know that your Company has achieved highest ever business volumes and profits during the year under review. This and previous year's performance have been helping the Company build a stronger financial profile and cash flows which provide a stable and strong impetus for future growth.

POLYMERS AND SPECIALITY PLASTICS AND PERFORMANCE MATERIALS

The market for the Company's products that find application in polymers and specialty plastics has been consistent. The market for such polymers and plastics is expected to grow at a steady pace due to the potential increase in demand for high strength, lightweight and durable materials in various industries like automotive, defence, aircraft manufacturing, construction and firefighting.

The innovation in polymers and development of new types are also contributing towards steady and consistent growth of the business. As one of the largest producers of Acid Chlorides products that go as monomers into polymers, your Company is ready to capture such growth. Your Company has built an excellent reputation in this market as a quality supplier.

PHARMA

The demand for Company's products that are used in manufacturing Pharmaceuticals has been steady. In this application segment, there are many manufacturers and hence the competitions is quite intense. Due to long term relationships and very solid reputation as a reliable and ESG focused supplier, your Company has been able to largely maintain its market share.

The Company is developing more products that find application in pharmaceuticals. Typically, commercialisation of such products take a log time because of patent expiry timeline, testing and validation and ascertainment of the shelf life.

OTHER APPLICATIONS

Your Company has been gradually increasing the volumes of the products that are used in manufacturing Organic Peroxides. Organic Peroxides are used in the synthesis and modification of polymers that create cross linked polymer chain for e.g. Elastomers.

The Company has been manufacturing Acid Chlorides that go into making surfactants that go into making personal care products.

Both these application areas have good potential and your Company is focused on gradually growing the business and market share in these areas.

AGROCHEMICALS

The Company has limited number of products that are used in Agrochemicals manufacturing. Due to highly price sensitive nature of the market in this segment, margins are constantly under pressure.

Since, the Company has a very limited presence in this segment, as a strategy the Company would continue to maintain same presence while having a focus on other application segments.

OPPORTUNITIES AND THREATS

Opportunities

While there is significant uncertainty in the markets due to current global economic and political situation, your Company has good opportunities to grow in various geographical markets and application segments by adding new products which include Acid Chlorides, products based on such Acid Chlorides and other products.

As a regular practice, your Company constantly interacts with the customers to understand their requirements and develop products that they need in short term and long term.

The product development is a continuous process at the Company which helps in ensuring that the opportunities are captured as they arise.

Threats

Besides the threats of competition, which are well managed through excellent relationships and exemplary quality and delivery, the threat for the business of your Company can be raw material shortages, raw material pricing, logistics issues etc.

Your Company has a well-designed process to proactively identify such threats & take appropriate steps to overcome them.

Due to large volume of business having cost plus pricing, the threat of increase in input cost would not significantly impact the profitability of the business.

RISKS AND CONCERNS

The current uncertain business environment and extreme difficulty in projecting the future course of business and economy can pose a significant risk for the industry as a whole and your Company.

The key to manage the business well in such a challenging environment is to constantly monitor macro and micro level events and actions and be agile to adapt to the emerging situation well in advance.

Your Company has a robust Risk Management mechanism that ensures that timely and effective actions are undertaken to mitigate the risks and minimize the adverse impact, if any.

While the Company has large volumes with a couple of major customers and in few products, it is not a significant risk considering the stable and consistent demand for the end products and the financial strength and market leadership of its key customers with whom the Company enjoys an excellent relationship based on mutual trust and commitment. However, the Company is mindful of the need for broadening the product list and has added more regions, customers and products in the year under review.

If large economies go into recession, it will have significant impact on global markets in all industries and can also adversely impact your Company's business.

PREPARING FOR THE FUTURE

In order to have further major growth, your Company is looking at various options in terms of future growth as at present there is a limited scope for such growth at current production site. The product inquiry pipeline is quite good due to your Company's reputation & trustworthiness. This would provide a basis for further growth in future.

SEGMENT WISE PERFORMANCE

The Company has only one business segment, namely "Chemicals". The information in respect of secondary segment as per the Indian Accounting Standard (IAS-108) "Segment Reporting" issued by the Institute of Chartered Accountants of India is given under Note No. 40 in the Notes forming part of the Consolidated Financial Statements.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company maintains an adequate and effective internal control system commensurate with its size and complexity. The internal control systems are supplemented through an extensive internal audit programme and periodic review by management.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The net sale of the Company for the year under review is Rs.82564.97 Lakhs as compared to Rs.59667.42 Lakhs in the previous year, an increase of 38.38%. Export sales have increased to Rs.71567.11 Lakhs from Rs.45274.95 Lakhs in the previous year i.e. an increase of 36.73%. Domestic sales have decreased to Rs.10997.86 Lakhs from Rs.14392.46 Lakhs in the previous year i.e. a decrease of 23.59%. The Company has achieved a net profit of Rs.8348.02 Lakhs for the year 2022-2023 as against Rs.6540.42 lakhs in the previous year, i.e. an increase of 27.64%.

HUMAN RESOURCES

Human Resource Department plays essential role in managing, assisting and dealing with employees related matters including various functions, such as policy administration and framing, recruitment process, employment and labour laws, learning, training and development.

The Company supports in fulfilling the aspirations of its employees and nurture the aptitude and expertise of its workforce, providing them with various learning opportunities by organizing Training and Development Programmes to enable them to upgrade their skills which in turn helps in increasing their knowledge, capability and capacity to achieve theirs and the Company's desired goals and targets.

Performance of the employees in the organization is monitored frequently through an Online Performance Management Systems. Employees are regularly timely feedbacks and suggestions which improves their productivity and performance.

Apart from this, various informative and interactive sessions are arranged by the Company by hiring renowned faculties through which proper guidance and awareness is created amongst the employees.

The Company also provides various other facilities like gymnasium, table tennis court, meditation room etc., at its registered office for its employees' health and welfare security.

A special meeting of all the female employees is conducted every month wherein all female employees share and discuss problems, if any, faced by them during the course of their employment. Issues/grievances, discussed in the meeting are directly presented to the Managing Director and accordingly actions are taken/suggested.

The Company has a support plan for widows of employees. A fund is being maintained from which the widows are given monthly contribution that helps them in managing their family financial requirements.

COMMUNITY ENGAGEMENT AND ENVIRONMENT MANAGEMENT

The Company strongly believes that organisations and businesses can play a significant role in creating a sustainable and inclusive future for its stakeholders. It believes in a cohesive, inclusive and integrated society in which all individuals have access to opportunities for personal and economic growth. For several decades, the Company has consistently demonstrated its concern for the community (both internal and external) and a respect for its environment and the local ecology. It has been associated with a scalable, sustainable and integrated development of communities in and around its location at Ekalbara in Vadodara District.

Sustainability concerns are an integral part of the Company's value system. Over the years, the Company has embedded these values into its operations in a variety of ways, such as promoting rural development, undertaking and establishing programmes and processes for greening and conservation and promotion of volunteerism within the organization.

The Company is a member of Global Sustainability Platform 'ECOVADIS' and has achieved Silver Rating in Ecovadis Audit. The Company is also a signatory to Responsible Care, an initiative of Indian Chemical Council and is process of becoming a full-time member.

TRAINING PERFORMANCE

To develop the skills and instil behavioural and personality development traits in all supervisory staff and managerial cadre, the Company organized a number of training programmes during the year. These training programmes are identified through the Performance Management System by synchronizing organizational needs with individual needs.

In addition, the Company provides extensive safety training to employees every year.

INDUSTRIAL RELATIONS

Industrial peace and harmony based on healthy employee relations have continued throughout the year. The Management and the Union of employees enjoy a very cordial and mutually respectful relationship. The grievances/issues raised by the employees' Union were given due attention. The issues brought up by them were settled through regular meetings and interactions between the Management and the Union and action as mutually agreed were taken to settle them.

10. OTHER DISCLOSURES

a. <u>Disclosure on materially significant related party transactions that may have potential conflict</u> with the interests of the listed entity at large

During the year under review, the Company has not entered into any materially significant related party transactions. Among the related party transactions are contracts or arrangements made by the Company from time to time in the ordinary course of business and on arm's length basis with the Companies in which the Directors are interested. All these contracts or arrangements are entered in the 'Register of Contracts in which Directors are interested' maintained under Section 189 of the Companies Act, 2013 and the said register is placed before the Audit Committee and the Board at their meetings and signed by the Directors. Prior omnibus approval of the Audit Committee had also been obtained for entering into certain Related Party Transactions of repetitive nature and the same are reviewed by the Audit Committee on a quarterly basis.

