## The Global Semiconductor Industry:

The Semiconductor Industry Association (SIA) today announced global semiconductor industry sales totaled \$555.9 billion in 2021, the highest-ever annual total and an increase of 26.2% compared to the 2020 total of \$440.4 billion. The industry shipped a record 1.15 trillion semiconductor units in 2021, as chip companies ramped up production to address high demand amid the global chip shortage. Global sales for the month of December 2021 were \$50.9 billion, an increase of 28.3% compared to the December 2020 total and 1.5% more than the total from November 2021. Fourth-quarter sales of \$152.6 billion were 28.3% more than the total from the fourth quarter of 2020 and 4.9% higher than the total from third quarter of 2021.

Demand for semiconductor production is projected to rise significantly in the years ahead, as chips become even more heavily embedded in the essential technologies of now and the future.

On a regional basis, sales into the Americas market saw the largest increase (27.4%) in 2021. China remained the largest individual market for semiconductors, with sales there totaling \$192.5 billion in 2021, an increase of 27.1%. Annual sales also increased in 2021 in Europe (27.3%), Asia Pacific/All Other (25.9%), and Japan (19.8%). Sales for the month of December 2021 increased compared to November 2021 in the Americas (5.2%), China (0.8%), Europe (0.3%), and Asia Pacific/All Other (0.1%), but fell slightly in Japan (-0.3%).

## A. Market Drivers

Several semiconductor product segments stood out in 2021. Analog, a type of semiconductor that is commonly used in vehicles, consumer goods, and computers, had the highest annual growth rate of 33.1%, reaching \$74 billion in 2021 sales. Logic (\$154.8 billion in 2021 sales) and memory (\$153.8 billion) were the largest semiconductor categories by sales. Annual sales of logic products

increased by 30.8% compared to 2020, while sales of memory products were up 30.9%. Sales of micro-ICs — a category that includes microprocessors — increased 15.1% to \$80.2 billion in 2021. Sales of all non-memory products combined increased by 24.5% in 2021. Sales of automotive ICs increased 34.3% year-over-year to a record high of \$26.4 billion.

Demand for semiconductors is projected to grow substantially in the years ahead due to the increased digitization of the economy, growing demand for “smart” products, increased remote work, schooling, and shopping, and the importance of advanced technologies in addressing climate change and healthcare needs, among other factors. To meet this growing demand and counter the supply chain shock caused by the pandemic, the semiconductor industry has in the short term substantially expanded shipments by increasing the utilization of existing manufacturing capacity.

The strongest-growing segment is likely to be automotive, where we could see a tripling of demand, fueled by applications such as autonomous driving and e-mobility. The 2030 cost of semiconductor content in a Level 4 car with an electric drive train could be about \$4,000 compared with \$500 for an SAE Level 1 car powered by an internal-combustion engine. Accounting for just 8 percent of semiconductor demand in 2021, the automotive industry could represent from 13 to 15 percent of demand by the end of the decade. On that basis, the segment would be responsible for as much as 20 percent of industry expansion over the coming years.

## **B. Semiconductor Mergers:**

Intel Corporation (NASDAQ: INTC) and Tower Semiconductor (NASDAQ: TSEM), a leading foundry for analog semiconductor solutions, announced a definitive agreement. Under the agreement, Intel will acquire Tower Semiconductor for \$53 per share in cash, with a total enterprise value of approximately \$5.4 billion. This acquisition vigorously advances Intel's IDM2.0 strategy, further expanding Intel's manufacturing capacity, global presence and technology portfolio to meet unprecedented industry demands.

.AMD said that it has officially completed the acquisition of the FPGA giant Xilinx, a record transaction valued at \$49.8 billion (316.5 billion yuan) in the chip industry. The deal came after Nvidia dropped plans to buy SoftBank's Arm, citing regulatory hurdles.

World Advanced (VIS) announced that it has officially taken over AUO's L3B factory and become the company's fifth wafer factory. The acquisition was announced on April 28, 2020, with a transaction value of NT\$905 million (approximately RMB 207 million).

