Comparative remuneration profile with respect to industry, size of the company profile of the position and person (in case of expatriates the relevant details would be with respect to the country of his origin):

Taking into consideration the size of the company, profile of Mr. Rashesh Manhar Bhansali, responsibility shouldered on them and the industry standard, the remuneration paid is commensurate with the remuneration packages paid to Managerial Personnel in similar other companies. Mr. Rashesh Bhansali is responsible for the overall affairs of the Company. He has provided dedicated and meritorious services and has made significant contribution to the overall growth of the Company. The Company has achieved success in creating a brand image under his able leadership and direction. Hence, the Board of Directors considers that the remuneration proposed to them are justified commensurate with other organisations of the similar type, size and nature in the industry.

III. OTHER INFORMATION

Reasons of loss or inadequate profits:

Geo-political disruptions such as the war in Ukraine and resultant volatility in the global economy, or trade wars may adversely affect that outlook resulting in reduced spending which could restrict revenue growth opportunities. This could also result in steep inflation globally which could impact customer spending as well as increase GIL' cost of doing business, which may result the profitability of the Company may be inadequate for making payment of the remuneration (which is in consonance with the corporate practice) to Managing/Executive Director under the Companies Act, 2013 read with schedule V of the Act.

Steps taken or proposed to be taken for improvement:

The Company has taken up modernization from time to time. The company has started to sell its products through Ecommerce platform and installed a new generation machines and testing equipments for improved quality of products as per international standards and thereby expand the market base.

In FY 21-22, the Company acquired 88% of Eco-Friendly Diamonds LLP (EDL). EDL is engaged in growing and manufacturing lab-created diamonds via the 'Chemical Vapor Deposition' (CVD) method. CVD diamonds are equally appealing yet more cost-

effective compared to natural, mined diamonds, and are becoming increasingly popular in international markets, already enjoying a market share of 3.1% of overall US jewellery sales. This acquisition will further consolidate Goldiam's share of this exciting and growing opportunity. On the profitability front, lab-grown diamonds enjoy generally better margins relative to natural, mined diamonds.

Expected increase in productivity and profits in measurable terms:

The Company is very conscious about improvement in productivity and undertakes constant measures to improve it. The productivity is expected to increase by about 10-15% during the current years.

IV. DISCLOSURES

All the relevant information required to be disclosed in the Board of Directors' Report under the heading "Corporate Governance" enclosed to the Annual Report 2022-23.

The remuneration package of the managerial person is given in the resolution.

The above explanatory statement (together with Annexure thereto) shall be construed to be memorandum setting out the terms of the appointment/re-appointment as specified under Section 190 of the Companies Act, 2013.

24. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Employees Health & Safety	Risk	Health and safety impact company's practice as a responsible organization. Effective H&S performance also assists in attracting and retaining quality talent. This can also lead to decreased Productivity.	We have effective health and safety practices deployed. Several efforts and initiatives have been put in place to ensure employee health and safety.	Negative – Any cost put towards employee health and safety will yield positive results in the long term.
2.	Labour Practices	Risk	Changing regulations around labour practices pose as a challenge.	We have put in substantial effort to ensure that we comply with all requirements of labour law and do beyond it as well.	Negative –Workplace incidents related to employee's health and safety can result in litigation and plant shutdown, impact reputation and attract fines from the regulator.
3.	Product Quality & safety	Opportunity	In the jewellery industry, a company's reputation hinges on the quality and safety of its products. To uphold their reputation, Our Company takes measures to ensure that their products meet high standards of quality and safety. This, in turn, fosters customer loyalty and helps to build a positive image.	-	Positive - By ensuring product quality and safety, Our Company can generate higher sales and revenue, decrease costs, and unlock opportunities for market expansion.
4.	Regulatory Compliance	Risk	Increases the cost of running a business.	We have defined the roles and responsibilities in all the functions and departments of the Company and they conform to meet all the regulatory compliances under applicable regulations.	Negative- Increased operational costs with increased cost of compliance.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5.	Access and Affordability	Risk	In the jewellery industry, it is crucial for companies to find a delicate equilibrium between providing affordable options and upholding the perceived value of their products and services. Additionally, they must consider the enduring consequences of their pricing strategy and refrain from engaging in a race to the bottom.	Our Company has implemented measures to minimize potential risks by expanding their reach through the online platforms, capitalizing on economies of scale, and adopting a strategic approach to material procurement to curtail costs and provide affordable options for their customers.	Negative – There is a potential risk of impacting sales as the balance between affordability and maintaining profit margins.
6.	Business Ethics	Opportunity	By prioritizing business ethics, our Company shall build trust, attract new customers, enhance its brand image, and increase its credibility with customers and stakeholders. Ethical practices shall have a positive impact on employee engagement.	-	Positive - Increased customer loyalty translates into higher sales, improved customer retention, and ultimately, better financial performance.

