1

OVERVIEW

As pure as it gets

EID, South India's largest sugar producers, adheres to the highest standards of quality and specifications, bringing customers the finest quality of sugar

Vision & Mission

"Enriching and Energizing by creating value added products from agriculture"

*Make the brand  the most preferred choice to achieve
Sustainable and Profitable growth*

Business overview – EID Parry India

Sugar, Co-gen & Distillery

- ❖ Leading Sugar producer in South India
- ❖ **8 sugar factories** and a standalone distillery spread across South India

Port-based sugar refinery in Kakinada

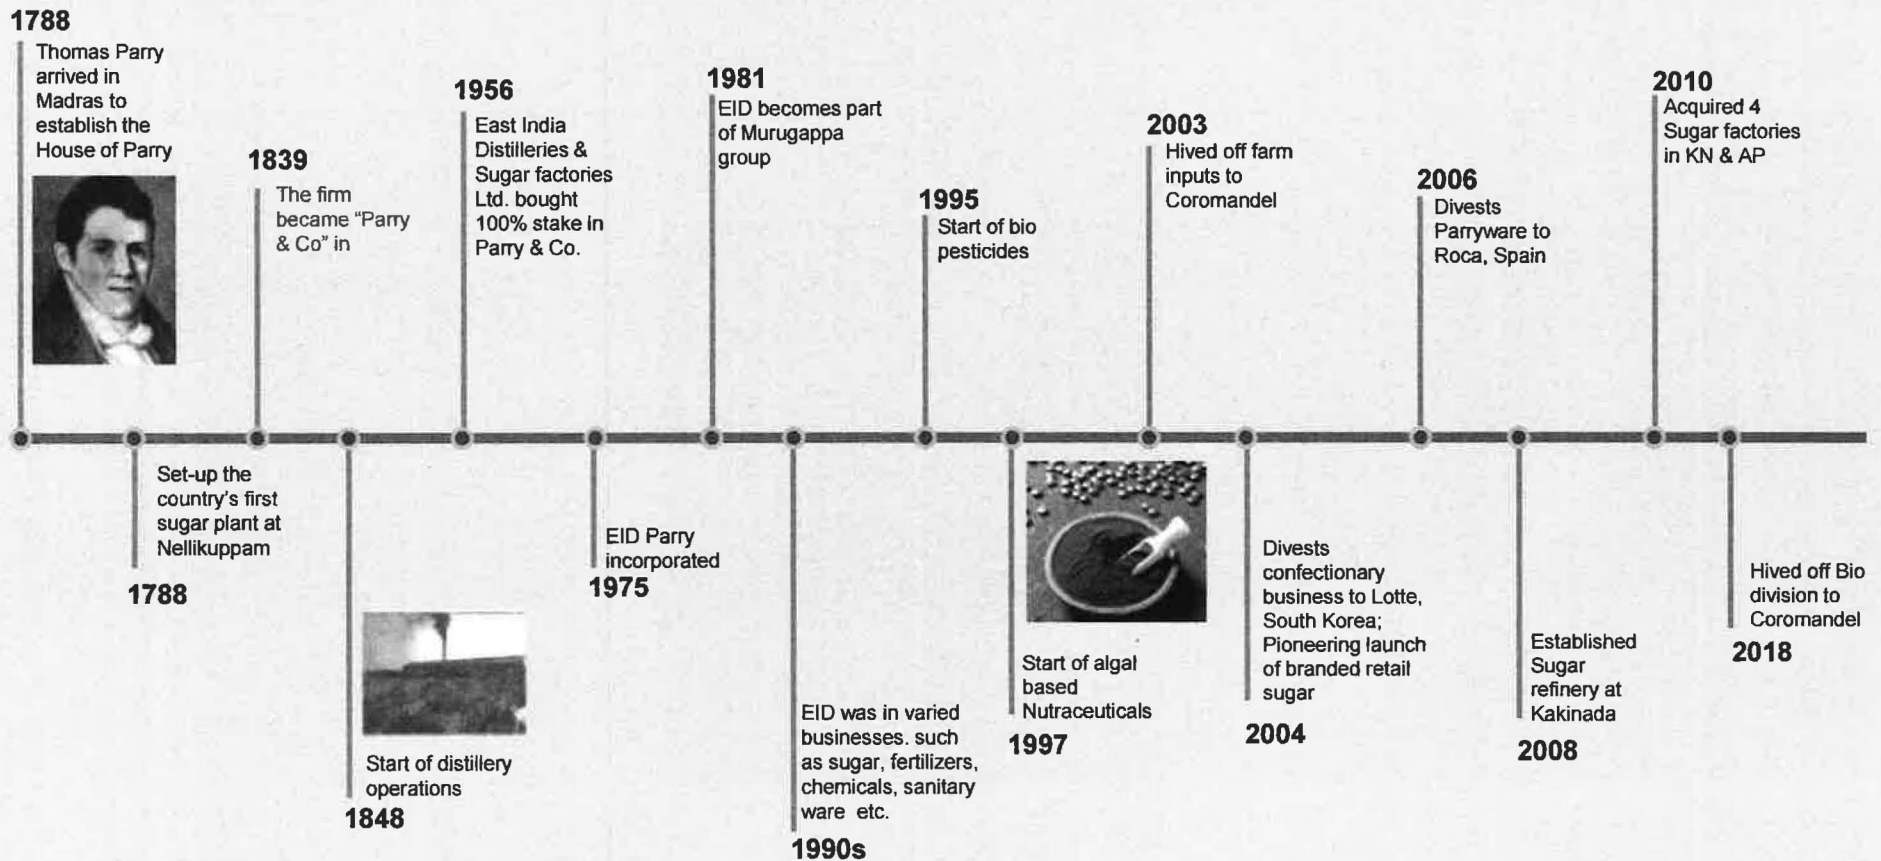

- ❖ First company in Asia to get Bonsucro International Certification for sustainable sugar production

