3. The Nomination & Remuneration Committee

The Nomination & Remuneration Committee is responsible for the monitoring, implementation and review of this policy. The Nomination & Remuneration Committee will provide recommendations to the Board as to how to effectively structure and facilitate a remuneration strategy, which will meet the needs of the Company.

3.1 Key Principles of the Remuneration Policy

While designing compensation for Directors, Key managerial personnel, senior management and other employees, the following set of principles act as guiding factors:

1. Aligning key executive and board remuneration with the longer term interests of the company and its shareholders.
2. Minimize complexity and ensure transparency.
3. Link to long term strategy as well as annual business performance of the company
4. Promotes a culture of meritocracy and is linked to key performance and business drivers.
5. Reflective of line expertise, market competitiveness so as to attract the best talent.
6. The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors of the quality required to run the company successfully;
7. Relationship of remuneration to performance is clear and meets appropriate performance benchmarks;
8. Remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals:
9. That the Managing Director's remuneration be reviewed on expiry of current period of three years of appointment and the remuneration be divided into fixed and flexible portion.
10. In future employment, as well as for existing, a part of remuneration be kept as performance linked pay.
11. Remuneration being paid to employees currently be protected.
12. Targets for the Company, for the Managing Director, for HOD's be given by board and HOD's should fix targets for their respective team members. Accordingly the performance remuneration will be decided by board latest by the end of the month of May each year in accordance with recommendation of Nomination and Remuneration Committee.

3.1.1 Remuneration paid to Executive Directors

The remuneration paid to Executive Directors is recommended by the Nomination and Remuneration Committee and approved by the Board in the Board meeting, subject to the subsequent approval by the shareholders at the general meeting and such other authorities, as the case may be.

At the Board meeting, only the Non-Executive and Independent Directors participate in approving the remuneration paid to the Executive Directors. The remuneration is arrived by considering various factors such as qualification, experience, expertise, prevailing remuneration in the industry and the financial position of the company. The elements of the remuneration and limits are pursuant to the section 178, 197 and schedule V of the Companies Act 2013 and also Regulation 19 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

3.1.2 Remuneration Policy Structure

The remuneration structure for the Executive Directors would include the following components:

3.1.3 Basic Salary

- Provides for a fixed, per month, base level remuneration to reflect the scale and dynamics of business to be competitive in the external market.
- Are normally set in the home currency of the Executive Director and reviewed annually.
- Will be subject to an annual increase as per recommendations of the Nomination and Remuneration committee and approval of the Board of Directors and such other approvals as may be necessary.

3.1.4 Perquisites and Allowances

A basket of Perquisites and Allowances would also form a part of the remuneration structure.

3.1.5 Contribution to Provident and Other funds

- In addition to the above, the remuneration would also include:
- Contribution to Provident and Superannuation Funds
- Gratuity

3.1.6 Minimum Remuneration

If in any financial year during the tenure of the Executive Directors, the company has no profits or its profits are inadequate, they shall be entitled to, by way of Basic Salary, Perquisites, allowances and in addition hereto, they shall also be eligible for perquisites not exceeding the limits specified under Part IV of Schedule V of the Companies Act, 2013 or other such limits as prescribed by the Government from time to time as Minimum Remuneration, whichever is higher.

3.2.1 Remuneration payable to Non-Executive & Independent Directors

The Non-Executive Directors and Independent Directors of the company would be paid sitting fees {not exceeding INR 1,00,000} for each meeting of the Committees and Board meeting as may be decided by the board from time to time.

3.2.2 Remuneration payable to Non-Executive Directors

The Remuneration to the Non-Executive Directors would be as per recommendations of the Nomination and Remuneration committee and approval of the Board of Directors. It would be pursuant to the provisions of sections 197, 198 of the Companies Act 2013.

3.3 Remuneration Philosophy for Key managerial personnel, senior management & staff

The compensation for the Key managerial personnel, senior management and staff at Machino Plastics Limited would be guided by the external competitiveness.

Internally, performance ratings of all employees would be spread across a normal distribution curve. The rating obtained by an employee will be used as an input to determine Variable and Merit Pay increases. Variable and Merit pay increases will be calculated using a combination of individual performance and organizational performance. Grade wise differentiation in the ratio of variable and fixed pay as well as in increment percentage must be made.

Compensation can also be determined based on identified skill sets critical to success of the company. It is determined as per management's review of market demand and supply.

4. DISCLOSURES

The remuneration policy shall also form part of Annual Report of the Company and shall also be posted on the website of the company.

Form No. MR-3**SECRETARIAL AUDIT REPORT**

FOR THE FINANCIAL YEAR ENDED 31st MARCH, 2023

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,

The Members,
Machino Plastics Limited
Plot No. 3 Maruti Joint Venture Complex, Gurugram, Haryana

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by MACHINO PLASTICS LIMITED having CIN L25209HR2003PLC035034. Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my Opinion thereon.