Also, the Company has entered into related party transactions with Silox India Private Limited, Agrocel Industries Private Limited, Anshul Specialty Molecules Private Limited from time to time during the year for sale of its products, for which prior omnibus approval of the Audit Committee was obtained.

Apart from these, the Company has carried out transactions with the following parties during the year as per the contracts approved by the Audit Committee and Board of Directors of the Company as required under the Act and the SEBI LODR Regulations:

- Contract with M/s. TML Industries Limited ('TML') for manufacture of the Company's product on jobwork basis at TML's factory premises situated at Village: Piludra, Dist: Bharuch and Village: Karakhadi, Dist: Vadodara; and payment of job work charges etc., to TML.
- Receipt of lease rent for leasing of the Company's capital assets to TML pursuant to Lease Agreement;
- Payment of Commission on the sale of the Company's products as per the Distributorship Agreement with M/s. Anshul Life Science, a Related Party as a Distributor; and
- Donations, Contributions and Expenses relating to CSR Activities carried out through them were given to Shroff Foundation Trust, Shroffs Family Charitable Trust, Ram Krishna Mission, Baroda Citizens Council and Vivekanand Research Training Institute for carrying out charitable activities.

The Company has also framed a Related Party Transactions Policy pursuant to the provisions of the Companies Act, 2013 read with Regulation 23 of the Listing Regulations and the same is available on the Company's website https://www.transpek.com/wp-content/uploads/2022/04/Policy-on-Related-Party-Transactions.pdf

Particulars of transactions between the Company and related parties as per the Indian Accounting Standard 24 "Related Party Disclosures" notified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Audit and Accounts) Rules, 2014 are given under Note No. 43 of the Standalone Annual Accounts for the financial year 2022-2023.

b. Statutory Compliance, Penalties and Strictures

The Company was charged a fine of Rs.59,000/- for non-compliance (delay) related to submission of Financial Results for the quarter ended 30.09.2022 within prescribed period from the conclusion of the Board Meeting.

The Company had received an email dated 14/12/2022 from BSE advising the Company to place the matter before the Board for its consideration and discussion and to seek their comments on the fine levied by BSE. Accordingly, the matter was placed before the Board.

The Board was of the view that on completion of the Board Meeting, the outcome of the Meeting was submitted to the Stock Exchange within the time limit prescribed as per SEBI (LODR) Regulations, 2015. However, portal of the Stock Exchange had a technical glitch which showed error 'Upload only PDF formats'. The Company again attempted, re-scanned the documents and uploaded on the BSE within 30 minutes considering the timeframe of compliance.

However, following the urgency of the compliance, inadvertently another file excluding the 'Standalone Limited Review Report' was uploaded.

Subsequently, the Company had received an email from BSE asking the Company to re-submit the documents along with the 'Standalone Limited Review Report'. Accordingly, the Company had immediately uploaded 'Standalone Limited Review Report' along with the Results again on the said Portal which was then confirmed by the Compliance team of BSE Limited.

Thereafter, the Stock Exchange had sent an email stating that the Company had delayed in submission of Results under Regulation 33 of SEBI (LODR) Regulations, 2015 and imposed a fine considering the delayed submission as non-compliance.

The Company believed that it was a partial compliance and it informed BSE Team accordingly. However, the Stock Exchange had considered the same as Non-Compliance. As per the directive received from the Exchange, the Company had submitted the outcome of the Board Meeting wherein the said matter was discussed.

The Board of Directors of the Company had advised the Company to pay the fine levied on it and to ensure in taking sufficient care in meeting compliance requirements and avoid such errors henceforth.

c. Whistle Blower Policy

The Company promotes ethical behaviour in all its business activities and has put in place a mechanism of reporting illegal or unethical behaviour. The Company has adopted a whistle blower policy wherein the employees are free to report violations of laws, rules, regulations or unethical conduct. The confidentiality of those reporting violations shall be maintained and they will not be subjected to any discriminatory practice. The Company affirms that no personnel have been denied access to the Audit Committee. Vigil Mechanism/Whistle Blower Policy is available on the Company's website and can be accessed at link - https://www.transpek.com/wp-content/uploads/2018/10/Whistle-Blower-Policy.pdf.

- d. Details of compliance with mandatory requirements and adoption of the non-mandatory requirements: The Company has complied with all the mandatory requirements.

Independent Auditor's Report

To the Members of Transpek Industry Limited Report on the Audit of the Standalone Financial Statements Opinion

We have audited the accompanying standalone financial statements of **Transpek Industry Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit and total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the "Code of Ethics" issued by The Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, for the year ended March 31, 2023 and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Key Audit Matters

How was the matter addressed in our audit

Accounting of Leases

Ind AS 116 on "Leases" (Ind AS 116) is complex and is an area of focus in our audit since the Company has leased large number of ISO tanks from various vendors and also has leased furniture and fixtures, and office buildings.

Under Ind AS 116 lessees are required to recognise a rightof-use (ROU) asset and a lease liability arising from a lease on the balance sheet. The lease liabilities are initially measured by discounting future lease payments during the Our audit procedures included the following:

- Assessed and tested processes and controls in respect of the lease accounting standard (Ind AS 116);
- Assessed the Company's evaluation on the identification of leases based on the contractual agreements;
 - Assessed the key terms and conditions on sample basis of each lease with the underlying lease contract

lease term as per the contract/arrangement.

Application of the Standard involves significant judgements and estimates including, determination of the discount rates and the lease term.

Considering the materiality and additions of leases during the year, this matter is considered to be key audit matter.

Refer Note 2.1(R) and Note 41 to the standalone financial statements.

and evaluated computation of lease liabilities and Right of use of assets and its effect on standalone financial statements.

• Assessed the disclosures in accordance with the requirements of Ind AS 116.

Key Audit Matters

How was the matter addressed in our audit

Evaluation of uncertain tax positions and litigations

The Company has on-going legal matters relating to direct tax, Indirect tax and other matters which requires significant management judgement to determine the likely outcome.

These matters are considered to be key audit matter given the magnitude of potential outflow of economic resources and uncertainty of potential outcome.

Refer Note 36 (A) to the standalone financial statements.

In assessing the potential exposure of the on-going litigation, we have performed the following procedures:

- Obtaining from the management details of all completed / pending tax assessments and other litigations upto March 31, 2023;
- Understanding the status of pending tax demands and potential liability for the other pending litigations;
- Discussed with the Company's legal advisors to confirm the management's underlying assumptions and judgement for determining the potential liability and provisions and the possible outcome of the litigation.

Key Audit Matters

How was the matter addressed in our audit

Transactions with Related Parties

The Company in its course of operations has entered into transactions with related parties. The identification of these related parties, transactions entered into with them and the determination of arm's length price involves significant judgement and estimates.

Considering the volume of transactions and materiality of the amounts, this matter is considered to be key audit matter.

Refer Note 43 to the standalone financial statements.

Our audit approach for the transactions with related parties involved the following:

- Evaluation and testing of the design of internal controls and the secretarial process followed relating to identification of related parties and transactions with them;
- Confirming the regulatory requirements for the identification of related parties and transactions with these related parties, the determination of arm's length pricing and the disclosures for the same in the standalone financial statements;
- Evaluating management judgments and assumptions regarding transactions with Related Parties at Arm's Length Price;

 Review of sample agreements / contracts to compare the terms of the related parties' transaction to those of identical or similar transaction with one or more unrelated parties and evaluated the business rationale for the same.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs

will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the

matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or

- provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 53 (vii) to the standalone financial statements];
- (b) The Management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 53 (viii) to the standalone financial statements]:
- (c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided in (a) and (b) above, contain any material misstatement.
- v. The dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
 - The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.
- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we enclose in the "Annexure B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of **Transpek Industry Limited ("the Company")** as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that:

a. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- b. provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- c. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to the standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal controls over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note.

Referred to in paragraph 2 under the heading of "Report on Other Legal and Regulatory Requirements" of our Independent Auditors' Report of even date to the members of **Transpek Industry Limited** on the standalone financial statements for the year ended March 31, 2023.