Nutritional Health Supplements

- ❖ **Market leader** in micro-algae; Leading producer of Organic Spirulina
- ❖ Developer & provider of high quality nature-sourced ingredients for human health
- ❖ Partnership with **Synthite Industries**

A company with more than 230 years of legacy

2

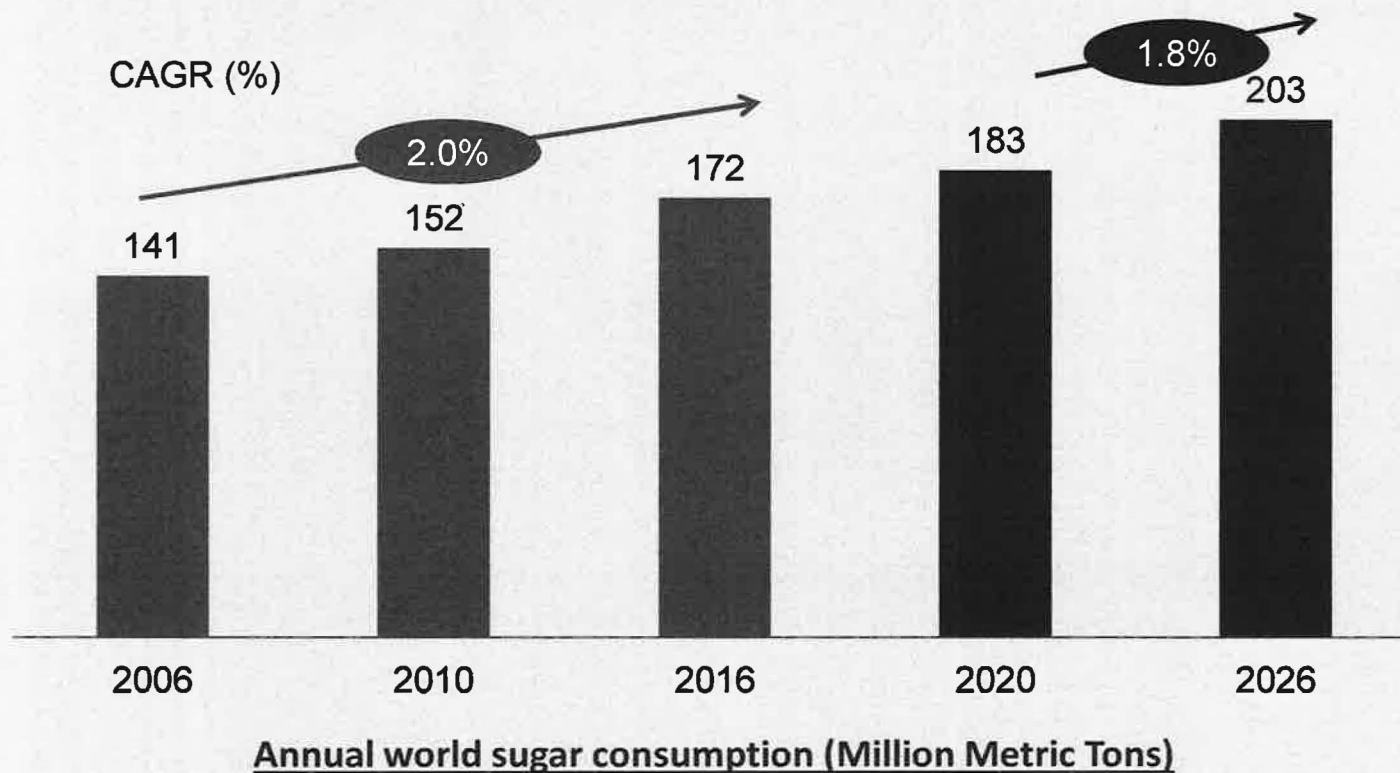

Global Sugar Scenario

Opportunities with riders

Growth coupled with shifting regulatory scenarios

Global sugar consumption expected to moderate

❖ Global Sugar Market is expected to grow at a CAGR of 1.8% until 2026

❖ Africa, China, India, Asia – Contribution to grow from 56% to 61%

Source: FAO, Copersucar analysis

Large global deficit estimated for SY 2019-20

Global production surplus/deficit and raw sugar price average (Oct/Sep basis)

Deficit yet to be fully priced

❖ Lower production in Brazil, India and Thailand

Source: S&P Global Platt Analytics

3

Indian Sugar Scenario

Steadying the giant

Managing business cyclicality in a highly-regulated eco-system

India – World's largest sugar producer & consumer

Industry Size

₹ 105,000 Cr
(US\$ 15 Bn)

Operating Mills

525 Private(50%)
Co-op(44%)
Others (6%)

Farmers

50 Million
5 million workers

Production

80% UP
Maharashtra
Karnataka

Planted area

5 Million Hectares
415 MMT
of sugarcane

Consumption

26 MMT
Per Capita 19kg

Increasing sugarcane & sugar production in India

Cane Area & Yield / Hectare

Sugar production (MMT)

Sugarcane production (MMT)

Key Takeaways

- ❖ Increasing cane area - sugarcane the most attractive crop for the farmer
- ❖ Yields have also increased – adoption of high yielding cane varieties
- ❖ Significant growth in sugar production – increasing recovery

