## Enhanced Net Cash Flow from Operations...

The business mix and focus on costs have led to strong operating cash flow generation

Strong Net Cash Flow from Operations (Rs Mn) ... ... Driven by the following Key Factors

- Growth in business and improved profitability
- Lower Finance costs due to paring of debt
- Lower cash outlay for taxes* - 80IA deduction (on account of biomass-based power plant) and MAT Credit (available for next 2-3 years based on current estimates)
* This led to a lower effective tax rate of $16.45 \%$ (\% of PBT) in FY20, and is likely to continue over the next 2-3 years

## ...Leading to a Strengthened Balance-sheet

Consistent focus on reducing debt from business cashflow; improving return ratios