Based on our verification of the MACHINO PLASTICS LIMITED books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the company has, during the audit period covering the financial year ended on 31st MARCH 2023 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by MACHINO PLASTICS LIMITED for the financial year ended on 31st MARCH 2023 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;

- (xi) The Equal Remuneration Act, 1976
- (xii) The Factories Act, 1948
- (xiii) The Indian Fatal Accidents Act, 1985
- (xiv) The Industries Dispute Act, 1947
- (xv) The Industries Employment (Standing Orders Act), 1946
- (xvi) The Maternity Benefit Act, 1961
- (xvii) The Minimum Wages Act, 1948

We have also examined compliance with the applicable clauses of the following:

- (a) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (b) The Listing Agreements entered into by the Company with Bombay Stock Exchange Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period the company has not undertaken any specific transactions as given below:-

- (i) Public/Right/Preferential issue of shares / debentures/sweat Equity, etc.
- (ii) Redemption / buy-back of securities
- (iii) Major decisions taken by the members in pursuance to section 180 of the Companies Act,2013
- (iv) Merger / amalgamation / reconstruction, etc.
- (v) Foreign technical collaborations with Suzuki Motors Corporation are having shares 941700 @ ₹10 per share in the company.

It should be noted that:

Contingent liabilities and commitments (to the extent not provided for):

i. **Contingent liabilities not provided for**

Demand under the Central Excise Act of ₹ 24.87 lakh (Previous year ₹ 559.54 lakh)

DGGI has dropped more than 95% of demand on the ground that running royalty cannot be added for computing cost of Drawings and Designs. DGCEI has further dropped personal penalty proposed against Shri. Sanjiiv Jindall, Whole Time Director.

As per the information provided to us, the company has filed an appeal before, "The Custom Excise and Service Tax Appellate Tribunal (CESTAT)" on demand of excise duty along with interest & penalty for remaining amount.

It should be noted that:

- (i) According to the information and explanations given to us and the records of the company examined by us, in our opinion, the company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues as applicable with the appropriate authorities. There was no undisputed amounts payable in arrears, as at March 31st, 2023 for period of more than six months from the date it become payable.
- (ii) According to the information and explanations given to us, particulars of dues of Income tax, sales tax, wealth tax, service tax, duty of customs, duty of excise, value added tax and cess as at March 31st, 2023 which have not been deposited on account of a dispute have been stated below:

(₹ In Lakh)

Name of the Statute	Nature of dues	Amount (₹)	Amount Deposit under protest	Period	Forum where dispute is pending
The Central Excise Act, 1944	Excise Duty	24,86,810	1.87	F.Y.2013-14 to 2017-18	Customs, Excise and Service Tax Appellate Tribunal, New Delhi

It should be noted that: Remittance in foreign exchange towards dividends is:

Particulars	Current Year	Previous Year
Number of non - resident Shareholders	1	1
Shares held – Equity Shares of ₹ 10 Each	941,700	941,700
Dividend remitted during the year	Nil	Nil

It should be noted that: Investment in equity share is measured at fair value through other comprehensive income as per Ind AS 109.

Company was allotted 12,50 000 equity shares of face value of ₹10 each in March 1995 by Caparo Maruti Limited (CML) constituting 10% equity capital of CML in total. The amount of ₹ 125 lakh in this regard is reflected as an investment in the balance sheet of the company. However, CML, illegally, unilaterally passed a resolution in its board cancelling the shares held by the company and allegedly unlawfully modified the register of members in the year 2004. Accordingly, the company filed a Plaint before the Hon'ble High Court of Delhi for nullifying such illegal act by CML. The matter is pending before the Hon'ble High Court of Delhi. Company has not made any provision in this regard in the balance sheet as the Management is of strong opinion that judicial decision will be in its favour as the Company was arbitrarily denied its rights as a shareholder and the company firmly believes that it continues to be the lawful shareholder of CML.

The company is unable to ascertain the fair value of investment in equity shares in Caparo Maruti Limited as it is not practicably feasible to do so and therefore, no fair value adjustment have been made in the books of accounts and these equity instruments have been carried forward at cost as at Balance sheet date.

Emphasis of Matter

We draw attention to Note no 35 to the financial statements, wherein no adjustments have been considered necessary by the management as a result of unilateral cancellation of equity shares by Caparo Maruti Limited which in the opinion of the management is against the provisions of the Companies Act, 1956. Further, it was explained that the Company was duly allotted equity shares of Caparo Maruti Limited which it is holding in its investment amounting to Rs 125 Lakhs (previous year Rs 125 Lakhs), being 10% of the shareholding, and it is fully realizable. The matter is sub-judice and the impact, if any, is not ascertainable at this stage. Our opinion is not qualified in respect of this matter.

We further report that, Subject to the matter of emphasis as mentioned in the report, during the audit period the company has generally complied with the requirement of various Acts, Rules and Regulations, Guidelines and standards as are applicable to the company.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

ECONOMY OVERVIEW

The Indian automobile industry has historically been a good indicator of how well the expansion and technological advancement. The rising logistics and passenger transportation industries are driving up demand for commercial vehicles. Future market growth is anticipated to be fueled by new trends including the electrification of vehicles, particularly three-wheelers and small passenger automobiles.

India is also a prominent auto exporter and has strong export growth expectations for the near future. In addition, several initiatives by the Government of India such as the Automotive Mission Plan 2026, scrappage policy, and production-linked incentive scheme in the Indian market are expected to make India one of the global leaders in the two-wheeler and four-wheeler market.

The Indian automotive sector is a vital growth driver of the Indian economy, with valuable contribution to GDP and creating jobs for millions. The Indian automobile industry has historically been a good indicator of how well the economy is doing, as the automobile sector plays a key role in both macroeconomic expansion and technological advancement. Major four wheeler companies recorded highest growth in annual sales in 2022.

