Source: SIAM

- > In passenger vehicle segment, better growth than the industry due to higher growth of served models
- > In the commercial vehicle segment, higher offtake on served models in the SCV segment; increased share of business and higher pack value due to model mix resulted in better growth in the M&HCV segment; lower growth in the LCV segment was due to drop in manual steering
- > Performance in the Farm Tractor segment is below the industry due to drop in share of business with key customer
- > In two wheeler segment better performance is driven by higher offtake of friction material products

^{*} Other segments such as Rail, Defence, Stationary Engines and 3-Wheeler contribute around 2%
