The Scheme is expected to enable better realisation of potential of the businesses of OCL, DCEL, SRS HL, DBCHL and ODCL in the form of amalgamated ODCL which will yield beneficial results and enhanced value creation for their respective shareholders and better security and protection for their lenders and employees. The rationale for the Scheme is set out below:

- (i) The arrangement and amalgamation would result in consolidation of business and operations of the Dalmia Bharat group in eastern India into one entity and simplification of the group corporate structure.
- (ii) The arrangement and amalgamation will provide synergistic integration of OCL and DCEL's business operations thus enabling better operational management and greater focus.

- (iii) Synergies arising out of consolidation of alike and supporting businesses through the arrangement and amalgamation will lead to (a) reflection of fair value of OCL, DCEL, SRSHL & DBCHL in the amalgamated ODCL (as all assets, tangible and intangible, including off-balance sheet items of OCL, DCEL, SRSHL, DBCHL shall be taken over by ODCL, all assets shall be recorded at their respective fair values and cross holdings amongst companies shall be eliminated); (b) improved earnings and cash flow of amalgamated ODCL and (c) improved alignment of debt repayments with sales realisations.
- (iv) The amalgamated ODCL would have better leveraging capability due to its enlarged net worth base and increased capability for offering a wider portfolio of products and services by virtue of its diversified businesses and resource base and deeper client relationships, resulting in enhanced businesses potential and better prospects for the group.
- (v) The arrangement and amalgamation would result in financial resources of OCL, DCEL, SRSHL, DBCHL and ODCL being efficiently pooled, leading to centralised and more efficient management of funds, greater economies of scale and a bigger and stronger resource base for future growth, which are presently divided and are getting dissipated amongst multiple corporate entities within the group.
- (vi) The arrangement and amalgamation will bring about simplicity in working, reduce various statutory and regulatory compliances and related costs, which presently have to be duplicated in different entities, reduction in operational and administrative expenses and overheads, better cost and operational efficiencies and it would also result in coordinated optimum utilization of resources.
- (vii) The arrangement and amalgamation will result not only in consolidating and improving the internal systems, procedures and controls but will also bring greater management and operational efficiency due to integration of various similar functions presently being carried out in each individual entity within the group such as information technology, human resources, finance, legal and general management, and this will lead to the organization becoming more efficient and capable of responding swiftly to volatile and rapidly changing market scenarios.
- (viii) The arrangement and amalgamation will streamline the decision-making process, help in better utilization of human resources and will also provide better career opportunities to employees.

- (ix) The arrangement and amalgamation will facilitate consolidation and rationalisation of borrowings of OCL, DCEL, SRSHL and DBCHL in ODCL which will assist not only in better debt planning and management but will also improve the debt servicing abilities through improved cash flows and make the debt administration simpler not only for the amalgamated entity but also for the lenders. This will facilitate not only in better negotiation of terms and conditions with lenders including banks and financial institutions, etc., but in also being able to get less stringent and more favourable terms from them.
- (x) The arrangement and amalgamation is, thus, likely to result in facilitating enhancement in value for all stakeholders and seamless access to strong business relationships of the Transferor Companies and is expected to provide other intangible benefits that OCL has built over decades, while at the same time enhancing the scale of operations and enabling better attention and focus to be given in an integrated manner to all the businesses so as to enable achievement of their full potential.