The Government's initiative by introducing battery-swapping policy, expansion of Indian National Highways and adding advanced technologies including alternate fuel systems such as compressed natural gas (CNG), Bharat Stage VI compliant flex-fuel engines, electronic control units (ECU) for safety, advanced driver assist systems and e-quadracycles, under the Production-linked incentives (PLI) scheme for automobiles has attracted new investment has further provided boost to the industry.

The Indian auto industry is expected to record strong growth in 2023-24.

Industry Structure & Development

The Company manufactures the plastic injection moulded automotive components i.e. bumpers, instruments panels, grills etc. as original equipment's and for spare parts market primarily for Maruti Suzuki India Limited (MSIL) at two of its manufacturing locations in Gurugram & Manesar in the state of Haryana.

The company has put up tool room or mould manufacturing, repairs and their refurbishment facilities in Manesar, Haryana for captive use and to service its customer in a cost efficient manner. The company has received positive response from the market.

The company has been dealing in all size plastics automotive components. The company has 63 nos. injection molding machines, sizes ranging from 100 Ton to 3150 Ton clamping force. The company also provides job work facilities for Industrial Products like pallets, garbage bins etc. The company also manufactures moulds for inhouse requirements and for others like MSIL, Daikin, VECV etc.

Opportunities & Threats

Growing market of India has already attracted all major automotive companies to start operation here. India is expected to be one of major auto hub in the world map soon.

The principal customer of the company is Maruti Suzuki India Limited (MSIL). Growth of the company mainly depends upon the growth of MSIL. However company does not have plant at Gujarat to cater to Suzuki Motor Gujarat.

MSIL continues to be the leader in Indian car market and has closed the financial year 2022-23 with domestic sale of 1,644,876 units and total sales of 1,966,164 units. Maruti's domestic sale in 2022-23 represents a growth of 20.5% over 2021-22 and total sales in 2022-23 represents a growth of 18.97% over 2021-22.

Your company is positively working towards expanding its operation to other customers.

The small to large size of machine range helps your company to cater to all types of customer's part requirement. Moreover, the machines are versatile to process virtually all types of polymers and can make not only automotive but also other plastic goods by changing moulds. Thus, your company has immense capability to keep pace with the growing and diverse requirement of MSIL as well it has the possibilities for other business besides automotive.

MACHINO PLASTICS LIMITED

The possible threats to the company can be:

- Fluctuating Market conditions
- Uncertain Monsoon Impacting Market Growth
- Technological change
- Reduction in market share of main customer
- Competitions and main customer policy of inhouse production of Bumpers & IP
- Government Policies
- Limited Geographical presence at main customers all plant locations

Segment-wise or Product-wise Performance

Currently your company has single segment and it operates in manufacturing of injection moulding plastic components and moulds / dies and is trying to diversify its product and range of industry it caters to. Your company now also has capabilities in moulding smaller and intricate functional and aesthetic parts in automotive and other industries.

Your Company has also received tooling business from customers other than MSIL and making efforts in exploring alternate business opportunities in mould making and for replacement market.

Indian economic review

Amidst the global energy crisis and continued supply-chain disruptions, the automotive industry players are exploring options to reintroduce the sector. By implementing cloud computing and electric vehicles technology, the industry is entering fast into a revolutionised age with the primary aim of offering the consumer a value-added experience.

The Indian automotive industry has many opportunities for vehicle manufacturers, making it a viable option for business expansion.

Most importantly, the demand for electric vehicles has started to grow in India. Currently, the market share of EVs in India's automotive sector is standing at 0.7%; however, by 2027, this figure is set to reach 3.8%.

With demand still buoyant in the passenger vehicle segment despite challenges of commodity price increases, many automobile manufacturers are up beat to embrace new technologies, specially in the electric mobility space which is expected to witness a slew of launches in both four- and two-wheeler categories in the coming year.

Y-o-Y growth of the Indian economy

Region growth %	FY 19-20	FY 20-21	FY 21-22	FY 22-23
Real GDP growth (%)	4.2	(7.3)	8.9	7

Outlook

Currently, the energy crisis, gas shortages, rising inflation and Federal Reserve rates, labour shortages, high consumer demand, and unpredictability in the supply chain are some of the handicaps being faced by the automotive industry. However, the rising demand for electric vehicles (EVs) is something to look out for.

According to a study, the market share for electric vehicles is on its way to rise to 54% by 2035. Moreover, sales of automobiles on digital platforms, integration of wireless technology in cars, and entry of connected and autopilot-enabled vehicles in the market are some of the factors that are going to fuel the growth of the automotive industry.

Indian Automobile Sector

The automotive industry in India is set to expand at a compound annual growth rate (CAGR) of 11.3% till 2027. This growth will most likely occur due to factors like rising disposable income, wide availability of credit and financing options, and growth of population. Furthermore, with the growth of the passenger transport sector and the rise in demand for commercial vehicles, the potential for future growth of India's automotive sector is pretty high.

Apart from this, industry-friendly policies and initiatives, the Indian Government will also play a major role in fuelling this development in the years to come.

The future growth expected in the domestic automobile industry will give a fillip to the auto component sector. The Indian automobile industry as a whole offers great potential considering the low penetration along with rising income levels and a rapidly growing middle class. These factors will witness a boost in demand for passenger cars and two wheelers. With the automobiles industry fast growing in terms of volume and number of players, your company foresees a bright future.