## **C. Outsourced Assembly and Test (OSAT) Industry**

The outsourced semiconductor assembly and test services (OSAT) market was valued at USD 37.95 billion in 2022, and it is projected to be worth USD 60.19 billion by 2027, registering a CAGR of 7.47% during the period, 2022-2027

The semiconductor industry has been growing, with miniaturization and efficiency being the focus areas and the semiconductors emerging as building blocks of all modern technology. The advancements and innovations in this field have been directly impacting all downstream technologies.

The rising commercialization of applications like AI and 5G is also fueling advancements in packaging platforms, like Fan-Out Packaging and the 3D Flip Chip technology, to address the high-power consumption need and provide benefits such as greater chip connectivity. This forces many companies to collaborate with OSAT vendors; hence, many OSATs such as ASE/SPIL, Amkor, and JCET invest in various advanced SiPs and fan-out technology to gauge their competition.

The outbreak of COVID-19 across the world significantly disrupted the supply chain and production of the studied market in the initial phase of 2020. For circuits and chipmakers, the impact was more severe. Due to labor shortages, many packages and testing plants in the Asia-Pacific region reduced or even suspended operations. This also created a bottleneck for companies that depend on such back-end package and testing capacity..

#### **D. The Indian Semiconductor Industry**

The Indian semiconductor market was valued at \$27 billion in 2021 and is expected to grow at a healthy CAGR of 16% up to 2026 to reach \$64 billion in 2026. Furthermore, the report also highlighted that 80 per cent of the total revenue in the Indian semiconductor industry stemmed from mobile phones, smart wearables, IT, and other industrial components. Additionally, with the telecom industry preparing to rollout 5G technology by deploying cloud networks, the demand for semiconductors is expected to skyrocket.

With the lockdown seemingly ongoing in China and with the growing Chinese crackdown on big tech companies, some manufacturers may just be tempted to take up these offers, especially with the demand for semiconductors only increasing in recent times. Geographically, the country is also well-positioned to handle the heavy logistical demands the semiconductor companies require.

International semiconductor consortium ISMC, led by Next Orbit Ventures and Israel's Tower Semiconductor as JV partner, signed a Rs 22,900-crore (\$3 billion) agreement with the Karnataka government to set up a chip-manufacturing plant on 150 acres of land in Mysuru's Kochanahalli Industrial Area.

The Karnataka government is setting up an Electronics Manufacturing Cluster at Kochanahalli, located around 5 km from Mysuru Airport. The semiconductor plant is expected to generate 1,500 high-tech and high-quality jobs and at least 10,000 ancillary jobs. The proposed plant is expected to provide a significant boost to the industrialization of the district.

According to Ajay Jalan, ISMC Director and Next Orbit Founder and Managing Partner, the consortium selected Karnataka as the location for its fab factory due to water availability, the stable power situation in the state, access to talent, quality of life for talented engineers, incentive package offered by the state.

ISMC was considering Dholera Investment Region in Gujarat as a possible site for the chip manufacturing plant. Suggestions have emerged that the state may have lost out due to water. However, the real reason is that Gujarat also does not have formidable electronic manufacturing and design ecosystem like Karnataka.

### **3. Human Resources Development**

Your Company has enthroned the attributes listed below as its core values. The Management will assiduously practice and enthuse its Employees to imbibe these virtues. Towards this end training is imparted every month, every Employee goes throughout the drill at least once in six months :

Business Ethics : defines us as a Company

Professionalism : defines us as Individuals

Citizenship : defines our contribution to Society

SPEL's medium for Corporate Social Responsibility (CSR) is through Socio-Economic Contribution (S-E-C) and SPEL Employees Social Service Organization (SESSO). For most people, the idea of Social

Service is donating money to a social organization - perhaps an old-age home or an orphanage or similar. This however is the easy part. The difficult part is volunteering one's time to improve society.

When can we make a contribution to Society?