MANAGEMENT DISCUSSION AND ANALYSIS

This report covers the operations and financial performance of the Company for the year ended March 31, 2023. The Company has two segments viz. jewellery manufacturing and investment activity. The contribution of Jewellery manufacturing segment to the total standalone turnover of the Company was 91.66% during the FY 2022-23 and residual portion was contributed by investment activity.

Business Segment:- Gold, silver Jewellery and diamonds

INDUSTRY STRUCTURE AND DEVELOPMENTS:

The gems and jewellery industry plays a vital role in the Indian economy. It contributes about 6-7 percent of the GDP and employs over 2.5 million workers, according to FICCI. The Government of India recently declared the gems and jewellery industry as a focal point for exports. India is considered a global hub for low costs and inexpensive skilled labour.

India's economy has displayed remarkable resilience amidst global challenges, positioning itself as the frontrunner in growth among major economies. The latest economic survey anticipates a substantial GDP growth rate of 6.5% in FY24, further consolidating India's impressive growth trajectory.

India is one of the fastest growing major economies and is expected to be one of the top three economic powers in the world over the next 10 to 15 years, backed by its robust democracy and strong partnerships. Estimates suggest that the Indian economy has rebounded sharply following the contraction in 2020 & 2021.

India is one of the largest exporters of gems and jewellery and it contributes a major chunk to the total foreign reserves of the country and also one of the fastest growing industries in the country. It is extremely export oriented and labour intensive.

The overall gross exports of gem & jewellery from April 2022- March 2023 stood at US\$ 3808.45 billion, showing a decline of 2.94% in dollar terms as compared to US\$ 3923.77 billion in FY 2021-22.

OPPORTUNITIES:

Based on its potential for growth and value addition, the Government declared gems and jewellery sector as a focus area for export promotion. The Government has undertaken various measures recently to promote investment and upgrade technology and skills to promote 'Brand India' in the international market.

The Government has permitted 100% FDI in the sector under the automatic route, wherein the foreign investor or the Indian company do not require any prior approval from the Reserve Bank or Government of India.

The Government has reduced custom duty on cut and polished diamond and coloured gemstones from 7.5% to 5% and NIL, that will help the gems and jewellery exports market in India become globally competitive. The Bureau of Indian Standards (BIS) has revised the standard on gold hallmarking in India from January 2018 to include a BIS mark, purity in carat and fitness, as well as the unit's identification and the jeweller's identification mark on gold jewellery. The move is aimed at ensuring stringent quality check on gold jewellery. The Government has made hallmarking mandatory for gold jewellery and artefacts and a period of one year is provided for its implementation.

In the jewellery industry, a company's brand reputation hinges on the quality and safety of its products. To uphold their brand reputation, Our Company takes measures to ensure that their products meet high standards of quality and safety. This, in turn, fosters customer loyalty and helps to build a positive image.

THREATS:

The growth trend of the diamond industry continued fueled by strong demand for rough diamonds amid continuing geopolitical tensions and sanctions imposed on Russia, steady recovery in key export destinations such as USA, Europe, Israel, among others, resilient consumer & business sentiment, easing of almost all covid-19 restrictions pertaining to manufacturing in the domestic market. However, the diamond outlook for the 2024 remains uncertain with concerns rose about Russian sanctions, inflation and supply chain issues.

The Company is exposed to risk in exchange rate fluctuations as the Company is dependent on exports sales. However, the Company closely monitors and takes appropriate steps to reduce such risks.

Competition which has always been a challenge is countered by better quality and designs, branding, catering to changing customer demands/styles and cost control measures. Increasing prices of raw materials have affected and can affect the profit margins. However, the Company continuously thrives for improved production efficiency to counter this risk as far as possible.

RISKS AND CONCERNS:

Risk management is integral to your Company's strategy and to the achievement of Goldiam's long-term goals. The nature of the Company's business exposes it to several inherent risks and concerns. The Company strives to closely monitor the risks and to mitigate them by adopting suitable, pragmatic strategies.

a) Bullion Risk:

The volatility in the gold prices exposes the Company to bullion risk as gold forms approximately 30% to 50% of the cost of the finished product.

b) Raw Material Supplies Risk:

Though India plays a dominant role in the Gems & Jewellery industry in terms of processing and consumption, mining of gold and diamond is amongst the lowest in the world.

India imports gold and rough diamonds along with other precious metals.

c) Labour's availability Risk:

Gems and jewels industry is a highly labour-bounded and export-oriented sector. The labourers shifted back to their native places due to Covid-19 and lockdown, which is resulted non-availability of Labour's

c) Currency Risk:

Currency risk arises from exposure to foreign currencies and the volatility associated therewith. 100% of our exports have been transacted in US Dollars. While the Company hedges majority of its receivables, any sharp fluctuation in currency is likely to affect the cash flow of the Company as well as its profitability.

d) Geography Risk:

Dependence on any geographic location makes the Company's business in that region vulnerable to the economic slowdown therein. While USA continues to be our prime export destination.

