Uttar Pradesh | Ice Cream Plant

**Gross Block for FY23 includes wholly owned subsidiaries/LLP and includes CWIP

*PAT includes, excess provision of tax to the tune of Rs. 1.8 Crores in FY 22 which was reversed in FY 23 after filing tax returns

Includes other income

1

The company's beverage unit and the ice cream unit had a decent start to the season though marred by unseasonal rains

2

The QoQ topline was flattish on account of fall in commodity prices.

3

The Board has approved capex investment of Rs 25 crs for setting up a new factory in Guwahati, Assam for a national player to manufacture juices

4

In addition to its existing portfolio of juices and CSD, the company is teaming up with two of the largest beverage players in the country. The commercial production for the same at the Mysore facility will commence by June '23

5

The Company's capex plans for setting up the Soaps & Bars project continued to progress in the quarter and started partial commercial production in May 23

Commenting on the Results, Sameer R. Kothari, Managing Director said, “I am satisfied with the overall performance of the company. Ramp up of the Ice creams and beverages facilities in the last quarter of this year has helped us close the year, with a record turnover and profit for the year though the fall in the commodity prices led to some softening in the top line in the last quarter. The unseasonal rains caused some variations for the demand for the summer products, which led to us closing the year a tad short of the number that we had guided for.

We had mentioned that the beverage segment was a key focus area, and I am pleased to inform that we have enhanced our presence in this segment by teaming up with two of the largest beverage players in the country. Given the market share of these two customers, we are optimistic about the potential of this new relationship and are looking forward to working with these companies to identify new locations for setting up factories and ramping up existing facilities to serve the growing demand of the Indian customer.

We continue to be bullish about the Indian consumption story.”

Commenting on the Results, Mayank Samdani, Group CFO said, “Our turnover for the quarter on a consolidated basis has increased by more than 25% YoY while the PAT has soared by 60% YoY. The QoQ revenue numbers were flattish as fall in the commodity prices led to reduction of our sales. However, our PAT numbers for the quarter were the highest as our margin profile improved due to the ramping up of our ice creams and beverages business.

PBT has crossed the 100-crore mark for the first time for the year FY 23 and our financial performance has improved as some of our under-utilized factories have ramped up. The cash flow from operations improved to nearly Rs. 100 crores, a near 3 times increase over last year. We have invested nearly Rs 200 crores towards capex in this financial year and we expect to invest a similar amount in the current year. We believe this will further propel our growth.

Our Baddi acquisition is progressing well, and we have applied for the various statutory permissions. We are confident that we should be able to consummate the deal by Q2 of this financial year.”