Risks & Concerns

2022 was challenging for the world's major automakers, as supply chain disruptions made it hard to produce enough vehicles to meet demand. The disruptions are now easing and dealers should have more cars to sell.

In 2023, the automotive industry will face global headwinds such as the energy crisis, slower global demand, and ongoing supply-chain issues. Despite these challenges, global new-vehicle sales are projected to remain flat, with new-car sales increasing.

Favourable government policies such as the extension of FAME-II scheme till 2024, enhancement of incentives for two-wheelers and launch of the production-linked incentive (PLI) scheme for auto and auto component sector will provide enormous support to the sector as it adopts advanced technologies.

Though India rides on some inherent strength, following risk factors exist which the auto component manufacturers may have to counter with:

- Economic slowdown can derail the prospects of the industry.
- Volatility in the prices of material and other inputs could erode the industry's cost competitiveness. Furthermore OEMs demand reduction in prices every year.
- Intense competition from counterparts may add further pressure on margin of manufacturers.

Currently, the energy crisis, gas shortages, rising inflation and Federal Reserve rates, labour shortages, high consumer demand, and unpredictability in the supply chain are some of the handicaps being faced by the automotive industry.

Exchange rates fluctuations coupled with movement in prices of Crude Oil and down-stream Petrochemicals, trade war, any government sanctions on supply chain etc. are all concern areas.

The overall trend is challenging, but remaining competitive in this changing scenario will be the toughest challenge. The combination of low manufacturing costs along with quality systems would give an edge to companies in terms of pricing and quality. Expansion and diversification will help break into new markets. It would be imperative for these companies, which are largely based on traditional management practices, to imbibe technology in a big way. The SMEs can exploit these opportunities through joint ventures, collaboration and technical tie-ups. Knowledge, specialization, innovation and networking will determine the success of the SMEs in this globally competitive environment.

Your company is power, manpower and capital intensive business. Power is obtained from Maruti from its co-shared power plant which runs on gas and DHBVN Ltd and DG Set. The increase in per unit cost of power supply will materially affect the cost of production. Company has installed 1350 K.W. Solar Power Plants at its Manesar Plant and Gurugram plant which is likely to generate 15 lakh units in a year. This will help in power cost management.

Your company has availed net metering facility from UHBVN/DHBVNL/ HVPNL for both Gurugram & Manesar plant of the Company which in turn will save the energy bills.

Risk Management Report

Your Company believes that, periodic review of various risks which have a bearing on the business and operations is vital to proactively manage uncertainty and changes in the internal and external environment so that it can limit the negative impact and capitalize on opportunities.

Risk management framework enables a systematic approach to risk identification, leverage on any opportunities and provides strategies to manage, transfer, avoid or minimize the impact of the risks and helps to ensure sustainable business growth with stability of affairs and operations of the Company.

Keeping the above in view, your Company's risk management is embedded in the business processes. As a part of review of business and operations, your Board with the help of the management periodically reviews various risks associated with the business and products of the Company and considers appropriate risk mitigation processes. However, there are certain risks which cannot be avoided but the impact can only be minimized.

CORPORATE GOVERNANCE REPORT

In terms of Regulation 27 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Compliance Report on Corporate Governance is as reported below:

Company philosophy on Corporate Governance

Corporate Governance essentially is the system by which companies are directed and controlled by the management in the best interest of the stakeholders and others. Corporate Governance ensures fairness, transparency and integrity of the management. Corporate Governance is a way of life, rather than a mere legal compulsion. It further inspires and strengthens investors' confidence and commitment to the company.

Corporate Governance is all about maintaining a valuable relationship and trust with all stakeholders. We consider stakeholders as partners in our success, and we remain committed to maximizing stakeholders' value. This approach to value creation emanates from our belief that sound governance system, based on relationship and trust, is integral to creating enduring value for all.

The company, through its Board and Committees, endeavors to strike and deliver the highest governing standards for the benefit of its stakeholders.

Corporate Governance Monitoring and Review Process at Machino:

Machino Plastics Limited continuously reviews its policies and practices of corporate governance with a clear goal not merely to comply with statutory requirements in letter and spirit but also constantly endeavors to implement the best international practices of Corporate Governance, in the overall interest of all stakeholders.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MACHINO PLASTICS LIMITED

Report on the Audit of the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Machino Plastics Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Ind AS Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter

We draw attention to Note no 35 to the financial statements, wherein no adjustments have been considered necessary by the management as a result of unilateral cancelation of equity shares by Caparo Maruti Limited which in the opinion of the management is against the provisions of the Companies Act, 1956. Further, it was explained that the Company was duly allotted equity shares of Caparo Maruti Limited which it is holding in its investment amounting to Rs 125 Lakhs (previous year Rs 125 Lakhs), being 10% of the shareholding, and it is fully realisable. The matter is sub-judice and the impact, if any, is not ascertainable at this stage. Our opinion is not qualified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditors responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind As financial statements. The results of the audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Key Audit Matter	Auditor's Response
Contingent Liabilities (as described in note 31 of the Ind AS financial statements)	
<p>As of March 31, 2023, the Company has disclosed contingent liabilities of ₹ 24.87 lakhs relating to tax claims.</p> <p>Due to uncertainty of cases, timescales for resolution and need to negotiate with various authorities, there is significant judgment required by management in assessing the exposure of each case and thus a risk that such cases may not be adequately provided for or disclosed in the Ind AS financial statements.</p> <p>Accordingly, contingent liabilities were determined to be a key audit matter in our audit of the Ind AS financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none">• Gained an understanding of the process of identification of claims and contingent liabilities, and evaluated the design and tested the operating effectiveness of key controls.• Checked the adequacy of the disclosures with regard to facts and circumstances of the matters.