OUTLOOK:

The financial year 2022-23 continued to be a volatile one like the previous year characterised by disruptions in diamond supply due to the international geopolitical situation, consequent diamond price volatility and the sudden spikes in gold prices on account of international macro-economic environment.

The ongoing Russia-Ukraine conflict is expected to have an adverse impact on the diamond industry by disrupting the supply of rough diamonds used for manufacturing finished products. The rising inflation declined consumer income that could subdue the growth of the sector. Furthermore, thriving ecommerce activities and increased web penetration in remote areas have created a huge growth potential for untapped markets and positive announcements in the Union Budget 2022-23 for the G&J sector.

INTERNAL CONTROL AND ITS ADEQUACY:

The Company has proper and adequate systems of internal controls in order to ensure that all assets are safeguarded against loss from unauthorised use or disposition and that all transactions are authorised, recorded and reported correctly. Regular internal audits and checks are carried out to ensure that the responsibilities are executed effectively and that adequate systems are in place. The Management continuously reviews the internal control systems and procedures to ensure orderly and efficient conduct of business. The emphasis of internal control will be further strengthened across functions and processes, covering the entire gamut of activities including manufacturing, finance, supply chain sales & distribution, marketing etc. The Company has adopted Risk Management Policy.

FINANCIAL PERFORMANCE:

To the Members of **GOLDIAM INTERNATIONAL LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of GOLDIAM INTERNATIONAL LIMITED ("the Company") which comprises the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss, (including Other Comprehensive Income), statement of changes in Equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS standalone financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind AS) specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2023, and its profits including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit matter

We have determined that there are no key audit matters to communicate in our report.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Report on Corporate Governance, Business

Responsibility Report and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements, and our auditor's report thereon.

- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("The Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (including Other Comprehensive Income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India,

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (ii) Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management.
- (iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (v) Evaluate the overall presentation, structure and content of the standalone financial statements,

including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss, (including other comprehensive income) and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- 3) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- a) The company has disclosed the impact of pending litigations as at 31st March, 2023 on its financial position in its Ind AS financial position in its standalone financial statements – refer note 43 to the Ind AS financial statements.
- b) The Company did not have any long-term contracts including derivative contracts as at 31st March, 2023.
- c) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection fund by the company during the year ended 31st March, 2023.
- d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either

from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries;
- (ii) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
- (iii) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material misstatement.
- e) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.
- f) As proviso to rule 3(1) of the Companies (Accounts) Rule, 2014 is applicable for the Company only with effect from 1st April, 2023, reporting under this clause is not applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of GOLDIAM INTERNATIONAL LIMITED ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating

effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering

the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of Significant Accounting Policies and Other Explanatory Information for the year ended March 31, 2023

Company Information

Goldiam International Limited (the Company) is a public limited company domiciled in India with its registered office located at Gems & Jewellery Complex, M.I.D.C., SEEPZ, Andheri (East) Mumbai - 400 096. The Company is listed on the Bombay Stock Exchange (BSE) and The National Stock Exchange (NSE). The Company is engaged in manufacturing and export of Diamond studded Gold & Silver Jewellery.

Basis of Preparation

I) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria asset out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Further, in accordance with the notification issued by the Ministry of Corporate Affairs under the Companies Act, 2013 (18 of 2013), dated 24th, March 2021, the Company has adopted the amendments in Schedule III to the said Act, while preparing financial statements namely Balance Sheet, Statement of Profit and Loss, Statement of Change in Equity, Cash flow statement and Notes to the Stand alone financial statements with effect from April 01, 2021.

Financial statements are presented in ₹. which is the functional currency of the Company and all values are rounded to the nearest Lakhs, except when otherwise indicated, further the transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "0" in the relevant notes in these financial statements.

The financial statements of the Company for the year ended March, 31 2023 were approved for issue in accordance with the resolution of the Board of Directors on **May, 20 2023**.

All assets and liabilities, for which fair value is measured or disclosed in the financial statements, are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- i. Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- ii. Level 2 – inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- iii. Level 3 – inputs that are unobservable for the asset or liability.

II) Current versus non current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is :

- * Expected to be realised or intended to sold or consumed in normal operating cycle.
- * Held primarily for the purpose of trading
- * Expected to be realised within twelve months after the reporting period, or
- * Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- * It is expected to be settled in normal operating cycle
- * It is held primarily for the purpose of trading
- * It is due to be settled within twelve months after the reporting period, or
- * There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect their reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- (a) Measurement of defined benefit obligations - Note 26
- (b) Measurement and likelihood of occurrence of provisions and contingencies - Note 43
- (c) Recognition of deferred tax liability - Note 16

SIGNIFICANT ACCOUNTING POLICIES

a) Property, Plant and Equipment:

property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful lives) :

Depreciation on property, plant and equipment is provided on written-down value, computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

Description of Asset	Estimated useful life (in years)
Buildings	30
Plant and equipment	15
Office equipment	5
Computers	3
Computers Servers	5
Furniture and fixtures	10
Vehicles	8

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 – Property, Plant and Equipment.

After initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

b) Intangible Assets :

computer software acquired are measured on initial recognition at cost. Cost comprises the purchase price (net of tax/duty credits availed wherever applicable) and any directly attributable cost of bringing the assets to its working condition for its intended use.

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

After initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an item of intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of such item of intangible asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Amortisation of Intangible Assets :

Description of Asset	Estimated useful life (in years)	Amortisation Method
Computer software	5	Amortised on a straight-line basis over the useful life

c) Investment Properties :

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including related transaction costs, and impairment if any.

d) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

The impairment losses and reversals are recognised in statement of profit and loss.

e) Investments in Subsidiaries, Associates and Joint Ventures:

Investments in subsidiaries, associates and joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

f) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

Subsequent measurement

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through other comprehensive Income (FVOCI), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at :

- amortised cost.
- fair value through profit and loss (FVTPL).
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Mutual Funds, Equity investment, bonds and other financial instruments :

Mutual Funds, Equity Investment, bonds and other financial instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the Company's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

i) Measured at amortised cost

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost.

ii) Measured at fair value through other comprehensive income (FVOCI):

Mutual Funds, Equity investment, bonds and other financial instruments in the scope of Ind As 109 are measured at fair value through profit and loss account(FVOCI).

iii) Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de- recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

g) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

Trade receivables

The Company applies approach permitted by Ind AS 109, financial instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided

h) Inventories

Raw Material: Lower of cost or net realisable value. Cost is determined on first in first out ('FIFO') basis.

Work in progress, manufactured finished goods and traded goods are valued at lower of cost and net realisable value. Cost of work in progress and manufactured finished goods comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Trading goods are valued at Cost or net realisable value, whichever is lower.

Finished goods: Lower of cost or net realisable value. Cost is determined on FIFO basis, includes direct material and labour expenses and appropriate proportion of manufacturing overheads based on the normal capacity for manufactured goods.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

Inventories of cut and polished diamonds are valued at cost or net realisable value whichever is lower based on the valuation report obtained from Government approved Valuer.

i) Foreign Currency Translation

Initial recognition

The Company's financial statements are presented in Rupees, which is also the Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

j) Income taxes :

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income ('OCI') or directly in equity.

Current income tax relating to items recognised outside the statement of profit and loss is recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Current income tax is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income-tax is calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax assets or liability arising during tax holiday period is not recognised to the extent it reverses out within the tax holiday period. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

k) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits with banks/corporations and short-term highly liquid investments that are readily convertible into known amount of cash and subject to an insignificant risk of change in value.

l) Post-employment, long term and short term employee benefits

Defined contribution plans

Provident fund benefit is a defined contribution plan under which the Company pays fixed contributions into funds established under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. The Company has no legal or constructive obligations to pay further contributions after payment of the fixed contribution.

Defined benefit plans

Gratuity is a post-employment benefit defined under The Payment of Gratuity Act, 1972 and is in the nature of a defined benefit plan. The liability recognised in the financial statements in respect of gratuity is the present value of the defined benefit obligation at the reporting date, together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit/obligation is calculated at or near the reporting date by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of OCI in the year in which such gains or losses are determined.

Other long-term employee benefits

Liability in respect of compensated absences is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the year in which such gains or losses are determined.

Other Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

m) Business Combinations and Goodwill

The Company uses the acquisition method of accounting to account for business combinations. The Company measures goodwill as of the acquisition date at the difference of the fair value consideration transferred (including fair value of previously held interest and contingent consideration) less the net fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed. When such difference results into deficit, the excess is recognised in equity as capital reserve.

Business combination involving entities or businesses under common control is accounted for using the pooling of interest method. Under pooling of interest method, the assets and liabilities of combining entities are reflected at their carrying amount and no adjustments are made to reflect fair values.

Transaction costs that the Company incurs in connection with a business combination are expensed as incurred.

n) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or as incurred.

o) Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

p) Fair value measurement

The Company measures financial instruments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

q) Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized. However, when inflow of economic benefit is probable, related asset is disclosed.

r) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

s) Significant management judgment in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

Significant management judgments and estimates

The following are significant management judgments and estimates in applying the accounting policies of the Company that have the most significant effect on the financial statements.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence.

t) Revenue recognition

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Revenue is recognized on satisfaction of performance obligation upon transfer of control of products to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products.

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Company evaluates the arrangement with customers, considering underlying substance and terms and conditions of the arrangements. Revenue is accounted either on gross or net basis based on the expected discounts to be offered to customers.

Interest Income

Interest income is recognised on an accrual basis using the effective interest method.

Dividend

Dividends are recognised at the time the right to receive the payment is established.

u) Accounting policy for Lease :

Company as a lessee :

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the rightof- use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of rightof- use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the Statement of Profit and Loss.