- i. a. A. The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment ("PPE") and relevant details of Right-of-use Assets.
 - B. The Company has maintained proper records showing full particulars of Intangible Assets.
 - b. The management of the Company verifies PPE and Right-of-use Assets according to a phased programme designed to cover all items over a period of three years, which, in our opinion, is at reasonable intervals. Pursuant to the programme, certain items of PPE have been verified by the management during the year, and no material discrepancies have been noticed on such verification.
 - c. According to the information and explanations given to us and on the basis of the records examined by us, we report that, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the standalone financial statements are held in the name of the Company.
 - d. According to the information and explanations given to us and on the basis of the books and records of the Company examined by us, the Company has neither revalued any of its Property, Plant and Equipment (including Right-of-use Assets) nor revalued its Intangible Assets during the year. Accordingly, reporting under clause 3(i)(d) of the Order is not applicable.
 - e. According to the information and explanations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibitions) Act, 1988 (as amended in 2016) and Rules made thereunder. Accordingly, reporting under clause 3(i)(e) of the Order is not applicable.
- ii. a. Physical verification of inventories has been conducted by the management during the year which, in our opinion, is at reasonable intervals; and, in our opinion, the coverage and procedure of such verification by the management is appropriate. The discrepancies noticed on verification between physical stock and book records were not 10% or more in aggregate for each class of inventory.
 - b. The Company has been sanctioned fund-based Working Capital limit in excess of ₹ 5 Crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the books of account other than those as set out below:

 - d. According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that funds raised on short-term basis have not been utilised for long-term purposes.
 - e. According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that during the year the Company has not taken any funds from an entity or person, on account of or to meet the obligations of its subsidiaries or associate companies.
 - f. According to the information and explanations given to us and procedures performed by us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries or associate companies.
- x. a. According to the information and explanations given to us and on the basis of the books and records of the Company examined by us, the Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable.
 - b. According to the information and explanations given to us and on the basis of the books and records of the Company examined by us, the Company has not made any preferential allotment or private placement of

- shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable.
- xi. a. On the basis of the books and records of the Company examined by us and according to the information and explanations given to us, we report that no material fraud by the Company or any fraud on the Company has been noticed or reported during the year in the course of our audit.
 - b. To the best of our knowledge, no report under Section 143 (12) of the Act has been filed by the auditors in Form ADT- 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - c. As represented to us by the management, the Company has not received any whistle-blower complaint during the year and upto the date of this report.
- xii. The Company is not a Nidhi company. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and on the basis of books and records of the Company examined by us, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable, and the details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. a. According to the information and explanations given to us, in our opinion, the Company has internal audit system commensurate with the size and nature of its business.
 - b. The reports of the internal auditors for the year under audit, issued to the Company during the year and till date, have been considered by us in determining the nature, timing and extent of our audit procedures.
- xv. According to the information and explanations given to us and on the basis of the books and records of the Company examined by us, the Company has not entered into any non-cash transaction with its directors or persons connected to its directors. Accordingly, reporting under clause 3(xv) of the Order is not applicable.

CORPORATE INFORMATION

Transpek Industry Limited ("the Company") is into the manufacturing and export of a range of chemicals servicing the requirements of customers from a diverse range of industries-Textiles, Pharmaceuticals, Agrochemicals, Advanced Polymers, etc.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Vadodara, Gujarat, India. The equity shares of the Company are listed on Bombay Stock Exchange Limited (BSE).

The Standalone Financial Statements for the year ended March 31, 2023 are approved by the Company's Board of Directors and authorised for issue in the meeting held on May 18, 2023

NOTE: 2.1

BASIS OF PREPARATION

i. Compliance with Ind AS

The Financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") to be read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

ii. Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except the following:

- Certain financial assets that are measured at fair value;
- Employee's Defined Benefit Plan Plan Assets measured at fair value as per independent actuarial valuation.

iii. Functional and Presentation Currency

These financial statements are presented in Indian Rupees, which is the Company's functional currency, and all values are rounded to the nearest lakhs up to two decimals, except where otherwise indicated.

SIGNIFICANT ACCOUNTING POLICIES

A. Current versus Non-current Classification:

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is-

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Company classifies all other assets as non-current.

A liability is treated as current when it is-

Expected to be settled in normal operating cycle

- Held primarily for the purpose of trading
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has identified twelve months as its operating cycle for the purpose of current/non-current classification of assets and liabilities.

B. Property, Plant and Equipment ("PPE"):

Recognition and Measurement

An item of PPE is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Freehold land is carried at historical cost. All other items of PPE are stated at cost, which includes capitalised borrowing costs, less accumulated depreciation, and impairment loss, if any. Cost includes purchase price, including non-refundable duties and taxes, expenditure that is directly attributable to bring the assets to the location and condition necessary for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and borrowing costs (for qualifying assets) capitalised in accordance with the Company's accounting policies. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Spare parts are treated as capital assets when they meet the definition of PPE. Otherwise, such items are classified as inventory.

If significant parts of an item of PPE have different useful lives, then they are accounted for, as separate items (major components) of PPE. Any gains or losses on their disposal, determined by comparing sales proceeds with carrying amount, are recognised in the Statement of Profit or Loss.

Subsequent Expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

Derecognition

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from its use. Any gain or loss arising from its derecognition is measured as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss when the asset is derecognised.

Depreciation Methods, Estimated Useful Lives and Residual Value

Depreciation on PPE is provided using the straight-line method based on the life and in the manner prescribed in Schedule II to the Act, and is generally recognised in the Statement of Profit and Loss. Freehold land is not depreciated.

Depreciation on PPE is provided based on the useful life and in the manner prescribed in Schedule II to the Act, except in respect of the following categories of assets, where the useful life of the PPE have been determined by the Management based on the technical assessment/evaluation:

Category of Property, Plant and Equipment	Useful Life in Years	
	As per Schedule II	As per the Company's Assessment
Plant and Machinery		
(Continuous Process Plant)	25	20

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets. Depreciation on additions (disposals) is provided on *pro-rata* basis, i.e. from (upto) the date on which asset is ready for use (disposed of).

Capital Work-in-Progress

Plant and properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and borrowing costs (for qualifying asset) capitalised in accordance with the Company's accounting policies. Such plant and properties are classified and capitalised to the appropriate categories of PPE when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Advances paid towards the acquisition of PPE outstanding at each Balance Sheet date are classified as capital advances under "Other Non-current Assets" and the cost of assets not put to use upto the year-end is disclosed under 'Capital work-in-progress'.

C. Intangible Assets

Recognition and Measurement

Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably. Intangible Assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment, if any.

Research costs are expensed as incurred. Product development expenditure incurred on individual product project is recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- Its intention to complete the asset and use or sell it;
- Its ability to use or sell the asset;
- The availability of adequate resources to complete the development and to use or sell the intangible asset;
 and
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Amortisation

Any expenditure capitalised as technical know-how is amortised on a straight-line basis over the period over which the benefit is derived by the Company.

Derecognition of Intangible Assets

Intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of Profit and Loss when the asset is derecognised.

D. Impairment of Non-financial Assets

At the end of each reporting period, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit (CGU) to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of CGU for which a reasonable and consistent allocation basis can be identified.

The Company's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

E. Inventories

Inventories are measured at lower of cost and net realisable value. Cost of inventories is determined on a First In First out ("FIFO") (as mentioned below), after providing for obsolescence and other losses as considered necessary. Cost includes expenditure incurred in acquiring the inventories, reduction and conversion costs and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Items of Inventory are valued on the principle laid down by the Ind AS 2 on Inventories on the basis given below:

a.	Raw Materials, Stores and Spares (that are not capitalised) and Fuel	Lower of cost (determined on FIFO) basis and net realisable value.
b.	Packing Material	Lower of cost (determined on FIFO) basis and net realisable value.
c.	Traded Goods	Lower of cost and net realisable value.
d.	Work-in-Progress	Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity.
e.	Finished Goods	Lower of cost and net realisable value.
		Cost includes direct materials, labour, proportion of manufacturing overheads based on normal operating capacity, duties and taxes where credit is not available.

The comparison of cost and net realisable value is made on an item-by-item basis.

F. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets -

Initial Recognition, Classification and Measurement

All financial assets are recognised initially at fair value and, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Debt Instruments at Amortised Cost

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the Statement of Profit or Loss. The losses arising from impairment are recognised in the Statement of Profit or Loss.