During Phase 1 of our lifetime, perhaps up to the age of 35, we are so focused on building our careers, starting our families & establishing a name for ourselves

During Phase 2 perhaps from age of 35 thru 65, we are the most active in our work, working as a team, being able to significantly contribute to Economic Development

During Phase 3 perhaps from age 65 onwards, we are most able to contribute our time on an increased basis to social causes S-E-C at SPEL is all about how we can contribute socially during Phase 2 itself while also handling Economic Development. Towards this, there are 3 areas that each of us can assist by making these a part of our day to day approach:

1. Following discipline in any and everything we do
2. Providing a helping hand to people around us in any way we possibly can
3. Showing the right path forward to people around us

S-E-C in SPEL is primarily done by One-to-One Mentoring as each person encourages & motivates the other, towards a more purposeful & effective lifestyle.

As part of the core values, following activities were undertaken through SESSO :

- i) Educational assistance to the needy people in and around Factory.
- ii) Voluntary Blood Donation camp.
- iii) Assistance to orphanage and old age home located near Factory.

### Management Discussion and Analysis Report:

The management of your company is pleased to submit the following:

#### The Global Semiconductor Industry:

The Semiconductor Industry Association (SIA) today announced global semiconductor industry sales totaled \$555.9 billion in 2021, the highest-ever annual total and an increase of 26.2% compared to the 2020 total of \$440.4 billion. The industry shipped a record 1.15 trillion semiconductor units in 2021, as chip companies ramped up production to address high demand amid the global chip shortage. Global sales for the month of December 2021 were \$50.9 billion, an increase of 28.3% compared to the December 2020 total and 1.5% more than the total from November 2021. Fourth-quarter sales of \$152.6 billion were 28.3% more than the total from the fourth quarter of 2020 and 4.9% higher than the total from third quarter of 2021.

Demand for semiconductor production is projected to rise significantly in the years ahead, as chips become even more heavily embedded in the essential technologies of now and the future.

On a regional basis, sales into the Americas market saw the largest increase (27.4%) in 2021. China remained the largest individual market for semiconductors, with sales there totaling \$192.5 billion in 2021, an increase of 27.1%. Annual sales also increased in 2021 in Europe (27.3%), Asia Pacific/All Other (25.9%), and Japan (19.8%). Sales for the month of December 2021 increased compared to November 2021 in the Americas (5.2%), China (0.8%), Europe (0.3%), and Asia Pacific/All Other (0.1%), but fell slightly in Japan (-0.3%).

#### E. Market Drivers

Several semiconductor product segments stood out in 2021. Analog, a type of semiconductor that is commonly used in vehicles, consumer goods, and computers, had the highest annual growth rate of 33.1%, reaching \$74 billion in 2021 sales. Logic (\$154.8 billion in 2021 sales) and memory (\$153.8 billion) were the largest semiconductor categories by sales. Annual sales of logic products increased by 30.8% compared to 2020, while sales of memory products were up 30.9%. Sales of micro-ICs — a category that includes microprocessors — increased 15.1% to \$80.2 billion in 2021. Sales of all non-memory products combined increased by 24.5% in 2021. Sales of automotive ICs increased 34.3% year-over-year to a record high of \$26.4 billion.

Demand for semiconductors is projected to grow substantially in the years ahead due to the increased digitization of the economy, growing demand for “smart” products, increased remote work, schooling, and shopping, and the importance of advanced technologies in addressing climate change and healthcare needs, among other factors. To meet this growing demand and counter the supply chain shock caused by the pandemic, the semiconductor industry has in the short term substantially expanded shipments by increasing the utilization of existing manufacturing capacity.

The strongest-growing segment is likely to be automotive, where we could see a tripling of demand, fueled by applications such as autonomous driving and e-mobility. The 2030 cost of semiconductor content in a Level 4 car with an electric drive train could be about \$4,000 compared with \$500 for an SAE Level 1 car powered by an internal-combustion engine. Accounting for just 8

percent of semiconductor demand in 2021, the automotive industry could represent from 13 to 15 percent of demand by the end of the decade. On that basis, the segment would be responsible for as much as 20 percent of industry expansion over the coming years.

#### **F. Semiconductor Mergers:**

Intel Corporation (NASDAQ: INTC) and Tower Semiconductor (NASDAQ: TSEM), a leading foundry for analog semiconductor solutions, announced a definitive agreement. Under the agreement, Intel will acquire Tower Semiconductor for \$53 per share in cash, with a total enterprise value of approximately \$5.4 billion. This acquisition vigorously advances Intel's IDM2.0 strategy, further expanding Intel's manufacturing capacity, global presence and technology portfolio to meet unprecedented industry demands.