Other Information

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's Annual Report, but does not include the Ind AS financial statements and our auditor's report thereon. The Company's Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read the Company's Annual Report, if we conclude that there is a material misstatement therein, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind As) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

MACHINO PLASTICS LIMITED

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements. Refer Note 39 to the financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11 (e) as provided under (a) and (b) contain any material mis-statement.
- v. The company has not declared or paid dividend during the year.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure 'A' to the independent auditor's report of even date on the Ind AS financial statements of MACHINO PLASTICS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Machino Plastics Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintain internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the Inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changed in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountant of India.

The financial statements are approved for issue by the Company's Board of Directors on 30th May 2023.

2. Preparation and Presentation of Financial Statements**2.1 Basis of preparation and measurement**

- a) These financial statements have been prepared as a going concern in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, defined benefit plans-plan assets measured at fair value, the provisions of the Companies Act, 2013 ("the Act") (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Rounding of amounts

All amounts disclosed in the financial statements which also include the accompanying notes have been rounded off to the nearest two decimal in lakh as per the requirement of Schedule III to the Companies Act, 2013, unless otherwise stated.

Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1 - Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statement.

Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

Notes forming part of the standalone financial statement for the year ended 31 March, 2023

All amounts in ₹ lakhs

b) Basis of measurement

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, unless otherwise stated. All assets and liabilities are classified into current and non-current generally based on the nature of product / activities of the Company and the normal time between acquisition of assets/liabilities and their realisation / settlement in cash or cash equivalent. The Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current

c) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in para (d) below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Estimation of uncertainties relating to the global health pandemic from COVID-19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of property, plant and equipment, inventories, receivables and other current assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources on the expected future performance of the company. Based on current estimates the Company expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

d) Critical accounting estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

i) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. Refer to Note 3(a).

ii) Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenue from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to the contract are committed to perform

their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables and allocation of transaction price to these distinct performance obligations involves significant judgement.

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Further, the Company uses significant judgement while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

In respect of the contracts where the transaction price is payable as revenue share at pre-defined percentage of customer revenue and bearing in mind, the time gap between the close of the accounting period and availability of the revenue report from the customer, the Company is required to use its judgement to ascertain the income from revenue share on the basis of historical trends of customer revenue.

iii) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the lease contracts. Refer to Note 3(h).

iv) Non-current assets held for sale

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques (including income and market approach), which include unobservable inputs. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" and its recoverable amount at the date of the subsequent decision not to sell. Recoverable amounts of assets reclassified from "Held for Sale" have been estimated using the Management's assumptions which consist of significant unobservable inputs.

v) Provisions

Provisions are determined based on the best estimate required to settle the obligation at the reporting date. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. These estimates are reviewed at each balance sheet date and adjust to reflect the current best estimates.

vi) Allowance for credit losses on receivables

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future.

3. Significant Accounting Policies

a) Property, plant and equipments

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method based on estimated useful life of assets as prescribed in schedule II to the Companies Act, 2013 except Moulds, Trolley and Bins. The useful lives of the assets are as follows:

Class of Assets	Useful life
Buildings	30 Years
Plant & Machinery	15 Years
Computer	3 Years
Office Equipment	5 Years
Furniture	10 Years
Vehicles	8 Years
Electrical Installation	10 Years

The useful life and method of depreciation of the following assets has been determined by the management of the company. Depreciation on Trolley and Bins is provided on straight-line method and on Moulds written down value method. The useful lives of the assets are as follows:

Class of Assets	Useful life
Moulds	3 Years
Trolley	4 Years
Bins	2 Years

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under "Capital work-in-progress". Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposal of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

b) Intangible Assets:-

Intangible assets acquired separately are measured on initial recognition at cost less accumulated amortisation and accumulated impairment losses, if any.

The cost of an intangible asset includes purchase cost (net of rebates and discounts), including any import duties and non-refundable taxes, and any directly attributable costs on making the asset ready for its intended use.

The Cost of Intangible assets are amortized on a straight line basis over their estimated useful life which is as follows.

Class of Assets	Useful Life
Software	3 Years

The amortisation period and method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

An intangible asset is derecognized on disposal or when no future economic benefits are expected from use. Gains and losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognized or on disposal.

c) Impairment of tangible assets and intangible assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

d) Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not used in the production of goods and services or for the administrative purposes is classified as investment property. Investment property is measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure related to investment properties are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Investment properties are depreciated using the straight-line method over the estimated useful lives.

e) Inventories:-

i) Basis of valuation :

Inventories are valued at the lower of cost or net realizable value after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis.

ii) Method of valuation:

Cost of raw materials has been determined by using first-in-first-out method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

Cost of finished goods and work in progress comprises direct materials, direct labour and an appropriate proportion of variable and fixed overheads based on normal operating capacity. Cost is determined on first-in-first-out method basis.

