GROWTH DRIVERS - E-LEARNING EDUCATION

YOUNG POPULATION :

India has the largest population in the world of about ~ 500 Mn in the age bracket of 5-24 years of which over 250 Mn are school going students, more than any other country. Also, Tech acceptability is higher among the youth

BEYOND INDIA & BECOMING GLOBAL

Technology has enabled delivering education globally. Targeting Indian diaspora across global locations is getting more relevant with times

CSR INITIATIVES :

With law of CSR spending of 2% from profit, the max spends towards education, will enable infrastructure needed for online education

INTERNET PENETRATION :

As per statistics, there were 624.0 million internet users i.e. 45% in India in January 2021. With high internet penetration, quality delivery of education is becoming accessible even in remote places.

LOW COST ALTERNATIVE :

– Online education is around 53% cheaper than offline alternative, due to lower infrastructure costs.

GOVERNMENT INITIATIVES

Government of India has taken several initiatives through the Ministry of Education and UGC to promote electronic learning or e-learning for students and same has resulted in Digitization in Educational Institutions.

UNEMPLOYMENT & CONTINUED LEARNING

Approximately 280 Mn job seekers are expected to enter the job market by 2050 and current Unemployment Rate in India averaged around 9%. This would require relevant training and upskilling for improving the employability of job-seekers.