Source: ISMA

Sugarcane price significantly higher than competitive crops

Estimated profitability per acre by crop (average land holding by farmer is ~ 1 acre)

Source: CACP, Ministry of Agriculture, Agmarknet, CEIC, CMIE, Axis Capital estimates

Varietal adoption has resulted in increase in recovery %

Sugar Year	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19
All India	10.2	10.2	10.3	10.0	10.2	10.4	10.6	10.4	10.7	10.9
Uttar Pradesh	9.1	9.1	9.1	9.2	9.3	9.5	10.6	10.6	10.8	11.5
Maharashtra	11.5	11.3	11.7	11.4	11.4	11.3	11.3	11.3	11.2	11.3
Karnataka	10.7	10.9	11.1	10.4	11.0	11.1	10.7	10.2	10.6	10.6

Source: ISMA

State-wise recovery %

Key Takeaways

- ❖ All India recovery % has increased by 65 basis points
- ❖ Significant improvement in recovery % in Uttar Pradesh due to CO 238

Production outstrips consumption

❖ Huge stock levels cap the domestic sugar prices

India Sugar Balance (Million Metric Tons)

Sugar Year	2018-19	2019-20E
Opening stock	10.4	14.3
Production	33.7	26.0
Consumption		
Domestic	26.0	26.0
Exports	3.8	6.0
Closing stock (including buffer stock)	14.3	8.3

❖ Huge stock levels – 4 months sales - cap the domestic sugar prices

Cane cost as a % of sugar realization has increased

Key Takeaways

- ❖ Selling price of sugar regulated by the Government based on market factors
- ❖ Payment for sugarcane based on **Fair & Remunerative Price @ 9.5% / 10% recovery** (not linked to selling price of sugar)
- ❖ **Cane cost as a % of sugar price** has increased from **44% to 86%** over the last decade

Business Cyclicalities & Industry Challenges

Induced Cyclicalities

Industry Challenges

- ❖ Narrowing Spreads (Sugar price – Cane price)
- ❖ Cane, Sugar, Power and Ethanol prices controlled by GOI
- ❖ Stock surplus and depressed prices
- ❖ Seasonal run of plants – Average Operating days reducing from 180 to 120
- ❖ Huge stress on water availability
- ❖ Decline of farming generation

Government Reforms in Sugar Sector

Short Term

- ❖ Zero export duty - Mills incentivized to export a proportion of their production
- ❖ Minimum Selling Price for sugar
- ❖ Maintenance of buffer stock to limit quantum available for sales
- ❖ Restriction on monthly sale of sugar by mills through Release Order mechanism

Long Term – 10% Ethanol Blending Program

- ❖ Opportunity for sugar mills to expand into distilleries with investment subsidies
- ❖ Procurement price fixed for ethanol made from different molasses sources
- ❖ Five year off take commitment by government
- ❖ 5 MMT of Sugar expected to be diverted, providing stability to sugar prices by managing surplus