Cost of traded goods has been determined by using first-in-first-out method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Due allowances are made in respect of slow-moving, non-moving and obsolete inventory based on estimates made by the management.

f) Foreign currency translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee, which is the Company's functional and presentation currency.

Transactions and translations

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of transactions. Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are recognized in the Statement of Profit and Loss and reported within exchange gains / (losses) on translation of assets and liabilities, net, except when deferred in "other comprehensive income" as qualifying cash flow hedges. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as adjustment to interest costs on those foreign currency borrowings

g) Revenue Recognition

i) Revenue from contracts with customer

Revenue from contract with customers is recognised when the Company satisfies performance obligation by transferring promised goods and services to the customer. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and value added tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives / discounts. Accumulated experience is used to estimate and provide for the discounts / right of return, using the expected value method.

No element of financing is deemed present as the sales are made with credit terms consistent with market practices. A receivable is recognised when the goods are dispatched, delivered or upon formal customer acceptance depending on terms of contract with the customer.

ii) Interest and dividend income

Interest income is recognised using the effective interest method.

When a loan and receivable is impaired, the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument and continues unwinding the discount as interest income. Interest income on impaired loan and receivables is recognised using the original effective interest rate.

Dividend income is recognised when the right to receive payment is established. Incomes from investments are accounted on an accrual basis.

h) Leases

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

The Company as a lessee

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Lease for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the ROU asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

i. Borrowing Costs

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which these incurred except loan processing fees which is recognized as per effective rate of interest method.

j. Financial Instruments

Financial assets

The Company classifies its financial assets in the following categories:

i) Financial assets at amortised cost –

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

These are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value which usually represents cost plus transaction costs and subsequently, if maturing after 12 months period, carried at amortised cost using the effective interest method, less any impairment loss.

Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.

ii) Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI) –

All equity investments are measured at fair values. Investments which are not held for trading purposes and where the Company has exercised the option to classify the investment as at FVTOCI, all fair value changes on the investment are recognised in Other Comprehensive Income (OCI). The accumulated gains or losses are recognised in OCI are reclassified to retained earnings on sale of such investment.

iii) Financial assets at Fair Value through Profit and loss (FVTPL) –

Financial assets which are not classified in any of the categories above measured at FVTPL. These include surplus funds invested in mutual funds etc.

iv) Impairment of financial assets –

The Company assesses expected credit losses associated with its assets carried at amortised cost and fair value through other comprehensive income based on Company's past history of recovery, credit-worthiness of the counter party and existing market conditions. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Company applies the simplified approach for recognition of impairment allowance as provided in Ind AS 109 – Financial Instruments, which requires expected lifetime losses to be recognised on initial recognition of the receivables.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and in case of loans and borrowings net of directly attributable costs.

Financial liabilities are subsequently measured at amortised cost using effective interest. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity of these investments.

Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because the beneficiary fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contracts issued by the Company are measured at their applicable fair values.

Fair value measurement

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level 1: The fair value of financial instruments quoted in active markets is based on their quoted closing price at the Balance Sheet date.
- ii) Level 2: The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) Level 3: The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

k. Investment in equity

All equity investments in scope of Ind AS 109 are measured at fair value other than investment in subsidiary, Associates and Joint venture. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by- instrument basis.

l. Income Tax**i) Current Income Tax**

Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date.

ii) Deferred Tax:

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The tax rates and tax laws used to compute the tax are those that are enacted or substantively enacted at the reporting date.

Current and Deferred Tax are recognised in the Statement of Profit and Loss except to items recognised directly in Other Comprehensive income or equity in which case the deferred tax is recognised in Other Comprehensive Income or equity respectively.

m. Employee Benefits**i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii) Post retirement employee benefits:

The Company operates the following post- employment schemes

- (a) Defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund

Notes forming part of the standalone financial statement for the year ended 31 March, 2023

All amounts in ₹ lakhs

Gratuity obligations

The liability or assets recognized in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by the discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss.

Defined contribution plans

The company pays provident fund contributions to publicly administered funds as per local regulations and gratuity (for qualifying executives / whole time directors) to Life Insurance Company (LIC). The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

iii) Bonus plans

The company recognizes a liability and an expense for bonuses. The company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

iv) Other employee benefits:

The liabilities for earned leaves and compensated absences are settled at the year end.

n. Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is a possible asset arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised till the realisation of the income is virtually certain. However, the same are disclosed in the financial statements where inflows of economic benefits are possible.

o. Cash and cash equivalents

Cash and cash equivalents for the purpose of presentation in the statement of cash flows comprises of cash at bank and in hand, bank overdraft and short term highly liquid investments/bank deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

p. Events after the reporting period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted but disclosed.

q. Earnings Per Share**(i) Basic earnings per share**

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the company
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors

r. Offsetting instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

s. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) as defined by Ind AS- 108, "Operating segment".

Company's income and expenses including interest are considered as part of un-allocable income and expenses which are not identifiable to any business segment. Company's asset and liabilities are considered as part of un-allocable assets and liabilities which are not identifiable to any separate business segment.

t. Financial Risk Management

Risk management framework

The Company's Board of Director has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has established the Risk Management Policy.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit function, which regularly reviews risk management controls and procedures, the results of which are reported to the Audit Committee.

