Sub: Clarification in terms of Listing Regulations on news item appearing in "Financial Express".

We refer to your email dated 23rd August, 2018, asking us to provide clarification on the news appearing in "Financial Express" dated 22nd August, 2018.

In this regard, we would like to submit that the Company has a total Power Generation Capacity of 10,480 MW operating through its various subsidiaries. Adani Power Rajasthan Limited, one of the subsidiaries of the Company, which runs the total 1,320 MW capacity Power Plant at Kawai, and is operating based on the Power Purchase Agreement ("PPA"), signed with Rajasthan Discoms and the terms of the said PPA. The operations per PPA are governed by various requirements such as O&M availability, billed availability and required offtakes. The availability of coal, of course, plays an important factor.

Also, the matter being routine in nature; and the operations scenario changes on day to day basis, this is not material as prescribed under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, and hence the same does not qualify requiring the disclosure under the said regulation.

We would like to reiterate here that as done in the past, the Company would continue to inform stock exchanges about any price sensitive information as prescribed under the above-referred regulation.

Kindly take our clarification / submissions made hereinabove in the subject matter, on your records.

Thanking you
Yours Faithfully,

For Adani Power Limited

Deepak Pandya
Company Secretary