Debt Instrument at Fair Value through Other Comprehensive Income ("FVTOCI")

A 'debt instrument' is classified at FVTOCI if both the following criteria are met:

 The objective of the business model is achieved both by collecting contractual cash flows and selling the financial Assets, and

• The asset's collecting contractual cash flows represent Solely Payments of Principal and Interest ("SPPI") on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income ("OCI"). However, the company recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Profit and Loss. Interest earned while holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt Instrument at Fair Value through Profit and Loss ("FVTPL")

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation
 to pay the received cash flows in full without material delay to a third party under a 'pass-through'
 arrangement; and either
 - the Company has transferred substantially all the risks and rewards of the asset, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the company applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost, e.g. loans, debt securities, deposits, trade receivables and bank balance
- Financial assets that are debt instruments and are measured as at FVTOCI
- Trade receivables or any contractual right to receive cash or another financial asset.

The Company follows's implified approach' for recognition of impairment loss allowance for:

- Trade receivables and
- Other receivables

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Financial Liabilities

Initial Recognition and Measurement

The Company's financial liabilities include trade and other payables, loans and borrowings. All financial liabilities are recognised initially at fair value and in the case of loans, borrowings and payables recognised net of directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities at FVTPL

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

G. Derivative Financial Instruments

The Company uses derivative financial instruments such as forward contracts to hedge its foreign currency risks relating to highly probable transactions or firm commitments. Such forward Exchange Contracts are marked to market and resulting gains or losses are recorded in the Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

H. Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

I. Cash Flows

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

J. Foreign Currency Translation

Initial Recognition

Foreign currency transactions are recorded in the reporting currency by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

K. Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

The company does not expect to have any contract where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the company does not adjust any of the transaction prices for the time value of money.

Sale of Goods

Revenue from the sale of goods is recognised at a point in time when control of the asset is transferred to the customer, generally on the delivery of the goods.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing component and consideration payable to the customer like return and trade discounts.

Sales are disclosed excluding net of sales returns and Goods and Service Tax (GST).

Conversion Charges

Income is recorded on accrual basis on dispatch of material and as per terms of agreement.

Income from Wind Operated Power Generators

Income from Sale of Wind Operated Power if any is accounted on accrual basis on confirmation of units generated and supplied to the State Electricity Board as per the agreement.

Sale of Scrap

Revenue from sale of scrap is recognised as and when scrap is sold.

L. Other Income

Interest Income

Interest income from the financial assets is recognised on a time basis, by reference to the principle outstanding using the effective interest method provided it is probable that the economic benefits associated with the interest will flow to the Company and the amount of interest can be measured reliably. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of that financial asset.

Export Benefits

Duty free imports of raw materials under Advance License for imports as per the Import and Export Policy are matched with the exports made against the said licenses and the net benefit/obligation is accounted by making suitable adjustments in raw material consumption.

The benefits accrued under the duty drawback scheme, RoDTEP and Merchandise Export from India Scheme (MEIS) as per the Import and export Policy in respect of exports under the said scheme are recognised when there is a reasonable assurance that the benefit will be received and the company will comply with all attached

conditions. The above benefits have been included under the head 'Export Incentives.'

Dividend Income

Dividend income from Investments is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Insurance Claims

 $Insurance\ claims\ are\ accounted\ on\ accrual\ basis\ when\ there\ is\ reasonable\ certainty\ of\ realisability\ of\ the\ claim\ amount.$

Commission Income

Income on account of commission is accounted on accrual basis based on the Terms of Agreement.

Rent Income

Rent income is recognized on time proportion basis as per agreement and net of taxes.

M. Employee Benefits

Employee benefits includes short term employee benefits, contribution to defined benefit contribution schemes, contribution to defined benefit plan and compensated absences.

Short-term Employee Benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

Contribution towards defined benefit contribution schemes

Contribution towards provident fund and superannuation fund is made to the regulatory authorities. Contributions to the above scheme are charged to the Statement of Profit and Loss in the year when the contributions are due. Such benefits are classified as defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions to be made.

Defined Benefit Plan

Gratuity Plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service is eligible for gratuity on post-employment at 15 days salary (last drawn salary) for each completed year of service as per the rules of the Company. The aforesaid liability is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of the financial year. The scheme is funded with an insurance Company in the form of a qualifying insurance policy. Current service cost, Past-service costs are recognised immediately in Statement of profit or loss.

Remeasurement

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the Balance Sheet. Remeasurements

are not reclassified to profit or loss in subsequent periods.

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in profit or loss in the period in which they arise.

N. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

O. Income Taxes

The tax expense comprises of current income tax and deferred tax.

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current Income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is recognised on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except:

• When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the

accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets and liabilities relate to the income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax liabilities and assets on a net or simultaneous basis.

P. Provisions and Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.

Contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

Q. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

R. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset this may be specified explicitly or implicitly and should be physically distinct or represents substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, the asset is not identified.
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset the Company has the right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset issued. In rare cases, where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
 - The Company has the right to operate the asset; or
 - The Company designed the asset in a way that predetermined how and for what purpose it will be

This policy is applied to all contracts entered into, or changed, on or after April 1, 2019.

Company as a Lessee

Lease Liability

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the Lease Liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease

payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The Company presents Lease Liabilities under "Financial Liabilities" in the Balance Sheet.

Right-of-Use Assets ("ROU Assets)

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives.

The Company presents ROU assets that meet the definition of investment property are presented within investment property otherwise under "Property, Plant and Equipment".

Subsequent Measurement

Lease Liability

Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

The Lease Liability is measured at amortised cost using its incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes it assessment of whether it will exercise a purchase, extension or termination option

Right-of-Use Assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the under lying asset. The estimated useful lives of ROU assets are determined on the same basis as those of property and equipment.

When a Lease Liability is remeasured, a corresponding adjustment is made to the carrying amount of the ROU asset, or is recorded in the Statement of profit or loss if the carrying amount of the ROU asset has been reduced to zero.

Impairment

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short-term Lease and Leases of low-value asset

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall

recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially the entire risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

S. Segment Reporting

As per Ind AS 108 – "Operating Segment", segment information has been provided under the notes to Consolidated Financial Statement.

T. Exceptional Items

Certain occasions when the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly disclosed in the notes accompanying the financial statements.

NOTE: 2.2

Use of Judgements, Estimates and Assumptions

The preparation of the Company's financial statements requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation of uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

1. Determination of The Estimated Useful Life of Tangible Assets

Useful life of tangible assets is based on the life prescribed in Schedule II of the Act. In cases, where the useful life are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

2. Defined Benefit Plans (Gratuity Benefits)

A liability in respect of defined benefit plans is recognised in the Balance Sheet, and is measured as the present value of the defined benefit obligation at the reporting date less the fair value of the plan's assets. The present value of the

defined benefit obligation is based on expected future payments which arise from the fund at the reporting date, calculated annually by independent actuaries. Consideration is given to expect future salary levels, experience of employee, departures and periods of service.

3. Taxes

There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts initially recorded, such differences will impact the current and deferred tax provisions in the period in which the tax determination is made. The assessment of probability involves estimation of a number of factors including future taxable income.

4. Fair Value Measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

5. Provision against Obsolete and Slow-moving Inventories

The Company reviews the condition of its inventories and makes provision against obsolete and slow-moving inventory items which are identified as no longer suitable for sale or use. Company estimates the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions. The Company carries out an inventory review at each Balance Sheet date and makes provision against obsolete and slow-moving items. The Company reassesses the estimation on each Balance Sheet date.

6. Impairment of Financial Assets

The Company assesses impairment based on ECL model on trade receivables. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

7. Impairment of Non-financial Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre- tax discount rate that reflects current market assessment of the time value of money and the risk specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

These calculations are corroborated by valuation multiples, quoted share price for publicly traded subsidiaries or other available fair value indicators.

8. Other Provisions

Significant estimates are involved in the determination of provisions. Legal proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated.

NOTE: 2.23

Recent Pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1-Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

Notes:-

11.1 In determining the allowances for credit losses of Trade Receivables, the Company has used a practical expedient by computing the Expected Credit Loss Allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The Expected Credit Loss allowance is based on the ageing of the receivables that are due and the rates used in the provision matrix.

The description of the nature and purpose of each reserve within Equity is as follows:

a. Capital Reserve

This Reserve represents the difference between value of the net assets transferred to the Company in the course of business combinations and the consideration paid for such combinations.

b. Securities Premium

This Reserve represents the premium on issue of shares and can be utilised in accordance with the provisions of the Companies Act, 2013.

c. Capital Redemption Reserve

Capital Redemption Reserve is created due to buyback of Equity Share Capital in earlier years.

d. General Reserve

The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013. There is no movement in General Reserve during the current and previous year.

e. Retained Earnings

Retained Earnings are the profits that the Company has earned till date, less any transfer to General Reserve, dividends or other distributions paid to shareholders.