The Company has exposure to Credit, Liquidity and Market risks arising from financial instruments:

A. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

Trade and other receivables:-

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the country in which customers operate.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for Creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Credit limits are established for each customer and reviewed periodically.

At the end of the reporting period, there are no significant concentrations of credit risk. The carrying amount reflected above represents the maximum exposure to credit risk.

B. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

C. Market Risk

Market risk is the risk that changes in market prices such as commodity prices risk, foreign exchange rates and interest rates which will affect the Company's financial position. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables.

Capital Management

The Company's objective for capital management is to maximize shareholder wealth, safeguard business continuity and support the growth of the Company. The Company determines the capital management requirement based on annual operating plans and long term and other strategic investment plans. The funding requirements are met through a mix of equity, borrowings and operating cash flows.

Interest rate risk Management

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is exposed to interest rate risk because company borrows funds at both fixed and floating interest rates. The risk is managed by the company by maintaining an appropriate mix between fixed and variable rate borrowings.

31. Contingent liabilities and commitments (to the extent not provided for):

(i) Contingent liabilities not provided for

Demand under the Central Excise Act of ₹ 24.87 lakh (Previous year ₹ 559.54 lakh)

Based on familiarity with the matters and legal position prevailing as on date, management believe that the issue being raised by the revenue authorities in the above matters does not have any statutory backing and is supported by various judicial precedents in favour of the Company. In management's view, the Company has a strong case in its favour in the above matters.

(ii) Guarantees

In respect of bank guarantees: Nil (Previous year ₹156.79 lakh)

(iii) Commitments

Estimated amount of contracts, remaining to be executed on machinery / spare parts of machinery (net of advances) ₹ 6.01 lakh (approx.) payable in USD 7,300 (Previous year ₹1.56 lakh (approx.) payable in EURO 1,850).

32. Post retirement employee benefits:

(i) **Defined benefit plans such as gratuity**

The company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The company has a defined benefit gratuity plan. The scheme is funded with

The Company has no legal obligation to settle deficit in the funded plan with an immediate contribution or additional one off contribution. The Company intends to contribute as any request for contribution is made by LIC.

The net (surplus) / deficit disclosed above relating to funded plans are as follows:

(In ₹ lakh)

Particulars	As at	
	31-03-2023	31-03-2022

Expected contributions to post-employment benefit plans of gratuity for the year ending 31 March 2024 are ₹ 22.83 lakh.

Significant estimates and sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in key assumptions is:

(In ₹ lakh)

Particulars	Key assumptions		(Increase) / Decrease in Defined benefit obligations by					
			Increase in assumptions by			Decrease in assumption by		
	31 March 2023	31 March 2022	Rate	31 March 2023	31 March 2022	Rate	31 March 2023	31 March 2022
Discount rate	6.75%	6.75%	1%	165.46	184.01	1%	199.65	228.88
Salary growth rate	8.00%	8.00%	1%	197.89	226.52	1%	166.48	185.24

The above sensitivity analysis is based on a change in each assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognized in the balance sheet.

Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Higher than expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

(ii) Defined contribution plans such as provident fund

The Company has defined contribution plans namely provident fund. Contributions are made to provident fund at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the Government. The obligation of the Company is limited to the amount contributed and it has not further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is as follows:

(In ₹ lakh)

Particulars	For the period ended	
	31-03-2023	31-03-2022
Company's Contribution to Provident Fund	123.75	110.48

33. Other income includes interest income ₹6.99 lakh (Previous year ₹12.53 lakh), tax deducted thereon is ₹0.19 lakh (Previous year ₹0.24 lakh), Profit on sale of property, plant and equipments is ₹0.84 lakh (Previous year ₹0.74 lakh), Sundry creditors written off ₹3.60 lakh (Previous year ₹Nil), Duty draw back received ₹3.44 lakh (Previous year ₹1.77 lakh), Reversal of excess sales tax liability ₹Nil (Previous year ₹3.89 lakh).

34. Leases

Company as a lessee

The Company has lease contracts for various items of Land and Building in its operations. Leases generally have lease terms between 1 and 33 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Company is restricted from assigning and subleasing the leased assets and some contracts require the Company to maintain certain financial ratios.

The Company has a lease contract with his joint venture partner namely Maruti Suzuki India Limited for 33 years for use of land of Gurugram factory premises on annual rent of ₹1/-. The Company has not created ROU assets and liabilities on this because there is no material impact on the financials.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

Expense relating to short-term leases (included in other expenses)	83.74	3.60
Total amount recognised in profit or loss	168.44	155.11

The Company had total cash outflows for leases of ₹171.24 lakh in March 31, 2023 (₹153.60 lakh in March 31, 2022). There are no non cash additions to right-of-use assets and lease liabilities. There are no future cash outflows relating to leases that have not yet commenced.

35. Investment in equity share is measured at fair value through other comprehensive income as per Ind AS 109.

Company was allotted 12,50,000 equity shares of face value of ₹ 10 each in March 1995 by Caparo Maruti Limited (CML) constituting 10% equity capital of CML in total. The amount of ₹ 125 lakh in this regard is reflected as an investment in the balance sheet of the company. However, CML, illegally, unilaterally passed a resolution in its board cancelling the shares held by the company and allegedly unlawfully modified the register of members in the year 2004. Accordingly, the company filed a Plaint before the Hon'ble High Court of Delhi for nullifying such illegal act by CML. The matter is pending before the Hon'ble High Court of Delhi. Company has not made any provision in this regard in the balance sheet as the Management is of strong opinion that judicial decision will be in its favour as the Company was arbitrarily denied its rights as a shareholder and the company firmly believes that it continues to be the lawful shareholder of CML.