Leases where the lessor effectively retains substantially all the rights and benefits of ownership of the leased assets are classified as operating leases. At the date of commencement of lease the Company recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lease except for leases with a term of twelve months or less and low value leases. For these short term and low value leases the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right to use assets are initially recognized at cost which comprises initial amount of the lease liability adjusted for any lease payment made at or prior to the date of the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-to- use assets are depreciated from the commencement date on straight line basis over lesser of the lease period or the useful life of the asset.

Lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable using the incremental borrowing rate for the Company.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the leases if that rate can be readily determined.

Company as a lessor:

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

v) Operating Segment

The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. The Company has identified the below operating segments:

- a) Jewellery Manufacturing Activity.
- b) Investment Activity.

NOTE 36 - FINANCIAL INSTRUMENTS:

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

II) Risk management :

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost	Aging analysis	"Bank deposits, diversification of asset base, credit limits and collateral."
Liquidity risk	Borrowings and other liabilities	"Rolling cash flow forecasts"	"Availability of committed credit lines and borrowing facilities"

Risk	Exposure arising from	Measurement	Management
“Market risk - foreign exchange”	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	“Cash flow forecasting sensitivity analysis”	Forward contracts
Market risk - interest rate	Borrowings at variable rates	Sensitivity analysis	“Mix of borrowings taken at fixed and floating rates”
Market risk - gold prices	Payables linked to gold prices	Sensitivity analysis	The gold is purchase at the prevailing price from nominated agencies.
Market risk - security price	Investments in equity, Mutual Fund, securities & bond	Sensitivity analysis	Portfolio diversification

A) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Company causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Company’s maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company’s policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. The Company has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, mutual funds, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organisations with high quality external credit ratings.

Company provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company’s policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Total	66.15	4,875.24	-	-	-	4,941.39

C) Market risk - foreign exchange

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company, as per its overall strategy, uses forward contracts to mitigate its risks associated with fluctuations in foreign currency, and such contracts are not designated as hedges under Ind AS 109. The Company does not use forward contracts and swaps for speculative purposes.

Sensitivity

The sensitivity to profit or loss from changes in the exchange rates arises mainly from financial instruments denominated in USD. In case of a reasonably possible change in ₹/USD exchange rates of +/- 3% (previous year +/- 3%) at the reporting date, keeping all other variables constant, there would have been an impact on profits of ₹ 820.06 Lakhs (previous year ₹ 406.50 Lakhs).

Below is the summary of Expenditure In Foreign Currency:

Particular	As at March 31, 2023	As at March 31, 2022
1. Foreign Travels	7.38	13.67
2. Others	26.93	64.57

Below is the summary of Earnings In Foreign Exchange:

Particular	As at March 31, 2023	As at March 31, 2022
1. F.O.B.Value of Exports	31,574.05	33,119.96

D) Interest rate risk

i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2023, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

(Amounts are in lakhs unless stated otherwise)

Particulars	As at March 31, 2023	As at March 31, 2022
Variable rate borrowing	-	-
Fixed rate borrowing	-	-
Total Borrowings	-	-

Sensitivity

The sensitivity to profit or loss in case of a reasonably possible change in interest rates of +/- 50 basis points keeping all other variables constant, would have resulted in an impact on profits by ₹ Nil as borrowing of current year is at Fixed rate (previous year Inr NIL Lakhs).

ii) Assets

The Company's financial assets are carried at amortised cost and are at fixed rate only. They are, therefore, not subject to interest rate risk since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

E) Price risk

Exposure from investments in mutual funds:

The Company's exposure to price risk arises from investments in mutual funds held by the Company and classified in the balance sheet as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Sensitivity

The sensitivity to profit or loss in case of an increase in price of the instrument by 5% keeping all other variables constant would have resulted in an impact on profits by ₹ 3,034.48 lakhs (previous year ₹ 1,953.64 lakhs).

Exposure from trade payables:

The Company's exposure to price risk also arises from trade payables of the Company that are at unfixed prices, and, therefore, payment is sensitive to changes in gold prices.

The Company applies fair value hedge for the gold purchased whose price is to be fixed in future. Therefore, there will no impact of the fluctuation in the price of the gold on the Company's profit for the period.

NOTE 38 - CAPITAL MANAGEMENT & RATIOS

The Company's capital management objectives are:

- (i) to ensure the Company's ability to continue as a going concern
- (ii) to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in the economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

INDEPENDENT AUDITOR'S REPORT

To the Members of GOLDIAM INTERNATIONAL LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of GOLDIAM INTERNATIONAL LIMITED (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entities, which comprise the consolidated Balance Sheet as at March 31, 2023, and the consolidated statement of Profit and Loss, the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements"). In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Company as at March 31, 2023, of consolidated profit/loss, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit matter :

We have determined that there are no key audit matters to communicate in our report.