.AMD said that it has officially completed the acquisition of the FPGA giant Xilinx, a record transaction valued at \$49.8 billion (316.5 billion yuan) in the chip industry. The deal came after Nvidia dropped plans to buy SoftBank's Arm, citing regulatory hurdles.

World Advanced (VIS) announced that it has officially taken over AUO's L3B factory and become the company's fifth wafer factory. The acquisition was announced on April 28, 2020, with a transaction value of NT\$905 million (approximately RMB 207 million).

#### **G. Outsourced Assembly and Test (OSAT) Industry**

The outsourced semiconductor assembly and test services (OSAT) market was valued at USD 37.95 billion in 2022, and it is projected to be worth USD 60.19 billion by 2027, registering a CAGR of 7.47% during the period, 2022-2027

The semiconductor industry has been growing, with miniaturization and efficiency being the focus areas and the semiconductors emerging as building blocks of all modern technology. The advancements and innovations in this field have been directly impacting all downstream technologies.

The rising commercialization of applications like AI and 5G is also fueling advancements in packaging platforms, like Fan-Out Packaging and the 3D Flip Chip technology, to address the high-power consumption need and provide benefits such as greater chip connectivity. This forces many companies to collaborate with OSAT vendors; hence, many OSATs such as ASE/SPIL, Amkor, and JCET invest in various advanced SiPs and fan-out technology to gauge their competition.

The outbreak of COVID-19 across the world significantly disrupted the supply chain and production of the studied market in the initial phase of 2020. For circuits and chipmakers, the impact was more severe. Due to labor shortages, many packages and testing plants in the Asia-Pacific region reduced or even suspended operations. This also created a bottleneck for companies that depend on such back-end package and testing capacity..

#### **H. The Indian Semiconductor Industry**

The Indian semiconductor market was valued at \$27 billion in 2021 and is expected to grow at a healthy CAGR of 16% up to 2026 to reach \$64 billion in 2026. Furthermore, the report also highlighted that 80 per cent of the total revenue in the Indian semiconductor industry stemmed from mobile phones, smart wearables, IT, and other industrial components. Additionally, with the telecom industry preparing to rollout 5G technology by deploying cloud networks, the demand for semiconductors is expected to skyrocket.

With the lockdown seemingly ongoing in China and with the growing Chinese crackdown on big tech companies, some manufacturers may just be tempted to take up these offers, especially with the demand for semiconductors only increasing in recent times. Geographically, the country is also well-positioned to handle the heavy logistical demands the semiconductor companies require.

The semiconductor plant is expected to generate 1,500 high-tech and high-quality jobs and at least 10,000 ancillary jobs. The proposed plant is expected to provide a significant boost to the industrialization of the district.

According to Ajay Jalan, ISMC Director and Next Orbit Founder and Managing Partner, the consortium selected Karnataka as the location for its fab factory due to water availability, the stable power situation in the state, access to talent, quality of life for talented engineers, incentive package offered by the state.

ISMC was considering Dholera Investment Region in Gujarat as a possible site for the chip manufacturing plant. Suggestions have emerged that the state may have lost out due to water. However, the real reason is that Gujarat also does not have formidable electronic manufacturing and design ecosystem like Karnataka.

### **SPEL Positioning**

a The first two months of 2022-23 got off to a strong start in , Global semiconductor production is on the rise to meet increasing demand and ease the ongoing chip shortage affecting the auto sector and others, and hence the annual sales are projected to increase in 2021-22. Longer lead-time with regard to the raw materials is a concern, as most of the supply chain is based in SEA countries which are facing intermittent lockdowns due to COVID.

b. SPEL maintains its relationship with all Customers in good form and putting efforts to meet their QCDS factors. SPEL extends various Value-Added Services like package design , Test HW development & drop shipment to all its Customers which help to attract additional volumes.