4

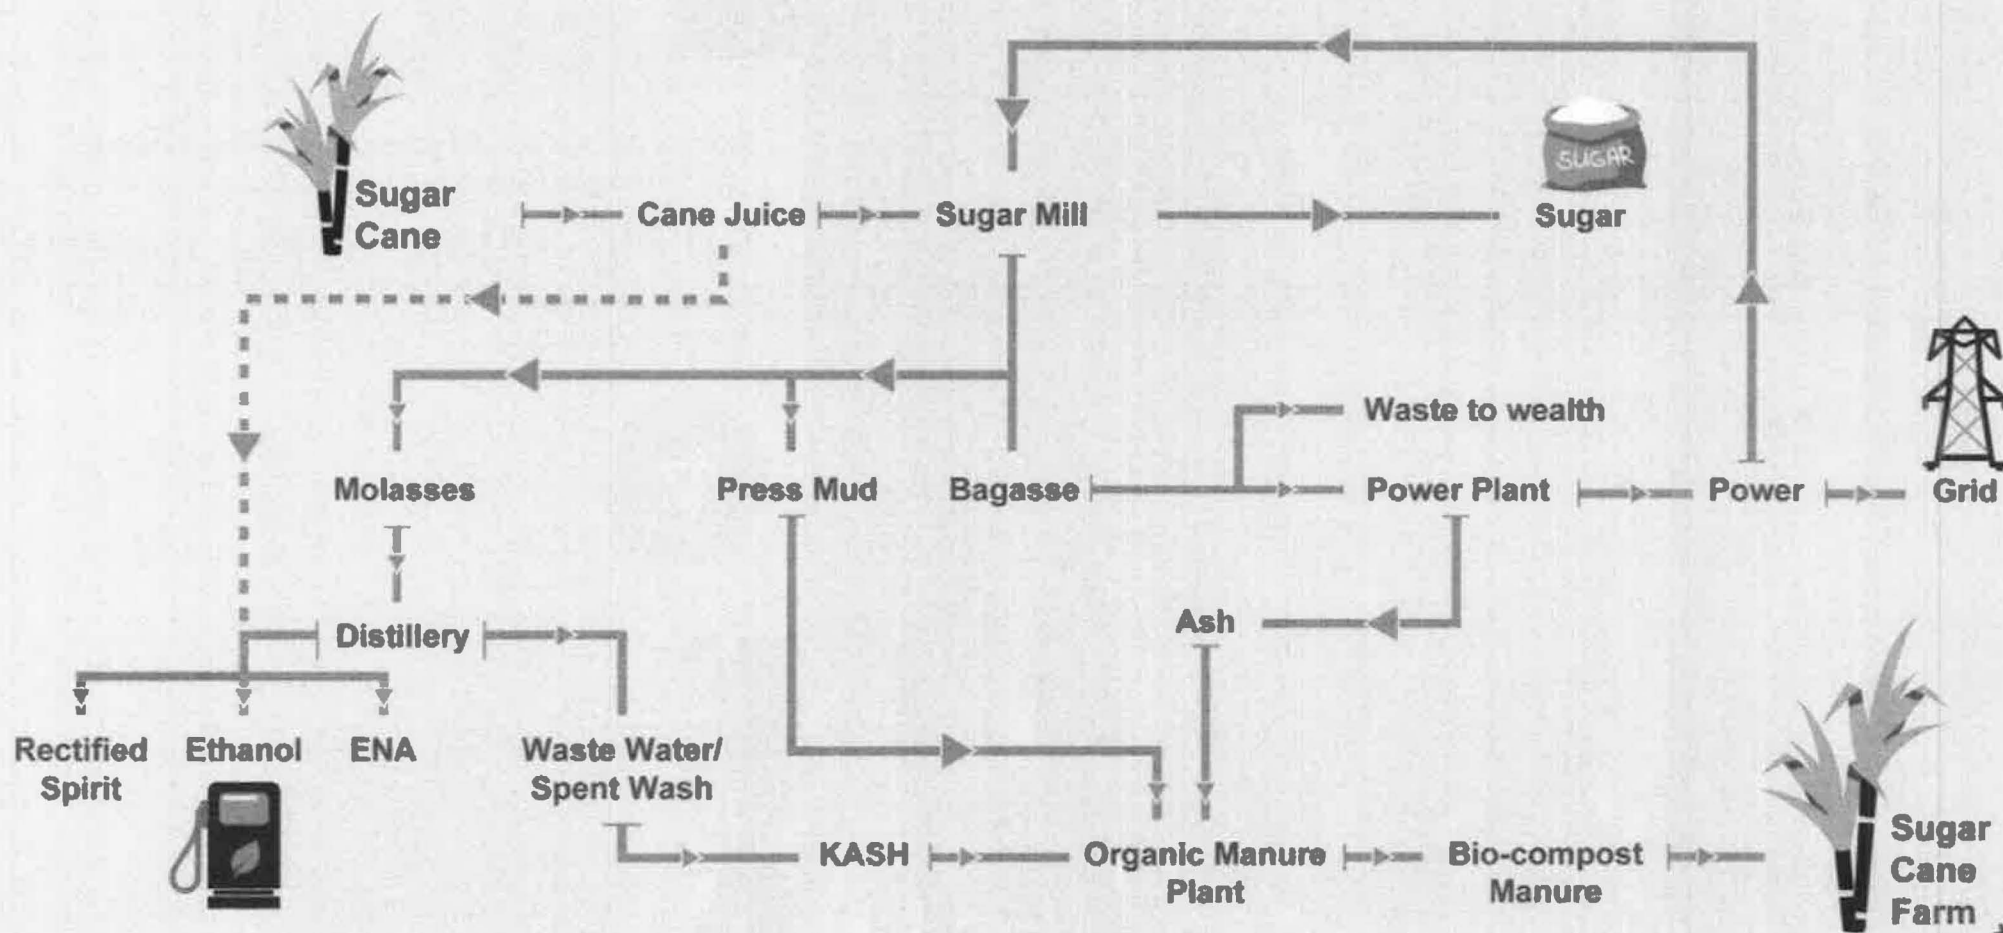

EID Sugar Business

Newer fields, better yields

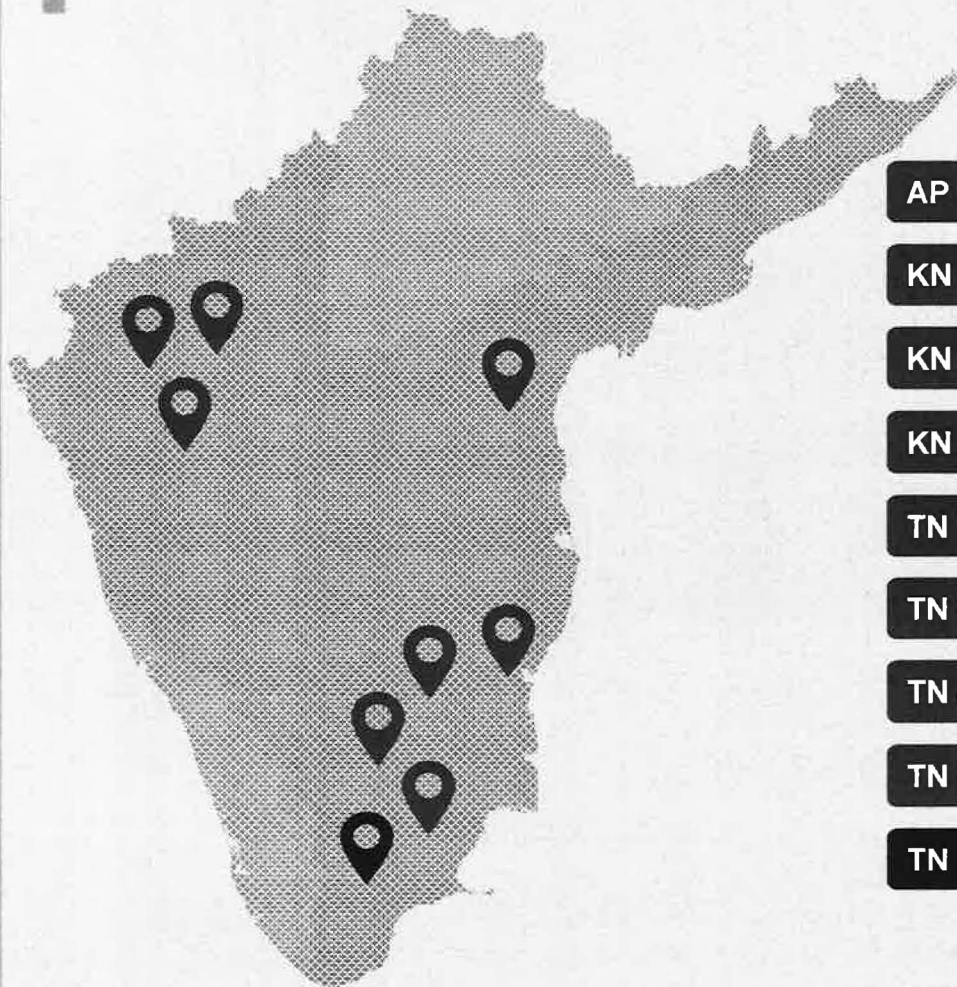

Maximizing value by better capacity utilization, de-commoditization & profitable use of by-products

Sugar Operations – “Farm” to “Farm”

An integrated sugar factory produces sugar, power for export, ethanol and organic manure

Sugar – Manufacturing capacities

	Crushing (TCD)	Co-Gen (MW)	Distillery (KLPD)
AP - Sankili	5,000	16.0	45
KN - Haliyal	7,500	31.0	50
KN - Bagalkot	6,000	15.5	-
KN - Ramdurg	5,000	13.0	-
TN - Nellikuppam	7,500	24.5	75
TN - Pugalur	4,800	22.0	-
TN - Pudukottai	4,500	18.0	-
TN - Pettavaithalai	3,500	20.0	-
TN - Sivaganga	-	-	64
	43,800	160.0	234

Operational performance - Sugar

Cane Crush & Recovery

Sugar Production & Sales

Average realization per kg (₹)

- ❖ Reduced cane availability – Drought in Tamil Nadu
- ❖ Lower recovery in Tamil Nadu
- ❖ Lower average realization per kg

Operational performance - Co-gen

Cane Crush & Power generated

Power export & Average realization per unit (₹)

- ❖ Lower sugarcane volume resulted in lower generation of power
- ❖ Tamil Nadu locations out of Power Purchase Agreement (PPA)
- ❖ IEX realization also lower than PPA

Operational performance - Distillery

Cane Crush & Alcohol produced

Alcohol sales & Average realization per liter (₹)

- ❖ Performance for FY 2018-19 impacted on account of:
 - ❖ Low molasses availability due to lower crushing
 - ❖ High cost of bought-out molasses

Financial Summary - Sugar

Revenue (₹ in Crores)

EBIT (₹ in Crores)

Capital employed (₹ in Crores)

Sugar Business – What Challenges we face?

Our Future Plans & Strategy

Increase volume of sugar

- ❖ Relocate assets to area of higher and assured cane availability and higher recovery

Maximise realization from sugar

- ❖ Increase volumes in Retail & Institutional segments
- ❖ Introduce differentiated & value added products

01

02

03

04

New Opportunities

- ❖ Ethanol – New distillery in Bagalkot (60 KLPD)
- ❖ Bagasse

Reduction in fixed cost

- ❖ Realignment of manpower

5

Sugar Refinery

Sweeter up the value chain

Adding value & volume to manage restricted spread environments, increase profitability and create premium customer segments

Refinery Business Model

Physical Flow

Raw Sugar

Refining

Refined Sugar

Break Bulk

Containers

Spread

As sugar prices are extremely volatile, we hedge purchase & sales prices on international commodity exchange