The company is unable to ascertain the fair value of investment in equity shares in Caparo Maruti Limited as it is not practicably feasible to do so and therefore, no fair value adjustment have been made in the books of accounts and these equity instruments have been carried forward at cost as at Balance sheet date.

36. The company is exclusively engaged in the business of manufacturing plastic moulded parts for automotive, appliances and industrial application and allied products, which is considered as the only reportable segment referred to in statement on Ind AS-108 "Operating Segments". The geographical segmentation is not relevant, as there is insignificant export.

45. Capital Management

The Company manages its capital to ensure that the company will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Company consists of net debt (borrowings as detailed in notes 15 and 18 offset by cash and bank balances) and total equity of the company. The company is not subject to any externally imposed capital requirements.

The Company's risk management committee reviews the capital structure of the Company on a semi-annual basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital. The Company monitors capital on the basis of following gearing ratio, which is net debt divided by total equity plus debt.

Gearing ratio:-

The gearing ratio at end of the reporting period was as follows

Fair values

1. The carrying amounts of trade payables, other financial liabilities (current), other financial assets (current), borrowings (current), trade receivables, cash and cash equivalents and other bank balances are considered to be the same as fair value due to their short term nature.
2. Borrowings (non-current) consists of loans from banks and government authorities, other financial liabilities (non-current) consists of interest accrued but not due on deposits other financial assets consists of employee advances where the fair value is considered based on the discounted cash flow.
3. The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies and interest rate curves.

The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

*Fair value of instruments is classified in various fair value hierarchies based on the following three levels:

Notes forming part of the standalone financial statement for the year ended 31 March, 2023

46. Financial instruments and risk management (Contd....)

Level 1: hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques, which maximise the use of observable market data and rely as little as possible on entity specific estimates. If significant inputs required to fair value an instruments are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs are not based on observable market data, the instruments are included in level 3.

Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.

47. Financial risk management:

The Company's Corporate Treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the company through internal risk reports which analyses exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Corporate Treasury function reports quarterly to the company's risk management committee, an Independent body that monitors risks and policies implemented to mitigate risk exposures.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk and price risk. Financial instruments affected by market risk include loans and borrowings, trade receivables and trade payables involving foreign currency exposure. The sensitivity analysis in the following sections relate to the position as at March 31, 2023 and March 31, 2022. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2023 and 31 March 2022.

a) Foreign currency risk management

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the trade / other payables, trade / other receivables and derivative assets / liabilities. The risk primarily relate to fluctuations in US Dollar, EURO and JPY against the functional currencies of the Company. The Company's exposure to foreign currency changes for all other currencies is not material. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The carrying amounts of the company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars of unhedged foreign currency exposure as at the Balance Sheet date	Amount in Foreign Currency			Amount in Indian Currency (In ₹ lakh)	
	Currency	As at 31 March 2023	As at 31 March 2022	As at 31 March 2023	As at 31 March 2022
Payables	USD	506,053	498,753	416.07	378.68
	EURO	Nil	1,850	Nil	1.56
Receivables	USD	65,763	61,801	54.07	46.92

47. Financial risk management (Contd.....)**b) Interest rate risk management**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is exposed to interest rate risk because company borrows funds at both fixed and floating interest rates. The risk is managed by the company by maintaining an appropriate mix between fixed and variable rate borrowings.

Particulars	As at 31 March 2023	As at 31 March 2022
Cash Credit Borrowings (including WCCL)	6,082.89	5,338.27
Term Borrowings (including current maturities)	2,665.90	4,001.70
Total borrowings	8,748.79	9,339.97

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

- (i) The exposure of group borrowings to interest rate changes at the end of reporting period are as follows:
(ii) As at the end of reporting period, the company had the following variable rate borrowings:

(In ₹ lakh)

Particulars	As at 31 March 2023			As at 31 March 2022

c) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The company only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the company uses other publicly available financial information and its own trading records to rate its major customers. The company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee annually.

d) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the company's short-term, medium-term and long-term funding and liquidity management requirements. The company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

The contractual maturity is based on the earliest date on which the company may be required to pay.

51. Ratios (Contd)

1. *Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss or gain on sale of Fixed assets etc.*
2. *Interest + Lease payments for the current year + Repayments of long term borrowings*
3. *Purchase of raw material + stores and spares including repair & maintenance + packaging*
4. *Total equity + Lease liabilities + Total borrowings + Deferred tax liability – Intangible assets*

Reasons for variations

5. Return on Equity ratio has increased primarily due to increase in turnover and higher profitability thereof.
6. Trade payable turnover ratio has decreased primarily due to an increase in purchase of raw material and increase in balance of trade payables at the yearend, which led to increase in average trade payables.
7. Net profit ratio has increased primarily due to increase in turnover and higher profitability thereof.
8. Return on Capital employed has increased primarily due to increase in turnover, higher profitability and decrease in borrowings.
9. Return on Investment ratio primarily increased due to increase in turnover and higher profitability thereof.
