Commenting on the performance, Mr. Pallak Seth, Vice-Chairman, PDS Multinational Fashions, said,

“We are pleased to deliver healthy growth across our core and new business verticals. Although broader market challenges led to some pricing pressures across key markets, the overall business perspective remained steady, driven by our solid business fundamentals.

Over the last few quarters, we have weaved in a focused approach towards building and strengthening our business model. While we are marking healthy progress across our upcoming manufacturing facilities in Bangladesh, our new business line, the technology business, also continues to track well as per internal objectives.

As we look ahead, market factors such as Brexit, US dollar strengthening, interest rate hikes, etc. could pose challenges to the business. Although manufacturing initiative of the Company would impact the business results in the coming quarters, we expect this initiative to strengthen our customer servicing capabilities and enable us to perform better in the longer term.”
