Before 1990's

- Limited to outsourcing of transportation activities for movement of goods through warehouses.
- Mainly annual contracts
- Due to complex excise tax and other duties the focus was on cargo movement for reducing inventory and distribution costs through physical distribution management.

1990-2000

- Limited to outsourcing of transportation activities for movement of goods through warehouses.
- Mainly annual contracts
 - Due to complex excise tax and other duties the focus was on cargo movement for reducing inventory and distribution costs through physical distribution management.

2000-2014

- Growth in trade volumes & regulations has led to emergence of CFS/ICD operations
- Third-party logistics service providers needed to handle movement of cargo across the logistics value chain.
- Higher outsourcing and more value added services came into play like in-plant management, reverse logistics etc.
- Focus on integrating supply chain, service providers to meet customers distribution needs.

Beyond 2014

- Digitization of logistics services to increase transparency resulting in disintermediation of services.
- Market demanded total integration of logistics services and outsourcing to 3PL/4PL service providers.
- Efficiency and cost rationalization through adaptation and automation of technology on back of easing regulations.