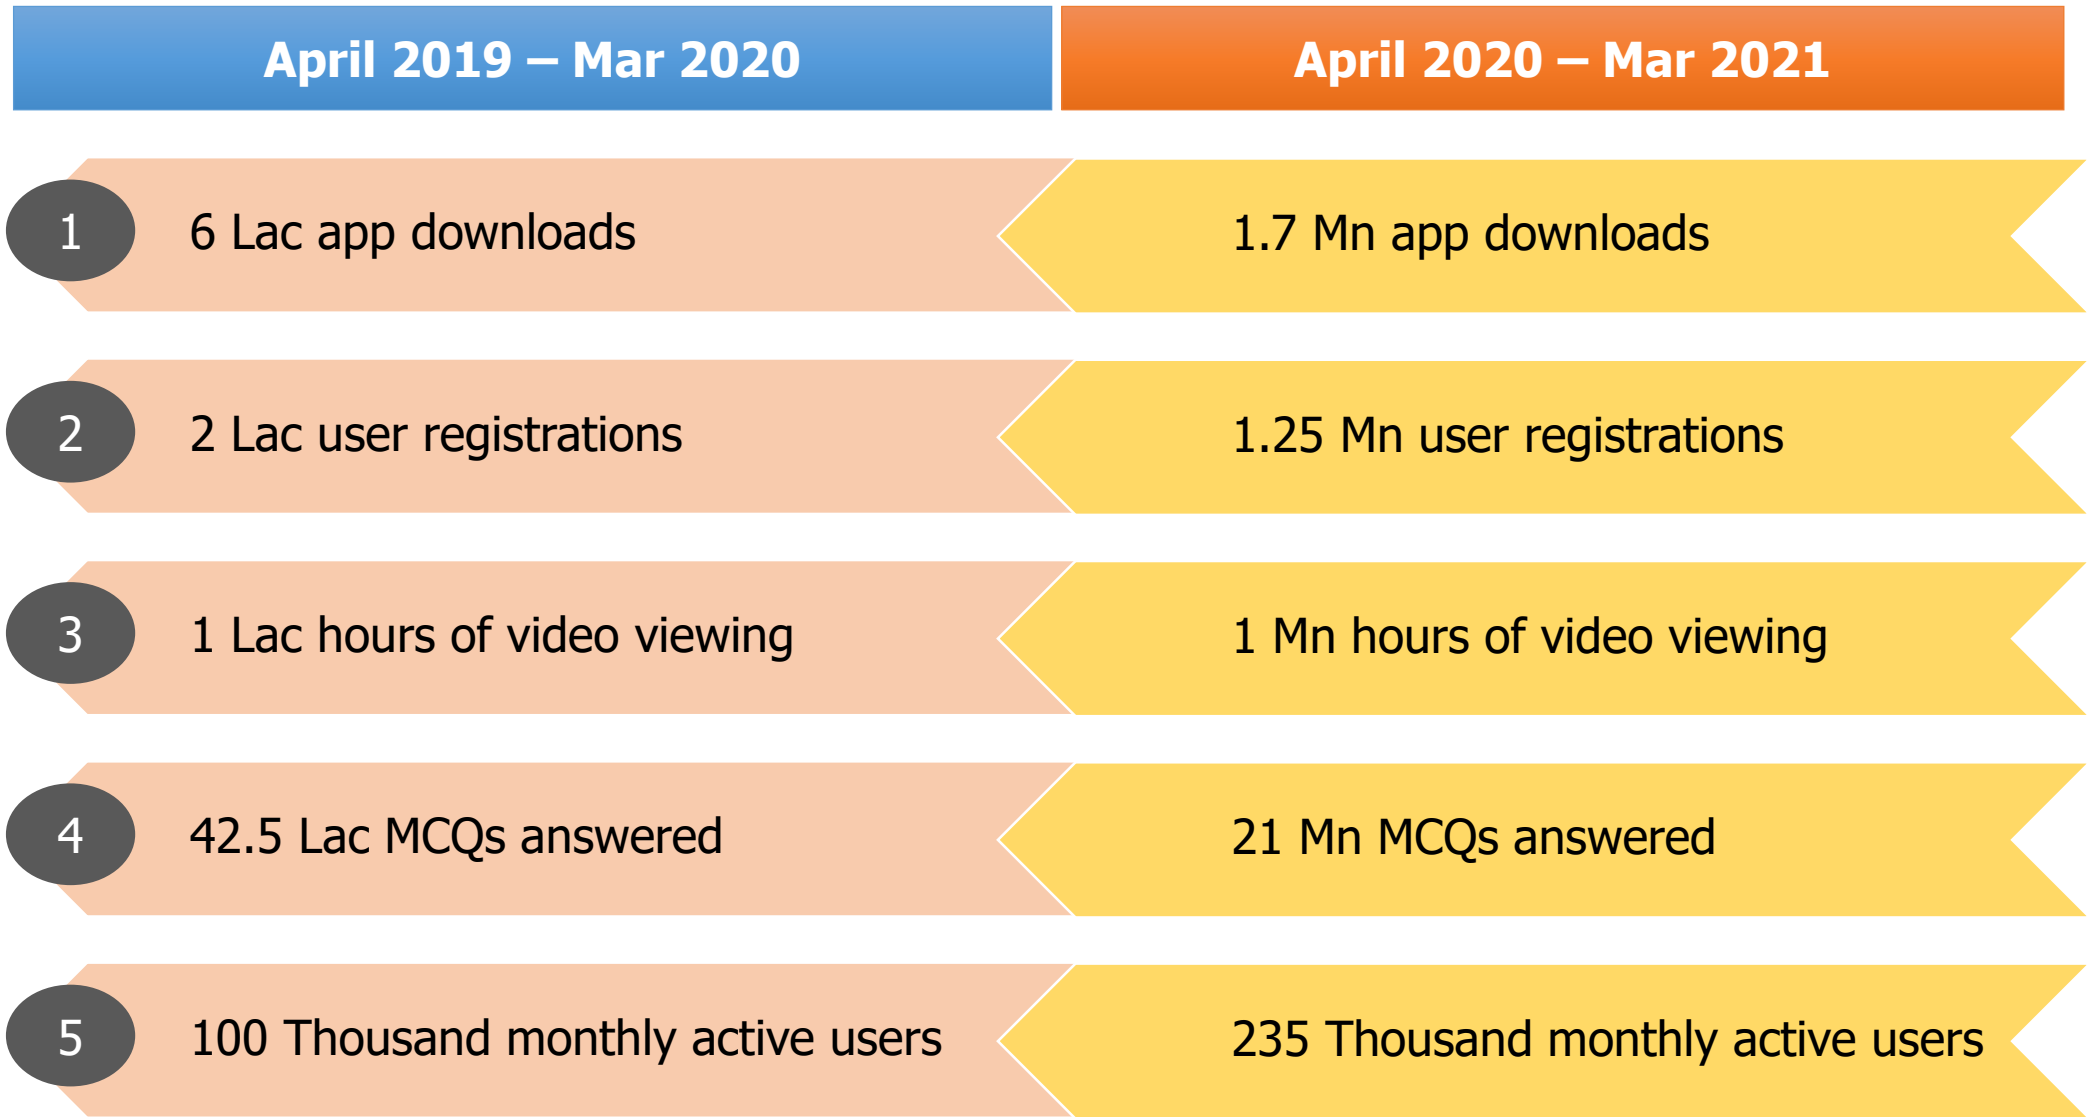

LACK OF QUALITY EDUCATION :

Online channel provides quality education to potential students currently, there is lack of quality education in many parts of India

GROWING YOUNG POPULATION :

Large fraction of Indian population is young thus enlarging the target population for online education. Acceptability for online education is higher in the younger demographic

The COVID-19 pandemic had a significant impact on the Company's results for the FY 21. The Company took immediate expense reduction actions to mitigate the impact of liquidity. The Company continued to cater the International Clientele which help the company to sail through this tough year.

Though the 2nd wave of COVID-19 seems to be of concern, we are hopeful that things will revive faster and it is being envisaged that the schools shall open during the ensuing year (FY'22) and the company shall be able to do a decent business in Publication segment. The International Business of Stationery shall continue to do a strong Business.