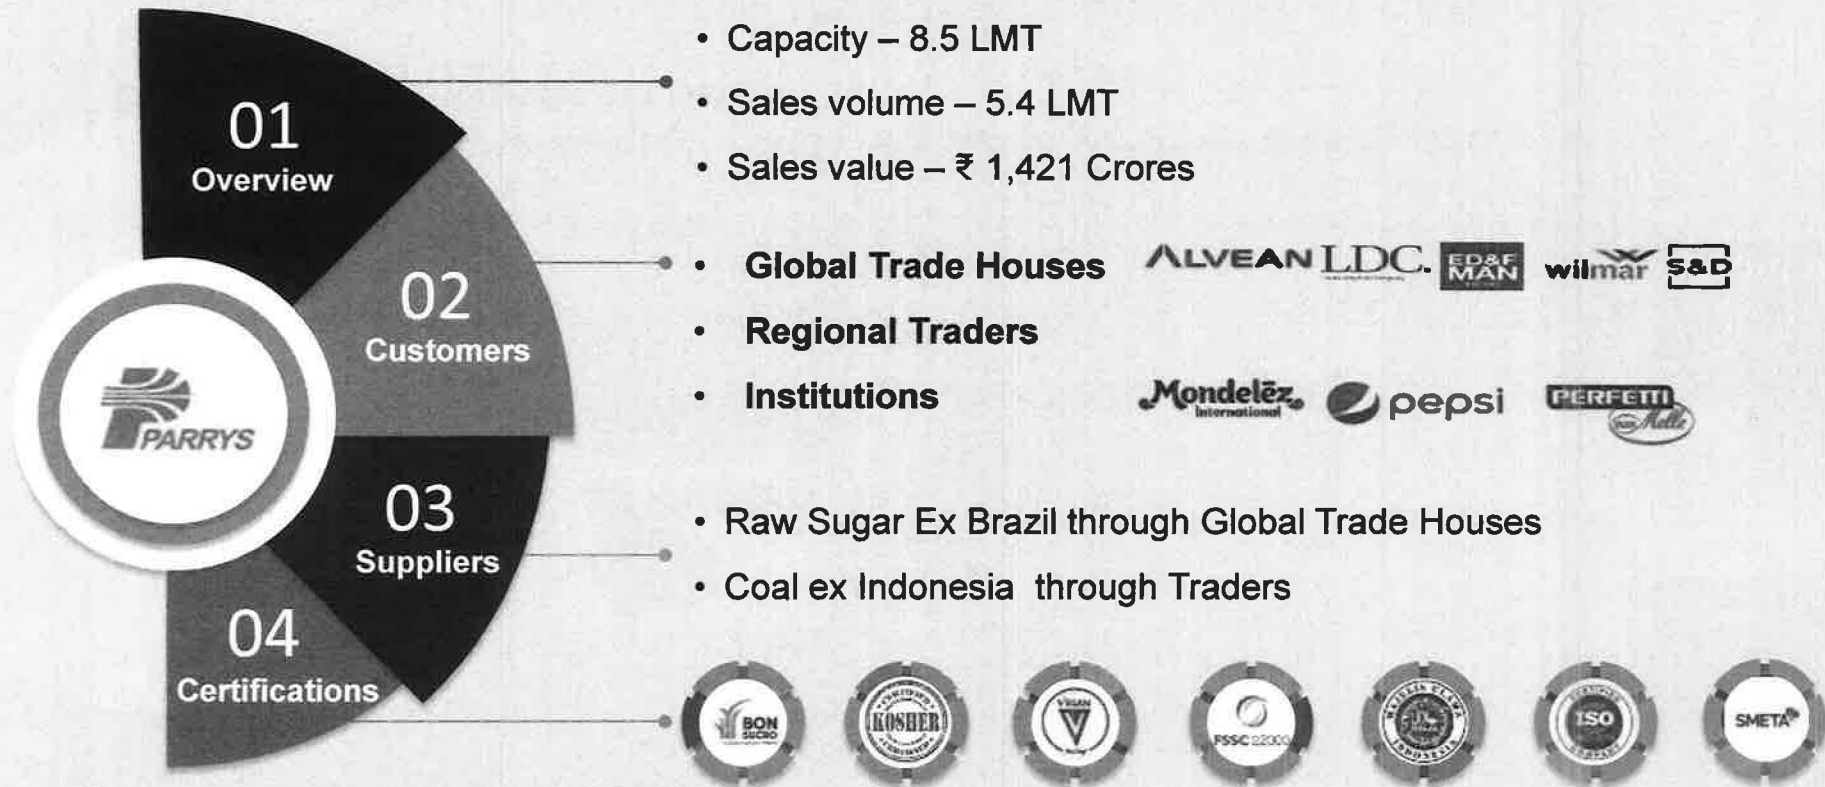

ICE – New York
(Raw Sugar)

White Premium

ICE – London
(Refined Sugar)