c. The communication frequency with Customers & Sales Representatives increased and SPEL uses all electronic media (eMails, Conference calls, Skype calls, Whatsapp calls, MS teams, Google Meet etc.) to interact with Customers

d. Contribution of Sales Representatives is also ensured to bring in new business & to reach Customers in case of any delay in shipments and unable to meet their requirements. They are advised to bring in new Customers & new products. Weekly calls with them is being done to ensure their activities are up to the expectations

e. SPEL reaches its Suppliers, Vendors and Customers to refer any new Customers if they have come across and this has provided positive results. Few new Customer inducted through this methodology

f. Global demand for semiconductors will remain high in the coming quarters, as reflected by rising sales across a range of chip products and throughout each of the world's major regional markets. The global chip market is projected to grow substantially in 2021 and 2022 as

semiconductors become increasingly integral to the game-changing technologies of today and the future . This will have a positive effect on SPEL's business.

g. Sales representatives are also advised to increase the frequency with the Customers whom they are dealing.

h. New RFQs received from various Customers in this Quarter including new Customers. Quotations have been submitted and few of them converted into business and working on other RFQs to get business

i. Focus for FYQ2 would be in the following areas :

i. Adding new Customers – Planning to add new Customers both in Europe & US regions. Three new Customers identified and SPEL is closely working with them in Europe

ii. Maintaining Inventory – In the past, delayed material delivery was one of the concerns for having lower volumes. SPEL ensures to have adequate inventory to address Customers FC in this quarter

## **INDEPENDENT AUDITOR'S REPORT**

### **TO THE MEMBERS OF SPEL SEMICONDUCTOR LIMITED**

#### **Report on the audit of the Financial Statements**

#### **Opinion**

I have audited the accompanying Financial Statements of **SPEL SEMICONDUCTOR LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash flows for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In my opinion and to the best of my information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

I conducted my audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. My responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section in my report. I am independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and I am fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my opinion.

#### **Material Uncertainty Related to Going Concern**

I draw your attention to Note 3.15 of the Financial Statements of the Company. The Company has incurred losses and generated negative cash flows during the year and also in the earlier years which indicate existence of material uncertainty in the Company's ability to continue as a going concern for a reasonable period of time. In order to continue the Company is apparently dependent on the infusion of sufficient funds and restructuring of operations. Based on the funds infused and business plans of the management, the Company is reasonably expected to carry on the operations as a going concern. On this basis the Company has prepared the financial statements on going concern basis. My opinion is not modified in respect of this matter.

### Emphasis of Matter

I also draw your attention to Note 3.23 of the financial statements which explains the uncertainties and the management's assessment of the potential impact due to lock-downs and other restrictions and conditions related to the COVID-19 pandemic situation and consequently the Company's results are highly dependent upon future developments, which are highly uncertain.

My opinion is not modified in respect of these matters.

### Key Audit Matters

Key audit matters are those matters that, in my professional judgement, are of most significant in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

### Information other than the Financial Statements and Auditor’s Report thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures and Shareholder’s Information but does not include the financial statements and our auditor’s report thereon.

My opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a

material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of the financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. I consider quantitative materiality and qualitative factors in (i) planning the scope of my audit work and in evaluating the results of my work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

## **Independent Auditor’s Report on the Abridged Financial Statements**

### **To The Members of SPEL SEMICONDUCTOR LIMITED**

The accompanying Abridged Financial Statements of **SPEL SEMICONDUCTOR LIMITED** (‘the Company’), which comprise the Abridged Balance Sheet as at 31 March 2022, the Abridged Statement of Profit and Loss (including Other Comprehensive Income), the Abridged Statement of Cash Flows and the Abridged Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and related notes, are derived from the audited financial statements of the Company for the year ended 31 March 2022. I expressed an unmodified audit opinion on those financial statements vide. my report dated May 30, 2022.

The Abridged financial statements do not contain all the disclosures required by the Indian Accounting Standards(Ind AS) referred to in Section 133 of the Companies Act, 2013 (“the Act”) and accounting principles generally accepted in India, applied in the preparation of the audited financial statements of the Company. Reading the Abridged Financial Statements, therefore, is not a substitute for reading the audited financial statements of the Company.

