Q4 and FY23 Business Performance

CEO's Message

- **Nikhil Chopra, CEO & Whole Time Director**
- *Views on Q4 and FY23 business performance*

“JB continued its growth journey in the fourth quarter, thereby ending FY23 with strong performance across business segments. Our market-beating performance in India is pivoted around big brands becoming bigger, and significant demand acceleration in the acquired portfolio. Each of our top 5 brands have ascended through the ranks. Further, Azmarda entered IQVIA’s Top 300 brands list and other acquired business in probiotics and paediatric segment have witnessed rank and market share gain.

Our performance in the International business has seen commendable gains amidst a challenging business environment. International formulations clocked mid-teens growth for the quarter. We continue to witness increased interest from existing and new clients in the CMO business especially in the lozenges segment. We expect to build on this growth in the long term by expanding our pipeline for international business.

While we are cautious of the inflationary environment our efforts are aimed at executing well, with productivity and cost optimization as drivers, in order to deliver improved operating margins”

JB Pharma – Looking ahead

Growth objectives supported by lean organization structure and strong governance framework

Domestic business to consistently outperform market growth driven by

- ❑ Big brands becoming bigger
- ❑ Market share & prescription gains in acquired portfolio of probiotics, heart-failure, paediatric and Lipid-lowering segment
- ❑ Life cycle management and new launches

Continuous thrust on cost optimization initiatives

- ❑ Deliver operating margins in the range of 25% - 27%, despite inflationary pressure & external market uncertainties
- ❑ Cost savings continue to be area of focus; raw material & power/fuel still seeing sharp inflation

India and CMO business should constitute in the near-term to around 75% - 80% of total revenue. Both businesses generate high ROCE and Operating margins

Continued growth momentum in International business

- ❑ Strong delivery in CMO business aided by new launches
- ❑ Demand revival in specific ROW markets and continuous thrust on improving productivity & cost structure
- ❑ Focus on building progressive portfolio for the long term

Continue building culture of governance & higher compliance

- ❑ Increased focus on business sustainability by strengthening ESG, governance and compliance
- ❑ Continue to build upon One JBWay culture and the new corporate identity

India business should continue to deliver market-beating growth; Focus on increasing chronic share to 60% in the mid-term