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any

form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and the consolidated cash flows of the Group including its associates and joint ventures in accordance with the Indian Accounting Standards (Ind AS) and other accounting principles generally accepted in India.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (ii) Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls
- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management
- (iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions

may cause the Group to cease to continue as a going concern.

- (v) Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, the auditor determines those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. In accordance with the requirements of SA 701, the auditor describes these matters in the auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, the auditor determines that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Other Matters

- (a) We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of ₹ 31337.60 lakh as at 31st March, 2023, total revenues of ₹ 42146.77 lakh and net cash flows amounting to ₹ 1515.05 lakh for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit/loss after tax of ₹ 339.90 lakh for the year ended 31st March,

2023, as considered in the consolidated financial statements, in respect of above mention associates, whose financial statements have not been audited by us. The said financial statement have been reviewed by other auditor whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the said subsidiary. Our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the reports of the other auditor.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

**ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S
REPORT OF EVEN DATE ON THE CONSOLIDATED
FINANCIAL STATEMENTS OF GOLDIAM
INTERNATIONAL LIMITED**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, We have audited the internal financial controls over financial reporting of Goldiam International Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI).] These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating

effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, and its associate companies which are companies incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it

relates to one subsidiary company, which is the company incorporated in India, is based solely on the corresponding reports of the auditors of such company incorporated in India.

Our opinion is not modified in respect of the above matters with respect to our reliance on the work done by and the reports of such other auditors and the financial information certified by the Management.

Basis of preparation

Compliance with Ind AS

The Consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the Consolidated financial statements. All assets and liabilities have been classified as current or non current as per the Group normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Further, in accordance with the notification issued by the Ministry of Corporate Affairs under the Companies Act, 2013 (18 of 2013), dated 24th, March 2021, the Company has adopted the amendments in Schedule III to the said Act, while preparing financial statements namely Balance Sheet, Statement of Profit and Loss, Statement of Change in Equity, Cash flow statement and Notes to the Stand alone financial statements with effect from April 01, 2021.

Subsidiaries are entities where the group exercise or controls more than one-half of its total share capital. The net assets and results of acquired businesses are included in the consolidated financial statements from their respective dates of acquisition, being the date on which the Group obtains control.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of consolidated financial statements are consistent with those of previous year. The financial statements of the Company and its subsidiaries have been combined on a line-by- line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra group balances, intra group transactions and the unrealised profits/losses, unless cost/revenue cannot be recovered.

Financial statements are presented in ₹ which is the functional currency of the Group and all values are rounded to the nearest Lakhs, except when otherwise indicated.

The Consolidated Financial statements of the Company for the year ended March 31, 2023 were approved for issue in accordance with the resolution of the Board of Directors on May 20, 2023.

The consolidated financial statements have been prepared on a going concern basis under the historical cost basis.

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These accounting policies have been consistently applied to all the years presented by the Company unless otherwise stated.

Business Combinations and Goodwill

Acquisition method

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are recognised in the Consolidated Statement of Profit and Loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- a) deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Taxes' and Ind AS 19 "Employee Benefits" respectively;
- b) liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share based payment arrangements of the acquiree are measured in accordance with Ind AS 102 "Share-based Payments" at the acquisition date; and
- c) assets (or disposal Groups) that are classified as held for sale in accordance with Ind AS 105 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that standard.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in the Consolidated Statement of Profit and Loss. Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 "Financial Instruments", is measured at fair value with changes in fair value recognised in Consolidated Statement of Profit and Loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill

Goodwill is measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation

when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

a) Subsidiaries :

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group. The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately within equity. Non-controlling interests in the net assets of consolidated subsidiaries consists of:

- (i) The amount of equity attributable to non-controlling interests at the date on which investment in a subsidiary is made; and
- (ii) The non-controlling interests share of movements in equity since the date parent subsidiary relationship came into existence. The profit and other comprehensive income attributable to non-controlling interests of subsidiaries are shown separately in the Statement of Profit and Loss and Statement of Changes in Equity.

b) Non-controlling Interests ("NCI")

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another Ind AS.

c) Joint ventures :

Investments in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

d) Equity Method :

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in statement of profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy.

e) Current versus non-current classification :

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

- i) Expected to be realised or intended to sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or

- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is classified as current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

f) Foreign Currency Transactions And Translation of Financial Statements of Foreign Subsidiaries

Initial recognition

The Group's financial statements are presented in INR, which is also the Parent Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Group's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Translation of foreign operations

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the INR are translated into INR upon consolidation. The functional currency of the entities in the Group has remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into INR at the closing rate at the reporting date. Income and expenses have been translated into INR at the average rate over the reporting period. Exchange differences are charged or credited to other comprehensive income and recognised in the currency translation reserve in equity. On disposal of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal.

g) Property, Plant & Equipment :

Recognition and initial measurement :

Recognition and initial measurement Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Depreciation on property, plant and equipment is provided on written-down value, computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

Description of Asset	Estimated useful life (in years)
Buildings	30
Plant and equipment	15
Office equipment	5
Computers	3
Computers Servers	6
Computer software	5
Furniture and fixtures	10
Vehicles	8

Leasehold improvements have been amortised over the estimated useful life of the assets or the period of lease, whichever is lower. The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Tangible Property, Plant and Equipment under construction are disclosed as Capital Work-in-progress. Item of Capital Working-progress is carried at cost using the principles of valuation of item of property, plant and equipment till it is ready for use, the manner in which intended by management.