### **Management’s Responsibility for the Abridged Financial Statements**

The Company’s Board of Directors is responsible for the preparation of summary of the audited financial statements in accordance with first proviso to Section 136(1) read with Rule 10 of Companies (Accounts) Rules, 2014 (as amended) and are based on the audited financial statements for the year ended 31 March 2022, prepared in accordance with Indian Accounting Standards referred to in Section 133 of the Act, and accounting principles generally accepted in India.

### **Auditor’s Responsibility**

My responsibility is to express an opinion on the Abridged financial statements based on my procedures, which were conducted in accordance with Standard on Auditing (SA) 810, "Engagements to Report on Summary Financial Statements" issued by the Institute of Chartered Accountants of India.

### **Opinion**

In my opinion, the Abridged Financial Statements, prepared in accordance with first proviso to section 136(1) of the act read with Rule 10 of the Companies (Accounts) Rules, 2014(as amended) are derived from the audited financial statements of the Company for the year ended 31 March 2022 are a fair summary of those financial statements.

### **Material Uncertainty Related to Going Concern**

I draw your attention to Note 12 to the Abridged Financial Statements of the Company. The Company has incurred losses and generated negative cash flows during the year and also in the earlier years which indicate existence of material uncertainty in the Company's ability to continue as a going concern for a reasonable period of time. In order to continue the Company is apparently dependent on the infused of sufficient funds and restructuring of operations. Based on the funds infused and business plans of the management, the Company is reasonably expected to carry on the operations as a going concern. On this basis the Company has prepared the financial statements on going concern basis. My opinion is not modified in respect of this matter.

### **Emphasis of Matter**

I also draw your attention to Note 20 to the Abridged Financial Statements which explains the uncertainties and the management's assessment of the potential impact due to lock-downs and other restrictions and conditions related to the COVID-19 pandemic situation and consequently the Company's results are highly dependent upon future developments, which are highly uncertain. My opinion is not modified in respect of this matter.

1. I have audited the internal financial controls over financial reporting of **SPEL SEMICONDUCTOR LIMITED** (“the Company”) as of March 31, 2022 in conjunction with my audit of the financial statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

2. The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

3. My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company’s internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial

reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

8. In my opinion and to the best of my information and according to the explanations given to me the Company has maintained in all material respects, adequate internal financial controls over financial reporting and such internal financial controls were operating effectively as of March 31, 2022 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by the Institute of Chartered Accountants of India.

i. (a) In my opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) I have considered the internal audit reports for the year under audit, issued to the Company during the year, in determining the nature, timing and extent of our audit procedures.

i. In my opinion, the Company has not entered into any non-cash transactions during the year, with its Directors or persons connected with its directors. and hence provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.

i. The Company is not required to be registered under section 45 - IA of the Reserve Bank of India Act, 1934 and it is not a Core Investment Company. Accordingly, the provisions of Clause 3(xvi) (a),(b),(c) and (d) of the Order is not applicable to the Company.

i. The Company has incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year. The amount of cash loss incurred for the financial year is Rs 665.90 Lakhs and for the immediately preceding financial year is Rs 170.45 Lakhs.

i. There has been no resignation of the statutory auditors of the Company during the year. Accordingly, the provisions of Clause 3(xviii) of the Order are not applicable to the Company.

⊘ Reference is made to the Material Uncertainty relating to Going Concern paragraph of the Independent Auditor's Report. The Company has incurred losses and generated negative cash flows during the year and also in the earlier years According to the information and explanations given to me and on the basis of (i) the financial ratios, (ii) ageing and expected dates of realization of financial assets and payment of financial liabilities, (iii) other information accompanying the financial statements, causes me to believe that a material uncertainty exists as on the date of the audit report indicating that the Company may not be capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. In order to continue, the Company is apparently dependent on the infusion of sufficient funds and restructuring of operations. Based on the funds infused and business plans of the management, the Company is reasonably expected to carry on the operations as a going concern. On this basis the Company has prepared the financial statements on going concern basis.

⊘ The provisions of Section 135 of the Companies Act, 2013 relating to Corporate Social Responsibility (CSR) are applicable to the Company Accordingly reporting under Clause

3(xx)(a) and (b) of the Order does not arise .

- i. The Company is not required to prepare consolidated financial statements and hence reporting under Clause 3 (xxi) is not applicable to the Company.