The Company has declared dividend for the year ended March 31, 2023 at the rate 27.50 per equity share, as approved by the Board of Directors at the Board Meeting held on May 18, 2023 [Refer Note 52].

f. Equity Instruments through Other Comprehensive Income

The Company has elected to recognise changes in the fair value of investments in equity instruments in other comprehensive income. These changes are accumulated within the FVOCI equity investments within equity. The balance in Other Comprehensive Income is transferred to retained earnings on disposal of the investment.

39. Disclosure pursuant to Ind AS 19 on "Employee benefits"

a. Defined Benefit Plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded. The following tables summaries the components of net benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the Balance Sheet for the gratuity plan.

Risks associated with Defined Benefit Plan

Interest Rate Risk:

A fall in the discount rate which is linked to the Government securities rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments."

Asset Liability Matching (ALM) Risk:

The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality Risk:

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk:

Plan has a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

Characteristics of Defined Benefit Plans

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

During the year, there were no plan amendments, curtailments and settlements.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's Financial Statements as at March 31, 2023.

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the Balance Sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's Standalone Financial Statements as at Balance Sheet date:

ii. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the Financial Statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers between levels 1 and 2 during the year.

iii. Valuation technique used to determine Fair Value

50. Financial Risk Management

The Company has exposure to the following risks arising from financial instruments:

Credit risk

Market risk

Liquidity risk

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the Company's activities. The Company, through its training, standards and procedures, aims to maintain a discipline and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how Management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Auditors. Internal Auditors undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

i. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to whom the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

a. Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company also has credit insurance and ECGC for export customer. In addition to above, there are no major delays in receipt of payment from the Trade Receivables.

In determining the allowances for credit losses of Trade Receivables, the Company has used a practical expedient by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix (Refer note No.11.1).

b. Cash and Cash Equivalents, Derivative Financial Instruments and Financial Guarantees

Credit risks from balances with banks and financial institutions are managed in accordance with the Company policy. For financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks. The Company's maximum exposure in this respect is the maximum amount the Company would have to pay if the guarantee is called upon.

c. Loans and Advances

In the case of loans to employees, the same is managed by establishing limits. (Which in turn is based on the employees salaries and number of years of service put in by the concerned employee)

ii. Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows on daily, monthly and yearly basis. Loan arrangements, credit limits with various banks including working capital and monitoring of operational and working capital issues are always kept in mind for better liquidity management. In addition, processes and policies related to such risks are overseen by senior management.

iii. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk. Thus, our exposure to market risk is a function of revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs. The Company uses derivative to manage market risk. Generally, the Company seeks to apply hedge accounting to manage volatility in profit or loss.

Currency risk

The Company is exposed to currency risk on account of its operations in other countries. The functional currency of the Company is Indian Rupee (INR). The exchange rate between the INR and foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. Consequently, the Company uses both derivative instruments, i.e., foreign exchange forward contracts to mitigate the risk of changes in foreign currency exchange rates in respect of its highly probable forecasted transactions and recognised assets and liabilities.

The Company enters into foreign currency forward contracts which are not intended for trading or speculative purposes but for hedge purposes to establish the amount of reporting currency required or available at the settlement date of certain payables/receivables.

Following is the derivative financial instruments to hedge the foreign exchange rate risk:

Currency	As at March 31, 2023			As at March 31, 2022			
	Trade Receivable and other Receivable	Hedges available	Net exposure to foreign currency	Trade Receivable and other Receivable risk	Hedges available	Net exposure to foreign currency risk	
USD (in Lakhs)	115.12	107.60	7.52	118.22	65.95	52.27	
Equivalent INR (in Lakhs)	9,462.29	8,155.09	1,307.19	8,960.78	4,998.35	3,962.43	

Currency	As at March 31, 2023			As at March 31, 2022		
	Trade Payable	Hedges available	Net exposure to foreign currency risk	Trade Payble	Hedges available	Net exposure to foreign risk
USD (in Lakhs)	19.02	-	19.02	28.78	-	28.78
Equivalent INR (in Lakhs)	1,563.68	-	1,563.68	2,181.45	-	2,181.45

The sensitivity of profit or loss to changes in the exchange rates arises mainly from unhedged foreign currency denominated financial instruments.

51. Capital Management

For the purpose of Company's Capital Management, equity includes equity share capital and all other equity reserves attributable to the equity holders of the Company. The Company manages its capital to optimise returns to the share holders and make adjustments to it in the light of changes in economic conditions or its business requirements. The Company's objective is to safe guard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders value. The Company funds its operations through internal accruals and long term borrowings competitive rate. The Management and Board of Directors monitor the return of capital as well as the level of dividend to share holders.

Independent Auditor's Report

To the Members of Transpek Industry Limited Report on the Audit of the Consolidated Financial Statements Opinion

We have audited the accompanying consolidated financial statements of **Transpek Industry Limited** ("the Holding Company") and its Subsidiary (the Holding Company and its subsidiary collectively referred to as "the Group"), and includes the Group's share of profit in its associates, which comprise the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditors on separate financial statements of the subsidiary and associates as were audited by other auditors, referred to in the Other Matters paragraph below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, its consolidated loss and consolidated total comprehensive income, the consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Company in accordance with the "Code of Ethics" issued by The Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, for the year ended March 31, 2023 and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Key Audit Matters

How was the matter addressed in our audit

Accounting of Leases

Ind AS 116 on "Leases" (Ind AS 116) is complex and is an area of focus in our audit since the Holding Company has leased large number of ISO tanks from various vendors and also has leased furniture and fixtures, and office buildings.

Our audit procedures included the following:

Assessed and tested processes and controls in respect of the lease accounting standard (Ind AS 116);

Independent Auditor's Report...

Under Ind AS 116 lessees are required to recognise a rightof-use (ROU) asset and a lease liability arising from a lease on the balance sheet. The lease liabilities are initially measured by discounting future lease payments during the lease term as per the contract/arrangement.

Application of the Standard involves significant judgements and estimates including, determination of the discount rates and the lease term.

Considering the materiality and addition of leases during the year, this matter is considered to be key audit matter.

Refer Note 2.1(R) and Note 41 to the consolidated financial statements.

- Assessed the Group's evaluation on the identification of leases based on the contractual agreements;
- Assessed the key terms and conditions on sample basis of each lease with the underlying lease contract and evaluated computation of lease liabilities and Right of use of assets and its effect on consolidated financial statements.
- Assessed the disclosures in accordance with the requirements of Ind AS 116.

Key Audit Matters

How was the matter addressed in our audit

Evaluation of uncertain tax positions and litigations

The Group has on-going legal matters relating to direct tax, Indirect tax and other matters which requires significant management judgement to determine the likely outcome.

These matters are considered to be key audit matter given the magnitude of potential outflow of economic resources and uncertainty of potential outcome.

Refer Note 36 (A) to the consolidated financial statements.

In assessing the potential exposure of the on-going litigation, we have performed the following procedures:

- Obtaining from the management details of all completed / pending tax assessments and other litigations upto March 31, 2023;
- Understanding the status of pending tax demands and potential liability for the other pending litigations;
- Discussed with the Group's legal advisors to confirm the management's underlying assumptions and judgement for determining the potential liability and provisions and the possible outcome of the litigation.

Key Audit Matters

How was the matter addressed in our audit

Transactions with Related Parties

The Company in its course of operations has entered into transactions with related parties. The identification of these related parties, transactions entered into with them and the determination of arm's length price involves significant judgement and estimates.

Considering the volume of transactions and materiality of the amounts, this matter is considered to be key audit matter.

Refer Note 43 to the consolidated financial statements.

Our audit approach for the transactions with related parties involved the following:

- Evaluation and testing of the design of internal controls and the secretarial process followed relating to identification of related parties and transactions with them:
- Confirming the regulatory requirements for the identification of related parties and transactions with these related parties, the determination of arm's length pricing and the disclosures for the same in the consolidated financial statements;

Independent Auditor's Report...

