Joint Managing Director's Message

salzer

Commenting on the results, Mr. Rajesh Doraiswamy, Joint Managing Director, said :

"I am happy to share that we have been able to deliver a good growth of around 15% in the first half, despite the challenges of lower demand and slowdown in the overall Indian industry during the second Quarter. This growth has been on account of increase in our exports and key businesses of Industrial Switch Gear product and Wires & Cables. The business from the Indian Railways in H1FY20 was around Rs 9 crore which we expect to grow by around 18-20% over the next one year. However, the sluggish domestic real estate market impacted the growth in our building segment business, and we hope to see a pickup in demand in the coming quarters.

The market conditions continue to be challenging, despite this we remain confident of achieving our yearly targets of revenue on back of our quality products offerings and long-term relations with our clients. We continue to work towards improving our working capital efficiency and have already taken steps in that direction and are confident of achieving our set targets.

As part of our journey towards sustainable growth, we have made progress by adding newer products, new markets and customers. We expect that our enhanced manufacturing capabilities and brand visibility among our customers will enable us to scale our business and customer connect. We continue to look at growth opportunities both organic and via acquisitions as well as technical alliances that would give us a competitive edge.

Overall, we remain committed to our set agenda of delivering sustainable growth. I thank all our stakeholders for their continued support and faith in our Company"

Leading player offering total and customized electrical solutions

- Presence in Industrial Switchgears, Wires & Cables and Energy management business
- Largest manufacturer of Cam Operated Rotary Switches – Market leader with 25% share

Strong focus on product development and innovation

- Registered Patent for Rotary Switches, five product patents in process

Extensive Product portfolio across verticals with In-house manufacturing facilities

- Five manufacturing units located in Tamil Nadu
- More than 15 products catering to Industrial / Building / Automobile verticals

Wide Distribution network – local and global

- Own distribution network – local and global – export to 50 countries
- Access to L&T's local network through more than 350 distributors

Consistent Dividend Payout Track Record for past 25 years

From a Single Product Company...

- Unit I (Coimbatore) – manufacture contactors, relays, panels, energy savers
- Starting of long term association with L&T
- Technical collaboration with Plitron for manufacture of Toroidal Transformers
- 1st Indian company to bring technology to India

- Leading player offering total and customized electrical solutions
- More than 15 different products
- 2,000 employees
- 4 manufacturing units
- Foray into tailor made products and branding for large customers
- Specialized panels for OEMs

- Established to manufacturer of CAM operated Rotary Switches

- Unit III - manufacture modular switches
- Started manufacturing of Wire & Cable for L&T

- Started commercial production of Three Phase Dry Type Transformers
- Acquired Salzer Magnet Wires
- Upgrade in Credit Rating for long term borrowing to 'CRISIL A/Stable'
- Acquired Kaycee Industries Ltd.

Energy Saver & Panels

- Increases lamp-life by average of 20% for HPSV lamps
- 30% reduction in energy consumption under normal working conditions
- Reduces power consumption by optimizing voltage
- State of art GSM/ GPRS technology is used for monitoring and controlling streetlights
- Eco-Friendly: SES reduces emission of CO and is eligible for Carbon Credits

Street Light Controllers

- Automatic On/Off based on Sunrise/Sunset or on programmed timings
- Wireless control and monitoring through sophisticated web-based/ Terminal based software
- Reduces operational, maintenance and running cost
- Detection of Energy theft or leakage
- Maintains high power factor of above 0.85
- Eco-friendly - First in India to adhere to RoHS compliance

In-house manufacturing and R&D enables superior customization of products

Key Strengths

Complete Backward Integration

- In-house manufacturing facilities with process capabilities ensures better product development and customization
- Well developed R&D enables continual product innovation

Strong Customer Relationships

- Strong customer relationships across globe
- Preferred supplier to GE, Schneider and only approved supplier of Nuclear Power Corporation
- Largest supplier of rotary and load break switches to Indian Railways

Wide Distribution Network

- Wide distribution network – international and domestic
- Tie up with L&T – access to over 350 dealers in India; own network for modular switches with 50 stockist in 4 southern & western states
- Direct network across 50 countries with 40 international distributors

Wide Product Suite

- Amongst few players in India, to offer total & customized electrical solutions
- Wide product basket – 15 products developed in-house
- Largest manufacturer and market leader in CAM operated rotary switches

Advanced Engineering Capabilities

- Strong engineering capabilities backed by in-house manufacturing and R&D team
- Technical collaboration with Plitron for Toroidal transformers – 1st company to bring technology to India, Joint Venture with C3Controls for contactors and relays
- Resulting in all products been international certified and universal acceptance

Way Ahead

Way Ahead

Operational Excellence

- Consistently executing business strategy and continued focus on improving operating costs by sourcing quality raw materials and efficient manpower

Venture into new project/ product development

- Look for Technical alliances to develop newer and technically advanced products
- Acquired Kaycee Industries enabling newer product development, entering new ventures and leveraging its brand and distribution network

Focus on margin improvement

- Increase sales of high margin products – existing and new
- Increase exports – fast growing markets of US, Africa and Middle East

Growth and expansion of existing product verticals

- Constantly develop new products through in-house R&D
- Expand existing product portfolio to newer geographies