The Company with the advise of its Board, continues with its previously announced review of strategic opportunities. As previously disclosed, the Board's review is designed to accelerate the execution of Ed-tech Digital Strategic initiatives and enhance value for shareholders, including, but not limited to, continued execution of the Company's current business plan, new partnerships, joint ventures and other potential opportunities.

INDUSTRY OVERVIEW – E-Learning

India's Online Education market size to grow by USD 1.96 billion in 2021

It is expected that Online Education sector will witness a growth of 44% CAGR. Userbase will rise to 9.6 million by 2021

The Growth in the market size will be backed by an increase in the number of paid users in online education

Indian students using Online Education rank 'quality of course content' as the top reason for selecting a specific brand

“ Driven by combination of Demand, Supply & Macroeconomic drivers ”

Students prefer laptops over mobile phones for accessing online course content

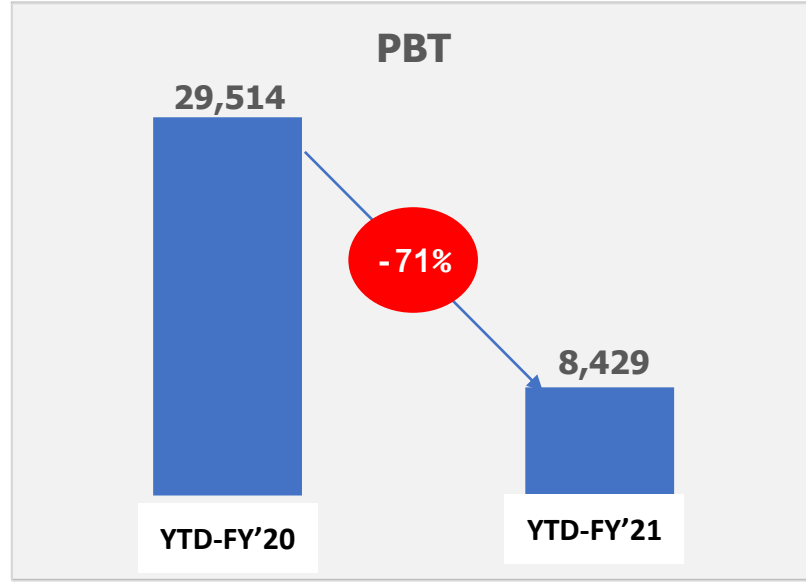

The background features a large circular area on the left containing a photograph of several students in school uniforms running on a track. The rest of the background is a light gray color with a repeating pattern of white line-art icons representing various educational fields such as science, art, and technology.