- Evaluating management judgments and assumptions regarding transactions with Related Parties at Arm's Length Price;
- Review of sample agreements / contracts to compare the terms of the related parties' transaction to those of identical or similar transaction with one or more unrelated parties and evaluated the business rationale for the same.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the Subsidiary audited by the other auditors, to the extent it relates to the Subsidiary and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the Subsidiary is traced from the financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of the appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary incorporated in India have adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entity included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely

responsible for our audit opinion. Our responsibilities in this regard are further prescribed in section titled 'Other Matters' to this audit report.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other subsidiaries included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements and the financial information of the Subsidiary incorporated in India, whose financial statements and financial information reflect total assets of \mathfrak{F} 0.23 lakhs as at March 31, 2023, total revenues of \mathfrak{F} NIL lakhs, total net profit /(loss) after tax of \mathfrak{F} (0.31) lakhs and cash outflow amounting to \mathfrak{F} 0.36 lakhs for the year ended on that date, as considered in preparation of consolidated financial statements. The financial statements and the financial information of the Subsidiary have been prepared in accordance with accounting principles generally accepted in India.

These financial statements and financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosure included in respect of Subsidiary, is based on solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and financial information certified by the management of the Holding Company.

Report on Other Legal and Regulatory Requirements

- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;
- e. On the basis of the written representations received from the directors of the Holding Company and its subsidiary incorporated in India as on March 31, 2023 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company and its subsidiary incorporated in India, are disqualified as on March 31, 2023 from being appointed as a director of the respective company in terms of Section 164(2) of the Act:
- f. With respect to the internal financial controls with reference to financial statements of the Holding Company and its subsidiary incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure A";
- g. With respect to the matters to be included in the Auditor's Report in accordance with requirement of Section 197(16) of the Act, as amended,
 - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid during the current year by the Holding Company to its directors is in accordance with the provisions of Section 197 read with Schedule V of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.
 - The Subsidiary incorporated in India has not paid any remuneration to its directors.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and as reported by the auditors of the subsidiary and its associates:
 - i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group Refer Note 36 A to the consolidated financial statements;
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as required under the applicable law or accounting standards;
 - iii. There has not been any amount which is required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended March 31, 2023.
 - iv. (a) The respective Managements of the Holding Company, and its subsidiary incorporated in India, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or such subsidiary to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or such subsidiary ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 53 (vii) to the consolidated financial statements];

- (b) The respective Managements of the Holding Company, and its subsidiary incorporated in India, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Holding Company or such subsidiary from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any subsidiary shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 53 (viii) to the consolidated financial statements];

Annexure A to The Independent Auditors' Report

Referred to in paragraph 1(f) under the heading of "Report on Other Legal and Regulatory Requirements" in our Independent Auditor's Report of even date on the consolidated financial statements for the year ended March 31, 2023.

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Group as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to the financial statements of Transpek Industry Limited ("the Holding Company") as of March 31, 2023 and its subsidiary incorporated in India (the Holding Company and its subsidiary incorporated in India together referred to as "the Covered Entities") as at March 31, 2023.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Covered Entities, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Covered Entities, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the associates, which are incorporated in India, in terms of their reports referred to in the Other Matter section below is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Covered Entities.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external

Annexure A to The Independent Auditors' Report...

purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that:

- a. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b. provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- c. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Covered Entities, have, in all material respects, an adequate internal financial controls with reference to the consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the internal controls over financial reporting criteria established by the respective companies, considering the essential components of internal control stated in the Guidance Note.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to its its subsidiary, which are incorporated in India, is based on the corresponding reports of the auditors of such subsidiary incorporated in India.

NOTE: 1

CORPORATE INFORMATION

Transpek Industry Limited ("the Company") is into the manufacturing and export of a range of chemicals servicing the requirements of customers from a diverse range of industries - Textiles, Pharmaceuticals, Agrochemicals, Advanced Polymers, etc.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Vadodara, Gujarat, India. The equity shares of the Company are listed on Bombay Stock Exchange Limited (BSE).

The Consolidated Financial Statements for the year ended March 31, 2023 are approved by the Group's Board of Directors and authorised for issue in the meeting held on May18, 2023.

NOTE: 2.1

CONSOLIDATION

- The Consolidated financial statements comprise the financial statements of Transpek Industry Limited (herein
 after referred to as 'the Holding Company') and its subsidiaries companies, hereinafter collectively referred to as 'the
 Group'.
- Details of the subsidiary company considered in the Consolidated Financial statements are as under:

Name of the Company	Country of	% of Shareholding	
	Incorporation	As at March 31, 2023	As at March 31, 2022
Transpek Creative Chemistry Private Limited	India	100	100

NOTE: 2.2

BASIS OF PREPARATION

i. Compliance with Ind AS

The Consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act") to be read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

ii. Historical Cost Convention

The Consolidated financial statements have been prepared on a historical cost basis, except the following:

- Certain financial assets that are measured at fair value;
- Employee's Defined Benefit Plan Plan Assets is measured at fair value as per independent actuarial valuation

iii. Principles of Consolidation

The Consolidated Financial Statements have been prepared on the following basis:

• The financial statements of the Company and its subsidiary have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses as per Ind AS - 110.

- "Non-Controlling Interest" represents the amount of equity attributable to minority shareholders at the date on which investment in the subsidiary is made and its share of movements in the equity since that date. Non-Controlling interest's share of net profit/loss for the year of the subsidiary is identified and adjusted against the profit after tax of the group.
- Intra-group balances and intra-group transactions and resulting unrealised profits have been eliminated.
- Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances except where it is not practicable to do so.
- The exchange difference arising on monetary item relating to foreign operations shall be recognised initially in other comprehensive Income and accumulated in the separate component of equity and shall be reclassified from equity to Consolidated Statement of Profit and Loss on disposal of investment in foreign operation.
- The excess of cost to the company of its investment in the subsidiaries, on the acquisition dates over and above the company's share of equity in the subsidiaries, is recognised in the consolidated financial statements as Goodwill on consolidation. The said Goodwill is tested for impairment at each Balance Sheet date and the impairment loss, if any is provided for.

iv. Functional and Presentation Currency

These consolidated financial statements are presented in Indian Rupees, which is the Group's functional currency, and all values are rounded to the nearest lakhs upto two decimals, except where otherwise indicated.

SIGNIFICANT ACCOUNTING POLICIES

A. Current Versus Non-Current Classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for atleast twelve months after the reporting period

The Group classifies all other assets as non-current.

A liability is treated as current when it is:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has identified twelve months as its operating cycle for the purpose of current / non-current classification of assets and liabilities.

B. Property, Plant and Equipment ("PPE"):

Recognition and Measurement

An item of PPE is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Freehold land is carried at historical cost. All other items of PPE are stated at cost, which includes capitalised borrowing costs, less accumulated depreciation, and impairment loss, if any. Cost includes purchase price, including non-refundable duties and taxes, expenditure that is directly attributable to bring the assets to the location and condition necessary for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees, and borrowing costs (for qualifying assets) capitalised in accordance with the Group's accounting policies. Such properties are classified to the appropriate categories of PPE when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Spare parts are treated as capital assets when they meet the definition of PPE. Otherwise, such items are classified as inventory.

If significant parts of an item of PPE have different useful lives, then they are accounted for, as separate items (major components) of PPE. Any gains or losses on their disposal, determined by comparing sales proceeds with carrying amount, are recognised in the consolidated Statement of Profit or Loss.

Subsequent Expenditure;

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Derecognition

An item of PPE is derecognised upon disposal or when no future economic benefits are expected to arise from its use. Any gain or loss arising from its derecognition is measured as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Consolidated Statement of Profit and Loss when the asset is derecognised.

Depreciation Methods, Estimated Useful Lives and Residual Value

Depreciation on PPE is provided using the straight-line method based on the life and in the manner prescribed in Schedule II to the Act, and is generally recognised in the consolidated Statement of Profit and Loss. Freehold land is not depreciated.

Depreciation on PPE is provided based on the useful life and in the manner prescribed in Schedule II to the Act, except in respect of the following categories of assets, where the useful life of the PPE have been determined by the Management based on the technical assessment/evaluation:

Category of Property, Plant and Equipment	Useful Life in Years As per Schedule II	As per Group's Assessment
Plant and Machinery (Continuous Process Plant)	25	20

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets. Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

Capital Work-in-Progress

Plant and properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, borrowing costs (for qualifying asset) capitalised in accordance with the Group's accounting policies. Such plant and properties are classified and capitalised to the appropriate categories of PPE when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the asset are ready for their intended use.