Spread = White Premium – Freight from Origin for Raw Sugar

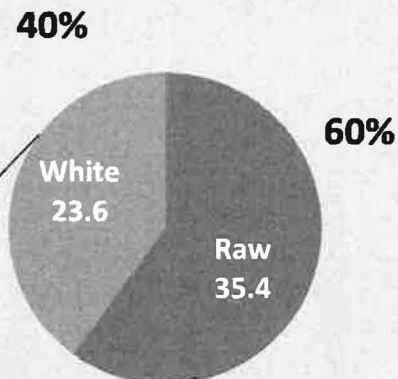

Refinery – Business Profile

Refined sugar constitutes 40% of the global traded volumes

PSRIPL operates in this business space

Global Trade

MMT

Source: Sucden Research

Source: FAO, Copersucar analysis

❖ Refined Sugar trade set to increase

White Premium Trends – EU Impact and Refinery Closures

European Exports & The White Sugar Premium

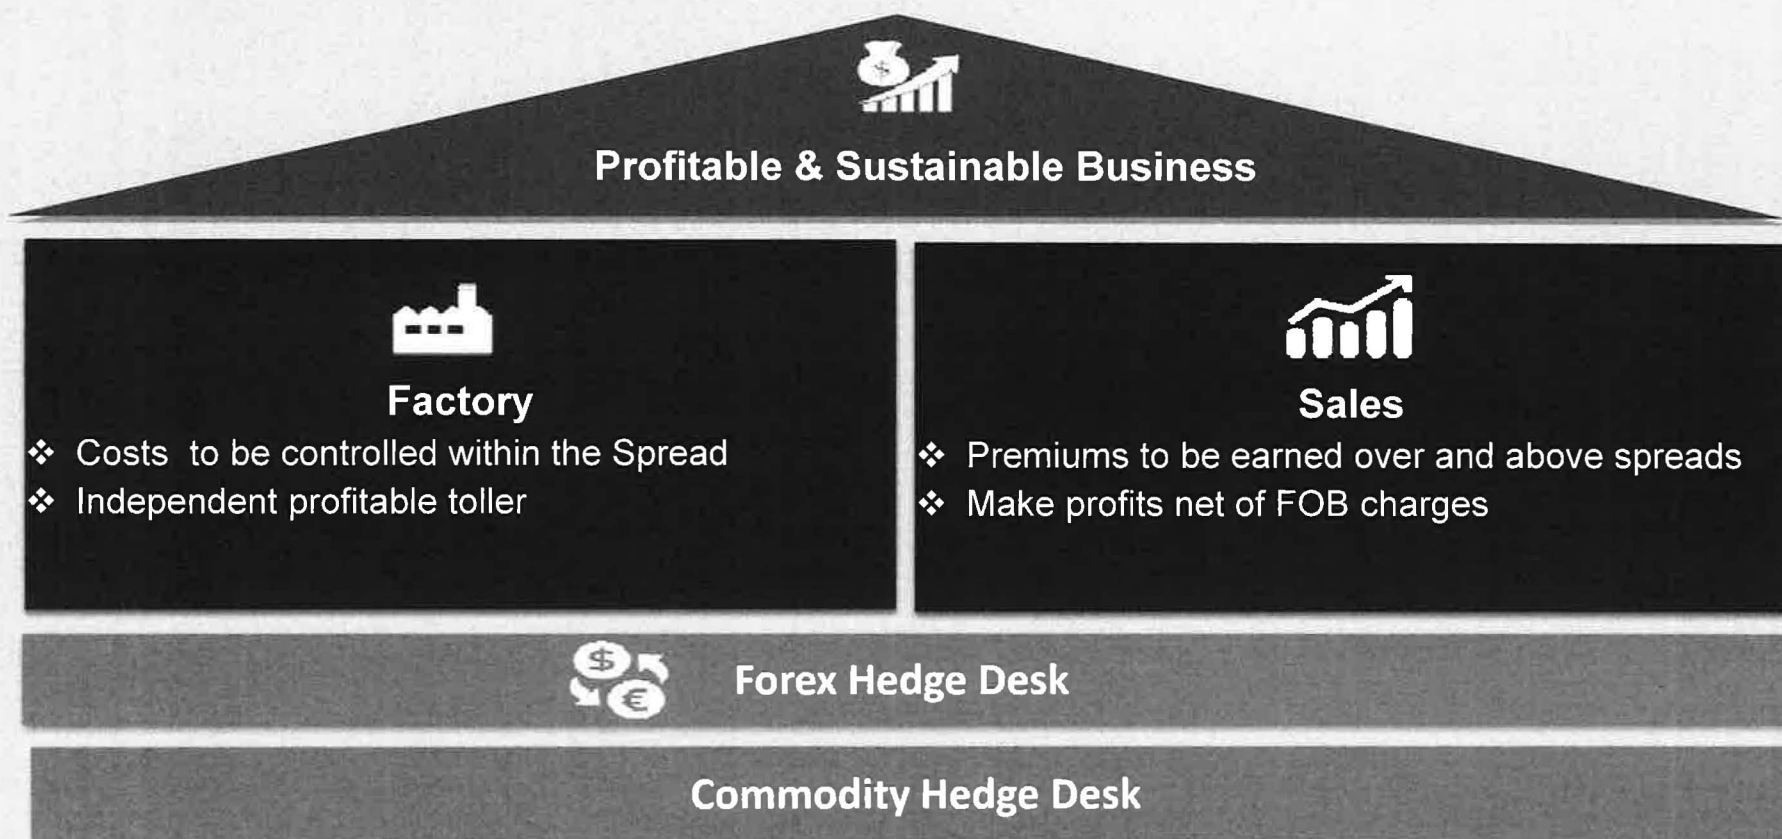

Source: ASR Group

White Premium Trends and Projections (US\$/MT)

- ❖ Due to entry of EU and lower White Premium refining capacity is getting rationalized, a trend that is expected to continue. Many refineries in Israel, Chile, Bahrain, etc. have closed while some in Dubai, Yemen, Egypt are operating at lower capacity

Our Journey so far

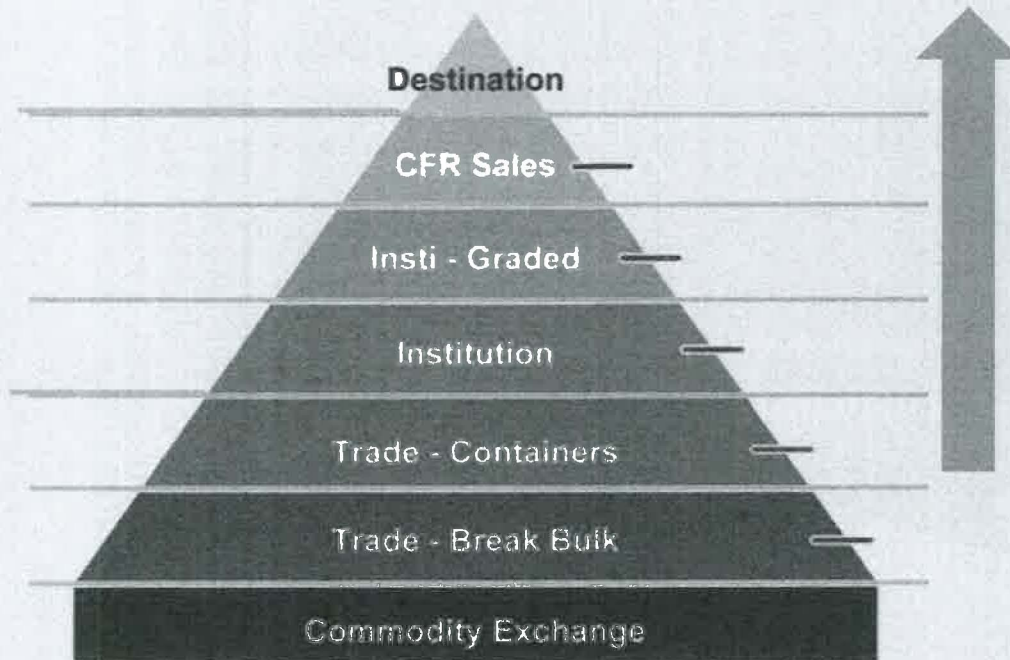

❖ As spreads have fallen, some refiners closed, our operating efficiency improvements have helped us to survive