Transition to Ind As :

On transition to Ind AS, the Group has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2015 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of property, plant and equipment.

De-recognition :

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

h) Intangible Assets :

Recognition and initial measurement :

Intangible assets includes trademarks and computer software which were purchased by the Group. All items of intangible assets are stated at their cost of acquisition. The cost comprises purchase price, and directly attributable cost of bringing the asset to its working condition for the intended use.

Subsequent measurement (depreciation and useful lives)

Amortisation on intangible assets is provided on straight line Method for computer software, trademarks computed on the basis of useful lives (as set out below) prescribed in Schedule II the Act:

Description of Asset	Estimated useful life (in years)
Computer software	5

De-recognition

An item of intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

i) Investment in Property :

Property that is held for long-term rental yields or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purpose or sale in the ordinary course of business is classified as investment property. Investment property is measured at its cost, including related transaction costs, and impairment if any. Fair value of investment property is based on a valuation by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued. The fair value of investment property is disclosed in the Note 2. Any gain or loss on disposal of an Investment Property is recognised in the Consolidate Statement of Profit and Loss.

j) Impairment of non-financial assets

At each reporting date, the Group assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset's or cash-generating unit's recoverable amount exceeds its carrying amount.

k) Financial instruments

Financial assets

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs.

Subsequent measurement

A financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through other comprehensive Income (FVOCI), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at :

- amortised cost.
- fair value through profit and loss (FVTPL).
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Mutual Funds, Equity investment, bonds and other financial instruments :

Mutual Funds, Equity Investment, bonds and other financial instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the Company's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost.

Measured at fair value through other comprehensive income (FVOCI):

Mutual Funds, Equity investment, bonds and other financial instruments in the scope of Ind As 109 are measured at fair value through profit and loss account(FVOCI).

Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value.

l) Financial instruments at amortised cost – the financial instrument is measured at the amortised cost if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. All the debt instruments of the Group are measured at amortised cost.

m) Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost.

Subsequent measurement

Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. These liabilities include borrowings.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group is required to consider –

- i) All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

The Group applies approach permitted by Ind AS 109, financial instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

n) Inventories :

- i) Raw materials are valued at cost or market value, whichever is lower on First In First Out (FIFO) basis.
- ii) Stores and Spares are valued at cost on First In First Out (FIFO) basis.
- iii) Work in progress, manufactured finished goods and traded goods are valued at the lower of cost and net realisable value. Cost of work in progress and manufactured finished goods comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Trading goods are valued at cost or net realisable value, whichever is lower.

o) Recognition Of Income And Expenditure :

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Effective 01 April 2018, the Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01st April 2018. Accordingly, the comparative amounts of revenue and the corresponding contract assets / liabilities have not been retrospectively adjusted.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of products to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products.

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Company evaluates the arrangement with customers, considering underlying substance and terms and conditions of the arrangements. Revenue is accounted either on gross or net basis based on the expected discounts to be offered to customers.

Dividend :

Revenue is recognised when the right to receive is established.

Interest :

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

p) Income taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax not recognised in Other Comprehensive Income ('OCI') or directly in equity.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income-tax Act. Current income-tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

Deferred income-tax is calculated using the liability method. Deferred tax liabilities are generally recognised in full for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss, unused tax credits or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax assets or liability arising during tax holiday period is not recognised to the extent it reverses out within the tax holiday period. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in OCI or in equity).

q) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits with banks/corporations and short term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

r) Post Employment long term and short term benefit :

i) Short-term employee benefits :

All employee benefits payable within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia.

ii) Defined Contribution Plan :

Employee benefits in the form of contribution to Provident Fund managed by Government authorities, Employees State Insurance Corporation and Labour Welfare Fund are considered as defined contribution plan and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are due.

iii) Defined Benefit Plan :

Retirement benefit in the form of Gratuity benefit is considered as defined benefit obligation and is provided for on the basis of an actuarial valuation.

iv) Gratuity :

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. Vesting occurs upon completion of given years of service. The company makes contribution to employees group gratuity fund established by Life Insurance Corporation of India. Actuarial gains and losses arising from changes in actuarial assumptions are recognised in the Profit and Loss account in the period in which they arise.

s) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or as incurred.

t) Borrowing costs

Borrowing costs directly attributable to the acquisitions, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

u) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Provisions, contingent assets and contingent liabilities

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- i) Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- ii) Present obligations arising from past events where it is not probable that an outflow of resources will be

required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized. However, when inflow of economic benefit is probable, related asset is disclosed.

v) Earnings per share :

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

w) Non-current assets or disposal group held for sale :

Non-current assets, or disposal groups comprising assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use. Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and losses on remeasurement are recognised in Consolidate Statement of Profit and Loss. Once assets classified as held-for-sale, then Property, Plant and Equipment, Investment Property and Other Intangible Assets are no longer required to be depreciated or amortised.

x) Accounting policy for Lease :

Group as a lessee :

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the rightof- use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of rightof- use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the Statement of Profit and Loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the leases if that rate can be readily determined.