Advances paid towards the acquisition of PPE outstanding at each Balance Sheet date are classified as capital advances under "Other Non-current Assets" and the cost of assets not put to use upto the year-end is disclosed under 'Capital work-in-progress'.

C. Intangible Assets

Recognition and Measurement

Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the assets will flow to the Group and the cost of the assets can be measured reliably. Intangible Assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment, if any.

Research costs are expensed as incurred. Product development expenditure incurred on individual product project is recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- Its intention to complete the asset and use or sell it;
- Its ability to use or sell the asset;
- The availability of adequate resources to complete the development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Amortisation

Any expenditure capitalised as technical know-how is amortised on a straight-line basis over the period over which the benefit is derived by the Group.

Derecognition of Intangible Assets

Intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

D. Impairment of Non-financial Assets

At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). When

it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit (CGU) to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of CGU for which a reasonable and consistent allocation basis can be identified.

The Group's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the consolidated Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

E. Inventories

Inventories are measured at lower of cost and net realisable value. Cost of inventories is determined on a First In First out ("FIFO") (as mentioned below), after providing for obsolescence and other losses as considered necessary. Cost includes expenditure incurred in acquiring the inventories, reduction and conversion costs and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Items of Inventory are valued on the principle laid down by the Ind AS 2 on Inventories on the basis given below:

a.	Raw Materials, Stores and Spares (that are not capitalised) and Fuel	Lower of cost (determined on FIFO) and net realisable value.
b.	Packing Material	Lower of cost (determined on FIFO) and net realisable value.
c.	Traded Goods	Lower of cost and net realisable value.
d.	Work-in-Progress	Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity.
e.	Finished Goods	Lower of cost and net realisable value.
		Cost includes direct materials, labour, and a proportion of manufacturing overheads based on normal operating capacity duties and taxes where credit is not available.

The comparison of cost and net realisable value is made on an item-by-item basis.

F. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition, Classification and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing components are measured at transaction price.

Debt Instruments at Amortised Cost

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
 and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the consolidated statement of profit or loss. The losses arising from impairment are recognised in the consolidated statement of profit or loss.

Debt Instrument at Fair Value through Other Comprehensive Income ("FVTOCI")

A 'debt instrument' is classified at FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial Assets, and
- The asset's collecting contractual cash flows represent Solely Payments of Principal and Interest ("SPPI") on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income ("OCI"). However, the Group recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the consolidated Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Consolidated Statement of Profit and Loss. Interest earned while holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt Instrument at Fair Value through Profit and Loss ("FVTPL")

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the consolidated Statement of Profit and Loss.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable. If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to consolidated Statement of Profit and Loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the consolidated Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's Balance Sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay
 the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
 either
- the Group has transferred substantially all the risks and rewards of the asset, or
- the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Group applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Financial assets that are debt instruments and are measured as at FVTOCI
- Trade receivables or any contractual right to receive cash or another financial asset.

The Group follows 'simplified approach' for recognition of impairment loss allowance for:

- Trade receivables and
- Other receivables

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount

Financial Liabilities

Initial Recognition and Measurement

The Group's financial liabilities include trade and other payables, loans and borrowings. All financial liabilities are recognised initially at fair value and in the case of loans, borrowings and payables recognised net of directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities at FVTPL

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the consolidated Statement of Profit and Loss.

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the consolidated Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated Statement of Profit and Loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

G. Derivative Financial Instruments

The Group uses derivative financial instruments such as forward contracts to hedge its foreign currency risks relating to highly probable transactions or firm commitments. Such forward Exchange Contracts are marked to market and resulting gains or losses are recorded in the consolidated Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

H. Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

I. Cash Flows

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated. The Group considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

J. Foreign Currency Translation

Initial Recognition

Foreign currency transactions are recorded in the reporting currency by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

K. Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

The company does not expect to have any contract where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the company does not adjust any of the transaction prices for the time value of money.

Sale of Goods

Revenue from the sale of goods is recognised at a point in time when control of the asset is transferred to the customer, generally on the delivery of the goods.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effects of variable consideration, the existence of significant financing component and consideration payable to the customer like return and trade discounts.

Sales are disclosed excluding net of sales returns and Goods and Service Tax (GST).

Conversion Charges

Income is recorded on accrual basis on dispatch of material and as per terms of agreement.

Income from Wind Operated Power Generators

Income from Sale of Wind Operated Power if any is accounted on accrual basis on confirmation of units generated and supplied to the State Electricity Board as per the agreement.

Sale of Scrap

Revenue from sale of scrap is recognised as and when scrap is sold.

L. Other Income

Interest Income

Interest income from the financial assets is recognised on a time basis, by reference to the principle outstanding using the effective interest method provided it is probable that the economic benefits associated with the interest will flow to the Group and the amount of interest can be measured reliably. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of that financial asset.

Export Benefits

Duty free imports of raw materials under Advance License for imports as per the Import and Export Policy are matched with the exports made against the said licenses and the net benefit/obligation is accounted by making suitable adjustments in raw material consumption.

The benefits accrued under the duty drawback scheme, RoDTEP and Merchandise Export from India Scheme (MEIS) as per the Import and export Policy in respect of exports under the said scheme are recognised when there is a reasonable assurance that the benefit will be received and the Group will comply with all attached conditions. The above benefits have been included under the head 'Export Incentives.'

Dividend Income

Dividend income from Investments is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Insurance Claims

Insurance claims are accounted on accrual basis when there is reasonable certainty of realisability of the claim amount.

Commission Income

Income on account of commission is accounted on accrual basis based on the Terms of Agreement.

Rent Income

Rent income is recognized on time proportion basis as per agreement and net of taxes.

M. Employee Benefits

Employee benefits includes short term employee benefits, contribution to defined contribution schemes, contribution to defined benefit plan and compensated absences.

Short-term Employee Benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

Contribution towards Defined Benefit Contribution Schemes

Contribution towards provident fund and superannuation fund is made to the regulatory authorities. Contributions to the above scheme are charged to the consolidated Statement of Profit and Loss in the year when the contributions are due. Such benefits are classified as defined Contribution Schemes as the Group does not carry any further obligations, apart from the contributions to be made.

Defined Benefit Plan

Gratuity Plan

The Group has a defined benefit gratuity plan. Every employee who has completed five years or more of service is eligible for gratuity on post-employment at 15 days salary (last drawn salary) for each completed year of service as per the rules of the Group. The aforesaid liability is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of the financial year. The scheme is funded with an insurance Company in the form of a qualifying insurance policy. Current service cost, Past-service costs are recognised immediately in consolidated Statement of profit or loss.

Remeasurement

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the consolidated statement of changes in equity and in the Balance Sheet. Remeasurements are not reclassified to profit or loss in subsequent periods.

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in profit or loss in the period in which they arise.

N. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

O. Income Taxes

The tax expense comprises of current income tax and deferred tax.

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current Income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to

interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax recognised on temporary differences between the taxes bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except:

• When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets and liabilities relate to the income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax liabilities and assets on a net or simultaneous basis.

P. Provisions and Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the consolidated financial statements.

A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the consolidated financial statements.

Contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

Q. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

R. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- The contract involves the use of an identified asset this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, the asset is not identified.
- The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has the right when it has the right decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases, where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - The Group has the right to operate the asset; or
 - The Group designed the asset in a way that predetermined how and for what purpose it will be used

This policy is applied to all contracts entered into, or changed, on or after April 1, 2019.

Group as a Lessee

Lease Liability

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the Lease Liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- · amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The Group presents Lease Liabilities under "Financial Liabilities" in the Balance Sheet.

Right-of-Use Assets ("ROU Asset")

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives.

The Group presents ROU assets that meet the definition of investment property are presented within investment property otherwise under "Property, Plant and Equipment".

Subsequent Measurement

Lease Liability

Group measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.

The Lease Liability is measured at amortised cost using its incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes it assessment of whether it will exercise a purchase, extension or termination option

Right-of-Use Assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the under lying asset. The estimated useful lives of ROU assets are determined on the same basis as those of property and equipment.

When a Lease Liability is remeasured, a corresponding adjustment is made to the carrying amount of the ROU asset, or is recorded in the Statement of Profit or Loss if the carrying amount of the ROU asset has been reduced to zero.

Impairment

Right of use assets is evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the

recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short-term Lease and Leases of low-value asset

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the Group elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

Group as a Lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially the entire risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

S. Segment Reporting

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Chief Operating Decision Maker evaluates the Group's performance and allocates the resources based on an analysis of various performances. The analysis of geographical segments is based on the geographical location of the customers wherever required.