Our Future Plans & Strategy

“Ensure year on year profitability under restricted spread environment and Repay Long Term loans out of cash generation”

Increase Sales & Move up Value chain

Cost improvements (Cost < Spread)

- 1 ❖ Debottlenecking
- 2 ❖ Yield Improvement
- 3 ❖ Handling & Logistics

6

Nutraceuticals Division

Strength & Presence To supplement growth

Expanding reach via new markets, and greater brand exposure
Consolidating leadership through flagship products

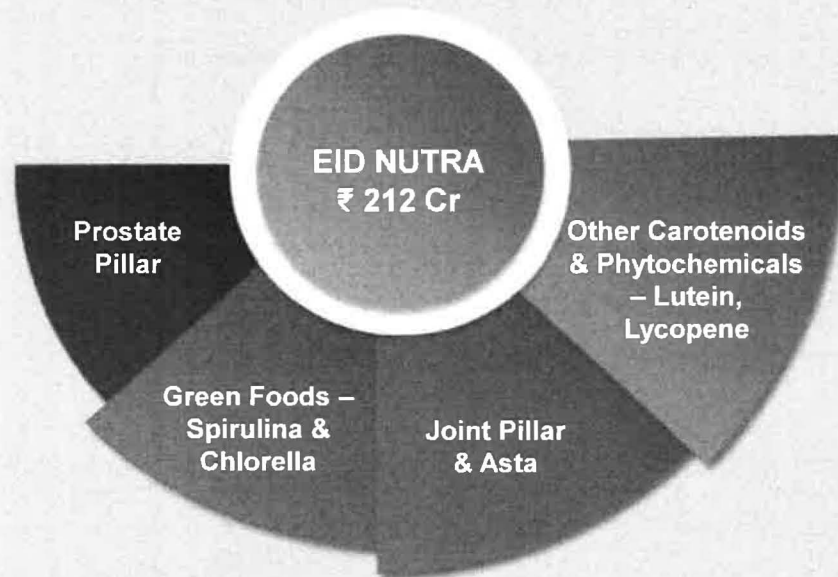

Parry Nutraceuticals

Parry Nutraceuticals will focus on the business of natural products for human wellness through Health Supplements and Functional Foods by offering high quality products backed by science, addressing the global market

Become the #1 Expert Recommended, Consumer Preferred Supplement Brand in Prostate Health

Business Overview - Nutraceuticals

Manufacturing Locations

- Green Foods - India (Oonaiyur, near Trichy)
- Lycopene – Carotenoids & Phytochemicals, Pune
- Astaxanthin - La Serena , Chile
- CO2 extraction - Florida USA

Certifications

Nutraceuticals –Today, A \$230 bn Industry

Aging population, growth of digital, self-care & health-consciousness are among the key drivers of self-care in APAC

	Key trends & drivers	Potential implications
	Aging population	<ul style="list-style-type: none"> Enhance focus on elderly-related OTC product portfolio Develop innovative methods to increase accessibility of aging population
	Growth in middle class & overall disposable income	<ul style="list-style-type: none"> Improve product quality & branding through targeting attractive consumer trends, allocating resources to high-potential segments, and developing star / "hero" products
	Rise of technology - mobile & digital and genetic	<ul style="list-style-type: none"> Leverage on digital MCM – mobile app, social media, 3rd party sites Leverage on digital pharma retail to increase reach and enable business-to-doorstep delivery Strike appropriate partnership choices to drive action e.g. GSK
	Increased accessibility to OTC	<ul style="list-style-type: none"> Optimize channel coverage with fast-growing e-commerce channels Maintain focus on brick-and-mortar (50-70% OTC sales across APAC)
	Increased self-care & medication	<ul style="list-style-type: none"> Leverage on prescription-to-OTC switch In-store promotions & engagement with pharmacists, HCPs as they remain a trusted source of info for OTC consumers
	Increased health consciousness & awareness	<ul style="list-style-type: none"> Use of substantiated claims / RWI for increasingly savvy consumers
	Increased preference for natural products	<ul style="list-style-type: none"> Focus marketing on product safety & efficacy

IQVIA

3

Industry expected to grow at a CAGR 7.8%

Source: BCC research on Nutraceutical global market , 2018

Dietary Supplements

EID addresses the Dietary Supplements segments through 3 Key Pillars

- ❖ Market is valued at **\$70 Bn** with an expected CAGR of **6.8%**
- ❖ APAC is the biggest and fastest growing region followed by US.
- ❖ While Vitamins and Minerals is the biggest sub segment, Protein and Probiotics are the fastest growing categories
- ❖ Algae based Dietary Supplements forms a 4% share of the DS market
- ❖ Saw Palmetto forms 2% of DS market

VITAMINS AND MINERALS ARE THE MOST POPULAR CATEGORY OF DIETARY SUPPLEMENTS.

Vitamins and Minerals

Specialty Supplements

Source: BCC research on nutraceutical global market , 2018 Market watch.com, TechSci research.com and Grandview research

Our Future Plans & Strategy - Nutraceuticals

Consolidate leadership position in Organic Spirulina and other algae; Increase market share

Expand in new geographies – Latin America, United Kingdom, etc.

Introduce incremental innovation through formats and combinations

Improve brand equity – on the back of customer & scientific validations

Foray into B2C segment in US Nutra and increase the size of Prostate segment

Launch color segment and target top color houses through Phycocyanin

Maximum value generation from Astaxanthin – strengthen Joint Health segment

Historical Financials

Refined & Ready

Focused on delivering stakeholder value through quality products and smart strategies to thrive in challenging & changing business environment
