# Competitive Advantages

Fully integrated steel plant with facilities starting from iron ore Mining to end product HB wire.

Captive iron ore facilities with annual production capacity of about 2 million tons to meet entire captive requirement of iron ore. Production rammed up to about 1.5 Million ton and target to rise to 1.8 Million Ton by FY19.

Company is having long term coal linkages form Coal India Limited of around 7.37 Lakh MTPA against the requirement of around 9 Lakh MTPA. We are expecting to get further linkage of around 35,000 MT in the next phase of linkage auction.

Captive power capacity to support enhanced production volumes

Installed capacity of 73 MW out of 42 MW Waste Heat Recovery Based (WHRB) with fuel input, thereby lower cost of overall power generation

A tie up of additional 25 MW under group captive arrangement is expected to start during Q1FY19

Eligibility for Renewable energy certificates on bio-mass power generation leading to additional source of revenue and over-all cost reduction.

Captive Railway Siding at “Mandhar” near by manufacturing facility at “Siltara” leading to reduction in material procurement cost and is also expected to generate additional revenue.