Unallocable items include general corporate income and expense items which are not allocated to any business segment.

Segment Policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the Group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

T. Exceptional Items

Certain occasions when the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Group is such that its disclosure improves the understanding of the performance of the Group, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the consolidated financial statements.

NOTE: 2.3

Use of Judgements, Estimates and Assumptions

The preparation of the Group's consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such

changes are reflected in the assumptions when they occur.

1. Determination of the Estimated Useful Life of Tangible Assets

Useful life of tangible assets is based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful life are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

2. Defined Benefit Plans (Gratuity Benefits)

A liability in respect of defined benefit plans is recognised in the Balance Sheet, and is measured as the present value of the defined benefit obligation at the reporting date less the fair value of the plan's assets. The present value of the defined benefit obligation is based on expected future payments which arise from the fund at the reporting date, calculated annually by independent actuaries. Consideration is given to expect future salary levels, experience of employee departures and periods of service.

3. Taxes

There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts initially recorded, such differences will impact the current and deferred tax provisions in the period in which the tax determination is made. The assessment of probability involves estimation of a number of factors including future taxable income.

4. Fair Value Measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

5. Provision against Obsolete and Slow-moving Inventories

The Group reviews the condition of its inventories and makes provision against obsolete and slow-moving inventory items which are identified as no longer suitable for sale or use. Group estimates the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review at each Balance Sheet date and makes provision against obsolete and slow-moving items. The Group reassesses the estimation on each Balance Sheet date.

6. Impairment of Financial Assets

The Group assesses impairment based on ECL model on trade receivables. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

7. Impairment of Non-financial Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's

recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risk specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

These calculations are corroborated by valuation multiples, quoted share price for publicly traded subsidiaries or other available fair value indicators.

8. Other Provisions

Significant estimates are involved in the determination of provisions. Legal proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated.

NOTE: 2.23

Recent Pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 - Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 - Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group is evaluating the impact, if any, in its financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its financial statements.

Notes:-

11.1 In determining the allowances for credit losses of Trade Receivables, the Company has used a practical expedient by computing the Expected Credit Loss Allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The Expected Credit Loss allowance is based on the ageing of the receivables that are due and the rates used in the provision matrix.

The description of the nature and purpose of each reserve within Equity is as follows:

a. Capital Reserve

This Reserve represents the difference between value of the net assets transferred to the Company in the course of business combinations and the consideration paid for such combinations.

b. Securities Premium

This Reserve represents the premium on issue of shares and can be utilised in accordance with the provisions of the Companies Act, 2013.

c. Capital Redemption Reserve

Capital Redemption Reserve is created due to buyback of Equity Share Capital in earlier years.

d. General Reserve

The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act, 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013. There is no movement in General Reserve during the current and previous year.

e. Retained Earnings

Retained Earnings are the profits that the Company has earned till date, less any transfer to General Reserve, dividends or other distributions paid to shareholders.

The Company has declared dividend for the year ended March 31, 2023 at the rate 27.50 per equity share, as approved by the Board of Directors at the Board Meeting held on May 18, 2023 [Refer Note 52].

f. Equity Instruments through Other Comprehensive Income

The Company has elected to recognise changes in the fair value of investments in equity instruments in other comprehensive income. These changes are accumulated within the FVOCI equity investments within equity. The balance in Other Comprehensive Income is transferred to retained earnings on disposal of the investment.

39. Disclosure pursuant to Ind AS 19 on "Employee benefits"

a. Defined Benefit Plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded. The following tables summaries the components of net benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the Balance Sheet for the gratuity plan.

Risks associated with Defined Benefit Plan

Interest Rate Risk:

A fall in the discount rate which is linked to the Government securities rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching (ALM) Risk:

The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality Risk:

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk:

Plan has a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

Characteristics of Defined Benefit Plans

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

During the year, there were no plan amendments, curtailments and settlements.

The following table sets out the status of the gratuity plan and the amounts recognised in the Company's Financial Statements as at March 31, 2023.

Notes

- Discount rate is determined by reference to market yields at the balance sheet date on Government bonds, where the currency and terms of the Government bonds are consistent with the currency and estimated terms for the benefit obligation.
- 2 The estimate of future salary increase takes into account inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.
- 3 100% of the plan assets are invested in group gratuity scheme offered by LIC of India.

Delta Effect of +1 % Change in Rate of Employee Turnover	2.31	0.53
Delta Effect of -1 % Change in Rate of Employee Turnover	(2.69)	(0.70)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the Balance Sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's Standalone Financial Statements as at Balance Sheet date:

ii. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the Financial Statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial Assets and Liabilities measured at fair value - recurring fair value measurements

Total Financial Liabilities		-	3,477.87	-	3,477.87

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers between levels 1 and 2 during the year.

iii. Valuation technique used to determine Fair Value

50. Financial Risk Management

The Company has exposure to the following risks arising from financial instruments:

Credit risk

Market risk

Liquidity risk

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed periodically to reflect changes in market conditions and the Company's activities. The Company, through its training, standards and procedures, aims to maintain a discipline and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how Management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Auditors. Internal Auditors undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

i. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to whom the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

a. Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company also has credit insurance and ECGC for export customer. In addition to above, there are no major delays in receipt of payment from the Trade Receivables.

In determining the allowances for credit losses of Trade Receivables, the Company has used a practical expedient by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix (Refer note No.11.1).

b. Cash and Cash Equivalents, Derivative Financial Instruments and Financial Guarantees

Credit risks from balances with banks and financial institutions are managed in accordance with the Company policy. For financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks. The Company's maximum exposure in this respect is the maximum amount the Company would have to pay if the guarantee is called upon.

c. Loans and Advances

In the case of loans to employees, the same is managed by establishing limits. (Which in turn is based on the employees salaries and number of years of service put in by the concerned employee)

ii. Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows on daily, monthly and yearly basis. Loan arrangements, credit limits with various banks including working capital and monitoring of operational and working capital issues are always kept in mind for better liquidity management. In addition, processes and policies related to such risks are overseen by senior management.

Maturities of financial liabilities

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments.

iii. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk. Thus, our exposure to market risk is a function of revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs. The Company uses derivative to manage market risk. Generally, the Company seeks to apply hedge accounting to manage volatility in profit or loss.

Currency risk

The Company is exposed to currency risk on account of its operations in other countries. The functional currency of the Company is Indian Rupee (INR). The exchange rate between the INR and foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. Consequently, the Company uses both derivative instruments, i.e., foreign exchange forward contracts to mitigate the risk of changes in foreign currency exchange rates in respect of its highly probable forecasted transactions and recognised assets and liabilities.

The Company enters into foreign currency forward contracts which are not intended for trading or speculative purposes but for hedge purposes to establish the amount of reporting currency required or available at the settlement date of certain payables/receivables.

Following is the derivative financial instruments to hedge the foreign exchange rate risk:

Currency	As at March 31, 2023			As at March 31, 2022			
	Trade Receivable and other Receivable	Hedges available	Net exposure to foreign currency	Trade Receivable and other Receivable risk	Hedges available	Net exposure to foreign currency risk	
USD (in Lakhs)	115.12	107.60	7.52	118.22	65.95	52.27	
Equivalent INR (in Lakhs)	9,462.29	8,155.09	1,307.19	8,960.78	4,998.35	3,962.43	

Currency	As at Marc	As at March 31, 2023			As at March 31, 2022		
	Trade Payable	Hedges available	Net exposure to foreign currency risk	Trade Payable	Hedges available	Net exposure to foreign risk	
USD (in Lakhs)	19.02	-	19.02	28.78	-	28.78	
Equivalent INR (in Lakhs)	1,563.68	-	1,563.68	2,181.45	-	2,181.45	

The sensitivity of profit or loss to changes in the exchange rates arises mainly from unhedged foreign currency denominated financial instruments.

51. Capital Management

For the purpose of Company's Capital Management, equity includes equity share capital and all other equity reserves attributable to the equity holders of the Company. The Company manages its capital to optimise returns to the share holders and make adjustments to it in the light of changes in economic conditions or its business requirements. The Company's objective is to safe guard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders value. The Company funds its operations through internal accruals and long term borrowings competitive rate. The Management and Board of Directors monitor the return of capital as well as the level of dividend to share holders.