Group as a lessor:

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

y) Segment Reporting :

Operating Segment :

The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. The group has identified the below operating segments:

- a) Jewellery Manufacturing Activity.
- b) Investment Activity.

Note 31 - Financial Instruments

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observe ability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets and liabilities measured at fair value - recurring fair value measurements

The carrying value of borrowings, trade payables and other financial liabilities recorded at amortised cost is considered to be a reasonable approximation of fair value.

II) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, derivative financial instruments, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting sensitivity analysis	Forward contracts
Market risk - interest rate	Borrowings at variable rates	Sensitivity analysis	Mix of borrowings taken at fixed and floating rates
Market risk - gold prices	Payables linked to gold prices	Sensitivity analysis	Used as a hedging instrument for gold inventory
Market risk - security price	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The Company's risk management is carried out by a central treasury department of the Company under policies approved by the Board of Directors. The Board of Directors provide written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, market risk, credit risk and investment of excess liquidity.

A) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Company causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any company of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various geographical areas. The Company has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, mutual funds, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organisations with high quality external credit ratings.

Company provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

Detail of trade receivables that are past due is given below:

(Amounts are in lakhs unless stated otherwise)

Particulars	As at March 31, 2023	As at March 31, 2022
Not due	13,591.55	14,847.78

61-90 days past due	89.67	717.78
More than	2.82	2.82
Total	14,732.05	17,872.61

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at March 31, 2023	As at March 31, 2022
Expiring within one year (bank overdraft and other facilities)	-	265.27
Total	-	265.27

Contractual maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of discounting is not significant.

As at March 31, 2023	Payable on demand	Less than 1 year	Less than 1-2 year	Less than 2-3 year	More than 3 year	Total
Non-derivatives

Total	66.15	9,067.27	-	-	-	9,133.42

C) Market risk - foreign exchange

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to US Dollar. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company, as per its overall strategy, uses forward contracts to mitigate its risks associated with fluctuations in foreign currency, and such contracts are not designated as hedges under Ind AS 109. The Company does not use forward contracts and swaps for speculative purposes.

Sensitivity

The sensitivity to profit or loss from changes in the exchange rates arises mainly from financial instruments denominated in USD. In case of a reasonably possible change in INR/USD exchange rates of +/- 5% (previous year +/-3%) at the reporting date, keeping all other variables constant, there would have been an impact on profits of (+) ₹ 883.92 lakhs (previous year ₹ 1072.36 lakhs).

D) Interest rate risk

i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At March 31, 2023, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

Particulars	(Amounts are in lacs unless stated otherwise)	
	As at March 31, 2023	As at March 31, 2022
Variable rate borrowing	-	-
Fixed rate borrowing	-	265.27
Total Borrowings	-	265.27

Sensitivity

The sensitivity to profit or loss in case of a reasonably possible change in interest rates of +/- 50 basis points (previous year: +/- 50 basis points), keeping all other variables constant, would have resulted in an impact on profits by ₹ Nil (previous year ₹ 2.66 lakhs).

ii) Assets

The Company's financial assets are carried at amortised cost and are at fixed rate only. They are, therefore, not subject to interest rate risk since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

E) Price risk

Exposure from investments in mutual funds:

The Group exposure to price risk arises from investments in mutual funds held by the Company and classified in the balance sheet as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Exposure from investments in mutual funds:

The Group exposure to price risk arises from investments in mutual funds held by the Company and classified in the balance sheet as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

Sensitivity

The sensitivity to profit or loss in case of an increase in price of the instrument by 2% keeping all other variables constant would have resulted in an impact on profits by ₹ 603.28 lakhs (previous year ₹ 560.36 lakhs).

Exposure from trade payables:

The Group exposure to price risk also arises from trade payables of the Company that are at unfixed prices, and, therefore, payment is sensitive to changes in gold prices. The option to fix gold prices are classified in the balance sheet as fair value through profit or loss. The option to fix gold prices are at unfixed prices to hedge against potential losses in value of inventory of gold held by the Company.

The Group applies fair value hedge for the gold purchased whose price is to be fixed in future. Therefore, there will no impact of the fluctuation in the price of the gold on the Company's profit for the period.

Note 36 - CAPITAL MANAGEMENT:

The Group capital management objectives are:

- * to ensure the Company's ability to continue as a going concern
- * to provide an adequate return to shareholders

Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Management assesses the Group capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in the economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.
